

## Subject Index Vol. 984

### Acylcarnitines

Determination of carnitine and acylcarnitines in urine by high-performance liquid chromatography–electrospray ionization ion trap tandem mass spectrometry 984(2003)203

### Adsorption

Enhancement of anion-exchange chromatography of DNA using compaction agents 984(2003)215

### Affinity adsorbents

In flow activation of diol–silica with cyanogen bromide and triethylamine for preparing high-performance affinity chromatographic columns 984(2003)9

### Air analysis

Determination of dithiocarbamate pesticides in occupational hygiene sampling devices using the isooctane method and comparison with an automatic thermal desorption (ATD) method 984(2003)81

### Aldehydes

Evaluation of headspace solid-phase microextraction for the analysis of volatile carbonyl compounds in spirits and alcoholic beverages 984(2003)89

### Alkaloids

Use of dynamically coated capillaries with added cyclodextrins for the analysis of opium using capillary electrophoresis 984(2003)109

### Alkyl chain structure

Comparison of model monomeric and polymeric alkyl stationary phases on silica using sum-frequency spectroscopy 984(2003)19

### 4-Alkylphenols

Determination of 4-alkylphenols by novel derivatization and gas chromatography–mass spectrometry 984(2003)237

### Amines

Chiral separation of amines with *N*-benzoxycarbonylglycyl-*L*-proline as selector in non-aqueous capillary electrophoresis using methanol and 1,2-dichloroethane in the background electrolyte 984(2003)261

### 2-Amino-2-oxazolines

Determination of pK<sub>a</sub> values of 2-amino-2-oxazolines by capillary electrophoresis 984(2003)253

### *Andrographis paniculata*

Separation of andrographolide and neoandrographolide from the leaves of *Andrographis paniculata* using high-speed counter-current chromatography 984(2003)147

### Andrographolide

Separation of andrographolide and neoandrographolide from the leaves of *Andrographis paniculata* using high-speed counter-current chromatography 984(2003)147

### Angiotensin receptor antagonists

Optimization and validation of a micellar electrokinetic chromatographic method for the analysis of several angiotensin-II-receptor antagonists 984(2003)135

### Benzoxycarbonylglycyl-proline

Chiral separation of amines with *N*-benzoxycarbonylglycyl-*L*-proline as selector in non-aqueous capillary electrophoresis using methanol and 1,2-dichloroethane in the background electrolyte 984(2003)261

### Block-copolymers

Liquid chromatography of polyethylene glycol mono- and diesters: functional macromolecules or block copolymers? 984(2003)29

### Boranes

Exploration of the electrophoretic behaviour of borane cluster anions and of the capability of capillary electrophoresis to separate them chirally 984(2003)121

### Buffer composition

Exploration of the electrophoretic behaviour of borane cluster anions and of the capability of capillary electrophoresis to separate them chirally 984(2003)121

### Carbamates

Determination of dithiocarbamate pesticides in occupational hygiene sampling devices using the isooctane method and comparison with an automatic thermal desorption (ATD) method 984(2003)81

**Carbohydrates**

Structural characterization by both positive and negative electrospray ion trap mass spectrometry of oligogalacturonates purified by high-performance anion-exchange chromatography 984(2003)185

**Carbonyl compounds**

Evaluation of headspace solid-phase microextraction for the analysis of volatile carbonyl compounds in spirits and alcoholic beverages 984(2003)89

**Carnitine**

Determination of carnitine and acylcarnitines in urine by high-performance liquid chromatography–electrospray ionization ion trap tandem mass spectrometry 984(2003)203

**Catalysts**

Ion trap tandem mass spectrometric identification of thiabendazole phototransformation products on titanium dioxide 984(2003)59

**Ceramides**

On-line solid-phase extraction of ceramides from yeast with ceramide III imprinted monolith 984(2003)173

**Chip technology**

Protein proteolysis and the multi-dimensional electrochromatographic separation of histidine-containing peptide fragments on a chip 984(2003)97

**Chiral stationary phase, LC**

Preparation and application of a new modified liquid chromatographic chiral stationary phase based on (+)-(18-crown-6)-2,3,11,12-tetracarboxylic acid 984(2003)163

**Cluster boranes**

Exploration of the electrophoretic behaviour of borane cluster anions and of the capability of capillary electrophoresis to separate them chirally 984(2003)121

**Collocated monolithic support structures**

Protein proteolysis and the multi-dimensional electrochromatographic separation of histidine-containing peptide fragments on a chip 984(2003)97

**Compaction agents**

Enhancement of anion-exchange chromatography of DNA using compaction agents 984(2003)215

**Contact angles**

Comparison of model monomeric and polymeric alkyl stationary phases on silica using sum-frequency spectroscopy 984(2003)19

**Counter-current chromatography**

Separation of andrographolide and neoandrographolide from the leaves of *Andrographis paniculata* using high-speed counter-current chromatography 984(2003)147

**Critical adsorption point**

Liquid chromatography of polyethylene glycol mono- and diesters: functional macromolecules or block copolymers? 984(2003)29

**(+)-(18-Crown-6)-2,3,11,12-tetracarboxylic acid**

Preparation and application of a new modified liquid chromatographic chiral stationary phase based on (+)-(18-crown-6)-2,3,11,12-tetracarboxylic acid 984(2003)163

**Cyanogen bromide**

In flow activation of diol–silica with cyanogen bromide and triethylamine for preparing high-performance affinity chromatographic columns 984(2003)9

**Cyclodextrins**

Use of dynamically coated capillaries with added cyclodextrins for the analysis of opium using capillary electrophoresis 984(2003)109

Exploration of the electrophoretic behaviour of borane cluster anions and of the capability of capillary electrophoresis to separate them chirally 984(2003)121

**Derivatisation, GC**

Evaluation of headspace solid-phase microextraction for the analysis of volatile carbonyl compounds in spirits and alcoholic beverages 984(2003)89

Determination of 4-alkylphenols by novel derivatization and gas chromatography–mass spectrometry 984(2003)237

**Detection, LC**

Structural characterization by both positive and negative electrospray ion trap mass spectrometry of oligogalacturonates purified by high-performance anion-exchange chromatography 984(2003)185

**Diameter-based selectivity**

Practical implications of ionic strength effects on particle retention in thermal field-flow fractionation 984(2003)67

**Diastereomer separation**

Molecularly imprinted monolithic stationary phases for liquid chromatographic separation of enantiomers and diastereomers 984(2003)273

**Diol–silica stationary phases**

In flow activation of diol–silica with cyanogen bromide and triethylamine for preparing high-performance affinity chromatographic columns 984(2003)9

**Dissociation constants**

Determination of pKa values of 2-amino-2-oxazolines by capillary electrophoresis 984(2003)253

**Diterpenes**

Separation of andrographolide and neoandrographolide from the leaves of *Andrographis paniculata* using high-speed counter-current chromatography 984(2003)147

**Dithiocarbamates**

Determination of dithiocarbamate pesticides in occupational hygiene sampling devices using the isooctane method and comparison with an automatic thermal desorption (ATD) method 984(2003)81

**DNA**

Enhancement of anion-exchange chromatography of DNA using compaction agents 984(2003)215

**Electrochromatography**

Protein proteolysis and the multi-dimensional electrochromatographic separation of histidine-containing peptide fragments on a chip 984(2003)97

**Enantiomer separation**

Exploration of the electrophoretic behaviour of borane cluster anions and of the capability of capillary electrophoresis to separate them chirally 984(2003)121

Preparation and application of a new modified liquid chromatographic chiral stationary phase based on (+)-(18-crown-6)-2,3,11,12-tetracarboxylic acid 984(2003)163

Chiral separation of amines with *N*-benzoxycarbonylglycyl-*L*-proline as selector in non-aqueous capillary electrophoresis using methanol and 1,2-dichloroethane in the background electrolyte 984(2003)261

Molecularly imprinted monolithic stationary phases for liquid chromatographic separation of enantiomers and diastereomers 984(2003)273

**Endocrine disruptors**

Determination of estrogens and their conjugates in water using solid-phase extraction followed by liquid chromatography–tandem mass spectrometry 984(2003)195

**Endosulfan**

Application of single-drop microextraction and comparison with solid-phase microextraction and solid-phase extraction for the determination of  $\alpha$ - and  $\beta$ -endosulfan in water samples by gas chromatography–electron-capture detection 984(2003)245

**Environmental analysis**

Application of single-drop microextraction and comparison with solid-phase microextraction and solid-phase extraction for the determination of  $\alpha$ - and  $\beta$ -endosulfan in water samples by gas chromatography–electron-capture detection 984(2003)245

**Essential oils**

Analysis by gas chromatography–mass spectrometry of the essential oils from the aerial parts of *Rutheopsis herbanica* (Bolle) Hans. & Kunk., gathered in Fuerteventura (Canary Islands) 984(2003)159

**Estrogens**

Determination of estrogens and their conjugates in water using solid-phase extraction followed by liquid chromatography–tandem mass spectrometry 984(2003)195

**Experimental design**

Optimization and validation of a micellar electrokinetic chromatographic method for the analysis of several angiotensin-II-receptor antagonists 984(2003)135

**Extraction methods**

Application of single-drop microextraction and comparison with solid-phase microextraction and solid-phase extraction for the determination of  $\alpha$ - and  $\beta$ -endosulfan in water samples by gas chromatography–electron-capture detection 984(2003)245

**Field-flow fractionation**

Practical implications of ionic strength effects on particle retention in thermal field-flow fractionation 984(2003)67

**Flavonoids**

Liquid chromatography with atmospheric pressure chemical ionization and electrospray ionization mass spectrometry of flavonoids with triple-quadrupole and ion-trap instruments 984(2003)45

**Food analysis**

Evaluation of headspace solid-phase microextraction for the analysis of volatile carbonyl compounds in spirits and alcoholic beverages 984(2003)89

**Forensic analysis**

Use of dynamically coated capillaries with added cyclodextrins for the analysis of opium using capillary electrophoresis 984(2003)109

**Functional oligomers**

Liquid chromatography of polyethylene glycol mono- and diesters: functional macromolecules or block copolymers? 984(2003)29

**Glycosides**

Liquid chromatography with atmospheric pressure chemical ionization and electrospray ionization mass spectrometry of flavonoids with triple-quadrupole and ion-trap instruments 984(2003)45

**Hexamine cobalt**

Enhancement of anion-exchange chromatography of DNA using compaction agents 984(2003)215

**Immobilized metal affinity chromatography**

Protein proteolysis and the multi-dimensional electrochromatographic separation of histidine-containing peptide fragments on a chip 984(2003)97

**Injection methods**

Chiral separation of amines with *N*-benzoxycarbonylglycyl-*L*-proline as selector in non-aqueous capillary electrophoresis using methanol and 1,2-dichloroethane in the background electrolyte 984(2003)261

**Interaction parameter**

Practical implications of ionic strength effects on particle retention in thermal field-flow fractionation 984(2003)67

**Ionic strength**

Practical implications of ionic strength effects on particle retention in thermal field-flow fractionation 984(2003)67

**Ionization methods**

Comparison of separation conditions and ionization methods for the liquid chromatography–mass spectrometric determination of sulfonamides 984(2003)153

**LSD**

Use of dynamically coated capillaries with added cyclodextrins for the analysis of opium using capillary electrophoresis 984(2003)109

**Lysergic acid diethylamide**

Use of dynamically coated capillaries with added cyclodextrins for the analysis of opium using capillary electrophoresis 984(2003)109

**Mass spectrometry**

Liquid chromatography with atmospheric pressure chemical ionization and electrospray ionization mass spectrometry of flavonoids with triple-quadrupole and ion-trap instruments 984(2003)45

Structural characterization by both positive and negative electrospray ion trap mass spectrometry of oligogalacturonates purified by high-performance anion-exchange chromatography 984(2003)185

**Mobile phase composition**

Comparison of separation conditions and ionization methods for the liquid chromatography–mass spectrometric determination of sulfonamides 984(2003)153

Micellar liquid chromatography determination of B vitamins with direct injection and ultraviolet absorbance detection 984(2003)223

**Molecularly imprinted polymers**

On-line solid-phase extraction of ceramides from yeast with ceramide III imprinted monolith 984(2003)173

**Molecular imprinting**

Molecularly imprinted monolithic stationary phases for liquid chromatographic separation of enantiomers and diastereomers 984(2003)273

**Monolithic columns**

Protein proteolysis and the multi-dimensional electrochromatographic separation of histidine-containing peptide fragments on a chip 984(2003)97

On-line solid-phase extraction of ceramides from yeast with ceramide III imprinted monolith 984(2003)173

**Neoandrographolide**

Separation of andrographolide and neoandrographolide from the leaves of *Andrographis paniculata* using high-speed counter-current chromatography 984(2003)147

**Non-aqueous capillary electrophoresis**

Chiral separation of amines with *N*-benzoxycarbonylglycyl-*L*-proline as selector in non-aqueous capillary electrophoresis using methanol and 1,2-dichloroethane in the background electrolyte 984(2003)261

**Nonsteroidal anti-inflammatory drugs**

Separation of negatively charged nonsteroidal anti-inflammatory drugs by reversed-phase capillary electrochromatography 984(2003)283

**Oligogalacturonates**

Structural characterization by both positive and negative electrospray ion trap mass spectrometry of oligogalacturonates purified by high-performance anion-exchange chromatography 984(2003)185

**Optimization**

Optimization and validation of a micellar electrokinetic chromatographic method for the analysis of several angiotensin-II-receptor antagonists 984(2003)135

**Organosulfur compounds**

Ion trap tandem mass spectrometric identification of thiabendazole phototransformation products on titanium dioxide 984(2003)59

***Papaver somniferum***

Use of dynamically coated capillaries with added cyclodextrins for the analysis of opium using capillary electrophoresis 984(2003)109

**Paraffins**

Solid-phase microextraction for the analysis of short-chain chlorinated paraffins in water samples 984(2003)1

**Particle retention**

Practical implications of ionic strength effects on particle retention in thermal field-flow fractionation 984(2003)67

**Pentafluoropyridine**

Determination of 4-alkylphenols by novel derivatization and gas chromatography–mass spectrometry 984(2003)237

**Pentanol**

Micellar liquid chromatography determination of B vitamins with direct injection and ultraviolet absorbance detection 984(2003)223

**Peptides**

Protein proteolysis and the multi-dimensional electrochromatographic separation of histidine-containing peptide fragments on a chip 984(2003)97

**Pesticides**

Determination of dithiocarbamate pesticides in occupational hygiene sampling devices using the isooctane method and comparison with an automatic thermal desorption (ATD) method 984(2003)81

Application of single-drop microextraction and comparison with solid-phase microextraction and solid-phase extraction for the determination of  $\alpha$ - and  $\beta$ -endosulfan in water samples by gas chromatography–electron-capture detection 984(2003)245

**Pharmaceutical analysis**

Optimization and validation of a micellar electrokinetic chromatographic method for the analysis of several angiotensin-II-receptor antagonists 984(2003)135

**Photocatalysis**

Ion trap tandem mass spectrometric identification of thiabendazole phototransformation products on titanium dioxide 984(2003)59

**Pinenes**

Analysis by gas chromatography–mass spectrometry of the essential oils from the aerial parts of *Rutheopsis herbanica* (Bolle) Hans. & Kunk., gathered in Fuerteventura (Canary Islands) 984(2003)159

**Plant material**

Separation of andrographolide and neoandrographolide from the leaves of *Andrographis paniculata* using high-speed counter-current chromatography 984(2003)147

**Polyethylene glycol esters**

Liquid chromatography of polyethylene glycol mono- and diesters: functional macromolecules or block copolymers? 984(2003)29

**Polysorbate 80**

High-performance liquid chromatographic determination of polysorbate 80 in pharmaceutical suspensions 984(2003)233

**Preparative chromatography**

Enhancement of anion-exchange chromatography of DNA using compaction agents 984(2003)215

**Proteins**

In flow activation of diol–silica with cyanogen bromide and triethylamine for preparing high-performance affinity chromatographic columns 984(2003)9

Protein proteolysis and the multi-dimensional electrochromatographic separation of histidine-containing peptide fragments on a chip 984(2003)97

**Proteomics**

Protein proteolysis and the multi-dimensional electrochromatographic separation of histidine-containing peptide fragments on a chip 984(2003)97

***Rutheopsis herbanica***

Analysis by gas chromatography–mass spectrometry of the essential oils from the aerial parts of *Rutheopsis herbanica* (Bolle) Hans. & Kunk., gathered in Fuerteventura (Canary Islands) 984(2003)159

**Selenium anions**

Capillary electrophoretic determination of inorganic selenium species 984(2003)291

**Short-chain chlorinated paraffins**

Solid-phase microextraction for the analysis of short-chain chlorinated paraffins in water samples 984(2003)1

**Short-end injection**

Chiral separation of amines with *N*-benzoxycarbonylglycyl-*L*-proline as selector in non-aqueous capillary electrophoresis using methanol and 1,2-dichloroethane in the background electrolyte 984(2003)261

**Single-drop microextraction**

Application of single-drop microextraction and comparison with solid-phase microextraction and solid-phase extraction for the determination of  $\alpha$ - and  $\beta$ -endosulfan in water samples by gas chromatography–electron-capture detection 984(2003)245

**Sodium dodecyl sulfate**

Micellar liquid chromatography determination of B vitamins with direct injection and ultraviolet absorbance detection 984(2003)223

**Solid-phase extraction**

On-line solid-phase extraction of ceramides from yeast with ceramide III imprinted monolith 984(2003)173

**Solid-phase microextraction**

Solid-phase microextraction for the analysis of short-chain chlorinated paraffins in water samples 984(2003)1

**Spermidine**

Enhancement of anion-exchange chromatography of DNA using compaction agents 984(2003)215

**Spermine**

Enhancement of anion-exchange chromatography of DNA using compaction agents 984(2003)215

**Stationary phases, LC**

In flow activation of diol–silica with cyanogen bromide and triethylamine for preparing high-performance affinity chromatographic columns 984(2003)9

Comparison of model monomeric and polymeric alkyl stationary phases on silica using sum-frequency spectroscopy 984(2003)19

On-line solid-phase extraction of ceramides from yeast with ceramide III imprinted monolith 984(2003)173

**Stationary phases, monolithic, LC**

Molecularly imprinted monolithic stationary phases for liquid chromatographic separation of enantiomers and diastereomers 984(2003)273

**Steric inversion diameter**

Practical implications of ionic strength effects on particle retention in thermal field-flow fractionation 984(2003)67

**Steroids**

Determination of estrogens and their conjugates in water using solid-phase extraction followed by liquid chromatography–tandem mass spectrometry 984(2003)195

**Sulfonamides**

Comparison of separation conditions and ionization methods for the liquid chromatography–mass spectrometric determination of sulfonamides 984(2003)153

**Sum-frequency spectroscopy**

Comparison of model monomeric and polymeric alkyl stationary phases on silica using sum-frequency spectroscopy 984(2003)19

**Surfactants**

Liquid chromatography of polyethylene glycol mono- and diesters: functional macromolecules or block copolymers? 984(2003)29

**Terpenes**

Analysis by gas chromatography–mass spectrometry of the essential oils from the aerial parts of *Rutheopsis herbanica* (Bolle) Hans. & Kunk., gathered in Fuerteventura (Canary Islands) 984(2003)159

**Thermal desorption**

Determination of dithiocarbamate pesticides in occupational hygiene sampling devices using the isooctane method and comparison with an automatic thermal desorption (ATD) method 984(2003)81

**Thermal field-flow fractionation**

Practical implications of ionic strength effects on particle retention in thermal field-flow fractionation 984(2003)67

**Thiabendazole**

Ion trap tandem mass spectrometric identification of thiabendazole phototransformation products on titanium dioxide 984(2003)59

**Titanium dioxide**

Ion trap tandem mass spectrometric identification of thiabendazole phototransformation products on titanium dioxide 984(2003)59

**Triethylamine**

In flow activation of diol–silica with cyanogen bromide and triethylamine for preparing high-performance affinity chromatographic columns 984(2003)9

**Validation**

Optimization and validation of a micellar electrokinetic chromatographic method for the analysis of several angiotensin-II-receptor antagonists 984(2003)135

Determination of carnitine and acylcarnitines in urine by high-performance liquid chromatography–electrospray ionization ion trap tandem mass spectrometry 984(2003)203

**Vitamins**

Micellar liquid chromatography determination of B vitamins with direct injection and ultraviolet absorbance detection 984(2003)223

**Volatile organic compounds**

Analysis by gas chromatography–mass spectrometry of the essential oils from the aerial parts of *Rutheopsis herbanica* (Bolle) Hans. & Kunk., gathered in Fuerteventura (Canary Islands) 984(2003)159

**Water analysis**

Solid-phase microextraction for the analysis of short-chain chlorinated paraffins in water samples 984(2003)1

Determination of estrogens and their conjugates in water using solid-phase extraction followed by liquid chromatography–tandem mass spectrometry 984(2003)195

Determination of 4-alkylphenols by novel derivatization and gas chromatography–mass spectrometry 984(2003)237

Application of single-drop microextraction and comparison with solid-phase microextraction and solid-phase extraction for the determination of  $\alpha$ - and  $\beta$ -endosulfan in water samples by gas chromatography–electron-capture detection 984(2003)245

Capillary electrophoretic determination of inorganic selenium species 984(2003)291
