

## Subject Index Vol. 1040

### Aerosol-OT

Aerosol-OT- $\gamma$ -alumina admicelles for the concentration of hydrophobic organic compounds in water 1040(2004)185

### Affinity capillary electrophoresis

Preparation of an iminodiacetic acid-modified capillary and its performance in capillary liquid chromatography and immobilized metal chelate affinity capillary electrophoresis 1040(2004)151

### Albumin

Preparation of an iminodiacetic acid-modified capillary and its performance in capillary liquid chromatography and immobilized metal chelate affinity capillary electrophoresis 1040(2004)151

### Alkaloids

Capillary electrophoretic studies of acid–base properties of sanguinarine and chelerythrine alkaloids 1040(2004)141

### Alkanes

Analysis of natural gas by gas chromatography. Reduction of correlated uncertainties by normalisation 1040(2004)215

### Alkylphenols

Aerosol-OT- $\gamma$ -alumina admicelles for the concentration of hydrophobic organic compounds in water 1040(2004)185

### Alumina

Aerosol-OT- $\gamma$ -alumina admicelles for the concentration of hydrophobic organic compounds in water 1040(2004)185

### Amides

Preparative isolation and purification of amides from the fruits of *Piper longum* L. by upright counter-current chromatography and reversed-phase liquid chromatography 1040(2004)193

### Amines

Determination of histamine and histidine by capillary zone electrophoresis with pre-column naphthalene-2,3-dicarboxaldehyde derivatization and fluorescence detection 1040(2004)133

### Amines, heterocyclic aromatic

Analysis of heterocyclic aromatic amines in foods by gas chromatography–mass spectrometry as their *tert*-butyldimethylsilyl derivatives 1040(2004)105

### Amino acids

Determination of histamine and histidine by capillary zone electrophoresis with pre-column naphthalene-2,3-dicarboxaldehyde derivatization and fluorescence detection 1040(2004)133

### *Ampelopsis grossedentata*

Preparative separation of flavonoid glycosides in leaves extract of *Ampelopsis grossedentata* using high-speed counter-current chromatography 1040(2004)147

### Band broadening

Recursion equations in predicting band width under gradient elution 1040(2004)19

Extra-column dispersion of macromolecular solutes in aqueous-phase size-exclusion chromatography 1040(2004)33

### Band width prediction

Recursion equations in predicting band width under gradient elution 1040(2004)19

### Benzoic acids

Determination of benzoyl peroxide and benzoic acid in wheat flour by high-performance liquid chromatography and its identification by high-performance liquid chromatography–mass spectrometry 1040(2004)209

### Benzoyl peroxide

Determination of benzoyl peroxide and benzoic acid in wheat flour by high-performance liquid chromatography and its identification by high-performance liquid chromatography–mass spectrometry 1040(2004)209

### Bioinformatics

High-throughput automated post-processing of separation data 1040(2004)273

### *p-tert*-Butyl-calix[6]-1,4-benzocrown-4-bonded silica gel

Preparation and characterization of a *p-tert*-butyl-calix[6]-1,4-benzocrown-4-bonded silica gel stationary phase for liquid chromatography 1040(2004)53

### Capillary columns

Preparation of an iminodiacetic acid-modified capillary and its performance in capillary liquid chromatography and immobilized metal chelate affinity capillary electrophoresis 1040(2004)151

### Chelerythrine

Capillary electrophoretic studies of acid–base properties of sanguinarine and chelerythrine alkaloids 1040(2004)141

### Chinese medicines

Separation and identification of compounds in *Rhizoma chuanxiong* by comprehensive two-dimensional liquid chromatography coupled to mass spectrometry 1040(2004)169

### Chlorophenols

Aerosol-OT- $\gamma$ -alumina admicelles for the concentration of hydrophobic organic compounds in water 1040(2004)185

### Class profiling

Glycolipid class profiling by packed-column subcritical fluid chromatography 1040(2004)115

**Coffee**

Analysis of heterocyclic aromatic amines in foods by gas chromatography–mass spectrometry as their *tert.*-butyldimethylsilyl derivatives 1040(2004)105

**Colloids**

Laser-induced breakdown detection combined with asymmetrical flow field-flow fractionation: application to iron oxo/hydroxide colloid characterization 1040(2004)97

**Counter-current chromatography**

Countercurrent chromatographic separation: a hydrodynamic approach developed for extraction columns 1040(2004)63

Preparative separation of flavonoid glycosides in leaves extract of *Ampelopsis grossedentata* using high-speed counter-current chromatography 1040(2004)147

Preparative isolation and purification of amides from the fruits of *Piper longum* L. by upright counter-current chromatography and reversed-phase liquid chromatography 1040(2004)193

Purification of paeoniflorin from *Paeonia lactiflora* Pall. by high-speed counter-current chromatography 1040(2004)205

**Covariance**

Analysis of natural gas by gas chromatography. Reduction of correlated uncertainties by normalisation 1040(2004)215

**Derivatization, electrophoresis**

Determination of histamine and histidine by capillary zone electrophoresis with pre-column naphthalene-2,3-dicarboxaldehyde derivatization and fluorescence detection 1040(2004)133

**Derivatization, GC**

Analysis of heterocyclic aromatic amines in foods by gas chromatography–mass spectrometry as their *tert.*-butyldimethylsilyl derivatives 1040(2004)105

**Dextran**

Extra-column dispersion of macromolecular solutes in aqueous-phase size-exclusion chromatography 1040(2004)33

**Digitonin**

Separation and identification of the light harvesting proteins contained in grana and stroma thylakoid membrane fractions 1040(2004)73

**Dissociation constants**

Capillary electrophoretic studies of acid–base properties of sanguinarine and chelerythrine alkaloids 1040(2004)141

**DNA**

Novel elution strategy for monitoring DNA counter-migration in the presence of electroosmotic flow 1040(2004)283

**Doping analysis**

Analysis of anabolic steroids by partial filling micellar electrokinetic capillary chromatography and electrospray mass spectrometry 1040(2004)123

**Electroosmotic flow**

Novel elution strategy for monitoring DNA counter-migration in the presence of electroosmotic flow 1040(2004)283

**Empirically transformed Gaussian**

High-throughput automated post-processing of separation data 1040(2004)273

**Ethylhexyl sodium sulfosuccinate**

Aerosol-OT– $\gamma$ -alumina admicelles for the concentration of hydrophobic organic compounds in water 1040(2004)185

**Extra-column dispersion**

Extra-column dispersion of macromolecular solutes in aqueous-phase size-exclusion chromatography 1040(2004)33

**Extraction columns**

Countercurrent chromatographic separation: a hydrodynamic approach developed for extraction columns 1040(2004)63

**Extraction methods**

Comparison of different extraction methods: steam distillation, simultaneous distillation and extraction and headspace co-distillation, used for the analysis of the volatile components in aged flue-cured tobacco leaves 1040(2004)1

Selective pressurized liquid extraction of polychlorinated biphenyls from fat-containing food and feed samples. Influence of cell dimensions, solvent type, temperature and flush volume 1040(2004)155

Determination of organophosphorus pesticides using membrane-assisted solvent extraction combined with large volume injection–gas chromatography–mass spectrometric detection 1040(2004)251

**Field-flow fractionation**

Laser-induced breakdown detection combined with asymmetrical flow field-flow fractionation: application to iron oxo/hydroxide colloid characterization 1040(2004)97

**Flavonoids**

Preparative separation of flavonoid glycosides in leaves extract of *Ampelopsis grossedentata* using high-speed counter-current chromatography 1040(2004)147

**Flow field-flow fractionation**

Laser-induced breakdown detection combined with asymmetrical flow field-flow fractionation: application to iron oxo/hydroxide colloid characterization 1040(2004)97

**Food analysis**

Analysis of heterocyclic aromatic amines in foods by gas chromatography–mass spectrometry as their *tert.*-butyldimethylsilyl derivatives 1040(2004)105

Selective pressurized liquid extraction of polychlorinated biphenyls from fat-containing food and feed samples. Influence of cell dimensions, solvent type, temperature and flush volume 1040(2004)155

High-performance liquid chromatography determination of phenolic components in wine using off-line isotachophoretic pretreatment 1040(2004)179

Determination of benzoyl peroxide and benzoic acid in wheat flour by high-performance liquid chromatography and its identification by high-performance liquid chromatography–mass spectrometry 1040(2004)209

Gas chromatographic separation and mass spectrometric identification of mixtures of oxyphytosterol and oxycholesterol derivatives. Application to a phytosterol-enriched food 1040(2004)239

Determination of organophosphorus pesticides using membrane-assisted solvent extraction combined with large volume injection–gas chromatography–mass spectrometric detection 1040(2004)251

**Fruit juices**

Determination of organophosphorus pesticides using membrane-assisted solvent extraction combined with large volume injection–gas chromatography–mass spectrometric detection 1040(2004)251

**Full evaporation**

Determination of residual monomer in polymer latex by full evaporation headspace gas chromatography 1040(2004)163

**Gas chromatography, comprehensive two-dimensional**

Improved separation of the 209 polychlorinated biphenyl congeners using comprehensive two-dimensional gas chromatography–time-of-flight mass spectrometry 1040(2004)227

**Gases**

Analysis of natural gas by gas chromatography. Reduction of correlated uncertainties by normalisation 1040(2004)215

**Globulin**

Preparation of an iminodiacetic acid-modified capillary and its performance in capillary liquid chromatography and immobilized metal chelate affinity capillary electrophoresis 1040(2004)151

**Glycolipids**

Glycolipid class profiling by packed-column subcritical fluid chromatography 1040(2004)115

**Glycosides**

Preparative separation of flavonoid glycosides in leaves extract of *Ampelopsis grossedentata* using high-speed counter-current chromatography 1040(2004)147

**Gradient elution**

Recursion equations in predicting band width under gradient elution 1040(2004)19

**Grana fraction**

Separation and identification of the light harvesting proteins contained in grana and stroma thylakoid membrane fractions 1040(2004)73

**Headspace analysis**

Determination of residual monomer in polymer latex by full evaporation headspace gas chromatography 1040(2004)163

**Headspace co-distillation**

Comparison of different extraction methods: steam distillation, simultaneous distillation and extraction and headspace co-distillation, used for the analysis of the volatile components in aged flue-cured tobacco leaves 1040(2004)1

**Histamine**

Determination of histamine and histidine by capillary zone electrophoresis with pre-column naphthalene-2,3-dicarboxaldehyde derivatization and fluorescence detection 1040(2004)133

**Histidine**

Determination of histamine and histidine by capillary zone electrophoresis with pre-column naphthalene-2,3-dicarboxaldehyde derivatization and fluorescence detection 1040(2004)133

**Hormones**

Analysis of anabolic steroids by partial filling micellar electrokinetic capillary chromatography and electrospray mass spectrometry 1040(2004)123

**Hydrogels**

Solute retention and the states of water in polyethylene glycol and poly(vinyl alcohol) gels 1040(2004)45

**Immobilized metal chelate affinity capillary electrophoresis**

Preparation of an iminodiacetic acid-modified capillary and its performance in capillary liquid chromatography and immobilized metal chelate affinity capillary electrophoresis 1040(2004)151

**Iron oxides**

Laser-induced breakdown detection combined with asymmetrical flow field-flow fractionation: application to iron oxide/hydroxide colloid characterization 1040(2004)97

**Isotachopheresis**

High-performance liquid chromatography determination of phenolic components in wine using off-line isotachopheretic pretreatment 1040(2004)179

**Large-volume injection**

Determination of organophosphorus pesticides using membrane-assisted solvent extraction combined with large volume injection–gas chromatography–mass spectrometric detection 1040(2004)251

**Laser-induced breakdown detection**

Laser-induced breakdown detection combined with asymmetrical flow field-flow fractionation: application to iron oxide/hydroxide colloid characterization 1040(2004)97

**Lipids**

Glycolipid class profiling by packed-column subcritical fluid chromatography 1040(2004)115

**Liquid chromatography, comprehensive two-dimensional**

Separation and identification of compounds in *Rhizoma chuanxiong* by comprehensive two-dimensional liquid chromatography coupled to mass spectrometry 1040(2004)169

**Longitudinal dispersion**

Countercurrent chromatographic separation: a hydrodynamic approach developed for extraction columns 1040(2004)63

**Mathematical modelling**

Countercurrent chromatographic separation: a hydrodynamic approach developed for extraction columns 1040(2004)63

**Matrix effects**

Determination of organophosphorus pesticides using membrane-assisted solvent extraction combined with large volume injection–gas chromatography–mass spectrometric detection 1040(2004)251

**Membrane-assisted solvent extraction**

Determination of organophosphorus pesticides using membrane-assisted solvent extraction combined with large volume injection–gas chromatography–mass spectrometric detection 1040(2004)251

**Methyl methacrylate**

Determination of residual monomer in polymer latex by full evaporation headspace gas chromatography 1040(2004)163

**Methyl-*tert.*-butyldimethylsilyltrifluoroacetamide**

Analysis of heterocyclic aromatic amines in foods by gas chromatography–mass spectrometry as their *tert.*-butyldimethylsilyl derivatives 1040(2004)105

**Micelles**

Aerosol-OT- $\gamma$ -alumina admicelles for the concentration of hydrophobic organic compounds in water 1040(2004)185

**Naphthalene dicarboxaldehyde**

Determination of histamine and histidine by capillary zone electrophoresis with pre-column naphthalene-2,3-dicarboxaldehyde derivatization and fluorescence detection 1040(2004)133

**Natural gas**

Analysis of natural gas by gas chromatography. Reduction of correlated uncertainties by normalisation 1040(2004)215

**Non-ideal injection pulse**

Extra-column dispersion of macromolecular solutes in aqueous-phase size-exclusion chromatography 1040(2004)33

**Normalisation**

Analysis of natural gas by gas chromatography. Reduction of correlated uncertainties by normalisation 1040(2004)215

**Organic acids**

High-performance liquid chromatography determination of phenolic components in wine using off-line isotachophoretic pretreatment 1040(2004)179

**Organophosphorus compounds**

Identification of iso- and *n*-propylphosphonates using liquid chromatography–tandem mass spectrometry and gas chromatography–Fourier transform infrared spectroscopy 1040(2004)83

Determination of organophosphorus pesticides using membrane-assisted solvent extraction combined with large volume injection–gas chromatography–mass spectrometric detection 1040(2004)251

**Oxycholesterols**

Gas chromatographic separation and mass spectrometric identification of mixtures of oxyphytosterol and oxycholesterol derivatives. Application to a phytosterol-enriched food 1040(2004)239

**Oxyphytosterols**

Gas chromatographic separation and mass spectrometric identification of mixtures of oxyphytosterol and oxycholesterol derivatives. Application to a phytosterol-enriched food 1040(2004)239

**Oxysterols**

Gas chromatographic separation and mass spectrometric identification of mixtures of oxyphytosterol and oxycholesterol derivatives. Application to a phytosterol-enriched food 1040(2004)239

***Paeonia lactiflora***

Purification of paeoniflorin from *Paeonia lactiflora* Pall. by high-speed counter-current chromatography 1040(2004)205

**Paeoniflorin**

Purification of paeoniflorin from *Paeonia lactiflora* Pall. by high-speed counter-current chromatography 1040(2004)205

**Partial filling micellar electrokinetic chromatography**

Analysis of anabolic steroids by partial filling micellar electrokinetic capillary chromatography and electrospray mass spectrometry 1040(2004)123

**Pesticides**

Determination of organophosphorus pesticides using membrane-assisted solvent extraction combined with large volume injection–gas chromatography–mass spectrometric detection 1040(2004)251

Evaluation of common organic solvents for gas chromatographic analysis and stability of multiclass pesticide residues 1040(2004)259

**Pharmaceutical analysis**

Purification of paeoniflorin from *Paeonia lactiflora* Pall. by high-speed counter-current chromatography 1040(2004)205

**Phenolic compounds**

High-performance liquid chromatography determination of phenolic components in wine using off-line isotachophoretic pretreatment 1040(2004)179

**Phenols**

Aerosol-OT– $\gamma$ -alumina admicelles for the concentration of hydrophobic organic compounds in water 1040(2004)185

**Phosphonates**

Identification of iso- and *n*-propylphosphonates using liquid chromatography–tandem mass spectrometry and gas chromatography–Fourier transform infrared spectroscopy 1040(2004)83

**Photosynthesis**

Separation and identification of the light harvesting proteins contained in grana and stroma thylakoid membrane fractions 1040(2004)73

**Phthalates**

Aerosol-OT– $\gamma$ -alumina admicelles for the concentration of hydrophobic organic compounds in water 1040(2004)185

***Piper longum***

Preparative isolation and purification of amides from the fruits of *Piper longum* L. by upright counter-current chromatography and reversed-phase liquid chromatography 1040(2004)193

**Plant materials**

Preparative separation of flavonoid glycosides in leaves extract of *Ampelopsis grossedentata* using high-speed counter-current chromatography 1040(2004)147

Preparative isolation and purification of amides from the fruits of *Piper longum* L. by upright counter-current chromatography and reversed-phase liquid chromatography 1040(2004)193

Purification of paeoniflorin from *Paeonia lactiflora* Pall. by high-speed counter-current chromatography 1040(2004)205

**Polychlorinated biphenyls**

Selective pressurized liquid extraction of polychlorinated biphenyls from fat-containing food and feed samples. Influence of cell dimensions, solvent type, temperature and flush volume 1040(2004)155

Improved separation of the 209 polychlorinated biphenyl congeners using comprehensive two-dimensional gas chromatography–time-of-flight mass spectrometry 1040(2004)227

**Polyethylene glycol**

Solute retention and the states of water in polyethylene glycol and poly(vinyl alcohol) gels 1040(2004)45

**Polymerization**

Determination of residual monomer in polymer latex by full evaporation headspace gas chromatography 1040(2004)163

**Polymers**

Determination of residual monomer in polymer latex by full evaporation headspace gas chromatography 1040(2004)163

**Poly(vinyl alcohol)**

Solute retention and the states of water in polyethylene glycol and poly(vinyl alcohol) gels 1040(2004)45

**Preparative chromatography**

Preparative separation of flavonoid glycosides in leaves extract of *Ampelopsis grossedentata* using high-speed counter-current chromatography 1040(2004)147

Purification of paeoniflorin from *Paeonia lactiflora* Pall. by high-speed counter-current chromatography 1040(2004)205

#### Pressurized liquid extraction

Selective pressurized liquid extraction of polychlorinated biphenyls from fat-containing food and feed samples. Influence of cell dimensions, solvent type, temperature and flush volume 1040(2004)155

#### Propylphosphonates

Identification of iso- and *n*-propylphosphonates using liquid chromatography–tandem mass spectrometry and gas chromatography–Fourier transform infrared spectroscopy 1040(2004)83

#### Proteins

Separation and identification of the light harvesting proteins contained in grana and stroma thylakoid membrane fractions 1040(2004)73

Preparation of an iminodiacetic acid-modified capillary and its performance in capillary liquid chromatography and immobilized metal chelate affinity capillary electrophoresis 1040(2004)151

#### Proteomics

Separation and identification of the light harvesting proteins contained in grana and stroma thylakoid membrane fractions 1040(2004)73

#### Recursion equations

Recursion equations in predicting band width under gradient elution 1040(2004)19

#### Resolution

Improved separation of the 209 polychlorinated biphenyl congeners using comprehensive two-dimensional gas chromatography–time-of-flight mass spectrometry 1040(2004)227

#### Retention mechanism

Preparation and characterization of a *p*-*tert*-butyl-calix[6]-1,4-benzocrown-4-bonded silica gel stationary phase for liquid chromatography 1040(2004)53

#### Retention selectivity

Solute retention and the states of water in polyethylene glycol and poly(vinyl alcohol) gels 1040(2004)45

#### *Rhizoma chuanxiong*

Separation and identification of compounds in *Rhizoma chuanxiong* by comprehensive two-dimensional liquid chromatography coupled to mass spectrometry 1040(2004)169

#### Sample preparation

High-performance liquid chromatography determination of phenolic components in wine using off-line isotachophoretic pretreatment 1040(2004)179

#### Sanguinarine

Capillary electrophoretic studies of acid–base properties of sanguinarine and chelerythrine alkaloids 1040(2004)141

#### Simultaneous steam distillation-solvent extraction

Comparison of different extraction methods: steam distillation, simultaneous distillation and extraction and headspace co-distillation, used for the analysis of the volatile components in aged flue-cured tobacco leaves 1040(2004)1

#### Software

High-throughput automated post-processing of separation data 1040(2004)273

#### Solute migration

Recursion equations in predicting band width under gradient elution 1040(2004)19

#### Stability studies

Evaluation of common organic solvents for gas chromatographic analysis and stability of multiclass pesticide residues 1040(2004)259

#### Stationary phases, LC

Solute retention and the states of water in polyethylene glycol and poly(vinyl alcohol) gels 1040(2004)45

Preparation and characterization of a *p*-*tert*-butyl-calix[6]-1,4-benzocrown-4-bonded silica gel stationary phase for liquid chromatography 1040(2004)53

#### Stationary phases, subcritical fluid chromatography

Glycolipid class profiling by packed-column subcritical fluid chromatography 1040(2004)115

#### Steam distillation

Comparison of different extraction methods: steam distillation, simultaneous distillation and extraction and headspace co-distillation, used for the analysis of the volatile components in aged flue-cured tobacco leaves 1040(2004)1

#### Steroids

Analysis of anabolic steroids by partial filling micellar electrokinetic capillary chromatography and electrospray mass spectrometry 1040(2004)123

#### Sterols

Gas chromatographic separation and mass spectrometric identification of mixtures of oxyphytosterol and oxysterol derivatives. Application to a phytosterol-enriched food 1040(2004)239

#### Stroma fraction

Separation and identification of the light harvesting proteins contained in grana and stroma thylakoid membrane fractions 1040(2004)73

#### Subcritical fluid chromatography

Glycolipid class profiling by packed-column subcritical fluid chromatography 1040(2004)115

#### Surfactants

Aerosol-OT- $\gamma$ -alumina admicelles for the concentration of hydrophobic organic compounds in water 1040(2004)185

#### Tobacco

Comparison of different extraction methods: steam distillation, simultaneous distillation and extraction and headspace co-distillation, used for the analysis of the volatile components in aged flue-cured tobacco leaves 1040(2004)1

#### Tube dispersion

Extra-column dispersion of macromolecular solutes in aqueous-phase size-exclusion chromatography 1040(2004)33

#### Uncertainty

Analysis of natural gas by gas chromatography. Reduction of correlated uncertainties by normalisation 1040(2004)215

#### Variance

Analysis of natural gas by gas chromatography. Reduction of correlated uncertainties by normalisation 1040(2004)215

**Volatile organic compounds**

Comparison of different extraction methods: steam distillation, simultaneous distillation and extraction and headspace co-distillation, used for the analysis of the volatile components in aged flue-cured tobacco leaves 1040(2004)1

**Warfare agents**

Identification of iso- and *n*-propylphosphonates using liquid chromatography–tandem mass spectrometry and gas chromatography–Fourier transform infrared spectroscopy 1040(2004)83

**Water**

Solute retention and the states of water in polyethylene glycol and poly(vinyl alcohol) gels 1040(2004)45

**Wine**

High-performance liquid chromatography determination of phenolic components in wine using off-line isotachophoretic pretreatment 1040(2004)179

Determination of organophosphorus pesticides using membrane-assisted solvent extraction combined with large volume injection–gas chromatography–mass spectrometric detection 1040(2004)251
