

## Subject Index Vol. 1026

### Adsorbents

Evaluation of multi-walled carbon nanotubes as an adsorbent for trapping volatile organic compounds from environmental samples 1026(2004)283

### Adsorption isotherms

Solvent gradient operation of simulated moving beds. 2. Langmuir isotherms 1026(2004)47

### Ageing

Identification of volatile organic compounds emitted by a naturally aged book using solid-phase microextraction/gas chromatography/mass spectrometry 1026(2004)9

### Air analysis

Laboratory and field validations of a solid-phase microextraction device for the determination of ethylene oxide 1026(2004)25

### Air-blowing

Monitoring coal-tar pitch composition changes during air-blowing by gas chromatography 1026(2004)231

### Alcohols

Prediction of the resolution of capillary columns in different conditions of inlet pressure and temperature 1026(2004)201

### Alginate

Determination of average degree of polymerisation and distribution of oligosaccharides in a partially acid-hydrolysed homopolysaccharide: A comparison of four experimental methods applied to mannuronan 1026(2004)271

### Alkanes

Prediction of the resolution of capillary columns in different conditions of inlet pressure and temperature 1026(2004)201

### Alkylbenzene sulfonates, linear

Screening method for linear alkylbenzene sulfonates in sediments based on water Soxhlet extraction assisted by focused microwaves with on-line preconcentration/derivatization/detection 1026(2004)41

### Alkylphenols

Ionic liquid-based liquid-phase microextraction, a new sample enrichment procedure for liquid chromatography 1026(2004)143

### Alkyl-silica column

Column selectivity in reversed-phase liquid chromatography. V. Higher metal content (type-A) alkyl-silica columns 1026(2004)77

### Amide group orientation

Resolution studies on two regioisomeric chiral stationary phases: Effects from reversed orientation of an amide group 1026(2004)65

### Antioxidants

Determination of catechins by means of extraction with pressurized liquids 1026(2004)19

### Arsenic

Speciation of inorganic and methylated arsenic compounds by capillary zone electrophoresis with indirect UV detection. Application to the analysis of alkali extracts of As<sub>2</sub>S<sub>2</sub> (realgar) and As<sub>2</sub>S<sub>3</sub> (orpiment) 1026(2004)261

### Beer

High-performance liquid chromatographic separation and quantification of citric, lactic, malic, oxalic and tartaric acids using a post-column photochemical reaction and chemiluminescence detection 1026(2004)57

### Benzo(a)pyrene

Rapid determination of benzo(a)pyrene in olive oil samples with solid-phase extraction and low-pressure, wide-bore gas chromatography–mass spectrometry and fast liquid chromatography with fluorescence detection 1026(2004)1

### Benzylamine

Determination of ionisation constants of organic bases in aqueous methanol solutions using capillary electrophoresis 1026(2004)251

### Bonded-zirconia column

Column selectivity in reversed-phase liquid chromatography. V. Higher metal content (type-A) alkyl-silica columns 1026(2004)77

### Brassica juncea

Identification and characterization of Se-methyl selenomethionine in *Brassica juncea* roots 1026(2004)159

### Breakthrough volume

Evaluation of multi-walled carbon nanotubes as an adsorbent for trapping volatile organic compounds from environmental samples 1026(2004)283

### Calcium

Dodecylsulfate-coated monolithic octadecyl-bonded silica stationary phase for high-speed separation of hydrogen, magnesium and calcium in rainwater 1026(2004)191

### Carbocisteine

Ion-chromatographic determination of carbocisteine in pharmaceuticals based on non-suppressed conductimetric detection 1026(2004)167

### S-Carboxymethyl-L-cysteine

Ion-chromatographic determination of carbocisteine in pharmaceuticals based on non-suppressed conductimetric detection 1026(2004)167

### Catechins

Determination of catechins by means of extraction with pressurized liquids 1026(2004)19

**Cellulose**

Identification of volatile organic compounds emitted by a naturally aged book using solid-phase microextraction/gas chromatography/mass spectrometry 1026(2004)9

Comparative evaluation of size-exclusion chromatography and viscometry for the characterisation of cellulose 1026(2004)129

**Cellulose tricarbanilate**

Comparative evaluation of size-exclusion chromatography and viscometry for the characterisation of cellulose 1026(2004)129

**Chemiluminescence detection**

High-performance liquid chromatographic separation and quantification of citric, lactic, malic, oxalic and tartaric acids using a post-column photochemical reaction and chemiluminescence detection 1026(2004)57

**Chip technology**

Determination of free sulfite in wine by zone electrophoresis with isotachopheresis sample pretreatment on a column-coupling chip 1026(2004)31

**Chiral stationary phases, LC**

Resolution studies on two regioisomeric chiral stationary phases: Effects from reversed orientation of an amide group 1026(2004)65

**Chloride**

Coupled ion chromatography for the determination of chloride, phosphate and sulphate in concentrated nitric acid 1026(2004)195

**Chlorogenic acid**

Application of preparative high-speed counter-current chromatography for separation of chlorogenic acid from *Flos Lonicerae* 1026(2004)185

**Coal-tar pitch**

Monitoring coal-tar pitch composition changes during air-blowing by gas chromatography 1026(2004)231

**Codeine**

Determination of ionisation constants of organic bases in aqueous methanol solutions using capillary electrophoresis 1026(2004)251

**Column selectivity**

Column selectivity in reversed-phase liquid chromatography. V. Higher metal content (type-A) alkyl-silica columns 1026(2004)77

Column selectivity in reversed-phase liquid chromatography. VI. Columns with embedded or end-capping polar groups 1026(2004)91

**Column switching**

Quantification of risperidone and 9-hydroxyrisperidone in plasma and saliva from adult and pediatric patients by liquid chromatography–mass spectrometry 1026(2004)175

**Column-coupling electrophoresis chip**

Determination of free sulfite in wine by zone electrophoresis with isotachopheresis sample pretreatment on a column-coupling chip 1026(2004)31

**Correlation coefficients color map**

Determining orthogonal and similar chromatographic systems from the injection of mixtures in liquid chromatography–diode array detection and the interpretation of correlation coefficients color maps 1026(2004)117

**Counter-current chromatography**

Application of preparative high-speed counter-current chromatography for separation of chlorogenic acid from *Flos Lonicerae* 1026(2004)185

**Degree of polymerisation**

Determination of average degree of polymerisation and distribution of oligosaccharides in a partially acid-hydrolysed homopolysaccharide: A comparison of four experimental methods applied to mannuronan 1026(2004)271

**Derivatization, GC**

Suitability of *N,O*-bis(trimethylsilyl)trifluoroacetamide and *N*-(*tert*-butyldimethylsilyl)-*N*-methyltrifluoroacetamide as derivatization reagents for the determination of the estrogens estrone and 17 $\alpha$ -ethynylestradiol by gas chromatography–mass spectrometry 1026(2004)295

**Detection, LC**

High-performance liquid chromatographic separation and quantification of citric, lactic, malic, oxalic and tartaric acids using a post-column photochemical reaction and chemiluminescence detection 1026(2004)57

Ion-chromatographic determination of carbocysteine in pharmaceuticals based on non-suppressed conductimetric detection 1026(2004)167

**Dichloropentafluoropropanes**

Dichloropentafluoropropanes as solvents for size exclusion chromatography 1026(2004)109

**Diphenhydramine**

Determination of ionisation constants of organic bases in aqueous methanol solutions using capillary electrophoresis 1026(2004)251

**Dissociation constants**

Determination of ionisation constants of organic bases in aqueous methanol solutions using capillary electrophoresis 1026(2004)251

**Efficiency**

Prediction of the resolution of capillary columns in different conditions of inlet pressure and temperature 1026(2004)201

**Embedded-polar-group columns**

Column selectivity in reversed-phase liquid chromatography. VI. Columns with embedded or end-capping polar groups 1026(2004)91

**Enantiomer separation**

Resolution studies on two regioisomeric chiral stationary phases: Effects from reversed orientation of an amide group 1026(2004)65

Resolution of a racemic pharmaceutical intermediate. A comparison of preparative HPLC, steady state recycling, and simulated moving bed 1026(2004)101

**End-capping polar group columns**

Column selectivity in reversed-phase liquid chromatography. VI. Columns with embedded or end-capping polar groups 1026(2004)91

**Environmental analysis**

Laboratory and field validations of a solid-phase microextraction device for the determination of ethylene oxide 1026(2004)25

Analysis of polycyclic aromatic hydrocarbons in contaminated soil by Curie point pyrolysis coupled to gas chromatography–mass spectrometry, an alternative to conventional methods 1026(2004)223

**Ergosterol**

Simplified and rapid method for extraction of ergosterol from natural samples and detection with quantitative and semi-quantitative methods using thin-layer chromatography 1026(2004)301

**Estrone**

Suitability of *N,O*-bis(trimethylsilyl)trifluoroacetamide and *N*-(*tert*-butyldimethylsilyl)-*N*-methyltrifluoroacetamide as derivatization reagents for the determination of the estrogens estrone and 17 $\alpha$ -ethinylestradiol by gas chromatography–mass spectrometry 1026(2004)295

**17 $\alpha$ -Ethinylestradiol**

Suitability of *N,O*-bis(trimethylsilyl)trifluoroacetamide and *N*-(*tert*-butyldimethylsilyl)-*N*-methyltrifluoroacetamide as derivatization reagents for the determination of the estrogens estrone and 17 $\alpha$ -ethinylestradiol by gas chromatography–mass spectrometry 1026(2004)295

**Ethylene oxide**

Laboratory and field validations of a solid-phase microextraction device for the determination of ethylene oxide 1026(2004)25

**Ethylenediamine**

Dodecylsulfate-coated monolithic octadecyl-bonded silica stationary phase for high-speed separation of hydrogen, magnesium and calcium in rainwater 1026(2004)191

**Extraction methods**

Determination of catechins by means of extraction with pressurized liquids 1026(2004)19

Ionic liquid-based liquid-phase microextraction, a new sample enrichment procedure for liquid chromatography 1026(2004)143

Analysis of polycyclic aromatic hydrocarbons in contaminated soil by Curie point pyrolysis coupled to gas chromatography–mass spectrometry, an alternative to conventional methods 1026(2004)223

**Factor IX**

Purification of recombinant DNA-derived factor IX produced in transgenic pig milk and fractionation of active and inactive subpopulations 1026(2004)149

**Flavanols**

Determination of catechins by means of extraction with pressurized liquids 1026(2004)19

**Flow rate**

Prediction of the resolution of capillary columns in different conditions of inlet pressure and temperature 1026(2004)201

**Focused microwaves**

Screening method for linear alkylbenzene sulfonates in sediments based on water Soxhlet extraction assisted by focused microwaves with on-line preconcentration/derivatization/detection 1026(2004)41

**Food analysis**

Determination of catechins by means of extraction with pressurized liquids 1026(2004)19

Determination of free sulfite in wine by zone electrophoresis with isotachopheresis sample pretreatment on a column-coupling chip 1026(2004)31

High-performance liquid chromatographic separation and quantification of citric, lactic, malic, oxalic and tartaric acids using a post-column photochemical reaction and chemiluminescence detection 1026(2004)57

**Fruit juices**

High-performance liquid chromatographic separation and quantification of citric, lactic, malic, oxalic and tartaric acids using a post-column photochemical reaction and chemiluminescence detection 1026(2004)57

**Grapes**

Determination of catechins by means of extraction with pressurized liquids 1026(2004)19

**Headspace analysis**

Identification of volatile organic compounds emitted by a naturally aged book using solid-phase microextraction/gas chromatography/mass spectrometry 1026(2004)9

**Heparin**

Purification of recombinant DNA-derived factor IX produced in transgenic pig milk and fractionation of active and inactive subpopulations 1026(2004)149

**Hexafluoroisopropanol**

Dichloropentafluoropropanes as solvents for size exclusion chromatography 1026(2004)109

**Hydrogen**

Dodecylsulfate-coated monolithic octadecyl-bonded silica stationary phase for high-speed separation of hydrogen, magnesium and calcium in rainwater 1026(2004)191

**Hydrogen bromide**

Laboratory and field validations of a solid-phase microextraction device for the determination of ethylene oxide 1026(2004)25

**Hydroxyrisperidone**

Quantification of risperidone and 9-hydroxyrisperidone in plasma and saliva from adult and pediatric patients by liquid chromatography–mass spectrometry 1026(2004)175

**Inorganic cations**

Dodecylsulfate-coated monolithic octadecyl-bonded silica stationary phase for high-speed separation of hydrogen, magnesium and calcium in rainwater 1026(2004)191

**Instrumentation**

Laboratory and field validations of a solid-phase microextraction device for the determination of ethylene oxide 1026(2004)25

**Ionic liquids**

Ionic liquid-based liquid-phase microextraction, a new sample enrichment procedure for liquid chromatography 1026(2004)143

**Ionone**

Solvent gradient operation of simulated moving beds. 2. Langmuir isotherms 1026(2004)47

**Isotachopheresis**

Determination of free sulfite in wine by zone electrophoresis with isotachopheresis sample pretreatment on a column-coupling chip 1026(2004)31

**Langmuir isotherms**

Solvent gradient operation of simulated moving beds. 2. Langmuir isotherms 1026(2004)47

**Light scattering**

Comparative evaluation of size-exclusion chromatography and viscometry for the characterisation of cellulose 1026(2004)129

**Liquid-phase microextraction**

Ionic liquid-based liquid-phase microextraction, a new sample enrichment procedure for liquid chromatography 1026(2004)143

**Lithium dodecylsulfate**

Dodecylsulfate-coated monolithic octadecyl-bonded silica stationary phase for high-speed separation of hydrogen, magnesium and calcium in rainwater 1026(2004)191

**Litter**

Simplified and rapid method for extraction of ergosterol from natural samples and detection with quantitative and semi-quantitative methods using thin-layer chromatography 1026(2004)301

**Low-angle light scattering**

Comparative evaluation of size-exclusion chromatography and viscometry for the characterisation of cellulose 1026(2004)129

**Magnesium**

Dodecylsulfate-coated monolithic octadecyl-bonded silica stationary phase for high-speed separation of hydrogen, magnesium and calcium in rainwater 1026(2004)191

**Mannuronan**

Determination of average degree of polymerisation and distribution of oligosaccharides in a partially acid-hydrolysed homopolysaccharide: A comparison of four experimental methods applied to mannuronan 1026(2004)271

**Metal cations**

Speciation of inorganic and methylated arsenic compounds by capillary zone electrophoresis with indirect UV detection. Application to the analysis of alkali extracts of  $As_2S_2$  (realgar) and  $As_2S_3$  (orpiment) 1026(2004)261

**Method development**

Determining orthogonal and similar chromatographic systems from the injection of mixtures in liquid chromatography–diode array detection and the interpretation of correlation coefficients color maps 1026(2004)117

**Milk**

High-performance liquid chromatographic separation and quantification of citric, lactic, malic, oxalic and tartaric acids using a post-column photochemical reaction and chemiluminescence detection 1026(2004)57

Purification of recombinant DNA-derived factor IX produced in transgenic pig milk and fractionation of active and inactive subpopulations 1026(2004)149

**Mobile phase composition**

Dichloropentafluoropropanes as solvents for size exclusion chromatography 1026(2004)109

**Monolithic columns**

Dodecylsulfate-coated monolithic octadecyl-bonded silica stationary phase for high-speed separation of hydrogen, magnesium and calcium in rainwater 1026(2004)191

**Multi-angle light scattering**

Comparative evaluation of size-exclusion chromatography and viscometry for the characterisation of cellulose 1026(2004)129

**Multi-walled carbon nanotubes**

Evaluation of multi-walled carbon nanotubes as an adsorbent for trapping volatile organic compounds from environmental samples 1026(2004)283

**Nitric acid**

Coupled ion chromatography for the determination of chloride, phosphate and sulphate in concentrated nitric acid 1026(2004)195

**Non-suppressed conductimetric detection**

Ion-chromatographic determination of carbocysteine in pharmaceuticals based on non-suppressed conductimetric detection 1026(2004)167

**Nonylphenol**

Ionic liquid-based liquid-phase microextraction, a new sample enrichment procedure for liquid chromatography 1026(2004)143

**Nylon**

Dichloropentafluoropropanes as solvents for size exclusion chromatography 1026(2004)109

**Octylphenol**

Ionic liquid-based liquid-phase microextraction, a new sample enrichment procedure for liquid chromatography 1026(2004)143

**Oligosaccharides**

Determination of average degree of polymerisation and distribution of oligosaccharides in a partially acid-hydrolysed homopolysaccharide: A comparison of four experimental methods applied to mannuronan 1026(2004)271

**Olive oil**

Rapid determination of benzo(a)pyrene in olive oil samples with solid-phase extraction and low-pressure, wide-bore gas chromatography–mass spectrometry and fast liquid chromatography with fluorescence detection 1026(2004)1

**Organic acids**

High-performance liquid chromatographic separation and quantification of citric, lactic, malic, oxalic and tartaric acids using a post-column photochemical reaction and chemiluminescence detection 1026(2004)57

**Organometallic compounds**

Speciation of inorganic and methylated arsenic compounds by capillary zone electrophoresis with indirect UV detection. Application to the analysis of alkali extracts of  $As_2S_2$  (realgar) and  $As_2S_3$  (orpiment) 1026(2004)261

**Organoselenium compounds**

Identification and characterization of Se-methyl selenomethionine in *Brassica juncea* roots 1026(2004)159

**Orpiment**

Speciation of inorganic and methylated arsenic compounds by capillary zone electrophoresis with indirect UV detection. Application to the analysis of alkali extracts of  $As_2S_2$  (realgar) and  $As_2S_3$  (orpiment) 1026(2004)261

**Orthogonal chromatographic systems**

Determining orthogonal and similar chromatographic systems from the injection of mixtures in liquid chromatography–diode array detection and the interpretation of correlation coefficients color maps 1026(2004)117

**Orthogonal projection approach**

Determining orthogonal and similar chromatographic systems from the injection of mixtures in liquid chromatography–diode array detection and the interpretation of correlation coefficients color maps 1026(2004)117

**Paper**

Identification of volatile organic compounds emitted by a naturally aged book using solid-phase microextraction/gas chromatography/mass spectrometry 1026(2004)9

**Paraffin oil**

Simplified and rapid method for extraction of ergosterol from natural samples and detection with quantitative and semi-quantitative methods using thin-layer chromatography 1026(2004)301

**Peak shape**

Prediction of the resolution of capillary columns in different conditions of inlet pressure and temperature 1026(2004)201

**Perfluoropolyether**

Dichloropentafluoropropanes as solvents for size exclusion chromatography 1026(2004)109

**Pesticides**

Solid-phase micro-extraction–gas chromatography–(tandem) mass spectrometry as a tool for pesticide residue analysis in water samples at high sensitivity and selectivity with confirmation capabilities 1026(2004)239

**Pharmaceutical analysis**

Application of preparative high-speed counter-current chromatography for separation of chlorogenic acid from *Flos Lonicerae* 1026(2004)185

**Phosphate**

Coupled ion chromatography for the determination of chloride, phosphate and sulphate in concentrated nitric acid 1026(2004)195

**Photochemically induced chemiluminescence detection**

High-performance liquid chromatographic separation and quantification of citric, lactic, malic, oxalic and tartaric acids using a post-column photochemical reaction and chemiluminescence detection 1026(2004)57

**Plant materials**

Identification and characterization of Se-methyl selenomethionine in *Brassica juncea* roots 1026(2004)159

Application of preparative high-speed counter-current chromatography for separation of chlorogenic acid from *Flos Lonicerae* 1026(2004)185

**Poly(2-(perfluoroalkyl)ethyl acrylate)**

Dichloropentafluoropropanes as solvents for size exclusion chromatography 1026(2004)109

**Poly(ethylene terephthalate)**

Dichloropentafluoropropanes as solvents for size exclusion chromatography 1026(2004)109

**Poly(methyl methacrylate)**

Dichloropentafluoropropanes as solvents for size exclusion chromatography 1026(2004)109

**Polyamide**

Dichloropentafluoropropanes as solvents for size exclusion chromatography 1026(2004)109

**Polymers**

Dichloropentafluoropropanes as solvents for size exclusion chromatography 1026(2004)109

**Polynuclear aromatic hydrocarbons**

Analysis of polycyclic aromatic hydrocarbons in contaminated soil by Curie point pyrolysis coupled to gas chromatography–mass spectrometry, an alternative to conventional methods 1026(2004)223

Monitoring coal-tar pitch composition changes during air-blowing by gas chromatography 1026(2004)231

**Preparative chromatography**

Solvent gradient operation of simulated moving beds. 2. Langmuir isotherms 1026(2004)47

Resolution of a racemic pharmaceutical intermediate. A comparison of preparative HPLC, steady state recycling, and simulated moving bed 1026(2004)101

Application of preparative high-speed counter-current chromatography for separation of chlorogenic acid from *Flos Lonicerae* 1026(2004)185

**Pressure effects**

Prediction of the resolution of capillary columns in different conditions of inlet pressure and temperature 1026(2004)201

**Pressurized liquid chromatography**

Determination of catechins by means of extraction with pressurized liquids 1026(2004)19

**Procainamide**

Determination of ionisation constants of organic bases in aqueous methanol solutions using capillary electrophoresis 1026(2004)251

**Proteins**

Purification of recombinant DNA-derived factor IX produced in transgenic pig milk and fractionation of active and inactive subpopulations 1026(2004)149

**Purge-and-trap system**

Evaluation of multi-walled carbon nanotubes as an adsorbent for trapping volatile organic compounds from environmental samples 1026(2004)283

**Pyrolysis**

Analysis of polycyclic aromatic hydrocarbons in contaminated soil by Curie point pyrolysis coupled to gas chromatography–mass spectrometry, an alternative to conventional methods 1026(2004)223

**Quinine**

Determination of ionisation constants of organic bases in aqueous methanol solutions using capillary electrophoresis 1026(2004)251

**Rainwater**

Dodecylsulfate-coated monolithic octadecyl-bonded silica stationary phase for high-speed separation of hydrogen, magnesium and calcium in rainwater 1026(2004)191

**Realgar**

Speciation of inorganic and methylated arsenic compounds by capillary zone electrophoresis with indirect UV detection. Application to the analysis of alkali extracts of As<sub>2</sub>S<sub>2</sub> (realgar) and As<sub>2</sub>S<sub>3</sub> (orpiment) 1026(2004)261

**Resolution**

Prediction of the resolution of capillary columns in different conditions of inlet pressure and temperature 1026(2004)201

**Retention models**

Prediction of the resolution of capillary columns in different conditions of inlet pressure and temperature 1026(2004)201

**Retention modifiers**

Resolution studies on two regioisomeric chiral stationary phases: Effects from reversed orientation of an amide group 1026(2004)65

**Retention time**

Prediction of the resolution of capillary columns in different conditions of inlet pressure and temperature 1026(2004)201

**Risperidone**

Quantification of risperidone and 9-hydroxyrisperidone in plasma and saliva from adult and pediatric patients by liquid chromatography–mass spectrometry 1026(2004)175

**Sample preparation**

Laboratory and field validations of a solid-phase microextraction device for the determination of ethylene oxide 1026(2004)25

Determination of free sulfite in wine by zone electrophoresis with isotachopheresis sample pretreatment on a column-coupling chip 1026(2004)31

**Selectivity**

Column selectivity in reversed-phase liquid chromatography. V. Higher metal content (type-A) alkyl-silica columns 1026(2004)77

Column selectivity in reversed-phase liquid chromatography. VI. Columns with embedded or end-capping polar groups 1026(2004)91

**Selenium**

Identification and characterization of Se-methyl selenomethionine in *Brassica juncea* roots 1026(2004)159

**Simulated moving bed**

Resolution of a racemic pharmaceutical intermediate. A comparison of preparative HPLC, steady state recycling, and simulated moving bed 1026(2004)101

**Simulated moving bed chromatography**

Solvent gradient operation of simulated moving beds. 2. Langmuir isotherms 1026(2004)47

**Size-exclusion chromatography**

Comparative evaluation of size-exclusion chromatography and viscometry for the characterisation of cellulose 1026(2004)129

**Soft drinks**

High-performance liquid chromatographic separation and quantification of citric, lactic, malic, oxalic and tartaric acids using a post-column photochemical reaction and chemiluminescence detection 1026(2004)57

**Soil**

Analysis of polycyclic aromatic hydrocarbons in contaminated soil by Curie point pyrolysis coupled to gas chromatography–mass spectrometry, an alternative to conventional methods 1026(2004)223

Simplified and rapid method for extraction of ergosterol from natural samples and detection with quantitative and semi-quantitative methods using thin-layer chromatography 1026(2004)301

**Solid-phase extraction**

Rapid determination of benzo(a)pyrene in olive oil samples with solid-phase extraction and low-pressure, wide-bore gas chromatography–mass spectrometry and fast liquid chromatography with fluorescence detection 1026(2004)1

Determination of residues of UV filters in natural waters by solid-phase extraction coupled to liquid chromatography–photodiode array detection and gas chromatography–mass spectrometry 1026(2004)289

**Solid-phase microextraction**

Identification of volatile organic compounds emitted by a naturally aged book using solid-phase microextraction/gas chromatography/mass spectrometry 1026(2004)9

**Solvent gradients**

Solvent gradient operation of simulated moving beds. 2. Langmuir isotherms 1026(2004)47

**Stationary phases, LC**

Column selectivity in reversed-phase liquid chromatography. V. Higher metal content (type-A) alkyl-silica columns 1026(2004)77

Column selectivity in reversed-phase liquid chromatography. VI. Columns with embedded or end-capping polar groups 1026(2004)91

Dodecylsulfate-coated monolithic octadecyl-bonded silica stationary phase for high-speed separation of hydrogen, magnesium and calcium in rainwater 1026(2004)191

**Steady state recycling**

Resolution of a racemic pharmaceutical intermediate. A comparison of preparative HPLC, steady state recycling, and simulated moving bed 1026(2004)101

**Sulfite**

Determination of free sulfite in wine by zone electrophoresis with isotachopheresis sample pretreatment on a column-coupling chip 1026(2004)31

**Sulfur compounds**

Speciation of inorganic and methylated arsenic compounds by capillary zone electrophoresis with indirect UV detection. Application to the analysis of alkali extracts of As<sub>2</sub>S<sub>2</sub> (realgar) and As<sub>2</sub>S<sub>3</sub> (orpiment) 1026(2004)261

**Sulphate**

Coupled ion chromatography for the determination of chloride, phosphate and sulphate in concentrated nitric acid 1026(2004)195

**Sunscreen agents**

Determination of residues of UV filters in natural waters by solid-phase extraction coupled to liquid chromatography–photodiode array detection and gas chromatography–mass spectrometry 1026(2004)289

**Tansgenic animals**

Purification of recombinant DNA-derived factor IX produced in transgenic pig milk and fractionation of active and inactive subpopulations 1026(2004)149

**Tea**

Determination of catechins by means of extraction with pressurized liquids 1026(2004)19

**Temperature effects**

Prediction of the resolution of capillary columns in different conditions of inlet pressure and temperature 1026(2004)201

**Triptylines**

Determination of ionisation constants of organic bases in aqueous methanol solutions using capillary electrophoresis 1026(2004)251

**Validation**

Quantification of risperidone and 9-hydroxyrisperidone in plasma and saliva from adult and pediatric patients by liquid chromatography–mass spectrometry 1026(2004)175

**Viscometry**

Comparative evaluation of size-exclusion chromatography and viscometry for the characterisation of cellulose 1026(2004)129

**Volatile organic compounds**

Identification of volatile organic compounds emitted by a naturally aged book using solid-phase microextraction/gas chromatography/mass spectrometry 1026(2004)9

Evaluation of multi-walled carbon nanotubes as an adsorbent for trapping volatile organic compounds from environmental samples 1026(2004)283

**Water analysis**

Solid-phase micro-extraction–gas chromatography–(tandem) mass spectrometry as a tool for pesticide residue analysis in water samples at high sensitivity and selectivity with confirmation capabilities 1026(2004)239

Determination of residues of UV filters in natural waters by solid-phase extraction coupled to liquid chromatography–photodiode array detection and gas chromatography–mass spectrometry 1026(2004)289

**Water Soxhlet extraction**

Screening method for linear alkylbenzene sulfonates in sediments based on water Soxhlet extraction assisted by focused microwaves with on-line preconcentration/derivatization/detection 1026(2004)41

**Weighted-average-linkage dendrogram**

Determining orthogonal and similar chromatographic systems from the injection of mixtures in liquid chromatography–diode array detection and the interpretation of correlation coefficients color maps 1026(2004)117

**Wine**

Determination of free sulfite in wine by zone electrophoresis with isotachopheresis sample pretreatment on a column-coupling chip 1026(2004)31

High-performance liquid chromatographic separation and quantification of citric, lactic, malic, oxalic and tartaric acids using a post-column photochemical reaction and chemiluminescence detection 1026(2004)57
