

## Keyword Index Vol. 810

### Acetone

Determination of acetone in human breath by gas chromatography–mass spectrometry and solid-phase microextraction with on-fiber derivatization 810(2004)269

### allo-Threonine

Determination of D- and L-enantiomers of threonine and allo-threonine in mammals using two-step high-performance liquid chromatography 810(2004)245

### Amino acid

Determination of D- and L-enantiomers of threonine and allo-threonine in mammals using two-step high-performance liquid chromatography 810(2004)245

### Amphetamine-type stimulant drugs

Single-step procedure for gas chromatography–mass spectrometry screening and quantitative determination of amphetamine-type stimulants and related drugs in blood, serum, oral fluid and urine samples 810(2004)57

### Analytical uncertainty

Wide concentration range investigation of recovery, precision and error structure in liquid chromatography 810(2004)111

### Androstenol

Urinary analysis of 16(5 $\alpha$ )-androst-3 $\alpha$ -ol by gas chromatography/com-bustion/isotope ratio mass spectrometry: implications in anti-doping ana-lysis 810(2004)157

### Anticonvulsants

Simultaneous high-performance liquid chromatographic analysis of pregabalin, gabapentin and vigabatrin in human serum by precolumn derivatization with *o*-phthalaldehyde and fluorescence detection 810(2004)297

### Antitumoral agents

Quantitative determination of the antitumor alkyl ether phospholipid edelfosine by reversed-phase liquid chromatography–electrospray mass spectrometry: application to cell uptake studies and characterization of drug delivery systems 810(2004)85

### Atazanavir

Determination of the new HIV-protease inhibitor atazanavir by liquid chromatography after solid-phase extraction 810(2004)25

### All-trans-retinoic acid

Quantification of a novel retinoic acid metabolism inhibitor, 4-(1H-imidazol-1-yl)retinoic acid (VN/14-1RA) and other retinoids in rat plasma by liquid chromatography with diode-array detection 810(2004)203

### 3'-Azido-3'-deoxythymidine

Evaluation of DNA adduction of AZT in peripheral blood leukocytes of HIV-infected individuals by <sup>32</sup>P-post-labeling thin-layer chromatography: a feasibility study 810(2004)1

### Baicalin

Study on the precipitation reaction between baicalin and berberine by HPLC 810(2004)165

### Berberine

Study on the precipitation reaction between baicalin and berberine by HPLC 810(2004)165

### Biliverdin

Determination of porphyrins and biliverdin in bile and excreta of birds by a single liquid chromatography–ultraviolet detection analysis 810(2004)305

### Bioanalysis

Bioanalysis of tobramycin for therapeutic drug monitoring by solid-phase extraction and capillary zone electrophoresis 810(2004)313

### Bioavailability

Development and validation of a liquid chromatographic–tandem mass spectrometric method for the determination of caffeic acid phenethyl ester in rat plasma and urine 810(2004)129

Determination of glimepiride in human plasma using semi-microbore high performance liquid chromatography with column-switching 810(2004)143

### Blood mononuclear cells

Normal phase liquid chromatography–electrospray ionization tandem mass spectrometry analysis of phospholipid molecular species in blood mono-nuclear cells: application to cystic fibrosis 810(2004)173

### Breath analysis

Determination of acetone in human breath by gas chromatography–mass spectrometry and solid-phase microextraction with on-fiber derivatization 810(2004)269

### Caffeic acid phenethyl ester

Development and validation of a liquid chromatographic–tandem mass spectrometric method for the determination of caffeic acid phenethyl ester in rat plasma and urine 810(2004)129

### Catechin

Determination of catechins and catechin gallates in tissues by liquid chromatography with coulometric array detection and selective solid phase extraction 810(2004)187

**Cell culture medium**

Micro-quantitation of lipids in serum-free cell culture media: a critical aspect is the minimization of interference from medium components and chemical reagents 810(2004)119

**Chiral separation**

Determination of D- and L-enantiomers of threonine and allo-threonine in mammals using two-step high-performance liquid chromatography 810(2004)245

**Citalopram**

Liquid chromatography–positive ion electrospray mass spectrometry method for the quantification of citalopram in human plasma 810(2004)235

Simultaneous determination of levofloxacin, gatifloxacin and moxifloxacin in serum by liquid chromatography with column switching 810(2004)77

Determination of glimepiride in human plasma using semi-microbore high performance liquid chromatography with column-switching 810(2004)143

**Coulometric multi-electrode array system**

Determination of multiple redox-active compounds by high-performance liquid chromatography with coulometric multi-electrode array system 810(2004)93

**Cystic fibrosis**

Normal phase liquid chromatography–electrospray ionization tandem mass spectrometry analysis of phospholipid molecular species in blood mononuclear cells: application to cystic fibrosis 810(2004)173

**Degradation**

Application of liquid chromatography/mass spectrometry and nuclear magnetic resonance to the identification of degradates of a novel insulin sensitizer in aqueous solutions 810(2004)209

**Deltamethrin**

Determination of deltamethrin and its metabolite 3-phenoxybenzoic acid in male rat plasma by high-performance liquid chromatography 810(2004)221

**Dental caries**

Detection of cariogenic bacterial genes by microchip electrophoresis 810(2004)41

**Derivatization, GC**

Determination of acetone in human breath by gas chromatography–mass spectrometry and solid-phase microextraction with on-fiber derivatization 810(2004)269

**Design of experiments**

Simultaneous high-performance liquid chromatographic analysis of pregabalin, gabapentin and vigabatrin in human serum by precolumn derivatization with *o*-phthalaldehyde and fluorescence detection 810(2004)297

**Dextranase gene**

Detection of cariogenic bacterial genes by microchip electrophoresis 810(2004)41

**Dimerization**

Application of liquid chromatography/mass spectrometry and nuclear magnetic resonance to the identification of degradates of a novel insulin sensitizer in aqueous solutions 810(2004)209

**3 $\beta$ ,20R-4,4-Dimethylcholesta-8,14,24-trien-3-ol**

Development and validation of a method for the purity determination of (3 $\beta$ ,20R)-4,4-dimethylcholesta-8,14,24-trien-3-ol(FF-MAS) in pharmaceutical products containing recombinant human albumin 810(2004)251

**2D-LC–MS/MS**

Characterizing complex peptide mixtures using a multi-dimensional liquid chromatography–mass spectrometry system: *Saccharomyces cerevisiae* as a model system 810(2004)69

**DNA**

Evaluation of DNA adduction of AZT in peripheral blood leukocytes of HIV-infected individuals by <sup>32</sup>P-post-labeling thin-layer chromatography: a feasibility study 810(2004)1

**Doping control**

Urinary analysis of 16(5 $\alpha$ )-androst-3 $\alpha$ -ol by gas chromatography/com-bustion/isotope ratio mass spectrometry: implications in anti-doping analysis 810(2004)157

**Drug analysis**

Simultaneous high-performance liquid chromatographic analysis of pregabalin, gabapentin and vigabatrin in human serum by precolumn derivatization with *o*-phthalaldehyde and fluorescence detection 810(2004)297

**Drug delivery systems**

Quantitative determination of the antitumor alkyl ether phospholipid edelfosine by reversed-phase liquid chromatography–electrospray mass spectrometry: application to cell uptake studies and characterization of drug delivery systems 810(2004)85

**Edelfosine**

Quantitative determination of the antitumor alkyl ether phospholipid edelfosine by reversed-phase liquid chromatography–electrospray mass spectrometry: application to cell uptake studies and characterization of drug delivery systems 810(2004)85

**Electrospray ionization**

Liquid chromatography–positive ion electrospray mass spectrometry method for the quantification of citalopram in human plasma 810(2004)235

**Enzymes**

Assay of plasma semicarbazide-sensitive amine oxidase and determination of its endogenous substrate methylamine by liquid chromatography 810(2004)277

**Error structure**

Wide concentration range investigation of recovery, precision and error structure in liquid chromatography 810(2004)111

**FF-MAS**

Development and validation of a method for the purity determination of (3 $\beta$ ,20R)-4,4-dimethylcholesta-8,14,24-trien-3-ol(FF-MAS) in pharmaceutical products containing recombinant human albumin 810(2004)251

**Fibrinolysis**

Monolithic peptidyl sorbents for comparison of affinity properties of plasminogen activators 810(2004)15

**Fish**

One-step liquid chromatographic method for the determination of oxytetracycline in fish muscle 810(2004)325

**Gabapentin**

Simultaneous high-performance liquid chromatographic analysis of pregabalin, gabapentin and vigabatrin in human serum by precolumn derivatization with *o*-phthalaldehyde and fluorescence detection 810(2004)297

**Gatifloxacin**

Simultaneous determination of levofloxacin, gatifloxacin and moxifloxacin in serum by liquid chromatography with column switching 810(2004)77

**Glimepiride**

Determination of glimepiride in human plasma using semi-microbore high performance liquid chromatography with column-switching 810(2004)143

**GMA-EDMA monoliths**

Monolithic peptidyl sorbents for comparison of affinity properties of plasminogen activators 810(2004)15

**Halofuginone**

Liquid chromatography-electrospray tandem mass spectrometric assay suitable for quantitation of halofuginone in plasma 810(2004)35

**High-performance liquid chromatography**

Liquid chromatography-positive ion electrospray mass spectrometry method for the quantification of citalopram in human plasma 810(2004)235

**HPLC**

Normal phase liquid chromatography-electrospray ionization tandem mass spectrometry analysis of phospholipid molecular species in blood mononuclear cells: application to cystic fibrosis 810(2004)173

Determination of D- and L-enantiomers of threonine and allo-threonine in mammals using two-step high-performance liquid chromatography 810(2004)245

Simultaneous high-performance liquid chromatographic analysis of pregabalin, gabapentin and vigabatrin in human serum by precolumn derivatization with *o*-phthalaldehyde and fluorescence detection 810(2004)297

**Human plasma**

A new method for the quantitation of propofol in human plasma: efficient solid-phase extraction and liquid chromatography/APCI-triple quadrupole mass spectrometry detection 810(2004)291

**5-Hydroxytryptophan**

Determination of serotonin and its precursors in human plasma by capillary electrophoresis-electrospray ionization-time-of-flight mass spectrometry 810(2004)101

**Imipramine**

Liquid chromatography-positive ion electrospray mass spectrometry method for the quantification of citalopram in human plasma 810(2004)235

**Indolamines**

Determination of serotonin and its precursors in human plasma by capillary electrophoresis-electrospray ionization-time-of-flight mass spectrometry 810(2004)101

**Insulin sensitizer**

Application of liquid chromatography/mass spectrometry and nuclear magnetic resonance to the identification of degradates of a novel insulin sensitizer in aqueous solutions 810(2004)209

**Isotope ratio mass spectrometry (IRMS)**

Urinary analysis of 16(5 $\alpha$ )-androst-3 $\alpha$ -ol by gas chromatography/com-bustion/isotope ratio mass spectrometry: implications in anti-doping analysis 810(2004)157

**LC-MS**

Development and validation of a method for the quantitation of  $\Delta^9$ tetra-hydrocannabinol in oral fluid by liquid chromatography electrospray-mass spectrometry 810(2004)319

**Lead poisoning**

Determination of porphyrins and biliverdin in bile and excreta of birds by a single liquid chromatography-ultraviolet detection analysis 810(2004)305

**Levofloxacin**

Simultaneous determination of levofloxacin, gatifloxacin and moxifloxacin in serum by liquid chromatography with column switching 810(2004)77

**Ligand immobilization**

Monolithic peptidyl sorbents for comparison of affinity properties of plasminogen activators 810(2004)15

**Lincomycin**

Electrochemiluminescence detection with integrated indium tin oxide electrode on electrophoretic microchip for direct bioanalysis of lincomycin in the urine 810(2004)137

**Lipids**

Micro-quantitation of lipids in serum-free cell culture media: a critical aspect is the minimization of interference from medium components and chemical reagents 810(2004)119

**Liquid chromatography**

A new method for the quantitation of propofol in human plasma: efficient solid-phase extraction and liquid chromatography/APCI-triple quadrupole mass spectrometry detection 810(2004)291

**Macroporous disks**

Monolithic peptidyl sorbents for comparison of affinity properties of plasminogen activators 810(2004)15

**Mass spectrometry**

Normal phase liquid chromatography-electrospray ionization tandem mass spectrometry analysis of phospholipid molecular species in blood mononuclear cells: application to cystic fibrosis 810(2004)173

Liquid chromatography-positive ion electrospray mass spectrometry method for the quantification of citalopram in human plasma 810(2004)235

**Methylamine**

Assay of plasma semicarbazide-sensitive amine oxidase and determination of its endogenous substrate methylamine by liquid chromatography 810(2004)277

 **$\alpha$ -Methyltyrosine**

Development and validation of a liquid chromatography-tandem mass spectrometric method for the determination of  $\alpha$ -methyltyrosine in human plasma 810(2004)229

**Microchip capillary electrophoresis**

Electrochemiluminescence detection with integrated indium tin oxide electrode on electrophoretic microchip for direct bioanalysis of lincomycin in the urine 810(2004)137

**Microchip electrophoresis**

Detection of cariogenic bacterial genes by microchip electrophoresis 810(2004)41

**MK-0767**

Quantitative determination of MK-0767, a dual  $\alpha/\gamma$  peroxisome proliferator-activated receptor (PPAR) agonist, in human plasma by liquid chromatography–tandem mass spectrometry 810(2004)7

**Moxifloxacin**

Simultaneous determination of levofloxacin, gatifloxacin and moxifloxacin in serum by liquid chromatography with column switching 810(2004)77

**Multi-dimensional LC–MS**

Characterizing complex peptide mixtures using a multi-dimensional liquid chromatography–mass spectrometry system: *Saccharomyces cerevisiae* as a model system 810(2004)69

**Mycophenolate mophetil**

Simultaneous determination of free mycophenolic acid and its glucuronide in serum of patients under mycophenolate mophetil therapy by ion-pair reversed-phase liquid chromatography with diode array UV detection 810(2004)197

**Mycophenolic acid**

Simultaneous determination of free mycophenolic acid and its glucuronide in serum of patients under mycophenolate mophetil therapy by ion-pair reversed-phase liquid chromatography with diode array UV detection 810(2004)197

**Mycophenolic acid glucuronide**

Simultaneous determination of free mycophenolic acid and its glucuronide in serum of patients under mycophenolate mophetil therapy by ion-pair reversed-phase liquid chromatography with diode array UV detection 810(2004)197

**6 $\beta$ -Naltrexol**

Development and validation of a liquid chromatography–mass spectrometry method for the quantitation of naltrexone and 6 $\beta$ -naltrexol in guinea pig plasma 810(2004)259

**Naltrexone**

Development and validation of a liquid chromatography–mass spectrometry method for the quantitation of naltrexone and 6 $\beta$ -naltrexol in guinea pig plasma 810(2004)259

**Non-covalent aggregation**

Analysis of non-covalent aggregation of synthetic hPTH (1–34) by size-exclusion chromatography and the importance of suppression of non-specific interactions for a precise quantitation 810(2004)151

**Non-nucleoside reverse transcriptase inhibitors**

Determination of the new HIV-protease inhibitor atazanavir by liquid chromatography after solid-phase extraction 810(2004)25

**4-OH-RA4-hydroxy all-trans retinoic acid**

Quantification of a novel retinoic acid metabolism inhibitor, 4-(1H-imidazol-1-yl)retinoic acid (VN/14-IRA) and other retinoids in rat plasma by liquid chromatography with diode-array detection 810(2004)203

**Oral fluid**

Development and validation of a method for the quantitation of  $\Delta^9$ -tetrahydrocannabinol in oral fluid by liquid chromatography electrospray–mass spectrometry 810(2004)319

**4-oxo-RA4-oxo all-trans retinoic acid**

Quantification of a novel retinoic acid metabolism inhibitor, 4-(1H-imidazol-1-yl)retinoic acid (VN/14-IRA) and other retinoids in rat plasma by liquid chromatography with diode-array detection 810(2004)203

**Oxytetracycline**

One-step liquid chromatographic method for the determination of oxytetracycline in fish muscle 810(2004)325

**Peptide mixtures**

Characterizing complex peptide mixtures using a multi-dimensional liquid chromatography–mass spectrometry system: *Saccharomyces cerevisiae* as a model system 810(2004)69

**Perfluorooctane sulfonate**

Determination of perfluorooctane sulfonate, perfluorooctanoate and perfluorooctane sulfonylamide in human plasma by column-switching liquid chromatography–electrospray mass spectrometry coupled with solid-phase extraction 810(2004)49

**Perfluorooctanesulfonylamide**

Determination of perfluorooctane sulfonate, perfluorooctanoate and perfluorooctane sulfonylamide in human plasma by column-switching liquid chromatography–electrospray mass spectrometry coupled with solid-phase extraction 810(2004)49

**Perfluorooctanoate**

Determination of perfluorooctane sulfonate, perfluorooctanoate and perfluorooctane sulfonylamide in human plasma by column-switching liquid chromatography–electrospray mass spectrometry coupled with solid-phase extraction 810(2004)49

**Peroxisome proliferator-activated receptor**

Quantitative determination of MK-0767, a dual  $\alpha/\gamma$  peroxisome proliferator-activated receptor (PPAR) agonist, in human plasma by liquid chromatography–tandem mass spectrometry 810(2004)7

**Pharmacokinetics**

Development and validation of a liquid chromatography–mass spectrometry method for the quantitation of naltrexone and 6 $\beta$ -naltrexol in guinea pig plasma 810(2004)259

**3-Phenoxybenzoic acid**

Determination of deltamethrin and its metabolite 3-phenoxybenzoic acid in male rat plasma by high-performance liquid chromatography 810(2004)221

**Phospholipids**

Normal phase liquid chromatography–electrospray ionization tandem mass spectrometry analysis of phospholipid molecular species in blood mononuclear cells: application to cystic fibrosis 810(2004)173

**Porphyrins**

Determination of porphyrins and biliverdin in bile and excreta of birds by a single liquid chromatography–ultraviolet detection analysis 810(2004)305

**Precipitate reaction**

Study on the precipitation reaction between baicalin and berberine by HPLC 810(2004)165

**Precision**

Wide concentration range investigation of recovery, precision and error structure in liquid chromatography 810(2004)111

**Pregabalin**

Simultaneous high-performance liquid chromatographic analysis of pregabalin, gabapentin and vigabatrin in human serum by precolumn derivatization with *o*-phthalaldehyde and fluorescence detection 810(2004)297

**Pregnenolone**

Urinary analysis of 16(5 $\alpha$ )-androst-3 $\alpha$ -ol by gas chromatography/com-bustion/isotope ratio mass spectrometry: implications in anti-doping ana-lysis 810(2004)157

**Propofol**

A new method for the quantitation of propofol in human plasma: efficient solid-phase extraction and liquid chromatography/APCI-triple quadrupole mass spectrometry detection 810(2004)291

**Protease inhibitors**

Determination of the new HIV-protease inhibitor atazanavir by liquid chromatography after solid-phase extraction 810(2004)25

**Pro-urokinase**

Monolithic peptidyl sorbents for comparison of affinity properties of plasminogen activators 810(2004)15

**PTH**

Analysis of non-covalent aggregation of synthetic hPTH (1–34) by size-exclusion chromatography and the importance of suppression of non-specific interactions for a precise quantitation 810(2004)151

**Pyrethroid pesticides**

Determination of deltamethrin and its metabolite 3-phenoxybenzoic acid in male rat plasma by high-performance liquid chromatography 810(2004)221

**Retinoic acid metabolism blocking agent**

Quantification of a novel retinoic acid metabolism inhibitor, 4-(1H-imidazol-1-yl)retinoic acid (VN/14-1RA) and other retinoids in rat plasma by liquid chromatography with diode-array detection 810(2004)203

**Recombinant human albumin**

Development and validation of a method for the purity determination of (3 $\beta$ ,20R)-4,4-dimethylcholesta-8,14,24-trien-3-ol(FF-MAS) in pharmaceutical products containing recombinant human albumin 810(2004)251

**RECOMBUMIN**

Development and validation of a method for the purity determination of (3 $\beta$ ,20R)-4,4-dimethylcholesta-8,14,24-trien-3-ol(FF-MAS) in pharma-ceutical products containing recombinant human albumin 810(2004)251

**Recovery**

Wide concentration range investigation of recovery, precision and error structure in liquid chromatography 810(2004)111

**Redox-active compounds**

Determination of multiple redox-active compounds by high-performance liquid chromatography with coulometric multi-electrode array system 810(2004)93

**Reversed-phase HPLC**

Quantification of a novel retinoic acid metabolism inhibitor, 4-(1H-imidazol-1-yl)retinoic acid (VN/14-1RA) and other retinoids in rat plasma by liquid chromatography with diode-array detection 810(2004)203

***S. cerevisiae***

Characterizing complex peptide mixtures using a multi-dimensional liquid chromatography–mass spectrometry system: *Saccharomyces cerevisiae* as a model system 810(2004)69

**Sample preparation**

Development and validation of a method for the purity determination of (3 $\beta$ ,20R)-4,4-dimethylcholesta-8,14,24-trien-3-ol(FF-MAS) in pharmaceutical products containing recombinant human albumin 810(2004)251

**SEC**

Analysis of non-covalent aggregation of synthetic hPTH (1–34) by size-exclusion chromatography and the importance of suppression of non-specific interactions for a precise quantitation 810(2004)151

**Semicarbazide-sensitive amine oxide**

Assay of plasma semicarbazide-sensitive amine oxidase and determination of its endogenous substrate methylamine by liquid chromatography 810(2004)277

**Sequence database records (SDRs)**

Characterizing complex peptide mixtures using a multi-dimensional liquid chromatography–mass spectrometry system: *Saccharomyces cerevisiae* as a model system 810(2004)69

**Serotonin**

Determination of serotonin and its precursors in human plasma by capillary electrophoresis–electrospray ionization–time-of-flight mass spectrometry 810(2004)101

**Solid-phase extraction**

A new method for the quantitation of propofol in human plasma: efficient solid-phase extraction and liquid chromatography/APCI-triple quadrupole mass spectrometry detection 810(2004)291

Bioanalysis of tobramycin for therapeutic drug monitoring by solid-phase extraction and capillary zone electrophoresis 810(2004)313

**Solid phase peptide synthesis**

Monolithic peptidyl sorbents for comparison of affinity properties of plasminogen activators 810(2004)15

**Short monolithic columns**

Monolithic peptidyl sorbents for comparison of affinity properties of plasminogen activators 810(2004)15

***Streptococcus mutans***

Detection of cariogenic bacterial genes by microchip electrophoresis 810(2004)41

**Streptokinase**

Monolithic peptidyl sorbents for comparison of affinity properties of plasminogen activators 810(2004)15

**Tandem mass spectrometry**

A new method for the quantitation of propofol in human plasma: efficient solid-phase extraction and liquid chromatography/APCI-triple quadrupole mass spectrometry detection 810(2004)291

 **$\Delta^9$ -Tetrahydrocannabinol**

Determination of  $\Delta^9$ -tetrahydrocannabinol from rabbit plasma by gas chromatography–mass spectrometry using two ionization techniques 810(2004)283

 **$\Delta^9$ Tetrahydrocannabinol**

Development and validation of a method for the quantitation of  $\Delta^9$ tetrahydrocannabinol in oral fluid by liquid chromatography electrospray–mass spectrometry 810(2004)319

**Thiazolidine-2,4-dione**

Application of liquid chromatography/mass spectrometry and nuclear magnetic resonance to the identification of degradates of a novel insulin sensitizer in aqueous solutions 810(2004)209

**Threonine**

Determination of D- and L-enantiomers of threonine and allo-threonine in mammals using two-step high-performance liquid chromatography 810(2004)245

**Tissue plasminogen activator**

Monolithic peptidyl sorbents for comparison of affinity properties of plasminogen activators 810(2004)15

**Tobramycin**

Bioanalysis of tobramycin for therapeutic drug monitoring by solid-phase extraction and capillary zone electrophoresis 810(2004)313

**Tryptophan**

Determination of serotonin and its precursors in human plasma by capillary electrophoresis–electrospray ionization–time-of-flight mass spectrometry 810(2004)101

**Validation**

Development and validation of a liquid chromatography–tandem mass spectrometric method for the determination of  $\alpha$ -methyltyrosine in human plasma 810(2004)229

Development and validation of a method for the purity determination of (3 $\beta$ ,20 $R$ )-4,4-dimethylcholesta-8,14,24-trien-3-ol (FF-MAS) in pharmaceutical products containing recombinant human albumin 810(2004)251

Simultaneous high-performance liquid chromatographic analysis of pregabalin, gabapentin and vigabatrin in human serum by precolumn derivatization with *o*-phthalaldehyde and fluorescence detection 810(2004)297

**Valproic acid**

Simple and sensitive fluorimetric liquid chromatography method for the determination of valproic acid in plasma 810(2004)169

**Vigabatrin**

Simultaneous high-performance liquid chromatographic analysis of pregabalin, gabapentin and vigabatrin in human serum by precolumn derivatization with *o*-phthalaldehyde and fluorescence detection 810(2004)297

**VN/14-1RA4-(1H-imidazol-1-yl)retinoic acid**

Quantification of a novel retinoic acid metabolism inhibitor, 4-(1H-imidazol-1-yl)retinoic acid (VN/14-1RA) and other retinoids in rat plasma by liquid chromatography with diode-array detection 810(2004)203

**Wide concentration range**

Wide concentration range investigation of recovery, precision and error structure in liquid chromatography 810(2004)111
