

## Subject Index Vol. 1063

### ACE

Affinity capillary electrophoresis on microchips 1063(2005)217

### Acteoside

Isolation and purification of acteoside and isoacteoside from *Plantago psyllium* L. by high-speed counter-current chromatography 1063(2005)161

### Adsorption dynamics

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

### Adsorption isotherm

The effect of multi-component adsorption on selectivity in ion exchange displacement systems 1063(2005)15

### Affinity capillary electrophoresis

Affinity capillary electrophoresis on microchips 1063(2005)217

### Aliphatic aldehydes

Determination of aliphatic aldehydes by liquid chromatography with pulsed amperometric detection 1063(2005)129

### Aliphatic amines

6-Oxy-(*N*-succinimidyl acetate)-9-(2'-methoxycarbonyl)fluorescein as a new fluorescent labeling reagent for aliphatic amines in environmental and food samples using high-performance liquid chromatography 1063(2005)143

### Apple juice

Determination of 266 pesticide residues in apple juice by matrix solid-phase dispersion and gas chromatography–mass selective detection 1063(2005)201

### Arctiin

Application of preparative high-speed counter-current chromatography for separation and purification of arctiin from *Fructus Arctii* 1063(2005)247

### *Arctium lappa*

Application of preparative high-speed counter-current chromatography for separation and purification of arctiin from *Fructus Arctii* 1063(2005)247

### Ascorbic acid

Single-cell analysis by electrochemical detection with a microfluidic device 1063(2005)227

### Atropisomerism

Analytical strategies for successful enantioselective separation of atropisomeric polybrominated biphenyls 132 and 149 in environmental samples 1063(2005)193

### Beads

Polymer fractionation using chromatographic column packed with novel regenerated cellulose beads modified with silane 1063(2005)71

### Binding constant

Affinity capillary electrophoresis on microchips 1063(2005)217

### Bioconcentration factor

Modelling bioconcentration of pesticides in fish using biopartitioning micellar chromatography 1063(2005)153

### Biopartitioning micellar

Modelling bioconcentration of pesticides in fish using biopartitioning micellar chromatography 1063(2005)153

### Bovine serum albumin

Evaluation of nonlinear chromatographic performance by frontal analysis using a simple multi-plate mathematical model 1063(2005)47

### Caffeine

Evaluation of nonlinear chromatographic performance by frontal analysis using a simple multi-plate mathematical model 1063(2005)47

### Camptothecin

Comparison of techniques for the extraction of the anti-cancer drug camptothecin from *Nothapodytes foetida* 1063(2005)9

### Capillary electrophoresis

Affinity capillary electrophoresis on microchips 1063(2005)217

Electrophoretic separations of twelve phenothiazines and *N*-demethyl derivatives by using capillary zone electrophoresis and micellar electrokinetic chromatography with non ionic surfactant 1063(2005)235

### Carrier gas

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

### Chip

Affinity capillary electrophoresis on microchips 1063(2005)217

### Chiral furan derivatives

Separation of chiral furan derivatives by liquid chromatography using cyclodextrin-based chiral stationary phases 1063(2005)111

### Chiral separation

Separation of chiral furan derivatives by liquid chromatography using cyclodextrin-based chiral stationary phases 1063(2005)111

### Chiral stationary phase

Separation of chiral furan derivatives by liquid chromatography using cyclodextrin-based chiral stationary phases 1063(2005)111

2,3-Di-*O*-methoxymethyl-6-*O*-*tert*-butyldimethylsilyl- $\gamma$ -cyclodextrin: a new class of cyclodextrin derivatives for gas chromatographic separation of enantiomers 1063(2005)181

#### Counter-current chromatography

Application of preparative high-speed counter-current chromatography for separation and purification of arctiin from *Fructus Arctii* 1063(2005)247

#### Cyclodextrin

Separation of chiral furan derivatives by liquid chromatography using cyclodextrin-based chiral stationary phases 1063(2005)111

2,3-Di-*O*-methoxymethyl-6-*O*-*tert*-butyldimethylsilyl- $\gamma$ -cyclodextrin: a new class of cyclodextrin derivatives for gas chromatographic separation of enantiomers 1063(2005)181

Affinity capillary electrophoresis on microchips 1063(2005)217

#### Derivatization

6-Oxy-(*N*-succinimidyl acetate)-9-(2'-methoxycarbonyl)fluorescein as a new fluorescent labeling reagent for aliphatic amines in environmental and food samples using high-performance liquid chromatography 1063(2005)143

#### Derivatized cyclodextrins

Separation of chiral furan derivatives by liquid chromatography using cyclodextrin-based chiral stationary phases 1063(2005)111

#### Diesel

Characterization of lubricity improver additive in diesel by gas chromatography–mass spectrometry 1063(2005)211

#### Displacement chromatography

The effect of multi-component adsorption on selectivity in ion exchange displacement systems 1063(2005)15

#### Downstream processing

Using computer simulation to assist in the robustness analysis of an ion-exchange chromatography step 1063(2005)99

#### Dynamic simulation

Using computer simulation to assist in the robustness analysis of an ion-exchange chromatography step 1063(2005)99

#### Electrochemical detection

Determination of aliphatic aldehydes by liquid chromatography with pulsed amperometric detection 1063(2005)129

Single-cell analysis by electrochemical detection with a microfluidic device 1063(2005)227

#### Electrochemical fiber coating

Dodecylsulfate-doped polypyrrole film prepared by electrochemical fiber coating technique for headspace solid-phase microextraction of polycyclic aromatic hydrocarbons 1063(2005)1

#### Electrospray ionization (ESI)

Fully automated micro- and nanoscale one- or two-dimensional high-performance liquid chromatography system for liquid chromatography–mass spectrometry compatible with non-volatile salts for ion exchange chromatography 1063(2005)57

#### Enantiomers separation

2,3-Di-*O*-methoxymethyl-6-*O*-*tert*-butyldimethylsilyl- $\gamma$ -cyclodextrin: a new class of cyclodextrin derivatives for gas chromatographic separation of enantiomers 1063(2005)181

Analytical strategies for successful enantioselective separation of atropisomeric polybrominated biphenyls 132 and 149 in environmental samples 1063(2005)193

#### Enantioseparation

Separation of chiral furan derivatives by liquid chromatography using cyclodextrin-based chiral stationary phases 1063(2005)111

#### Epinephrine

Affinity capillary electrophoresis on microchips 1063(2005)217

#### Equilibrium-dispersive model

Evaluation of nonlinear chromatographic performance by frontal analysis using a simple multi-plate mathematical model 1063(2005)47

#### Ergun equation

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

#### Extraction methods

Comparison of techniques for the extraction of the anti-cancer drug camptothecin from *Nothapodytes foetida* 1063(2005)9

#### Factorial experiment design

Using computer simulation to assist in the robustness analysis of an ion-exchange chromatography step 1063(2005)99

#### 6'-*O*-Feruloylsucrose

High-performance liquid chromatographic determination of phenolic compounds in rice 1063(2005)121

#### Finite element method

Numerical simulation of two-phase partition chromatography in microchannels for moderated log *P* measurements 1063(2005)89

#### Firemaster BP-6<sup>®</sup>

Analytical strategies for successful enantioselective separation of atropisomeric polybrominated biphenyls 132 and 149 in environmental samples 1063(2005)193

#### Flame ionization detection

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

#### Flavonoids

Comparison of high-speed counter-current chromatography instruments for the separation of the extracts of the seeds of *Oroxylum indicum* 1063(2005)241

#### Food analysis

Determination of 266 pesticide residues in apple juice by matrix solid-phase dispersion and gas chromatography–mass selective detection 1063(2005)201

#### Frontal analysis

Evaluation of nonlinear chromatographic performance by frontal analysis using a simple multi-plate mathematical model 1063(2005)47

#### GC

2,3-Di-*O*-methoxymethyl-6-*O*-*tert*-butyldimethylsilyl- $\gamma$ -cyclodextrin: a new class of cyclodextrin derivatives for gas chromatographic separation of enantiomers 1063(2005)181

#### Germinated brown rice

High-performance liquid chromatographic determination of phenolic compounds in rice 1063(2005)121

**Gradient elution**

Limits of multi-linear gradient optimisation in reversed-phase liquid chromatography 1063(2005)79

**Headspace solid-phase microextraction**

Dodecylsulfate-doped polypyrrole film prepared by electrochemical fiber coating technique for headspace solid-phase microextraction of polycyclic aromatic hydrocarbons 1063(2005)1

**High-speed counter-current chromatography**

Comparison of high-speed counter-current chromatography instruments for the separation of the extracts of the seeds of *Oroxylum indicum* 1063(2005)241

**HSCCC**

Isolation and purification of acteoside and isoacteoside from *Plantago psyllium* L. by high-speed counter-current chromatography 1063(2005)161

**Hydrophobic valve**

Bias-free pneumatic sample injection in microchip electrophoresis 1063(2005)253

**Hydrophobicity**

Effect of ionization and the nature of the mobile phase in quantitative structure-retention relationship studies 1063(2005)25

**Ion exchange**

The effect of multi-component adsorption on selectivity in ion exchange displacement systems 1063(2005)15

Using computer simulation to assist in the robustness analysis of an ion-exchange chromatography step 1063(2005)99

**Ionizable compounds**

Effect of ionization and the nature of the mobile phase in quantitative structure-retention relationship studies 1063(2005)25

**Isoacteoside**

Isolation and purification of acteoside and isoacteoside from *Plantago psyllium* L. by high-speed counter-current chromatography 1063(2005)161

**Langmuir kinetic model**

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

**LC-APCI-MS**

Isolation and purification of acteoside and isoacteoside from *Plantago psyllium* L. by high-speed counter-current chromatography 1063(2005)161

**Limiting resolution**

Limits of multi-linear gradient optimisation in reversed-phase liquid chromatography 1063(2005)79

**Linoleic esters**

Characterization of lubricity improver additive in diesel by gas chromatography-mass spectrometry 1063(2005)211

**Liquid-liquid interface**

Numerical simulation of two-phase partition chromatography in microchannels for moderated log *P* measurements 1063(2005)89

**Lubricity improver additive**

Characterization of lubricity improver additive in diesel by gas chromatography-mass spectrometry 1063(2005)211

**Mass spectrometry (MS)**

Fully automated micro- and nanoscale one- or two-dimensional high-performance liquid chromatography system for liquid chromatography-mass spectrometry compatible with non-volatile salts for ion exchange chromatography 1063(2005)57

Erratum to "Fully automated online multi-dimensional protein profiling system for complex mixtures". [J. Chromatogr. A 1057 (2004) 107-113] 1063(2005)257

**Matrix solid-phase dispersion**

Determination of 266 pesticide residues in apple juice by matrix solid-phase dispersion and gas chromatography-mass selective detection 1063(2005)201

**MEKC**

Electrophoretic separations of twelve phenothiazines and N-demethyl derivatives by using capillary zone electrophoresis and micellar electrokinetic chromatography with non ionic surfactant 1063(2005)235

**Membrane affinity chromatography**

Evaluation of nonlinear chromatographic performance by frontal analysis using a simple multi-plate mathematical model 1063(2005)47

**9-Methoxycamptothecin**

Comparison of techniques for the extraction of the anti-cancer drug camptothecin from *Nothapodytes foetida* 1063(2005)9

**Methoxymethyl side-chain**

2,3-Di-*O*-methoxymethyl-6-*O*-*tert*-butyldimethylsilyl- $\gamma$ -cyclodextrin: a new class of cyclodextrin derivatives for gas chromatographic separation of enantiomers 1063(2005)181

**Micellar liquid chromatography**

Effect of ionization and the nature of the mobile phase in quantitative structure-retention relationship studies 1063(2005)25

**Microchannel**

Numerical simulation of two-phase partition chromatography in microchannels for moderated log *P* measurements 1063(2005)89

**Microchip**

Affinity capillary electrophoresis on microchips 1063(2005)217

**Microchip electrophoresis**

Bias-free pneumatic sample injection in microchip electrophoresis 1063(2005)253

**Microfluidic chip**

Single-cell analysis by electrochemical detection with a microfluidic device 1063(2005)227

**Modified cyclodextrins**

Analytical strategies for successful enantioselective separation of atropisomeric polybrominated biphenyls 132 and 149 in environmental samples 1063(2005)193

**Multi-component adsorption**

The effect of multi-component adsorption on selectivity in ion exchange displacement systems 1063(2005)15

**Multi-dimensional chromatography**

Erratum to "Fully automated online multi-dimensional protein profiling system for complex mixtures". [J. Chromatogr. A 1057 (2004) 107-113] 1063(2005)257

**Multi-linear gradients**

Limits of multi-linear gradient optimisation in reversed-phase liquid chromatography 1063(2005)79

**Multi-plate model**

Evaluation of nonlinear chromatographic performance by frontal analysis using a simple multi-plate mathematical model 1063(2005)47

**Neurotransmitter**

Affinity capillary electrophoresis on microchips 1063(2005)217

**NMR**

Isolation and purification of acteoside and isoacteoside from *Plantago psyllium* L. by high-speed counter-current chromatography 1063(2005)161

**Non ionic surfactant**

Electrophoretic separations of twelve phenothiazines and N-demethyl derivatives by using capillary zone electrophoresis and micellar electrokinetic chromatography with non ionic surfactant 1063(2005)235

**Nonlinear chromatography**

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

**Nothapodytes foetida**

Comparison of techniques for the extraction of the anti-cancer drug camptothecin from *Nothapodytes foetida* 1063(2005)9

**Numerical model**

Numerical simulation of two-phase partition chromatography in micro-channels for moderated log *P* measurements 1063(2005)89

**Octanol–water partition coefficient**

Effect of ionization and the nature of the mobile phase in quantitative structure-retention relationship studies 1063(2005)25

**Oroxylum indicum**

Comparison of high-speed counter-current chromatography instruments for the separation of the extracts of the seeds of *Oroxylum indicum* 1063(2005)241

**6-Oxy-(*N*-succinimidyl acetate)-9-(2'-methoxycarbonyl)fluorescein (SAMF)**

6-Oxy-(*N*-succinimidyl acetate)-9-(2'-methoxycarbonyl)fluorescein as a new fluorescent labeling reagent for aliphatic amines in environmental and food samples using high-performance liquid chromatography 1063(2005)143

**Partition chromatography**

Numerical simulation of two-phase partition chromatography in micro-channels for moderated log *P* measurements 1063(2005)89

**Peak asymmetry**

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

**Peak purity**

Limits of multi-linear gradient optimisation in reversed-phase liquid chromatography 1063(2005)79

**Pesticides**

Determination of 266 pesticide residues in apple juice by matrix solid-phase dispersion and gas chromatography–mass selective detection 1063(2005)201

**Pesticides fish bioaccumulation**

Modelling bioconcentration of pesticides in fish using biopartitioning micellar chromatography 1063(2005)153

**Phenolic compounds**

High-performance liquid chromatographic determination of phenolic compounds in rice 1063(2005)121

**Phenothiazine**

Electrophoretic separations of twelve phenothiazines and N-demethyl derivatives by using capillary zone electrophoresis and micellar electrokinetic chromatography with non ionic surfactant 1063(2005)235

**Phenylethanoid glycoside**

Isolation and purification of acteoside and isoacteoside from *Plantago psyllium* L. by high-speed counter-current chromatography 1063(2005)161

***Plantago psyllium***

Isolation and purification of acteoside and isoacteoside from *Plantago psyllium* L. by high-speed counter-current chromatography 1063(2005)161

**Pneumatic sample injection**

Bias-free pneumatic sample injection in microchip electrophoresis 1063(2005)253

**Polybrominated biphenyls**

Analytical strategies for successful enantioselective separation of atropisomeric polybrominated biphenyls 132 and 149 in environmental samples 1063(2005)193

**Polycyclic aromatic hydrocarbons**

Dodecylsulfate-doped polypyrrole film prepared by electrochemical fiber coating technique for headspace solid-phase microextraction of polycyclic aromatic hydrocarbons 1063(2005)1

**Polypyrrole film**

Dodecylsulfate-doped polypyrrole film prepared by electrochemical fiber coating technique for headspace solid-phase microextraction of polycyclic aromatic hydrocarbons 1063(2005)1

**Preparative chromatography**

Application of preparative high-speed counter-current chromatography for separation and purification of arctiin from *Fructus Arctii* 1063(2005)247

**Preparative SEC**

Polymer fractionation using chromatographic column packed with novel regenerated cellulose beads modified with silane 1063(2005)71

**Proteasome**

Erratum to “Fully automated online multi-dimensional protein profiling system for complex mixtures”. [J. Chromatogr. A 1057 (2004) 107–113] 1063(2005)257

**Protein profiling**

Erratum to “Fully automated online multi-dimensional protein profiling system for complex mixtures”. [J. Chromatogr. A 1057 (2004) 107–113] 1063(2005)257

**Proteomics**

Fully automated micro- and nanoscale one- or two-dimensional high-performance liquid chromatography system for liquid chromatography–mass spectrometry compatible with non-volatile salts for ion exchange chromatography 1063(2005)57

Erratum to “Fully automated online multi-dimensional protein profiling system for complex mixtures”. [J. Chromatogr. A 1057 (2004) 107–113] 1063(2005)257

**Regenerated cellulose**

Polymer fractionation using chromatographic column packed with novel regenerated cellulose beads modified with silane 1063(2005)71

**Regression analysis**

Determination of aliphatic aldehydes by liquid chromatography with pulsed amperometric detection 1063(2005)129

**Retention theory**

The combined effect of silanols and the reversed-phase ligand on the retention of positively charged analytes 1063(2005)35

**Reversed-phase chromatography**

The combined effect of silanols and the reversed-phase ligand on the retention of positively charged analytes 1063(2005)35

**Reversed-phase liquid chromatography**

Evaluation of nonlinear chromatographic performance by frontal analysis using a simple multi-plate mathematical model 1063(2005)47

**Rice**

High-performance liquid chromatographic determination of phenolic compounds in rice 1063(2005)121

**Robustness analysis**

Using computer simulation to assist in the robustness analysis of an ion-exchange chromatography step 1063(2005)99

**Sampling bias**

Bias-free pneumatic sample injection in microchip electrophoresis 1063(2005)253

**Selectivity**

The effect of multi-component adsorption on selectivity in ion exchange displacement systems 1063(2005)15

**Signal amplification**

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

**Silane modification**

Polymer fractionation using chromatographic column packed with novel regenerated cellulose beads modified with silane 1063(2005)71

**Silanol activity**

The combined effect of silanols and the reversed-phase ligand on the retention of positively charged analytes 1063(2005)35

**Silanols**

The combined effect of silanols and the reversed-phase ligand on the retention of positively charged analytes 1063(2005)35

**Simulation**

Numerical simulation of two-phase partition chromatography in micro-channels for moderated log *P* measurements 1063(2005)89

Using computer simulation to assist in the robustness analysis of an ion-exchange chromatography step 1063(2005)99

**6'-*O*-Sinapoylsucrose**

High-performance liquid chromatographic determination of phenolic compounds in rice 1063(2005)121

**Single-cell analysis**

Single-cell analysis by electrochemical detection with a microfluidic device 1063(2005)227

**Solid-phase extraction**

High-performance liquid chromatographic determination of phenolic compounds in rice 1063(2005)121

Application of solid-phase extraction to quantitatively determine cyproconazole and tebuconazole in treated wood using liquid chromatography with UV detection 1063(2005)137

**Sorption effect**

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

**Steric mass action**

Using computer simulation to assist in the robustness analysis of an ion-exchange chromatography step 1063(2005)99

**Thermal conductivity detection**

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

**Thomas model**

Evaluation of nonlinear chromatographic performance by frontal analysis using a simple multi-plate mathematical model 1063(2005)47

**Two-dimensional high performance liquid chromatography (2D-HPLC)**

Fully automated micro- and nanoscale one- or two-dimensional high-performance liquid chromatography system for liquid chromatography-mass spectrometry compatible with non-volatile salts for ion exchange chromatography 1063(2005)57

**Ultraviolet absorbance detection**

Cosorption effect in gas chromatography: flow fluctuations caused by adsorbing carrier gases 1063(2005)171

**Water pollutant analysis**

Dodecylsulfate-doped polypyrrole film prepared by electrochemical fiber coating technique for headspace solid-phase microextraction of polycyclic aromatic hydrocarbons 1063(2005)1

**Wheat callus cell**

Single-cell analysis by electrochemical detection with a microfluidic device 1063(2005)227

**White-tailed sea eagle egg**

Analytical strategies for successful enantioselective separation of atropisomeric polybrominated biphenyls 132 and 149 in environmental samples 1063(2005)193

**Wood**

Application of solid-phase extraction to quantitatively determine cyproconazole and tebuconazole in treated wood using liquid chromatography with UV detection 1063(2005)137
