

## Subject Index Vol. 1051

### Acetoacetic acid

Evaluation of diabetes-related short-chain organic acids in rat plasma by capillary electrophoresis 1051(2004)199

### Acrylamide

Critical survey of quantitative proteomics in two-dimensional electrophoretic approaches (Review) 1051(2004)3

### Acrylamide-coated capillaries

Improved separation of metallothionein isoforms by the presence of cyclodextrin in capillary zone electrophoresis 1051(2004)237

### Aggregate formation

Aggregation and other intermolecular interactions of biological buffers observed by capillary electrophoresis and UV photometry 1051(2004)75

### Alkaloids

Aggregation and other intermolecular interactions of biological buffers observed by capillary electrophoresis and UV photometry 1051(2004)75

### Amine additives

Separation of low-molecular mass peptides by capillary electrophoresis with the use of alkylamines as dynamic coating agents at low pH 1051(2004)111

### Amines

Determination of volatile corrosion inhibitors by capillary electrophoresis 1051(2004)303

### Amino acids

Analysis of amino acids by miniaturised isotachopheresis 1051(2004)221

### Amitrole

Simultaneous separation and on-line concentration of amitrole and benzimidazole pesticides by capillary electrophoresis with a volatile migration buffer applicable to mass spectrometric detection 1051(2004)297

### Analysis of urine

Comparison of ion-pair chromatography and capillary zone electrophoresis for the assay of organic acids as markers of abnormal metabolism 1051(2004)213

### Angiotensins

Nanoflow gradient generator for capillary high-performance liquid chromatography–nanoelectrospray mass spectrometry 1051(2004)19

### Antibiotics

Determination of ciprofloxacin and its impurities by capillary zone electrophoresis 1051(2004)267

Electrophoretic behavior and  $pK_a$  determination of quinolones with a piperaziny substituent by capillary zone electrophoresis 1051(2004)283

### Antidepressants

Enantioselective determination of the novel antidepressant mirtazapine and its active demethylated metabolite in human plasma by means of capillary electrophoresis 1051(2004)253

### Benzimidazole

Simultaneous separation and on-line concentration of amitrole and benzimidazole pesticides by capillary electrophoresis with a volatile migration buffer applicable to mass spectrometric detection 1051(2004)297

### Borane cluster compounds

Aggregation and other intermolecular interactions of biological buffers observed by capillary electrophoresis and UV photometry 1051(2004)75

### Buffer composition

Aggregation and other intermolecular interactions of biological buffers observed by capillary electrophoresis and UV photometry 1051(2004)75

Simultaneous separation and on-line concentration of amitrole and benzimidazole pesticides by capillary electrophoresis with a volatile migration buffer applicable to mass spectrometric detection 1051(2004)297

### Calibration

Adaptation of an evaporative light-scattering detector to micro and capillary liquid chromatography and response assessment 1051(2004)43

### Capillary coating

Stabilization of phosphatidylcholine coatings in capillary electrophoresis by increase in membrane rigidity 1051(2004)61

Separation of low-molecular mass peptides by capillary electrophoresis with the use of alkylamines as dynamic coating agents at low pH 1051(2004)111

### Capillary electrophoresis

Stabilization of phosphatidylcholine coatings in capillary electrophoresis by increase in membrane rigidity 1051(2004)61

Capillary electrophoretic studies on the migration behavior of cationic solutes and the influence of interactions of cationic solutes with sodium dodecyl sulfate on the formation of micelles and critical micelle concentration 1051(2004)85

Preconditions for reasonable detection sensitivity and for zone symmetry in electrophoretic separations of cluster borane anions 1051(2004)227

Determination of volatile corrosion inhibitors by capillary electrophoresis 1051(2004)303

### Capillary zone electrophoresis

Comparison of ion-pair chromatography and capillary zone electrophoresis for the assay of organic acids as markers of abnormal metabolism 1051(2004)213

Improved separation of metallothionein isoforms by the presence of cyclodextrin in capillary zone electrophoresis 1051(2004)237

Electrophoretic behavior and  $pK_a$  determination of quinolones with a piperazinyl substituent by capillary zone electrophoresis 1051(2004)283

#### **Catecholamines**

Capillary electrophoretic studies on the migration behavior of cationic solutes and the influence of interactions of cationic solutes with sodium dodecyl sulfate on the formation of micelles and critical micelle concentration 1051(2004)85

#### **Cationic solutes**

Capillary electrophoretic studies on the migration behavior of cationic solutes and the influence of interactions of cationic solutes with sodium dodecyl sulfate on the formation of micelles and critical micelle concentration 1051(2004)85

#### **Cations**

Determination of volatile corrosion inhibitors by capillary electrophoresis 1051(2004)303

#### **Chelerythrine**

Aggregation and other intermolecular interactions of biological buffers observed by capillary electrophoresis and UV photometry 1051(2004)75

#### **Chip technology**

Single-step quantitation of DNA in microchip electrophoresis with linear imaging UV detection and fluorescence detection through comigration with a digest 1051(2004)147

Analysis of amino acids by miniaturised isotachopheresis 1051(2004)221

#### **Chiral separations**

Preconditions for reasonable detection sensitivity and for zone symmetry in electrophoretic separations of cluster borane anions 1051(2004)227

#### **Ciprofloxacin**

Determination of ciprofloxacin and its impurities by capillary zone electrophoresis 1051(2004)267

#### **Cluster boranes**

Preconditions for reasonable detection sensitivity and for zone symmetry in electrophoretic separations of cluster borane anions 1051(2004)227

#### **Collagen fragments**

Separation of low-molecular mass peptides by capillary electrophoresis with the use of alkylamines as dynamic coating agents at low pH 1051(2004)111

#### **Column coupling chip**

Column switching in zone electrophoresis on a chip 1051(2004)33

#### **Column switching zone electrophoresis**

Column switching in zone electrophoresis on a chip 1051(2004)33

#### **Continuous-flow fractionation**

Size-based continuous-flow directional control of DNA with a nano-pillar anisotropic array 1051(2004)141

#### **Critical micelle concentration**

Capillary electrophoretic studies on the migration behavior of cationic solutes and the influence of interactions of cationic solutes with sodium dodecyl sulfate on the formation of micelles and critical micelle concentration 1051(2004)85

#### **Cross-type chip**

Simultaneous determination of nitrate and nitrite in biological fluids by capillary electrophoresis and preliminary study on their determination by microchip capillary electrophoresis 1051(2004)185

#### **$\beta$ -Cyclodextrin**

Preconditions for reasonable detection sensitivity and for zone symmetry in electrophoretic separations of cluster borane anions 1051(2004)227

#### **Cyclodextrin**

Improved separation of metallothionein isoforms by the presence of cyclodextrin in capillary zone electrophoresis 1051(2004)237

#### **Derivatization, electrophoresis**

Monitoring of the conjugation reaction between human serum transferrin and fluorescein isothiocyanate by capillary electrophoresis 1051(2004)135

#### **Desmethylmirtazapine**

Enantioselective determination of the novel antidepressant mirtazapine and its active demethylated metabolite in human plasma by means of capillary electrophoresis 1051(2004)253

#### **Detection, electrophoresis**

Single-step quantitation of DNA in microchip electrophoresis with linear imaging UV detection and fluorescence detection through comigration with a digest 1051(2004)147

#### **Detection, LC**

Adaptation of an evaporative light-scattering detector to micro and capillary liquid chromatography and response assessment 1051(2004)43

Isolation and characterization of R-phycoerythrin subunits and enzymatic digests 1051(2004)119

#### **Divalent metal cations**

Stabilization of phosphatidylcholine coatings in capillary electrophoresis by increase in membrane rigidity 1051(2004)61

#### **DNA**

Single-step quantitation of DNA in microchip electrophoresis with linear imaging UV detection and fluorescence detection through comigration with a digest 1051(2004)147

Single-stranded DNA-binding protein facilitates gel-free analysis of polymerase chain reaction products in capillary electrophoresis 1051(2004)171

#### **DNA profiling**

DNA profiling by capillary array electrophoresis with non-covalent fluorescent labeling 1051(2004)155

#### **Dyes**

Critical survey of quantitative proteomics in two-dimensional electrophoretic approaches (Review) 1051(2004)3

#### **Electrochromatography**

Use of a Hepta-Tyr antibiotic modified silica stationary phase for the enantiomeric resolution of D,L-loxiglumide by electrochromatography and nano-liquid chromatography 1051(2004)247

#### **Electroosmotic flow**

Stabilization of phosphatidylcholine coatings in capillary electrophoresis by increase in membrane rigidity 1051(2004)61

#### **Electrophoresis**

DNA profiling by capillary array electrophoresis with non-covalent fluorescent labeling 1051(2004)155

**Enantiomer**

Use of the new, single-isomer, hexakis(2,3-diacetyl-6-*O*-sulfo)- $\alpha$ -cyclodextrin in acidic methanol background electrolytes for nonaqueous capillary electrophoretic enantiomer separations 1051(2004)95

**Enantiomer separation**

Use of a Hepta-Tyr antibiotic modified silica stationary phase for the enantiomeric resolution of D,L-loxiglumide by electrochromatography and nano-liquid chromatography 1051(2004)247

Enantioselective determination of the novel antidepressant mirtazapine and its active demethylated metabolite in human plasma by means of capillary electrophoresis 1051(2004)253

**Endocrine disruptors**

Simultaneous separation and on-line concentration of amitrole and benzimidazole pesticides by capillary electrophoresis with a volatile migration buffer applicable to mass spectrometric detection 1051(2004)297

**Entangled polymer solutions**

Heart-cutting two-dimensional electrophoresis in a single capillary 1051(2004)25

**Enzyme inhibitors**

Screening of inhibitors of uridine diphosphate glucuronosyltransferase with a miniaturized on-line drug-metabolism system 1051(2004)261

**Evaporative light-scattering detection**

Adaptation of an evaporative light-scattering detector to micro and capillary liquid chromatography and response assessment 1051(2004)43

**Fluorescein isothiocyanate**

Monitoring of the conjugation reaction between human serum transferrin and fluorescein isothiocyanate by capillary electrophoresis 1051(2004)135

**Fluorescence detection**

Single-step quantitation of DNA in microchip electrophoresis with linear imaging UV detection and fluorescence detection through comigration with a digest 1051(2004)147

**Folic acid**

Determination of folic acid in tablets by microemulsion electrokinetic chromatography 1051(2004)291

***N*-Glucuronide**

Identification of new oxycodone metabolites in human urine by capillary electrophoresis–multiple-stage ion-trap mass spectrometry 1051(2004)273

***O*-Glucuronide**

Identification of new oxycodone metabolites in human urine by capillary electrophoresis–multiple-stage ion-trap mass spectrometry 1051(2004)273

**Glycoproteins**

Monitoring of the conjugation reaction between human serum transferrin and fluorescein isothiocyanate by capillary electrophoresis 1051(2004)135

**Gradient elution**

Nanoflow gradient generator for capillary high-performance liquid chromatography–nanoelectrospray mass spectrometry 1051(2004)19

**Hexakis(2,3-diacetyl-6-*O*-sulfo)- $\alpha$ -cyclodextrin (HxDAS)**

Use of the new, single-isomer, hexakis(2,3-diacetyl-6-*O*-sulfo)- $\alpha$ -cyclodextrin in acidic methanol background electrolytes for nonaqueous capillary electrophoretic enantiomer separations 1051(2004)95

**High resolution**

Simultaneous determination of nitrate and nitrite in biological fluids by capillary electrophoresis and preliminary study on their determination by microchip capillary electrophoresis 1051(2004)185

**High throughput**

Simultaneous determination of nitrate and nitrite in biological fluids by capillary electrophoresis and preliminary study on their determination by microchip capillary electrophoresis 1051(2004)185

**Hydrodynamic injection**

Microchip electrophoresis with hydrodynamic injection and waste-removing function for quantitative analysis 1051(2004)69

**Hydroxybutyric acid**

Evaluation of diabetes-related short-chain organic acids in rat plasma by capillary electrophoresis 1051(2004)199

 **$\gamma$ -Hydroxybutyric acid**

Rapid and direct analysis of  $\gamma$ -hydroxybutyric acid in urine by capillary electrophoresis–electrospray ionization ion-trap mass spectrometry 1051(2004)207

**Hydroxyethylcellulose**

Separation and quantification of viral double-stranded RNA fragments by capillary electrophoresis in hydroxyethylcellulose polymer solutions 1051(2004)161

**Inorganic anions**

High sensitivity analysis of nitrite and nitrate in biological samples by capillary zone electrophoresis with transient isotachophoretic sample stacking 1051(2004)177

Simultaneous determination of nitrite, nitrate, thiocyanate and uric acid in human saliva by capillary zone electrophoresis and its application to the study of daily variations 1051(2004)193

**Instrumentation**

Nanoflow gradient generator for capillary high-performance liquid chromatography–nanoelectrospray mass spectrometry 1051(2004)19

Adaptation of an evaporative light-scattering detector to micro and capillary liquid chromatography and response assessment 1051(2004)43

Analysis of amino acids by miniaturised isotachophoresis 1051(2004)221

**Ion-pair chromatography**

Comparison of ion-pair chromatography and capillary zone electrophoresis for the assay of organic acids as markers of abnormal metabolism 1051(2004)213

**Isotachophoresis**

High sensitivity analysis of nitrite and nitrate in biological samples by capillary zone electrophoresis with transient isotachophoretic sample stacking 1051(2004)177

Analysis of amino acids by miniaturised isotachophoresis 1051(2004)221

**Isotope labelling**

Critical survey of quantitative proteomics in two-dimensional electrophoretic approaches (Review) 1051(2004)3

**Kinase assay**

Microchip electrophoresis with hydrodynamic injection and waste-removing function for quantitative analysis 1051(2004)69

**Lactic acid**

Evaluation of diabetes-related short-chain organic acids in rat plasma by capillary electrophoresis 1051(2004)199

**Light-emitting diodes**

Single-step quantitation of DNA in microchip electrophoresis with linear imaging UV detection and fluorescence detection through comigration with a digest 1051(2004)147

**Lipids**

Adaptation of an evaporative light-scattering detector to micro and capillary liquid chromatography and response assessment 1051(2004)43

**Liposomes**

Use of liposomes as a dispersed pseudo-stationary phase in capillary electrophoresis of basic proteins 1051(2004)103

**Loxiglumide**

Use of a Hepta-Tyr antibiotic modified silica stationary phase for the enantiomeric resolution of D,L-loxiglumide by electrochromatography and nano-liquid chromatography 1051(2004)247

**Mass spectrometry**

Nanoflow gradient generator for capillary high-performance liquid chromatography–nanoelectrospray mass spectrometry 1051(2004)19

**Metallothionein isoforms**

Improved separation of metallothionein isoforms by the presence of cyclodextrin in capillary zone electrophoresis 1051(2004)237

**Micellization**

Capillary electrophoretic studies on the migration behavior of cationic solutes and the influence of interactions of cationic solutes with sodium dodecyl sulfate on the formation of micelles and critical micelle concentration 1051(2004)85

**Microchip electrophoresis**

Microchip electrophoresis with hydrodynamic injection and waste-removing function for quantitative analysis 1051(2004)69

**Microemulsion electrokinetic chromatography**

Determination of folic acid in tablets by microemulsion electrokinetic chromatography 1051(2004)291

**Miniaturisation**

Analysis of amino acids by miniaturised isotachopheresis 1051(2004)221

**Mirtazapine**

Enantioselective determination of the novel antidepressant mirtazapine and its active demethylated metabolite in human plasma by means of capillary electrophoresis 1051(2004)253

**Molecular mass**

High-throughput protein analysis by multiplexed sodium dodecyl sulfate capillary gel electrophoresis with UV absorption detection 1051(2004)131

**Monolithic columns**

Photopolymerized monolithic capillary columns for rapid micro high-performance liquid chromatographic separation of proteins 1051(2004)53

**Multiplexed capillary gel electrophoresis**

High-throughput protein analysis by multiplexed sodium dodecyl sulfate capillary gel electrophoresis with UV absorption detection 1051(2004)131

**Nano-pillar anisotropic array**

Size-based continuous-flow directional control of DNA with a nano-pillar anisotropic array 1051(2004)141

**Nitrate**

High sensitivity analysis of nitrite and nitrate in biological samples by capillary zone electrophoresis with transient isotachopheretic sample stacking 1051(2004)177

Simultaneous determination of nitrite, nitrate, thiocyanate and uric acid in human saliva by capillary zone electrophoresis and its application to the study of daily variations 1051(2004)193

**Nitric oxide**

High sensitivity analysis of nitrite and nitrate in biological samples by capillary zone electrophoresis with transient isotachopheretic sample stacking 1051(2004)177

Simultaneous determination of nitrate and nitrite in biological fluids by capillary electrophoresis and preliminary study on their determination by microchip capillary electrophoresis 1051(2004)185

**Nitrite**

High sensitivity analysis of nitrite and nitrate in biological samples by capillary zone electrophoresis with transient isotachopheretic sample stacking 1051(2004)177

Simultaneous determination of nitrite, nitrate, thiocyanate and uric acid in human saliva by capillary zone electrophoresis and its application to the study of daily variations 1051(2004)193

**Nonaqueous capillary electrophoresis**

Use of the new, single-isomer, hexakis(2,3-diacetyl-6-*O*-sulfo)- $\alpha$ -cyclodextrin in acidic methanol background electrolytes for nonaqueous capillary electrophoretic enantiomer separations 1051(2004)95

**Non-covalent fluorescent labeling**

DNA profiling by capillary array electrophoresis with non-covalent fluorescent labeling 1051(2004)155

**Organic acids**

Evaluation of diabetes-related short-chain organic acids in rat plasma by capillary electrophoresis 1051(2004)199

**Organic acids as abnormal metabolic markers**

Comparison of ion-pair chromatography and capillary zone electrophoresis for the assay of organic acids as markers of abnormal metabolism 1051(2004)213

**6-Oxycodol**

Identification of new oxycodone metabolites in human urine by capillary electrophoresis–multiple-stage ion-trap mass spectrometry 1051(2004)273

**6-Oxycodol-*N*-oxide**

Identification of new oxycodone metabolites in human urine by capillary electrophoresis–multiple-stage ion-trap mass spectrometry 1051(2004)273

**Oxycodone**

Identification of new oxycodone metabolites in human urine by capillary electrophoresis–multiple-stage ion-trap mass spectrometry 1051(2004)273

**Oxycodone-N-oxide**

Identification of new oxycodone metabolites in human urine by capillary electrophoresis–multiple-stage ion-trap mass spectrometry 1051(2004)273

**pK<sub>a</sub> determination**

Electrophoretic behavior and pK<sub>a</sub> determination of quinolones with a piperaziny substituent by capillary zone electrophoresis 1051(2004)283

**Palmitoylcholine**

Use of liposomes as a dispersed pseudo-stationary phase in capillary electrophoresis of basic proteins 1051(2004)103

**Peptides**

Nanoflow gradient generator for capillary high-performance liquid chromatography–nanoelectrospray mass spectrometry 1051(2004)19

Separation of low-molecular mass peptides by capillary electrophoresis with the use of alkylamines as dynamic coating agents at low pH 1051(2004)111

**Pesticides**

Simultaneous separation and on-line concentration of amitrole and benzimidazole pesticides by capillary electrophoresis with a volatile migration buffer applicable to mass spectrometric detection 1051(2004)297

**Pharmaceutical analysis**

Determination of ciprofloxacin and its impurities by capillary zone electrophoresis 1051(2004)267

**Phosphatidylcholine**

Stabilization of phosphatidylcholine coatings in capillary electrophoresis by increase in membrane rigidity 1051(2004)61

**Phycobiliproteins**

Isolation and characterization of R-phycoerythrin subunits and enzymatic digests 1051(2004)119

**Phycoerythrin**

Isolation and characterization of R-phycoerythrin subunits and enzymatic digests 1051(2004)119

**Poly(methyl methacrylate)**

Single-step quantitation of DNA in microchip electrophoresis with linear imaging UV detection and fluorescence detection through comigration with a digest 1051(2004)147

**Proteins**

Photopolymerized monolithic capillary columns for rapid micro high-performance liquid chromatographic separation of proteins 1051(2004)53

Stabilization of phosphatidylcholine coatings in capillary electrophoresis by increase in membrane rigidity 1051(2004)61

Use of liposomes as a dispersed pseudo-stationary phase in capillary electrophoresis of basic proteins 1051(2004)103

Isolation and characterization of R-phycoerythrin subunits and enzymatic digests 1051(2004)119

High-throughput protein analysis by multiplexed sodium dodecyl sulfate capillary gel electrophoresis with UV absorption detection 1051(2004)131

Monitoring of the conjugation reaction between human serum transferrin and fluorescein isothiocyanate by capillary electrophoresis 1051(2004)135

Single-stranded DNA-binding protein facilitates gel-free analysis of polymerase chain reaction products in capillary electrophoresis 1051(2004)171

**Proteomics**

Critical survey of quantitative proteomics in two-dimensional electrophoretic approaches (Review) 1051(2004)3

**Pseudo-stationary phases**

Use of liposomes as a dispersed pseudo-stationary phase in capillary electrophoresis of basic proteins 1051(2004)103

**Pyruvic acid**

Evaluation of diabetes-related short-chain organic acids in rat plasma by capillary electrophoresis 1051(2004)199

**Quantitative analysis**

Microchip electrophoresis with hydrodynamic injection and waste-removing function for quantitative analysis 1051(2004)69

**Quartz chip**

Simultaneous determination of nitrate and nitrite in biological fluids by capillary electrophoresis and preliminary study on their determination by microchip capillary electrophoresis 1051(2004)185

**Quinolones**

Determination of ciprofloxacin and its impurities by capillary zone electrophoresis 1051(2004)267

Electrophoretic behavior and pK<sub>a</sub> determination of quinolones with a piperaziny substituent by capillary zone electrophoresis 1051(2004)283

**Reviews**

Critical survey of quantitative proteomics in two-dimensional electrophoretic approaches (Review) 1051(2004)3

**RNA**

Separation and quantification of viral double-stranded RNA fragments by capillary electrophoresis in hydroxyethylcellulose polymer solutions 1051(2004)161

**Sample stacking**

High sensitivity analysis of nitrite and nitrate in biological samples by capillary zone electrophoresis with transient isotachophoretic sample stacking 1051(2004)177

**Sanguinarine**

Aggregation and other intermolecular interactions of biological buffers observed by capillary electrophoresis and UV photometry 1051(2004)75

**Screening**

Screening of inhibitors of uridine diphosphate glucuronosyltransferase with a miniaturized on-line drug-metabolism system 1051(2004)261

**Selectivity**

Separation of low-molecular mass peptides by capillary electrophoresis with the use of alkylamines as dynamic coating agents at low pH 1051(2004)111

**Simulation of fragmentation**

Identification of new oxycodone metabolites in human urine by capillary electrophoresis—multiple-stage ion-trap mass spectrometry 1051(2004)273

**Single-isomer sulfated cyclodextrin**

Use of the new, single-isomer, hexakis(2,3-diacetyl-6-*O*-sulfo)- $\alpha$ -cyclodextrin in acidic methanol background electrolytes for nonaqueous capillary electrophoretic enantiomer separations 1051(2004)95

**Size and charge-based separations**

Heart-cutting two-dimensional electrophoresis in a single capillary 1051(2004)25

**Size-based pre-fractionation chip**

Size-based continuous-flow directional control of DNA with a nano-pillar anisotropic array 1051(2004)141

**Sodium dodecyl sulfate**

Capillary electrophoretic studies on the migration behavior of cationic solutes and the influence of interactions of cationic solutes with sodium dodecyl sulfate on the formation of micelles and critical micelle concentration 1051(2004)85

**Stationary phases, electrochromatography**

Use of a Hepta-Tyr antibiotic modified silica stationary phase for the enantiomeric resolution of D,L-loxiglumide by electrochromatography and nano-liquid chromatography 1051(2004)247

**Stationary phases, LC**

Photopolymerized monolithic capillary columns for rapid micro high-performance liquid chromatographic separation of proteins 1051(2004)53

Use of a Hepta-Tyr antibiotic modified silica stationary phase for the enantiomeric resolution of D,L-loxiglumide by electrochromatography and nano-liquid chromatography 1051(2004)247

**Sulfated cyclodextrin**

Use of the new, single-isomer, hexakis(2,3-diacetyl-6-*O*-sulfo)- $\alpha$ -cyclodextrin in acidic methanol background electrolytes for nonaqueous capillary electrophoretic enantiomer separations 1051(2004)95

**Synthetic polymers**

Heart-cutting two-dimensional electrophoresis in a single capillary 1051(2004)25

**Thiocyanate**

Simultaneous determination of nitrite, nitrate, thiocyanate and uric acid in human saliva by capillary zone electrophoresis and its application to the study of daily variations 1051(2004)193

**Total internal reflection fluorescence microscopy**

Isolation and characterization of R-phycoerythrin subunits and enzymatic digests 1051(2004)119

**Transferrin**

Monitoring of the conjugation reaction between human serum transferrin and fluorescein isothiocyanate by capillary electrophoresis 1051(2004)135

**Two-dimensional separations**

Heart-cutting two-dimensional electrophoresis in a single capillary 1051(2004)25

**Uric acid**

Simultaneous determination of nitrite, nitrate, thiocyanate and uric acid in human saliva by capillary zone electrophoresis and its application to the study of daily variations 1051(2004)193

Evaluation of diabetes-related short-chain organic acids in rat plasma by capillary electrophoresis 1051(2004)199

**Uridine diphosphate glucuronosyltransferase**

Screening of inhibitors of uridine diphosphate glucuronosyltransferase with a miniaturized on-line drug-metabolism system 1051(2004)261

**Vinylpyridine**

Critical survey of quantitative proteomics in two-dimensional electrophoretic approaches (Review) 1051(2004)3

**Viruses**

Separation and quantification of viral double-stranded RNA fragments by capillary electrophoresis in hydroxyethylcellulose polymer solutions 1051(2004)161

**Vitamins**

Determination of folic acid in tablets by microemulsion electrokinetic chromatography 1051(2004)291

**Volatile corrosion inhibitors**

Determination of volatile corrosion inhibitors by capillary electrophoresis 1051(2004)303

**Zone electrophoresis on chip**

Column switching in zone electrophoresis on a chip 1051(2004)33

**Zone electrophoresis sample pretreatment on chip**

Column switching in zone electrophoresis on a chip 1051(2004)33

**Zwitterionic liposomes**

Stabilization of phosphatidylcholine coatings in capillary electrophoresis by increase in membrane rigidity 1051(2004)61
