

Compound Index Vol. 806

N-Acetylaspartate

Rapid and sensitive screening for and chemical diagnosis of Canavan disease by gas chromatography–mass spectrometry 806(2004)33

Acrolein

Monitoring of urinary acrolein concentration in patients receiving cyclophosphamide and ifosfamide 806(2004)59

Albiflorin

Solid-phase extraction–liquid chromatographic method for the determination and pharmacokinetic studies of albiflorin and paeoniflorin in rat serum after oral administration of Si–Wu decoction 806(2004)127

Amino acid neurotransmitters

Simultaneous determination of vigabatrin and amino acid neurotransmitters in brain microdialysates by capillary electrophoresis with laser-induced fluorescence detection 806(2004)237

5-Aminolevulinic acid

Quantification of urinary 5-aminolevulinic acid by gas chromatography–mass spectrometry 806(2004)19

Amphetamine

Development of a liquid chromatography–tandem mass spectrometric method for the determination of methamphetamine and amphetamine using small volumes of rat serum 806(2004)81

Arginine

Liquid chromatographic–fluorimetric method for the estimation of nitric oxide biosynthesis in the central nervous system 806(2004)133

Barbiturates

Simultaneous determination of barbiturates in human biological fluids by direct immersion solid-phase microextraction and gas chromatography–mass spectrometry 806(2004)65

Bovine normal prion protein

Purification of recombinant bovine normal prion protein PrP(104–242) by HPHIC 806(2004)185

Cisapride

Liquid chromatographic determination including simultaneous “on-cartridge” separation of ranitidine cisapride drug combinations from paediatric plasma samples using an automated solid-phase extraction procedure 806(2004)263

Citrulline

Liquid chromatographic–fluorimetric method for the estimation of nitric oxide biosynthesis in the central nervous system 806(2004)133

Cocaine

Determination of cocaine, its metabolites, pyrolysis products, and ethanol adducts in postmortem fluids and tissues using Zymark® automated solid-phase extraction and gas chromatography–mass spectrometry 806(2004)141

Cocaine, pyrolysis products

Determination of cocaine, its metabolites, pyrolysis products, and ethanol adducts in postmortem fluids and tissues using Zymark® automated solid-phase extraction and gas chromatography–mass spectrometry 806(2004)141

Cocaine-ethanol adducts

Determination of cocaine, its metabolites, pyrolysis products, and ethanol adducts in postmortem fluids and tissues using Zymark® automated solid-phase extraction and gas chromatography–mass spectrometry 806(2004)141

Creatine kinase

Heterogeneity of mitochondrial creatine kinase 806(2004)95

Cyclophosphamide

Monitoring of urinary acrolein concentration in patients receiving cyclophosphamide and ifosfamide 806(2004)59

Cylindrospermopsin

Interval immobilization technique for recognition toward a highly hydrophilic cyanobacterium toxin 806(2004)229

2,4-Dinitrophenylhydrazine

Methyl malondialdehyde is not suitable as an internal standard for malondialdehyde detection in urine after derivatisation with 2,4-dinitrophenylhydrazine 806(2004)295

Drugs of abuse

Validated semiquantitative/quantitative screening of 51 drugs in whole blood as silylated derivatives by gas chromatography–selected ion monitoring mass spectrometry and gas chromatography electron capture detection 806(2004)205

Enzymes

Improved determination of bovine glutaminy cyclase activity using pre-column derivatization and reversed-phase high-performance liquid chromatography with ultraviolet detection 806(2004)113

Fosmidomycin

Determination of fosmidomycin in human serum and urine by capillary electrophoresis 806(2004)255

Fumonisin

Fumonisin-*ortho*-phthalaldehyde derivative is stabilized at low temperature 806(2004)311

Glutaminy cyclase

Improved determination of bovine glutaminy cyclase activity using pre-column derivatization and reversed-phase high-performance liquid chromatography with ultraviolet detection 806(2004)113

Hemoglobins

Development of an isotope dilution mass spectrometry assay for HbA1c based on enzyme-cleaved peptide analysis 806(2004)25

Hesperidin

Determination of extracellular hesperidin in blood and bile of anaesthetized rats by microdialysis with high-performance liquid chromatography: a pharmacokinetic application 806(2004)161

Hydrochlorothiazide

Sensitive and selective liquid chromatography–electrospray ionization tandem mass spectrometry analysis of hydrochlorothiazide in rat plasma 806(2004)199

Ibuprofen

Enantioselective immunorecognition of protein modification with optically active ibuprofen using polyclonal antibody 806(2004)11

Ifosphamide

Monitoring of urinary acrolein concentration in patients receiving cyclophosphamide and ifosphamide 806(2004)59

Indinavir

Reversed-phase liquid chromatography with ultraviolet detection for simultaneous quantitation of indinavir and propranolol from ex-vivo rat intestinal permeability studies 806(2004)277

Integrin

High-throughput sample preparation procedures for the quantitation of a new bone integrin $\alpha_v\beta_3$ antagonist in human plasma and urine using liquid chromatography–tandem mass spectrometry 806(2004)167

Isoflavones

Determination of isoflavones in soybean food and human urine using liquid chromatography with electrochemical detection 806(2004)101

Methadone

Method development and validation for quantitative determination of methadone enantiomers in human plasma by liquid chromatography/tandem mass spectrometry 806(2004)191

Methamphetamine

Development of a liquid chromatography–tandem mass spectrometric method for the determination of methamphetamine and amphetamine using small volumes of rat serum 806(2004)81

2-Methoxyestradiol

Determination of the antiangiogenesis agent 2-methoxyestradiol in human plasma by liquid chromatography with ultraviolet detection 806(2004)289

Methyl malondialdehyde

Methyl malondialdehyde is not suitable as an internal standard for malondialdehyde detection in urine after derivatisation with 2,4-dinitrophenylhydrazine 806(2004)295

Midazolam

Determination of midazolam in human plasma by liquid chromatography with mass-spectrometric detection 806(2004)305

Milnacipran

Determination of milnacipran, a serotonin and noradrenaline reuptake inhibitor, in human plasma using liquid chromatography with spectrofluorimetric detection 806(2004)221

Mycophenolic acid

Determination of the immunosuppressant mycophenolic acid in human serum by solid-phase microextraction coupled to liquid chromatography 806(2004)89

Nitric oxide

Liquid chromatographic–fluorimetric method for the estimation of nitric oxide biosynthesis in the central nervous system 806(2004)133

N-Methylcoculaurine

Detection and determination of reticuline and *N*-methylcoculaurine in the *Annonaceae* family using liquid chromatography–tandem mass spectrometry 806(2004)75

Opioidmimetics

Application of liquid chromatography–tandem mass spectrometry for the determination of opioidmimetics in the brain dialysates from rats treated with opioidmimetics intraperitoneally 806(2004)53

Organic acids

Solid phase extraction procedure for urinary organic acid analysis by gas chromatography mass spectrometry 806(2004)283

Paeoniflorin

Solid-phase extraction–liquid chromatographic method for the determination and pharmacokinetic studies of albiflorin and paeoniflorin in rat serum after oral administration of Si–Wu decoction 806(2004)127

Phenylalanine

Measurement of hepatic phenylalanine metabolism in children using the [^{13}C]–phenylalanine breath test and gas chromatography–mass spectrometry 806(2004)5

Phosphatidylcholine monohydroperoxides

Determination of phosphatidylcholine monohydroperoxides using quadrupole time-of-flight mass spectrometry 806(2004)41

Polyclonal antibodies

Enantioselective immunorecognition of protein modification with optically active ibuprofen using polyclonal antibody 806(2004)11

Polynuclear aromatic hydrocarbons

Liquid chromatography–mass spectrometry analysis of hydroxylated polycyclic aromatic hydrocarbons, formed in a simulator of the human gastrointestinal tract 806(2004)245

Propranolol

Reversed-phase liquid chromatography with ultraviolet detection for simultaneous quantitation of indinavir and propranolol from ex-vivo rat intestinal permeability studies 806(2004)277

Ranitidine

Liquid chromatographic determination including simultaneous “on-cartridge” separation of ranitidine cisapride drug combinations from paediatric plasma samples using an automated solid-phase extraction procedure 806(2004)263

Reticuline

Detection and determination of reticuline and *N*-methylcoculaurine in the *Annonaceae* family using liquid chromatography–tandem mass spectrometry 806(2004)75

Rivastigmine

Headspace solid-phase microextraction and capillary gas chromatographic–mass spectrometric determination of rivastigmine in canine plasma samples 806(2004)271

Sphingolipids

Evaluation of sphingolipids in vitreous bodies from a patient with Gaucher disease, using delayed extraction matrix-assisted laser desorption ionization time-of-flight mass spectrometry 806(2004)47

Sumatriptan

High performance liquid chromatographic method for the determination of sumatriptan with fluorescence detection in human plasma 806(2004)299

Vigabatrin

Simultaneous determination of vigabatrin and amino acid neurotransmitters in brain microdialysates by capillary electrophoresis with laser-induced fluorescence detection 806(2004)237
