

## Keyword Index Vol. 841

### Alcohol abuse

Carbohydrate-deficient transferrin (CDT) as a marker of alcohol abuse: A critical review of the literature 2001–2005 (Review) 841(2006)96

### Allergenicity

Changes in peptic digestibility of bovine  $\beta$ -lactoglobulin as a result of food processing studied by capillary electrophoresis and immunochemical methods 841(2006)160

### Amino acids

Determination of limiting mobilities and dissociation constants of 21 amino acids by capillary zone electrophoresis at very low pH 841(2006)129

### Analysis

Carbohydrate-deficient transferrin (CDT) as a marker of alcohol abuse: A critical review of the literature 2001–2005 (Review) 841(2006)96

### Artefacts

Real and imaginary artefacts in proteome analysis via two-dimensional maps (Review) 841(2006)14

### Beta elimination

Real and imaginary artefacts in proteome analysis via two-dimensional maps (Review) 841(2006)14

### Biocatalysts

Determination of enzymatic activity by capillary electrophoresis (Review) 841(2006)23

### Biomarkers

Carbohydrate-deficient transferrin (CDT) as a marker of alcohol abuse: A critical review of the literature 2001–2005 (Review) 841(2006)96

### Capillary

Less common applications of monoliths: Preconcentration and solid-phase extraction (Review) 841(2006)52

### Capillary electrochromatography

Analysis of liposomes by capillary electrophoresis and their use as carrier in electrokinetic chromatography (Review) 841(2006)38

Miniaturized separation techniques in glycomic investigations (Review) 841(2006)65

Separation of microcystins by capillary electrochromatography in monolithic columns 841(2006)140

### Capillary electrophoresis

Capillary electromigration methods for the study of collagen (Review) 841(2006)3

Analysis of liposomes by capillary electrophoresis and their use as carrier in electrokinetic chromatography (Review) 841(2006)38

Miniaturized separation techniques in glycomic investigations (Review) 841(2006)65

Determination of limiting mobilities and dissociation constants of 21 amino acids by capillary zone electrophoresis at very low pH 841(2006)129

Separation of poly(amidoamine) (PAMAM) dendrimer generations by dynamic coating capillary electrophoresis 841(2006)135

### Capillary isotachopheresis

Determination of purity degree and counter-ion content in leirelin by capillary zone electrophoresis and capillary isotachopheresis 841(2006)145

### Capillary liquid chromatography

Miniaturized separation techniques in glycomic investigations (Review) 841(2006)65

Monolithic organic polymeric columns for capillary liquid chromatography and electrochromatography (Review) 841(2006)79

### Capillary wall

Separation of poly(amidoamine) (PAMAM) dendrimer generations by dynamic coating capillary electrophoresis 841(2006)135

### Capillary zone electrophoresis

Determination of purity degree and counter-ion content in leirelin by capillary zone electrophoresis and capillary isotachopheresis 841(2006)145

### Carbamylation

Real and imaginary artefacts in proteome analysis via two-dimensional maps (Review) 841(2006)14

### Carbohydrate deficient transferrin

Carbohydrate-deficient transferrin (CDT) as a marker of alcohol abuse: A critical review of the literature 2001–2005 (Review) 841(2006)96

### Chromatography

Chromatographic and electrophoretic characterization of protein variants (Review) 841(2006)110

### CIEF

Capillary isoelectric focusing of proteins and microorganisms in dynamically modified fused silica with UV detection 841(2006)152

### Collagen

Capillary electromigration methods for the study of collagen (Review) 841(2006)3

### Comparison

Monolithic organic polymeric columns for capillary liquid chromatography and electrochromatography (Review) 841(2006)79

**Complementary analytical methods**

Changes in peptic digestibility of bovine  $\beta$ -lactoglobulin as a result of food processing studied by capillary electrophoresis and immunochemical methods 841(2006)160

**Concentration sensitivity**

Sample enrichment techniques in capillary electrophoresis: Focus on peptides and proteins (Review) 841(2006)88

**Conductivity**

Determination of limiting mobilities and dissociation constants of 21 amino acids by capillary zone electrophoresis at very low pH 841(2006)129

**Connections**

Simple approaches to close the open structure of microfluidic chips and connecting them to the macro-world 841(2006)123

**Counterion content**

Determination of purity degree and counter-ion content in lecitin by capillary zone electrophoresis and capillary isotachopheresis 841(2006)145

**Cover plate binding**

Simple approaches to close the open structure of microfluidic chips and connecting them to the macro-world 841(2006)123

**Dissociation constant**

Determination of limiting mobilities and dissociation constants of 21 amino acids by capillary zone electrophoresis at very low pH 841(2006)129

**Dynamic coating**

Separation of poly(amidoamine) (PAMAM) dendrimer generations by dynamic coating capillary electrophoresis 841(2006)135

**Dynamically modified FS**

Capillary isoelectric focusing of proteins and microorganisms in dynamically modified fused silica with UV detection 841(2006)152

**Electrochromatography**

Monolithic organic polymeric columns for capillary liquid chromatography and electrochromatography (Review) 841(2006)79

**Electrophoresis**

Chromatographic and electrophoretic characterization of protein variants (Review) 841(2006)110

**EMMA**

Determination of enzymatic activity by capillary electrophoresis (Review) 841(2006)23

**Enzymatic activity**

Determination of enzymatic activity by capillary electrophoresis (Review) 841(2006)23

**Enzymes**

Determination of enzymatic activity by capillary electrophoresis (Review) 841(2006)23

**Fermentation**

Changes in peptic digestibility of bovine  $\beta$ -lactoglobulin as a result of food processing studied by capillary electrophoresis and immunochemical methods 841(2006)160

**Focusing**

Sample enrichment techniques in capillary electrophoresis: Focus on peptides and proteins (Review) 841(2006)88

**General laboratory setting**

Simple approaches to close the open structure of microfluidic chips and connecting them to the macro-world 841(2006)123

**Glycomics**

Miniaturized separation techniques in glycomic investigations (Review) 841(2006)65

**Graphitized carbon packings**

Miniaturized separation techniques in glycomic investigations (Review) 841(2006)65

**HPLC**

Separation of microcystins by capillary electrochromatography in monolithic columns 841(2006)140

**Hydrophilic nano-LC**

Miniaturized separation techniques in glycomic investigations (Review) 841(2006)65

**Isoforms**

Chromatographic and electrophoretic characterization of protein variants (Review) 841(2006)110

 **$\beta$ -Lactoglobulin**

Changes in peptic digestibility of bovine  $\beta$ -lactoglobulin as a result of food processing studied by capillary electrophoresis and immunochemical methods 841(2006)160

**Lecitine**

Determination of purity degree and counter-ion content in lecitin by capillary zone electrophoresis and capillary isotachopheresis 841(2006)145

**Liposome**

Analysis of liposomes by capillary electrophoresis and their use as carrier in electrokinetic chromatography (Review) 841(2006)38

**Microchip**

Less common applications of monoliths: Preconcentration and solid-phase extraction (Review) 841(2006)52

**Microcystins**

Separation of microcystins by capillary electrochromatography in monolithic columns 841(2006)140

**Microfabrication**

Simple approaches to close the open structure of microfluidic chips and connecting them to the macro-world 841(2006)123

**Microheterogeneity**

Chromatographic and electrophoretic characterization of protein variants (Review) 841(2006)110

**Milk**

Changes in peptic digestibility of bovine  $\beta$ -lactoglobulin as a result of food processing studied by capillary electrophoresis and immunochemical methods 841(2006)160

**Mobility**

Determination of limiting mobilities and dissociation constants of 21 amino acids by capillary zone electrophoresis at very low pH 841(2006)129

**Monolith**

Less common applications of monoliths: Preconcentration and solid-phase extraction (Review) 841(2006)52

**Monolithic capillary columns**

Monolithic organic polymeric columns for capillary liquid chromatography and electrochromatography (Review) 841(2006)79

**Monolithic columns**

Separation of microcystins by capillary electrochromatography in monolithic columns 841(2006)140

**Oligosaccharides**

Miniaturized separation techniques in glycomic investigations (Review) 841(2006)65

**On-capillary assay**

Determination of enzymatic activity by capillary electrophoresis (Review) 841(2006)23

**Packed capillary columns**

Monolithic organic polymeric columns for capillary liquid chromatography and electrochromatography (Review) 841(2006)79

**PAMAM dendrimers**

Separation of poly(amidoamine) (PAMAM) dendrimer generations by dynamic coating capillary electrophoresis 841(2006)135

**Peptic digestibility**

Changes in peptic digestibility of bovine  $\beta$ -lactoglobulin as a result of food processing studied by capillary electrophoresis and immunochemical methods 841(2006)160

**Peptides**

Analysis of liposomes by capillary electrophoresis and their use as carrier in electrokinetic chromatography (Review) 841(2006)38

Sample enrichment techniques in capillary electrophoresis: Focus on peptides and proteins (Review) 841(2006)88

**Permethylation**

Miniaturized separation techniques in glycomic investigations (Review) 841(2006)65

**Phospholipids**

Analysis of liposomes by capillary electrophoresis and their use as carrier in electrokinetic chromatography (Review) 841(2006)38

**pI markers**

Capillary isoelectric focusing of proteins and microorganisms in dynamically modified fused silica with UV detection 841(2006)152

**Polymer**

Less common applications of monoliths: Preconcentration and solid-phase extraction (Review) 841(2006)52

**Post-capillary assay**

Determination of enzymatic activity by capillary electrophoresis (Review) 841(2006)23

**Pre-capillary assay**

Determination of enzymatic activity by capillary electrophoresis (Review) 841(2006)23

**Proteins**

Analysis of liposomes by capillary electrophoresis and their use as carrier in electrokinetic chromatography (Review) 841(2006)38

Sample enrichment techniques in capillary electrophoresis: Focus on peptides and proteins (Review) 841(2006)88

**Proteins and microorganisms**

Capillary isoelectric focusing of proteins and microorganisms in dynamically modified fused silica with UV detection 841(2006)152

**Pseudostationary phase**

Analysis of liposomes by capillary electrophoresis and their use as carrier in electrokinetic chromatography (Review) 841(2006)38

**Recombinant protein**

Chromatographic and electrophoretic characterization of protein variants (Review) 841(2006)110

**Review**

Capillary electromigration methods for the study of collagen (Review) 841(2006)3

Monolithic organic polymeric columns for capillary liquid chromatography and electrochromatography (Review) 841(2006)79

**Ribozymes**

Determination of enzymatic activity by capillary electrophoresis (Review) 841(2006)23

**Sample enrichment**

Sample enrichment techniques in capillary electrophoresis: Focus on peptides and proteins (Review) 841(2006)88

**Separation**

Separation of microcystins by capillary electrochromatography in monolithic columns 841(2006)140

**Silica**

Less common applications of monoliths: Preconcentration and solid-phase extraction (Review) 841(2006)52

**Solid-phase extraction**

Less common applications of monoliths: Preconcentration and solid-phase extraction (Review) 841(2006)52

**Spacers**

Capillary isoelectric focusing of proteins and microorganisms in dynamically modified fused silica with UV detection 841(2006)152

**Trifluoroacetic acid**

Determination of purity degree and counter-ion content in leirelin by capillary zone electrophoresis and capillary isotachopheresis 841(2006)145

**Trifluoromethanesulfonic acid**

Determination of purity degree and counter-ion content in leirelin by capillary zone electrophoresis and capillary isotachopheresis 841(2006)145

**Two-dimensional maps**

Real and imaginary artefacts in proteome analysis via two-dimensional maps (Review) 841(2006)14

**UV detection**

Capillary isoelectric focusing of proteins and microorganisms in dynamically modified fused silica with UV detection 841(2006)152

**Variant**

Chromatographic and electrophoretic characterization of protein variants (Review) 841(2006)110

**Vesicles**

Analysis of liposomes by capillary electrophoresis and their use as carrier in electrokinetic chromatography (Review) 841(2006)38
