

Subject index of volume 1099

AChE

Effect-directed analysis by high-performance liquid chromatography with gas-segmented enzyme inhibition 1099(2005)103

Acrylamide

Development of a quantitative method for determination of acrylamide in infant powdered milk and baby foods in jars using isotope dilution liquid chromatography/electrospray ionization tandem mass spectrometry 1099(2005)198

Additives

Experimental design approach for the optimisation of pressurised fluid extraction of additives from polyethylene films 1099(2005)75

Adsorption data reproducibility

Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1

Adsorption energy distribution

Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1

Adsorption isotherm

Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1

Air-segmentation

Effect-directed analysis by high-performance liquid chromatography with gas-segmented enzyme inhibition 1099(2005)103

Amitrole

Determination of amitrole and urazole in water samples by capillary zone electrophoresis using simultaneous UV and amperometrical detection 1099(2005)191

Amperometrical detection

Determination of amitrole and urazole in water samples by capillary zone electrophoresis using simultaneous UV and amperometrical detection 1099(2005)191

Anionic oligosaccharides

Purification of oligouronides using hollow-fiber membrane functionalised with L-histidine 1099(2005)121

Antibody purification

Optimisation and robustness analysis of a hydrophobic interaction chromatography step 1099(2005)157

APCI

Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1099(2005)127

Baby foods in jars

Development of a quantitative method for determination of acrylamide in infant powdered milk and baby foods in jars using isotope dilution liquid chromatography/electrospray ionization tandem mass spectrometry 1099(2005)198

Band broadening

Fast size-exclusion chromatography—Theoretical and practical considerations 1099(2005)92

Effect-directed analysis by high-performance liquid chromatography with gas-segmented enzyme inhibition 1099(2005)103

Bioresponse-linked instrumental analysis

Effect-directed analysis by high-performance liquid chromatography with gas-segmented enzyme inhibition 1099(2005)103

Biosensor

Effect-directed analysis by high-performance liquid chromatography with gas-segmented enzyme inhibition 1099(2005)103

Bleaching agents

Sulfur speciation by capillary zone electrophoresis. Determination of dithionite and its decomposition products sulfite, sulfate and thiosulfate in commercial bleaching agents 1099(2005)185

2-(5-Bromo-2-pyridylazo)-5-diethylaminophenol

Chelates of cobalt(III) and iron(II) with 2-(5-bromo-2-pyridylazo)-5-diethylaminophenol as test probes for the characterization of chromatographic effects on a reversed-phase liquid chromatography stationary phase 1099(2005)111

Capillary electrophoresis

Determination of amitrole and urazole in water samples by capillary zone electrophoresis using simultaneous UV and amperometrical detection 1099(2005)191

Capillary zone electrophoresis

Sulfur speciation by capillary zone electrophoresis. Determination of dithionite and its decomposition products sulfite, sulfate and thiosulfate in commercial bleaching agents 1099(2005)185

Chelates of Co(III) and Fe(II)

Chelates of cobalt(III) and iron(II) with 2-(5-bromo-2-pyridylazo)-5-diethylaminophenol as test probes for the characterization of chromatographic effects on a reversed-phase liquid chromatography stationary phase 1099(2005)111

Chromatographic effects

Chelates of cobalt(III) and iron(II) with 2-(5-bromo-2-pyridylazo)-5-diethylaminophenol as test probes for the characterization of chromatographic effects on a reversed-phase liquid chromatography stationary phase 1099(2005)111

CL20

Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1099(2005)127

Column heterogeneity

Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1

Competitive adsorption isotherms

Accurate and rapid estimation of adsorption isotherms in liquid chromatography using the inverse method on plateaus 1099(2005)167

d-Allethrin

Liquid chromatography–tandem mass spectrometry for the identification of impurities in d-allethrin samples 1099(2005)149

Decomposition products

Sulfur speciation by capillary zone electrophoresis. Determination of dithionite and its decomposition products sulfite, sulfate and thiosulfate in commercial bleaching agents 1099(2005)185

Dithionite

Sulfur speciation by capillary zone electrophoresis. Determination of dithionite and its decomposition products sulfite, sulfate and thiosulfate in commercial bleaching agents 1099(2005)185

Electroosmotic flow

Electroosmotic flow in poly(dimethylsiloxane) microchannels 1099(2005)203

Experimental design

Experimental design approach for the optimisation of pressurised fluid extraction of additives from polyethylene films 1099(2005)75

Explosives

Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1099(2005)127

Extrathermodynamic relationship

Extrathermodynamic interpretation of retention equilibria in reversed-phase liquid chromatography using octadecylsilyl-silica gels bonded to C₁ and C₁₈ ligands of different densities 1099(2005)136

Fast-SEC

Fast size-exclusion chromatography—Theoretical and practical considerations 1099(2005)92

Frontal analysis

Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1

Gas chromatography–mass spectrometry

Determination of volatile organic compounds in different microenvironments by multibed adsorption and short-path thermal desorption followed by gas chromatographic–mass spectrometric analysis 1099(2005)43

High resolution screening

Effect-directed analysis by high-performance liquid chromatography with gas-segmented enzyme inhibition 1099(2005)103

High-throughput screening

Fast size-exclusion chromatography—Theoretical and practical considerations 1099(2005)92

HMX

Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1099(2005)127

HNS

Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1099(2005)127

HPLC–ESI/APCI–MS

Liquid chromatography–tandem mass spectrometry for the identification of impurities in d-allethrin samples 1099(2005)149

Hydrophobic interaction chromatography

Optimisation and robustness analysis of a hydrophobic interaction chromatography step 1099(2005)157

Hypercarb

Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1099(2005)127

Impurities identification

Liquid chromatography–tandem mass spectrometry for the identification of impurities in d-allethrin samples 1099(2005)149

Indirect amperometric detection

Electroosmotic flow in poly(dimethylsiloxane) microchannels 1099(2005)203

Infant powdered milk

Development of a quantitative method for determination of acrylamide in infant powdered milk and baby foods in jars using isotope dilution liquid chromatography/electrospray ionization tandem mass spectrometry 1099(2005)198

Inorganic ions

Electroosmotic flow in poly(dimethylsiloxane) microchannels 1099(2005)203

Interaction

Purification of oligouronides using hollow-fiber membrane functionalised with L-histidine 1099(2005)121

In-tube SPME

Poly(acrylamide-vinylpyridine-*N,N'*-methylene bisacrylamide) monolithic capillary for in-tube solid-phase microextraction coupled to high performance liquid chromatography 1099(2005)84

Inverse method

Accurate and rapid estimation of adsorption isotherms in liquid chromatography using the inverse method on plateaus 1099(2005)167

Ion trap analyser

Liquid chromatography–tandem mass spectrometry for the identification of impurities in d-allethrin samples 1099(2005)149

Ionizable compounds

Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1

Isomers

Separation of substituted aromatic isomers with porous graphitic carbon in subcritical fluid chromatography 1099(2005)175

Knitted reactor

Effect-directed analysis by high-performance liquid chromatography with gas-segmented enzyme inhibition 1099(2005)103

- LC**
Accurate and rapid estimation of adsorption isotherms in liquid chromatography using the inverse method on plateaus 1099(2005)167
- LC-MS**
Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography-atmospheric pressure chemical ionization mass spectrometry 1099(2005)127
- LC-MS/MS**
Development of a quantitative method for determination of acrylamide in infant powdered milk and baby foods in jars using isotope dilution liquid chromatography/electrospray ionization tandem mass spectrometry 1099(2005)198
- L-Histidine**
Purification of oligouronides using hollow-fiber membrane functionalised with L-histidine 1099(2005)121
- Ligand density in RPLC**
Extrathermodynamic interpretation of retention equilibria in reversed-phase liquid chromatography using octadecylsilyl-silica gels bonded to C₁ and C₁₈ ligands of different densities 1099(2005)136
- Linear solvation energy relationship**
Separation of substituted aromatic isomers with porous graphitic carbon in subcritical fluid chromatography 1099(2005)175
- Liquid chromatography**
Poly(acrylamide-vinylpyridine-*N,N'*-methylene bisacrylamide) monolithic capillary for in-tube solid-phase microextraction coupled to high performance liquid chromatography 1099(2005)84
- Micellar media**
Study of the interactions between phenolic compounds and micellar media using micellar solid-phase microextraction/gas chromatography 1099(2005)64
- Micelle-partition coefficients**
Study of the interactions between phenolic compounds and micellar media using micellar solid-phase microextraction/gas chromatography 1099(2005)64
- Modelling and simulation**
Optimisation and robustness analysis of a hydrophobic interaction chromatography step 1099(2005)157
- Monolithic capillary**
Poly(acrylamide-vinylpyridine-*N,N'*-methylene bisacrylamide) monolithic capillary for in-tube solid-phase microextraction coupled to high performance liquid chromatography 1099(2005)84
- Multisorbent adsorption**
Determination of volatile organic compounds in different microenvironments by multibed adsorption and short-path thermal desorption followed by gas chromatographic-mass spectrometric analysis 1099(2005)43
- Normal-phase-HPLC**
Experimental design approach for the optimisation of pressurised fluid extraction of additives from polyethylene films 1099(2005)75
- Numerical method**
Accurate and rapid estimation of adsorption isotherms in liquid chromatography using the inverse method on plateaus 1099(2005)167
- Optimisation**
Optimisation and robustness analysis of a hydrophobic interaction chromatography step 1099(2005)157
- Organic modifier**
Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1
- PDMS microchip**
Electroosmotic flow in poly(dimethylsiloxane) microchannels 1099(2005)203
- PETN**
Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography-atmospheric pressure chemical ionization mass spectrometry 1099(2005)127
- Phenols**
Study of the interactions between phenolic compounds and micellar media using micellar solid-phase microextraction/gas chromatography 1099(2005)64
- Phenoxyacetic acid herbicides**
The evaluation of different sorbents for the preconcentration of phenoxyacetic acid herbicides and their metabolites from soils 1099(2005)55
- Poly(acrylamide-vinylpyridine-*N,N'*-methylene bisacrylamide)**
Poly(acrylamide-vinylpyridine-*N,N'*-methylene bisacrylamide) monolithic capillary for in-tube solid-phase microextraction coupled to high performance liquid chromatography 1099(2005)84
- Polydispersity**
Fast size-exclusion chromatography—Theoretical and practical considerations 1099(2005)92
- Polyethylene**
Experimental design approach for the optimisation of pressurised fluid extraction of additives from polyethylene films 1099(2005)75
- Polymeric sorbents**
The evaluation of different sorbents for the preconcentration of phenoxyacetic acid herbicides and their metabolites from soils 1099(2005)55
- Porous graphitic carbon**
Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography-atmospheric pressure chemical ionization mass spectrometry 1099(2005)127
- Separation of substituted aromatic isomers with porous graphitic carbon in subcritical fluid chromatography 1099(2005)175
- Pressure**
Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1
- Pressurised fluid extraction**
Experimental design approach for the optimisation of pressurised fluid extraction of additives from polyethylene films 1099(2005)75
- Probing**
Chelates of cobalt(III) and iron(II) with 2-(5-bromo-2-pyridylazo)-5-diethylaminophenol as test probes for the characterization of chromatographic effects on a reversed-phase liquid chromatography stationary phase 1099(2005)111
- Pseudobioaffinity**
Purification of oligouronides using hollow-fiber membrane functionalised with L-histidine 1099(2005)121
- Purification**
Purification of oligouronides using hollow-fiber membrane functionalised with L-histidine 1099(2005)121

RDX

Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1099(2005)127

Retention mechanism

Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1

Extrathermodynamic interpretation of retention equilibria in reversed-phase liquid chromatography using octadecylsilyl-silica gels bonded to C₁ and C₁₈ ligands of different densities 1099(2005)136

Reversed-phase liquid chromatography

Extrathermodynamic interpretation of retention equilibria in reversed-phase liquid chromatography using octadecylsilyl-silica gels bonded to C₁ and C₁₈ ligands of different densities 1099(2005)136

Robustness analysis

Optimisation and robustness analysis of a hydrophobic interaction chromatography step 1099(2005)157

RP-HPLC

Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1

RPLC stationary phase

Chelates of cobalt(III) and iron(II) with 2-(5-bromo-2-pyridylazo)-5-diethylaminophenol as test probes for the characterization of chromatographic effects on a reversed-phase liquid chromatography stationary phase 1099(2005)111

Segmented flow

Effect-directed analysis by high-performance liquid chromatography with gas-segmented enzyme inhibition 1099(2005)103

Short-path thermal desorption

Determination of volatile organic compounds in different microenvironments by multibed adsorption and short-path thermal desorption followed by gas chromatographic–mass spectrometric analysis 1099(2005)43

Single quadrupole analyser

Liquid chromatography–tandem mass spectrometry for the identification of impurities in d-allethrin samples 1099(2005)149

Size-exclusion chromatography

Fast size-exclusion chromatography—Theoretical and practical considerations 1099(2005)92

Soils

The evaluation of different sorbents for the preconcentration of phenoxyacetic acid herbicides and their metabolites from soils 1099(2005)55

Solid-phase extraction

The evaluation of different sorbents for the preconcentration of phenoxyacetic acid herbicides and their metabolites from soils 1099(2005)55

Solid-phase microextraction

Study of the interactions between phenolic compounds and micellar media using micellar solid-phase microextraction/gas chromatography 1099(2005)64

Stabilizers

Sulfur speciation by capillary zone electrophoresis. Determination of dithionite and its decomposition products sulfite, sulfate and thiosulfate in commercial bleaching agents 1099(2005)185

Substituted aromatic

Separation of substituted aromatic isomers with porous graphitic carbon in subcritical fluid chromatography 1099(2005)175

Supercritical fluid chromatography

Separation of substituted aromatic isomers with porous graphitic carbon in subcritical fluid chromatography 1099(2005)175

μ-TAS

Effect-directed analysis by high-performance liquid chromatography with gas-segmented enzyme inhibition 1099(2005)103

Temperature

Critical contribution of nonlinear chromatography to the understanding of retention mechanism in reversed-phase liquid chromatography 1099(2005)1

TNT

Determination and characterization of organic explosives using porous graphitic carbon and liquid chromatography–atmospheric pressure chemical ionization mass spectrometry 1099(2005)127

Urazole

Determination of amitrole and urazole in water samples by capillary zone electrophoresis using simultaneous UV and amperometrical detection 1099(2005)191

Volatile organic compound

Determination of volatile organic compounds in different microenvironments by multibed adsorption and short-path thermal desorption followed by gas chromatographic–mass spectrometric analysis 1099(2005)43

Water samples

Determination of amitrole and urazole in water samples by capillary zone electrophoresis using simultaneous UV and amperometrical detection 1099(2005)191
