

## Subject Index Vol. 1052

### Acetonitrile

Ghost peaks in reversed-phase gradient HPLC: a review and update (Review) 1052(2004)1

### Affinity precipitation

Chitosan as a macroaffinity ligand. Purification of chitinases by affinity precipitation and aqueous two-phase extractions 1052(2004)85

### Alcohol ethoxylates

Increasing UV detection sensitivity in the supercritical fluid chromatographic analysis of alcohol polyethers 1052(2004)161

### Allelochemicals

Development of a liquid chromatography–electrospray mass spectrometric method for the simultaneous analysis of benzoxazolinones and their degradation products 1052(2004)53

### Aminophenoxazinones

Development of a liquid chromatography–electrospray mass spectrometric method for the simultaneous analysis of benzoxazolinones and their degradation products 1052(2004)53

### *Angelica dahurica* (Fisch. ex Hoffm) Benth, et Hook. f

Preparative isolation and purification of coumarins from *Angelica dahurica* (Fisch. ex Hoffm) Benth, et Hook. f (Chinese traditional medicinal herb) by high-speed counter-current chromatography 1052(2004)223

### Anthocyanins

Analysis of aged red wine pigments by capillary zone electrophoresis 1052(2004)191

### Antifouling biocides

Chromatographic behavior of pyrithiones 1052(2004)103

### Antimony speciation

New considerations about the separation and quantification of antimony species by ion chromatography–hydride generation atomic fluorescence spectrometry 1052(2004)121

### Artifacts

Ghost peaks in reversed-phase gradient HPLC: a review and update (Review) 1052(2004)1

### Atomic fluorescence spectrometry

New considerations about the separation and quantification of antimony species by ion chromatography–hydride generation atomic fluorescence spectrometry 1052(2004)121

### Benzene

Combining headspace gas chromatography with mass spectrometry detection for confirmation of hydrocarbon residues in virgin olive oil following automatic screening 1052(2004)137

### Benzoxazolinones

Development of a liquid chromatography–electrospray mass spectrometric method for the simultaneous analysis of benzoxazolinones and their degradation products 1052(2004)53

### Butyl methacrylate phase

Preparation and characterization of long methacrylate monolithic column for capillary liquid chromatography 1052(2004)205

### Capillary electrochromatography

Retention behaviour of peptides in capillary electrochromatography using an embedded ammonium in dodecacyl stationary phase 1052(2004)181

### Capillary ion-pair reversed-phase chromatography

Rapid characterization of oligonucleotides by capillary liquid chromatography–nano electrospray quadrupole time-of-flight mass spectrometry 1052(2004)93

### Carboxylic acids

Rapid liquid chromatography–ultraviolet determination of organic acids and phenolic compounds in red wine and must 1052(2004)211

### Chiral separation

Analytical method for the quantitation of sertraline hydrochloride stereoisomers by electrokinetic chromatography (Review) 1052(2004)13

### Chitinases

Chitosan as a macroaffinity ligand. Purification of chitinases by affinity precipitation and aqueous two-phase extractions 1052(2004)85

### Chitosan

Chitosan as a macroaffinity ligand. Purification of chitinases by affinity precipitation and aqueous two-phase extractions 1052(2004)85

### Chromatographic baselines

Ghost peaks in reversed-phase gradient HPLC: a review and update (Review) 1052(2004)1

### Cinnamic acid

Preparative isolation and purification of hydroxyanthraquinones and cinnamic acid from the Chinese medicinal herb *Rheum officinale* Baill. by high-speed counter-current chromatography 1052(2004)217

### Coastal waters and sediments

Simultaneous extraction and fate of linear alkylbenzene sulfonates, coconut diethanol amides, nonylphenol ethoxylates and their degradation products in wastewater treatment plants, receiving coastal waters and sediments in the Catalonian area (NE Spain) 1052(2004)111

### $\alpha$ -Copaene

Chemical composition of the essential oil of *Salvia multicaulis* Vahl. var. *simplicifolia* Boiss. growing wild in Lebanon 1052(2004)237

**Cork taint**

Determination of chloroanisole compounds in red wine by headspace solid-phase microextraction and gas chromatography–mass spectrometry 1052(2004)145

**Counter-current chromatography**

Preparative isolation and purification of gastrodin from the Chinese medicinal plant *Gastrodia elata* by high-speed counter-current chromatography 1052(2004)229

**Cyclodextrins**

Gradient elution of organic acids on a  $\beta$ -cyclodextrin column in the polar organic mode and its application to drug discovery 1052(2004)69

**Degradation products**

Simultaneous extraction and fate of linear alkylbenzene sulfonates, coconut diethanol amides, nonylphenol ethoxylates and their degradation products in wastewater treatment plants, receiving coastal waters and sediments in the Catalanian area (NE Spain) 1052(2004)111

**Derivatization**

Increasing UV detection sensitivity in the supercritical fluid chromatographic analysis of alcohol polyethers 1052(2004)161

**Derivatization, GC**

Comparison of three derivatization ways in the separation of phenol and hydroquinone from water samples 1052(2004)233

**Dityrosine**

Quantitative determination of dityrosine in milk powders by liquid chromatography coupled to tandem mass spectrometry using isotope dilution 1052(2004)77

**Drug discovery**

Gradient elution of organic acids on a  $\beta$ -cyclodextrin column in the polar organic mode and its application to drug discovery 1052(2004)69

**Dual gradient**

Separation and determination of lanthanides, thorium and uranium using a dual gradient in reversed-phase liquid chromatography 1052(2004)131

**Ecotoxicity**

Micellar electrokinetic chromatography with bile salts for predicting ecotoxicity of aromatic compounds 1052(2004)171

**Electrokinetic chromatography**

Analytical method for the quantitation of sertraline hydrochloride stereoisomers by electrokinetic chromatography (Review) 1052(2004)13

**Electroosmotic flow**

Retention behaviour of peptides in capillary electrochromatography using an embedded ammonium in dodecacyl stationary phase 1052(2004)181

**Emission**

Correlation between emitted and total amount of 2-cyclopentyl-cyclopentanone in polyamide 6.6 allows rapid assessment by HS and HS-SPME under non-equilibrium conditions 1052(2004)151

**Enantiomer separation**

Analytical method for the quantitation of sertraline hydrochloride stereoisomers by electrokinetic chromatography (Review) 1052(2004)13

**Environmental analysis**

New extraction method for the analysis of linear alkylbenzene sulfonates in marine organisms 1052(2004)33

**Essential oil composition**

Chemical composition of the essential oil of *Salvia multicaulis* Vahl. var. *simplicifolia* Boiss. growing wild in Lebanon 1052(2004)237

**Ethylbenzene**

Combining headspace gas chromatography with mass spectrometry detection for confirmation of hydrocarbon residues in virgin olive oil following automatic screening 1052(2004)137

**Extraction methods**

New extraction method for the analysis of linear alkylbenzene sulfonates in marine organisms 1052(2004)33

**Food**

Determination of lycopene in food by on-line SFE coupled to HPLC using a single monolithic column for trapping and separation 1052(2004)25

**Gas chromatography–mass spectrometry**

Determination of chloroanisole compounds in red wine by headspace solid-phase microextraction and gas chromatography–mass spectrometry 1052(2004)145

***Gastrodia elata***

Preparative isolation and purification of gastrodin from the Chinese medicinal plant *Gastrodia elata* by high-speed counter-current chromatography 1052(2004)229

**Gastrodin**

Preparative isolation and purification of gastrodin from the Chinese medicinal plant *Gastrodia elata* by high-speed counter-current chromatography 1052(2004)229

**GC–MS**

Determination of chloroanisole compounds in red wine by headspace solid-phase microextraction and gas chromatography–mass spectrometry 1052(2004)145

**Ghost peaks**

Ghost peaks in reversed-phase gradient HPLC: a review and update (Review) 1052(2004)1

**Gradient elution**

Gradient elution of organic acids on a  $\beta$ -cyclodextrin column in the polar organic mode and its application to drug discovery 1052(2004)69

New considerations about the separation and quantification of antimony species by ion chromatography–hydride generation atomic fluorescence spectrometry 1052(2004)121

**Gradient HPLC**

Ghost peaks in reversed-phase gradient HPLC: a review and update (Review) 1052(2004)1

**Head space microextraction**

Determination of chloroanisole compounds in red wine by headspace solid-phase microextraction and gas chromatography–mass spectrometry 1052(2004)145

**Headspace**

Correlation between emitted and total amount of 2-cyclopentyl-cyclopentanone in polyamide 6.6 allows rapid assessment by HS and HS-SPME under non-equilibrium conditions 1052(2004)151

**High temperature liquid chromatography**

Effect of temperature in reversed phase liquid chromatography 1052(2004)39

**Highly sulfated cyclodextrin**

Analytical method for the quantitation of sertraline hydrochloride stereoisomers by electrokinetic chromatography (Review) 1052(2004)13

**High speed counter-current chromatography**

Preparative isolation and purification of hydroxyanthraquinones and cinnamic acid from the Chinese medicinal herb *Rheum officinale* Baill. by high-speed counter-current chromatography 1052(2004)217

Preparative isolation and purification of coumarins from *Angelica dahurica* (Fisch. ex Hoffm) Benth, et Hook. f (Chinese traditional medicinal herb) by high-speed counter-current chromatography 1052(2004)223

**Human growth hormone**

Retention behaviour of peptides in capillary electrochromatography using an embedded ammonium in dodecacyl stationary phase 1052(2004)181

**Hydride generation**

New considerations about the separation and quantification of antimony species by ion chromatography–hydride generation atomic fluorescence spectrometry 1052(2004)121

**Hydroquinone**

Comparison of three derivatization ways in the separation of phenol and hydroquinone from water samples 1052(2004)233

**Hydroxyanthraquinones**

Preparative isolation and purification of hydroxyanthraquinones and cinnamic acid from the Chinese medicinal herb *Rheum officinale* Baill. by high-speed counter-current chromatography 1052(2004)217

**Imperatorin**

Preparative isolation and purification of coumarins from *Angelica dahurica* (Fisch. ex Hoffm) Benth, et Hook. f (Chinese traditional medicinal herb) by high-speed counter-current chromatography 1052(2004)223

**Ion chromatography**

New considerations about the separation and quantification of antimony species by ion chromatography–hydride generation atomic fluorescence spectrometry 1052(2004)121

**Isoimperatorin**

Preparative isolation and purification of coumarins from *Angelica dahurica* (Fisch. ex Hoffm) Benth, et Hook. f (Chinese traditional medicinal herb) by high-speed counter-current chromatography 1052(2004)223

**Isotope dilution**

Quantitative determination of dityrosine in milk powders by liquid chromatography coupled to tandem mass spectrometry using isotope dilution 1052(2004)77

**Kinetic and thermodynamic behavior**

Effect of temperature in reversed phase liquid chromatography 1052(2004)39

 **$\beta$ -Lactoglobulin**

Retention behaviour of peptides in capillary electrochromatography using an embedded ammonium in dodecacyl stationary phase 1052(2004)181

**Lamiaceae**

Chemical composition of the essential oil of *Salvia multicaulis* Vahl. var. *simplicifolia* Boiss. growing wild in Lebanon 1052(2004)237

**Lanthanides**

Separation and determination of lanthanides, thorium and uranium using a dual gradient in reversed-phase liquid chromatography 1052(2004)131

**Linear alkylbenzene sulfonates**

New extraction method for the analysis of linear alkylbenzene sulfonates in marine organisms 1052(2004)33

**Lipase catalyzed acidolysis**

Biocatalyzed acidolysis of soybean oil triacylglycerols to increase oleic acid content 1052(2004)167

**Liquid chromatography**

Determination of lycopene in food by on-line SFE coupled to HPLC using a single monolithic column for trapping and separation 1052(2004)25

Development of a liquid chromatography–electrospray mass spectrometric method for the simultaneous analysis of benzoxazinones and their degradation products 1052(2004)53

**Lycopene**

Determination of lycopene in food by on-line SFE coupled to HPLC using a single monolithic column for trapping and separation 1052(2004)25

**Malonic acids**

Development of a liquid chromatography–electrospray mass spectrometric method for the simultaneous analysis of benzoxazinones and their degradation products 1052(2004)53

**Mass spectrometry**

Development of a liquid chromatography–electrospray mass spectrometric method for the simultaneous analysis of benzoxazinones and their degradation products 1052(2004)53

Increasing UV detection sensitivity in the supercritical fluid chromatographic analysis of alcohol polyethers 1052(2004)161

**Methanol**

Ghost peaks in reversed-phase gradient HPLC: a review and update (Review) 1052(2004)1

**Methylantimony species**

New considerations about the separation and quantification of antimony species by ion chromatography–hydride generation atomic fluorescence spectrometry 1052(2004)121

**Micellar electrokinetic chromatography**

Micellar electrokinetic chromatography with bile salts for predicting ecotoxicity of aromatic compounds 1052(2004)171

**Microwave-assisted extraction**

Multiple headspace solid-phase microextraction of 2-cyclopentyl-cyclopentanone in polyamide 6.6: possibilities and limitations in the headspace analysis of solid hydrogen-bonding matrices 1052(2004)61

**Mixed-mode stationary phase**

Retention behaviour of peptides in capillary electrochromatography using an embedded ammonium in dodecacyl stationary phase 1052(2004)181

**Monolithic column**

Preparation and characterization of long methacrylate monolithic column for capillary liquid chromatography 1052(2004)205

**Multiple headspace extraction**

Multiple headspace solid-phase microextraction of 2-cyclopentyl-cyclopentanone in polyamide 6.6: possibilities and limitations in the headspace analysis of solid hydrogen-bonding matrices 1052(2004)61

**Must**

Rapid liquid chromatography–ultraviolet determination of organic acids and phenolic compounds in red wine and must 1052(2004)211

**Myrtenol**

Chemical composition of the essential oil of *Salvia multicaulis* Vahl. var. *simplicifolia* Boiss. growing wild in Lebanon 1052(2004)237

**Nano-electrospray ionization mass spectrometry**

Rapid characterization of oligonucleotides by capillary liquid chromatography–nano electrospray quadrupole time-of-flight mass spectrometry 1052(2004)93

**Oligonucleotides**

Rapid characterization of oligonucleotides by capillary liquid chromatography–nano electrospray quadrupole time-of-flight mass spectrometry 1052(2004)93

**Omadine**

Chromatographic behavior of pyrithiones 1052(2004)103

**On-line coupled SFE–LC**

Determination of lycopene in food by on-line SFE coupled to HPLC using a single monolithic column for trapping and separation 1052(2004)25

**Organic acids**

Gradient elution of organic acids on a  $\beta$ -cyclodextrin column in the polar organic mode and its application to drug discovery 1052(2004)69

Rapid liquid chromatography–ultraviolet determination of organic acids and phenolic compounds in red wine and must 1052(2004)211

**Oxypeucedanine**

Preparative isolation and purification of coumarins from *Angelica dahurica* (Fisch. ex Hoffm) Benth, et Hook. f (Chinese traditional medicinal herb) by high-speed counter-current chromatography 1052(2004)223

**Peptide mapping**

Retention behaviour of peptides in capillary electrochromatography using an embedded ammonium in dodecacyl stationary phase 1052(2004)181

**Phenol**

Comparison of three derivatization ways in the separation of phenol and hydroquinone from water samples 1052(2004)233

**pH-gradient elution**

Preparative isolation and purification of hydroxyanthraquinones and cinnamic acid from the Chinese medicinal herb *Rheum officinale* Baill. by high-speed counter-current chromatography 1052(2004)217

 **$\alpha$ -Pinene**

Chemical composition of the essential oil of *Salvia multicaulis* Vahl. var. *simplicifolia* Boiss. growing wild in Lebanon 1052(2004)237

**Plant materials**

Preparative isolation and purification of gastrodin from the Chinese medicinal plant *Gastrodia elata* by high-speed counter-current chromatography 1052(2004)229

**Polar chemically bonded stationary phases**

Insights into the retention mechanism of neutral organic compounds on polar chemically bonded stationary phases in reversed-phase liquid chromatography 1052(2004)199

**Polyamide**

Multiple headspace solid-phase microextraction of 2-cyclopentyl-cyclopentanone in polyamide 6.6: possibilities and limitations in the headspace analysis of solid hydrogen-bonding matrices 1052(2004)61

Correlation between emitted and total amount of 2-cyclopentyl-cyclopentanone in polyamide 6.6 allows rapid assessment by HS and HS-SPME under non-equilibrium conditions 1052(2004)151

**Polycyclic aromatic hydrocarbon**

Micellar electrokinetic chromatography with bile salts for predicting ecotoxicity of aromatic compounds 1052(2004)171

**Polymers**

Chitosan as a macroaffinity ligand. Purification of chitinases by affinity precipitation and aqueous two-phase extractions 1052(2004)85

Correlation between emitted and total amount of 2-cyclopentyl-cyclopentanone in polyamide 6.6 allows rapid assessment by HS and HS-SPME under non-equilibrium conditions 1052(2004)151

**Polymeric pigments**

Analysis of aged red wine pigments by capillary zone electrophoresis 1052(2004)191

**Polyphenols**

Rapid liquid chromatography–ultraviolet determination of organic acids and phenolic compounds in red wine and must 1052(2004)211

**Preparative chromatography**

Preparative isolation and purification of gastrodin from the Chinese medicinal plant *Gastrodia elata* by high-speed counter-current chromatography 1052(2004)229

**Pressurized liquid extraction (PLE)**

New extraction method for the analysis of linear alkylbenzene sulfonates in marine organisms 1052(2004)33

**Protein oxidation**

Quantitative determination of dityrosine in milk powders by liquid chromatography coupled to tandem mass spectrometry using isotope dilution 1052(2004)77

**Protein purification**

Chitosan as a macroaffinity ligand. Purification of chitinases by affinity precipitation and aqueous two-phase extractions 1052(2004)85

**Pyrithione**

Chromatographic behavior of pyrithiones 1052(2004)103

**Quadrupole time-of-flight mass spectrometer**

Rapid characterization of oligonucleotides by capillary liquid chromatography–nano electrospray quadrupole time-of-flight mass spectrometry 1052(2004)93

**Quality control**

Rapid characterization of oligonucleotides by capillary liquid chromatography–nano electrospray quadrupole time-of-flight mass spectrometry 1052(2004)93

**Red wine**

Analysis of aged red wine pigments by capillary zone electrophoresis 1052(2004)191

**Retention mechanism**

Insights into the retention mechanism of neutral organic compounds on polar chemically bonded stationary phases in reversed-phase liquid chromatography 1052(2004)199

**Reversed-phase liquid chromatography**

Insights into the retention mechanism of neutral organic compounds on polar chemically bonded stationary phases in reversed-phase liquid chromatography 1052(2004)199

**Rheum officinale Baill**

Preparative isolation and purification of hydroxyanthraquinones and cinnamic acid from the Chinese medicinal herb *Rheum officinale* Baill. by high-speed counter-current chromatography 1052(2004)217

***Ruditapes semidecussatus***

New extraction method for the analysis of linear alkylbenzene sulfonates in marine organisms 1052(2004)33

***Salvia multicaulis* Vahl. var. *simplicifolia* Boiss.**

Chemical composition of the essential oil of *Salvia multicaulis* Vahl. var. *simplicifolia* Boiss. growing wild in Lebanon 1052(2004)237

**Sertraline hydrochloride**

Analytical method for the quantitation of sertraline hydrochloride stereoisomers by electrokinetic chromatography (Review) 1052(2004)13

***Solea senegalensis***

New extraction method for the analysis of linear alkylbenzene sulfonates in marine organisms 1052(2004)33

**Solid-phase microextraction**

Multiple headspace solid-phase microextraction of 2-cyclopentyl-cyclopentanone in polyamide 6.6: possibilities and limitations in the headspace analysis of solid hydrogen-bonding matrices 1052(2004)61

Determination of chloroanisole compounds in red wine by headspace solid-phase microextraction and gas chromatography–mass spectrometry 1052(2004)145

Correlation between emitted and total amount of 2-cyclopentyl-cyclopentanone in polyamide 6.6 allows rapid assessment by HS and HS-SPME under non-equilibrium conditions 1052(2004)151

**Solvation parameter model**

Insights into the retention mechanism of neutral organic compounds on polar chemically bonded stationary phases in reversed-phase liquid chromatography 1052(2004)199

**Solvents**

Ghost peaks in reversed-phase gradient HPLC: a review and update (Review) 1052(2004)1

**Soybean triacylglycerols**

Biocatalyzed acidolysis of soybean oil triacylglycerols to increase oleic acid content 1052(2004)167

**Speciation**

Chromatographic behavior of pyrithiones 1052(2004)103

**Stationary phase**

Retention behaviour of peptides in capillary electrochromatography using an embedded ammonium in dodecacyl stationary phase 1052(2004)181

**Stationary phases, LC**

Preparation and characterization of long methacrylate monolithic column for capillary liquid chromatography 1052(2004)205

**Styrene**

Combining headspace gas chromatography with mass spectrometry detection for confirmation of hydrocarbon residues in virgin olive oil following automatic screening 1052(2004)137

**Supercritical fluid extraction**

Determination of lycopene in food by on-line SFE coupled to HPLC using a single monolithic column for trapping and separation 1052(2004)25

**Surfactants**

New extraction method for the analysis of linear alkylbenzene sulfonates in marine organisms 1052(2004)33

**System peaks**

Ghost peaks in reversed-phase gradient HPLC: a review and update (Review) 1052(2004)1

**Tandem mass spectrometry**

Quantitative determination of dityrosine in milk powders by liquid chromatography coupled to tandem mass spectrometry using isotope dilution 1052(2004)77

**Temperature control**

Effect of temperature in reversed phase liquid chromatography 1052(2004)39

**Tetrachloroanisole**

Determination of chloroanisole compounds in red wine by headspace solid-phase microextraction and gas chromatography–mass spectrometry 1052(2004)145

**TFA**

Ghost peaks in reversed-phase gradient HPLC: a review and update 1052(2004)1

**Thorium**

Separation and determination of lanthanides, thorium and uranium using a dual gradient in reversed-phase liquid chromatography 1052(2004)131

**Toluene**

Combining headspace gas chromatography with mass spectrometry detection for confirmation of hydrocarbon residues in virgin olive oil following automatic screening 1052(2004)137

***trans*-Sabinyl acetate**

Chemical composition of the essential oil of *Salvia multicaulis* Vahl. var. *simplicifolia* Boiss. growing wild in Lebanon 1052(2004)237

**Trichloroanisole**

Determination of chloroanisole compounds in red wine by headspace solid-phase microextraction and gas chromatography–mass spectrometry 1052(2004)145

**2,4,6-trichloroanisole (TCA)**

Determination of chloroanisole compounds in red wine by headspace solid-phase microextraction and gas chromatography–mass spectrometry 1052(2004)145

**Two-phase affinity extraction**

Chitosan as a macroaffinity ligand. Purification of chitinases by affinity precipitation and aqueous two-phase extractions 1052(2004)85

**Ultraviolet**

Increasing UV detection sensitivity in the supercritical fluid chromatographic analysis of alcohol polyethers 1052(2004)161

**Uranium**

Separation and determination of lanthanides, thorium and uranium using a dual gradient in reversed-phase liquid chromatography 1052(2004)131

**Virgin olive oil**

Combining headspace gas chromatography with mass spectrometry detection for confirmation of hydrocarbon residues in virgin olive oil following automatic screening 1052(2004)137

**Volatiles**

Multiple headspace solid-phase microextraction of 2-cyclopentyl-cyclopentanone in polyamide 6.6: possibilities and limitations in the headspace analysis of solid hydrogen-bonding matrices 1052(2004)61

Correlation between emitted and total amount of 2-cyclopentyl-cyclopentanone in polyamide 6.6 allows rapid assessment by HS and HS-SPME under non-equilibrium conditions 1052(2004)151

#### **Wastewater treatment plants**

Simultaneous extraction and fate of linear alkylbenzene sulfonates, coconut diethanol amides, nonylphenol ethoxylates and their degradation products in wastewater treatment plants, receiving coastal waters and sediments in the Catalonian area (NE Spain) 1052(2004)111

#### **Water**

Ghost peaks in reversed-phase gradient HPLC: a review and update (Review) 1052(2004)1

#### **Water analysis**

Comparison of three derivatization ways in the separation of phenol and hydroquinone from water samples 1052(2004)233

#### **Wine**

Determination of chloroanisole compounds in red wine by headspace solid-phase microextraction and gas chromatography–mass spectrometry 1052(2004)145

Rapid liquid chromatography–ultraviolet determination of organic acids and phenolic compounds in red wine and must 1052(2004)211

#### **Xylene isomers**

Combining headspace gas chromatography with mass spectrometry detection for confirmation of hydrocarbon residues in virgin olive oil following automatic screening 1052(2004)137

#### **Zinc pyrithione**

Chromatographic behavior of pyrithiones 1052(2004)103
