Notes and News

Announcements and other items of crystallographic interest will be published under this heading at the discretion of the Editorial Board. The notes (in duplicate) should be sent to the Executive Secretary of the International Union of Crystallography (J. N. King, International Union of Crystallography, 13 White Friars, Chester CH1 1NZ, England).

Molecular Structures and Dimensions

The International Union of Crystallography and the Cambridge Crystallographic Data Centre announce the publication of a new volume in this series, Volume 6, entitled *Bibliography 1973-74, Organic and Organometallic Crystal Structures*. This volume covers the literature till mid 1974 for the principal journals and contains references to over 2000 structure determinations. Entries are arranged in 86 chemical classes and cover organic compounds, complexes and organometallic compounds. The cumulative indexes, which go back to 1935, give references to a total of about 12000 entries.

The price of the new volume is 70 Netherlands guilders

(about U.S. \$27 at current rates of exchange). Personal copies may be purchased at a reduced price of 50 Netherlands guilders (about \$25). Copies are available directly from Oosthoek, Scheltema & Holkema, Emmalaan 27, Utrecht, The Netherlands. Alternatively, orders may be placed with Polycrystal Book Service, P.O. Box 11567, Pittsburgh, Pennsylvania 15238, U.S.A. or with any bookseller. Standing orders may be placed direct with the publishers, which will ensure the earliest possible despatch of subsequent volumes when they are published. Orders may also be placed for the earlier bibliographic volumes and for the numerical data volume A1, *Interatomic Distances 1960-1965, Organic and Organometallic Crystal Structures*. A further numerical data volume for 1966-69 is in preparation.
