

## Subject Index Vol. 1020

### Acrylamide

Analysis of acrylamide in food by isotope-dilution liquid chromatography coupled with electrospray ionization tandem mass spectrometry 1020(2003)121

### Adsorption isotherms

Modeling of the separation of two enantiomers using a microbore column 1020(2003)199

### Aerosol analysis

Separation of anions by ion-interaction chromatography with a novel cationic/zwitterionic eluent 1020(2003)259

### Alkaloids

Determination of nicotine and cotinine in rat plasma by liquid chromatography–tandem mass spectrometry 1020(2003)35

On-line identification of tropane alkaloids from *Erythroxylum vacciniifolium* by liquid chromatography–UV detection–multiple mass spectrometry and liquid chromatography–nuclear magnetic resonance spectrometry 1020(2003)75

### American foulbrood disease

Determination of lincomycin and tylosin residues in honey using solid-phase extraction and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1020(2003)241

### Aminocaproactam

Chiral liquid chromatography–mass spectrometry for high-throughput screening of enzymatic racemase activity 1020(2003)69

### (2*S*,3*R*)-2-amino-3-octadecanol hydrochloride

Development and validation of a liquid chromatography–ultraviolet absorbance detection assay using derivatisation for the novel marine anticancer agent ES-285-HCl [(2*S*,3*R*)-2-amino-3-octadecanol hydrochloride] and its pharmaceutical dosage form 1020(2003)251

### Angiotensin-converting enzyme inhibitors

Rapid detection and identification of angiotensin-converting enzyme inhibitors by on-line liquid chromatography–biochemical detection, coupled to electrospray mass spectrometry 1020(2003)45

### Anions

Separation of anions by ion-interaction chromatography with a novel cationic/zwitterionic eluent 1020(2003)259

### Antibiotics

Determination of lincomycin and tylosin residues in honey using solid-phase extraction and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1020(2003)241

### Background noise

Suppressor current switching: a simple and effective means to reduce background noise in ion chromatography 1020(2003)265

### Bacteria

Screening for cyanobacterial hepatotoxins, microcystins and nodularin in environmental water samples by reversed-phase liquid chromatography–electrospray ionisation mass spectrometry 1020(2003)105

### Biochemical detection

Rapid detection and identification of angiotensin-converting enzyme inhibitors by on-line liquid chromatography–biochemical detection, coupled to electrospray mass spectrometry 1020(2003)45

### Bromate

Suppressor current switching: a simple and effective means to reduce background noise in ion chromatography 1020(2003)265

### Buspiron

High-performance liquid chromatography–tandem mass spectrometry with a new quadrupole/linear ion trap instrument 1020(2003)3

### Carbon dioxide

Analysis of quantization error in high-precision continuous-flow isotope ratio mass spectrometry 1020(2003)273

### Cellulose tribenzoate

Modeling of the separation of two enantiomers using a microbore column 1020(2003)199

### Cereals

Analysis of acrylamide in food by isotope-dilution liquid chromatography coupled with electrospray ionization tandem mass spectrometry 1020(2003)121

**Column retentivity**

Evaluation of liquid chromatography column retentivity using macromolecular probes. III. Partition properties of C<sub>18</sub> phases traced by polymers 1020(2003)219

**Column-switching**

Novel approach to the determination of structurally similar hydroxamate siderophores by column-switching capillary liquid chromatography coupled to mass spectrometry 1020(2003)91

**Conductivity detection**

Separation of anions by ion-interaction chromatography with a novel cationic/zwitterionic eluent 1020(2003)259

**Cotinine**

Determination of nicotine and cotinine in rat plasma by liquid chromatography–tandem mass spectrometry 1020(2003)35

**Derivatization, GC**

Simultaneous determination of degradation products of nonylphenol polyethoxylates and their halogenated derivatives by solid-phase extraction and gas chromatography–tandem mass spectrometry after trimethylsilylation 1020(2003)161

**Derivatisation LC**

Development and validation of a liquid chromatography–ultraviolet absorbance detection assay using derivatisation for the novel marine anticancer agent ES-285-HCl [(2*S*,3*R*)-2-amino-3-octadecanol hydrochloride] and its pharmaceutical dosage form 1020(2003)251

**Design of experiments**

Development and validation of a liquid chromatography–ultraviolet absorbance detection assay using derivatisation for the novel marine anticancer agent ES-285-HCl [(2*S*,3*R*)-2-amino-3-octadecanol hydrochloride] and its pharmaceutical dosage form 1020(2003)251

**Detection, LC**

Rapid detection and identification of angiotensin-converting enzyme inhibitors by on-line liquid chromatography–biochemical detection, coupled to electrospray mass spectrometry 1020(2003)45

**Dextromethorphan**

On-line turbulent-flow chromatography–high-performance liquid chromatography–mass spectrometry for fast sample preparation and quantitation 1020(2003)59

**Dextrorphan**

On-line turbulent-flow chromatography–high-performance liquid chromatography–mass spectrometry for fast sample preparation and quantitation 1020(2003)59

**Enantiomer separation**

Chiral liquid chromatography–mass spectrometry for high-throughput screening of enzymatic racemase activity 1020(2003)69

Modeling of the separation of two enantiomers using a microbore column 1020(2003)199

**Enthalpic partition**

Evaluation of liquid chromatography column retentivity using macromolecular probes. III. Partition properties of C<sub>18</sub> phases traced by polymers 1020(2003)219

**Entropic partition**

Evaluation of liquid chromatography column retentivity using macromolecular probes. III. Partition properties of C<sub>18</sub> phases traced by polymers 1020(2003)219

**Environmental analysis**

Screening for cyanobacterial hepatotoxins, microcystins and nodularin in environmental water samples by reversed-phase liquid chromatography–electrospray ionisation mass spectrometry 1020(2003)105

Determination of fluorinated surfactants and their metabolites in sewage sludge samples by liquid chromatography with mass spectrometry and tandem mass spectrometry after pressurised liquid extraction and separation on fluorine-modified reversed-phase sorbents 1020(2003)131

Membrane-assisted solvent extraction of polychlorinated biphenyls in river water and other matrices combined with large volume injection–gas chromatography–mass spectrometric detection 1020(2003)153

Simultaneous determination of degradation products of nonylphenol polyethoxylates and their halogenated derivatives by solid-phase extraction and gas chromatography–tandem mass spectrometry after trimethylsilylation 1020(2003)161

**Enzyme inhibitors**

Rapid detection and identification of angiotensin-converting enzyme inhibitors by on-line liquid chromatography–biochemical detection, coupled to electrospray mass spectrometry 1020(2003)45

**Enzymes**

Chiral liquid chromatography–mass spectrometry for high-throughput screening of enzymatic racemase activity 1020(2003)69

***Erythroxylum vacciniifolium***

On-line identification of tropane alkaloids from *Erythroxylum vacciniifolium* by liquid chromatography–UV detection–multiple mass spectrometry and liquid chromatography–nuclear magnetic resonance spectrometry 1020(2003)75

**ES-285-HCl**

Development and validation of a liquid chromatography–ultraviolet absorbance detection assay using derivatisation for the novel marine anticancer agent ES-285-HCl [(2*S*,3*R*)-2-amino-3-octadecanol

hydrochloride] and its pharmaceutical dosage form 1020(2003)251

#### **Expression libraries**

Chiral liquid chromatography–mass spectrometry for high-throughput screening of enzymatic racemase activity 1020(2003)69

#### **Extraction methods**

Membrane-assisted solvent extraction of polychlorinated biphenyls in river water and other matrices combined with large volume injection–gas chromatography–mass spectrometric detection 1020(2003)153

Analysis of multiple pesticide residues in tobacco using pressurized liquid extraction, automated solid-phase extraction clean-up and gas chromatography–tandem mass spectrometry 1020(2003)173

#### **Ferrichrome**

Novel approach to the determination of structurally similar hydroxamate siderophores by column-switching capillary liquid chromatography coupled to mass spectrometry 1020(2003)91

#### **Ferrichrysin**

Novel approach to the determination of structurally similar hydroxamate siderophores by column-switching capillary liquid chromatography coupled to mass spectrometry 1020(2003)91

#### **Ferricrocin**

Novel approach to the determination of structurally similar hydroxamate siderophores by column-switching capillary liquid chromatography coupled to mass spectrometry 1020(2003)91

#### **Food analysis**

Analysis of acrylamide in food by isotope-dilution liquid chromatography coupled with electrospray ionization tandem mass spectrometry 1020(2003)121

Membrane-assisted solvent extraction of polychlorinated biphenyls in river water and other matrices combined with large volume injection–gas chromatography–mass spectrometric detection 1020(2003)153

#### **Fruit juices**

Membrane-assisted solvent extraction of polychlorinated biphenyls in river water and other matrices combined with large volume injection–gas chromatography–mass spectrometric detection 1020(2003)153

#### **Gleevec**

Quantification of the anticancer agent STI-571 in erythrocytes and plasma by measurement of sediment technology and liquid chromatography–tandem mass spectrometry 1020(2003)27

#### **Glivec**

Quantification of the anticancer agent STI-571 in erythrocytes and plasma by measurement of sediment technology and liquid chromatography–tandem mass spectrometry 1020(2003)27

#### **Guaiacyl lignin polymer**

Association behaviour of lignins and lignin model compounds

studied by multidetector size-exclusion chromatography 1020(2003)229

#### **Halogenated compounds**

Simultaneous determination of degradation products of nonylphenol polyethoxylates and their halogenated derivatives by solid-phase extraction and gas chromatography–tandem mass spectrometry after trimethylsilylation 1020(2003)161

#### **Headspace analysis**

Erratum to “Indirect headspace gas chromatographic method for vapor–liquid phase equilibrium study” [J. Chromatogr. A 799 (1998) 207–214] 1020(2003)283

#### **Hepatotoxins**

Screening for cyanobacterial hepatotoxins, microcystins and nodularin in environmental water samples by reversed-phase liquid chromatography–electrospray ionisation mass spectrometry 1020(2003)105

#### **High-throughput screening**

Chiral liquid chromatography–mass spectrometry for high-throughput screening of enzymatic racemase activity 1020(2003)69

#### **Honey**

Determination of lincomycin and tylosin residues in honey using solid-phase extraction and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1020(2003)241

#### **Hydroxamates**

Novel approach to the determination of structurally similar hydroxamate siderophores by column-switching capillary liquid chromatography coupled to mass spectrometry 1020(2003)91

#### **Imatinib**

Quantification of the anticancer agent STI-571 in erythrocytes and plasma by measurement of sediment technology and liquid chromatography–tandem mass spectrometry 1020(2003)27

#### **1-Indanol**

Modeling of the separation of two enantiomers using a microbore column 1020(2003)199

#### **Instrumentation**

High-performance liquid chromatography–tandem mass spectrometry with a new quadrupole/linear ion trap instrument 1020(2003)3

Using accurate mass electrospray ionization–time-of-flight mass spectrometry with in-source collision-induced dissociation to sequence peptide mixtures 1020(2003)11

#### **Interfaces, LC-MS**

Using accurate mass electrospray ionization–time-of-flight mass spectrometry with in-source collision-induced dissociation to sequence peptide mixtures 1020(2003)11

**Interlaboratory test**

Analysis of acrylamide in food by isotope-dilution liquid chromatography coupled with electrospray ionization tandem mass spectrometry 1020(2003)121

**Isotope dilution methods**

Analysis of acrylamide in food by isotope-dilution liquid chromatography coupled with electrospray ionization tandem mass spectrometry 1020(2003)121

**Isotope ratio mass spectrometry**

Analysis of quantization error in high-precision continuous-flow isotope ratio mass spectrometry 1020(2003)273

**Large volume injection**

Membrane-assisted solvent extraction of polychlorinated biphenyls in river water and other matrices combined with large volume injection–gas chromatography–mass spectrometric detection 1020(2003)153

**Light scattering**

Association behaviour of lignins and lignin model compounds studied by multidetector size-exclusion chromatography 1020(2003)229

**Lignin**

Association behaviour of lignins and lignin model compounds studied by multidetector size-exclusion chromatography 1020(2003)229

**Lincomycin**

Determination of lincomycin and tylosin residues in honey using solid-phase extraction and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1020(2003)241

**Liquid chromatography–mass spectrometry**

On-line identification of tropane alkaloids from *Erythroxylum vacciniifolium* by liquid chromatography–UV detection–multiple mass spectrometry and liquid chromatography–nuclear magnetic resonance spectrometry 1020(2003)75

**Macromolecular probes**

Evaluation of liquid chromatography column retentivity using macromolecular probes. III. Partition properties of C<sub>18</sub> phases traced by polymers 1020(2003)219

**Mass spectrometry**

High-performance liquid chromatography–tandem mass spectrometry with a new quadrupole/linear ion trap instrument 1020(2003)3

Using accurate mass electrospray ionization–time-of-flight mass spectrometry with in-source collision-induced dissociation to sequence peptide mixtures 1020(2003)11

Analysis of quantization error in high-precision continuous-flow isotope ratio mass spectrometry 1020(2003)273

**Measurement of sediment technology**

Quantification of the anticancer agent STI-571 in erythrocytes and plasma by measurement of sediment technology and liquid chromatography–tandem mass spectrometry 1020(2003)27

**Membrane-assisted solvent extraction**

Membrane-assisted solvent extraction of polychlorinated biphenyls in river water and other matrices combined with large volume injection–gas chromatography–mass spectrometric detection 1020(2003)153

**3-Methoxymorphinan**

On-line turbulent-flow chromatography–high-performance liquid chromatography–mass spectrometry for fast sample preparation and quantitation 1020(2003)59

**Methylcarbamates**

Analysis of multiple pesticide residues in tobacco using pressurized liquid extraction, automated solid-phase extraction clean-up and gas chromatography–tandem mass spectrometry 1020(2003)173

**Microbore columns**

Modeling of the separation of two enantiomers using a microbore column 1020(2003)199

**Microcystins**

Screening for cyanobacterial hepatotoxins, microcystins and nodularin in environmental water samples by reversed-phase liquid chromatography–electrospray ionisation mass spectrometry 1020(2003)105

**Milled wood lignin**

Association behaviour of lignins and lignin model compounds studied by multidetector size-exclusion chromatography 1020(2003)229

**Mobile-phase composition**

Separation of anions by ion–interaction chromatography with a novel cationic/zwitterionic eluent 1020(2003)259

**Molar mass distribution**

Association behaviour of lignins and lignin model compounds studied by multidetector size-exclusion chromatography 1020(2003)229

**Molecular mass**

Using accurate mass electrospray ionization–time-of-flight mass spectrometry with in-source collision-induced dissociation to sequence peptide mixtures 1020(2003)11

**Multiple solid-phase microextraction**

Evaluation of multiple solid-phase microextraction as a technique to remove the matrix effect in packaging analysis for determination of volatile organic compounds 1020(2003)189

**Nicotine**

Determination of nicotine and cotinine in rat plasma by liquid chromatography–tandem mass spectrometry 1020(2003)35

**Nodularin**

Screening for cyanobacterial hepatotoxins, microcystins and nodularin in environmental water samples by reversed-phase liquid chromatography–electrospray ionisation mass spectrometry 1020(2003)105

**Nonylphenol**

Simultaneous determination of degradation products of nonylphenol polyethoxylates and their halogenated derivatives by solid-phase extraction and gas chromatography–tandem mass spectrometry after trimethylsilylation 1020(2003)161

**Nonylphenol polyethoxylates**

Simultaneous determination of degradation products of nonylphenol polyethoxylates and their halogenated derivatives by solid-phase extraction and gas chromatography–tandem mass spectrometry after trimethylsilylation 1020(2003)161

**Nonylphenoxy carboxylic acids**

Simultaneous determination of degradation products of nonylphenol polyethoxylates and their halogenated derivatives by solid-phase extraction and gas chromatography–tandem mass spectrometry after trimethylsilylation 1020(2003)161

**Nuclear magnetic resonance spectrometry**

On-line identification of tropane alkaloids from *Erythroxylum vacciniifolium* by liquid chromatography–UV detection–multiple mass spectrometry and liquid chromatography–nuclear magnetic resonance spectrometry 1020(2003)75

**Organochlorine compounds**

Analysis of multiple pesticide residues in tobacco using pressurized liquid extraction, automated solid-phase extraction clean-up and gas chromatography–tandem mass spectrometry 1020(2003)173

**Organofluorine compounds**

Determination of fluorinated surfactants and their metabolites in sewage sludge samples by liquid chromatography with mass spectrometry and tandem mass spectrometry after pressurised liquid extraction and separation on fluorine-modified reversed-phase sorbents 1020(2003)131

**Organophosphorus compounds**

Analysis of multiple pesticide residues in tobacco using pressurized liquid extraction, automated solid-phase extraction clean-up and gas chromatography–tandem mass spectrometry 1020(2003)173

**Orthogonal acceleration time-of-flight mass spectrometry**

Using accurate mass electrospray ionization–time-of-flight mass spectrometry with in-source collision-induced dissociation to sequence peptide mixtures 1020(2003)11

**Packaging materials**

Evaluation of multiple solid-phase microextraction as a technique to remove the matrix effect in packaging analysis for determination of volatile organic compounds 1020(2003)189

**Partition coefficients**

Erratum to “Indirect headspace gas chromatographic method for vapor–liquid phase equilibrium study” [J. Chromatogr. A 799 (1998) 207–214] 1020(2003)283

**Peptide sequencing**

Using accurate mass electrospray ionization–time-of-flight mass spectrometry with in-source collision-induced dissociation to sequence peptide mixtures 1020(2003)11

**Peptides**

Using accurate mass electrospray ionization–time-of-flight mass spectrometry with in-source collision-induced dissociation to sequence peptide mixtures 1020(2003)11

**Pesticides**

Analysis of multiple pesticide residues in tobacco using pressurized liquid extraction, automated solid-phase extraction clean-up and gas chromatography–tandem mass spectrometry 1020(2003)173

**Phenylisothiocyanate**

Development and validation of a liquid chromatography–ultraviolet absorbance detection assay using derivatisation for the novel marine anticancer agent ES-285-HCl [(2*S*,3*R*)-2-amino-3-octadecanol hydrochloride] and its pharmaceutical dosage form 1020(2003)251

**Poly(*n*-butyl methacrylate)**

Evaluation of liquid chromatography column retentivity using macromolecular probes. III. Partition properties of C<sub>18</sub> phases traced by polymers 1020(2003)219

**Polychlorinated biphenyls**

Membrane-assisted solvent extraction of polychlorinated biphenyls in river water and other matrices combined with large volume injection–gas chromatography–mass spectrometric detection 1020(2003)153

**Polymers**

Evaluation of liquid chromatography column retentivity using macromolecular probes. III. Partition properties of C<sub>18</sub> phases traced by polymers 1020(2003)219

**Polystyrene**

Evaluation of liquid chromatography column retentivity using macromolecular probes. III. Partition properties of C<sub>18</sub> phases traced by polymers 1020(2003)219

**Porous graphitic carbon**

Novel approach to the determination of structurally similar hydroxamate siderophores by column-switching capillary liquid chromatography coupled to mass spectrometry 1020(2003)91

**Quantization error**

Analysis of quantization error in high-precision continuous-flow isotope ratio mass spectrometry 1020(2003)273

**Sample preparation**

On-line turbulent-flow chromatography–high-performance liquid chromatography–mass spectrometry for fast sample preparation and quantitation 1020(2003)59

**Sewage sludge**

Determination of fluorinated surfactants and their metabolites in sewage sludge samples by liquid chromatography with mass spectrometry and tandem mass spectrometry after pressurised liquid extraction and separation on fluorine-modified reversed-phase sorbents 1020(2003)131

**Siderophores**

Novel approach to the determination of structurally similar hydroxamate siderophores by column-switching capillary liquid chromatography coupled to mass spectrometry 1020(2003)91

**Size-exclusion chromatography**

Association behaviour of lignins and lignin model compounds studied by multidetector size-exclusion chromatography 1020(2003)229

**Soil**

Novel approach to the determination of structurally similar hydroxamate siderophores by column-switching capillary liquid chromatography coupled to mass spectrometry 1020(2003)91

**Solid-phase extraction**

Simultaneous determination of degradation products of nonylphenol polyethoxylates and their halogenated derivatives by solid-phase extraction and gas chromatography–tandem mass spectrometry after trimethylsilylation 1020(2003)161

Determination of lincomycin and tylosin residues in honey using solid-phase extraction and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1020(2003)241

**Solid-phase microextraction**

Evaluation of multiple solid-phase microextraction as a technique to remove the matrix effect in packaging analysis for determination of volatile organic compounds 1020(2003)189

**Stationary phases, LC**

Evaluation of liquid chromatography column retentivity using macromolecular probes. III. Partition properties of C<sub>18</sub> phases traced by polymers 1020(2003)219

**Steroids**

Analysis of steroid hormones in effluents of wastewater treatment plants by liquid chromatography–tandem mass spectrometry 1020(2003)99

**STI-571**

Quantification of the anticancer agent STI-571 in erythrocytes and plasma by measurement of sediment technology and liquid chromatography–tandem mass spectrometry 1020(2003)27

**Suppressor current switching**

Suppressor current switching: a simple and effective means to reduce background noise in ion chromatography 1020(2003)265

**Surfactants, fluorinated**

Determination of fluorinated surfactants and their metabolites in sewage sludge samples by liquid chromatography with mass spectrometry and tandem mass spectrometry after pressurised liquid extraction and separation on fluorine-modified reversed-phase sorbents 1020(2003)131

**Thermodynamic parameters**

Erratum to “Indirect headspace gas chromatographic method for vapor–liquid phase equilibrium study” [J. Chromatogr. A 799 (1998) 207–214] 1020(2003)283

**Tobacco**

Analysis of multiple pesticide residues in tobacco using pressurized liquid extraction, automated solid-phase extraction clean-up and gas chromatography–tandem mass spectrometry 1020(2003)173

**Toxins**

Screening for cyanobacterial hepatotoxins, microcystins and nodularin in environmental water samples by reversed-phase liquid chromatography–electrospray ionisation mass spectrometry 1020(2003)105

**Tropane alkaloids**

On-line identification of tropane alkaloids from *Erythroxylum vacciniifolium* by liquid chromatography–UV detection–multiple mass spectrometry and liquid chromatography–nuclear magnetic resonance spectrometry 1020(2003)75

**Turbulent flow chromatography**

On-line turbulent-flow chromatography–high-performance liquid chromatography–mass spectrometry for fast sample preparation and quantitation 1020(2003)59

**Tylosin**

Determination of lincomycin and tylosin residues in honey using solid-phase extraction and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1020(2003)241

**Validation**

Analysis of acrylamide in food by isotope-dilution liquid chromatography coupled with electrospray ionization tandem mass spectrometry 1020(2003)121

**Vapor–liquid phase equilibrium**

Erratum to “Indirect headspace gas chromatographic method for vapor–liquid phase equilibrium study” [J. Chromatogr. A 799 (1998) 207–214] 1020(2003)283

**Viscosity**

Association behaviour of lignins and lignin model compounds studied by multidetector size-exclusion chromatography 1020(2003)229

**Volatile organic compounds**

Evaluation of multiple solid-phase microextraction as a technique to remove the matrix effect in packaging analysis for determination of volatile organic compounds 1020(2003)189

**Water analysis**

Analysis of steroid hormones in effluents of wastewater treatment plants by liquid chromatography–tandem mass spectrometry 1020(2003)99

Screening for cyanobacterial hepatotoxins, microcystins and nodularin in environmental water samples by reversed-phase liquid chromatography–electrospray ionisation mass spectrometry 1020(2003)105

Membrane-assisted solvent extraction of polychlorinated biphenyls in river water and other matrices combined with large volume

injection–gas chromatography–mass spectrometric detection 1020(2003)153

Simultaneous determination of degradation products of nonylphenol polyethoxylates and their halogenated derivatives by solid-phase extraction and gas chromatography–tandem mass spectrometry after trimethylsilylation 1020(2003)161

Suppressor current switching: a simple and effective means to reduce background noise in ion chromatography 1020(2003)265

**Wine**

Membrane-assisted solvent extraction of polychlorinated biphenyls in river water and other matrices combined with large volume injection–gas chromatography–mass spectrometric detection 1020(2003)153

**Zwitterion**

Separation of anions by ion-interaction chromatography with a novel cationic/zwitterionic eluent 1020(2003)259
