

## Keyword Index Vol. 819

### Activity assay

A novel assay method for theanine synthetase activity by capillary electrophoresis 819(2005)81

### Adipose tissue

Determination and occurrence of polybrominated diphenyl ethers in maternal adipose tissue from inhabitants of Singapore 819(2005)253

### Adsorption

Adsorption of bilirubin with polylysine carrying chitosan-coated nylon affinity membranes 819(2005)301

### Affinity chromatography

Qualitative assessment of IC<sub>50</sub> values of inhibitors of the neuronal nicotinic acetylcholine receptor using a single chromatographic experiment and multivariate cluster analysis 819(2005)169

### Affinity membrane

Adsorption of bilirubin with polylysine carrying chitosan-coated nylon affinity membranes 819(2005)301

### Allopurinol

Simultaneous determination of 16 purine derivatives in urinary calculi by gradient reversed-phase high-performance liquid chromatography with UV detection 819(2005)229

### Aminopentol-1

Simple method for the simultaneous isolation and determination of fumonisin B<sub>1</sub> and its metabolite aminopentol-1 in swine liver by liquid chromatography–fluorescence detection 819(2005)97

### 2-Aminothiazoline-4-carboxylic acid

Determination of the cyanide metabolite 2-aminothiazoline-4-carboxylic acid in urine and plasma by gas chromatography–mass spectrometry 819(2005)237

### Amprenavir

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

### Antiepileptic drugs

Determination of levetiracetam in human plasma with minimal sample pretreatment 819(2005)197

### Antiproliferative activity

Characterization of lipophilicity and antiproliferative activity of *E*-2-aryl-methylene-1-tetralones and their heteroanalogues 819(2005)283

### Atazanavir

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

### Automated liquid–liquid extraction

Fully automated liquid–liquid extraction for the determination of a novel insulin sensitizer in human plasma by heated nebulizer and turbo ionspray liquid chromatography–tandem mass spectrometry 819(2005)293

### Automation

Analysis of protein fragmentation inhibition by an MMP-inhibitor in an in vivo model of heart failure using automated chromatography 819(2005)219

### B cell

Protein expression profiling of CLL B cells using replicate off-line strong cation exchange chromatography and LC–MS/MS 819(2005)33

### *N*-Benzylpiperazine

Development of simultaneous gas chromatography–mass spectrometric and liquid chromatography–electrospray ionization mass spectrometric determination method for the new designer drugs, *N*-benzylpiperazine (BZP), 1-(3-trifluoromethylphenyl)piperazine (TFMPP) and their main metabolites in urine 819(2005)315

### Bilirubin

Adsorption of bilirubin with polylysine carrying chitosan-coated nylon affinity membranes 819(2005)301

### Biomarkers

Analysis of protein fragmentation inhibition by an MMP-inhibitor in an in vivo model of heart failure using automated chromatography 819(2005)219

### BisphenolA

Analysis of environmental biomarkers in urine using an electrochemical detector 819(2005)155

### Blood samples

Determination of WR-1065 in human blood by high-performance liquid chromatography following fluorescent derivatization by a maleimide reagent ThioGlo<sup>TM</sup>3 819(2005)161

### Breast cancer

Peptide profiling in epithelial tumor plasma by the emerging proteomic techniques 819(2005)59

***N*-Butyryl glucosamine**

High performance liquid chromatographic determination of *N*-butyryl glucosamine in rat plasma 819(2005)91

**BZP**

Development of simultaneous gas chromatography–mass spectrometric and liquid chromatography–electrospray ionization mass spectrometric determination method for the new designer drugs, *N*-benzylpiperazine (BZP), 1-(3-trifluoromethylphenyl)piperazine (TFMPP) and their main metabolites in urine 819(2005)315

**C<sub>18</sub> columns**

High performance liquid chromatographic determination of *N*-butyryl glucosamine in rat plasma 819(2005)91

**Calcium channel blockers**

Gas chromatography–mass spectrometry identification of photoproducts of hexahydroquinoline derivatives: Potential calcium channel antagonists 819(2005)17

**Canine plasma**

Optimized determination of lycopene in canine plasma using reversed-phase high-performance liquid chromatography 819(2005)149

**Capillary zone electrophoresis**

Capillary electrophoretic determination of methotrexate, leucovorin and folic acid in human urine 819(2005)141

**Catecholamines**

Rapid assay for catechol-*O*-methyltransferase activity by high-performance liquid chromatography–fluorescence detection 819(2005)41

**Catechol-*O*-methyltransferase**

Rapid assay for catechol-*O*-methyltransferase activity by high-performance liquid chromatography–fluorescence detection 819(2005)41

**Cefixime**

Sensitive liquid chromatography–tandem mass spectrometry method for the determination of cefixime in human plasma: Application to a pharmacokinetic study 819(2005)277

**Chemical warfare agent**

Determination of the cyanide metabolite 2-aminothiazoline-4-carboxylic acid in urine and plasma by gas chromatography–mass spectrometry 819(2005)237

**Chemotherapeutic agents**

Capillary electrophoretic determination of methotrexate, leucovorin and folic acid in human urine 819(2005)141

**Chiralpak<sup>®</sup> AD**

Improved enantioselective analysis of polyunsaturated hydroxy fatty acids in psoriatic skin scales using high-performance liquid chromatography 819(2005)323

**Chitosan**

Adsorption of bilirubin with polylysine carrying chitosan-coated nylon affinity membranes 819(2005)301

**CHO cells**

Characterization by liquid chromatography combined with mass spectrometry of monoclonal anti-IGF-1 receptor antibodies produced in CHO and NS0 cells 819(2005)203

**Cholesterol**

Novel and simple high-performance liquid chromatographic method for determination of 3-hydroxy-3-methylglutaryl-coenzyme A reductase activity 819(2005)307

**Chromatographic supports**

Application of immobilized enzyme reactor in on-line high performance liquid chromatography: A review (Review) 819(2005)3

**Chromatography**

Analysis of protein fragmentation inhibition by an MMP-inhibitor in an in vivo model of heart failure using automated chromatography 819(2005)219

**CLL**

Protein expression profiling of CLL B cells using replicate off-line strong cation exchange chromatography and LC–MS/MS 819(2005)33

**Coupled-column**

Determination of urinary nucleosides by direct injection and coupled-column high-performance liquid chromatography 819(2005)85

**COX-2 inhibitors**

Determination of deracoxib in feline plasma samples using high performance liquid chromatography 819(2005)181

**Cyanide**

Determination of the cyanide metabolite 2-aminothiazoline-4-carboxylic acid in urine and plasma by gas chromatography–mass spectrometry 819(2005)237

**Cytochrome P450**

Validation of a liquid chromatography–mass spectrometry method to assess the metabolism of dextromethorphan in rat everted gut sacs 819(2005)105

**Deracoxib**

Determination of deracoxib in feline plasma samples using high performance liquid chromatography 819(2005)181

**Dextromethorphan**

Validation of a liquid chromatography–mass spectrometry method to assess the metabolism of dextromethorphan in rat everted gut sacs 819(2005)105

**Dihydropyridine derivatives**

Gas chromatography–mass spectrometry identification of photoproducts of hexahydroquinoline derivatives: Potential calcium channel antagonists 819(2005)17

**Dihydroxyadeninuria**

Simultaneous determination of 16 purine derivatives in urinary calculi by gradient reversed-phase high-performance liquid chromatography with UV detection 819(2005)229

**Dinucleoside monophosphates**

Isolation and quantification of dinucleoside polyphosphates by using monolithic reversed phase chromatography columns 819(2005)131

**2D-LC–MS/MS**

Protein expression profiling of CLL B cells using replicate off-line strong cation exchange chromatography and LC–MS/MS 819(2005)33

**Drug analysis**

A sensitive liquid chromatography–tandem mass spectrometry method for the quantification of mometasone furoate in human plasma 819(2005)175

**Drug discovery**

Qualitative assessment of IC<sub>50</sub> values of inhibitors of the neuronal nicotinic acetylcholine receptor using a single chromatographic experiment and multivariate cluster analysis 819(2005)169

**Efavirenz**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

**Electrochemical detector**

Analysis of environmental biomarkers in urine using an electrochemical detector 819(2005)155

**Enantioselective analysis**

Improved enantioselective analysis of polyunsaturated hydroxy fatty acids in psoriatic skin scales using high-performance liquid chromatography 819(2005)323

**7-Ethoxycoumarin**

Evaluation of evaporative light-scattering detection for metabolite quantification without authentic analytical standards or radiolabel 819(2005)339

**Evaporative light-scattering detector**

Evaluation of evaporative light-scattering detection for metabolite quantification without authentic analytical standards or radiolabel 819(2005)339

**Expression profiling**

Protein expression profiling of CLL B cells using replicate off-line strong cation exchange chromatography and LC-MS/MS 819(2005)33

**Flame retardants**

Determination and occurrence of polybrominated diphenyl ethers in maternal adipose tissue from inhabitants of Singapore 819(2005)253

**Fluorescence detection (FL)**

Simple method for the simultaneous isolation and determination of fumonisin B<sub>1</sub> and its metabolite aminopentol-1 in swine liver by liquid chromatography-fluorescence detection 819(2005)97

**Fluorescent derivatization**

Determination of WR-1065 in human blood by high-performance liquid chromatography following fluorescent derivatization by a maleimide reagent ThioGlo<sup>TM</sup>3 819(2005)161

**Flurogestone acetate**

Development of a high-performance liquid chromatography-tandem mass spectrometry method for the determination of flurogestone acetate in ovine plasma 819(2005)245

**Folic acid**

Capillary electrophoretic determination of methotrexate, leucovorin and folic acid in human urine 819(2005)141

**Folinic acid**

Capillary electrophoretic determination of methotrexate, leucovorin and folic acid in human urine 819(2005)141

**Fucose**

High performance liquid chromatographic determination of *N*-butyryl glucosamine in rat plasma 819(2005)91

**Fumonisin B<sub>1</sub>**

Simple method for the simultaneous isolation and determination of fumonisin B<sub>1</sub> and its metabolite aminopentol-1 in swine liver by liquid chromatography-fluorescence detection 819(2005)97

**GC-MS**

Determination of the cyanide metabolite 2-aminothiazoline-4-carboxylic acid in urine and plasma by gas chromatography-mass spectrometry 819(2005)237

Development of simultaneous gas chromatography-mass spectrometric and liquid chromatography-electrospray ionization mass spectrometric determination method for the new designer drugs, *N*-benzylpiperazine (BZP), 1-(3-trifluoromethylphenyl)piperazine (TFMPP) and their main metabolites in urine 819(2005)315

**Gefitinib**

Specific method for determination of gefitinib in human plasma, mouse plasma and tissues using high performance liquid chromatography coupled to tandem mass spectrometry 819(2005)73

**Glucocorticoid**

A sensitive liquid chromatography-tandem mass spectrometry method for the quantification of mometasone furoate in human plasma 819(2005)175

**Glucosamine**

High performance liquid chromatographic determination of *N*-butyryl glucosamine in rat plasma 819(2005)91

**Glycopeptide mapping**

Characterization by liquid chromatography combined with mass spectrometry of monoclonal anti-IGF-1 receptor antibodies produced in CHO and NS0 cells 819(2005)203

**Heart**

Analysis of protein fragmentation inhibition by an MMP-inhibitor in an in vivo model of heart failure using automated chromatography 819(2005)219

**Hexahydroquinoline derivatives**

Gas chromatography-mass spectrometry identification of photoproducts of hexahydroquinoline derivatives: Potential calcium channel antagonists 819(2005)17

**High-performance liquid chromatography**

Application of immobilized enzyme reactor in on-line high performance liquid chromatography: A review (Review) 819(2005)3

Measurement of homocysteine thiolactone hydrolase activity using high-performance liquid chromatography with fluorescence detection and polymorphisms of paraoxonase in normal human serum 819(2005)67

Determination of urinary nucleosides by direct injection and coupled-column high-performance liquid chromatography 819(2005)85

High performance liquid chromatographic determination of *N*-butyryl glucosamine in rat plasma 819(2005)91

Simple method for the simultaneous isolation and determination of fumonisin B<sub>1</sub> and its metabolite aminopentol-1 in swine liver by liquid chromatography-fluorescence detection 819(2005)97

Determination of WR-1065 in human blood by high-performance liquid chromatography following fluorescent derivatization by a maleimide reagent ThioGlo<sup>TM</sup>3 819(2005)161

Determination of deracoxib in feline plasma samples using high performance liquid chromatography 819(2005)181

Determination of lauroyl-indapamide in rat whole blood by high-performance liquid chromatography 819(2005)191

Determination of levetiracetam in human plasma with minimal sample pretreatment 819(2005)197

Simultaneous determination of 16 purine derivatives in urinary calculi by gradient reversed-phase high-performance liquid chromatography with UV detection 819(2005)229

Improved enantioselective analysis of polyunsaturated hydroxy fatty acids in psoriatic skin scales using high-performance liquid chromatography 819(2005)323

Evaluation of evaporative light-scattering detection for metabolite quantification without authentic analytical standards or radiolabel 819(2005)339

### **Hippocampus**

The rat brain hippocampus proteome 819(2005)115

### **Homocysteine thiolactone hydrolase**

Measurement of homocysteine thiolactone hydrolase activity using high-performance liquid chromatography with fluorescence detection and polymorphisms of paraoxonase in normal human serum 819(2005)67

### **HPLC analysis**

Novel and simple high-performance liquid chromatographic method for determination of 3-hydroxy-3-methylglutaryl-coenzyme A reductase activity 819(2005)307

### **HPLC-MS/MS**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

### **HPLC-MS-MS**

A sensitive liquid chromatography-tandem mass spectrometry method for the quantification of mometasone furoate in human plasma 819(2005)175

### **Human plasma**

Fully automated liquid-liquid extraction for the determination of a novel insulin sensitizer in human plasma by heated nebulizer and turbo ionspray liquid chromatography-tandem mass spectrometry 819(2005)293

### **Human urine**

Capillary electrophoretic determination of methotrexate, leucovorin and folic acid in human urine 819(2005)141

### **Hydroxy-1-(3-trifluoromethylphenyl)piperazine**

Development of simultaneous gas chromatography-mass spectrometric and liquid chromatography-electrospray ionization mass spectrometric determination method for the new designer drugs, *N*-benzylpiperazine (BZP), 1-(3-trifluoromethylphenyl)piperazine (TFMPP) and their main metabolites in urine 819(2005)315

### **Hydroxy-*N*-benzylpiperazine**

Development of simultaneous gas chromatography-mass spectrometric and liquid chromatography-electrospray ionization mass spectrometric determination method for the new designer drugs, *N*-benzylpiperazine (BZP), 1-(3-trifluoromethylphenyl)piperazine (TFMPP) and their main metabolites in urine 819(2005)315

### **Immobilized enzyme reactor**

Application of immobilized enzyme reactor in on-line high performance liquid chromatography: A review (Review) 819(2005)3

### **Immobilized receptors**

Qualitative assessment of IC<sub>50</sub> values of inhibitors of the neuronal nicotinic acetylcholine receptor using a single chromatographic experiment and multivariate cluster analysis 819(2005)169

### **Inborn errors of purine metabolism**

Simultaneous determination of 16 purine derivatives in urinary calculi by gradient reversed-phase high-performance liquid chromatography with UV detection 819(2005)229

### **Indinavir**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

### **Insulin sensitizer**

Fully automated liquid-liquid extraction for the determination of a novel insulin sensitizer in human plasma by heated nebulizer and turbo ionspray liquid chromatography-tandem mass spectrometry 819(2005)293

### **Insulin-like growth factor-1 receptor**

Characterization by liquid chromatography combined with mass spectrometry of monoclonal anti-IGF-1 receptor antibodies produced in CHO and NS0 cells 819(2005)203

### **Intestine**

Validation of a liquid chromatography-mass spectrometry method to assess the metabolism of dextromethorphan in rat everted gut sacs 819(2005)105

### **Intracellular**

Development of an assay method for the detection and quantification of protease and non-nucleoside reverse transcriptase inhibitors in plasma and in peripheral blood mononuclear cells by liquid chromatography coupled with ultraviolet or tandem mass spectrometry detection 819(2005)47

### **Isolation**

Isolation and quantification of dinucleoside polyphosphates by using monolithic reversed phase chromatography columns 819(2005)131

### **Lauroyl-indapamide**

Determination of lauroyl-indapamide in rat whole blood by high-performance liquid chromatography 819(2005)191

### **LC/MS/MS**

Specific method for determination of gefitinib in human plasma, mouse plasma and tissues using high performance liquid chromatography coupled to tandem mass spectrometry 819(2005)73

### **LC-ESI-MS**

Development of simultaneous gas chromatography-mass spectrometric and liquid chromatography-electrospray ionization mass spectrometric determination method for the new designer drugs, *N*-benzylpiperazine (BZP), 1-(3-trifluoromethylphenyl)piperazine (TFMPP) and their main metabolites in urine 819(2005)315

### **LC-MS**

Validation of a liquid chromatography-mass spectrometry method to assess the metabolism of dextromethorphan in rat everted gut sacs 819(2005)105

### **LC-MS/MS**

Development of an assay method for the detection and quantification of protease and non-nucleoside reverse transcriptase inhibitors in plasma

and in peripheral blood mononuclear cells by liquid chromatography coupled with ultraviolet or tandem mass spectrometry detection 819(2005)47

Fully automated liquid–liquid extraction for the determination of a novel insulin sensitizer in human plasma by heated nebulizer and turbo ionspray liquid chromatography–tandem mass spectrometry 819(2005)293

Quantitative determination of perfluorooctanoic acid in serum and plasma by liquid chromatography tandem mass spectrometry 819(2005)329

#### **LC–UV**

Development of an assay method for the detection and quantification of protease and non-nucleoside reverse transcriptase inhibitors in plasma and in peripheral blood mononuclear cells by liquid chromatography coupled with ultraviolet or tandem mass spectrometry detection 819(2005)47

#### **Levetiracetam**

Determination of levetiracetam in human plasma with minimal sample pretreatment 819(2005)197

#### **Levodropropizine**

Rapid and sensitive liquid chromatography–tandem mass spectrometry method for the quantitation of levodropropizine in human plasma 819(2005)185

#### **Lipophilicity**

Characterization of lipophilicity and antiproliferative activity of *E-2*-aryl-methylene-1-tetralones and their heteroanalogues 819(2005)283

#### **Liquid chromatography–tandem mass spectrometry**

A sensitive liquid chromatography–tandem mass spectrometry method for the quantification of mometasone furoate in human plasma 819(2005)175

#### **Liquid–liquid extraction (LLE)**

Optimized determination of lycopene in canine plasma using reversed-phase high-performance liquid chromatography 819(2005)149

#### **Lopinavir**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

#### **Lycopene**

Optimized determination of lycopene in canine plasma using reversed-phase high-performance liquid chromatography 819(2005)149

#### **Mass spectrometry**

Gas chromatography–mass spectrometry identification of photoproducts of hexahydroquinoline derivatives: Potential calcium channel antagonists 819(2005)17

The rat brain hippocampus proteome 819(2005)115

#### **Matrix metalloprotease**

Analysis of protein fragmentation inhibition by an MMP-inhibitor in an in vivo model of heart failure using automated chromatography 819(2005)219

#### **Melanoma**

Peptide profiling in epithelial tumor plasma by the emerging proteomic techniques 819(2005)59

#### **Memory**

The rat brain hippocampus proteome 819(2005)115

#### **Metabolism**

Validation of a liquid chromatography–mass spectrometry method to assess the metabolism of dextromethorphan in rat everted gut sacs 819(2005)105

Evaluation of evaporative light-scattering detection for metabolite quantification without authentic analytical standards or radiolabel 819(2005)339

#### **Metabolite identification**

Evaluation of evaporative light-scattering detection for metabolite quantification without authentic analytical standards or radiolabel 819(2005)339

#### **Methotrexate**

Capillary electrophoretic determination of methotrexate, leucovorin and folic acid in human urine 819(2005)141

#### **Methylxanthines**

Simultaneous determination of 16 purine derivatives in urinary calculi by gradient reversed-phase high-performance liquid chromatography with UV detection 819(2005)229

#### **Mevalonolactone**

Novel and simple high-performance liquid chromatographic method for determination of 3-hydroxy-3-methylglutaryl-coenzyme A reductase activity 819(2005)307

#### **Mevastatin**

Novel and simple high-performance liquid chromatographic method for determination of 3-hydroxy-3-methylglutaryl-coenzyme A reductase activity 819(2005)307

#### **Micellar electrokinetic capillary chromatography**

A novel assay method for theanine synthetase activity by capillary electrophoresis 819(2005)81

#### **Microwave-assisted extraction**

Determination and occurrence of polybrominated diphenyl ethers in maternal adipose tissue from inhabitants of Singapore 819(2005)253

#### **Molecular library**

Characterization of lipophilicity and antiproliferative activity of *E-2*-aryl-methylene-1-tetralones and their heteroanalogues 819(2005)283

#### **Mometasone furoate**

A sensitive liquid chromatography–tandem mass spectrometry method for the quantification of mometasone furoate in human plasma 819(2005)175

#### **Monolithic columns**

Isolation and quantification of dinucleoside polyphosphates by using monolithic reversed phase chromatography columns 819(2005)131

#### **Nelfinavir**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

#### **Nevirapine**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

#### **Nicotinic acetylcholine receptor stationary phase**

Qualitative assessment of IC<sub>50</sub> values of inhibitors of the neuronal nicotinic acetylcholine receptor using a single chromatographic experiment and multivariate cluster analysis 819(2005)169

**NNRTI**

Development of an assay method for the detection and quantification of protease and non-nucleoside reverse transcriptase inhibitors in plasma and in peripheral blood mononuclear cells by liquid chromatography coupled with ultraviolet or tandem mass spectrometry detection 819(2005)47

**Non-nucleoside reverse transcriptase inhibitors**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

**Norepinephrine**

Rapid assay for catechol-*O*-methyltransferase activity by high-performance liquid chromatography-fluorescence detection 819(2005)41

**Normetanephrine**

Rapid assay for catechol-*O*-methyltransferase activity by high-performance liquid chromatography-fluorescence detection 819(2005)41

**NS0 cells**

Characterization by liquid chromatography combined with mass spectrometry of monoclonal anti-IGF-1 receptor antibodies produced in CHO and NS0 cells 819(2005)203

**Oestrus synchronization**

Development of a high-performance liquid chromatography–tandem mass spectrometry method for the determination of flurogestone acetate in ovine plasma 819(2005)245

**Off-line SCX**

Protein expression profiling of CLL B cells using replicate off-line strong cation exchange chromatography and LC–MS/MS 819(2005)33

**PBMCs**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

**Peptide mapping**

Characterization by liquid chromatography combined with mass spectrometry of monoclonal anti-IGF-1 receptor antibodies produced in CHO and NS0 cells 819(2005)203

**Peptides**

Analysis of protein fragmentation inhibition by an MMP-inhibitor in an in vivo model of heart failure using automated chromatography 819(2005)219

**Perfluorooctanoic acid**

Quantitative determination of perfluorooctanoic acid in serum and plasma by liquid chromatography tandem mass spectrometry 819(2005)329

**Peripheral blood mononuclear cells**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

**Pharmacokinetic study**

Determination of lauroyl-indapamide in rat whole blood by high-performance liquid chromatography 819(2005)191

**Pharmacokinetics**

Specific method for determination of gefitinib in human plasma, mouse plasma and tissues using high performance liquid chromatography coupled to tandem mass spectrometry 819(2005)73

**1-Phenyl-3-methyl-5-pyrazolone**

High performance liquid chromatographic determination of *N*-butyryl glucosamine in rat plasma 819(2005)91

**Photodegradation**

Gas chromatography–mass spectrometry identification of photoproducts of hexahydroquinoline derivatives: Potential calcium channel antagonists 819(2005)17

**Phytoestrogens**

Analysis of environmental biomarkers in urine using an electrochemical detector 819(2005)155

**PI**

Development of an assay method for the detection and quantification of protease and non-nucleoside reverse transcriptase inhibitors in plasma and in peripheral blood mononuclear cells by liquid chromatography coupled with ultraviolet or tandem mass spectrometry detection 819(2005)47

**Plasma**

Development of an assay method for the detection and quantification of protease and non-nucleoside reverse transcriptase inhibitors in plasma and in peripheral blood mononuclear cells by liquid chromatography coupled with ultraviolet or tandem mass spectrometry detection 819(2005)47

Quantitative determination of perfluorooctanoic acid in serum and plasma by liquid chromatography tandem mass spectrometry 819(2005)329

**Plasma peptide component**

Peptide profiling in epithelial tumor plasma by the emerging proteomic techniques 819(2005)59

**Polybrominated diphenyl ethers**

Determination and occurrence of polybrominated diphenyl ethers in maternal adipose tissue from inhabitants of Singapore 819(2005)253

**Poly-L-lysine**

Adsorption of bilirubin with polylysine carrying chitosan-coated nylon affinity membranes 819(2005)301

**Polymorphism**

Measurement of homocysteine thiolactone hydrolase activity using high-performance liquid chromatography with fluorescence detection and polymorphisms of paraoxonase in normal human serum 819(2005)67

**Polyunsaturated hydroxy fatty acids**

Improved enantioselective analysis of polyunsaturated hydroxy fatty acids in psoriatic skin scales using high-performance liquid chromatography 819(2005)323

**Porous graphitic carbon**

Determination of levetiracetam in human plasma with minimal sample pretreatment 819(2005)197

**Post-column derivatization**

High performance liquid chromatographic determination of *N*-butyryl glucosamine in rat plasma 819(2005)91

**PPAR**

Fully automated liquid–liquid extraction for the determination of a novel insulin sensitizer in human plasma by heated nebulizer and turbo ionspray liquid chromatography–tandem mass spectrometry 819(2005)293

**Protease inhibitors**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and

nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

#### **Protein isolation**

Partition of whey milk proteins in aqueous two-phase systems of polyethylene glycol–phosphate as a starting point to isolate proteins expressed in transgenic milk 819(2005)25

#### **Proteome**

The rat brain hippocampus proteome 819(2005)115

#### **Proteomics**

The rat brain hippocampus proteome 819(2005)115

Analysis of protein fragmentation inhibition by an MMP-inhibitor in an in vivo model of heart failure using automated chromatography 819(2005)219

#### **Psoriasis**

Improved enantioselective analysis of polyunsaturated hydroxy fatty acids in psoriatic skin scales using high-performance liquid chromatography 819(2005)323

#### **Purines**

Simultaneous determination of 16 purine derivatives in urinary calculi by gradient reversed-phase high-performance liquid chromatography with UV detection 819(2005)229

#### **Quantification**

Isolation and quantification of dinucleoside polyphosphates by using monolithic reversed phase chromatography columns 819(2005)131

#### **Rat brain**

The rat brain hippocampus proteome 819(2005)115

#### **Rat plasma**

High performance liquid chromatographic determination of *N*-butyryl glucosamine in rat plasma 819(2005)91

#### **Rat whole blood**

Determination of lauroyl-indapamide in rat whole blood by high-performance liquid chromatography 819(2005)191

#### **Recombinant monoclonal antibodies**

Characterization by liquid chromatography combined with mass spectrometry of monoclonal anti-IGF-1 receptor antibodies produced in CHO and NS0 cells 819(2005)203

#### **Reproducibility**

Protein expression profiling of CLL B cells using replicate off-line strong cation exchange chromatography and LC–MS/MS 819(2005)33

#### **Retention factor and CLOGP calculation**

Characterization of lipophilicity and antiproliferative activity of *E*-2-aryl-methylene-1-tetralones and their heteroanalogues 819(2005)283

#### **Ritonavir**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

#### **RP-HPLC**

Optimized determination of lycopene in canine plasma using reversed-phase high-performance liquid chromatography 819(2005)149

#### **Saquinavir**

Intracellular measurements of anti-HIV drugs indinavir, amprenavir, saquinavir, ritonavir, nelfinavir, lopinavir, atazanavir, efavirenz and

nevirapine in peripheral blood mononuclear cells by liquid chromatography coupled to tandem mass spectrometry 819(2005)259

#### **SELDI-TOF MS**

Peptide profiling in epithelial tumor plasma by the emerging proteomic techniques 819(2005)59

#### **Serum**

Quantitative determination of perfluorooctanoic acid in serum and plasma by liquid chromatography tandem mass spectrometry 819(2005)329

#### **Singapore**

Determination and occurrence of polybrominated diphenyl ethers in maternal adipose tissue from inhabitants of Singapore 819(2005)253

#### **Solid phase extraction (SPE)**

Simple method for the simultaneous isolation and determination of fumonisin B<sub>1</sub> and its metabolite aminopenitol-1 in swine liver by liquid chromatography–fluorescence detection 819(2005)97

#### **Soxhlet extraction**

Determination and occurrence of polybrominated diphenyl ethers in maternal adipose tissue from inhabitants of Singapore 819(2005)253

#### **SPE**

Analysis of protein fragmentation inhibition by an MMP-inhibitor in an in vivo model of heart failure using automated chromatography 819(2005)219

#### **Swine liver**

Simple method for the simultaneous isolation and determination of fumonisin B<sub>1</sub> and its metabolite aminopenitol-1 in swine liver by liquid chromatography–fluorescence detection 819(2005)97

#### **Systemic treatment**

Improved enantioselective analysis of polyunsaturated hydroxy fatty acids in psoriatic skin scales using high-performance liquid chromatography 819(2005)323

#### **Tetralones**

Characterization of lipophilicity and antiproliferative activity of *E*-2-arylmethylene-1-tetralones and their heteroanalogues 819(2005)283

#### **TFMPP**

Development of simultaneous gas chromatography–mass spectrometric and liquid chromatography–electrospray ionization mass spectrometric determination method for the new designer drugs, *N*-benzylpiperazine (BZP), 1-(3-trifluoromethylphenyl)piperazine (TFMPP) and their main metabolites in urine 819(2005)315

#### **Theanine**

A novel assay method for theanine synthetase activity by capillary electrophoresis 819(2005)81

#### **Theanine synthetase**

A novel assay method for theanine synthetase activity by capillary electrophoresis 819(2005)81

#### **ThioGlo<sup>TM</sup>3**

Determination of WR-1065 in human blood by high-performance liquid chromatography following fluorescent derivatization by a maleimide reagent ThioGlo<sup>TM</sup>3 819(2005)161

#### **Transgenic milk**

Partition of whey milk proteins in aqueous two-phase systems of polyethylene glycol–phosphate as a starting point to isolate proteins expressed in transgenic milk 819(2005)25

**1-(3-Trifluoromethylphenyl)piperazine**

Development of simultaneous gas chromatography–mass spectrometric and liquid chromatography–electrospray ionization mass spectrometric determination method for the new designer drugs, *N*-benzylpiperazine (BZP), 1-(3-trifluoromethylphenyl)piperazine (TFMPP) and their main metabolites in urine 819(2005)315

**Two-dimensional protein database**

The rat brain hippocampus proteome 819(2005)115

**Uric acid**

Simultaneous determination of 16 purine derivatives in urinary calculi by gradient reversed-phase high-performance liquid chromatography with UV detection 819(2005)229

**Urinary calculi**

Simultaneous determination of 16 purine derivatives in urinary calculi by gradient reversed-phase high-performance liquid chromatography with UV detection 819(2005)229

**Urinary nucleosides**

Determination of urinary nucleosides by direct injection and coupled-column high-performance liquid chromatography 819(2005)85

**Urine**

Analysis of environmental biomarkers in urine using an electrochemical detector 819(2005)155

**Urolithiasis**

Simultaneous determination of 16 purine derivatives in urinary calculi by gradient reversed-phase high-performance liquid chromatography with UV detection 819(2005)229

**UVB**

Improved enantioselective analysis of polyunsaturated hydroxy fatty acids in psoriatic skin scales using high-performance liquid chromatography 819(2005)323

**Vasoregulatory hormones**

Isolation and quantification of dinucleoside polyphosphates by using monolithic reversed phase chromatography columns 819(2005)131

**Whey milk proteins**

Partition of whey milk proteins in aqueous two-phase systems of polyethylene glycol–phosphate as a starting point to isolate proteins expressed in transgenic milk 819(2005)25

**Women**

Determination and occurrence of polybrominated diphenyl ethers in maternal adipose tissue from inhabitants of Singapore 819(2005)253

**WR-1065**

Determination of WR-1065 in human blood by high-performance liquid chromatography following fluorescent derivatization by a maleimide reagent ThioGlo<sup>TM</sup>3 819(2005)161

**Xanthinuria**

Simultaneous determination of 16 purine derivatives in urinary calculi by gradient reversed-phase high-performance liquid chromatography with UV detection 819(2005)229

**ZD1839**

Specific method for determination of gefitinib in human plasma, mouse plasma and tissues using high performance liquid chromatography coupled to tandem mass spectrometry 819(2005)73

**Zolmitriptan**

Rapid and sensitive liquid chromatography–tandem mass spectrometry method for the quantitation of levodropropizine in human plasma 819(2005)185
