

Subject Index Vol. 1086

APCI-MS

Silver-ion reversed-phase comprehensive two-dimensional liquid chromatography combined with mass spectrometric detection in lipidic food analysis 1086(2005)91

Aromatic compounds

Analysis of aromatic compounds in gasoline with flow-switching comprehensive two-dimensional gas chromatography 1086(2005)115

ASTM methods

Characterisation of middle-distillates by comprehensive two-dimensional gas chromatography (GC × GC): A powerful alternative for performing various standard analysis of middle-distillates 1086(2005)21

Butter extracts

Improved determination of flavour compounds in butter by solid-phase (micro)extraction and comprehensive two-dimensional gas chromatography 1086(2005)99

Chemometrics

Evaluation of the DotMap algorithm for locating analytes of interest based on mass spectral similarity in data collected using comprehensive two-dimensional gas chromatography coupled with time-of-flight mass spectrometry 1086(2005)185

Chlorinated paraffins

Characterization of polychlorinated *n*-alkanes using comprehensive two-dimensional gas chromatography–electron-capture negative ionisation time-of-flight mass spectrometry 1086(2005)71

Column combinations

Twin comprehensive two-dimensional gas chromatographic system: concept and applications 1086(2005)128

Column dimensions

Flow regime at ambient outlet pressure and its influence in comprehensive two-dimensional gas chromatography 1086(2005)141

Column flow

Flow model for coupled-column gas chromatography systems 1086(2005)135

Compound identification

Peak pattern variations related to comprehensive two-dimensional gas chromatography acquisition 1086(2005)165

Comprehensive two-dimensional chromatography

Analysis of aromatic compounds in gasoline with flow-switching comprehensive two-dimensional gas chromatography 1086(2005)115

Method for reducing the ambiguity of comprehensive two-dimensional chromatography retention times 1086(2005)171

Comprehensive two-dimensional gas chromatography (GC × GC)

Comprehensive two-dimensional gas chromatography with isotope dilution time-of-flight mass spectrometry for the measurement of dioxins and polychlorinated biphenyls in foodstuffs. Comparison with other methods 1086(2005)45

Comprehensive two-dimensional gas chromatography (GC × GC)

Peak pattern variations related to comprehensive two-dimensional gas chromatography acquisition 1086(2005)165

Comprehensive two-dimensional gas chromatography

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

Characterization of polychlorinated *n*-alkanes using comprehensive two-dimensional gas chromatography–electron-capture negative ionisation time-of-flight mass spectrometry 1086(2005)71

Improved determination of flavour compounds in butter by solid-phase (micro)extraction and comprehensive two-dimensional gas chromatography 1086(2005)99

Quantitative determination of compounds in tobacco essential oils by comprehensive two-dimensional gas chromatography coupled to time-of-flight mass spectrometry 1086(2005)107

Twin comprehensive two-dimensional gas chromatographic system: concept and applications 1086(2005)128

Flow model for coupled-column gas chromatography systems 1086(2005)135

Deconvolution of overlapped peaks based on the exponentially modified Gaussian model in comprehensive two-dimensional gas chromatography 1086(2005)160

Resolution prediction and optimization of temperature programme in comprehensive two-dimensional gas chromatography 1086(2005)175

Comprehensive two-dimensional liquid chromatography

Silver-ion reversed-phase comprehensive two-dimensional liquid chromatography combined with mass spectrometric detection in lipidic food analysis 1086(2005)91

Comprehensive two-dimensional

Characterization of lipids in complex samples using comprehensive two-dimensional gas chromatography with time-of-flight mass spectrometry 1086(2005)2

Curve fitting

Deconvolution of overlapped peaks based on the exponentially modified Gaussian model in comprehensive two-dimensional gas chromatography 1086(2005)160

Data analysis

Evaluation of the DotMap algorithm for locating analytes of interest based on mass spectral similarity in data collected using comprehensive two-dimensional gas chromatography coupled with time-of-flight mass spectrometry 1086(2005)185

Data mining

Evaluation of the DotMap algorithm for locating analytes of interest based on mass spectral similarity in data collected using comprehensive two-dimensional gas chromatography coupled with time-of-flight mass spectrometry 1086(2005)185

Data processing

Statistical methods for comparing comprehensive two-dimensional gas chromatography–time-of-flight mass spectrometry results: Metabolomic analysis of mouse tissue extracts 1086(2005)83

Deconvolution

Deconvolution of overlapped peaks based on the exponentially modified Gaussian model in comprehensive two-dimensional gas chromatography 1086(2005)160

Dioxin-responsive chemically activated luciferase gene expression (DR-CALUX)

Comprehensive two-dimensional gas chromatography with isotope dilution time-of-flight mass spectrometry for the measurement of dioxins and polychlorinated biphenyls in foodstuffs. Comparison with other methods 1086(2005)45

Dioxins

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

μECD

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

ECNI-TOF-MS

Characterization of polychlorinated *n*-alkanes using comprehensive two-dimensional gas chromatography–electron-capture negative ionisation time-of-flight mass spectrometry 1086(2005)71

EMG

Deconvolution of overlapped peaks based on the exponentially modified Gaussian model in comprehensive two-dimensional gas chromatography 1086(2005)160

environmental pollutants

Dynamic ultrasound-assisted extraction of environmental pollutants from marine sediments for comprehensive two-dimensional gas chromatography with time-of-flight mass spectrometric detection 1086(2005)122

Essential oils

Quantitative determination of compounds in tobacco essential oils by comprehensive two-dimensional gas chromatography coupled to time-of-flight mass spectrometry 1086(2005)107

Flavour compounds

Improved determination of flavour compounds in butter by solid-phase (micro)extraction and comprehensive two-dimensional gas chromatography 1086(2005)99

Flow-switching modulation

Analysis of aromatic compounds in gasoline with flow-switching comprehensive two-dimensional gas chromatography 1086(2005)115

Food extracts

Twin comprehensive two-dimensional gas chromatographic system: concept and applications 1086(2005)128

Food

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

Gas chromatography, comprehensive two-dimensional

Statistical methods for comparing comprehensive two-dimensional gas chromatography–time-of-flight mass spectrometry results: Metabolomic analysis of mouse tissue extracts 1086(2005)83

Gas chromatography

Characterization of lipids in complex samples using comprehensive two-dimensional gas chromatography with time-of-flight mass spectrometry 1086(2005)2

Band acceleration device for enhanced selectivity with tandem-column gas chromatography 1086(2005)151

Deconvolution of overlapped peaks based on the exponentially modified Gaussian model in comprehensive two-dimensional gas chromatography 1086(2005)160

Gas chromatography–mass spectrometry

Quantitative determination of compounds in tobacco essential oils by comprehensive two-dimensional gas chromatography coupled to time-of-flight mass spectrometry 1086(2005)107

Gasoline analysis

Analysis of aromatic compounds in gasoline with flow-switching comprehensive two-dimensional gas chromatography 1086(2005)115

GC × GC

Characterization of polychlorinated *n*-alkanes using comprehensive two-dimensional gas chromatography–electron-capture negative ionisation time-of-flight mass spectrometry 1086(2005)71

Improved determination of flavour compounds in butter by solid-phase (micro)extraction and comprehensive two-dimensional gas chromatography 1086(2005)99

Flow model for coupled-column gas chromatography systems 1086(2005)135

Flow regime at ambient outlet pressure and its influence in comprehensive two-dimensional gas chromatography 1086(2005)141

GC × GC–TOF-MS

Dynamic ultrasound-assisted extraction of environmental pollutants from marine sediments for comprehensive two-dimensional gas chromatography with time-of-flight mass spectrometric detection 1086(2005)122

Evaluation of the DotMap algorithm for locating analytes of interest based on mass spectral similarity in data collected using comprehensive two-dimensional gas chromatography coupled with time-of-flight mass spectrometry 1086(2005)185

GC–HRMS

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

GC×GC

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

Group type separation

Characterisation of middle-distillates by comprehensive two-dimensional gas chromatography (GC × GC): A powerful alternative for performing various standard analysis of middle-distillates 1086(2005)21

High-resolution mass spectrometry (HRMS)

Comprehensive two-dimensional gas chromatography with isotope dilution time-of-flight mass spectrometry for the measurement of dioxins and polychlorinated biphenyls in foodstuffs. Comparison with other methods 1086(2005)45

Hydrocarbons

Characterisation of middle-distillates by comprehensive two-dimensional gas chromatography (GC × GC): A powerful alternative for performing various standard analysis of middle-distillates 1086(2005)21

Lipids

Characterization of lipids in complex samples using comprehensive two-dimensional gas chromatography with time-of-flight mass spectrometry 1086(2005)2

Loop-type modulator

Flow model for coupled-column gas chromatography systems 1086(2005)135

Marine sediment

Dynamic ultrasound-assisted extraction of environmental pollutants from marine sediments for comprehensive two-dimensional gas chromatography with time-of-flight mass spectrometric detection 1086(2005)122

Mass spectrometry, time-of-flight

Statistical methods for comparing comprehensive two-dimensional gas chromatography–time-of-flight mass spectrometry results: Metabolomic analysis of mouse tissue extracts 1086(2005)83

Metabolomics

Statistical methods for comparing comprehensive two-dimensional gas chromatography–time-of-flight mass spectrometry results: Metabolomic analysis of mouse tissue extracts 1086(2005)83

Modeling

Band acceleration device for enhanced selectivity with tandem-column gas chromatography 1086(2005)151

Modulation criterion

Flow regime at ambient outlet pressure and its influence in comprehensive two-dimensional gas chromatography 1086(2005)141

Multi-dimensional chromatographic studies

Comprehensive multi-dimensional chromatographic studies on the separation of saturated hydrocarbon ring structures in petrochemical samples 1086(2005)12

Multiple internal standards calibration

Quantitative determination of compounds in tobacco essential oils by comprehensive two-dimensional gas chromatography coupled to time-of-flight mass spectrometry 1086(2005)107

Optimization

Resolution prediction and optimization of temperature programme in comprehensive two-dimensional gas chromatography 1086(2005)175

Optimum flow

Flow regime at ambient outlet pressure and its influence in comprehensive two-dimensional gas chromatography 1086(2005)141

Organobromine compounds

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Organochlorine compounds

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Organohalogenated pesticides

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Orthogonality

Twin comprehensive two-dimensional gas chromatographic system: concept and applications 1086(2005)128

Overlapped peak

Deconvolution of overlapped peaks based on the exponentially modified Gaussian model in comprehensive two-dimensional gas chromatography 1086(2005)160

PCB

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

PCDD/F

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

Peak pattern matching

Peak pattern variations related to comprehensive two-dimensional gas chromatography acquisition 1086(2005)165

Peak pattern variation

Peak pattern variations related to comprehensive two-dimensional gas chromatography acquisition 1086(2005)165

Petrochemical samples

Comprehensive multi-dimensional chromatographic studies on the separation of saturated hydrocarbon ring structures in petrochemical samples 1086(2005)12

Polybrominated biphenyls

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Polybrominated diphenyl ethers

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Polychlorinated alkanes

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Characterization of polychlorinated *n*-alkanes using comprehensive two-dimensional gas chromatography–electron-capture negative ionisation time-of-flight mass spectrometry 1086(2005)71

Polychlorinated biphenyls (PCBs)

Comprehensive two-dimensional gas chromatography with isotope dilution time-of-flight mass spectrometry for the measurement of dioxins and polychlorinated biphenyls in foodstuffs. Comparison with other methods 1086(2005)45

Polychlorinated biphenyls

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Polychlorinated dibenzofurans (PCDFs)

Comprehensive two-dimensional gas chromatography with isotope dilution time-of-flight mass spectrometry for the measurement of dioxins and polychlorinated biphenyls in foodstuffs. Comparison with other methods 1086(2005)45

Polychlorinated dibenzofurans

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Polychlorinated dibenzo-*p*-dioxins (PCDDs)

Comprehensive two-dimensional gas chromatography with isotope dilution time-of-flight mass spectrometry for the measurement of dioxins and polychlorinated biphenyls in foodstuffs. Comparison with other methods 1086(2005)45

Polychlorinated dibenzo-*p*-dioxins

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Polychlorinated dibenzothiophenes

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Polychlorinated diphenyl ethers

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Polychlorinated naphthalenes

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Polychlorinated terphenyls

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Quadrupole ion storage mass spectrometry (QIST-MS)

Comprehensive two-dimensional gas chromatography with isotope dilution time-of-flight mass spectrometry for the measurement of dioxins and polychlorinated biphenyls in foodstuffs. Comparison with other methods 1086(2005)45

Quantification

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

Resolution prediction

Resolution prediction and optimization of temperature programme in comprehensive two-dimensional gas chromatography 1086(2005)175

Resolution

Flow regime at ambient outlet pressure and its influence in comprehensive two-dimensional gas chromatography 1086(2005)141

Retention time analysis

Method for reducing the ambiguity of comprehensive two-dimensional chromatography retention times 1086(2005)171

Sample capacity

Flow regime at ambient outlet pressure and its influence in comprehensive two-dimensional gas chromatography 1086(2005)141

Sample dimensionality

Comprehensive multi-dimensional chromatographic studies on the separation of saturated hydrocarbon ring structures in petrochemical samples 1086(2005)12

Saturated hydrocarbon ring structures

Comprehensive multi-dimensional chromatographic studies on the separation of saturated hydrocarbon ring structures in petrochemical samples 1086(2005)12

Selectivity

Evaluation of the DotMap algorithm for locating analytes of interest based on mass spectral similarity in data collected using comprehensive two-dimensional gas chromatography coupled with time-of-flight mass spectrometry 1086(2005)185

Simulated distillation

Characterisation of middle-distillates by comprehensive two-dimensional gas chromatography (GC × GC): A powerful alternative for performing various standard analysis of middle-distillates 1086(2005)21

SPE

Improved determination of flavour compounds in butter by solid-phase (micro)extraction and comprehensive two-dimensional gas chromatography 1086(2005)99

SPME

Improved determination of flavour compounds in butter by solid-phase (micro)extraction and comprehensive two-dimensional gas chromatography 1086(2005)99

TAG

Silver-ion reversed-phase comprehensive two-dimensional liquid chromatography combined with mass spectrometric detection in lipidic food analysis 1086(2005)91

Tandem-in-time mass spectrometry (MS/MS)

Comprehensive two-dimensional gas chromatography with isotope dilution time-of-flight mass spectrometry for the measurement of dioxins and polychlorinated biphenyls in foodstuffs. Comparison with other methods 1086(2005)45

TEF

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

Temperature program

Resolution prediction and optimization of temperature programme in comprehensive two-dimensional gas chromatography 1086(2005)175

Temperature-programming

Band acceleration device for enhanced selectivity with tandem-column gas chromatography 1086(2005)151

TEQ

Trace analysis of polychlorinated dibenzo-*p*-dioxins, dibenzofurans and WHO polychlorinated biphenyls in food using comprehensive two-dimensional gas chromatography with electron-capture detection 1086(2005)61

Time-of-flight mass spectrometry (TOF-MS)

Comprehensive two-dimensional gas chromatography with isotope dilution time-of-flight mass spectrometry for the measurement of dioxins and polychlorinated biphenyls in foodstuffs. Comparison with other methods 1086(2005)45

Time-of-flight mass spectrometry

Characterization of lipids in complex samples using comprehensive two-dimensional gas chromatography with time-of-flight mass spectrometry 1086(2005)2

Quantitative determination of compounds in tobacco essential oils by comprehensive two-dimensional gas chromatography coupled to time-of-flight mass spectrometry 1086(2005)107

Tobacco

Quantitative determination of compounds in tobacco essential oils by comprehensive two-dimensional gas chromatography coupled to time-of-flight mass spectrometry 1086(2005)107

Toxaphene

Group separation of organohalogenated compounds by means of comprehensive two-dimensional gas chromatography 1086(2005)29

Transformation model

Peak pattern variations related to comprehensive two-dimensional gas chromatography acquisition 1086(2005)165

Triacylglycerols

Silver-ion reversed-phase comprehensive two-dimensional liquid chromatography combined with mass spectrometric detection in lipidic food analysis 1086(2005)91

Twin system

Twin comprehensive two-dimensional gas chromatographic system: concept and applications 1086(2005)128

Ultrasound-assisted extraction

Dynamic ultrasound-assisted extraction of environmental pollutants from marine sediments for comprehensive two-dimensional gas chromatography with time-of-flight mass spectrometric detection 1086(2005)122

Wrap-around

Method for reducing the ambiguity of comprehensive two-dimensional chromatography retention times 1086(2005)171
