

## Keyword Index Vol. 839

### Acetonitrile

Determination of free amino acids and related compounds in amniotic fluid by capillary electrophoresis with contactless conductivity detection 839(2006)12

### Amino acid

Determination of free amino acids and related compounds in amniotic fluid by capillary electrophoresis with contactless conductivity detection 839(2006)12

### Amniotic fluid

Determination of free amino acids and related compounds in amniotic fluid by capillary electrophoresis with contactless conductivity detection 839(2006)12

### Canine plasma

Optimization and validation of a high-performance liquid chromatographic method with UV detection for the determination of ketoconazole in canine plasma 839(2006)62

### Canrenone

Development and validation of an HPLC method for the determination of spironolactone and its metabolites in paediatric plasma samples 839(2006)36

### Capillary electrophoresis

Direct analysis of bromide in human serum by capillary electrophoresis 839(2006)2

On-line coupling of size exclusion chromatography and capillary electrophoresis via solid-phase extraction and a Tee-split interface 839(2006)30

### Capillary zone electrophoresis

High sensitivity analysis of oxprenolol in urine by capillary electrophoresis with C18 packed on-line preconcentrator 839(2006)6

Profiling preparations of recombinant birch pollen allergen Bet v 1a with capillary zone electrophoresis in pentamine modified fused-silica capillaries 839(2006)19

Optimization of a capillary zone electrophoresis method by using a central composite factorial design for the determination of codeine and paracetamol in pharmaceuticals 839(2006)95

### Central composite design

Optimization of a capillary zone electrophoresis method by using a central composite factorial design for the determination of codeine and paracetamol in pharmaceuticals 839(2006)95

### Cerebrospinal fluid

On-line coupling of size exclusion chromatography and capillary electrophoresis via solid-phase extraction and a Tee-split interface 839(2006)30

### Children

Development and validation of an HPLC method for the determination of spironolactone and its metabolites in paediatric plasma samples 839(2006)36

### Codeine

Optimization of a capillary zone electrophoresis method by using a central composite factorial design for the determination of codeine and paracetamol in pharmaceuticals 839(2006)95

### Contactless conductivity detection

Determination of free amino acids and related compounds in amniotic fluid by capillary electrophoresis with contactless conductivity detection 839(2006)12

### Derivatization

RP-HPLC method with fluorescence detection for determination of small quantities of triamcinolone in plasma in presence of endogenous steroids after derivatization with 9-anthroyl nitrile; pharmacokinetic studies 839(2006)54

### Diclofenac

Sensitive quantification of chosen drugs by reversed-phase chromatography with electrochemical detection at a glassy carbon electrode 839(2006)102

### 5,6-Dihydrouracil

Liquid chromatography–tandem mass spectrometric assay for the analysis of uracil, 5,6-dihydrouracil and  $\beta$ -ureidopropionic acid in urine for the measurement of the activities of the pyrimidine catabolic enzymes 839(2006)45

### Direct injection

Direct determination of verapamil in urine and serum samples by micellar liquid chromatography and fluorescence detection 839(2006)89

### Dynamic coating with tetraethylenepentamine

Profiling preparations of recombinant birch pollen allergen Bet v 1a with capillary zone electrophoresis in pentamine modified fused-silica capillaries 839(2006)19

### Endogenous steroid metabolites

RP-HPLC method with fluorescence detection for determination of small quantities of triamcinolone in plasma in presence of endogenous steroids after derivatization with 9-anthroyl nitrile; pharmacokinetic studies 839(2006)54

### Enkephalin

On-line coupling of size exclusion chromatography and capillary electrophoresis via solid-phase extraction and a Tee-split interface 839(2006)30

### Enzyme

HPLC in reversed phase mode: Tool for investigation of kinetics of blackcurrant seed oil lipolysis in supercritical carbon dioxide 839(2006)80

### Epilepsy

Direct analysis of bromide in human serum by capillary electrophoresis 839(2006)2

### ESI-Q-TOF-MS

Profiling preparations of recombinant birch pollen allergen Bet v 1a with capillary zone electrophoresis in pentamine modified fused-silica capillaries 839(2006)19

**Glutathione**

Analysis of glutathione and glutathione disulfide in human saliva using hydrophilic interaction chromatography with mass spectrometry 839(2006)74

**Glutathione disulfide**

Analysis of glutathione and glutathione disulfide in human saliva using hydrophilic interaction chromatography with mass spectrometry 839(2006)74

**High sensitivity**

High sensitivity analysis of oxprenolol in urine by capillary electrophoresis with C18 packed on-line preconcentrator 839(2006)6

**HPLC**

Development and validation of an HPLC method for the determination of spirinolactone and its metabolites in paediatric plasma samples 839(2006)36

Development of an HPLC method for the determination of nifedipine in human plasma by solid-phase extraction 839(2006)85

**HPLC-MS/MS**

Pharmacokinetic study of orphenadrine using high-performance liquid chromatography-tandem mass spectrometry (HPLC-MS/MS) 839(2006)118

Determination of iohexol clearance by high-performance liquid chromatography-tandem mass spectrometry (HPLC-MS/MS) 839(2006)124

**Hydrochlorothiazide**

Sensitive quantification of chosen drugs by reversed-phase chromatography with electrochemical detection at a glassy carbon electrode 839(2006)102

**Hydrophilic interaction chromatography**

Analysis of glutathione and glutathione disulfide in human saliva using hydrophilic interaction chromatography with mass spectrometry 839(2006)74

**Imipramine**

Sensitive quantification of chosen drugs by reversed-phase chromatography with electrochemical detection at a glassy carbon electrode 839(2006)102

**Interaction**

RP-HPLC method with fluorescence detection for determination of small quantities of triamcinolone in plasma in presence of endogenous steroids after derivatization with 9-anthroyl nitrile; pharmacokinetic studies 839(2006)54

**Iohexol clearance**

Determination of iohexol clearance by high-performance liquid chromatography-tandem mass spectrometry (HPLC-MS/MS) 839(2006)124

**Isotachopheresis-zone electrophoresis**

Selective protein removal and desalting using microchip CE 839(2006)68

**Ketoconazole**

Optimization and validation of a high-performance liquid chromatographic method with UV detection for the determination of ketoconazole in canine plasma 839(2006)62

**LC-MSMS**

Liquid chromatography-tandem mass spectrometric assay for the analysis of uracil, 5,6-dihydrouracil and  $\beta$ -ureidopropionic acid in urine for the measurement of the activities of the pyrimidine catabolic enzymes 839(2006)45

**Liquid-liquid extraction**

Liquid chromatography-tandem mass spectrometric assay for the analysis of uracil, 5,6-dihydrouracil and  $\beta$ -ureidopropionic acid in urine for the measurement of the activities of the pyrimidine catabolic enzymes 839(2006)45

**Mass spectrometry**

Analysis of glutathione and glutathione disulfide in human saliva using hydrophilic interaction chromatography with mass spectrometry 839(2006)74

**Metoclopramide**

Sensitive quantification of chosen drugs by reversed-phase chromatography with electrochemical detection at a glassy carbon electrode 839(2006)102

**Micellar mobile phase**

Direct determination of verapamil in urine and serum samples by micellar liquid chromatography and fluorescence detection 839(2006)89

**2D microfluidic device**

Selective protein removal and desalting using microchip CE 839(2006)68

**Nifedipine**

Development of an HPLC method for the determination of nifedipine in human plasma by solid-phase extraction 839(2006)85

**NMR**

HPLC in reversed phase mode: Tool for investigation of kinetics of blackcurrant seed oil lipolysis in supercritical carbon dioxide 839(2006)80

**Oil hydrolysis**

HPLC in reversed phase mode: Tool for investigation of kinetics of blackcurrant seed oil lipolysis in supercritical carbon dioxide 839(2006)80

**On chip sample pretreatment**

Selective protein removal and desalting using microchip CE 839(2006)68

**On-line preconcentrator**

High sensitivity analysis of oxprenolol in urine by capillary electrophoresis with C18 packed on-line preconcentrator 839(2006)6

**Orphenadrine**

Pharmacokinetic study of orphenadrine using high-performance liquid chromatography-tandem mass spectrometry (HPLC-MS/MS) 839(2006)118

**Oxprenolol**

High sensitivity analysis of oxprenolol in urine by capillary electrophoresis with C18 packed on-line preconcentrator 839(2006)6

**Paracetamol**

Optimization of a capillary zone electrophoresis method by using a central composite factorial design for the determination of codeine and paracetamol in pharmaceuticals 839(2006)95

**Partial filling**

Capillary electrophoresis of peptides and proteins with plug of Pluronic gel 839(2006)112

**Peptide**

Capillary electrophoresis of peptides and proteins with plug of Pluronic gel 839(2006)112

**Pharmaceuticals**

Optimization of a capillary zone electrophoresis method by using a central composite factorial design for the determination of codeine and paracetamol in pharmaceuticals 839(2006)95

**Pharmacokinetic**

Pharmacokinetic study of orphenadrine using high-performance liquid chromatography-tandem mass spectrometry (HPLC-MS/MS) 839(2006)118

**Pharmacokinetic profile**

Optimization and validation of a high-performance liquid chromatographic method with UV detection for the determination of ketoconazole in canine plasma 839(2006)62

**Pharmacokinetics**

Development and validation of an HPLC method for the determination of spirinolactone and its metabolites in paediatric plasma samples 839(2006)36

Sensitive quantification of chosen drugs by reversed-phase chromatography with electrochemical detection at a glassy carbon electrode 839(2006)102

#### **Pluronic**

Capillary electrophoresis of peptides and proteins with plug of Pluronic gel 839(2006)112

#### **Potassium bromide therapy**

Direct analysis of bromide in human serum by capillary electrophoresis 839(2006)2

#### **Proteins**

Capillary electrophoresis of peptides and proteins with plug of Pluronic gel 839(2006)112

#### **Proteins and peptides**

Selective protein removal and desalting using microchip CE 839(2006)68

#### **Pyrimidines**

Liquid chromatography–tandem mass spectrometric assay for the analysis of uracil, 5,6-dihydrouacil and  $\beta$ -ureidopropionic acid in urine for the measurement of the activities of the pyrimidine catabolic enzymes 839(2006)45

#### **Recombinant allergens**

Profiling preparations of recombinant birch pollen allergen Bet v 1a with capillary zone electrophoresis in pentamine modified fused-silica capillaries 839(2006)19

#### **RP-HPLC**

HPLC in reversed phase mode: Tool for investigation of kinetics of blackcurrant seed oil lipolysis in supercritical carbon dioxide 839(2006)80

#### **RP-HPLC with UV detection**

Optimization and validation of a high-performance liquid chromatographic method with UV detection for the determination of ketoconazole in canine plasma 839(2006)62

#### **RP-HPLC/ECD**

Sensitive quantification of chosen drugs by reversed-phase chromatography with electrochemical detection at a glassy carbon electrode 839(2006)102

#### **Saliva**

Analysis of glutathione and glutathione disulfide in human saliva using hydrophilic interaction chromatography with mass spectrometry 839(2006)74

#### **Sample depletion**

Selective protein removal and desalting using microchip CE 839(2006)68

#### **Serum**

Direct determination of verapamil in urine and serum samples by micellar liquid chromatography and fluorescence detection 839(2006)89

#### **Serum bromide analysis**

Direct analysis of bromide in human serum by capillary electrophoresis 839(2006)2

#### **Size exclusion chromatography**

On-line coupling of size exclusion chromatography and capillary electrophoresis via solid-phase extraction and a Tee-split interface 839(2006)30

#### **Solid-phase extraction**

On-line coupling of size exclusion chromatography and capillary electrophoresis via solid-phase extraction and a Tee-split interface 839(2006)30

RP-HPLC method with fluorescence detection for determination of small quantities of triamcinolone in plasma in presence of endogenous steroids after derivatization with 9-anthroyl nitrile; pharmacokinetic studies 839(2006)54

Development of an HPLC method for the determination of nifedipine in human plasma by solid-phase extraction 839(2006)85

#### **Spirolactone**

Development and validation of an HPLC method for the determination of spironolactone and its metabolites in paediatric plasma samples 839(2006)36

#### **Supercritical carbon dioxide**

HPLC in reversed phase mode: Tool for investigation of kinetics of blackcurrant seed oil lipolysis in supercritical carbon dioxide 839(2006)80

#### **Tablets**

RP-HPLC method with fluorescence detection for determination of small quantities of triamcinolone in plasma in presence of endogenous steroids after derivatization with 9-anthroyl nitrile; pharmacokinetic studies 839(2006)54

#### **Tee-split interface**

On-line coupling of size exclusion chromatography and capillary electrophoresis via solid-phase extraction and a Tee-split interface 839(2006)30

#### **7 $\alpha$ -Thiomethylspiro lactone**

Development and validation of an HPLC method for the determination of spironolactone and its metabolites in paediatric plasma samples 839(2006)36

#### **Triamcinolone free alcohol form**

RP-HPLC method with fluorescence detection for determination of small quantities of triamcinolone in plasma in presence of endogenous steroids after derivatization with 9-anthroyl nitrile; pharmacokinetic studies 839(2006)54

#### **Uracil**

Liquid chromatography–tandem mass spectrometric assay for the analysis of uracil, 5,6-dihydrouacil and  $\beta$ -ureidopropionic acid in urine for the measurement of the activities of the pyrimidine catabolic enzymes 839(2006)45

#### **$\beta$ -Ureidopropionic acid**

Liquid chromatography–tandem mass spectrometric assay for the analysis of uracil, 5,6-dihydrouacil and  $\beta$ -ureidopropionic acid in urine for the measurement of the activities of the pyrimidine catabolic enzymes 839(2006)45

#### **Urine**

High sensitivity analysis of oxprenolol in urine by capillary electrophoresis with C18 packed on-line preconcentrator 839(2006)6

Direct determination of verapamil in urine and serum samples by micellar liquid chromatography and fluorescence detection 839(2006)89

#### **Validation**

Profiling preparations of recombinant birch pollen allergen Bet v 1a with capillary zone electrophoresis in pentamine modified fused-silica capillaries 839(2006)19

RP-HPLC method with fluorescence detection for determination of small quantities of triamcinolone in plasma in presence of endogenous steroids after derivatization with 9-anthroyl nitrile; pharmacokinetic studies 839(2006)54

#### **Verapamil**

Direct determination of verapamil in urine and serum samples by micellar liquid chromatography and fluorescence detection 839(2006)89
