## Subject Index Vol. 979

### Air analysis

Laser-induced fluorescence and UV detection of derivatized aldehydes in air samples using capillary electrophoresis 979(2002)409

### Aldehydes

Laser-induced fluorescence and UV detection of derivatized aldehydes in air samples using capillary electrophoresis 979(2002)409

### 1-Alkyl-3-methylimidazolium

Application of 1-alkyl-3-methylimidazolium-based ionic liquids in non-aqueous capillary electrophoresis 979(2002)27

### Alkylphenols

Separation and on-line concentration of bisphenol A and alkylphenols by micellar electrokinetic chromatography with cationic surfactant 979(2002)425

### Amines

Electrophoretic analysis of amines using reversed-phase, reversed-polarity, head-column field-amplified sample stacking and laser-induced fluorescence detection 979(2002)171

Separation and enantioseparation of derivatized amino acids and biogenic amines by high-performance liquid chromatography with reversed and chiral stationary phases 979(2002)191

Separation and determination of nitrobenzenes by micellar electrokinetic chromatography and high-performance liquid chromatography 979(2002)439

### Amino acids

Effect of feed zone width on product purity in preparative-scale, continuous free-flow isoelectric focusing separation of enantiomers 979(2002)123

Separation and enantioseparation of derivatized amino acids and biogenic amines by high-performance liquid chromatography with reversed and chiral stationary phases 979(2002)191

Rapid method for the determination of amino acids in serum by capillary electrophoresis 979(2002)227

### Amino alcohols

Combination of liquid-phase microextraction and on-column stacking for trace analysis of amino alcohols by capillary electrophoresis 979(2002)163

### Aminophosphonic acids

Separation of aromatic aminophosphonic acid enantiomers by capillary electrophoresis with the application of cyclodextrins 979(2002)115

### Aminopyrenetrisulfonate

Analysis of chitin oligosaccharides by capillary electrophoresis with laser-induced fluorescence 979(2002)431

### Amphetamines

Analysis of illicit amphetamine seizures by capillary zone electrophoresis 979(2002)345

### Ampholytes

Extension of separation range in capillary isoelectric focusing for resolving highly basic biomolecules 979(2002)271

### Angiotensin II receptor antagonists

Optimization and validation of a capillary zone electrophoretic method for the analysis of several angiotensin-II-receptor antagonists 979(2002)323

### Anthracyclines

Determination of free and liposome-associated daunorubicin and daunorubicinol in plasma by capillary electrophoresis 979(2002)379

### Antibiotics

Capillary electrophoresis study of outer membrane proteins of *Pseudomonas* strains upon antibiotic treatment 979(2002)277

Application of micellar electrokinetic chromatography to the determination of sultamicillin in oral pharmaceutical preparations 979(2002)315

Determination of free and liposome-associated daunorubicin and daunorubicinol in plasma by capillary electrophoresis 979(2002)379

**Background electrolyte composition**

Sample matrix influence on the choice of background electrolyte for the analysis of bases with capillary zone electrophoresis 979(2002)11

Simultaneous separation of different enantiomeric pairs in capillary electrophoresis by mixing different hemispherodextrins, a very versatile class of receptors 979(2002)137

Analysis of catecholamines by capillary electrophoresis and capillary electrophoresis–nanospray mass spectrometry. Use of aqueous and non-aqueous solutions compared with physical parameters 979(2002)179

Potential of formamide and *N*-methylformamide in nonaqueous capillary electrophoresis coupled to electrospray ionization mass spectrometry. Application to the analysis of  $\beta$ -blockers 979(2002)389

**Basic drugs**

Sample matrix influence on the choice of background electrolyte for the analysis of bases with capillary zone electrophoresis 979(2002)11

Peak compression effects in capillary electrochromatography of basic drug substances using a strong cation-exchanger 979(2002)335

**Benzoic acids**

Rapid screening of  $pK_a$  values of pharmaceuticals by pressure-assisted capillary electrophoresis combined with short-end injection 979(2002)369

**Beta-Blockers**

Combination of liquid-phase microextraction and on-column stacking for trace analysis of amino alcohols by capillary electrophoresis 979(2002)163

Potential of formamide and *N*-methylformamide in nonaqueous capillary electrophoresis coupled to electrospray ionization mass spectrometry. Application to the analysis of  $\beta$ -blockers 979(2002)389

**Bisphenol A**

Separation and on-line concentration of bisphenol A and alkylphenols by micellar electrokinetic chromatography with cationic surfactant 979(2002)425

**Borate**

Potential binding of borate ions to mono- and oligonucleotides: a capillary electrophoresis investigation 979(2002)285

**Bradykinin**

Extension of separation range in capillary isoelectric focusing for resolving highly basic biomolecules 979(2002)271

**Buffer composition**

Electroosmotic flow variations caused by the volatility of buffer components: diagnosis and therapy 979(2002)97

Determination of recombinant hirudin structural deviants by capillary zone electrophoresis augmented with buffer additives 979(2002)217

Comparison of the separation of large DNA fragments in the presence and absence of electroosmotic flow at high pH 979(2002)299

Peak compression effects in capillary electrochromatography of basic drug substances using a strong cation-exchanger 979(2002)335

Separation and on-line concentration of bisphenol A and alkylphenols by micellar electrokinetic chromatography with cationic surfactant 979(2002)425

Separation and determination of nitrobenzenes by micellar electrokinetic chromatography and high-performance liquid chromatography 979(2002)439

**Calibration**

Evaluation of calibration data in capillary electrophoresis using artificial neural networks to increase precision of analysis 979(2002)59

**Cancer cell extracts**

Two dimensional mapping of cancer cell extracts by liquid chromatography–capillary electrophoresis with ultraviolet absorbance detection 979(2002)81

**Capillary columns**

Microcolumns with self-assembled particle frits for proteomics 979(2002)233

**Capillary electrophoresis**

Evaluation and optimization of capillary zone electrophoresis with different dynamic capillary coatings for the determination of carbohydrate-deficient transferrin in human serum 979(2002)43

Rapid screening of  $pK_a$  values of pharmaceuticals by pressure-assisted capillary electrophoresis combined with short-end injection 979(2002)369

**Carboxylic acids**

On-line sample preconcentration in micellar electrokinetic chromatography using ion-pair reagents 979(2002)131

**Catecholamines**

Analysis of catecholamines by capillary electrophoresis and capillary electrophoresis–nanospray mass spectrometry. Use of aqueous and non-aqueous solutions compared with physical parameters 979(2002)179

**Cation-exchangers**

Peak compression effects in capillary electrochromatography of basic drug substances using a strong cation-exchanger 979(2002)335

**Chip technology**

Micromachined capillary cross-connector for high-precision fraction collection 979(2002)105

Voltage-addressable on/off microvalves for high-pressure microchip separations 979(2002)147

**Chitin**

Analysis of chitin oligosaccharides by capillary electrophoresis with laser-induced fluorescence 979(2002)431

**Coated capillaries**

Evaluation and optimization of capillary zone electrophoresis with different dynamic capillary coatings for the determination of carbohydrate-deficient transferrin in human serum 979(2002)43

On-line concentration of trace proteins by pH junctions in capillary electrophoresis with UV absorption detection 979(2002)261

**Coumarins**

Sub-second liquid chromatographic separations by means of shear-driven chromatography 979(2002)33

**Cyanine dyes**

Handling and detection of 0.8 amol of a near-infrared cyanine dye by capillary electrophoresis with laser-induced fluorescence detection 979(2002)307

**Cyclodextrins**

Separation of aromatic aminophosphonic acid enantiomers by capillary electrophoresis with the application of cyclodextrins 979(2002)115

Simultaneous separation of different enantiomeric pairs in capillary electrophoresis by mixing different hemispherodextrins, a very versatile class of receptors 979(2002)137

Separation and migration behavior of structurally related phenothiazines in cyclodextrin-modified capillary zone electrophoresis 979(2002)399

**Cytochromes**

Miniaturized membrane-based reversed-phase chromatography and enzyme reactor for protein digestion, peptide separation, and protein identification using electrospray ionization mass spectrometry 979(2002)241

Extension of separation range in capillary isoelectric focusing for resolving highly basic biomolecules 979(2002)271

**Dansylhydrazine**

Laser-induced fluorescence and UV detection of derivatized aldehydes in air samples using capillary electrophoresis 979(2002)409

**Daunorubicin**

Determination of free and liposome-associated daunorubicin and daunorubicinol in plasma by capillary electrophoresis 979(2002)379

**Daunorubicinol**

Determination of free and liposome-associated daunorubicin and daunorubicinol in plasma by capillary electrophoresis 979(2002)379

**DaunoXome**

Determination of free and liposome-associated daunorubicin and daunorubicinol in plasma by capillary electrophoresis 979(2002)379

**Derivatization, electrophoresis**

Laser-induced fluorescence and UV detection of derivatized aldehydes in air samples using capillary electrophoresis 979(2002)409

Analysis of chitin oligosaccharides by capillary electrophoresis with laser-induced fluorescence 979(2002)431

**Detection, electrophoresis**

Handling and detection of 0.8 amol of a near-infrared cyanine dye by capillary electrophoresis with laser-induced fluorescence detection 979(2002)307

**Diffusion**

Novel general expressions that describe the behavior of the height equivalent to a theoretical plate in chromatographic systems involving electrically-driven and pressure-driven flows 979(2002)447

**Dinitrofluorobenzene**

Rapid method for the determination of amino acids in serum by capillary electrophoresis 979(2002)227

**Dissociation constants**

Rapid screening of  $pK_a$  values of pharmaceuticals by pressure-assisted capillary electrophoresis combined with short-end injection 979(2002)369

**DNA**

Micromachined capillary cross-connector for high-precision fraction collection 979(2002)105

Potential binding of borate ions to mono- and oligonucleotides: a capillary electrophoresis investigation 979(2002)285

Comparison of the separation of large DNA fragments in the presence and absence of electroosmotic flow at high pH 979(2002)299

Handling and detection of 0.8 amol of a near-infrared cyanine dye by capillary electrophoresis with laser-induced fluorescence detection 979(2002)307

**Drugs**

Analysis of illicit amphetamine seizures by capillary zone electrophoresis 979(2002)345

**Dyes**

Sub-second liquid chromatographic separations by means of shear-driven chromatography 979(2002)33

Choice of different dyes to label tyrosine and nitrotyrosine 979(2002)209

Handling and detection of 0.8 amol of a near-infrared cyanine dye by capillary electrophoresis with laser-induced fluorescence detection 979(2002)307

**Ecstasy**

Analysis of illicit amphetamine seizures by capillary zone electrophoresis 979(2002)345

**Electrochromatography**

Novel surface modification of polymer-based separation media controlling separation selectivity, retentivity and generation of electroosmotic flow 979(2002)3

Peak compression effects in capillary electrochromatography of basic drug substances using a strong cation-exchanger 979(2002)335

Novel general expressions that describe the behavior of the height equivalent to a theoretical plate in chromatographic systems involving electrically-driven and pressure-driven flows 979(2002)447

**Electrolysis**

Analysis of active chemical species generated by electrolysis using non-aqueous capillary electrophoresis. Detection of the anion radical and the divalent anion of tetracyanoquinodimethane 979(2002)91

**Electroosmotic flow**

Novel surface modification of polymer-based separation media controlling separation selectivity, retentivity and generation of electroosmotic flow 979(2002)3

Electroosmotic flow variations caused by the volatility of buffer components: diagnosis and therapy 979(2002)97

Comparison of the separation of large DNA fragments in the presence and absence of electroosmotic flow at high pH 979(2002)299

Novel general expressions that describe the behavior of the height equivalent to a theoretical plate in chromatographic systems involving electrically-driven and pressure-driven flows 979(2002)447

**Enantiomer separation**

Separation of aromatic aminophosphonic acid enantiomers by capillary electrophoresis with the application of cyclodextrins 979(2002)115

Effect of feed zone width on product purity in preparative-scale, continuous free-flow isoelectric focusing separation of enantiomers 979(2002)123

Simultaneous separation of different enantiomeric pairs in capillary electrophoresis by mixing different hemispherodextrins, a very versatile class of receptors 979(2002)137

Separation and enantioseparation of derivatized amino acids and biogenic amines by high-performance liquid chromatography with reversed and chiral stationary phases 979(2002)191

**Endocrine disruptors**

Separation and on-line concentration of bisphenol A and alkylphenols by micellar electrokinetic chromatography with cationic surfactant 979(2002)425

**Environmental analysis**

Separation and identification of aromatic acids in soil and the Everglades sediment samples using solid-phase microextraction followed by capillary zone electrophoresis 979(2002)417

**Ephedrine**

Analysis of illicit amphetamine seizures by capillary zone electrophoresis 979(2002)345

**Experimental design**

Optimization and validation of a capillary zone electrophoretic method for the analysis of several angiotensin-II-receptor antagonists 979(2002)323

**Extraction methods**

Combination of liquid-phase microextraction and on-column stacking for trace analysis of amino alcohols by capillary electrophoresis 979(2002)163

**Field-enhanced sample stacking**

Combination of liquid-phase microextraction and on-column stacking for trace analysis of amino alcohols by capillary electrophoresis 979(2002)163

Electrophoretic analysis of amines using reversed-phase, reversed-polarity, head-column field-amplified sample stacking and laser-induced fluorescence detection 979(2002)171

**Forensic analysis**

Analysis of illicit amphetamine seizures by capillary zone electrophoresis 979(2002)345

**Formamide**

Potential of formamide and *N*-methylformamide in nonaqueous capillary electrophoresis coupled to electrospray ionization mass spectrometry. Application to the analysis of  $\beta$ -blockers 979(2002)389

**Fraction collection**

Micromachined capillary cross-connector for high-precision fraction collection 979(2002)105

**Frits**

Microcolumns with self-assembled particle frits for proteomics 979(2002)233

**Glycohemoglobin**

Direct monitoring of glycohemoglobin A<sub>1c</sub> in the blood samples of diabetic patients by capillary electrophoresis. Comparison with an immunoassay method 979(2002)201

**Gradiflow**

Preparative-scale isoelectric trapping separations using a modified Gradiflow unit 979(2002)155

**Height equivalent to a theoretical plate**

Novel general expressions that describe the behavior of the height equivalent to a theoretical plate in chromatographic systems involving electrically-driven and pressure-driven flows 979(2002)447

**Hemispherodextrins**

Simultaneous separation of different enantiomeric pairs in capillary electrophoresis by mixing different hemispherodextrins, a very versatile class of receptors 979(2002)137

**Hemoglobins**

Direct monitoring of glycohemoglobin A<sub>1c</sub> in the blood samples of diabetic patients by capillary electrophoresis. Comparison with an immunoassay method 979(2002)201

**Hirudin**

Determination of recombinant hirudin structural deviants by capillary zone electrophoresis augmented with buffer additives 979(2002)217

**Homocysteine**

Assay of total homocysteine and other thiols by capillary electrophoresis and laser-induced fluorescence detection. II. Pre-analytical and analytical conditions 979(2002)255

**Ibuprofen**

Rapid screening of pK<sub>a</sub> values of pharmaceuticals by pressure-assisted capillary electrophoresis combined with short-end injection 979(2002)369

**Injection bands**

Sub-second liquid chromatographic separations by means of shear-driven chromatography 979(2002)33

**Injection methods**

Rapid screening of pK<sub>a</sub> values of pharmaceuticals by pressure-assisted capillary electrophoresis combined with short-end injection 979(2002)369

**Instrumentation**

Sub-second liquid chromatographic separations by means of shear-driven chromatography 979(2002)33

Micromachined capillary cross-connector for high-precision fraction collection 979(2002)105

Voltage-addressable on/off microvalves for high-pressure microchip separations 979(2002)147

Microcolumns with self-assembled particle frits for proteomics 979(2002)233

Miniaturized membrane-based reversed-phase chromatography and enzyme reactor for protein digestion, peptide separation, and protein identification using electrospray ionization mass spectrometry 979(2002)241

**Intraparticle convection**

Novel general expressions that describe the behavior of the height equivalent to a theoretical plate in chromatographic systems involving electrically-driven and pressure-driven flows 979(2002)447

**Intraparticle diffusion**

Novel general expressions that describe the behavior of the height equivalent to a theoretical plate in chromatographic systems involving electrically-driven and pressure-driven flows 979(2002)447

**Iodoacetamidofluoresceine**

Assay of total homocysteine and other thiols by capillary electrophoresis and laser-induced fluorescence detection. II. Pre-analytical and analytical conditions 979(2002)255

**Ionic liquids**

Application of 1-alkyl-3-methylimidazolium-based ionic liquids in non-aqueous capillary electrophoresis 979(2002)27

**Ion-pair reagents**

On-line sample preconcentration in micellar electrokinetic chromatography using ion-pair reagents 979(2002)131

**Isoelectric focusing**

Effect of feed zone width on product purity in preparative-scale, continuous free-flow isoelectric focusing separation of enantiomers 979(2002)123

Preparative-scale isoelectric trapping separations using a modified Gradiflow unit 979(2002)155

Extension of separation range in capillary isoelectric focusing for resolving highly basic biomolecules 979(2002)271

**Isoelectric point**

Extension of separation range in capillary isoelectric focusing for resolving highly basic biomolecules 979(2002)271

**Isoelectric trapping**

Preparative-scale isoelectric trapping separations using a modified Gradiflow unit 979(2002)155

**Isotachophoresis–zone electrophoresis**

Sample pre-concentration by isotachophoresis in microfluidic devices 979(2002)69

**Ketones**

Laser-induced fluorescence and UV detection of derivatized aldehydes in air samples using capillary electrophoresis 979(2002)409

**Lactams**

Application of micellar electrokinetic chromatography to the determination of sulfamonomycin in oral pharmaceutical preparations 979(2002)315

**Lactones**

Application of micellar electrokinetic chromatography to the determination of sulfamonomycin in oral pharmaceutical preparations 979(2002)315

**Lamotrigine**

Therapeutic drug monitoring of lamotrigine using capillary electrophoresis. Evaluation of assay performance and quality assurance over a 4-year period in the routine arena 979(2002)353

**Least-squares analysis**

Evaluation of calibration data in capillary electrophoresis using artificial neural networks to increase precision of analysis 979(2002)59

Therapeutic drug monitoring of lamotrigine using capillary electrophoresis. Evaluation of assay performance and quality assurance over a 4-year period in the routine arena 979(2002)353

**Lidocaine**

Rapid screening of  $pK_a$  values of pharmaceuticals by pressure-assisted capillary electrophoresis combined with short-end injection 979(2002)369

**Liquid chromatography**

Novel general expressions that describe the behavior of the height equivalent to a theoretical plate in chromatographic systems involving electrically-driven and pressure-driven flows 979(2002)447

**Liquid-phase microextraction**

Combination of liquid-phase microextraction and on-column stacking for trace analysis of amino alcohols by capillary electrophoresis 979(2002)163

**Mathematical modelling**

Novel general expressions that describe the behavior of the height equivalent to a theoretical plate in chromatographic systems involving electrically-driven and pressure-driven flows 979(2002)447

**Matrix effects**

Sample matrix influence on the choice of background electrolyte for the analysis of bases with capillary zone electrophoresis 979(2002)11

**Memantine**

Evaluation of calibration data in capillary electrophoresis using artificial neural networks to increase precision of analysis 979(2002)59

**Membranes**

Preparative-scale isoelectric trapping separations using a modified Gradiflow unit 979(2002)155

Miniaturized membrane-based reversed-phase chromatography and enzyme reactor for protein digestion, peptide separation, and protein identification using electrospray ionization mass spectrometry 979(2002)241

**Metallothioneins**

Evidence for oligomerization of metallothioneins in their functional state 979(2002)249

**Methacrylic acid**

Novel surface modification of polymer-based separation media controlling separation selectivity, retentivity and generation of electroosmotic flow 979(2002)3

**Methylformamide**

Potential of formamide and *N*-methylformamide in nonaqueous capillary electrophoresis coupled to electrospray ionization mass spectrometry. Application to the analysis of  $\beta$ -blockers 979(2002)389

**Microfluidics**

Sample pre-concentration by isotachopheresis in microfluidic devices 979(2002)69

Micromachined capillary cross-connector for high-precision fraction collection 979(2002)105

**Migration behaviour**

Separation and migration behavior of structurally related phenothiazines in cyclodextrin-modified capillary zone electrophoresis 979(2002)399

**Mobile phase composition**

Separation and enantioseparation of derivatized amino acids and biogenic amines by high-performance liquid chromatography with reversed and chiral stationary phases 979(2002)191

Separation and determination of nitrobenzenes by micellar electrokinetic chromatography and high-performance liquid chromatography 979(2002)439

**Mononucleotides**

Potential binding of borate ions to mono- and oligonucleotides: a capillary electrophoresis investigation 979(2002)285

**Naphthalenesulfonic acids**

On-line sample preconcentration in micellar electrokinetic chromatography using ion-pair reagents 979(2002)131

**Neural networks, artificial**

Evaluation of calibration data in capillary electrophoresis using artificial neural networks to increase precision of analysis 979(2002)59

**Nitrobenzenes**

Separation and determination of nitrobenzenes by micellar electrokinetic chromatography and high-performance liquid chromatography 979(2002)439

**Nitrophenols**

Separation and determination of nitrobenzenes by micellar electrokinetic chromatography and high-performance liquid chromatography 979(2002)439

**Nitrotyrosine**

Choice of different dyes to label tyrosine and nitrotyrosine 979(2002)209

**Non-aqueous capillary electrophoresis**

Analysis of active chemical species generated by electrolysis using non-aqueous capillary electrophoresis. Detection of the anion radical and the divalent anion of tetracyanoquinodimethane 979(2002)91

Analysis of catecholamines by capillary electrophoresis and capillary electrophoresis–nanospray mass spectrometry. Use of aqueous and non-aqueous solutions compared with physical parameters 979(2002)179

Potential of formamide and *N*-methylformamide in nonaqueous capillary electrophoresis coupled to electrospray ionization mass spectrometry. Application to the analysis of  $\beta$ -blockers 979(2002)389

**Non-aqueous electrophoresis**

Application of 1-alkyl-3-methylimidazolium-based ionic liquids in non-aqueous capillary electrophoresis 979(2002)27

**Octanol–water partition coefficients**

Separation and enantioseparation of derivatized amino acids and biogenic amines by high-performance liquid chromatography with reversed and chiral stationary phases 979(2002)191

**Oligonucleotides**

Potential binding of borate ions to mono- and oligonucleotides: a capillary electrophoresis investigation 979(2002)285

**Oligosaccharides**

Analysis of chitin oligosaccharides by capillary electrophoresis with laser-induced fluorescence 979(2002)431

**Organic acids**

Separation and identification of aromatic acids in soil and the Everglades sediment samples using solid-phase microextraction followed by capillary zone electrophoresis 979(2002)417

**Organophosphorus compounds**

Separation of aromatic aminophosphonic acid enantiomers by capillary electrophoresis with the application of cyclodextrins 979(2002)115

**Organosulfur compounds**

Evidence for oligomerization of metallothioneins in their functional state 979(2002)249

**Peak compression**

Peak compression effects in capillary electrochromatography of basic drug substances using a strong cation-exchanger 979(2002)335

**Peak shape**

Sample matrix influence on the choice of background electrolyte for the analysis of bases with capillary zone electrophoresis 979(2002)11

**Peptides**

Sample pre-concentration by isotachopheresis in microfluidic devices 979(2002)69

Miniaturized membrane-based reversed-phase chromatography and enzyme reactor for protein digestion, peptide separation, and protein identification using electrospray ionization mass spectrometry 979(2002)241

Extension of separation range in capillary isoelectric focusing for resolving highly basic biomolecules 979(2002)271

**Pharmaceutical analysis**

Evaluation of calibration data in capillary electrophoresis using artificial neural networks to increase precision of analysis 979(2002)59

Application of micellar electrokinetic chromatography to the determination of sultamicillin in oral pharmaceutical preparations 979(2002)315

Optimization and validation of a capillary zone electrophoretic method for the analysis of several angiotensin-II-receptor antagonists 979(2002)323

Peak compression effects in capillary electrochromatography of basic drug substances using a strong cation-exchanger 979(2002)335

Rapid screening of  $pK_a$  values of pharmaceuticals by pressure-assisted capillary electrophoresis combined with short-end injection 979(2002)369

**Pharmalytes**

Extension of separation range in capillary isoelectric focusing for resolving highly basic biomolecules 979(2002)271

**Phenols**

Separation and on-line concentration of bisphenol A and alkylphenols by micellar electrokinetic chromatography with cationic surfactant 979(2002)425

**Phenothiazines**

Separation and migration behavior of structurally related phenothiazines in cyclodextrin-modified capillary zone electrophoresis 979(2002)399

**Plate height**

Novel general expressions that describe the behavior of the height equivalent to a theoretical plate in chromatographic systems involving electrically-driven and pressure-driven flows 979(2002)447

**Poly(ethylene oxide)**

On-line concentration of trace proteins by pH junctions in capillary electrophoresis with UV absorption detection 979(2002)261

**Pore size distribution**

Novel general expressions that describe the behavior of the height equivalent to a theoretical plate in chromatographic systems involving electrically-driven and pressure-driven flows 979(2002)447

**Precision**

Evaluation of calibration data in capillary electrophoresis using artificial neural networks to increase precision of analysis 979(2002)59

Determination of recombinant hirudin structural deviants by capillary zone electrophoresis augmented with buffer additives 979(2002)217

**Preparative electrophoresis**

Effect of feed zone width on product purity in preparative-scale, continuous free-flow isoelectric focusing separation of enantiomers 979(2002)123

Preparative-scale isoelectric trapping separations using a modified Gradiflow unit 979(2002)155

**Pressure-assisted capillary electrophoresis**

Rapid screening of  $pK_a$  values of pharmaceuticals by pressure-assisted capillary electrophoresis combined with short-end injection 979(2002)369

**Profens**

Simultaneous separation of different enantiomeric pairs in capillary electrophoresis by mixing different hemispherodextrins, a very versatile class of receptors 979(2002)137

Rapid screening of  $pK_a$  values of pharmaceuticals by pressure-assisted capillary electrophoresis combined with short-end injection 979(2002)369

**Proteins**

Evaluation and optimization of capillary zone electrophoresis with different dynamic capillary coatings for the determination of carbohydrate-deficient transferrin in human serum 979(2002)43

Preparative-scale isoelectric trapping separations using a modified Gradiflow unit 979(2002)155

Direct monitoring of glycohemoglobin  $A_{1c}$  in the blood samples of diabetic patients by capillary electrophoresis. Comparison with an immunoassay method 979(2002)201

Determination of recombinant hirudin structural deviants by capillary zone electrophoresis augmented with buffer additives 979(2002)217

Microcolumns with self-assembled particle frits for proteomics 979(2002)233

Miniaturized membrane-based reversed-phase chromatography and enzyme reactor for protein digestion, peptide separation, and protein identification using electrospray ionization mass spectrometry 979(2002)241

Evidence for oligomerization of metallothioneins in their functional state 979(2002)249

On-line concentration of trace proteins by pH junctions in capillary electrophoresis with UV absorption detection 979(2002)261

Extension of separation range in capillary isoelectric focusing for resolving highly basic biomolecules 979(2002)271

Capillary electrophoresis study of outer membrane proteins of *Pseudomonas* strains upon antibiotic treatment 979(2002)277

**Proteomics**

Microcolumns with self-assembled particle frits for proteomics 979(2002)233

***Pseudomonas aeruginosa***

Capillary electrophoresis study of outer membrane proteins of *Pseudomonas* strains upon antibiotic treatment 979(2002)277

**Quality control**

Therapeutic drug monitoring of lamotrigine using capillary electrophoresis. Evaluation of assay performance and quality assurance over a 4-year period in the routine arena 979(2002)353

**Rimantadine**

Evaluation of calibration data in capillary electrophoresis using artificial neural networks to increase precision of analysis 979(2002)59

**Rutin**

Evaluation of calibration data in capillary electrophoresis using artificial neural networks to increase precision of analysis 979(2002)59

**Sample handling**

Sample pre-concentration by isotachopheresis in microfluidic devices 979(2002)69

On-line sample preconcentration in micellar electrokinetic chromatography using ion-pair reagents 979(2002)131

#### **Sample stacking**

On-line concentration of trace proteins by pH junctions in capillary electrophoresis with UV absorption detection 979(2002)261

#### **Sediment**

Separation and identification of aromatic acids in soil and the Everglades sediment samples using solid-phase microextraction followed by capillary zone electrophoresis 979(2002)417

#### **Selectivity**

Novel surface modification of polymer-based separation media controlling separation selectivity, retentivity and generation of electroosmotic flow 979(2002)3

#### **Self-assembled particles**

Microcolumns with self-assembled particle frits for proteomics 979(2002)233

#### **Shear-driven chromatography**

Sub-second liquid chromatographic separations by means of shear-driven chromatography 979(2002)33

#### **Soil**

Separation and identification of aromatic acids in soil and the Everglades sediment samples using solid-phase microextraction followed by capillary zone electrophoresis 979(2002)417

#### **Solid-phase microextraction**

Separation and identification of aromatic acids in soil and the Everglades sediment samples using solid-phase microextraction followed by capillary zone electrophoresis 979(2002)417

#### **Stability studies**

Determination of recombinant hirudin structural deviants by capillary zone electrophoresis augmented with buffer additives 979(2002)217

#### **Stationary phases, electrochromatography**

Novel surface modification of polymer-based separation media controlling separation selectivity, retentivity and generation of electroosmotic flow 979(2002)3

#### **Stationary phases, LC**

Novel surface modification of polymer-based separation media controlling separation selectivity, retentivity and generation of electroosmotic flow 979(2002)3

#### **Sultamicillin**

Application of micellar electrokinetic chromatography to the determination of sultamicillin in oral pharmaceutical preparations 979(2002)315

#### **Surface modification**

Novel surface modification of polymer-based separation media controlling separation selectivity, retentivity and generation of electroosmotic flow 979(2002)3

#### **Sweeping**

On-line sample preconcentration in micellar electrokinetic chromatography using ion-pair reagents 979(2002)131

Separation and on-line concentration of bisphenol A and alkylphenols by micellar electrokinetic chromatography with cationic surfactant 979(2002)425

#### **Tetracyanoquinodimethane**

Analysis of active chemical species generated by electrolysis using non-aqueous capillary electrophoresis. Detection of the anion radical and the divalent anion of tetracyanoquinodimethane 979(2002)91

#### **Tetramethylethylenediamine**

Extension of separation range in capillary isoelectric focusing for resolving highly basic biomolecules 979(2002)271

#### **Thiols**

Assay of total homocysteine and other thiols by capillary electrophoresis and laser-induced fluorescence detection. II. Pre-analytical and analytical conditions 979(2002)255

#### **Transferrin**

Evaluation and optimization of capillary zone electrophoresis with different dynamic capillary coatings for the determination of carbohydrate-deficient transferrin in human serum 979(2002)43

#### **Tryptophan**

Effect of feed zone width on product purity in preparative-scale, continuous free-flow isoelectric focusing separation of enantiomers 979(2002)123

#### **Tyrosine**

Choice of different dyes to label tyrosine and nitrotyrosine 979(2002)209

#### **Two-dimensional mapping**

Two dimensional mapping of cancer cell extracts by liquid chromatography–capillary electrophoresis with ultraviolet absorbance detection 979(2002)81

#### **Validation**

Optimization and validation of a capillary zone electrophoretic method for the analysis of several angiotensin-II-receptor antagonists 979(2002)323

#### **Volatile organic compounds**

Laser-induced fluorescence and UV detection of derivatized aldehydes in air samples using capillary electrophoresis 979(2002)409
