

## Subject Index Vol. 1075

### **Abscisic acid**

Purification and determination of plant hormones auxin and abscisic acid using solid phase extraction and two-dimensional high performance liquid chromatography 1075(2005)159

### **Acrylamide**

Occurrence and analytical methods of acrylamide in heat-treated foods. Review and recent developments (Review) 1075(2005)1

### **Adsorption**

Influence of the pressure on the properties of chromatographic columns. III. Retention volume of thiourea, hold-up volume, and compressibility of the C<sub>18</sub>-bonded layer 1075(2005)117

### **Alkaline protease**

One-step purification and characterization of an alkaline protease from haloalkaliphilic *Bacillus* sp. 1075(2005)103

### **Aminoacidic composition**

Is it possible to predict the average surface hydrophobicity of a protein using only its amino acid composition? 1075(2005)133

### **Analysis of high-boiling compounds**

Ultra-short open capillary columns in gas–liquid chromatography 1075(2005)197

### **Analysis of thermolabile compounds**

Ultra-short open capillary columns in gas–liquid chromatography 1075(2005)197

### **Analytical methods**

Occurrence and analytical methods of acrylamide in heat-treated foods. Review and recent developments (Review) 1075(2005)1

### **Anions**

Fast ion chromatography of inorganic anions and cations on a lysine bonded porous silica monolith 1075(2005)167

### **1-Anthroylnitrile**

Analysis of T-2 and HT-2 toxins in cereal grains by immunoaffinity clean-up and liquid chromatography with fluorescence detection 1075(2005)151

### **Aqueous two-phase system**

Two-step recovery process for tryptophan tagged cutinase: Interfacing aqueous two-phase extraction and hydrophobic interaction chromatography 1075(2005)33

### **Auxin**

Purification and determination of plant hormones auxin and abscisic acid using solid phase extraction and two-dimensional high performance liquid chromatography 1075(2005)159

### ***Bacillus* sp.**

One-step purification and characterization of an alkaline protease from haloalkaliphilic *Bacillus* sp. 1075(2005)103

### **Basic drugs**

Study of overloading of basic drugs and peptides in reversed-phase high-performance liquid chromatography using pH adjustment of weak acid mobile phases suitable for mass spectrometry 1075(2005)57

### **Biocatalysis**

Development and validation of a microsomal online cytochrome P450 bioreactor coupled to solid-phase extraction and reversed-phase liquid chromatography 1075(2005)205

### **Biofluids**

Stir bar sorptive extraction based on restricted access material for the direct extraction of caffeine and metabolites in biological fluids 1075(2005)43

### **Biological matrix extraction**

Complexities in tetracycline analysis—chemistry, matrix extraction, cleanup, and liquid chromatography (Review) 1075(2005)23

### **Caffeine**

Stir bar sorptive extraction based on restricted access material for the direct extraction of caffeine and metabolites in biological fluids 1075(2005)43

### **Capillary gas chromatography**

Ultra-short open capillary columns in gas–liquid chromatography 1075(2005)197

### **Carrier gas velocity**

Ultra-short open capillary columns in gas–liquid chromatography 1075(2005)197

### **Cations**

Fast ion chromatography of inorganic anions and cations on a lysine bonded porous silica monolith 1075(2005)167

### **Cereals**

Analysis of T-2 and HT-2 toxins in cereal grains by immunoaffinity clean-up and liquid chromatography with fluorescence detection 1075(2005)151

### **CHIRALPAK® IA**

Solvent versatility of immobilized 3,5-dimethylphenylcarbamate of amylose in enantiomeric separations by HPLC 1075(2005)65

### **Chromatography**

Complexities in tetracycline analysis—chemistry, matrix extraction, cleanup, and liquid chromatography (Review) 1075(2005)23

Studies of complex reactions using modern hyphenated methods:  $\alpha$ -Pinene ozonolysis as a model reaction 1075(2005)185

#### **Cleavable linker**

Characterisation of glycoprotein ligands synthesised using solid-phase combinatorial chemistry 1075(2005)95

#### **Clodinafop**

Erratum to "Liquid chromatographic method for the micro-quantitative determination of clodinafop in soil, wheat and *Phalaris minor*" [J. Chromatogr. A 1065 (2005) 199–206] 1075(2005)217

#### **Column liquid chromatography**

Separation of amino acids with simulated moving bed chromatography 1075(2005)77

#### **Column selectivity**

Comparative characteristics of HPLC columns based on quantitative structure–retention relationships (QSRR) and hydrophobic-subtraction model 1075(2005)109

#### **Counter-current chromatography**

Isolation and purification of four flavonoid constituents from the flowers of *Paeonia suffruticosa* by high-speed counter-current chromatography 1075(2005)127

#### **Cutinase**

Two-step recovery process for tryptophan tagged cutinase: Interfacing aqueous two-phase extraction and hydrophobic interaction chromatography 1075(2005)33

#### **Cytochrome P450**

Development and validation of a microsomal online cytochrome P450 bioreactor coupled to solid-phase extraction and reversed-phase liquid chromatography 1075(2005)205

#### **3,5-Dimethylphenylcarbamate of amylose**

Solvent versatility of immobilized 3,5-dimethylphenylcarbamate of amylose in enantiomeric separations by HPLC 1075(2005)65

#### **Direct extraction**

Stir bar sorptive extraction based on restricted access material for the direct extraction of caffeine and metabolites in biological fluids 1075(2005)43

#### **Drug metabolism**

Development and validation of a microsomal online cytochrome P450 bioreactor coupled to solid-phase extraction and reversed-phase liquid chromatography 1075(2005)205

#### **Effect of temperature**

Separation of amino acids with simulated moving bed chromatography 1075(2005)77

#### **Efficiency**

Ultra-short open capillary columns in gas–liquid chromatography 1075(2005)197

#### **Enantiomeric separation**

Solvent versatility of immobilized 3,5-dimethylphenylcarbamate of amylose in enantiomeric separations by HPLC 1075(2005)65

#### **Escherichia coli**

Two-step recovery process for tryptophan tagged cutinase: Interfacing aqueous two-phase extraction and hydrophobic interaction chromatography 1075(2005)33

#### **Extraction**

Two-step recovery process for tryptophan tagged cutinase: Interfacing aqueous two-phase extraction and hydrophobic interaction chromatography 1075(2005)33

#### **Fast separation**

Rapid molecular weight analysis of polymers by temperature gradient interaction chromatography 1075(2005)145

#### **Flavonoids**

Isolation and purification of four flavonoid constituents from the flowers of *Paeonia suffruticosa* by high-speed counter-current chromatography 1075(2005)127

#### **Fluorescence labelling**

Analysis of T-2 and HT-2 toxins in cereal grains by immunoaffinity clean-up and liquid chromatography with fluorescence detection 1075(2005)151

#### **Food analysis**

Analysis of T-2 and HT-2 toxins in cereal grains by immunoaffinity clean-up and liquid chromatography with fluorescence detection 1075(2005)151

#### **GC–MS**

Occurrence and analytical methods of acrylamide in heat-treated foods. Review and recent developments (Review) 1075(2005)1

#### **Gel-phase NMR**

Characterisation of glycoprotein ligands synthesised using solid-phase combinatorial chemistry 1075(2005)95

#### **Glycoprotein**

Characterisation of glycoprotein ligands synthesised using solid-phase combinatorial chemistry 1075(2005)95

#### **Haloalkaliphilic**

One-step purification and characterization of an alkaline protease from haloalkaliphilic *Bacillus* sp. 1075(2005)103

#### **Heat-treated foods**

Occurrence and analytical methods of acrylamide in heat-treated foods. Review and recent developments (Review) 1075(2005)1

#### **Highly aqueous mobile phases**

Mechanism of retention loss when  $C_8$  and  $C_{18}$  HPLC columns are used with highly aqueous mobile phases 1075(2005)177

#### **HPLC**

Study of overloading of basic drugs and peptides in reversed-phase high-performance liquid chromatography using pH adjustment of weak acid mobile phases suitable for mass spectrometry 1075(2005)57

Solvent versatility of immobilized 3,5-dimethylphenylcarbamate of amylose in enantiomeric separations by HPLC 1075(2005)65

Mechanism of retention loss when  $C_8$  and  $C_{18}$  HPLC columns are used with highly aqueous mobile phases 1075(2005)177

#### **2D-HPLC**

Purification and determination of plant hormones auxin and abscisic acid using solid phase extraction and two-dimensional high performance liquid chromatography 1075(2005)159

**HPLC–mass spectrometry**

Study of overloading of basic drugs and peptides in reversed-phase high-performance liquid chromatography using pH adjustment of weak acid mobile phases suitable for mass spectrometry 1075(2005)57

**HT-2 toxin**

Analysis of T-2 and HT-2 toxins in cereal grains by immunoaffinity clean-up and liquid chromatography with fluorescence detection 1075(2005)151

**Hydrophilic hypercrosslinked sorbent**

Evaluation of a new hypercrosslinked polymer as a sorbent for solid-phase extraction of polar compounds 1075(2005)51

**Hydrophobic interaction chromatography**

Two-step recovery process for tryptophan tagged cutinase: Interfacing aqueous two-phase extraction and hydrophobic interaction chromatography 1075(2005)33

One-step purification and characterization of an alkaline protease from haloalkaliphilic *Bacillus* sp. 1075(2005)103

**Hydrophobicity**

Is it possible to predict the average surface hydrophobicity of a protein using only its amino acid composition? 1075(2005)133

**Hyphenated techniques**

Studies of complex reactions using modern hyphenated methods:  $\alpha$ -Pinene ozonolysis as a model reaction 1075(2005)185

**Immobilization**

High-performance liquid chromatographic stationary phases based on poly(dimethylsiloxane) immobilized on silica 1075(2005)87

**Immobilized polysaccharide-based chiral stationary phase**

Solvent versatility of immobilized 3,5-dimethylphenylcarbamate of amylose in enantiomeric separations by HPLC 1075(2005)65

**Immunoaffinity column**

Analysis of T-2 and HT-2 toxins in cereal grains by immunoaffinity clean-up and liquid chromatography with fluorescence detection 1075(2005)151

**Infrared spectroscopy**

Studies of complex reactions using modern hyphenated methods:  $\alpha$ -Pinene ozonolysis as a model reaction 1075(2005)185

**Ion chromatography**

Fast ion chromatography of inorganic anions and cations on a lysine bonded porous silica monolith 1075(2005)167

**Isothermal liquid compressibility**

Influence of the pressure on the properties of chromatographic columns. III. Retention volume of thiourea, hold-up volume, and compressibility of the C<sub>18</sub>-bonded layer 1075(2005)117

**LC–MS/MS**

Occurrence and analytical methods of acrylamide in heat-treated foods. Review and recent developments (Review) 1075(2005)1

**Lysine**

Fast ion chromatography of inorganic anions and cations on a lysine bonded porous silica monolith 1075(2005)167

**Mass spectrometry**

Studies of complex reactions using modern hyphenated methods:  $\alpha$ -Pinene ozonolysis as a model reaction 1075(2005)185

**Mathematical modeling**

Is it possible to predict the average surface hydrophobicity of a protein using only its amino acid composition? 1075(2005)133

**Mechanism of retention**

Comparative characteristics of HPLC columns based on quantitative structure–retention relationships (QSRR) and hydrophobic-subtraction model 1075(2005)109

**Metabolic profiling**

Development and validation of a microsomal online cytochrome P450 bioreactor coupled to solid-phase extraction and reversed-phase liquid chromatography 1075(2005)205

**Metabolites**

Stir bar sorptive extraction based on restricted access material for the direct extraction of caffeine and metabolites in biological fluids 1075(2005)43

**Methanol–water mixture**

Influence of the pressure on the properties of chromatographic columns. III. Retention volume of thiourea, hold-up volume, and compressibility of the C<sub>18</sub>-bonded layer 1075(2005)117

**Monolithic silica**

Fast ion chromatography of inorganic anions and cations on a lysine bonded porous silica monolith 1075(2005)167

**Neural network**

Is it possible to predict the average surface hydrophobicity of a protein using only its amino acid composition? 1075(2005)133

**Non-standard mobile phases**

Solvent versatility of immobilized 3,5-dimethylphenylcarbamate of amylose in enantiomeric separations by HPLC 1075(2005)65

**Occurrence**

Occurrence and analytical methods of acrylamide in heat-treated foods. Review and recent developments (Review) 1075(2005)1

**Online bioreactor**

Development and validation of a microsomal online cytochrome P450 bioreactor coupled to solid-phase extraction and reversed-phase liquid chromatography 1075(2005)205

**Overloading**

Study of overloading of basic drugs and peptides in reversed-phase high-performance liquid chromatography using pH adjustment of weak acid mobile phases suitable for mass spectrometry 1075(2005)57

***Paeonia suffruticosa***

Isolation and purification of four flavonoid constituents from the flowers of *Paeonia suffruticosa* by high-speed counter-current chromatography 1075(2005)127

**Peptides**

Study of overloading of basic drugs and peptides in reversed-phase high-performance liquid chromatography using pH adjustment of weak acid mobile phases suitable for mass spectrometry 1075(2005)57

***Phalaris minor***

Erratum to “Liquid chromatographic method for the micro-quantitative determination of clodinafop in soil, wheat and *Phalaris minor*” [J. Chromatogr. A 1065 (2005) 199–206] 1075(2005)217

**Plant materials**

Isolation and purification of four flavonoid constituents from the flowers of *Paeonia suffruticosa* by high-speed counter-current chromatography 1075(2005)127

**Polar pollutants**

Evaluation of a new hypercrosslinked polymer as a sorbent for solid-phase extraction of polar compounds 1075(2005)51

**Poly(dimethylsiloxane)**

High-performance liquid chromatographic stationary phases based on poly(dimethylsiloxane) immobilized on silica 1075(2005)87

**Polystyrene**

Rapid molecular weight analysis of polymers by temperature gradient interaction chromatography 1075(2005)145

**Pressure effects**

Influence of the pressure on the properties of chromatographic columns. III. Retention volume of thiourea, hold-up volume, and compressibility of the C<sub>18</sub>-bonded layer 1075(2005)117

**Principal component analysis (PCA)**

Comparative characteristics of HPLC columns based on quantitative structure–retention relationships (QSRR) and hydrophobic-subtraction model 1075(2005)109

**Protein hydrophobicity prediction**

Is it possible to predict the average surface hydrophobicity of a protein using only its amino acid composition? 1075(2005)133

**Protein purification**

One-step purification and characterization of an alkaline protease from haloalkaliphilic *Bacillus* sp. 1075(2005)103

**Proteins**

Is it possible to predict the average surface hydrophobicity of a protein using only its amino acid composition? 1075(2005)133

**Quantitative structure–retention relationships (QSRR)**

Comparative characteristics of HPLC columns based on quantitative structure–retention relationships (QSRR) and hydrophobic-subtraction model 1075(2005)109

**Recovery**

Erratum to “Liquid chromatographic method for the micro-quantitative determination of clodinafop in soil, wheat and *Phalaris minor*” [J. Chromatogr. A 1065 (2005) 199–206] 1075(2005)217

**Residue**

Erratum to “Liquid chromatographic method for the micro-quantitative determination of clodinafop in soil, wheat and *Phalaris minor*” [J. Chromatogr. A 1065 (2005) 199–206] 1075(2005)217

**Resolve**

Influence of the pressure on the properties of chromatographic columns. III. Retention volume of thiourea, hold-up volume, and compressibility of the C<sub>18</sub>-bonded layer 1075(2005)117

**Restricted access materials (RAM)**

Stir bar sorptive extraction based on restricted access material for the direct extraction of caffeine and metabolites in biological fluids 1075(2005)43

**Retention loss**

Mechanism of retention loss when C<sub>8</sub> and C<sub>18</sub> HPLC columns are used with highly aqueous mobile phases 1075(2005)177

**Reversed phase polymeric resin**

Separation of amino acids with simulated moving bed chromatography 1075(2005)77

**Reversed-phase**

High-performance liquid chromatographic stationary phases based on poly(dimethylsiloxane) immobilized on silica 1075(2005)87

Mechanism of retention loss when C<sub>8</sub> and C<sub>18</sub> HPLC columns are used with highly aqueous mobile phases 1075(2005)177

**Reviews**

Occurrence and analytical methods of acrylamide in heat-treated foods. Review and recent developments (Review) 1075(2005)1

**RP-HPLC columns**

Comparative characteristics of HPLC columns based on quantitative structure–retention relationships (QSRR) and hydrophobic-subtraction model 1075(2005)109

**Short and ultra-short open capillary columns**

Ultra-short open capillary columns in gas–liquid chromatography 1075(2005)197

**Silica column**

Influence of the pressure on the properties of chromatographic columns. III. Retention volume of thiourea, hold-up volume, and compressibility of the C<sub>18</sub>-bonded layer 1075(2005)117

**Sinomenine**

Supercritical fluid extraction of sinomenine from *Sinomenium acutum* (Thumb) Rehd et Wils 1075(2005)213

***Sinomenium acutum* (Thumb) Rehd et Wils**

Supercritical fluid extraction of sinomenine from *Sinomenium acutum* (Thumb) Rehd et Wils 1075(2005)213

**Soil**

Erratum to “Liquid chromatographic method for the micro-quantitative determination of clodinafop in soil, wheat and *Phalaris minor*” [J. Chromatogr. A 1065 (2005) 199–206] 1075(2005)217

**Solid phase extraction**

Evaluation of a new hypercrosslinked polymer as a sorbent for solid-phase extraction of polar compounds 1075(2005)51

Purification and determination of plant hormones auxin and abscisic acid using solid phase extraction and two-dimensional high performance liquid chromatography 1075(2005)159

**Solid-phase combinatorial chemistry**

Characterisation of glycoprotein ligands synthesised using solid-phase combinatorial chemistry 1075(2005)95

**Stability**

High-performance liquid chromatographic stationary phases based on poly(dimethylsiloxane) immobilized on silica 1075(2005)87

**Stir bar sorptive extraction (SBSE)**

Stir bar sorptive extraction based on restricted access material for the direct extraction of caffeine and metabolites in biological fluids 1075(2005)43

**Supercritical fluid extraction**

Supercritical fluid extraction of sinomenine from *Sinomenium acutum* (Thumb) Rehd et Wils 1075(2005)213

**Surfactant stability**

One-step purification and characterization of an alkaline protease from haloalkaliphilic *Bacillus* sp. 1075(2005)103

**T-2 toxin**

Analysis of T-2 and HT-2 toxins in cereal grains by immunoaffinity clean-up and liquid chromatography with fluorescence detection 1075(2005)151

**Temperature gradient interaction chromatography (TGIC)**

Rapid molecular weight analysis of polymers by temperature gradient interaction chromatography 1075(2005)145

**Tetracycline antibiotics**

Complexities in tetracycline analysis—chemistry, matrix extraction, cleanup, and liquid chromatography (Review) 1075(2005)23

**Thiourea**

Influence of the pressure on the properties of chromatographic columns. III. Retention volume of thiourea, hold-up volume, and compressibility of the C<sub>18</sub>-bonded layer 1075(2005)117

**Three-zone simulated moving bed**

Separation of amino acids with simulated moving bed chromatography 1075(2005)77

**Water analysis**

Evaluation of a new hypercrosslinked polymer as a sorbent for solid-phase extraction of polar compounds 1075(2005)51

**Wheat**

Erratum to "Liquid chromatographic method for the micro-quantitative determination of clodinafop in soil, wheat and *Phalaris minor*" [J. Chromatogr. A 1065 (2005) 199–206] 1075(2005)217
