

## Subject Index Vol. 1010

### **Abscisic acid**

Rapid extraction of abscisic acid and its metabolites for liquid chromatography–tandem mass spectrometry 1010(2003)75

### **Acylglycerols**

Characterization of triacylglycerol and diacylglycerol composition of plant oils using high-performance liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1010(2003)195

### **Adsorption**

Adsorption–desorption effects in ion trap mass spectrometry using in situ ionization 1010(2003)123

### **Adsorption isotherms**

Adsorption–desorption isotherm hysteresis of phenol on a C<sub>18</sub>-bonded surface 1010(2003)153

### **Adsorption–desorption hysteresis**

Adsorption–desorption isotherm hysteresis of phenol on a C<sub>18</sub>-bonded surface 1010(2003)153

### **Aerosols**

Development of a sequential supercritical fluid extraction method for the analysis of nitrated and oxygenated derivatives of polycyclic aromatic hydrocarbons in urban aerosols 1010(2003)141

### **Air analysis**

Development of a sequential supercritical fluid extraction method for the analysis of nitrated and oxygenated derivatives of polycyclic aromatic hydrocarbons in urban aerosols 1010(2003)141

### **Alkylphenol**

Determination of alkylphenol and alkylphenoxyethoxylates in biota by liquid chromatography with detection by tandem mass spectrometry and fluorescence spectroscopy 1010(2003)25

### **Alkylphenoxyethoxylates**

Determination of alkylphenol and alkylphenoxyethoxylates in biota by liquid chromatography with detection by tandem mass spectrometry and fluorescence spectroscopy 1010(2003)25

### ***N*-allyl-*N*'-arylthioureas**

Determination of aromatic primary amines at  $\mu\text{g l}^{-1}$  level in environmental waters by gas chromatography–mass spectrometry involving *N*-allyl-*N*'-arylthiourea formation and their on-line pyrolysis to aryl isothiocyanates 1010(2003)243

### **Amines, aromatic**

Determination of aromatic primary amines at  $\mu\text{g l}^{-1}$  level in environmental waters by gas chromatography–mass spectrometry involving *N*-allyl-*N*'-arylthiourea formation and their on-line pyrolysis to aryl isothiocyanates 1010(2003)243

### **Antibiotics**

Determination of antibiotic compounds in water by solid-phase extraction–high-performance liquid chromatography–(electrospray) mass spectrometry 1010(2003)225

### **Antifouling compounds**

Determination of antifouling compounds in marine sediments by solid-phase microextraction coupled to gas chromatography–mass spectrometry 1010(2003)1

### **Aroma compounds**

Quantitative determination of sotolon, maltol and free furaneol in wine by solid-phase extraction and gas chromatography–ion-trap mass spectrometry 1010(2003)95

### **Aryl isothiocyanates**

Determination of aromatic primary amines at  $\mu\text{g l}^{-1}$  level in environmental waters by gas chromatography–mass spectrometry involving *N*-allyl-*N*'-arylthiourea formation and their on-line pyrolysis to aryl isothiocyanates 1010(2003)243

### ***Bacillus subtilis***

Analysis of carboxylic acid metabolites from the tricarboxylic acid cycle in *Bacillus subtilis* cell extract by capillary electrophoresis using an indirect photometric detection method 1010(2003)113

### **Bacteria**

Analysis of carboxylic acid metabolites from the tricarboxylic acid cycle in *Bacillus subtilis* cell extract by capillary electrophoresis using an indirect photometric detection method 1010(2003)113

**Band profiles**

Adsorption–desorption isotherm hysteresis of phenol on a C<sub>18</sub>-bonded surface 1010(2003)153

**Biogenic amines**

Determination of biogenic amines as their benzoyl derivatives after cloud point extraction with micellar liquid chromatographic separation 1010(2003)217

**Brassica napus**

Rapid extraction of abscisic acid and its metabolites for liquid chromatography–tandem mass spectrometry 1010(2003)75

**Carboxylic acids**

Liquid chromatographic determination of dicarboxylic acids based on intramolecular excimer-forming fluorescence derivatization 1010(2003)37

Analysis of carboxylic acid metabolites from the tricarboxylic acid cycle in *Bacillus subtilis* cell extract by capillary electrophoresis using an indirect photometric detection method 1010(2003)113

**Cellulose**

Synthesis of covalently bonded cellulose derivative chiral stationary phases with a bifunctional reagent of 3-(triethoxysilyl)propyl isocyanate 1010(2003)185

**Chip technology**

Selective extraction of size-fractionated DNA samples in microfabricated electrophoresis devices 1010(2003)255

**Chiral stationary phases, LC**

Synthesis of covalently bonded cellulose derivative chiral stationary phases with a bifunctional reagent of 3-(triethoxysilyl)propyl isocyanate 1010(2003)185

**Cloud point extraction**

Determination of biogenic amines as their benzoyl derivatives after cloud point extraction with micellar liquid chromatographic separation 1010(2003)217

**Computational fluid dynamics**

General theory for flow optimisation of split-flow thin fractionation 1010(2003)87

**Conductivity**

Deviation from Ohm's law in electric field assisted capillary liquid chromatography 1010(2003)17

**Cyclodextrins**

Chiral recognition ability of  $\alpha$ -cyclodextrin with regard to some monoterpenoids under gas–liquid chromatographic conditions 1010(2003)233

**Derivatization, GC**

Determination of aromatic primary amines at  $\mu\text{g l}^{-1}$  level in environmental waters by gas chromatography–mass spectrometry involving *N*-allyl-*N'*-arylthiourea formation and their on-line pyrolysis to aryl isothiocyanates 1010(2003)243

**Derivatization, LC**

Liquid chromatographic determination of dicarboxylic acids based on intramolecular excimer-forming fluorescence derivatization 1010(2003)37

**Detection, electrophoresis**

Analysis of carboxylic acid metabolites from the tricarboxylic acid cycle in *Bacillus subtilis* cell extract by capillary electrophoresis using an indirect photometric detection method 1010(2003)113

**Diacylglycerols**

Characterization of triacylglycerol and diacylglycerol composition of plant oils using high-performance liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1010(2003)195

**DNA**

Selective extraction of size-fractionated DNA samples in microfabricated electrophoresis devices 1010(2003)255

**Drugs**

Adsorption–desorption effects in ion trap mass spectrometry using in situ ionization 1010(2003)123

**Differential scanning calorimetry**

Liquid chromatography and differential scanning calorimetry studies on the states of water in polystyrene–divinylbenzene copolymer gels 1010(2003)177

**Electric field assisted capillary liquid chromatography**

Deviation from Ohm's law in electric field assisted capillary liquid chromatography 1010(2003)17

**Enantiomer separation**

Synthesis of covalently bonded cellulose derivative chiral stationary phases with a bifunctional reagent of 3-(triethoxysilyl)propyl isocyanate 1010(2003)185

Chiral recognition ability of  $\alpha$ -cyclodextrin with regard to some monoterpenoids under gas–liquid chromatographic conditions 1010(2003)233

**Environmental analysis**

Determination of antifouling compounds in marine sediments by solid-phase microextraction coupled to gas chromatography–mass spectrometry 1010(2003)1

Comparison of the static, dynamic and static-dynamic pressurised liquid extraction modes for the removal of nitrated polycyclic aromatic hydrocarbons from soil with on-line filtration–preconcentration 1010(2003)129

Development of a sequential supercritical fluid extraction method for the analysis of nitrated and oxygenated derivatives of polycyclic aromatic hydrocarbons in urban aerosols 1010(2003)141

Determination of antibiotic compounds in water by solid-phase extraction–high-performance liquid chromatography–(electrospray) mass spectrometry 1010(2003)225

Determination of aromatic primary amines at  $\mu\text{g l}^{-1}$  level in environmental waters by gas chromatography–mass spectrometry involving *N*-allyl-*N*'-arylthiourea formation and their on-line pyrolysis to aryl isothiocyanates 1010(2003)243

#### **Erythromycin**

Interlaboratory study of a liquid chromatography method for erythromycin: determination of uncertainty 1010(2003)63

#### **Ethoxylates**

Determination of alkylphenol and alkylphenoethoxylates in biota by liquid chromatography with detection by tandem mass spectrometry and fluorescence spectroscopy 1010(2003)25

#### **Excimer fluorescence**

Liquid chromatographic determination of dicarboxylic acids based on intramolecular excimer-forming fluorescence derivatization 1010(2003)37

#### **Extraction methods**

Determination of biogenic amines as their benzoyl derivatives after cloud point extraction with micellar liquid chromatographic separation 1010(2003)217

#### **Fish**

Determination of alkylphenol and alkylphenoethoxylates in biota by liquid chromatography with detection by tandem mass spectrometry and fluorescence spectroscopy 1010(2003)25

#### **Flavor–matrix interactions**

Quantitative determination of sotolon, maltol and free furaneol in wine by solid-phase extraction and gas chromatography–ion-trap mass spectrometry 1010(2003)95

#### **Food analysis**

Quantitative determination of sotolon, maltol and free furaneol in wine by solid-phase extraction and gas chromatography–ion-trap mass spectrometry 1010(2003)95

#### **Frontal analysis**

Adsorption–desorption isotherm hysteresis of phenol on a  $\text{C}_{18}$ -bonded surface 1010(2003)153

#### **Furaneol**

Quantitative determination of sotolon, maltol and free furaneol in wine by solid-phase extraction and gas chromatography–ion-trap mass spectrometry 1010(2003)95

#### **Glycerols**

Characterization of triacylglycerol and diacylglycerol composition of plant oils using high-performance liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1010(2003)195

#### **Gradient elution**

Determination of biogenic amines as their benzoyl derivatives after cloud point extraction with micellar liquid chromatographic separation 1010(2003)217

#### **6-Hydroxyhexanoic acid**

Qualitative and quantitative solid-phase microextraction gas chromatographic–mass spectrometric determination of the low-molecular-mass compounds released from poly(vinyl chloride)/polycaprolactone–polycarbonate during ageing 1010(2003)9

#### **Indirect detection**

Analysis of carboxylic acid metabolites from the tricarboxylic acid cycle in *Bacillus subtilis* cell extract by capillary electrophoresis using an indirect photometric detection method 1010(2003)113

#### **Instrumentation**

Selective extraction of size-fractioned DNA samples in microfabricated electrophoresis devices 1010(2003)255

#### **Interlaboratory study**

Interlaboratory study of a liquid chromatography method for erythromycin: determination of uncertainty 1010(2003)63

#### **Maltol**

Quantitative determination of sotolon, maltol and free furaneol in wine by solid-phase extraction and gas chromatography–ion-trap mass spectrometry 1010(2003)95

#### **Mass spectrometry**

Adsorption–desorption effects in ion trap mass spectrometry using in situ ionization 1010(2003)123

#### **Mathematical modeling**

Adsorption–desorption isotherm hysteresis of phenol on a  $\text{C}_{18}$ -bonded surface 1010(2003)153

#### **Micellar liquid chromatography**

Determination of biogenic amines as their benzoyl derivatives after cloud point extraction with micellar liquid chromatographic separation 1010(2003)217

#### **Migration**

Interplay of chromatographic and electrophoretic processes in capillary electrochromatography 1010(2003)105

#### **Mobile phase composition**

Adsorption–desorption isotherm hysteresis of phenol on a  $\text{C}_{18}$ -bonded surface 1010(2003)153

#### **Monoterpenoids**

Chiral recognition ability of  $\alpha$ -cyclodextrin with regard to some monoterpenoids under gas–liquid chromatographic conditions 1010(2003)233

#### **Nonylphenol**

Determination of alkylphenol and alkylphenoethoxylates in biota by liquid chromatography with detection by tandem mass spectrometry and fluorescence spectroscopy 1010(2003)25

**Octylphenol**

Determination of alkylphenol and alkylphenoethoxylates in biota by liquid chromatography with detection by tandem mass spectrometry and fluorescence spectroscopy 1010(2003)25

**Ohm's law**

Deviation from Ohm's law in electric field assisted capillary liquid chromatography 1010(2003)17

**Osprey**

Determination of alkylphenol and alkylphenoethoxylates in biota by liquid chromatography with detection by tandem mass spectrometry and fluorescence spectroscopy 1010(2003)25

**Peptides**

Temperature selectivity effects in reversed-phase liquid chromatography due to conformation differences between helical and non-helical peptides 1010(2003)45

**Phenols**

Adsorption-desorption isotherm hysteresis of phenol on a C<sub>18</sub>-bonded surface 1010(2003)153

**Plant hormones**

Rapid extraction of abscisic acid and its metabolites for liquid chromatography-tandem mass spectrometry 1010(2003)75

**Plant materials**

Rapid extraction of abscisic acid and its metabolites for liquid chromatography-tandem mass spectrometry 1010(2003)75

**Polyester-polycarbonate**

Qualitative and quantitative solid-phase microextraction gas chromatographic-mass spectrometric determination of the low-molecular-mass compounds released from poly(vinyl chloride)/polycaprolactone-polycarbonate during ageing 1010(2003)9

**Polynuclear aromatic hydrocarbons, nitrated**

Comparison of the static, dynamic and static-dynamic pressurised liquid extraction modes for the removal of nitrated polycyclic aromatic hydrocarbons from soil with on-line filtration-preconcentration 1010(2003)129

Development of a sequential supercritical fluid extraction method for the analysis of nitrated and oxygenated derivatives of polycyclic aromatic hydrocarbons in urban aerosols 1010(2003)141

**Polynuclear aromatic hydrocarbons, oxygenated**

Development of a sequential supercritical fluid extraction method for the analysis of nitrated and oxygenated derivatives of polycyclic aromatic hydrocarbons in urban aerosols 1010(2003)141

**Polystyrene-divinylbenzene copolymer**

Liquid chromatography and differential scanning calorimetry studies on the states of water in polystyrene-divinylbenzene copolymer gels 1010(2003)177

**Poly(vinyl chloride)**

Qualitative and quantitative solid-phase microextraction gas chromatographic-mass spectrometric determination of the low-molecular-mass compounds released from poly(vinyl chloride)/polycaprolactone-polycarbonate during ageing 1010(2003)9

**Positional isomers**

Characterization of triacylglycerol and diacylglycerol composition of plant oils using high-performance liquid chromatography-atmospheric pressure chemical ionization mass spectrometry 1010(2003)195

**Pressurised liquid extraction**

Comparison of the static, dynamic and static-dynamic pressurised liquid extraction modes for the removal of nitrated polycyclic aromatic hydrocarbons from soil with on-line filtration-preconcentration 1010(2003)129

**Pressurized electrochromatography**

Deviation from Ohm's law in electric field assisted capillary liquid chromatography 1010(2003)17

**Pyrenebutyric acid hydrazide**

Liquid chromatographic determination of dicarboxylic acids based on intramolecular excimer-forming fluorescence derivatization 1010(2003)37

**Pyrolysis**

Determination of aromatic primary amines at  $\mu\text{g l}^{-1}$  level in environmental waters by gas chromatography-mass spectrometry involving *N*-allyl-*N'*-arylthiourea formation and their on-line pyrolysis to aryl isothiocyanates 1010(2003)243

**Quinolones**

Determination of antibiotic compounds in water by solid-phase extraction-high-performance liquid chromatography-(electrospray) mass spectrometry 1010(2003)225

**Reproducibility**

Interlaboratory study of a liquid chromatography method for erythromycin: determination of uncertainty 1010(2003)63

**Retention**

Interplay of chromatographic and electrophoretic processes in capillary electrochromatography 1010(2003)105

**Sample preparation**

Comparison of the static, dynamic and static-dynamic pressurised liquid extraction modes for the removal of nitrated polycyclic aromatic hydrocarbons from soil with on-line filtration-preconcentration 1010(2003)129

**Sediments**

Determination of antifouling compounds in marine sediments by solid-phase microextraction coupled to gas chromatography–mass spectrometry 1010(2003)1

**Selectivity**

Temperature selectivity effects in reversed-phase liquid chromatography due to conformation differences between helical and non-helical peptides 1010(2003)45

Liquid chromatography and differential scanning calorimetry studies on the states of water in polystyrene–divinylbenzene copolymer gels 1010(2003)177

**Separation mechanisms**

Interplay of chromatographic and electrophoretic processes in capillary electrochromatography 1010(2003)105

**Soil**

Comparison of the static, dynamic and static–dynamic pressurised liquid extraction modes for the removal of nitrated polycyclic aromatic hydrocarbons from soil with on-line filtration–preconcentration 1010(2003)129

**Solid-phase microextraction**

Determination of antifouling compounds in marine sediments by solid-phase microextraction coupled to gas chromatography–mass spectrometry 1010(2003)1

Qualitative and quantitative solid-phase microextraction gas chromatographic–mass spectrometric determination of the low-molecular-mass compounds released from poly(vinyl chloride)/polycaprolactone–polycarbonate during ageing 1010(2003)9

**Sotolon**

Quantitative determination of sotolon, maltol and free furaneol in wine by solid-phase extraction and gas chromatography–ion-trap mass spectrometry 1010(2003)95

**Split-flow thin fractionation**

General theory for flow optimisation of split-flow thin fractionation 1010(2003)87

**Stability studies**

Chiral recognition ability of  $\alpha$ -cyclodextrin with regard to some monoterpenoids under gas–liquid chromatographic conditions 1010(2003)233

**Supercritical fluid extraction**

Development of a sequential supercritical fluid extraction method for the analysis of nitrated and oxygenated derivatives of polycyclic aromatic hydrocarbons in urban aerosols 1010(2003)141

**Temperature effects**

Temperature selectivity effects in reversed-phase liquid chromatography due to conformation differences between helical and non-helical peptides 1010(2003)45

**Terpenoids**

Chiral recognition ability of  $\alpha$ -cyclodextrin with regard to some monoterpenoids under gas–liquid chromatographic conditions 1010(2003)233

**Tetracyclines**

Determination of antibiotic compounds in water by solid-phase extraction–high-performance liquid chromatography–(electrospray) mass spectrometry 1010(2003)225

**Triacylglycerols**

Characterization of triacylglycerol and diacylglycerol composition of plant oils using high-performance liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1010(2003)195

**Tricarboxylic acid cycle**

Analysis of carboxylic acid metabolites from the tricarboxylic acid cycle in *Bacillus subtilis* cell extract by capillary electrophoresis using an indirect photometric detection method 1010(2003)113

**Triethoxysilylpropyl isocyanate**

Synthesis of covalently bonded cellulose derivative chiral stationary phases with a bifunctional reagent of 3-(triethoxysilyl)propyl isocyanate 1010(2003)185

**Uncertainty**

Interlaboratory study of a liquid chromatography method for erythromycin: determination of uncertainty 1010(2003)63

**Validation**

Interlaboratory study of a liquid chromatography method for erythromycin: determination of uncertainty 1010(2003)63

**Vegetable oils**

Characterization of triacylglycerol and diacylglycerol composition of plant oils using high-performance liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1010(2003)195

**Water analysis**

Determination of antibiotic compounds in water by solid-phase extraction–high-performance liquid chromatography–(electrospray) mass spectrometry 1010(2003)225

Determination of aromatic primary amines at  $\mu\text{g l}^{-1}$  level in environmental waters by gas chromatography–mass spectrometry involving *N*-allyl-*N*'-arylthiourea formation and their on-line pyrolysis to aryl isothiocyanates 1010(2003)243

**Water states**

Liquid chromatography and differential scanning calorimetry studies on the states of water in polystyrene–divinylbenzene copolymer gels 1010(2003)177

**Water–acetone extraction**

Determination of antifouling compounds in marine sediments by solid-phase microextraction coupled to gas chromatography–mass spectrometry 1010(2003)1

**Wine**

Quantitative determination of sotolon, maltol and free furaneol in wine by solid-phase extraction and gas chromatography–ion-trap mass spectrometry 1010(2003)95
