

## Subject Index Vol. 1023

### Absolute quantification

Calculation of the molar absorptivity of polyphenols by using liquid chromatography with diode array detection: the case of carnolic acid 1023(2004)225

### Acetonitrile

AT-column, a novel concentrating technique for large-volume injections in gas chromatography 1023(2004)165

### Acidity

Ion chromatographic separation of hydrogen ion and other common mono- and divalent cations 1023(2004)239

### After-cut method

Stability test and improvement of hydrogen analyzer with trace reduction detector 1023(2004)123

### Air analysis

Simultaneous determination of semivolatile organic compounds in indoor air by gas chromatography–mass spectrometry after solid-phase extraction 1023(2004)255

### Air–water interface

Study of the influence of surfactants on the transfer of gases into liquids by inverse gas chromatography 1023(2004)287

### Alkanes

AT-column, a novel concentrating technique for large-volume injections in gas chromatography 1023(2004)165

### Amines, aromatic

Preparation and characteristics of sol–gel-coated calix[4]arene fiber for solid-phase microextraction 1023(2004)15

### Amines, heterocyclic aromatic

Evaluation of different liquid chromatography–electrospray mass spectrometry systems for the analysis of heterocyclic amines 1023(2004)67

### Aminophenylboronic acid

Properties of poly-aminophenylboronate coatings in capillary electrophoresis for the selective separation of diastereoisomers and glycoproteins 1023(2004)297

### Amperometric detection

In-channel dual-electrode amperometric detection in electrophoretic chips with a palladium film decoupler 1023(2004)143

### Aqueous two-phase system

Drop formation in aqueous two-phase systems 1023(2004)197

### Ascorbic acid

Properties of poly-aminophenylboronate coatings in capillary electrophoresis for the selective separation of diastereoisomers and glycoproteins 1023(2004)297

### *Astragalus membranaceus*

Preparative isolation and purification of isoflavan and pterocarpan glycosides from *Astragalus membranaceus* Bge. var. *mongholicus* (Bge.) Hsiao by high-speed counter-current chromatography 1023(2004)311

### AT-column injection

AT-column, a novel concentrating technique for large-volume injections in gas chromatography 1023(2004)165

### Atomic absorption spectrometry

Stability test and improvement of hydrogen analyzer with trace reduction detector 1023(2004)123

### Benzene

Preparation and characteristics of sol–gel-coated calix[4]arene fiber for solid-phase microextraction 1023(2004)15

### *Boswellia*

Characterization of archaeological frankincense by gas chromatography–mass spectrometry 1023(2004)277

### Boswellic acids

Characterization of archaeological frankincense by gas chromatography–mass spectrometry 1023(2004)277

### Butyltin compounds

Speciation of butyltin compounds in marine sediments by preconcentration on C<sub>60</sub> and gas chromatography–mass spectrometry 1023(2004)175

### Caffeine

Simultaneous solid-phase extraction of acidic, neutral and basic pharmaceuticals from aqueous samples at ambient (neutral) pH and their determination by gas chromatography–mass spectrometry 1023(2004)183

### Calixarenes

Preparation and characteristics of sol–gel-coated calix[4]arene fiber for solid-phase microextraction 1023(2004)15

### Capillary electrophoresis

Overview of the status and applications of capillary electrophoresis to the analysis of small molecules (Review) 1023(2004)1

### Carbohydrates

Comparative analysis of enzymatically digested κ-carrageenans, using liquid chromatography on ion-exchange and porous graphitic carbon columns coupled to an evaporative light scattering detector 1023(2004)231

### Carboxy-ibuprofen

Simultaneous solid-phase extraction of acidic, neutral and basic pharmaceuticals from aqueous samples at ambient (neutral) pH and their determination by gas chromatography–mass spectrometry 1023(2004)183

**Carnosic acid**

Calculation of the molar absorptivity of polyphenols by using liquid chromatography with diode array detection: the case of carnosic acid 1023(2004)225

**Carrageenans**

Comparative analysis of enzymatically digested  $\kappa$ -carrageenans, using liquid chromatography on ion-exchange and porous graphitic carbon columns coupled to an evaporative light scattering detector 1023(2004)231

**Cations**

Ion chromatographic separation of hydrogen ion and other common mono- and divalent cations 1023(2004)239

**Chip technology**

In-channel dual-electrode amperometric detection in electrophoretic chips with a palladium film decoupler 1023(2004)143

**Chiral stationary phases, LC**

Comparisons of the interactions between two analytes and two structurally similar chiral stationary phases using high-performance liquid chromatography, suspended-state high-resolution magic angle spinning nuclear magnetic resonance and solid-state nuclear magnetic resonance spectroscopy 1023(2004)215

**Clofibric acid**

Simultaneous solid-phase extraction of acidic, neutral and basic pharmaceuticals from aqueous samples at ambient (neutral) pH and their determination by gas chromatography–mass spectrometry 1023(2004)183

**Coated columns**

Properties of poly-aminophenylboronate coatings in capillary electrophoresis for the selective separation of diastereoisomers and glycoproteins 1023(2004)297

**Countercurrent chromatography**

Preparative high-speed counter-current chromatography for purification of shikonin from the Chinese medicinal plant *Lithospermum erythrorhizon* 1023(2004)159

Dynamic extraction in rotating coiled columns, a new approach to direct recovery of polycyclic aromatic hydrocarbons from soils 1023(2004)305

Preparative isolation and purification of isoflavan and pterocarpan glycosides from *Astragalus membranaceus* Bge. var. *mongholicus* (Bge.) Hsiao by high-speed counter-current chromatography 1023(2004)311

**Cyanide**

Ion chromatographic determination of sulfide and cyanide in real matrices by using pulsed amperometric detection on a silver electrode 1023(2004)105

**Derivatization, GC**

Single drop microextraction or solid phase microextraction–gas chromatography–mass spectrometry for the determination of iodine in pharmaceuticals, iodized salt, milk powder and vegetables involving conversion into 4-iodo-*N,N*-dimethylaniline 1023(2004)33

**Detection, GC**

Stability test and improvement of hydrogen analyzer with trace reduction detector 1023(2004)123

**Detection, LC**

Multidimensional analysis of denatured milk proteins by hydrophobic interaction chromatography coupled to a dynamic surface tension detector 1023(2004)79

**Diastereomer separation**

Properties of poly-aminophenylboronate coatings in capillary electrophoresis for the selective separation of diastereoisomers and glycoproteins 1023(2004)297

**Dichloromethane**

AT-column, a novel concentrating technique for large-volume injections in gas chromatography 1023(2004)165

**Diclofenac**

Simultaneous solid-phase extraction of acidic, neutral and basic pharmaceuticals from aqueous samples at ambient (neutral) pH and their determination by gas chromatography–mass spectrometry 1023(2004)183

**Direct thermal extraction**

Direct thermal extraction and gas chromatographic–mass spectrometric determination of volatile compounds of extra-virgin olive oils 1023(2004)271

**Drop formation**

Drop formation in aqueous two-phase systems 1023(2004)197

**Dual-electrode detection**

In-channel dual-electrode amperometric detection in electrophoretic chips with a palladium film decoupler 1023(2004)143

**Dynamic surface tension detection**

Multidimensional analysis of denatured milk proteins by hydrophobic interaction chromatography coupled to a dynamic surface tension detector 1023(2004)79

**Environmental analysis**

Dynamic extraction in rotating coiled columns, a new approach to direct recovery of polycyclic aromatic hydrocarbons from soils 1023(2004)305

**Ethylbenzene**

Preparation and characteristics of sol–gel-coated calix[4]arene fiber for solid-phase microextraction 1023(2004)15

**Extraction analysis**

Dynamic extraction in rotating coiled columns, a new approach to direct recovery of polycyclic aromatic hydrocarbons from soils 1023(2004)305

**Extraction methods**

Dynamic extraction in rotating coiled columns, a new approach to direct recovery of polycyclic aromatic hydrocarbons from soils 1023(2004)305

**Flame retardants**

Simultaneous determination of semivolatile organic compounds in indoor air by gas chromatography–mass spectrometry after solid-phase extraction 1023(2004)255

**Food analysis**

Quantification of ochratoxin A in foods by a stable isotope dilution assay using high-performance liquid chromatography–tandem mass spectrometry 1023(2004)57

**Frankincense**

Characterization of archaeological frankincense by gas chromatography–mass spectrometry 1023(2004)277

**Frontal chromatography**

Twin column chromatography for industrial-scale decontamination processes 1023(2004)207

**Fruit**

A new multi-residue method for analysis of pesticide residues in fruit and vegetables using liquid chromatography with tandem mass spectrometric detection 1023(2004)93

**Gases**

Stability test and improvement of hydrogen analyzer with trace reduction detector 1023(2004)123

Study of the influence of surfactants on the transfer of gases into liquids by inverse gas chromatography 1023(2004)287

**Glycoproteins**

Properties of poly-aminophenylboronate coatings in capillary electrophoresis for the selective separation of diastereoisomers and glycoproteins 1023(2004)297

**Glycosides**

Preparative isolation and purification of isoflavan and pterocarpan glycosides from *Astragalus membranaceus* Bge. var. *mongholicus* (Bge.) Hsiao by high-speed counter-current chromatography 1023(2004)311

**Hemoglobins**

Properties of poly-aminophenylboronate coatings in capillary electrophoresis for the selective separation of diastereoisomers and glycoproteins 1023(2004)297

**Humic substances**

Comparative study for separation of aquatic humic substances by capillary zone electrophoresis using uncoated, polymer coated and gel-filled capillaries 1023(2004)129

**Hydrogen**

Stability test and improvement of hydrogen analyzer with trace reduction detector 1023(2004)123

**Hydrophobic interaction chromatography**

Multidimensional analysis of denatured milk proteins by hydrophobic interaction chromatography coupled to a dynamic surface tension detector 1023(2004)79

**Hydroxy-ibuprofen**

Simultaneous solid-phase extraction of acidic, neutral and basic pharmaceuticals from aqueous samples at ambient (neutral) pH and their determination by gas chromatography–mass spectrometry 1023(2004)183

**Ibuprofen**

Simultaneous solid-phase extraction of acidic, neutral and basic pharmaceuticals from aqueous samples at ambient (neutral) pH and their determination by gas chromatography–mass spectrometry 1023(2004)183

**Injection methods**

AT-column, a novel concentrating technique for large-volume injections in gas chromatography 1023(2004)165

**Instrumentation**

AT-column, a novel concentrating technique for large-volume injections in gas chromatography 1023(2004)165

Twin column chromatography for industrial-scale decontamination processes 1023(2004)207

**Inverse gas chromatography**

Study of the influence of surfactants on the transfer of gases into liquids by inverse gas chromatography 1023(2004)287

**Iodine**

Single drop microextraction or solid phase microextraction–gas chromatography–mass spectrometry for the determination of iodine in pharmaceuticals, iodized salt, milk powder and vegetables involving conversion into 4-iodo-*N,N*-dimethylaniline 1023(2004)33

**4-Iodo-*N,N*-dimethylaniline**

Single drop microextraction or solid phase microextraction–gas chromatography–mass spectrometry for the determination of iodine in pharmaceuticals, iodized salt, milk powder and vegetables involving conversion into 4-iodo-*N,N*-dimethylaniline 1023(2004)33

**Iron**

On-column complexation capillary electrophoretic separation of Fe<sup>2+</sup> and Fe<sup>3+</sup> using 2,6-pyridinedicarboxylic acid coupled with large-volume sample stacking 1023(2004)151

**Isoflavan**

Preparative isolation and purification of isoflavan and pterocarpan glycosides from *Astragalus membranaceus* Bge. var. *mongholicus* (Bge.) Hsiao by high-speed counter-current chromatography 1023(2004)311

**Large-volume injections**

AT-column, a novel concentrating technique for large-volume injections in gas chromatography 1023(2004)165

**Ligands**

Chemical characterisation of different separation media based on agarose by static time-of-flight secondary ion mass spectrometry 1023(2004)49

**Lipoxygenase oxidation products**

Direct thermal extraction and gas chromatographic–mass spectrometric determination of volatile compounds of extra-virgin olive oils 1023(2004)271

**Liquid chromatography–mass spectrometry**

Evaluation of different liquid chromatography–electrospray mass spectrometry systems for the analysis of heterocyclic amines 1023(2004)67

***Lithospermum erythrorhizon***

Preparative high-speed counter-current chromatography for purification of shikonin from the Chinese medicinal plant *Lithospermum erythrorhizon* 1023(2004)159

**Lupane triterpenes**

Characterization of archaeological frankincense by gas chromatography–mass spectrometry 1023(2004)277

**Mass spectra**

Evaluation of different liquid chromatography–electrospray mass spectrometry systems for the analysis of heterocyclic amines 1023(2004)67

**Mass spectrometry**

Chemical characterisation of different separation media based on agarose by static time-of-flight secondary ion mass spectrometry 1023(2004)49

**Methyl acetate**

AT-column, a novel concentrating technique for large-volume injections in gas chromatography 1023(2004)165

**Molar absorptivity**

Calculation of the molar absorptivity of polyphenols by using liquid chromatography with diode array detection: the case of carnosic acid 1023(2004)225

**Molecular descriptors**

Prediction of relative response factors of electron-capture detection for some polychlorinated biphenyls using chemometrics 1023(2004)247

**Multi-residue analysis**

A new multi-residue method for analysis of pesticide residues in fruit and vegetables using liquid chromatography with tandem mass spectrometric detection 1023(2004)93

**Mycotoxins**

Quantification of ochratoxin A in foods by a stable isotope dilution assay using high-performance liquid chromatography–tandem mass spectrometry 1023(2004)57

**Neural networks**

Prediction of relative response factors of electron-capture detection for some polychlorinated biphenyls using chemometrics 1023(2004)247

**Nuclear magnetic resonance spectroscopy**

Comparisons of the interactions between two analytes and two structurally similar chiral stationary phases using high-performance liquid chromatography, suspended-state high-resolution magic angle spinning nuclear magnetic resonance and solid-state nuclear magnetic resonance spectroscopy 1023(2004)215

**Ochratoxin A**

Quantification of ochratoxin A in foods by a stable isotope dilution assay using high-performance liquid chromatography–tandem mass spectrometry 1023(2004)57

**Oleanane triterpenes**

Characterization of archaeological frankincense by gas chromatography–mass spectrometry 1023(2004)277

**Olibanum**

Characterization of archaeological frankincense by gas chromatography–mass spectrometry 1023(2004)277

**Olive oil**

Direct thermal extraction and gas chromatographic–mass spectrometric determination of volatile compounds of extra-virgin olive oils 1023(2004)271

**On-column complexation**

On-column complexation capillary electrophoretic separation of Fe<sup>2+</sup> and Fe<sup>3+</sup> using 2,6-pyridinedicarboxylic acid coupled with large-volume sample stacking 1023(2004)151

**Palladium film decoupler**

In-channel dual-electrode amperometric detection in electrophoretic chips with a palladium film decoupler 1023(2004)143

**Peptides**

Thermodynamic studies of pressure-induced retention of peptides in reversed-phase liquid chromatography 1023(2004)41

**Pesticides**

A new multi-residue method for analysis of pesticide residues in fruit and vegetables using liquid chromatography with tandem mass spectrometric detection 1023(2004)93

Simultaneous determination of semivolatile organic compounds in indoor air by gas chromatography–mass spectrometry after solid-phase extraction 1023(2004)255

**Pharmaceutical analysis**

Preparative high-speed counter-current chromatography for purification of shikonin from the Chinese medicinal plant *Lithospermum erythrorhizon* 1023(2004)159

Simultaneous solid-phase extraction of acidic, neutral and basic pharmaceuticals from aqueous samples at ambient (neutral) pH and their determination by gas chromatography–mass spectrometry 1023(2004)183

Preparative isolation and purification of isoflavan and pterocarpin glycosides from *Astragalus membranaceus* Bge. var. *mongholicus* (Bge.) Hsiao by high-speed counter-current chromatography 1023(2004)311

**Phthalates**

Preparation and characteristics of sol–gel-coated calix[4]arene fiber for solid-phase microextraction 1023(2004)15

**Physical gels**

Comparative study for separation of aquatic humic substances by capillary zone electrophoresis using uncoated, polymer coated and gel-filled capillaries 1023(2004)129

**Plackett–Burman design**

Direct thermal extraction and gas chromatographic–mass spectrometric determination of volatile compounds of extra-virgin olive oils 1023(2004)271

**Plant materials**

Preparative high-speed counter-current chromatography for purification of shikonin from the Chinese medicinal plant *Lithospermum erythrorhizon* 1023(2004)159

Preparative isolation and purification of isoflavan and pterocarpin glycosides from *Astragalus membranaceus* Bge. var. *mongholicus* (Bge.) Hsiao by high-speed counter-current chromatography 1023(2004)311

**Plasticizers**

Simultaneous determination of semivolatile organic compounds in indoor air by gas chromatography–mass spectrometry after solid-phase extraction 1023(2004)255

**Poly(vinyl alcohol)**

Comparative study for separation of aquatic humic substances by capillary zone electrophoresis using uncoated, polymer coated and gel-filled capillaries 1023(2004)129

**Polyacrylamides**

Comparative study for separation of aquatic humic substances by capillary zone electrophoresis using uncoated, polymer coated and gel-filled capillaries 1023(2004)129

**Polychlorinated biphenyls**

Prediction of relative response factors of electron-capture detection for some polychlorinated biphenyls using chemometrics 1023(2004)247

**Polynuclear aromatic hydrocarbons**

Preparation and characteristics of sol–gel-coated calix[4]arene fiber for solid-phase microextraction 1023(2004)15

Dynamic extraction in rotating coiled columns, a new approach to direct recovery of polycyclic aromatic hydrocarbons from soils 1023(2004)305

**Polyphenols**

Calculation of the molar absorptivity of polyphenols by using liquid chromatography with diode array detection: the case of carnosic acid 1023(2004)225

**Porous graphitized carbon**

Comparative analysis of enzymatically digested κ-carrageenans, using liquid chromatography on ion-exchange and porous graphitic carbon columns coupled to an evaporative light scattering detector 1023(2004)231

**Preconcentration**

Speciation of butyltin compounds in marine sediments by preconcentration on C<sub>60</sub> and gas chromatography–mass spectrometry 1023(2004)175

**Preparative chromatography**

Preparative high-speed counter-current chromatography for purification of shikonin from the Chinese medicinal plant *Lithospermum erythrorhizon* 1023(2004)159

Twin column chromatography for industrial-scale decontamination processes 1023(2004)207

Preparative isolation and purification of isoflavan and pterocarpan glycosides from *Astragalus membranaceus* Bge. var. *mongholicus* (Bge.) Hsiao by high-speed counter-current chromatography 1023(2004)311

#### Principal component analysis

Direct thermal extraction and gas chromatographic–mass spectrometric determination of volatile compounds of extra-virgin olive oils 1023(2004)271

#### Programmed-temperature vaporiser

AT-column, a novel concentrating technique for large-volume injections in gas chromatography 1023(2004)165

#### Proteins

Multidimensional analysis of denatured milk proteins by hydrophobic interaction chromatography coupled to a dynamic surface tension detector 1023(2004)79

Comparison of protein precipitation methods for sample preparation prior to proteomic analysis 1023(2004)317

#### Proteomics

Comparison of protein precipitation methods for sample preparation prior to proteomic analysis 1023(2004)317

#### Pterocarpan

Preparative isolation and purification of isoflavan and pterocarpan glycosides from *Astragalus membranaceus* Bge. var. *mongholicus* (Bge.) Hsiao by high-speed counter-current chromatography 1023(2004)311

#### Pulsed amperometric detection

Ion chromatographic determination of sulfide and cyanide in real matrices by using pulsed amperometric detection on a silver electrode 1023(2004)105

#### 2,6-Pyridinedicarboxylic acid

On-column complexation capillary electrophoretic separation of  $\text{Fe}^{2+}$  and  $\text{Fe}^{3+}$  using 2,6-pyridinedicarboxylic acid coupled with large-volume sample stacking 1023(2004)151

#### Rainwater

Ion chromatographic separation of hydrogen ion and other common mono- and divalent cations 1023(2004)239

#### Regression analysis

Prediction of relative response factors of electron-capture detection for some polychlorinated biphenyls using chemometrics 1023(2004)247

#### Response factors

Prediction of relative response factors of electron-capture detection for some polychlorinated biphenyls using chemometrics 1023(2004)247

#### Retention, pressure-induced

Thermodynamic studies of pressure-induced retention of peptides in reversed-phase liquid chromatography 1023(2004)41

#### Retention behaviour

Comparisons of the interactions between two analytes and two structurally similar chiral stationary phases using high-performance liquid chromatography, suspended-state high-resolution magic angle spinning nuclear magnetic resonance and solid-state nuclear magnetic resonance spectroscopy 1023(2004)215

#### Retention mechanisms

Comparisons of the interactions between two analytes and two structurally similar chiral stationary phases using high-performance liquid chromatography, suspended-state high-resolution magic angle spinning nuclear magnetic resonance and solid-state nuclear magnetic resonance spectroscopy 1023(2004)215

#### Retention models

Evaluation of a structure-driven retention model for temperature-programmed gas chromatography 1023(2004)113

#### Retention prediction

Evaluation of a structure-driven retention model for temperature-programmed gas chromatography 1023(2004)113

#### Reversed-flow gas chromatography

Study of the influence of surfactants on the transfer of gases into liquids by inverse gas chromatography 1023(2004)287

#### Reviews

Overview of the status and applications of capillary electrophoresis to the analysis of small molecules (Review) 1023(2004)1

#### Rotating coiled columns

Dynamic extraction in rotating coiled columns, a new approach to direct recovery of polycyclic aromatic hydrocarbons from soils 1023(2004)305

#### Sample preparation

Comparison of protein precipitation methods for sample preparation prior to proteomic analysis 1023(2004)317

#### Sample stacking

On-column complexation capillary electrophoretic separation of  $\text{Fe}^{2+}$  and  $\text{Fe}^{3+}$  using 2,6-pyridinedicarboxylic acid coupled with large-volume sample stacking 1023(2004)151

#### Semivolatile organic compounds

Simultaneous determination of semivolatile organic compounds in indoor air by gas chromatography–mass spectrometry after solid-phase extraction 1023(2004)255

#### Sephacrose

Chemical characterisation of different separation media based on agarose by static time-of-flight secondary ion mass spectrometry 1023(2004)49

#### Shikonin

Preparative high-speed counter-current chromatography for purification of shikonin from the Chinese medicinal plant *Lithospermum erythrorhizon* 1023(2004)159

#### Single-drop microextraction

Single drop microextraction or solid phase microextraction–gas chromatography–mass spectrometry for the determination of iodine in pharmaceuticals, iodized salt, milk powder and vegetables involving conversion into 4-iodo-*N,N*-dimethylaniline 1023(2004)33

#### Small molecules

Overview of the status and applications of capillary electrophoresis to the analysis of small molecules (Review) 1023(2004)1

#### Soil

Dynamic extraction in rotating coiled columns, a new approach to direct recovery of polycyclic aromatic hydrocarbons from soils 1023(2004)305

#### Soil analysis

Ion chromatographic determination of sulfide and cyanide in real matrices by using pulsed amperometric detection on a silver electrode 1023(2004)105

**Sol-gel**

Preparation and characteristics of sol-gel-coated calix[4]arene fiber for solid-phase microextraction 1023(2004)15

**Solid-phase extraction**

Simultaneous solid-phase extraction of acidic, neutral and basic pharmaceuticals from aqueous samples at ambient (neutral) pH and their determination by gas chromatography-mass spectrometry 1023(2004)183

**Solid-phase microextraction**

Preparation and characteristics of sol-gel-coated calix[4]arene fiber for solid-phase microextraction 1023(2004)15

Single drop microextraction or solid phase microextraction-gas chromatography-mass spectrometry for the determination of iodine in pharmaceuticals, iodized salt, milk powder and vegetables involving conversion into 4-iodo-*N,N*-dimethylaniline 1023(2004)33

**Solvation parameter model**

Evaluation of a structure-driven retention model for temperature-programmed gas chromatography 1023(2004)113

**Speciation**

Speciation of butyltin compounds in marine sediments by preconcentration on C<sub>60</sub> and gas chromatography-mass spectrometry 1023(2004)175

**Stable isotope dilution**

Quantification of ochratoxin A in foods by a stable isotope dilution assay using high-performance liquid chromatography-tandem mass spectrometry 1023(2004)57

**Stationary phase, LC**

Chemical characterisation of different separation media based on agarose by static time-of-flight secondary ion mass spectrometry 1023(2004)49

Ion chromatographic separation of hydrogen ion and other common mono- and divalent cations 1023(2004)239

**Sulfide**

Ion chromatographic determination of sulfide and cyanide in real matrices by using pulsed amperometric detection on a silver electrode 1023(2004)105

**Surfactant**

Study of the influence of surfactants on the transfer of gases into liquids by inverse gas chromatography 1023(2004)287

**Suspended-state high-resolution magic angle spinning nuclear magnetic resonance spectroscopy**

Comparisons of the interactions between two analytes and two structurally similar chiral stationary phases using high-performance liquid chromatography, suspended-state high-resolution magic angle spinning nuclear magnetic resonance and solid-state nuclear magnetic resonance spectroscopy 1023(2004)215

**Temperature programming**

Evaluation of a structure-driven retention model for temperature-programmed gas chromatography 1023(2004)113

**Thermodynamic parameters**

Thermodynamic studies of pressure-induced retention of peptides in reversed-phase liquid chromatography 1023(2004)41

**Toluene**

Preparation and characteristics of sol-gel-coated calix[4]arene fiber for solid-phase microextraction 1023(2004)15

**Trace reduction detection**

Stability test and improvement of hydrogen analyzer with trace reduction detector 1023(2004)123

**Trimethylamine**

Liquid chromatographic determination of trimethylamine in water 1023(2004)27

**Triterpenoids**

Characterization of archaeological frankincense by gas chromatography-mass spectrometry 1023(2004)277

**Twin column unit**

Twin column chromatography for industrial-scale decontamination processes 1023(2004)207

**Ursane triterpenes**

Characterization of archaeological frankincense by gas chromatography-mass spectrometry 1023(2004)277

**Vegetables**

A new multi-residue method for analysis of pesticide residues in fruit and vegetables using liquid chromatography with tandem mass spectrometric detection 1023(2004)93

**Vinyl chloride**

Study of the influence of surfactants on the transfer of gases into liquids by inverse gas chromatography 1023(2004)287

**Volatile organic compounds**

Direct thermal extraction and gas chromatographic-mass spectrometric determination of volatile compounds of extra-virgin olive oils 1023(2004)271

**Water analysis**

Liquid chromatographic determination of trimethylamine in water 1023(2004)27

Ion chromatographic determination of sulfide and cyanide in real matrices by using pulsed amperometric detection on a silver electrode 1023(2004)105

Ion chromatographic separation of hydrogen ion and other common mono- and divalent cations 1023(2004)239

**Xylenes**

Preparation and characteristics of sol-gel-coated calix[4]arene fiber for solid-phase microextraction 1023(2004)15
