

## Subject index of volume 1097

### Acetyl sulfonamide antibiotics

Fully automated online solid phase extraction coupled directly to liquid chromatography–tandem mass spectrometry. Quantification of sulfonamide antibiotics, neutral and acidic pesticides at low concentrations in surface waters 1097(2005)138

### Adsorption isotherm

Systematic errors in the measurement of adsorption isotherms by frontal analysis. Impact of the choice of column hold-up volume, range and density of the data points 1097(2005)98

### Advesicles

Concentration of organic compounds in natural waters with solid-phase dispersion based on advesicle modified silica prior to liquid chromatography 1097(2005)17

### Alkanols

Refined non-steady-state gas–liquid chromatography for accurate determination of limiting activity coefficients of volatile organic compounds in water. Application to C<sub>1</sub>–C<sub>5</sub> alkanols 1097(2005)157

### Anthraglycoside B

Preparative isolation and purification of five compounds from the Chinese medicinal herb *Polygonum cuspidatum* Sieb. et Zucc by high-speed counter-current chromatography 1097(2005)33

### Antibiotics

Simultaneous extraction and analysis of 11 tetracycline and sulfonamide antibiotics in influent and effluent domestic wastewater by solid-phase extraction and liquid chromatography–electrospray ionization tandem mass spectrometry 1097(2005)40

### Arsenic speciation

Evaluation of a focused sonication probe for arsenic speciation in environmental and biological samples 1097(2005)1

### Bacteria

Gas chromatographic ion trap mass spectrometry determination of zoxamide residues in grape, grape processing, and in the fermentation process 1097(2005)165

### Biocides

Fully automated online solid phase extraction coupled directly to liquid chromatography–tandem mass spectrometry. Quantification of sulfonamide antibiotics, neutral and acidic pesticides at low concentrations in surface waters 1097(2005)138

### BPA

Simultaneous determination of tetrabromobisphenol A, tetrachlorobisphenol A, bisphenol A and other halogenated analogues in sediment and sludge by high performance liquid chromatography–electrospray tandem mass spectrometry 1097(2005)25

### Calibration

Calibration of solid-phase microextraction for quantitative analysis by gas chromatography 1097(2005)9

### Capillary electrophoresis

Design and evaluation of a coupled monolithic preconcentrator–capillary zone electrophoresis system for the extraction of immunoglobulin G from human serum 1097(2005)171

### Carbamates

Simultaneous determination of carbamate and organophosphorus pesticides in fruits and vegetables by liquid chromatography–mass spectrometry 1097(2005)183

### Chicken

Evaluation of a focused sonication probe for arsenic speciation in environmental and biological samples 1097(2005)1

### Chiral stationary phase

Unusual resolution of *N*-(3,5-dinitrobenzoyl)- $\alpha$ -amino acids on a chiral stationary phase based on (+)-(18-crown-6)-2,3,11,12-tetracarboxylic acid 1097(2005)188

### Chromatographic particles

Characterization of the mechanical properties of polymeric chromatographic particles by micromanipulation 1097(2005)116

### Chrysophanol

Determination and locational variations in the quantity of hydroxyanthraquinones and their glycosides in rhizomes of *Rheum emodi* using high-performance liquid chromatography 1097(2005)59

### Chrysophanol glycoside

Determination and locational variations in the quantity of hydroxyanthraquinones and their glycosides in rhizomes of *Rheum emodi* using high-performance liquid chromatography 1097(2005)59

### Column hold-up volume

Systematic errors in the measurement of adsorption isotherms by frontal analysis. Impact of the choice of column hold-up volume, range and density of the data points 1097(2005)98

### Data acquisition

Systematic errors in the measurement of adsorption isotherms by frontal analysis. Impact of the choice of column hold-up volume, range and density of the data points 1097(2005)98

### Dinophyceae

Reversed-phase high-performance liquid chromatography purification of methyl esters of C<sub>16</sub>–C<sub>28</sub> polyunsaturated fatty acids in microalgae, including octacosaoctanoic acid [28:8(n-3)] 1097(2005)54

**Direct injection (DI) liner**

Calibration of solid-phase microextraction for quantitative analysis by gas chromatography 1097(2005)9

**Dispersive solid-phase extraction**

Simultaneous determination of carbamate and organophosphorus pesticides in fruits and vegetables by liquid chromatography–mass spectrometry 1097(2005)183

**DMOX**

Reversed-phase high-performance liquid chromatography purification of methyl esters of C<sub>16</sub>–C<sub>28</sub> polyunsaturated fatty acids in microalgae, including octacosaoctanoic acid [28:8(n-3)] 1097(2005)54

**Egg phospholipids**

High performance liquid chromatography–tandem mass spectrometry of phospholipid molecular species in eggs from hens fed diets enriched in seal blubber oil 1097(2005)66

**Emodin**

Preparative isolation and purification of five compounds from the Chinese medicinal herb *Polygonum cuspidatum* Sieb. et Zucc by high-speed counter-current chromatography 1097(2005)33

Determination and locational variations in the quantity of hydroxyanthraquinones and their glycosides in rhizomes of *Rheum emodi* using high-performance liquid chromatography 1097(2005)59

**Emodin glycoside**

Determination and locational variations in the quantity of hydroxyanthraquinones and their glycosides in rhizomes of *Rheum emodi* using high-performance liquid chromatography 1097(2005)59

**Enantiomer separation**

Unusual resolution of *N*-(3,5-dinitrobenzoyl)- $\alpha$ -amino acids on a chiral stationary phase based on (+)-(18-crown-6)-2,3,11,12-tetracarboxylic acid 1097(2005)188

**Enthalpy**

Thermodynamic functions and intraparticle mass transfer kinetics of structural analogues of a template on molecularly imprinted polymers in liquid chromatography 1097(2005)84

**Entropy**

Thermodynamic functions and intraparticle mass transfer kinetics of structural analogues of a template on molecularly imprinted polymers in liquid chromatography 1097(2005)84

**ESA OXA metabolites**

Fully automated online solid phase extraction coupled directly to liquid chromatography–tandem mass spectrometry. Quantification of sulfonamide antibiotics, neutral and acidic pesticides at low concentrations in surface waters 1097(2005)138

**Essential oils**

Gas chromatographic–mass spectrometric analysis of essential oils from *Pimpinella aurea*, *Pimpinella corymbosa*, *Pimpinella peregrina* and *Pimpinella puberula* gathered from Eastern and Southern Turkey 1097(2005)192

**Evaporative light-scattering detector (ELSD)**

Reversed-phase high-performance liquid chromatography purification of methyl esters of C<sub>16</sub>–C<sub>28</sub> polyunsaturated fatty acids in microalgae, including octacosaoctanoic acid [28:8(n-3)] 1097(2005)54

**Factor analysis**

Study of the selectivity of reversed-phase columns for the separation of polycarboxylic acids and polyphenol compounds 1097(2005)148

**FAME**

Reversed-phase high-performance liquid chromatography purification of methyl esters of C<sub>16</sub>–C<sub>28</sub> polyunsaturated fatty acids in microalgae, including octacosaoctanoic acid [28:8(n-3)] 1097(2005)54

**Fatty acids**

Reversed-phase high-performance liquid chromatography purification of methyl esters of C<sub>16</sub>–C<sub>28</sub> polyunsaturated fatty acids in microalgae, including octacosaoctanoic acid [28:8(n-3)] 1097(2005)54

**Fish tissue**

Evaluation of a focused sonication probe for arsenic speciation in environmental and biological samples 1097(2005)1

**Fmoc-L-tryptophan imprinted polymers**

Thermodynamic functions and intraparticle mass transfer kinetics of structural analogues of a template on molecularly imprinted polymers in liquid chromatography 1097(2005)84

**Focused ultrasound probe**

Evaluation of a focused sonication probe for arsenic speciation in environmental and biological samples 1097(2005)1

**Food analysis**

Gas chromatographic ion trap mass spectrometry determination of zoxamide residues in grape, grape processing, and in the fermentation process 1097(2005)165

**Frontal analysis**

Systematic errors in the measurement of adsorption isotherms by frontal analysis. Impact of the choice of column hold-up volume, range and density of the data points 1097(2005)98

Thermodynamic functions and intraparticle mass transfer kinetics of structural analogues of a template on molecularly imprinted polymers in liquid chromatography 1097(2005)84

**Fully automated online extraction**

Fully automated online solid phase extraction coupled directly to liquid chromatography–tandem mass spectrometry. Quantification of sulfonamide antibiotics, neutral and acidic pesticides at low concentrations in surface waters 1097(2005)138

**Gas chromatography**

Calibration of solid-phase microextraction for quantitative analysis by gas chromatography 1097(2005)9

**GC**

Gas chromatographic–mass spectrometric analysis of essential oils from *Pimpinella aurea*, *Pimpinella corymbosa*, *Pimpinella peregrina* and *Pimpinella puberula* gathered from Eastern and Southern Turkey 1097(2005)192

**GC–MS**

Gas chromatographic–mass spectrometric analysis of essential oils from *Pimpinella aurea*, *Pimpinella corymbosa*, *Pimpinella peregrina* and *Pimpinella puberula* gathered from Eastern and Southern Turkey 1097(2005)192

**Glycidyl methacrylate**

Design and evaluation of a coupled monolithic preconcentrator–capillary zone electrophoresis system for the extraction of immunoglobulin G from human serum 1097(2005)171

**Gold**

Solid phase extraction of some precious metals from hydrochloric acid to polystyrene-divinylbenzene porous resin impregnated with polyoxyethylene-type nonionic surfactant 1097(2005)179

**Grape**

Gas chromatographic ion trap mass spectrometry determination of zoxamide residues in grape, grape processing, and in the fermentation process 1097(2005)165

**<sup>1</sup>H and <sup>13</sup>C NMR**

Identification of oligomers in polyethyleneterephthalate bottles for mineral water and fruit juice. Development and validation of a high-performance liquid chromatographic method for the determination of first series cyclic trimer 1097(2005)130

**Henry's law constant**

Refined non-steady-state gas-liquid chromatography for accurate determination of limiting activity coefficients of volatile organic compounds in water. Application to C<sub>1</sub>-C<sub>5</sub> alkanols 1097(2005)157

**High performance liquid chromatography**

High performance liquid chromatography-tandem mass spectrometry of phospholipid molecular species in eggs from hens fed diets enriched in seal blubber oil 1097(2005)66

**HPLC**

Determination and locational variations in the quantity of hydroxyanthraquinones and their glycosides in rhizomes of *Rheum emodi* using high-performance liquid chromatography 1097(2005)59

Identification of oligomers in polyethyleneterephthalate bottles for mineral water and fruit juice. Development and validation of a high-performance liquid chromatographic method for the determination of first series cyclic trimer 1097(2005)130

**HPLC-ICP-MS**

Evaluation of a focused sonication probe for arsenic speciation in environmental and biological samples 1097(2005)1

**HSCCC**

Preparative isolation and purification of five compounds from the Chinese medicinal herb *Polygonum cuspidatum* Sieb. et Zucc by high-speed counter-current chromatography 1097(2005)33

**Human serum**

Design and evaluation of a coupled monolithic preconcentrator-capillary zone electrophoresis system for the extraction of immunoglobulin G from human serum 1097(2005)171

**IgG**

Design and evaluation of a coupled monolithic preconcentrator-capillary zone electrophoresis system for the extraction of immunoglobulin G from human serum 1097(2005)171

**Information theory**

Study of the selectivity of reversed-phase columns for the separation of polycarboxylic acids and polyphenol compounds 1097(2005)148

 **$\pi$ - $\pi$  interactions**

Impact of methanol and acetonitrile on separations based on  $\pi$ - $\pi$  interactions with a reversed-phase phenyl column 1097(2005)124

**Ion trap mass spectrometry**

Gas chromatographic ion trap mass spectrometry determination of zoxamide residues in grape, grape processing, and in the fermentation process 1097(2005)165

**Isosteric heat of adsorption**

Thermodynamic functions and intraparticle mass transfer kinetics of structural analogues of a template on molecularly imprinted polymers in liquid chromatography 1097(2005)84

**Isotherm modeling**

Systematic errors in the measurement of adsorption isotherms by frontal analysis. Impact of the choice of column hold-up volume, range and density of the data points 1097(2005)98

**Isotherm parameters**

Thermodynamic functions and intraparticle mass transfer kinetics of structural analogues of a template on molecularly imprinted polymers in liquid chromatography 1097(2005)84

**Limiting activity coefficient**

Refined non-steady-state gas-liquid chromatography for accurate determination of limiting activity coefficients of volatile organic compounds in water. Application to C<sub>1</sub>-C<sub>5</sub> alkanols 1097(2005)157

**Lipids**

Reversed-phase high-performance liquid chromatography purification of methyl esters of C<sub>16</sub>-C<sub>28</sub> polyunsaturated fatty acids in microalgae, including octacosanoic acid [28:8(n-3)] 1097(2005)54

**Liquid chromatography**

Concentration of organic compounds in natural waters with solid-phase dispersion based on advesicle modified silica prior to liquid chromatography 1097(2005)17

Solid-phase extraction coupled with liquid chromatography-tandem mass spectrometry for determination of trace rosiglitazone in urine 1097(2005)74

**Liquid chromatography tandem mass spectrometry**

Simultaneous determination of tetrabromobisphenol A, tetrachlorobisphenol A, bisphenol A and other halogenated analogues in sediment and sludge by high performance liquid chromatography-electrospray tandem mass spectrometry 1097(2005)25

**Liquid chromatography-mass spectrometry**

Simultaneous determination of carbamate and organophosphorus pesticides in fruits and vegetables by liquid chromatography-mass spectrometry 1097(2005)183

**Liquid injection**

Calibration of solid-phase microextraction for quantitative analysis by gas chromatography 1097(2005)9

**Mechanical stability of modified resins**

Characterization of the mechanical properties of polymeric chromatographic particles by micromanipulation 1097(2005)116

**Mesotrione**

Fully automated online solid phase extraction coupled directly to liquid chromatography-tandem mass spectrometry. Quantification of sulfonamide antibiotics, neutral and acidic pesticides at low concentrations in surface waters 1097(2005)138

**Micellar Electrokinetic capillary chromatography**

Monitoring of the conversion from triptolide to triptchlorolide in triptergium wilfordii by micellar electrokinetic capillary chromatography 1097(2005)199

**Micromanipulation method for the determination of mechanical stability**

Characterization of the mechanical properties of polymeric chromatographic particles by micromanipulation 1097(2005)116

**Monolith**

Design and evaluation of a coupled monolithic preconcentrator-capillary zone electrophoresis system for the extraction of immunoglobulin G from human serum 1097(2005)171

**Monoterpenes**

Gas chromatographic–mass spectrometric analysis of essential oils from *Pimpinella aurea*, *Pimpinella corymbosa*, *Pimpinella peregrina* and *Pimpinella puberula* gathered from Eastern and Southern Turkey 1097(2005)192

**MS**

Identification of oligomers in polyethyleneterephthalate bottles for mineral water and fruit juice. Development and validation of a high-performance liquid chromatographic method for the determination of first series cyclic trimer 1097(2005)130

**Must**

Gas chromatographic ion trap mass spectrometry determination of zoxamide residues in grape, grape processing, and in the fermentation process 1097(2005)165

***N*-(3,5-Dinitrobenzoyl)- $\alpha$ -amino acids**

Unusual resolution of *N*-(3,5-dinitrobenzoyl)- $\alpha$ -amino acids on a chiral stationary phase based on (+)-(18-crown-6)-2,3,11,12-tetracarboxylic acid 1097(2005)188

**Nonionic surfactant**

Solid phase extraction of some precious metals from hydrochloric acid to polystyrene-divinylbenzene porous resin impregnated with polyoxyethylene-type nonionic surfactant 1097(2005)179

**Non-steady-state gas–liquid chromatography**

Refined non-steady-state gas–liquid chromatography for accurate determination of limiting activity coefficients of volatile organic compounds in water. Application to C<sub>1</sub>–C<sub>5</sub> alkanols 1097(2005)157

**Oligomers**

Identification of oligomers in polyethyleneterephthalate bottles for mineral water and fruit juice. Development and validation of a high-performance liquid chromatographic method for the determination of first series cyclic trimer 1097(2005)130

**Organophosphorus**

Simultaneous determination of carbamate and organophosphorus pesticides in fruits and vegetables by liquid chromatography–mass spectrometry 1097(2005)183

**Overloaded band profiles**

Systematic errors in the measurement of adsorption isotherms by frontal analysis. Impact of the choice of column hold-up volume, range and density of the data points 1097(2005)98

**Palladium**

Solid phase extraction of some precious metals from hydrochloric acid to polystyrene-divinylbenzene porous resin impregnated with polyoxyethylene-type nonionic surfactant 1097(2005)179

**PET bottles**

Identification of oligomers in polyethyleneterephthalate bottles for mineral water and fruit juice. Development and validation of a high-performance liquid chromatographic method for the determination of first series cyclic trimer 1097(2005)130

**Phenyl columns**

Impact of methanol and acetonitrile on separations based on  $\pi$ – $\pi$  interactions with a reversed-phase phenyl column 1097(2005)124

**Phenylpropanoids**

Gas chromatographic–mass spectrometric analysis of essential oils from *Pimpinella aurea*, *Pimpinella corymbosa*, *Pimpinella peregrina* and *Pimpinella puberula* gathered from Eastern and Southern Turkey 1097(2005)192

**Physcion**

Preparative isolation and purification of five compounds from the Chinese medicinal herb *Polygonum cuspidatum* Sieb. et Zucc by high-speed counter-current chromatography 1097(2005)33

Determination and locational variations in the quantity of hydroxyanthraquinones and their glycosides in rhizomes of *Rheum emodi* using high-performance liquid chromatography 1097(2005)59

**Piceid**

Preparative isolation and purification of five compounds from the Chinese medicinal herb *Polygonum cuspidatum* Sieb. et Zucc by high-speed counter-current chromatography 1097(2005)33

***Pimpinella aurea***

Gas chromatographic–mass spectrometric analysis of essential oils from *Pimpinella aurea*, *Pimpinella corymbosa*, *Pimpinella peregrina* and *Pimpinella puberula* gathered from Eastern and Southern Turkey 1097(2005)192

***Pimpinella corymbosa***

Gas chromatographic–mass spectrometric analysis of essential oils from *Pimpinella aurea*, *Pimpinella corymbosa*, *Pimpinella peregrina* and *Pimpinella puberula* gathered from Eastern and Southern Turkey 1097(2005)192

***Pimpinella peregrina***

Gas chromatographic–mass spectrometric analysis of essential oils from *Pimpinella aurea*, *Pimpinella corymbosa*, *Pimpinella peregrina* and *Pimpinella puberula* gathered from Eastern and Southern Turkey 1097(2005)192

***Pimpinella puberula***

Gas chromatographic–mass spectrometric analysis of essential oils from *Pimpinella aurea*, *Pimpinella corymbosa*, *Pimpinella peregrina* and *Pimpinella puberula* gathered from Eastern and Southern Turkey 1097(2005)192

**Platinum**

Solid phase extraction of some precious metals from hydrochloric acid to polystyrene-divinylbenzene porous resin impregnated with polyoxyethylene-type nonionic surfactant 1097(2005)179

**Polycarboxylic acids**

Study of the selectivity of reversed-phase columns for the separation of polycarboxylic acids and polyphenol compounds 1097(2005)148

**Polyethylene glycol stearyl amine**

Solid phase extraction of some precious metals from hydrochloric acid to polystyrene-divinylbenzene porous resin impregnated with polyoxyethylene-type nonionic surfactant 1097(2005)179

***Polygonum cuspidatum* Sieb. et Zucc**

Preparative isolation and purification of five compounds from the Chinese medicinal herb *Polygonum cuspidatum* Sieb. et Zucc by high-speed counter-current chromatography 1097(2005)33

**Polyphenol**

Study of the selectivity of reversed-phase columns for the separation of polycarboxylic acids and polyphenol compounds 1097(2005)148

**POR model**

Thermodynamic functions and intraparticle mass transfer kinetics of structural analogues of a template on molecularly imprinted polymers in liquid chromatography 1097(2005)84

**Precious metal**

Solid phase extraction of some precious metals from hydrochloric acid to polystyrene-divinylbenzene porous resin impregnated with polyoxyethylene-type nonionic surfactant 1097(2005)179

**Preconcentration**

Design and evaluation of a coupled monolithic preconcentrator-capillary zone electrophoresis system for the extraction of immunoglobulin G from human serum 1097(2005)171

**Preparative HPLC**

Reversed-phase high-performance liquid chromatography purification of methyl esters of C<sub>16</sub>–C<sub>28</sub> polyunsaturated fatty acids in microalgae, including octacosaoctanoic acid [28:8(n-3)] 1097(2005)54

**Protein G**

Design and evaluation of a coupled monolithic preconcentrator-capillary zone electrophoresis system for the extraction of immunoglobulin G from human serum 1097(2005)171

**Proteins**

Design and evaluation of a coupled monolithic preconcentrator-capillary zone electrophoresis system for the extraction of immunoglobulin G from human serum 1097(2005)171

**PUFA**

Reversed-phase high-performance liquid chromatography purification of methyl esters of C<sub>16</sub>–C<sub>28</sub> polyunsaturated fatty acids in microalgae, including octacosaoctanoic acid [28:8(n-3)] 1097(2005)54

**Resveratrol**

Preparative isolation and purification of five compounds from the Chinese medicinal herb *Polygonum cuspidatum* Sieb. et Zucc by high-speed counter-current chromatography 1097(2005)33

**Reversed-phase HPLC**

Study of the selectivity of reversed-phase columns for the separation of polycarboxylic acids and polyphenol compounds 1097(2005)148

***Rheum emodi***

Determination and locational variations in the quantity of hydroxyanthraquinones and their glycosides in rhizomes of *Rheum emodi* using high-performance liquid chromatography 1097(2005)59

**Rice**

Evaluation of a focused sonication probe for arsenic speciation in environmental and biological samples 1097(2005)1

**Role of water for the stability of resins**

Characterization of the mechanical properties of polymeric chromatographic particles by micromanipulation 1097(2005)116

**Rosiglitazone**

Solid-phase extraction coupled with liquid chromatography–tandem mass spectrometry for determination of trace rosiglitazone in urine 1097(2005)74

**Sample transfer efficiency**

Calibration of solid-phase microextraction for quantitative analysis by gas chromatography 1097(2005)9

***Scrippsiella* sp.**

Reversed-phase high-performance liquid chromatography purification of methyl esters of C<sub>16</sub>–C<sub>28</sub> polyunsaturated fatty acids in microalgae, including octacosaoctanoic acid [28:8(n-3)] 1097(2005)54

**Seal blubber oil**

High performance liquid chromatography–tandem mass spectrometry of phospholipid molecular species in eggs from hens fed diets enriched in seal blubber oil 1097(2005)66

**Secondary interactions**

Impact of methanol and acetonitrile on separations based on  $\pi$ – $\pi$  interactions with a reversed-phase phenyl column 1097(2005)124

**Sediment**

Simultaneous determination of tetrabromobisphenol A, tetrachlorobisphenol A, bisphenol A and other halogenated analogues in sediment and sludge by high performance liquid chromatography–electrospray tandem mass spectrometry 1097(2005)25

**Sesquiterpenes**

Gas chromatographic–mass spectrometric analysis of essential oils from *Pimpinella aurea*, *Pimpinella corymbosa*, *Pimpinella peregrina* and *Pimpinella puberula* gathered from Eastern and Southern Turkey 1097(2005)192

**Sludge**

Simultaneous determination of tetrabromobisphenol A, tetrachlorobisphenol A, bisphenol A and other halogenated analogues in sediment and sludge by high performance liquid chromatography–electrospray tandem mass spectrometry 1097(2005)25

**Soil**

Evaluation of a focused sonication probe for arsenic speciation in environmental and biological samples 1097(2005)1

**Solid phase extraction**

Solid phase extraction of some precious metals from hydrochloric acid to polystyrene-divinylbenzene porous resin impregnated with polyoxyethylene-type nonionic surfactant 1097(2005)179

**Solid-phase dispersion**

Concentration of organic compounds in natural waters with solid-phase dispersion based on adesic modified silica prior to liquid chromatography 1097(2005)17

**Solid-phase extraction**

Solid-phase extraction coupled with liquid chromatography–tandem mass spectrometry for determination of trace rosiglitazone in urine 1097(2005)74

**Solid-phase microextraction**

Calibration of solid-phase microextraction for quantitative analysis by gas chromatography 1097(2005)9

**Spirits**

Gas chromatographic ion trap mass spectrometry determination of zoxamide residues in grape, grape processing, and in the fermentation process 1097(2005)165

**SPME fiber injection**

Calibration of solid-phase microextraction for quantitative analysis by gas chromatography 1097(2005)9

**SPME liner**

Calibration of solid-phase microextraction for quantitative analysis by gas chromatography 1097(2005)9

**Sulcotrione**

Fully automated online solid phase extraction coupled directly to liquid chromatography–tandem mass spectrometry. Quantification of sulfonamide antibiotics, neutral and acidic pesticides at low concentrations in surface waters 1097(2005)138

**Sulfonamides**

Simultaneous extraction and analysis of 11 tetracycline and sulfonamide antibiotics in influent and effluent domestic wastewater by solid-phase extraction and liquid chromatography–electrospray ionization tandem mass spectrometry 1097(2005)40

**Surface diffusion**

Thermodynamic functions and intraparticle mass transfer kinetics of structural analogues of a template on molecularly imprinted polymers in liquid chromatography 1097(2005)84

**Systematic errors**

Systematic errors in the measurement of adsorption isotherms by frontal analysis. Impact of the choice of column hold-up volume, range and density of the data points 1097(2005)98

**Tandem mass spectrometry**

High performance liquid chromatography-tandem mass spectrometry of phospholipid molecular species in eggs from hens fed diets enriched in seal blubber oil 1097(2005)66

Solid-phase extraction coupled with liquid chromatography-tandem mass spectrometry for determination of trace rosiglitazone in urine 1097(2005)74

**TBBPA**

Simultaneous determination of tetrabromobisphenol A, tetrachlorobisphenol A, bisphenol A and other halogenated analogues in sediment and sludge by high performance liquid chromatography-electrospray tandem mass spectrometry 1097(2005)25

**TCBPA**

Simultaneous determination of tetrabromobisphenol A, tetrachlorobisphenol A, bisphenol A and other halogenated analogues in sediment and sludge by high performance liquid chromatography-electrospray tandem mass spectrometry 1097(2005)25

**(+)-(18-Crown-6)-2,3,11,12-tetracarboxylic acid**

Unusual resolution of *N*-(3,5-dinitrobenzoyl)- $\alpha$ -amino acids on a chiral stationary phase based on (+)-(18-crown-6)-2,3,11,12-tetracarboxylic acid 1097(2005)188

**Tetracyclines**

Simultaneous extraction and analysis of 11 tetracycline and sulfonamide antibiotics in influent and effluent domestic wastewater by solid-phase extraction and liquid chromatography-electrospray ionization tandem mass spectrometry 1097(2005)40

**Tripchlorolide**

Monitoring of the conversion from triptolide to tripchlorolide in tripterygium wilfordii by micellar electrokinetic capillary chromatography 1097(2005)199

***Tripterygium wilfordii* Hook F**

Monitoring of the conversion from triptolide to tripchlorolide in tripterygium wilfordii by micellar electrokinetic capillary chromatography 1097(2005)199

**Triptolide**

Monitoring of the conversion from triptolide to tripchlorolide in tripterygium wilfordii by micellar electrokinetic capillary chromatography 1097(2005)199

**Urine**

Solid-phase extraction coupled with liquid chromatography-tandem mass spectrometry for determination of trace rosiglitazone in urine 1097(2005)74

 **$\omega$ 3 Fatty acids**

High performance liquid chromatography-tandem mass spectrometry of phospholipid molecular species in eggs from hens fed diets enriched in seal blubber oil 1097(2005)66

**Validation**

Identification of oligomers in polyethyleneterephthalate bottles for mineral water and fruit juice. Development and validation of a high-performance liquid

chromatographic method for the determination of first series cyclic trimer 1097(2005)130

**van't Hoff plot**

Thermodynamic functions and intraparticle mass transfer kinetics of structural analogues of a template on molecularly imprinted polymers in liquid chromatography 1097(2005)84

**VLC-HUFA**

Reversed-phase high-performance liquid chromatography purification of methyl esters of  $C_{16}$ - $C_{28}$  polyunsaturated fatty acids in microalgae, including octacosaoctanoic acid [28:8(n-3)] 1097(2005)54

**VOC**

Refined non-steady-state gas-liquid chromatography for accurate determination of limiting activity coefficients of volatile organic compounds in water. Application to  $C_1$ - $C_5$  alkanols 1097(2005)157

**Wastewater**

Simultaneous extraction and analysis of 11 tetracycline and sulfonamide antibiotics in influent and effluent domestic wastewater by solid-phase extraction and liquid chromatography-electrospray ionization tandem mass spectrometry 1097(2005)40

**Water**

Refined non-steady-state gas-liquid chromatography for accurate determination of limiting activity coefficients of volatile organic compounds in water. Application to  $C_1$ - $C_5$  alkanols 1097(2005)157

**Water samples**

Concentration of organic compounds in natural waters with solid-phase dispersion based on advesicle modified silica prior to liquid chromatography 1097(2005)17

**Wine**

Gas chromatographic ion trap mass spectrometry determination of zoxamide residues in grape, grape processing, and in the fermentation process 1097(2005)165

**WWTPs**

Simultaneous extraction and analysis of 11 tetracycline and sulfonamide antibiotics in influent and effluent domestic wastewater by solid-phase extraction and liquid chromatography-electrospray ionization tandem mass spectrometry 1097(2005)40

**XAD-4**

Solid phase extraction of some precious metals from hydrochloric acid to polystyrene-divinylbenzene porous resin impregnated with polyoxyethylene-type nonionic surfactant 1097(2005)179

**Yeasts**

Gas chromatographic ion trap mass spectrometry determination of zoxamide residues in grape, grape processing, and in the fermentation process 1097(2005)165

**Zoxamide**

Gas chromatographic ion trap mass spectrometry determination of zoxamide residues in grape, grape processing, and in the fermentation process 1097(2005)165
