

## Subject Index Vol. 1077

### Acetonitrile–water mixtures

Effect of temperature on the chromatographic retention of ionizable compounds. II. Acetonitrile–water mobile phases 1077(2005)159

### Acid–base equilibria

Effect of temperature on the chromatographic retention of ionizable compounds. II. Acetonitrile–water mobile phases 1077(2005)159

### Acrylamide

Determination of acrylamide and methacrylamide by normal phase high performance liquid chromatography and UV detection 1077(2005)128

### Acrylic acid

Determination of acrylamide and methacrylamide by normal phase high performance liquid chromatography and UV detection 1077(2005)128

### Adsorption isotherms

Determination of partition behavior of organic surrogates between paperboard packaging materials and air 1077(2005)74

### Alcohols

Experimental determination and calculation of distribution coefficients between air and fiber with polydimethylsiloxane coating for some groups of organic compounds 1077(2005)195

### Aminopropyl column

Analysis of sialyl oligosaccharides by high-performance liquid chromatography-electrospray ionisation-mass spectrometry with differentiation of  $\alpha$ 2-3 and  $\alpha$ 2-6 sialyl linkages 1077(2005)136

### Anthraquinones

High-performance thin layer chromatography method for quantitative determination of four major anthraquinone derivatives in *Rheum emodi* 1077(2005)202

### Aromatic hydrocarbons

Experimental determination and calculation of distribution coefficients between air and fiber with polydimethylsiloxane coating for some groups of organic compounds 1077(2005)195

### Artistic

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

### Astilbin

Purification of astilbin and isoastilbin in the extract of *Smilax glabra* rhizome by high-speed counter-current chromatography 1077(2005)98

### Automated solid-phase extraction

Automated solid-phase extraction and high-performance liquid chromatographic determination of nitrosamines using post-column photolysis and tris(2,2'-bipyridyl) ruthenium(III) chemiluminescence 1077(2005)49

### Baby food

Analysis of semicarbazide in baby food by liquid chromatography tandem mass spectrometry (LC–MS–MS)—In-house method validation 1077(2005)151

### Band broadening

A first principles explanation for the experimentally observed increase in A-term band broadening in small domain silica monoliths and other chromatographic supports 1077(2005)28

### Bathing waters

Determination of UV-filter residues in bathing waters by liquid chromatography UV-diode array and gas chromatography–mass spectrometry after micelle mediated extraction-solvent back extraction 1077(2005)19

### Bed voidage

Variations of particle size and bed voidage distributions in expanded bed during transient operation processes 1077(2005)143

### tris(2,2'-Bipyridyl)ruthenium(III) photo-generated

Automated solid-phase extraction and high-performance liquid chromatographic determination of nitrosamines using post-column photolysis and tris(2,2'-bipyridyl) ruthenium(III) chemiluminescence 1077(2005)49

### Binding media

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

### Bovine colostrum

Analysis of sialyl oligosaccharides by high-performance liquid chromatography-electrospray ionisation-mass spectrometry with differentiation of  $\alpha$ 2-3 and  $\alpha$ 2-6 sialyl linkages 1077(2005)136

### Brazilein

Development and optimization of a method for the analysis of Brazilein by HPLC with electrochemical detection 1077(2005)44

### Caesalpinia sappan L.

Development and optimization of a method for the analysis of Brazilein by HPLC with electrochemical detection 1077(2005)44

### Calculation

Experimental determination and calculation of distribution coefficients between air and fiber with polydimethylsiloxane coating for some groups of organic compounds 1077(2005)195

**Capillary electrophoresis**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

Determination of ephedrine alkaloid stereoisomers in dietary supplements by capillary electrophoresis 1077(2005)90

**Catechins**

Separation of eight selected flavan-3-ols on cellulose thin-layer chromatographic plates 1077(2005)188

**Cell culture**

Determination of total ribonucleotide pool in plant materials by high-pH anion-exchange high-performance liquid chromatography following extraction with potassium hydroxide 1077(2005)120

**Cellulose HPTLC plates**

Separation of eight selected flavan-3-ols on cellulose thin-layer chromatographic plates 1077(2005)188

**Chemi-luminescence detection**

Automated solid-phase extraction and high-performance liquid chromatographic determination of nitrosamines using post-column photolysis and tris(2,2'-bipyridyl) ruthenium(III) chemiluminescence 1077(2005)49

**Chrysophanol glycoside**

High-performance thin layer chromatography method for quantitative determination of four major anthraquinone derivatives in *Rheum emodi* 1077(2005)202

**Chrysophanol**

High-performance thin layer chromatography method for quantitative determination of four major anthraquinone derivatives in *Rheum emodi* 1077(2005)202

**Closed loop stripping analysis**

Determination of chlorinated toluenes in raw and treated water samples from the Llobregat river by closed loop stripping analysis and gas chromatography-mass spectrometry detection 1077(2005)68

**Cloud point extraction**

Determination of UV-filter residues in bathing waters by liquid chromatography UV-diode array and gas chromatography-mass spectrometry after micelle mediated extraction-solvent back extraction 1077(2005)19

**Computational fluid dynamics**

A first principles explanation for the experimentally observed increase in A-term band broadening in small domain silica monoliths and other chromatographic supports 1077(2005)28

**Counter-current chromatography**

Purification of astilbin and isoastilbin in the extract of *smilax glabra* rhizome by high-speed counter-current chromatography 1077(2005)98

**Diene acetates**

Location of double bonds in diene and triene acetates by partial reduction followed by methylthiolation 1077(2005)57

**Distribution coefficients**

Experimental determination and calculation of distribution coefficients between air and fiber with polydimethylsiloxane coating for some groups of organic compounds 1077(2005)195

**DMDS derivatives**

Location of double bonds in diene and triene acetates by partial reduction followed by methylthiolation 1077(2005)57

**Domain size**

A first principles explanation for the experimentally observed increase in A-term band broadening in small domain silica monoliths and other chromatographic supports 1077(2005)28

**Double bond**

Location of double bonds in diene and triene acetates by partial reduction followed by methylthiolation 1077(2005)57

**Dwell volume**

A practical approach to transferring linear gradient elution methods 1077(2005)110

**EDDS**

Determination of [*S,S'*]-ethylenediamine disuccinic acid (EDDS) by high performance liquid chromatography after derivatization with FMOc 1077(2005)37

**Electrochemical detection**

Development and optimization of a method for the analysis of Brazilin by HPLC with electrochemical detection 1077(2005)44

**Emodin**

High-performance thin layer chromatography method for quantitative determination of four major anthraquinone derivatives in *Rheum emodi* 1077(2005)202

**Ephedrine**

Determination of ephedrine alkaloid stereoisomers in dietary supplements by capillary electrophoresis 1077(2005)90

**ESI-MS**

Characterisation of proanthocyanidin aglycones and glycosides from rose hips by high-performance liquid chromatography-mass spectrometry, and their rapid quantification together with Vitamin C 1077(2005)170

**Ethylenediamine disuccinic acid**

Determination of [*S,S'*]-ethylenediamine disuccinic acid (EDDS) by high performance liquid chromatography after derivatization with FMOc 1077(2005)37

**Expanded bed adsorption**

Variations of particle size and bed voidage distributions in expanded bed during transient operation processes 1077(2005)143

**Extraction methods**

Determination of chlorinated toluenes in raw and treated water samples from the Llobregat river by closed loop stripping analysis and gas chromatography-mass spectrometry detection 1077(2005)68

**Fish tissue**

Application of matrix solid-phase dispersion in the analysis of priority polycyclic aromatic hydrocarbons in fish samples 1077(2005)103

**Flavan-3-ols**

Separation of eight selected flavan-3-ols on cellulose thin-layer chromatographic plates 1077(2005)188

**Fluorescence detection**

Determination of [*S,S'*]-ethylenediamine disuccinic acid (EDDS) by high performance liquid chromatography after derivatization with FMOc 1077(2005)37

**Gas chromatography**

Determination of UV-filter residues in bathing waters by liquid chromatography UV-diode array and gas chromatography–mass spectrometry after micelle mediated extraction-solvent back extraction 1077(2005)19

**GC analysis**

Determination of partition behavior of organic surrogates between paper-board packaging materials and air 1077(2005)74

**GC–MS**

Location of double bonds in diene and triene acetates by partial reduction followed by methylthiolation 1077(2005)57

**Glues**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

**Gradient elution**

A practical approach to transferring linear gradient elution methods 1077(2005)110

**Green tea**

Separation of eight selected flavan-3-ols on cellulose thin-layer chromatographic plates 1077(2005)188

**Halogenated toluenes**

Determination of chlorinated toluenes in raw and treated water samples from the Llobregat river by closed loop stripping analysis and gas chromatography–mass spectrometry detection 1077(2005)68

**Historic works**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

**HPAEC**

Determination of total ribonucleotide pool in plant materials by high-pH anion-exchange high-performance liquid chromatography following extraction with potassium hydroxide 1077(2005)120

**HPLC**

Determination of [S,S']-ethylenediamine disuccinic acid (EDDS) by high performance liquid chromatography after derivatization with FMOc 1077(2005)37

Development and optimization of a method for the analysis of Brazilein by HPLC with electrochemical detection 1077(2005)44

Automated solid-phase extraction and high-performance liquid chromatographic determination of nitrosamines using post-column photolysis and tris(2,2'-bipyridyl) ruthenium(III) chemiluminescence 1077(2005)49

Characterisation of proanthocyanidin aglycones and glycosides from rose hips by high-performance liquid chromatography–mass spectrometry, and their rapid quantification together with Vitamin C 1077(2005)170

**HPLC-ESI-MS**

Analysis of sialyl oligosaccharides by high-performance liquid chromatography-electrospray ionisation-mass spectrometry with differentiation of  $\alpha$ 2-3 and  $\alpha$ 2-6 sialyl linkages 1077(2005)136

**HPTLC**

High-performance thin layer chromatography method for quantitative determination of four major anthraquinone derivatives in *Rheum emodi* 1077(2005)202

**In-house validation**

Analysis of semicarbazide in baby food by liquid chromatography tandem mass spectrometry (LC–MS–MS)—In-house method validation 1077(2005)151

**Ionizable solutes**

Effect of temperature on the chromatographic retention of ionizable compounds. II. Acetonitrile–water mobile phases 1077(2005)159

**Ketones**

Experimental determination and calculation of distribution coefficients between air and fiber with polydimethylsiloxane coating for some groups of organic compounds 1077(2005)195

**Leaves**

Determination of total ribonucleotide pool in plant materials by high-pH anion-exchange high-performance liquid chromatography following extraction with potassium hydroxide 1077(2005)120

**Leguminosae**

Development and optimization of a method for the analysis of Brazilein by HPLC with electrochemical detection 1077(2005)44

**Liliaceae**

Purification of astilbin and isoastilbin in the extract of *Smilax glabra* rhizome by high-speed counter-current chromatography 1077(2005)98

**Liquid chromatography tandem mass spectrometry**

Analysis of semicarbazide in baby food by liquid chromatography tandem mass spectrometry (LC–MS–MS)—In-house method validation 1077(2005)151

**Liquid chromatography**

Determination of UV-filter residues in bathing waters by liquid chromatography UV-diode array and gas chromatography–mass spectrometry after micelle mediated extraction-solvent back extraction 1077(2005)19

A first principles explanation for the experimentally observed increase in A-term band broadening in small domain silica monoliths and other chromatographic supports 1077(2005)28

**Log  $K_{ow}$** 

Experimental determination and calculation of distribution coefficients between air and fiber with polydimethylsiloxane coating for some groups of organic compounds 1077(2005)195

**Mass spectrometric identification**

Determination of [S,S']-ethylenediamine disuccinic acid (EDDS) by high performance liquid chromatography after derivatization with FMOc 1077(2005)37

**Mass spectrometry**

Limitations of current proteomics technologies (Review) 1077(2005)1

**Mass spectrum**

Analysis of sialyl oligosaccharides by high-performance liquid chromatography-electrospray ionisation-mass spectrometry with differentiation of  $\alpha$ 2-3 and  $\alpha$ 2-6 sialyl linkages 1077(2005)136

**Matrix solid-phase dispersion**

Application of matrix solid-phase dispersion in the analysis of priority polycyclic aromatic hydrocarbons in fish samples 1077(2005)103

**Methacrylamide**

Determination of acrylamide and methacrylamide by normal phase high performance liquid chromatography and UV detection 1077(2005)128

**Methacrylic acid**

Determination of acrylamide and methacrylamide by normal phase high performance liquid chromatography and UV detection 1077(2005)128

**Method transfer**

A practical approach to transferring linear gradient elution methods 1077(2005)110

**Methylthiolation**

Location of double bonds in diene and triene acetates by partial reduction followed by methylthiolation 1077(2005)57

**Museum objects**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

**Natural binders**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

**Neuroproteomics**

Limitations of current proteomics technologies (Review) 1077(2005)1

**Nitrosamines**

Automated solid-phase extraction and high-performance liquid chromatographic determination of nitrosamines using post-column photolysis and tris(2,2'-bipyridyl) ruthenium(III) chemiluminescence 1077(2005)49

**Normal phase HPLC**

Determination of acrylamide and methacrylamide by normal phase high performance liquid chromatography and UV detection 1077(2005)128

**Oak**

Separation of eight selected flavan-3-ols on cellulose thin-layer chromatographic plates 1077(2005)188

**Organic surrogates**

Determination of partition behavior of organic surrogates between paper-board packaging materials and air 1077(2005)74

**Packing heterogeneity**

A first principles explanation for the experimentally observed increase in A-term band broadening in small domain silica monoliths and other chromatographic supports 1077(2005)28

**Paint layers**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

**Paint**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

**Paperboard packaging materials**

Determination of partition behavior of organic surrogates between paper-board packaging materials and air 1077(2005)74

**Partial reduction**

Location of double bonds in diene and triene acetates by partial reduction followed by methylthiolation 1077(2005)57

**Particle size distribution**

Variations of particle size and bed voidage distributions in expanded bed during transient operation processes 1077(2005)143

**Partition coefficients**

Determination of partition behavior of organic surrogates between paper-board packaging materials and air 1077(2005)74

**Pheromones**

Location of double bonds in diene and triene acetates by partial reduction followed by methylthiolation 1077(2005)57

**Photohydrolysis**

Automated solid-phase extraction and high-performance liquid chromatographic determination of nitrosamines using post-column photolysis and tris(2,2'-bipyridyl) ruthenium(III) chemiluminescence 1077(2005)49

**Physcion**

High-performance thin layer chromatography method for quantitative determination of four major anthraquinone derivatives in *Rheum emodi* 1077(2005)202

**Plant gums**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

**Plant**

Determination of total ribonucleotide pool in plant materials by high-pH anion-exchange high-performance liquid chromatography following extraction with potassium hydroxide 1077(2005)120

**Polycyclic aromatic hydrocarbons**

Application of matrix solid-phase dispersion in the analysis of priority polycyclic aromatic hydrocarbons in fish samples 1077(2005)103

**Polysaccharides**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

**Proanthocyanidin glycosides**

Characterisation of proanthocyanidin aglycones and glycosides from rose hips by high-performance liquid chromatography–mass spectrometry, and their rapid quantification together with Vitamin C 1077(2005)170

**Proanthocyanidins**

Characterisation of proanthocyanidin aglycones and glycosides from rose hips by high-performance liquid chromatography–mass spectrometry, and their rapid quantification together with Vitamin C 1077(2005)170

**Procyanidins**

Separation of eight selected flavan-3-ols on cellulose thin-layer chromatographic plates 1077(2005)188

**Proteomics limitations**

Limitations of current proteomics technologies (Review) 1077(2005)1

**Proteomics**

Limitations of current proteomics technologies (Review) 1077(2005)1

**PTI-GC-MS**

Improved analysis of volatile halogenated hydrocarbons in water by purge-and-trap with gas chromatography and mass spectrometric detection 1077(2005)181

**Purification**

Purification of astilbin and isoastilbin in the extract of *smilax glabra rhizome* by high-speed counter-current chromatography 1077(2005)98

**Rapid quantitative analysis**

Characterisation of proanthocyanidin aglycones and glycosides from rose hips by high-performance liquid chromatography–mass spectrometry, and their rapid quantification together with Vitamin C 1077(2005)170

**Reversed-phase selectivity**

Effect of temperature on the chromatographic retention of ionizable compounds. II. Acetonitrile–water mobile phases 1077(2005)159

***Rheum emodi***

High-performance thin layer chromatography method for quantitative determination of four major anthraquinone derivatives in *Rheum emodi* 1077(2005)202

**Ribonucleotide**

Determination of total ribonucleotide pool in plant materials by high-pH anion-exchange high-performance liquid chromatography following extraction with potassium hydroxide 1077(2005)120

**Rose hips**

Characterisation of proanthocyanidin aglycones and glycosides from rose hips by high-performance liquid chromatography–mass spectrometry, and their rapid quantification together with Vitamin C 1077(2005)170

**Selectivity**

A practical approach to transferring linear gradient elution methods 1077(2005)110

**Semicarbazide**

Analysis of semicarbazide in baby food by liquid chromatography tandem mass spectrometry (LC–MS–MS)—In-house method validation 1077(2005)151

**Sialyl linkage**

Analysis of sialyl oligosaccharides by high-performance liquid chromatography-electrospray ionisation-mass spectrometry with differentiation of  $\alpha$ 2-3 and  $\alpha$ 2-6 sialyl linkages 1077(2005)136

**Sialyl oligosaccharides**

Analysis of sialyl oligosaccharides by high-performance liquid chromatography-electrospray ionisation-mass spectrometry with differentiation of  $\alpha$ 2-3 and  $\alpha$ 2-6 sialyl linkages 1077(2005)136

**Silica monoliths**

A first principles explanation for the experimentally observed increase in A-term band broadening in small domain silica monoliths and other chromatographic supports 1077(2005)28

***Smilax glabra***

Purification of astilbin and isoastilbin in the extract of *Smilax glabra* rhizome by high-speed counter-current chromatography 1077(2005)98

**Solid-phase microextraction**

Experimental determination and calculation of distribution coefficients between air and fiber with polydimethylsiloxane coating for some groups of organic compounds 1077(2005)195

**Solvent extraction**

Determination of partition behavior of organic surrogates between paper-board packaging materials and air 1077(2005)74

**Stereoisomers**

Determination of ephedrine alkaloid stereoisomers in dietary supplements by capillary electrophoresis 1077(2005)90

**Sugars**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

**Sunscreen agents**

Determination of UV-filter residues in bathing waters by liquid chromatography UV-diode array and gas chromatography–mass spectrometry after micelle mediated extraction-solvent back extraction 1077(2005)19

**Temperature**

Effect of temperature on the chromatographic retention of ionizable compounds. II. Acetonitrile–water mobile phases 1077(2005)159

**Terpenes**

Experimental determination and calculation of distribution coefficients between air and fiber with polydimethylsiloxane coating for some groups of organic compounds 1077(2005)195

**Thin-layer chromatography**

Separation of eight selected flavan-3-ols on cellulose thin-layer chromatographic plates 1077(2005)188

**Transient phenomena**

Variations of particle size and bed voidage distributions in expanded bed during transient operation processes 1077(2005)143

**Triene acetates**

Location of double bonds in diene and triene acetates by partial reduction followed by methylthiolation 1077(2005)57

**Two-dimensional electrophoresis**

Limitations of current proteomics technologies (Review) 1077(2005)1

**Unsaturation**

Location of double bonds in diene and triene acetates by partial reduction followed by methylthiolation 1077(2005)57

**Uronic acids**

Characterisation of natural polysaccharides (plant gums) used as binding media for artistic and historic works by capillary zone electrophoresis 1077(2005)80

**UV detection**

Determination of acrylamide and methacrylamide by normal phase high performance liquid chromatography and UV detection 1077(2005)128

**Vitamin C**

Characterisation of proanthocyanidin aglycones and glycosides from rose hips by high-performance liquid chromatography–mass spectrometry, and their rapid quantification together with Vitamin C 1077(2005)170

**Volatile halogenated compounds**

Improved analysis of volatile halogenated hydrocarbons in water by purge-and-trap with gas chromatography and mass spectrometric detection 1077(2005)181

**Water analysis**

Automated solid-phase extraction and high-performance liquid chromatographic determination of nitrosamines using post-column photolysis and tris(2,2'-bipyridyl) ruthenium(III) chemiluminescence 1077(2005)49

Determination of chlorinated toluenes in raw and treated water samples from the Llobregat river by closed loop stripping analysis and gas chromatography–mass spectrometry detection 1077(2005)68

Improved analysis of volatile halogenated hydrocarbons in water by purge-and-trap with gas chromatography and mass spectrometric detection 1077(2005)181
