

## Subject Index Vol. 1022

### ***Acronychia pedunculata***

Isolation of high purity 1-[2',4'-dihydroxy-3',5'-di-(3''-methylbut-2''-enyl)-6'-methoxy] phenylethanone from *Acronychia pedunculata* (L.) Miq. by high-speed counter-current chromatography 1022(2004)213

### **Adipic acid**

Development of a solid-phase extraction method for simultaneous extraction of adipic acid, succinic acid and 1,4-butanediol formed during hydrolysis of poly(butylene adipate) and poly(butylene succinate) 1022(2004)171

### **Aerosols**

Identification of organic compounds in atmospheric aerosol particles by on-line supercritical fluid extraction–liquid chromatography–gas chromatography–mass spectrometry 1022(2004)151

### **Agarose**

Separation and purification of puerarin using  $\beta$ -cyclodextrin-coupled agarose gel media 1022(2004)77

### **Air analysis**

Identification of organic compounds in atmospheric aerosol particles by on-line supercritical fluid extraction–liquid chromatography–gas chromatography–mass spectrometry 1022(2004)151

### **Alachlor**

High-performance liquid chromatographic–nuclear magnetic resonance investigation of the isomerization of alachlor–ethanesulfonic acid 1022(2004)131

### **Alachlor–ethanesulfonic acid**

High-performance liquid chromatographic–nuclear magnetic resonance investigation of the isomerization of alachlor–ethanesulfonic acid 1022(2004)131

### **Alkanes**

Identification of organic compounds in atmospheric aerosol particles by on-line supercritical fluid extraction–liquid chromatography–gas chromatography–mass spectrometry 1022(2004)151

### **Alkylphenols**

Determination of endocrine disrupting chemicals in environmental solid matrices by extraction with a non-ionic surfactant (Tween 80) 1022(2004)1

### **Ammonium**

Simultaneous separation of nine metal ions and ammonium with nonaqueous capillary electrophoresis 1022(2004)217

### **Amperometric detection**

Microchip capillary electrophoresis with a boron-doped diamond electrode for rapid separation and detection of purines 1022(2004)207

### **Annular chromatography**

Continuous chromatographic protein refolding 1022(2004)103

### **Antibiotics**

Liquid chromatography with ultraviolet absorbance detection for the analysis of tetracycline residues in honey 1022(2004)125

### **Antibodies**

Comparative study of thiophilic functionalised matrices for polyclonal F(ab')<sub>2</sub> purification 1022(2004)41

### **Antioxidants**

Analysis of polyphenolic antioxidants in star fruit using liquid chromatography and mass spectrometry 1022(2004)67

### **Aspartimide formation**

Analysis of aspartyl peptide degradation products by high-performance liquid chromatography and high-performance liquid chromatography–mass spectrometry 1022(2004)95

### **Aspartyl peptides**

Analysis of aspartyl peptide degradation products by high-performance liquid chromatography and high-performance liquid chromatography–mass spectrometry 1022(2004)95

### **Atmospheric pressure photoionization**

Rapid simultaneous determination of *o*-phenylphenol, diphenyl, thiabendazole, imazalil and its major metabolite in citrus fruits by liquid chromatography–mass spectrometry using atmospheric pressure photoionization 1022(2004)145

### **Bisphenol A**

Determination of endocrine disrupting chemicals in environmental solid matrices by extraction with a non-ionic surfactant (Tween 80) 1022(2004)1

### **Boron-doped diamond electrodes**

Microchip capillary electrophoresis with a boron-doped diamond electrode for rapid separation and detection of purines 1022(2004)207

### **Butanediol**

Development of a solid-phase extraction method for simultaneous extraction of adipic acid, succinic acid and 1,4-butanediol formed during hydrolysis of poly(butylene adipate) and poly(butylene succinate) 1022(2004)171

### **Carbonyls compounds**

Identification of organic compounds in atmospheric aerosol particles by on-line supercritical fluid extraction–liquid chromatography–gas chromatography–mass spectrometry 1022(2004)151

**Chip technology**

Microchip capillary electrophoresis with a boron-doped diamond electrode for rapid separation and detection of purines 1022(2004)207

**Citrus fruits**

Rapid simultaneous determination of *o*-phenylphenol, diphenyl, thiabendazole, imazalil and its major metabolite in citrus fruits by liquid chromatography-mass spectrometry using atmospheric pressure photoionization 1022(2004)145

**Counter-current chromatography**

Comparison of high-speed counter-current chromatography and high-performance liquid chromatography on fingerprinting of Chinese traditional medicine 1022(2004)139

Isolation of high purity 1-[2',4'-dihydroxy-3',5'-di-(3''-methylbut-2''-enyl)-6'-methoxy] phenylethanone from *Acronychia pedunculata* (L.) Miq. by high-speed counter-current chromatography 1022(2004)213

**Cyclodextrin**

Separation and purification of puerarin using  $\beta$ -cyclodextrin-coupled agarose gel media 1022(2004)77

**Derivatization, electrophoresis**

Post-column fluorescence derivatization of proteins and peptides in capillary electrophoresis with a sheath flow reactor and 488 nm argon ion laser excitation 1022(2004)201

**Detection, electrophoresis**

Microchip capillary electrophoresis with a boron-doped diamond electrode for rapid separation and detection of purines 1022(2004)207

**Dihydroxydimethylbutenylmethoxyl phenylethanone**

Isolation of high purity 1-[2',4'-dihydroxy-3',5'-di-(3''-methylbut-2''-enyl)-6'-methoxy] phenylethanone from *Acronychia pedunculata* (L.) Miq. by high-speed counter-current chromatography 1022(2004)213

**Diphenyl**

Rapid simultaneous determination of *o*-phenylphenol, diphenyl, thiabendazole, imazalil and its major metabolite in citrus fruits by liquid chromatography-mass spectrometry using atmospheric pressure photoionization 1022(2004)145

**Diuretics**

Prediction of peak shape as a function of retention in reversed-phase liquid chromatography 1022(2004)17

Effects of pH and the presence of micelles on the resolution of diuretics by reversed-phase liquid chromatography 1022(2004)51

**Efficiency**

Prediction of peak shape as a function of retention in reversed-phase liquid chromatography 1022(2004)17

**Electrodes**

Microchip capillary electrophoresis with a boron-doped diamond electrode for rapid separation and detection of purines 1022(2004)207

**Endocrine disrupters**

Determination of endocrine disrupting chemicals in environmental solid matrices by extraction with a non-ionic surfactant (Tween 80) 1022(2004)1

Simultaneous determination of endocrine disrupting phenolic compounds and steroids in water by solid-phase extraction-gas chromatography-mass spectrometry 1022(2004)179

**Environmental analysis**

Determination of endocrine disrupting chemicals in environmental solid matrices by extraction with a non-ionic surfactant (Tween 80) 1022(2004)1

Use of reversed-phase high-performance liquid chromatography-diode array detection for complete separation of 2,4,6-trinitrotoluene metabolites and EPA Method 8330 explosives: influence of temperature and an ion-pair reagent 1022(2004)83

Identification of organic compounds in atmospheric aerosol particles by on-line supercritical fluid extraction-liquid chromatography-gas chromatography-mass spectrometry 1022(2004)151

**EPA Method 8330**

Use of reversed-phase high-performance liquid chromatography-diode array detection for complete separation of 2,4,6-trinitrotoluene metabolites and EPA Method 8330 explosives: influence of temperature and an ion-pair reagent 1022(2004)83

**Epicatechin**

Analysis of polyphenolic antioxidants in star fruit using liquid chromatography and mass spectrometry 1022(2004)67

**Explosives**

Use of reversed-phase high-performance liquid chromatography-diode array detection for complete separation of 2,4,6-trinitrotoluene metabolites and EPA Method 8330 explosives: influence of temperature and an ion-pair reagent 1022(2004)83

**Finger printing**

Comparison of high-speed counter-current chromatography and high-performance liquid chromatography on fingerprinting of Chinese traditional medicine 1022(2004)139

**Food analysis**

Analysis of polyphenolic antioxidants in star fruit using liquid chromatography and mass spectrometry 1022(2004)67

Simultaneous quantification of Vitamins A, D<sub>3</sub> and E in fortified infant formulae by liquid chromatography-mass spectrometry 1022(2004)115

Liquid chromatography with ultraviolet absorbance detection for the analysis of tetracycline residues in honey 1022(2004)125

Rapid simultaneous determination of *o*-phenylphenol, diphenyl, thiabendazole, imazalil and its major metabolite in citrus fruits by liquid chromatography-mass spectrometry using atmospheric pressure photoionization 1022(2004)145

**Honey**

Liquid chromatography with ultraviolet absorbance detection for the analysis of tetracycline residues in honey 1022(2004)125

**Hydroxylaminodinitrotoluene**

Use of reversed-phase high-performance liquid chromatography-diode array detection for complete separation of 2,4,6-trinitrotoluene metabolites and EPA Method 8330 explosives: influence of temperature and an ion-pair reagent 1022(2004)83

**Imazalil**

Rapid simultaneous determination of *o*-phenylphenol, diphenyl, thiabendazole, imazalil and its major metabolite in citrus fruits by liquid chromatography-mass spectrometry using atmospheric pressure photoionization 1022(2004)145

**Immunoglobulin G**

Comparative study of thiophilic functionalised matrices for polyclonal F(ab')<sub>2</sub> purification 1022(2004)41

**Inorganic anions**

Evaluation of weak ion association between tetraalkylammonium ions and inorganic anions in aqueous solutions by capillary zone electrophoresis 1022(2004)191

**Instrumentation**

Determination of trace metallic impurities in high-purity quartz by ion chromatography 1022(2004)25

**Interferon**

Preparation of hydrophobic interaction chromatographic packings based on monodisperse poly(glycidylmethacrylate-*co*-ethylenedimethacrylate) beads and their application 1022(2004)33

**Ion association constants**

Evaluation of weak ion association between tetraalkylammonium ions and inorganic anions in aqueous solutions by capillary zone electrophoresis 1022(2004)191

**Isoflavonoids**

Separation and purification of puerarin using  $\beta$ -cyclodextrin-coupled agarose gel media 1022(2004)77

**Kinetic studies**

High-performance liquid chromatographic–nuclear magnetic resonance investigation of the isomerization of alachlor–ethanesulfonic acid 1022(2004)131

**Liquid-phase microextraction**

Application of liquid-phase microextraction and gas chromatography–mass spectrometry for the determination of polychlorinated biphenyls in blood plasma 1022(2004)161

**Metal cations**

Determination of trace metallic impurities in high-purity quartz by ion chromatography 1022(2004)25

Simultaneous separation of nine metal ions and ammonium with nonaqueous capillary electrophoresis 1022(2004)217

**Micelles**

Effects of pH and the presence of micelles on the resolution of diuretics by reversed-phase liquid chromatography 1022(2004)51

**Mobile phase composition**

Effects of pH and the presence of micelles on the resolution of diuretics by reversed-phase liquid chromatography 1022(2004)51

**Nonaqueous capillary electrophoresis**

Simultaneous separation of nine metal ions and ammonium with nonaqueous capillary electrophoresis 1022(2004)217

**Non-Gaussian peak model**

Prediction of peak shape as a function of retention in reversed-phase liquid chromatography 1022(2004)17

**Nuclear magnetic resonance spectrometry**

High-performance liquid chromatographic–nuclear magnetic resonance investigation of the isomerization of alachlor–ethanesulfonic acid 1022(2004)131

**Organic acids**

Development of a solid-phase extraction method for simultaneous extraction of adipic acid, succinic acid and 1,4-butanediol formed during hydrolysis of poly(butylene adipate) and poly(butylene succinate) 1022(2004)171

**Parabolic variance**

Prediction of peak shape as a function of retention in reversed-phase liquid chromatography 1022(2004)17

**Peak shape**

Prediction of peak shape as a function of retention in reversed-phase liquid chromatography 1022(2004)17

**Peptides**

Analysis of aspartyl peptide degradation products by high-performance liquid chromatography and high-performance liquid chromatography–mass spectrometry 1022(2004)95

Post-column fluorescence derivatization of proteins and peptides in capillary electrophoresis with a sheath flow reactor and 488 nm argon ion laser excitation 1022(2004)201

**Pesticides**

High-performance liquid chromatographic–nuclear magnetic resonance investigation of the isomerization of alachlor–ethanesulfonic acid 1022(2004)131

Rapid simultaneous determination of *o*-phenylphenol, diphenyl, thiabendazole, imazalil and its major metabolite in citrus fruits by liquid chromatography–mass spectrometry using atmospheric pressure photoionization 1022(2004)145

**pH effects**

Effects of pH and the presence of micelles on the resolution of diuretics by reversed-phase liquid chromatography 1022(2004)51

**Pharmaceutical analysis**

Separation and purification of puerarin using  $\beta$ -cyclodextrin-coupled agarose gel media 1022(2004)77

Comparison of high-speed counter-current chromatography and high-performance liquid chromatography on fingerprinting of Chinese traditional medicine 1022(2004)139

Isolation of high purity 1-[2',4'-dihydroxy-3',5'-di-(3''-methylbut-2''-enyl)-6'-methoxy] phenylethanone from *Acronychia pedunculata* (L.) Miq. by high-speed counter-current chromatography 1022(2004)213

**Phenolic compounds**

Comparison of gas chromatography–mass spectrometry and capillary electrophoresis in analysis of phenolic compounds extracted from solid matrices with pressurized hot water 1022(2004)9

Simultaneous determination of endocrine disrupting phenolic compounds and steroids in water by solid-phase extraction–gas chromatography–mass spectrometry 1022(2004)179

***o*-Phenylphenol**

Rapid simultaneous determination of *o*-phenylphenol, diphenyl, thiabendazole, imazalil and its major metabolite in citrus fruits by liquid chromatography–mass spectrometry using atmospheric pressure photoionization 1022(2004)145

**Poly(butylene adipate)**

Development of a solid-phase extraction method for simultaneous extraction of adipic acid, succinic acid and 1,4-butanediol formed during hydrolysis of poly(butylene adipate) and poly(butylene succinate) 1022(2004)171

**Poly(butylene succinate)**

Development of a solid-phase extraction method for simultaneous extraction of adipic acid, succinic acid and 1,4-butanediol formed during hydrolysis of poly(butylene adipate) and poly(butylene succinate) 1022(2004)171

**Poly(glycidylmethacrylate-co-ethylenedimethacrylate)**

Preparation of hydrophobic interaction chromatographic packings based on monodisperse poly(glycidylmethacrylate-co-ethylenedimethacrylate) beads and their application 1022(2004)33

**Polychlorinated biphenyls**

Application of liquid-phase microextraction and gas chromatography–mass spectrometry for the determination of polychlorinated biphenyls in blood plasma 1022(2004)161

**Polyclonal F(ab')<sub>2</sub>**

Comparative study of thiophilic functionalised matrices for polyclonal F(ab')<sub>2</sub> purification 1022(2004)41

**Polynuclear aromatic hydrocarbons**

Identification of organic compounds in atmospheric aerosol particles by on-line supercritical fluid extraction–liquid chromatography–gas chromatography–mass spectrometry 1022(2004)151

**Polyphenols**

Analysis of polyphenolic antioxidants in star fruit using liquid chromatography and mass spectrometry 1022(2004)67

**Positional isomers**

High-performance liquid chromatographic–nuclear magnetic resonance investigation of the isomerization of alachlor–ethanesulfonic acid 1022(2004)131

**Pressurized hot water extraction**

Comparison of gas chromatography–mass spectrometry and capillary electrophoresis in analysis of phenolic compounds extracted from solid matrices with pressurized hot water 1022(2004)9

**Proanthocyanidins**

Analysis of polyphenolic antioxidants in star fruit using liquid chromatography and mass spectrometry 1022(2004)67

**Protein folding**

Continuous chromatographic protein refolding 1022(2004)103

**Proteins**

Preparation of hydrophobic interaction chromatographic packings based on monodisperse poly(glycidylmethacrylate-co-ethylenedimethacrylate) beads and their application 1022(2004)33

Comparative study of thiophilic functionalised matrices for polyclonal F(ab')<sub>2</sub> purification 1022(2004)41

Continuous chromatographic protein refolding 1022(2004)103

Post-column fluorescence derivatization of proteins and peptides in capillary electrophoresis with a sheath flow reactor and 488 nm argon ion laser excitation 1022(2004)201

**Puerarin**

Separation and purification of puerarin using  $\beta$ -cyclodextrin-coupled agarose gel media 1022(2004)77

**Purines**

Microchip capillary electrophoresis with a boron-doped diamond electrode for rapid separation and detection of purines 1022(2004)207

**Pyridine**

Comparative study of thiophilic functionalised matrices for polyclonal F(ab')<sub>2</sub> purification 1022(2004)41

**Pyrimidine**

Comparative study of thiophilic functionalised matrices for polyclonal F(ab')<sub>2</sub> purification 1022(2004)41

**Quartz**

Determination of trace metallic impurities in high-purity quartz by ion chromatography 1022(2004)25

**Resolution**

Effects of pH and the presence of micelles on the resolution of diuretics by reversed-phase liquid chromatography 1022(2004)51

**Salvia miltiorrhiza**

Comparison of high-speed counter-current chromatography and high-performance liquid chromatography on fingerprinting of Chinese traditional medicine 1022(2004)139

**Selectivity**

Effects of pH and the presence of micelles on the resolution of diuretics by reversed-phase liquid chromatography 1022(2004)51

**Sheath flow reactor**

Post-column fluorescence derivatization of proteins and peptides in capillary electrophoresis with a sheath flow reactor and 488 nm argon ion laser excitation 1022(2004)201

**Solid-matrix extraction**

Determination of endocrine disrupting chemicals in environmental solid matrices by extraction with a non-ionic surfactant (Tween 80) 1022(2004)1

**Star fruit**

Analysis of polyphenolic antioxidants in star fruit using liquid chromatography and mass spectrometry 1022(2004)67

**Stationary phases, LC**

Preparation of hydrophobic interaction chromatographic packings based on monodisperse poly(glycidylmethacrylate-co-ethylenedimethacrylate) beads and their application 1022(2004)33

Separation and purification of puerarin using  $\beta$ -cyclodextrin-coupled agarose gel media 1022(2004)77

**Stationary phases, CC**

Comparative study of thiophilic functionalised matrices for polyclonal F(ab')<sub>2</sub> purification 1022(2004)41

**Steroids**

Simultaneous determination of endocrine disrupting phenolic compounds and steroids in water by solid-phase extraction–gas chromatography–mass spectrometry 1022(2004)179

**Stokes' radius**

Evaluation of weak ion association between tetraalkylammonium ions and inorganic anions in aqueous solutions by capillary zone electrophoresis 1022(2004)191

**Succinic acid**

Development of a solid-phase extraction method for simultaneous extraction of adipic acid, succinic acid and 1,4-butanediol formed during hydrolysis of poly(butylene adipate) and poly(butylene succinate) 1022(2004)171

**Temperature selectivity**

Use of reversed-phase high-performance liquid chromatography–diode array detection for complete separation of 2,4,6-trinitrotoluene metabolites and EPA Method 8330 explosives: influence of temperature and an ion-pair reagent 1022(2004)83

**Tetraalkylammonium ions**

Evaluation of weak ion association between tetraalkylammonium ions and inorganic anions in aqueous solutions by capillary zone electrophoresis 1022(2004)191

**Tetracycline**

Liquid chromatography with ultraviolet absorbance detection for the analysis of tetracycline residues in honey 1022(2004)125

**Tetranitrozotoluene**

Use of reversed-phase high-performance liquid chromatography–diode array detection for complete separation of 2,4,6-trinitrotoluene metabolites and EPA Method 8330 explosives: influence of temperature and an ion-pair reagent 1022(2004)83

**Tetranitroazoxytoluene**

Use of reversed-phase high-performance liquid chromatography–diode array detection for complete separation of 2,4,6-trinitrotoluene metabolites and EPA Method 8330 explosives: influence of temperature and an ion-pair reagent 1022(2004)83

**Thiabendazole**

Rapid simultaneous determination of *o*-phenylphenol, diphenyl, thiabendazole, imazalil and its major metabolite in citrus fruits by liquid chromatography-mass spectrometry

using atmospheric pressure photoionization 1022(2004)145

**2,4,6-Trinitrotoluene**

Use of reversed-phase high-performance liquid chromatography–diode array detection for complete separation of 2,4,6-trinitrotoluene metabolites and EPA Method 8330 explosives: influence of temperature and an ion-pair reagent 1022(2004)83

**Tween 80**

Determination of endocrine disrupting chemicals in environmental solid matrices by extraction with a non-ionic surfactant (Tween 80) 1022(2004)1

**Vapour phase digestion**

Determination of trace metallic impurities in high-purity quartz by ion chromatography 1022(2004)25

**Vitamins**

Simultaneous quantification of Vitamins A, D<sub>3</sub> and E in fortified infant formulae by liquid chromatography–mass spectrometry 1022(2004)115

**Water analysis**

Simultaneous determination of endocrine disrupting phenolic compounds and steroids in water by solid-phase extraction–gas chromatography–mass spectrometry 1022(2004)179

**Weak ion association**

Evaluation of weak ion association between tetraalkylammonium ions and inorganic anions in aqueous solutions by capillary zone electrophoresis 1022(2004)191
