

## Subject index of volume 1093

### Acid hydrolysis

Application of high-performance anion-exchange chromatography with pulsed amperometric detection and statistical analysis to study oligosaccharide distributions – a complementary method to investigate the structure and some properties of alginates 1093(2005)59

### Acid–base

Determination of acidic and basic species by headspace gas chromatography 1093(2005)212

### Aconite roots

Simultaneous determination of six *Aconitum* alkaloids in proprietary Chinese medicines by high-performance liquid chromatography 1093(2005)195

### *Aconitum* alkaloids

Simultaneous determination of six *Aconitum* alkaloids in proprietary Chinese medicines by high-performance liquid chromatography 1093(2005)195

### Allium plant

Simultaneous speciation of selenium and sulfur species in selenized odorless garlic (*Allium sativum* L. Shiro) and shallot (*Allium ascalonicum*) by HPLC–inductively coupled plasma–(octopole reaction system)–mass spectrometry and electrospray ionization–tandem mass spectrometry 1093(2005)118

### Aminomethylphosphonic acid

Determination of glyphosate and its metabolite aminomethylphosphonic acid in fruit juices using supported-liquid membrane preconcentration method with high-performance liquid chromatography and UV detection after derivatization with *p*-toluenesulphonyl chloride 1093(2005)111

### AMPA

Matrix solid-phase dispersion extraction and determination by high-performance liquid chromatography with fluorescence detection of residues of glyphosate and aminomethylphosphonic acid in tomato fruit 1093(2005)139

### Amylase

Sedimentation field flow fractionation monitoring of rice starch amylolysis 1093(2005)147

### Analysis

Single-drop liquid-phase microextraction for the determination of hypericin, pseudohypericin and hyperforin in biological fluids by high performance liquid chromatography 1093(2005)1

### Anion exchange cleanup

Matrix solid-phase dispersion extraction and determination by high-performance liquid chromatography with fluorescence detection of residues of glyphosate and aminomethylphosphonic acid in tomato fruit 1093(2005)139

### Antibody

Comparison of protein A affinity sorbents. II. Mass transfer properties 1093(2005)98

### APCI

Solid-phase extraction gas chromatography-ion trap-mass spectrometry qualitative method for evaluation of phenolic compounds in virgin olive oil and structural confirmation of oleuropein and ligstroside aglycons and their oxidation products 1093(2005)167

### Artificial neural networks

Optimization of gradient elution conditions in multicomponent preparative liquid chromatography 1093(2005)47

### Artwork

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis–gas chromatography–mass spectrometry 1093(2005)177

### ATBC

Determination of diethylhexyladipate and acetyltributylcitrate in aqueous extracts after cloud point extraction coupled with microwave assisted back extraction and gas chromatographic separation 1093(2005)29

### Atomic fluorescence spectrometry

Determination of mercury species in fish reference materials by gas chromatography–atomic fluorescence detection after closed-vessel microwave-assisted extraction 1093(2005)21

### Bicarbonate

Determination of acidic and basic species by headspace gas chromatography 1093(2005)212

### Biological fluids

Single-drop liquid-phase microextraction for the determination of hypericin, pseudohypericin and hyperforin in biological fluids by high performance liquid chromatography 1093(2005)1

### Biological samples

Determination of mercury species in fish reference materials by gas chromatography–atomic fluorescence detection after closed-vessel microwave-assisted extraction 1093(2005)21

### *Bursera cuneata*

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis–gas chromatography–mass spectrometry 1093(2005)177

### *Burseraceae* resin

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis–gas chromatography–mass spectrometry 1093(2005)177

### *Canarium luzonicum*

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis–gas chromatography–mass spectrometry 1093(2005)177

**Capillary electrophoresis**

Isolation from *Gluconacetobacter diazotrophicus* cell walls of specific receptors for sugarcane glycoproteins, which act as recognition factors 1093(2005)204

**Carbohydrate**

Application of high-performance anion-exchange chromatography with pulsed amperometric detection and statistical analysis to study oligosaccharide distributions – a complementary method to investigate the structure and some properties of alginates 1093(2005)59

**Carbon dioxide**

Determination of acidic and basic species by headspace gas chromatography 1093(2005)212

**Cattle**

Application of stable carbon isotope analysis to the detection of 17 $\beta$ -estradiol administration to cattle 1093(2005)69

**Chain-length distribution**

Application of high-performance anion-exchange chromatography with pulsed amperometric detection and statistical analysis to study oligosaccharide distributions – a complementary method to investigate the structure and some properties of alginates 1093(2005)59

**Chiral recognition**

Peptide enantiomer separations: Influence of sequential isomerism and the introduction of achiral glycine moieties on chiral recognition 1093(2005)81

**Chromatography models**

Rational methods for predicting human monoclonal antibodies retention in protein A affinity chromatography and cation exchange chromatography. Structure-based chromatography design for monoclonal antibodies 1093(2005)126

**Closed-vessel microwave-assisted extraction**

Determination of mercury species in fish reference materials by gas chromatography-atomic fluorescence detection after closed-vessel microwave-assisted extraction 1093(2005)21

**Cloud point extraction**

Determination of diethylhexyladipate and acetyltributylcitrate in aqueous extracts after cloud point extraction coupled with microwave assisted back extraction and gas chromatographic separation 1093(2005)29

**Degree of polymerisation**

Application of high-performance anion-exchange chromatography with pulsed amperometric detection and statistical analysis to study oligosaccharide distributions – a complementary method to investigate the structure and some properties of alginates 1093(2005)59

**DEHA**

Determination of diethylhexyladipate and acetyltributylcitrate in aqueous extracts after cloud point extraction coupled with microwave assisted back extraction and gas chromatographic separation 1093(2005)29

**DHEA**

Application of stable carbon isotope analysis to the detection of 17 $\beta$ -estradiol administration to cattle 1093(2005)69

**Enantiomers**

Peptide enantiomer separations: Influence of sequential isomerism and the introduction of achiral glycine moieties on chiral recognition 1093(2005)81

**Equilibrium stage model**

Optimization of gradient elution conditions in multicomponent preparative liquid chromatography 1093(2005)47

**Estradiol**

Application of stable carbon isotope analysis to the detection of 17 $\beta$ -estradiol administration to cattle 1093(2005)69

**Film diffusion**

Comparison of protein A affinity sorbents. II. Mass transfer properties 1093(2005)98

**FIFFF**

Natural sample fractionation by FIFFF–MALLS–TEM: Sample stabilization, preparation, pre-concentration and fractionation 1093(2005)156

**Fluorotelomer alcohols**

Analysis of fluorotelomer alcohols, fluorotelomer acids, and short- and long-chain perfluorinated acids in water and biota 1093(2005)89

**FMOc derivatization**

Matrix solid-phase dispersion extraction and determination by high-performance liquid chromatography with fluorescence detection of residues of glyphosate and aminomethylphosphonic acid in tomato fruit 1093(2005)139

**Fruit juice**

Determination of glyphosate and its metabolite aminomethylphosphonic acid in fruit juices using supported-liquid membrane preconcentration method with high-performance liquid chromatography and UV detection after derivatization with *p*-toluenesulphonyl chloride 1093(2005)111

**Garlic**

Simultaneous speciation of selenium and sulfur species in selenized odorless garlic (*Allium sativum* L. Shiro) and shallot (*Allium ascalonicum*) by HPLC–inductively coupled plasma–(octopole reaction system)–mass spectrometry and electrospray ionization–tandem mass spectrometry 1093(2005)118

**Gas chromatography**

Determination of mercury species in fish reference materials by gas chromatography-atomic fluorescence detection after closed-vessel microwave-assisted extraction 1093(2005)21

Determination of diethylhexyladipate and acetyltributylcitrate in aqueous extracts after cloud point extraction coupled with microwave assisted back extraction and gas chromatographic separation 1093(2005)29

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis–gas chromatography–mass spectrometry 1093(2005)177

Determination of acidic and basic species by headspace gas chromatography 1093(2005)212

**GC/IRMS**

Application of stable carbon isotope analysis to the detection of 17 $\beta$ -estradiol administration to cattle 1093(2005)69

**GC/MS**

Validation of a gas chromatography/mass spectrometry method for the quantification of aerosolized Jet Propellant 8 1093(2005)11

**Gluconacetobacter**

Isolation from *Gluconacetobacter diazotrophicus* cell walls of specific receptors for sugarcane glycoproteins, which act as recognition factors 1093(2005)204

**Glycine**

Peptide enantiomer separations: Influence of sequential isomerism and the introduction of achiral glycine moieties on chiral recognition 1093(2005)81

**Glycoproteins**

Isolation from *Gluconacetobacter diazotrophicus* cell walls of specific receptors for sugarcane glycoproteins, which act as recognition factors 1093(2005)204

**Glyphosate**

Determination of glyphosate and its metabolite aminomethylphosphonic acid in fruit juices using supported-liquid membrane preconcentration method with high-performance liquid chromatography and UV detection after derivatization with *p*-toluenesulphonyl chloride 1093(2005)111

Matrix solid-phase dispersion extraction and determination by high-performance liquid chromatography with fluorescence detection of residues of glyphosate and aminomethylphosphonic acid in tomato fruit 1093(2005)139

**Gradient elution**

Optimization of gradient elution conditions in multicomponent preparative liquid chromatography 1093(2005)47

**Headspace**

Determination of acidic and basic species by headspace gas chromatography 1093(2005)212

**Herbicides**

Matrix solid-phase dispersion extraction and determination by high-performance liquid chromatography with fluorescence detection of residues of glyphosate and aminomethylphosphonic acid in tomato fruit 1093(2005)139

**Hexamethyldisilazane**

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis–gas chromatography–mass spectrometry 1093(2005)177

**High-performance liquid chromatography (HPLC)**

Simultaneous determination of six *Aconitum* alkaloids in proprietary Chinese medicines by high-performance liquid chromatography 1093(2005)195

**HPLC**

Determination of glyphosate and its metabolite aminomethylphosphonic acid in fruit juices using supported-liquid membrane preconcentration method with high-performance liquid chromatography and UV detection after derivatization with *p*-toluenesulphonyl chloride 1093(2005)111

Matrix solid-phase dispersion extraction and determination by high-performance liquid chromatography with fluorescence detection of residues of glyphosate and aminomethylphosphonic acid in tomato fruit 1093(2005)139

**HPLC-MS/MS**

Analysis of fluorotelomer alcohols, fluorotelomer acids, and short- and long-chain perfluorinated acids in water and biota 1093(2005)89

**Human antibodies**

Rational methods for predicting human monoclonal antibodies retention in protein A affinity chromatography and cation exchange chromatography. Structure-based chromatography design for monoclonal antibodies 1093(2005)126

**Hydrocarbon analysis**

Validation of a gas chromatography/mass spectrometry method for the quantification of aerosolized Jet Propellant 8 1093(2005)11

**Hyperforin**

Single-drop liquid-phase microextraction for the determination of hypericin, pseudohypericin and hyperforin in biological fluids by high performance liquid chromatography 1093(2005)1

**Hypericin**

Single-drop liquid-phase microextraction for the determination of hypericin, pseudohypericin and hyperforin in biological fluids by high performance liquid chromatography 1093(2005)1

**ICP-MS**

Simultaneous speciation of selenium and sulfur species in selenized odorless garlic (*Allium sativum* L. Shiro) and shallot (*Allium ascalonicum*) by HPLC–inductively coupled plasma–(octopole reaction system)–mass spectrometry and electrospray ionization–tandem mass spectrometry 1093(2005)118

**Immunoglobulin**

Comparison of protein A affinity sorbents. II. Mass transfer properties 1093(2005)98

**Inhalation studies**

Validation of a gas chromatography/mass spectrometry method for the quantification of aerosolized Jet Propellant 8 1093(2005)11

**Ion exchange chromatography**

Rational methods for predicting human monoclonal antibodies retention in protein A affinity chromatography and cation exchange chromatography. Structure-based chromatography design for monoclonal antibodies 1093(2005)126

**Ion trap- gas chromatography**

Solid-phase extraction gas chromatography–ion trap–mass spectrometry qualitative method for evaluation of phenolic compounds in virgin olive oil and structural confirmation of oleuropein and ligstroside aglycons and their oxidation products 1093(2005)167

**Jet fuel**

Validation of a gas chromatography/mass spectrometry method for the quantification of aerosolized Jet Propellant 8 1093(2005)11

**JP-8**

Validation of a gas chromatography/mass spectrometry method for the quantification of aerosolized Jet Propellant 8 1093(2005)11

**Ligand-exchange**

Screening for metal ligands by liquid chromatography–ligand-exchange–electrospray mass spectrometry 1093(2005)36

**Liquid chromatography**

Screening for metal ligands by liquid chromatography–ligand-exchange–electrospray mass spectrometry 1093(2005)36

**Liquid chromatography–mass spectrometry**

Peptide enantiomer separations: Influence of sequential isomerism and the introduction of achiral glycine moieties on chiral recognition 1093(2005)81

**MALLS**

Natural sample fractionation by FIFFF–MALLS–TEM: Sample stabilization, preparation, pre-concentration and fractionation 1093(2005)156

**Manila elemi**

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis–gas chromatography–mass spectrometry 1093(2005)177

**Mass spectrometry**

Screening for metal ligands by liquid chromatography–ligand-exchange–electrospray mass spectrometry 1093(2005)36

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis–gas chromatography–mass spectrometry 1093(2005)177

**Matrix solid-phase dispersion**

Matrix solid-phase dispersion extraction and determination by high-performance liquid chromatography with fluorescence detection of residues of glyphosate and aminomethylphosphonic acid in tomato fruit 1093(2005)139

**Mercury speciation**

Determination of mercury species in fish reference materials by gas chromatography-atomic fluorescence detection after closed-vessel microwave-assisted extraction 1093(2005)21

**Metal ligands**

Screening for metal ligands by liquid chromatography–ligand-exchange–electrospray mass spectrometry 1093(2005)36

**Methyl chloroformate**

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis-gas chromatography–mass spectrometry 1093(2005)177

**Mexican copal**

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis-gas chromatography–mass spectrometry 1093(2005)177

**Microwave back extraction**

Determination of diethylhexyladipate and acetyltributylcitrate in aqueous extracts after cloud point extraction coupled with microwave assisted back extraction and gas chromatographic separation 1093(2005)29

**Native starch**

Sedimentation field flow fractionation monitoring of rice starch amylolysis 1093(2005)147

**Natural hormone**

Application of stable carbon isotope analysis to the detection of 17 $\beta$ -estradiol administration to cattle 1093(2005)69

**Optimization of gradient shapes**

Optimization of gradient elution conditions in multicomponent preparative liquid chromatography 1093(2005)47

**Oxidized aglycons**

Solid-phase extraction gas chromatography-ion trap-mass spectrometry qualitative method for evaluation of phenolic compounds in virgin olive oil and structural confirmation of oleuropein and ligstroside aglycons and their oxidation products 1093(2005)167

**Oxidized phenols**

Solid-phase extraction gas chromatography-ion trap-mass spectrometry qualitative method for evaluation of phenolic compounds in virgin olive oil and structural confirmation of oleuropein and ligstroside aglycons and their oxidation products 1093(2005)167

**Peptides**

Peptide enantiomer separations: Influence of sequential isomerism and the introduction of achiral glycine moieties on chiral recognition 1093(2005)81

**Perfluorinated chemicals**

Analysis of fluorotelomer alcohols, fluorotelomer acids, and short- and long-chain perfluorinated acids in water and biota 1093(2005)89

**Pesticides**

Determination of glyphosate and its metabolite aminomethylphosphonic acid in fruit juices using supported-liquid membrane preconcentration method with high-performance liquid chromatography and UV detection after derivatization with *p*-toluenesulphonyl chloride 1093(2005)111

**PFOS**

Analysis of fluorotelomer alcohols, fluorotelomer acids, and short- and long-chain perfluorinated acids in water and biota 1093(2005)89

**Phenolic compounds**

Solid-phase extraction gas chromatography-ion trap-mass spectrometry qualitative method for evaluation of phenolic compounds in virgin olive oil and structural confirmation of oleuropein and ligstroside aglycons and their oxidation products 1093(2005)167

**Pore diffusion**

Comparison of protein A affinity sorbents. II. Mass transfer properties 1093(2005)98

**Pre-concentration**

Natural sample fractionation by FIFFF–MALLS–TEM: Sample stabilization, preparation, pre-concentration and fractionation 1093(2005)156

**Preparative chromatography**

Optimization of gradient elution conditions in multicomponent preparative liquid chromatography 1093(2005)47

**Proprietary Chinese medicines**

Simultaneous determination of six *Aconitum* alkaloids in proprietary Chinese medicines by high-performance liquid chromatography 1093(2005)195

**Protein separation**

Rational methods for predicting human monoclonal antibodies retention in protein A affinity chromatography and cation exchange chromatography. Structure-based chromatography design for monoclonal antibodies 1093(2005)126

**Pseudohypericin**

Single-drop liquid-phase microextraction for the determination of hypericin, pseudohypericin and hyperforin in biological fluids by high performance liquid chromatography 1093(2005)1

**Pyrolysis**

Study of *Burseraceae* resins used in binding media and varnishes from artworks by gas chromatography–mass spectrometry and pyrolysis-gas chromatography–mass spectrometry 1093(2005)177

**Quantitative analysis**

Simultaneous determination of six *Aconitum* alkaloids in proprietary Chinese medicines by high-performance liquid chromatography 1093(2005)195

**Receptors**

Isolation from *Gluconacetobacter diazotrophicus* cell walls of specific receptors for sugarcane glycoproteins, which act as recognition factors 1093(2005)204

**Residues**

Matrix solid-phase dispersion extraction and determination by high-performance liquid chromatography with fluorescence detection of residues of glyphosate and aminomethylphosphonic acid in tomato fruit 1093(2005)139

**River colloids**

Natural sample fractionation by FIFFF–MALLS–TEM: Sample stabilization, preparation, pre-concentration and fractionation 1093(2005)156

**Screening**

Screening for metal ligands by liquid chromatography–ligand-exchange–electrospray mass spectrometry 1093(2005)36

**Sedimentation field flow fractionation**

Sedimentation field flow fractionation monitoring of rice starch amylolysis 1093(2005)147

**Selenium**

Simultaneous speciation of selenium and sulfur species in selenized odorless garlic (*Allium sativum* L. Shiro) and shallot (*Allium ascalonicum*) by HPLC-inductively coupled plasma-(octopole reaction system)-mass spectrometry and electrospray ionization-tandem mass spectrometry 1093(2005)118

**SEM**

Natural sample fractionation by FIFFF-MALLS-TEM: Sample stabilization, preparation, pre-concentration and fractionation 1093(2005)156

**Sequence isomers**

Peptide enantiomer separations: Influence of sequential isomerism and the introduction of achiral glycine moieties on chiral recognition 1093(2005)81

**Single-drop liquid-phase microextraction**

Single-drop liquid-phase microextraction for the determination of hypericin, pseudohypericin and hyperforin in biological fluids by high performance liquid chromatography 1093(2005)1

**Speciation**

Simultaneous speciation of selenium and sulfur species in selenized odorless garlic (*Allium sativum* L. Shiro) and shallot (*Allium ascalonicum*) by HPLC-inductively coupled plasma-(octopole reaction system)-mass spectrometry and electrospray ionization-tandem mass spectrometry 1093(2005)118

**Staphylococcus protein A**

Comparison of protein A affinity sorbents. II. Mass transfer properties 1093(2005)98

**Steric elution**

Natural sample fractionation by FIFFF-MALLS-TEM: Sample stabilization, preparation, pre-concentration and fractionation 1093(2005)156

**Steroid**

Application of stable carbon isotope analysis to the detection of 17 $\beta$ -estradiol administration to cattle 1093(2005)69

**Sugarcane**

Isolation from *Gluconacetobacter diazotrophicus* cell walls of specific receptors for sugarcane glycoproteins, which act as recognition factors 1093(2005)204

**Sulfur**

Simultaneous speciation of selenium and sulfur species in selenized odorless garlic (*Allium sativum* L. Shiro) and shallot (*Allium ascalonicum*) by HPLC-inductively coupled plasma-(octopole reaction system)-mass spectrometry and electrospray ionization-tandem mass spectrometry 1093(2005)118

**Supported-liquid membrane extraction**

Determination of glyphosate and its metabolite aminomethylphosphonic acid in fruit juices using supported-liquid membrane preconcentration method with high-performance liquid chromatography and UV detection after derivatization with *p*-toluenesulphonyl chloride 1093(2005)111

**TEM**

Natural sample fractionation by FIFFF-MALLS-TEM: Sample stabilization, preparation, pre-concentration and fractionation 1093(2005)156

**Thermal conductivity detector**

Determination of acidic and basic species by headspace gas chromatography 1093(2005)212

**Tomato fruit**

Matrix solid-phase dispersion extraction and determination by high-performance liquid chromatography with fluorescence detection of residues of glyphosate and aminomethylphosphonic acid in tomato fruit 1093(2005)139

**Urine**

Application of stable carbon isotope analysis to the detection of 17 $\beta$ -estradiol administration to cattle 1093(2005)69

**Virgin olive oil**

Solid-phase extraction gas chromatography-ion trap-mass spectrometry qualitative method for evaluation of phenolic compounds in virgin olive oil and structural confirmation of oleuropein and ligstroside aglycons and their oxidation products 1093(2005)167
