

ELSEVIER

Journal of Chromatography A, 976 (2002) 445–453

JOURNAL OF
CHROMATOGRAPHY A

www.elsevier.com/locate/chroma

Subject Index Vol. 976

Acetaldehyde

Pervaporation–gas chromatography coupling for slurry samples.
Determination of acetaldehyde and acetone in food
976(2002)399

Acetone

Pervaporation–gas chromatography coupling for slurry samples.
Determination of acetaldehyde and acetone in food
976(2002)399

Acylglycerols

Gas chromatographic determination of fatty acids contained in
different lipid classes after their separation by solid-phase
extraction 976(2002)47

Air analysis

Sub-second thermal desorption of a micro-sorbent trap for the
analysis of ambient volatile organic compounds 976(2002)39

Determination of volatile organic compounds in ambient air.
Comparison of methods 976(2002)369

Alkylbenzenes

Determination of volatile organic compounds in ambient air.
Comparison of methods 976(2002)369

Alkylphenol polyethoxylates

Determination of nineteen 4-alkylphenol endocrine disrupters in
Geneva municipal sewage wastewater 976(2002)335

Alkylphenols

Determination of nineteen 4-alkylphenol endocrine disrupters in
Geneva municipal sewage wastewater 976(2002)335

Amines, aromatic

Determination of aromatic amines formed from azo colorants in
toy products 976(2002)309

Amino acids

Continuous flow derivatization system coupled to capillary
electrophoresis for the determination of amino acids
976(2002)55

Anthelmintics

Development and validation of a liquid chromatographic–
electrospray tandem mass spectrometric multiresidue method for
anthelmintics in milk 976(2002)181

Antibiotics

Liquid chromatography–ion trap tandem mass spectrometry for
the characterization of polypeptide antibiotics of the colistin
series in commercial samples 976(2002)65

Validation of a liquid chromatography–tandem mass
spectrometry method for the simultaneous quantification of 11
(fluoro)quinolone antibiotics in swine kidney 976(2002)195

Determination of cefotaxime and desacetylcefotaxime in
cerebrospinal fluid by solid-phase extraction and high-
performance liquid chromatography 976(2002)249

Aroma compounds

Aroma compound analysis of *Piper nigrum* and *Piper guineense*
essential oils from Cameroon using solid-phase microextraction–
gas chromatography, solid-phase microextraction–gas
chromatography–mass spectrometry and olfactometry
976(2002)265

Azo dyes

Determination of aromatic amines formed from azo colorants in
toy products 976(2002)309

Benzalkonium chlorides

Development and validation of a capillary zone electrophoresis
method for the determination of benzalkonium chlorides in
ophthalmic solutions 976(2002)207

Benzene

Determination of volatile organic compounds in ambient air.
Comparison of methods 976(2002)369

Benzimidazoles

Development and validation of a liquid chromatographic–
electrospray tandem mass spectrometric multiresidue method for
anthelmintics in milk 976(2002)181

Buffer composition

Determination of ebrotidine and its metabolites by micellar
electrokinetic capillary chromatography 976(2002)221

Cefotaxime

Determination of cefotaxime and desacetylcefotaxime in cerebrospinal fluid by solid-phase extraction and high-performance liquid chromatography 976(2002)249

Cephalosporins

Determination of cefotaxime and desacetylcefotaxime in cerebrospinal fluid by solid-phase extraction and high-performance liquid chromatography 976(2002)249

Chemiluminescence detection

Sulfur and nitrogen chemiluminescence detection in gas chromatographic analysis (Review) 976(2002)3

Chloroformates

Gas chromatographic–mass spectrometric quantification of 4-(5-)-methylimidazole in roasted coffee after ion-pair extraction 976(2002)285

Coffee

Gas chromatographic–mass spectrometric quantification of 4-(5-)-methylimidazole in roasted coffee after ion-pair extraction 976(2002)285

Colistins

Liquid chromatography–ion trap tandem mass spectrometry for the characterization of polypeptide antibiotics of the colistin series in commercial samples 976(2002)65

Column diameter

Quantification of the sensitivity increase of a micro-high-performance liquid chromatography–electrospray ionization mass spectrometry system with decreasing column diameter 976(2002)11

Column retentivity

Evaluation of high-performance liquid chromatography column retentivity using macromolecular probes. II. Silanophilic interactivity traced by highly polar polymers 976(2002)27

Continuous flow derivatization

Continuous flow derivatization system coupled to capillary electrophoresis for the determination of amino acids 976(2002)55

Derivatization, electrophoresis

Continuous flow derivatization system coupled to capillary electrophoresis for the determination of amino acids 976(2002)55

Derivatization, GC

Gas chromatographic–mass spectrometric quantification of 4-(5-)-methylimidazole in roasted coffee after ion-pair extraction 976(2002)285

Determination of *N*-nitrosamines in latex by sequential supercritical fluid extraction and derivatization 976(2002)301

Desacetylcefotaxime

Determination of cefotaxime and desacetylcefotaxime in cerebrospinal fluid by solid-phase extraction and high-performance liquid chromatography 976(2002)249

Detection, GC

Sulfur and nitrogen chemiluminescence detection in gas chromatographic analysis (Review) 976(2002)3

Detection, LC

Molecular mass characterization of polymers with strongly interacting groups using gel permeation chromatography–light scattering detection 976(2002)155

Determination of ethanol in alcoholic beverages by high-performance liquid chromatography–flame ionization detection using pure water as mobile phase 976(2002)387

Analysis of alkyl organoiodide mixtures by high-performance liquid chromatography using electrochemical detection with a post-column photochemical reactor 976(2002)423

Dichlorvos

Determination of dichlorvos by on-line microwave-assisted extraction coupled to headspace solid-phase microextraction and gas chromatography–electron-capture detection 976(2002)349

Dimethylhexylamine

Capillary liquid chromatographic–high-resolution mass spectrometric analysis of ribonucleotides 976(2002)135

DNA

Purification of proteins specifically binding human endogenous retrovirus K long terminal repeat by affinity elution chromatography 976(2002)95

Drugs

Hyphenated techniques in anticancer drug monitoring. I. Capillary gas chromatography–mass spectrometry (Review) 976(2002)229

Hyphenated techniques in anticancer drug monitoring. II. Liquid chromatography–mass spectrometry and capillary electrophoresis–mass spectrometry (Review) 976(2002)239

Ebrotidine

Determination of ebrotidine and its metabolites by micellar electrokinetic capillary chromatography 976(2002)221

Electrothermal vaporization

Development of new analytical methods for selenium speciation in selenium-enriched yeast material 976(2002)409

Endocrine disrupters

Determination of nineteen 4-alkylphenol endocrine disrupters in Geneva municipal sewage wastewater 976(2002)335

Endosulfan

Optimization of solid-phase extraction and solid-phase microextraction for the determination of α - and β -endosulfan in water by gas chromatography–electron-capture detection 976(2002)293

Environmental analysis

Multiresidue analysis of fungicides in soil by sonication-assisted extraction in small columns and gas chromatography 976(2002)319

Determination of nineteen 4-alkylphenol endocrine disrupters in Geneva municipal sewage wastewater 976(2002)335

Determination of volatile organic compounds in ambient air. Comparison of methods 976(2002)369

Application of static and dynamic liquid-phase microextraction in the determination of polycyclic aromatic hydrocarbons 976(2002)377

Monitoring polychlorinated biphenyls in pine needles using supercritical fluid extraction as a pretreatment method 976(2002)393

Escherichia coli

Investigating the effects of protein patterns on microorganism identification by high-performance liquid chromatography–mass spectrometry and protein database searches 976(2002)103

Enzymes

Determination of protein phosphorylation by extracellular signal-regulated kinase using capillary electrophoresis and matrix-assisted laser desorption ionization time-of-flight mass spectrometry 976(2002)79

Direct monitoring of the expression of the green fluorescent protein–extracellular signal-regulated kinase 2 fusion protein in transfected cells using capillary electrophoresis with laser-induced fluorescence detection 976(2002)87

Essential oils

Aroma compound analysis of *Piper nigrum* and *Piper guineense* essential oils from Cameroon using solid-phase microextraction–gas chromatography, solid-phase microextraction–gas chromatography–mass spectrometry and olfactometry 976(2002)265

Estrogen quinones

Oligonucleotide covalent modifications by estrogen quinones evidenced by use of liquid chromatography coupled to negative electrospray ionization tandem mass spectrometry 976(2002)123

Ethanol

Determination of ethanol in alcoholic beverages by high-performance liquid chromatography–flame ionization detection using pure water as mobile phase 976(2002)387

Ethoxylates

Determination of nineteen 4-alkylphenol endocrine disrupters in Geneva municipal sewage wastewater 976(2002)335

Extraction methods

Optimization of solid-phase extraction and solid-phase microextraction for the determination of α - and β -endosulfan in water by gas chromatography–electron-capture detection 976(2002)293

Multiresidue analysis of fungicides in soil by sonication-assisted extraction in small columns and gas chromatography 976(2002)319

Determination of dichlorvos by on-line microwave-assisted extraction coupled to headspace solid-phase microextraction and gas chromatography–electron-capture detection 976(2002)349

Analysis of polar pesticides in water and wine samples by automated in-tube solid-phase microextraction coupled with high-performance liquid chromatography–mass spectrometry 976(2002)357

Application of static and dynamic liquid-phase microextraction in the determination of polycyclic aromatic hydrocarbons 976(2002)377

Extracellular signal-regulated kinase

Determination of protein phosphorylation by extracellular signal-regulated kinase using capillary electrophoresis and matrix-assisted laser desorption ionization time-of-flight mass spectrometry 976(2002)79

Direct monitoring of the expression of the green fluorescent protein–extracellular signal-regulated kinase 2 fusion protein in transfected cells using capillary electrophoresis with laser-induced fluorescence detection 976(2002)87

Factorial design

Determination of *N*-nitrosamines in latex by sequential supercritical fluid extraction and derivatization 976(2002)301

Determination of aromatic amines formed from azo colorants in toy products 976(2002)309

Fatty acids

Gas chromatographic determination of fatty acids contained in different lipid classes after their separation by solid-phase extraction 976(2002)47

Flame ionization detection

Determination of ethanol in alcoholic beverages by high-performance liquid chromatography–flame ionization detection using pure water as mobile phase 976(2002)387

Fluoroquinolones

Validation of a liquid chromatography–tandem mass spectrometry method for the simultaneous quantification of 11 (fluoro)quinolone antibiotics in swine kidney 976(2002)195

Food analysis

Development and validation of a liquid chromatographic–electrospray tandem mass spectrometric multiresidue method for anthelmintics in milk 976(2002)181

Aroma compound analysis of *Piper nigrum* and *Piper guineense* essential oils from Cameroon using solid-phase microextraction–gas chromatography, solid-phase microextraction–gas chromatography–mass spectrometry and olfactometry 976(2002)265

High-performance liquid chromatographic determination of α -tocopherol in macroalgae 976(2002)277

Gas chromatographic–mass spectrometric quantification of 4-(5-)-methylimidazole in roasted coffee after ion-pair extraction 976(2002)285

Liquid chromatography with electrospray ion-trap mass spectrometry for the determination of yessotoxins in shellfish 976(2002)329

Automated sample preparation by pressurized liquid extraction–solid-phase extraction for the liquid chromatographic–mass spectrometric investigation of polyphenols in the brewing process 976(2002)345

Determination of dichlorvos by on-line microwave-assisted extraction coupled to headspace solid-phase microextraction and gas chromatography–electron-capture detection 976(2002)349

Analysis of polar pesticides in water and wine samples by automated in-tube solid-phase microextraction coupled with high-performance liquid chromatography–mass spectrometry 976(2002)357

Determination of ethanol in alcoholic beverages by high-performance liquid chromatography–flame ionization detection using pure water as mobile phase 976(2002)387

Pervaporation–gas chromatography coupling for slurry samples. Determination of acetaldehyde and acetone in food 976(2002)399

Fruit juices

Pervaporation–gas chromatography coupling for slurry samples. Determination of acetaldehyde and acetone in food 976(2002)399

Gas condensates

Speciation analysis for mercury in gas condensates by capillary gas chromatography with inductively coupled plasma mass spectrometric detection 976(2002)431

Glycerols

Gas chromatographic determination of fatty acids contained in different lipid classes after their separation by solid-phase extraction 976(2002)47

Comparative analysis of different plant oils by high-performance liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 976(2002)255

Green fluorescent protein

Direct monitoring of the expression of the green fluorescent protein–extracellular signal-regulated kinase 2 fusion protein in transfected cells using capillary electrophoresis with laser-induced fluorescence detection 976(2002)87

Halogenated compounds

Analysis of alkyl organoiodide mixtures by high-performance liquid chromatography using electrochemical detection with a post-column photochemical reactor 976(2002)423

Headspace analysis

Determination of dichlorvos by on-line microwave-assisted extraction coupled to headspace solid-phase microextraction and gas chromatography–electron-capture detection 976(2002)349

Human endogenous retrovirus

Purification of proteins specifically binding human endogenous retrovirus K long terminal repeat by affinity elution chromatography 976(2002)95

H₂-Receptor antagonist

Determination of ebrotidine and its metabolites by micellar electrokinetic capillary chromatography 976(2002)221

Imidazoles

Gas chromatographic–mass spectrometric quantification of 4-(5-)-methylimidazole in roasted coffee after ion-pair extraction 976(2002)285

Instrumentation

Glass nebulizer interface for capillary electrophoresis–Fourier transform infrared spectrometry 976(2002)19

Determination of ethanol in alcoholic beverages by high-performance liquid chromatography–flame ionization detection using pure water as mobile phase 976(2002)387

Interfaces, CE–FT-IR

Glass nebulizer interface for capillary electrophoresis–Fourier transform infrared spectrometry 976(2002)19

Iodoalkanes

Analysis of alkyl organoiodide mixtures by high-performance liquid chromatography using electrochemical detection with a post-column photochemical reactor 976(2002)423

Ionomers

Molecular mass characterization of polymers with strongly interacting groups using gel permeation chromatography–light scattering detection 976(2002)155

Ion-pairing reagents

Capillary liquid chromatographic–high-resolution mass spectrometric analysis of ribonucleotides 976(2002)135

Latex

Determination of *N*-nitrosamines in latex by sequential supercritical fluid extraction and derivatization 976(2002)301

Levamisole

Development and validation of a liquid chromatographic–electrospray tandem mass spectrometric multiresidue method for anthelmintics in milk 976(2002)181

Linear discriminant analysis

Comparative analysis of different plant oils by high-performance liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 976(2002)255

Lipids

Gas chromatographic determination of fatty acids contained in different lipid classes after their separation by solid-phase extraction 976(2002)47

Liquid chromatography

Quantification of the sensitivity increase of a micro-high-performance liquid chromatography–electrospray ionization mass spectrometry system with decreasing column diameter 976(2002)11

Liquid-phase microextraction

Application of static and dynamic liquid-phase microextraction in the determination of polycyclic aromatic hydrocarbons 976(2002)377

Macromolecular probes

Evaluation of high-performance liquid chromatography column retentivity using macromolecular probes. II. Silanophilic interactivity traced by highly polar polymers 976(2002)27

Mass spectrometry

Oligonucleotide covalent modifications by estrogen quinones evidenced by use of liquid chromatography coupled to negative electrospray ionization tandem mass spectrometry 976(2002)123

Mercury

Speciation analysis for mercury in gas condensates by capillary gas chromatography with inductively coupled plasma mass spectrometric detection 976(2002)431

Metals

Speciation analysis for mercury in gas condensates by capillary gas chromatography with inductively coupled plasma mass spectrometric detection 976(2002)431

Methylimidazole

Gas chromatographic–mass spectrometric quantification of 4-(5-)-methylimidazole in roasted coffee after ion-pair extraction 976(2002)285

Milk

Development and validation of a liquid chromatographic–electrospray tandem mass spectrometric multiresidue method for anthelmintics in milk 976(2002)181

Pervaporation–gas chromatography coupling for slurry samples. Determination of acetaldehyde and acetone in food 976(2002)399

Mobile phase composition

Determination of ethanol in alcoholic beverages by high-performance liquid chromatography–flame ionization detection using pure water as mobile phase 976(2002)387

Molecular mass

Molecular mass characterization of polymers with strongly interacting groups using gel permeation chromatography–light scattering detection 976(2002)155

Naphthoquinonesulfonate

Continuous flow derivatization system coupled to capillary electrophoresis for the determination of amino acids 976(2002)55

Nebulization

Glass nebulizer interface for capillary electrophoresis–Fourier transform infrared spectrometry 976(2002)19

Nitrogen compounds

Sulfur and nitrogen chemiluminescence detection in gas chromatographic analysis (Review) 976(2002)3

Nitrosamines

Determination of *N*-nitrosamines in latex by sequential supercritical fluid extraction and derivatization 976(2002)301

Nonylphenols

Determination of nineteen 4-alkylphenol endocrine disrupters in Geneva municipal sewage wastewater 976(2002)335

Nucleotides

Capillary liquid chromatographic–high-resolution mass spectrometric analysis of ribonucleotides 976(2002)135

Oils

Gas chromatographic determination of fatty acids contained in different lipid classes after their separation by solid-phase extraction 976(2002)47

Oligonucleotides

Oligonucleotide covalent modifications by estrogen quinones evidenced by use of liquid chromatography coupled to negative electrospray ionization tandem mass spectrometry 976(2002)123

Ophthalmic solutions

Development and validation of a capillary zone electrophoresis method for the determination of benzalkonium chlorides in ophthalmic solutions 976(2002)207

Organoiodide compounds

Analysis of alkyl organoiodide mixtures by high-performance liquid chromatography using electrochemical detection with a post-column photochemical reactor 976(2002)423

Organomercury compounds

Speciation analysis for mercury in gas condensates by capillary gas chromatography with inductively coupled plasma mass spectrometric detection 976(2002)431

Organoselenium compounds

Development of new analytical methods for selenium speciation in selenium-enriched yeast material 976(2002)409

Pervaporation

Pervaporation–gas chromatography coupling for slurry samples. Determination of acetaldehyde and acetone in food 976(2002)399

Pesticides

Optimization of solid-phase extraction and solid-phase microextraction for the determination of α - and β -endosulfan in water by gas chromatography–electron-capture detection 976(2002)293

Multiresidue analysis of fungicides in soil by sonication-assisted extraction in small columns and gas chromatography 976(2002)319

Determination of dichlorvos by on-line microwave-assisted extraction coupled to headspace solid-phase microextraction and gas chromatography–electron-capture detection 976(2002)349

Analysis of polar pesticides in water and wine samples by automated in-tube solid-phase microextraction coupled with high-performance liquid chromatography–mass spectrometry 976(2002)357

Pharmaceutical analysis

Liquid chromatography–ion trap tandem mass spectrometry for the characterization of polypeptide antibiotics of the colistin series in commercial samples 976(2002)65

Phenols

Determination of nineteen 4-alkylphenol endocrine disrupters in Geneva municipal sewage wastewater 976(2002)335

Pheochromocytoma cell line

Direct monitoring of the expression of the green fluorescent protein–extracellular signal-regulated kinase 2 fusion protein in transfected cells using capillary electrophoresis with laser-induced fluorescence detection 976(2002)87

Phosphates

Capillary liquid chromatographic–high-resolution mass spectrometric analysis of ribonucleotides 976(2002)135

Piper guineense

Aroma compound analysis of *Piper nigrum* and *Piper guineense* essential oils from Cameroon using solid-phase microextraction–gas chromatography, solid-phase microextraction–gas chromatography–mass spectrometry and olfactometry 976(2002)265

Piper nigrum

Aroma compound analysis of *Piper nigrum* and *Piper guineense* essential oils from Cameroon using solid-phase microextraction–gas chromatography, solid-phase microextraction–gas chromatography–mass spectrometry and olfactometry 976(2002)265

Plant materials

Aroma compound analysis of *Piper nigrum* and *Piper guineense* essential oils from Cameroon using solid-phase microextraction–gas chromatography, solid-phase microextraction–gas chromatography–mass spectrometry and olfactometry 976(2002)265

Monitoring polychlorinated biphenyls in pine needles using supercritical fluid extraction as a pretreatment method 976(2002)393

Poly(butylene terephthalate)

Characterization of poly(butylene terephthalate) by size-exclusion chromatography and matrix-assisted laser desorption/ionization time-of-flight mass spectrometry 976(2002)145

Polychlorinated biphenyls

Monitoring polychlorinated biphenyls in pine needles using supercritical fluid extraction as a pretreatment method 976(2002)393

Poly(ether amide)

Structure characterization of hyperbranched poly(ether amide)s. I. Preparative fractionation 976(2002)171

Poly(ethylene glycol)

Liquid chromatographic–electrospray ionization mass spectrometric analysis of neutral and charged polyethylene glycols 976(2002)165

Polymers

Evaluation of high-performance liquid chromatography column retentivity using macromolecular probes. II. Silanophilic interactivity traced by highly polar polymers 976(2002)27

Molecular mass characterization of polymers with strongly interacting groups using gel permeation chromatography–light scattering detection 976(2002)155

Structure characterization of hyperbranched poly(ether amide)s. I. Preparative fractionation 976(2002)171

Poly(methyl methacrylate)

Evaluation of high-performance liquid chromatography column retentivity using macromolecular probes. II. Silanophilic interactivity traced by highly polar polymers 976(2002)27

Polymyxins

Liquid chromatography–ion trap tandem mass spectrometry for the characterization of polypeptide antibiotics of the colistin series in commercial samples 976(2002)65

Polynuclear aromatic hydrocarbons

Application of static and dynamic liquid-phase microextraction in the determination of polycyclic aromatic hydrocarbons 976(2002)377

Polypeptides

Liquid chromatography–ion trap tandem mass spectrometry for the characterization of polypeptide antibiotics of the colistin series in commercial samples 976(2002)65

Polyphenols

Automated sample preparation by pressurized liquid extraction–solid-phase extraction for the liquid chromatographic–mass spectrometric investigation of polyphenols in the brewing process 976(2002)345

Polystyrene

Evaluation of high-performance liquid chromatography column retentivity using macromolecular probes. II. Silanophilic interactivity traced by highly polar polymers 976(2002)27

Preparative chromatography

Structure characterization of hyperbranched poly(ether amide)s. I. Preparative fractionation 976(2002)171

Protein database searches

Investigating the effects of protein patterns on microorganism identification by high-performance liquid chromatography–mass spectrometry and protein database searches 976(2002)103

Proteins

Determination of protein phosphorylation by extracellular signal-regulated kinase using capillary electrophoresis and matrix-assisted laser desorption ionization time-of-flight mass spectrometry 976(2002)79

Direct monitoring of the expression of the green fluorescent protein–extracellular signal-regulated kinase 2 fusion protein in transfected cells using capillary electrophoresis with laser-induced fluorescence detection 976(2002)87

Purification of proteins specifically binding human endogenous retrovirus K long terminal repeat by affinity elution chromatography 976(2002)95

Investigating the effects of protein patterns on microorganism identification by high-performance liquid chromatography–mass spectrometry and protein database searches 976(2002)103

Automated nanoflow liquid chromatography–tandem mass spectrometry for a differential display proteomic study on *Xenopus laevis* neuroendocrine cells 976(2002)113

Proteomics

Automated nanoflow liquid chromatography–tandem mass spectrometry for a differential display proteomic study on *Xenopus laevis* neuroendocrine cells 976(2002)113

Quinolones

Validation of a liquid chromatography–tandem mass spectrometry method for the simultaneous quantification of 11 (fluoro)quinolone antibiotics in swine kidney 976(2002)195

Quinones

Oligonucleotide covalent modifications by estrogen quinones evidenced by use of liquid chromatography coupled to negative electrospray ionization tandem mass spectrometry 976(2002)123

Reviews

Sulfur and nitrogen chemiluminescence detection in gas chromatographic analysis (Review) 976(2002)3

Hyphenated techniques in anticancer drug monitoring. I. Capillary gas chromatography–mass spectrometry (Review) 976(2002)229

Hyphenated techniques in anticancer drug monitoring. II. Liquid chromatography–mass spectrometry and capillary electrophoresis–mass spectrometry (Review) 976(2002)239

Ribonucleotides

Capillary liquid chromatographic–high-resolution mass spectrometric analysis of ribonucleotides 976(2002)135

Sample handling

Sub-second thermal desorption of a micro-sorbent trap for the analysis of ambient volatile organic compounds 976(2002)39

Determination of tocopherols, tocopherolquinones and tocopherolhydroquinones by gas chromatography–mass spectrometry and pre-separation with lipophilic gel chromatography 976(2002)215

Selenium

Development of new analytical methods for selenium speciation in selenium-enriched yeast material 976(2002)409

Sensitivity

Quantification of the sensitivity increase of a micro-high-performance liquid chromatography–electrospray ionization mass spectrometry system with decreasing column diameter 976(2002)11

Shellfish poisoning

Liquid chromatography with electrospray ion-trap mass spectrometry for the determination of yessotoxins in shellfish 976(2002)329

Soil

Multiresidue analysis of fungicides in soil by sonication-assisted extraction in small columns and gas chromatography 976(2002)319

Sonication-assisted extraction

Multiresidue analysis of fungicides in soil by sonication-assisted extraction in small columns and gas chromatography 976(2002)319

Stationary phases, LC

Evaluation of high-performance liquid chromatography column retentivity using macromolecular probes. II. Silanophilic interactivity traced by highly polar polymers 976(2002)27

Steroids

Oligonucleotide covalent modifications by estrogen quinones evidenced by use of liquid chromatography coupled to negative electrospray ionization tandem mass spectrometry 976(2002)123

Sulfur compounds

Sulfur and nitrogen chemiluminescence detection in gas chromatographic analysis (Review) 976(2002)3

Supercritical fluid extraction

Determination of *N*-nitrosamines in latex by sequential supercritical fluid extraction and derivatization 976(2002)301

Monitoring polychlorinated biphenyls in pine needles using supercritical fluid extraction as a pretreatment method 976(2002)393

Thermal desorption

Sub-second thermal desorption of a micro-sorbent trap for the analysis of ambient volatile organic compounds 976(2002)39

Determination of volatile organic compounds in ambient air. Comparison of methods 976(2002)369

Tocopherolhydroquinones

Determination of tocopherols, tocopherolquinones and tocopherolhydroquinones by gas chromatography–mass spectrometry and preseparation with lipophilic gel chromatography 976(2002)215

Tocopherolquinones

Determination of tocopherols, tocopherolquinones and tocopherolhydroquinones by gas chromatography–mass spectrometry and preseparation with lipophilic gel chromatography 976(2002)215

Tocopherols

Determination of tocopherols, tocopherolquinones and tocopherolhydroquinones by gas chromatography–mass spectrometry and preseparation with lipophilic gel chromatography 976(2002)215

High-performance liquid chromatographic determination of α -tocopherol in macroalgae 976(2002)277

Toluene

Determination of volatile organic compounds in ambient air. Comparison of methods 976(2002)369

Toxins

Liquid chromatography with electrospray ion-trap mass spectrometry for the determination of yessotoxins in shellfish 976(2002)329

Triacylglycerols

Comparative analysis of different plant oils by high-performance liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 976(2002)255

Validation

Development and validation of a liquid chromatographic–electrospray tandem mass spectrometric multiresidue method for anthelmintics in milk 976(2002)181

Validation of a liquid chromatography–tandem mass spectrometry method for the simultaneous quantification of 11 (fluoro)quinolone antibiotics in swine kidney 976(2002)195

Development and validation of a capillary zone electrophoresis method for the determination of benzalkonium chlorides in ophthalmic solutions 976(2002)207

Vegetable oils

Comparative analysis of different plant oils by high-performance liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 976(2002)255

Vegetables

Determination of dichlorvos by on-line microwave-assisted extraction coupled to headspace solid-phase microextraction and gas chromatography–electron-capture detection 976(2002)349

Volatile organic compounds

Sub-second thermal desorption of a micro-sorbent trap for the analysis of ambient volatile organic compounds 976(2002)39

Determination of volatile organic compounds in ambient air. Comparison of methods 976(2002)369

Water analysis

Optimization of solid-phase extraction and solid-phase microextraction for the determination of α - and β -endosulfan in water by gas chromatography–electron-capture detection 976(2002)293

Determination of nineteen 4-alkylphenol endocrine disrupters in Geneva municipal sewage wastewater 976(2002)335

Analysis of polar pesticides in water and wine samples by automated in-tube solid-phase microextraction coupled with high-performance liquid chromatography–mass spectrometry 976(2002)357

Application of static and dynamic liquid-phase microextraction in the determination of polycyclic aromatic hydrocarbons 976(2002)377

Wine

Analysis of polar pesticides in water and wine samples by automated in-tube solid-phase microextraction coupled with high-performance liquid chromatography–mass spectrometry 976(2002)357

Determination of ethanol in alcoholic beverages by high-performance liquid chromatography–flame ionization detection using pure water as mobile phase 976(2002)387

Xenopus laevis

Automated nanoflow liquid chromatography–tandem mass spectrometry for a differential display proteomic study on *Xenopus laevis* neuroendocrine cells 976(2002)113

Xylenes

Determination of volatile organic compounds in ambient air. Comparison of methods 976(2002)369

Yeast

Development of new analytical methods for selenium speciation in selenium-enriched yeast material 976(2002)409

Yessotoxins

Liquid chromatography with electrospray ion-trap mass spectrometry for the determination of yessotoxins in shellfish 976(2002)329
