

## Keyword Index Vol. 831

### ***Actinobacillus actinomycetemcomitans***

Characterization of immunoaffinity purified peptidoglycan-associated lipoprotein of *Actinobacillus actinomycetemcomitans* 831(2006)116

### **Adsorption isotherms**

Evaluation of cellulose-based biospecific adsorbents as a stationary phase for lectin affinity chromatography 831(2006)24

### **Alpha1-acid glycoprotein**

High-performance liquid chromatography determination of  $\alpha$ 1-acid glycoprotein in small volumes of plasma from neonates 831(2006)81

### **Amino acid release**

Neurochemical analysis of amino acids, polyamines and carboxylic acids: GC–MS quantitation of tBDMS derivatives using ammonia positive chemical ionization 831(2006)313

### **Amino acids**

Application of the 6-aminoquinolyl-*N*-hydroxysuccinimidyl carbamate (AQC) reagent to the RP-HPLC determination of amino acids in infant foods 831(2006)176

Neurochemical analysis of amino acids, polyamines and carboxylic acids: GC–MS quantitation of tBDMS derivatives using ammonia positive chemical ionization 831(2006)313

### **Amisulpride**

Selective and sensitive determination of amisulpride in human plasma by liquid chromatography–tandem mass spectrometry with positive electrospray ionisation and multiple reaction monitoring 831(2006)132

### **Ammonia PCI**

Neurochemical analysis of amino acids, polyamines and carboxylic acids: GC–MS quantitation of tBDMS derivatives using ammonia positive chemical ionization 831(2006)313

### **Anaesthetics**

High-performance liquid chromatography determination of  $\alpha$ 1-acid glycoprotein in small volumes of plasma from neonates 831(2006)81

### **Anions**

Capillary electrophoresis screening of poisonous anions extracted from biological samples 831(2006)190

### **Antibiotics**

Analysis of antibiotics in urine and wipe samples from environmental and biological monitoring—Comparison of HPLC with UV-, single MS- and tandem MS-detection 831(2006)72

Sample stacking for the analysis of penicillins by microemulsion electrokinetic capillary chromatography 831(2006)196

### **Antidoping control**

Quantitation of salbutamol in human urine by liquid chromatography–electrospray ionization mass spectrometry 831(2006)328

### **Antipeptide antibodies**

Characterization of immunoaffinity purified peptidoglycan-associated lipoprotein of *Actinobacillus actinomycetemcomitans* 831(2006)116

### **Antipsychotic drug**

Selective and sensitive determination of amisulpride in human plasma by liquid chromatography–tandem mass spectrometry with positive electrospray ionisation and multiple reaction monitoring 831(2006)132

### **Antiseptic**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEO<sub>*n*</sub>) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

### **Anti-thrombin**

Determination of endogenous glycosaminoglycans derived disaccharides in human plasma by HPLC: Validation and application in a clinical study 831(2006)156

### **Apomorphine**

Improved assay for R(–)-apomorphine with application to clinical pharmacokinetic studies in Parkinson's disease 831(2006)1

### **AQC**

Application of the 6-aminoquinolyl-*N*-hydroxysuccinimidyl carbamate (AQC) reagent to the RP-HPLC determination of amino acids in infant foods 831(2006)176

### **Atractylenolide III**

Quantitative determination of atractylenolide III in rat plasma by liquid chromatography electrospray ionization mass spectrometry 831(2006)36

### **Azo**

High-pressure liquid chromatographic analysis for identification of in vitro and in vivo metabolites of 4-phenethyl-5-[4-(1-(2-hydroxyethyl)-3,5-dimethyl-4-pyrazolylazo)phenyl]-2,4-dihydro-3H-1,2,4-triazole-3-thione in rats 831(2006)184

### **Benzamide derivative**

Selective and sensitive determination of amisulpride in human plasma by liquid chromatography–tandem mass spectrometry with positive electrospray ionisation and multiple reaction monitoring 831(2006)132

### **Biomarkers**

Determination of endogenous glycosaminoglycans derived disaccharides in human plasma by HPLC: Validation and application in a clinical study 831(2006)156

### **Biospecific adsorbents**

Evaluation of cellulose-based biospecific adsorbents as a stationary phase for lectin affinity chromatography 831(2006)24

**Blood**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEOn) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

Capillary electrophoresis screening of poisonous anions extracted from biological samples 831(2006)190

**Blood spot**

Method for the quantification of underivatized amino acids on dry blood spots from newborn screening by HPLC-ESI-MS/MS 831(2006)267

**Buyang Huanwu decoction**

On-line identification of the constituents of Buyang Huanwu decoction in pig serum using combined HPLC-DAD-MS techniques 831(2006)288

**Cancer models**

Thalidomide enantiomers: Determination in biological samples by HPLC and vancomycin-CSP 831(2006)48

**Capillary electrophoresis**

Determination of difenidol hydrochloride by capillary electrophoresis with electrochemiluminescence detection 831(2006)17

Capillary electrophoresis screening of poisonous anions extracted from biological samples 831(2006)190

Sample stacking for the analysis of penicillins by microemulsion electrokinetic capillary chromatography 831(2006)196

**Cardiolipin**

Analysis of cardiolipin in human muscle biopsy 831(2006)63

**Chlorhexidine**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEOn) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

**Column switching**

Use of microbore LC-MS/MS for the quantification of oxcarbazepine and its active metabolite in rat brain microdialysis samples 831(2006)205

Sensitive column-switching high-performance liquid chromatography method for determination of propiverine in human plasma 831(2006)230

**Concanavalin A**

Evaluation of cellulose-based biospecific adsorbents as a stationary phase for lectin affinity chromatography 831(2006)24

**Coptisine**

Simultaneous determination of four active alkaloids from a traditional chinese medicine *Corydalis saxicola* Bunting. (Yanhuanglian) in plasma and urine samples by LC-MS-MS 831(2006)140

***Corydalis saxicola* Bunting.**

Simultaneous determination of four active alkaloids from a traditional chinese medicine *Corydalis saxicola* Bunting. (Yanhuanglian) in plasma and urine samples by LC-MS-MS 831(2006)140

***p*-Coumaric acid**

Estimation of *p*-coumaric acid as metabolite of *E-6-O-p*-coumaroyl scandoside methyl ester in rat plasma by HPLC and its application to a pharmacokinetic study 831(2006)303

**Dansylhydrazine**

Determination of succinylacetone in dried blood spots and liquid urine as a dansylhydrazine by liquid chromatography tandem mass spectrometry 831(2006)274

**Dehydroapocavidine**

Simultaneous determination of four active alkaloids from a traditional chinese medicine *Corydalis saxicola* Bunting. (Yanhuanglian) in plasma and urine samples by LC-MS-MS 831(2006)140

**Dehydrocavidine**

Simultaneous determination of four active alkaloids from a traditional chinese medicine *Corydalis saxicola* Bunting. (Yanhuanglian) in plasma and urine samples by LC-MS-MS 831(2006)140

**Denaturing HPLC**

Optimized PCR fragments for heteroduplex analysis of the whole human mitochondrial genome with denaturing HPLC 831(2006)236

**Derivatization**

Quantitative analysis of trimethylsilyl derivative of hydroxyurea in plasma by gas chromatography-mass spectrometry 831(2006)42

**Deuterated biotin**

Quantification of biotin in feed, food, tablets, and premixes using HPLC-MS/MS 831(2006)8

**2,3-DHBA**

The salicylate trapping method: Is oxidation of salicylic acid solution oxygen and time dependent and metal catalysed? 831(2006)320

**2,5-DHBA**

The salicylate trapping method: Is oxidation of salicylic acid solution oxygen and time dependent and metal catalysed? 831(2006)320

**dHPLC**

Optimized PCR fragments for heteroduplex analysis of the whole human mitochondrial genome with denaturing HPLC 831(2006)236

**Dialkylphosphates**

Simultaneous determination of six dialkylphosphates in urine by liquid chromatography tandem mass spectrometry 831(2006)223

**Diet**

Longitudinal profiling of urinary steroids by gas chromatography/combustion/isotope ratio mass spectrometry: Diet change may result in carbon isotopic variations 831(2006)324

**Difenidol hydrochloride**

Determination of difenidol hydrochloride by capillary electrophoresis with electrochemiluminescence detection 831(2006)17

**10,11-Dihydro-10-hydroxycarbamazepine**

Use of microbore LC-MS/MS for the quantification of oxcarbazepine and its active metabolite in rat brain microdialysis samples 831(2006)205

**Dipeptides**

Neurochemical analysis of amino acids, polyamines and carboxylic acids: GC-MS quantitation of tBDMs derivatives using ammonia positive chemical ionization 831(2006)313

**Disaccharides**

Determination of endogenous glycosaminoglycans derived disaccharides in human plasma by HPLC: Validation and application in a clinical study 831(2006)156

**Disinfectant**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEOn) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

**DNA methyltransferase inhibitor**

Quantitative determination of zebularine (NSC 309132), a DNA methyltransferase inhibitor, and three metabolites in murine plasma by high-performance liquid chromatography coupled with on-line radioactivity detection 831(2006)147

**Doping control**

Longitudinal profiling of urinary steroids by gas chromatography/combustion/isotope ratio mass spectrometry: Diet change may result in carbon isotopic variations 831(2006)324

**E-6-O-p-Coumaroyl scandoside methyl ester**

Estimation of *p*-coumaric acid as metabolite of E-6-O-*p*-coumaroyl scandoside methyl ester in rat plasma by HPLC and its application to a pharmacokinetic study 831(2006)303

**Electrochemical detection**

Determination of lactate dehydrogenase isoenzymes in single rat glioma cells by capillary electrophoresis with electrochemical detection 831(2006)57

**Electrochemiluminescence**

Determination of difenidol hydrochloride by capillary electrophoresis with electrochemiluminescence detection 831(2006)17

**Electrospray tandem mass spectrometry (LC-ESI-MS/MS)**

Determination of lapatinib (GW572016) in human plasma by liquid chromatography electrospray tandem mass spectrometry (LC-ESI-MS/MS) 831(2006)169

**Enantioselective pharmacology**

Thalidomide enantiomers: Determination in biological samples by HPLC and vancomycin-CSP 831(2006)48

**Environment**

Selected ion monitoring in quantitative gas-liquid chromatographic – mass spectrometric detection of fatty acid methyl esters from environmental samples 831(2006)281

**Environmental and biological monitoring**

Analysis of antibiotics in urine and wipe samples from environmental and biological monitoring—Comparison of HPLC with UV-, single MS- and tandem MS-detection 831(2006)72

**Equilibrium-dialysis**

Liquid chromatography–electrospray mass spectrometry determination of free and total concentrations of ropivacaine in human plasma 831(2006)91

**Fatty acids**

Selected ion monitoring in quantitative gas-liquid chromatographic – mass spectrometric detection of fatty acid methyl esters from environmental samples 831(2006)281

**Feed**

Quantification of biotin in feed, food, tablets, and premixes using HPLC–MS/MS 831(2006)8

**Fluorescent derivatization**

Analysis of cardiolipin in human muscle biopsy 831(2006)63

**Fluoroquinolones**

Analysis of antibiotics in urine and wipe samples from environmental and biological monitoring—Comparison of HPLC with UV-, single MS- and tandem MS-detection 831(2006)72

**Food**

Quantification of biotin in feed, food, tablets, and premixes using HPLC–MS/MS 831(2006)8

**Forensic medicine**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEO<sub>n</sub>) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

**Forensic science**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEO<sub>n</sub>) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

**Gas chromatography/mass spectrometry–positive chemical ionization**

Simultaneous measurement of urinary polyols using gas chromatography/mass spectrometry 831(2006)126

**Gas chromatography–mass spectrometry**

Quantitative analysis of trimethylsilyl derivative of hydroxyurea in plasma by gas chromatography–mass spectrometry 831(2006)42

**GC–MS**

Neurochemical analysis of amino acids, polyamines and carboxylic acids: GC–MS quantitation of tBDMS derivatives using ammonia positive chemical ionization 831(2006)313

**GLC–MS**

Selected ion monitoring in quantitative gas-liquid chromatographic – mass spectrometric detection of fatty acid methyl esters from environmental samples 831(2006)281

**Glucose**

Simultaneous measurement of urinary polyols using gas chromatography/mass spectrometry 831(2006)126

**Glucose oxidase**

Evaluation of cellulose-based biospecific adsorbents as a stationary phase for lectin affinity chromatography 831(2006)24

**Glycosaminoglycans**

Determination of endogenous glycosaminoglycans derived disaccharides in human plasma by HPLC: Validation and application in a clinical study 831(2006)156

**Hemoglobin**

Determination of difenidol hydrochloride by capillary electrophoresis with electrochemiluminescence detection 831(2006)17

**Hepatorenal tyrosinemia**

Determination of succinylacetone in dried blood spots and liquid urine as a dansylhydrazone by liquid chromatography tandem mass spectrometry 831(2006)274

**Heteroduplex analysis**

Optimized PCR fragments for heteroduplex analysis of the whole human mitochondrial genome with denaturing HPLC 831(2006)236

**Heteroplasmy**

Optimized PCR fragments for heteroduplex analysis of the whole human mitochondrial genome with denaturing HPLC 831(2006)236

**High-performance liquid chromatography (HPLC)**

Improved solid-phase extraction and HPLC measurement of torasemide and its important metabolites 831(2006)31

Analysis of cardiolipin in human muscle biopsy 831(2006)63

High-performance liquid chromatography determination of  $\alpha$ 1-acid glycoprotein in small volumes of plasma from neonates 831(2006)81

Simultaneous determination of four active alkaloids from a traditional chinese medicine *Corydalis saxicola* Bunting. (Yanhuanglian) in plasma and urine samples by LC–MS–MS 831(2006)140

High-pressure liquid chromatographic analysis for identification of in vitro and in vivo metabolites of 4-phenethyl-5-[4-(1-(2-hydroxyethyl)-3,5-dimethyl-4-pyrazolylazo)phenyl]-2,4-dihydro-3H-1,2,4-triazole-3-thione in rats 831(2006)184

Sensitive column-switching high-performance liquid chromatography method for determination of propiverine in human plasma 831(2006)230

#### **HIV non-nucleoside reverse transcriptase inhibitors**

Simultaneous determination of 16 anti-HIV drugs in human plasma by high-performance liquid chromatography 831(2006)258

#### **HIV nucleoside reverse transcriptase inhibitors**

Simultaneous determination of 16 anti-HIV drugs in human plasma by high-performance liquid chromatography 831(2006)258

#### **HIV protease inhibitors**

Simultaneous determination of 16 anti-HIV drugs in human plasma by high-performance liquid chromatography 831(2006)258

#### **hPBMC**

Quantitation of zidovudine triphosphate concentrations from human peripheral blood mononuclear cells by anion exchange solid phase extraction and liquid chromatography–tandem mass spectroscopy; an indirect quantitation methodology 831(2006)248

#### **HPLC/MS**

Stochastic resonance is applied to quantitative analysis for weak chromatographic signal of roxithromycin in beagle dog plasma 831(2006)307

#### **HPLC/UV**

Stochastic resonance is applied to quantitative analysis for weak chromatographic signal of roxithromycin in beagle dog plasma 831(2006)307

#### **HPLC–DAD–MS**

On-line identification of the constituents of Buyang Huanwu decoction in pig serum using combined HPLC–DAD–MS techniques 831(2006)288

#### **HPLC–ESI–MS/MS**

Method for the quantification of underivatized amino acids on dry blood spots from newborn screening by HPLC–ESI–MS/MS 831(2006)267

#### **HPLC–MS/MS**

Quantification of biotin in feed, food, tablets, and premixes using HPLC–MS/MS 831(2006)8

#### **HPLC–UV**

Simultaneous determination of 16 anti-HIV drugs in human plasma by high-performance liquid chromatography 831(2006)258

#### **Human**

Analysis of cardiolipin in human muscle biopsy 831(2006)63

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEO<sub>n</sub>) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

#### **Human plasma**

Selective and sensitive determination of amisulpride in human plasma by liquid chromatography–tandem mass spectrometry with positive electrospray ionisation and multiple reaction monitoring 831(2006)132

#### **Hydroxyurea**

Quantitative analysis of trimethylsilyl derivative of hydroxyurea in plasma by gas chromatography–mass spectrometry 831(2006)42

#### **Hyperoxia**

The salicylate trapping method: Is oxidation of salicylic acid solution oxygen and time dependent and metal catalysed? 831(2006)320

#### **Immunoaffinity chromatography**

Characterization of immunoaffinity purified peptidoglycan-associated lipoprotein of *Actinobacillus actinomycetemcomitans* 831(2006)116

#### **Infant foods**

Application of the 6-aminoquinolyl-*N*-hydroxysuccinimidyl carbamate (AQC) reagent to the RP-HPLC determination of amino acids in infant foods 831(2006)176

#### **Intestinal contents**

Capillary electrophoresis screening of poisonous anions extracted from biological samples 831(2006)190

#### **Ion-pair**

Ion-pair reversed-phase HPLC: Assay validation of sodium tanshinone IIA sulfonate in mouse plasma 831(2006)163

#### **Isoenzyme**

Determination of lactate dehydrogenase isoenzymes in single rat glioma cells by capillary electrophoresis with electrochemical detection 831(2006)57

#### **Isotope ratio mass spectrometry (IRMS)**

Longitudinal profiling of urinary steroids by gas chromatography/combustion/isotope ratio mass spectrometry: Diet change may result in carbon isotopic variations 831(2006)324

#### **β-Lactames**

Analysis of antibiotics in urine and wipe samples from environmental and biological monitoring—Comparison of HPLC with UV-, single MS- and tandem MS-detection 831(2006)72

#### **Lactate dehydrogenase**

Determination of lactate dehydrogenase isoenzymes in single rat glioma cells by capillary electrophoresis with electrochemical detection 831(2006)57

#### ***Lactobacillus plantarum***

Quantification of biotin in feed, food, tablets, and premixes using HPLC–MS/MS 831(2006)8

#### **Lapatinib (GW572016)**

Determination of lapatinib (GW572016) in human plasma by liquid chromatography electrospray tandem mass spectrometry (LC–ESI-MS/MS) 831(2006)169

#### **LC/MS/MS**

A 96-well single-pot protein precipitation, liquid chromatography/tandem mass spectrometry (LC/MS/MS) method for the determination of muraglitazar, a novel diabetes drug, in human plasma 831(2006)213

#### **LC-ESI**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEO<sub>n</sub>) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

#### **LC-ESI-MS**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEO<sub>n</sub>) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

#### **LC-MS**

Quantitative determination of atractylenolide III in rat plasma by liquid chromatography electrospray ionization mass spectrometry 831(2006)36

Sensitive quantification of omeprazole and its metabolites in human plasma by liquid chromatography–mass spectrometry 831(2006)85

#### **LC–MS–MS**

Simultaneous determination of four active alkaloids from a traditional chinese medicine *Corydalis saxicola* Bunting. (Yanhuanglian) in plasma and urine samples by LC–MS–MS 831(2006)140

Quantitation of zidovudine triphosphate concentrations from human peripheral blood mononuclear cells by anion exchange solid phase extraction and liquid chromatography–tandem mass spectroscopy; an indirect quantitation methodology 831(2006)248

#### **Lectin affinity chromatography**

Evaluation of cellulose-based biospecific adsorbents as a stationary phase for lectin affinity chromatography 831(2006)24

#### **Liquid chromatography**

Selective and sensitive determination of amisulpride in human plasma by liquid chromatography–tandem mass spectrometry with positive electrospray ionisation and multiple reaction monitoring 831(2006)132

Determination of lapatinib (GW572016) in human plasma by liquid chromatography electrospray tandem mass spectrometry (LC–ESI-MS/MS) 831(2006)169

Simultaneous determination of six dialkylphosphates in urine by liquid chromatography tandem mass spectrometry 831(2006)223

#### **Liquid chromatography-mass spectrometry**

Analysis of antibiotics in urine and wipe samples from environmental and biological monitoring—Comparison of HPLC with UV-, single MS- and tandem MS-detection 831(2006)72

Quantitation of salbutamol in human urine by liquid chromatography–electrospray ionization mass spectrometry 831(2006)328

#### **Liquid extraction**

Quantitative analysis of trimethylsilyl derivative of hydroxyurea in plasma by gas chromatography–mass spectrometry 831(2006)42

#### **Local anaesthetics**

Liquid chromatography–electrospray mass spectrometry determination of free and total concentrations of ropivacaine in human plasma 831(2006)91

#### **Loop type diuretics**

Improved solid-phase extraction and HPLC measurement of torasemide and its important metabolites 831(2006)31

#### **Metabolism**

Quantitative determination of zebularine (NSC 309132), a DNA methyltransferase inhibitor, and three metabolites in murine plasma by high-performance liquid chromatography coupled with on-line radioactivity detection 831(2006)147

High-pressure liquid chromatographic analysis for identification of in vitro and in vivo metabolites of 4-phenethyl-5-[4-(1-(2-hydroxyethyl)-3,5-dimethyl-4-pyrazolylazo)phenyl]-2,4-dihydro-3H-1,2,4-triazole-3-thione in rats 831(2006)184

#### **Metabolites**

Sensitive quantification of omeprazole and its metabolites in human plasma by liquid chromatography–mass spectrometry 831(2006)85

On-line identification of the constituents of Buyang Huanwu decoction in pig serum using combined HPLC–DAD–MS techniques 831(2006)288

Estimation of *p*-coumaric acid as metabolite of E-6-*O*-*p*-coumaroyl scandoside methyl ester in rat plasma by HPLC and its application to a pharmacokinetic study 831(2006)303

#### **Metal catalysis**

The salicylate trapping method: Is oxidation of salicylic acid solution oxygen and time dependent and metal catalysed? 831(2006)320

#### **Microbiological assay**

Quantification of biotin in feed, food, tablets, and premixes using HPLC–MS/MS 831(2006)8

#### **Microbore LC–MS/MS**

Use of microbore LC–MS/MS for the quantification of oxcarbazepine and its active metabolite in rat brain microdialysis samples 831(2006)205

#### **Microemulsion electrokinetic chromatography**

Sample stacking for the analysis of penicillins by microemulsion electrokinetic capillary chromatography 831(2006)196

#### **Mitochondria**

Analysis of cardiolipin in human muscle biopsy 831(2006)63

#### **Mitochondrial disease**

Optimized PCR fragments for heteroduplex analysis of the whole human mitochondrial genome with denaturing HPLC 831(2006)236

#### **Mitochondrial DNA**

Optimized PCR fragments for heteroduplex analysis of the whole human mitochondrial genome with denaturing HPLC 831(2006)236

#### **Muraglitazar**

A 96-well single-pot protein precipitation, liquid chromatography/tandem mass spectrometry (LC/MS/MS) method for the determination of muraglitazar, a novel diabetes drug, in human plasma 831(2006)213

#### **Murine**

Quantitative determination of zebularine (NSC 309132), a DNA methyltransferase inhibitor, and three metabolites in murine plasma by high-performance liquid chromatography coupled with on-line radioactivity detection 831(2006)147

#### **Mutation discovery**

Optimized PCR fragments for heteroduplex analysis of the whole human mitochondrial genome with denaturing HPLC 831(2006)236

#### **Neonates**

High-performance liquid chromatography determination of  $\alpha$ 1-acid glycoprotein in small volumes of plasma from neonates 831(2006)81

#### **Newborn screening**

Method for the quantification of underivatized amino acids on dry blood spots from newborn screening by HPLC–ESI–MS/MS 831(2006)267

Determination of succinylacetone in dried blood spots and liquid urine as a dansylhydrazone by liquid chromatography tandem mass spectrometry 831(2006)274

#### **Nonylphenoethoxylates**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEOn) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

#### **Oasis®**

A simple and fast extraction method for organochlorine pesticides and polychlorinated biphenyls in small volumes of avian serum 831(2006)99

#### **Occupational exposure**

Analysis of antibiotics in urine and wipe samples from environmental and biological monitoring—Comparison of HPLC with UV-, single MS- and tandem MS-detection 831(2006)72

#### **Omeprazole**

Sensitive quantification of omeprazole and its metabolites in human plasma by liquid chromatography–mass spectrometry 831(2006)85

**Organochlorine pesticides**

A simple and fast extraction method for organochlorine pesticides and polychlorinated biphenyls in small volumes of avian serum 831(2006)99

**Organophosphorus pesticides**

Simultaneous determination of six dialkylphosphates in urine by liquid chromatography tandem mass spectrometry 831(2006)223

**Oxcarbazepine**

Use of microbore LC-MS/MS for the quantification of oxcarbazepine and its active metabolite in rat brain microdialysis samples 831(2006)205

**Oxygen**

The salicylate trapping method: Is oxidation of salicylic acid solution oxygen and time dependent and metal catalysed? 831(2006)320

**Parkinson's disease**

Improved assay for R(-)-apomorphine with application to clinical pharmacokinetic studies in Parkinson's disease 831(2006)1

**Penicillins**

Sample stacking for the analysis of penicillins by microemulsion electrokinetic capillary chromatography 831(2006)196

**Peptidoglycan-associated lipoprotein**

Characterization of immunoaffinity purified peptidoglycan-associated lipoprotein of *Actinobacillus actinomycetemcomitans* 831(2006)116

**Pharmacodynamics**

Determination of endogenous glycosaminoglycans derived disaccharides in human plasma by HPLC: Validation and application in a clinical study 831(2006)156

**Pharmacokinetics**

Improved solid-phase extraction and HPLC measurement of torasemide and its important metabolites 831(2006)31

Quantitative determination of atractylenolide III in rat plasma by liquid chromatography electrospray ionization mass spectrometry 831(2006)36

Thalidomide enantiomers: Determination in biological samples by HPLC and vancomycin-CSP 831(2006)48

Simultaneous determination of four active alkaloids from a traditional chinese medicine *Corydalis saxicola* Bunting. (Yanhuanglian) in plasma and urine samples by LC-MS-MS 831(2006)140

Ion-pair reversed-phase HPLC: Assay validation of sodium tanshinone IIA sulfonate in mouse plasma 831(2006)163

Estimation of *p*-coumaric acid as metabolite of E-6-*O*-*p*-coumaroyl scandoside methyl ester in rat plasma by HPLC and its application to a pharmacokinetic study 831(2006)303

**Plasma**

Improved assay for R(-)-apomorphine with application to clinical pharmacokinetic studies in Parkinson's disease 831(2006)1

Liquid chromatography-electrospray mass spectrometry determination of free and total concentrations of ropivacaine in human plasma 831(2006)91

High-performance liquid chromatography determination of  $\alpha$ 1-acid glycoprotein in small volumes of plasma from neonates 831(2006)81

Determination of lapatinib (GW572016) in human plasma by liquid chromatography electrospray tandem mass spectrometry (LC-ESI-MS/MS) 831(2006)169

Capillary electrophoresis screening of poisonous anions extracted from biological samples 831(2006)190

**Poison**

Capillary electrophoresis screening of poisonous anions extracted from biological samples 831(2006)190

**Polyamines**

Neurochemical analysis of amino acids, polyamines and carboxylic acids: GC-MS quantitation of tBDMS derivatives using ammonia positive chemical ionization 831(2006)313

**Polychlorinated biphenyls**

A simple and fast extraction method for organochlorine pesticides and polychlorinated biphenyls in small volumes of avian serum 831(2006)99

**Polyol-pathway**

Simultaneous measurement of urinary polyols using gas chromatography/mass spectrometry 831(2006)126

**Positive electrospray ionisation**

Selective and sensitive determination of amisulpride in human plasma by liquid chromatography-tandem mass spectrometry with positive electrospray ionisation and multiple reaction monitoring 831(2006)132

**Preconcentration**

Sample stacking for the analysis of penicillins by microemulsion electrokinetic capillary chromatography 831(2006)196

**Propiverine**

Sensitive column-switching high-performance liquid chromatography method for determination of propiverine in human plasma 831(2006)230

**1-Pyrenyldiazomethane**

Analysis of cardiolipin in human muscle biopsy 831(2006)63

**Quantitation**

Quantitative analysis of trimethylsilyl derivative of hydroxyurea in plasma by gas chromatography-mass spectrometry 831(2006)42

**Quantitation LC-ESI-MS**

Liquid chromatography-electrospray mass spectrometry determination of free and total concentrations of ropivacaine in human plasma 831(2006)91

**Quantitative biotin analysis**

Quantification of biotin in feed, food, tablets, and premixes using HPLC-MS/MS 831(2006)8

**Radioactivity**

Quantitative determination of zebularine (NSC 309132), a DNA methyltransferase inhibitor, and three metabolites in murine plasma by high-performance liquid chromatography coupled with on-line radioactivity detection 831(2006)147

**Rat brain microdialysis**

Use of microbore LC-MS/MS for the quantification of oxcarbazepine and its active metabolite in rat brain microdialysis samples 831(2006)205

**Reversed-phase HPLC**

Ion-pair reversed-phase HPLC: Assay validation of sodium tanshinone IIA sulfonate in mouse plasma 831(2006)163

**Ropivacaine**

Liquid chromatography-electrospray mass spectrometry determination of free and total concentrations of ropivacaine in human plasma 831(2006)91

**Roxithromycin**

Stochastic resonance is applied to quantitative analysis for weak chromatographic signal of roxithromycin in beagle dog plasma 831(2006)307

**RP-HPLC**

Application of the 6-aminoquinolyl-*N*-hydroxysuccinimidyl carbamate (AQC) reagent to the RP-HPLC determination of amino acids in infant foods 831(2006)176

**Salbutamol**

Quantitation of salbutamol in human urine by liquid chromatography–electrospray ionization mass spectrometry 831(2006)328

**Salicylate trapping method**

The salicylate trapping method: Is oxidation of salicylic acid solution oxygen and time dependent and metal catalysed? 831(2006)320

**SCAN**

Selected ion monitoring in quantitative gas–liquid chromatographic – mass spectrometric detection of fatty acid methyl esters from environmental samples 831(2006)281

**Screening**

Capillary electrophoresis screening of poisonous anions extracted from biological samples 831(2006)190

**Serum**

A simple and fast extraction method for organochlorine pesticides and polychlorinated biphenyls in small volumes of avian serum 831(2006)99

**Serum containing drug**

On-line identification of the constituents of Buyang Huanwu decoction in pig serum using combined HPLC–DAD–MS techniques 831(2006)288

**Sickle cell disease**

Quantitative analysis of trimethylsilyl derivative of hydroxyurea in plasma by gas chromatography–mass spectrometry 831(2006)42

**SIM**

Selected ion monitoring in quantitative gas–liquid chromatographic – mass spectrometric detection of fatty acid methyl esters from environmental samples 831(2006)281

**Single-cell analysis**

Determination of lactate dehydrogenase isoenzymes in single rat glioma cells by capillary electrophoresis with electrochemical detection 831(2006)57

**Single-pot protein precipitation**

A 96-well single-pot protein precipitation, liquid chromatography/tandem mass spectrometry (LC/MS/MS) method for the determination of muraglitazar, a novel diabetes drug, in human plasma 831(2006)213

**Skeletal muscle**

Analysis of cardiolipin in human muscle biopsy 831(2006)63

**Sodium tanshinone IIA sulfonate (STS)**

Ion-pair reversed-phase HPLC: Assay validation of sodium tanshinone IIA sulfonate in mouse plasma 831(2006)163

**Solid phase extraction**

Improved assay for R(–)-apomorphine with application to clinical pharmacokinetic studies in Parkinson's disease 831(2006)1

Improved solid-phase extraction and HPLC measurement of torasemide and its important metabolites 831(2006)31

**Sorbitol**

Simultaneous measurement of urinary polyols using gas chromatography/mass spectrometry 831(2006)126

**SPE**

A simple and fast extraction method for organochlorine pesticides and polychlorinated biphenyls in small volumes of avian serum 831(2006)99

**Steroids**

Longitudinal profiling of urinary steroids by gas chromatography/combustion/isotope ratio mass spectrometry: Diet change may result in carbon isotopic variations 831(2006)324

**Stochastic resonance**

Stochastic resonance is applied to quantitative analysis for weak chromatographic signal of roxithromycin in beagle dog plasma 831(2006)307

**Succinylacetone**

Determination of succinylacetone in dried blood spots and liquid urine as a dansylhydrazone by liquid chromatography tandem mass spectrometry 831(2006)274

**Suicide**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEO<sub>*n*</sub>) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

**Sulfonamides**

Analysis of antibiotics in urine and wipe samples from environmental and biological monitoring—Comparison of HPLC with UV-, single MS- and tandem MS-detection 831(2006)72

**Sulfur amino acids**

Neurochemical analysis of amino acids, polyamines and carboxylic acids: GC–MS quantitation of tBDMS derivatives using ammonia positive chemical ionization 831(2006)313

**Sulpiride**

Selective and sensitive determination of amisulpride in human plasma by liquid chromatography–tandem mass spectrometry with positive electrospray ionisation and multiple reaction monitoring 831(2006)132

**Tandem mass spectrometry**

Selective and sensitive determination of amisulpride in human plasma by liquid chromatography–tandem mass spectrometry with positive electrospray ionisation and multiple reaction monitoring 831(2006)132

Simultaneous determination of six dialkylphosphates in urine by liquid chromatography tandem mass spectrometry 831(2006)223

Determination of succinylacetone in dried blood spots and liquid urine as a dansylhydrazone by liquid chromatography tandem mass spectrometry 831(2006)274

**tBDMS**

Neurochemical analysis of amino acids, polyamines and carboxylic acids: GC–MS quantitation of tBDMS derivatives using ammonia positive chemical ionization 831(2006)313

**Tetrahydroscoulerine**

Simultaneous determination of four active alkaloids from a traditional chinese medicine *Corydalis saxicola* Bunting. (Yanhuanglian) in plasma and urine samples by LC–MS–MS 831(2006)140

**Thalidomide stereoisomers**

Thalidomide enantiomers: Determination in biological samples by HPLC and vancomycin-CSP 831(2006)48

**Therapeutic drug monitoring**

Simultaneous determination of 16 anti-HIV drugs in human plasma by high-performance liquid chromatography 831(2006)258

**Torasemide**

Improved solid-phase extraction and HPLC measurement of torasemide and its important metabolites 831(2006)31

**Toxicology**

Determination of chlorhexidine (CHD) and nonylphenoethoxylates (NPEO<sub>*n*</sub>) using LC-ESI-MS method and application to hemolyzed blood 831(2006)105

**Trimethyl tin**

Neurochemical analysis of amino acids, polyamines and carboxylic acids: GC-MS quantitation of tBDMS derivatives using ammonia positive chemical ionization 831(2006)313

**Tyrosine**

Determination of succinylacetone in dried blood spots and liquid urine as a dansylhydrazone by liquid chromatography tandem mass spectrometry 831(2006)274

**Underivatized amino acids**

Method for the quantification of underivatized amino acids on dry blood spots from newborn screening by HPLC-ESI-MS/MS 831(2006)267

**Urea**

A simple and fast extraction method for organochlorine pesticides and polychlorinated biphenyls in small volumes of avian serum 831(2006)99

Neurochemical analysis of amino acids, polyamines and carboxylic acids: GC-MS quantitation of tBDMS derivatives using ammonia positive chemical ionization 831(2006)313

**Urine**

Analysis of antibiotics in urine and wipe samples from environmental and biological monitoring—Comparison of HPLC with UV-, single MS- and tandem MS-detection 831(2006)72

Simultaneous measurement of urinary polyols using gas chromatography/mass spectrometry 831(2006)126

Capillary electrophoresis screening of poisonous anions extracted from biological samples 831(2006)190

Simultaneous determination of six dialkylphosphates in urine by liquid chromatography tandem mass spectrometry 831(2006)223

Quantitation of salbutamol in human urine by liquid chromatography-electrospray ionization mass spectrometry 831(2006)328

**UV detection**

Capillary electrophoresis screening of poisonous anions extracted from biological samples 831(2006)190

**Weak signal**

Stochastic resonance is applied to quantitative analysis for weak chromatographic signal of roxithromycin in beagle dog plasma 831(2006)307

**Wipe Samples**

Analysis of antibiotics in urine and wipe samples from environmental and biological monitoring—Comparison of HPLC with UV-, single MS- and tandem MS-detection 831(2006)72

**Zebularine**

Quantitative determination of zebularine (NSC 309132), a DNA methyltransferase inhibitor, and three metabolites in murine plasma by high-performance liquid chromatography coupled with on-line radioactivity detection 831(2006)147

**Zidovudine-triphosphate**

Quantitation of zidovudine triphosphate concentrations from human peripheral blood mononuclear cells by anion exchange solid phase extraction and liquid chromatography-tandem mass spectroscopy; an indirect quantitation methodology 831(2006)248
