National Institute of Metrology, No. 18 Beisanhuan Donglu, Chaoyang Dist., Beijing 100013, PR China

Fig. 1 is the circumstantial evidence of the certified reference materials. It was mistakenly extracted from a preliminary report of an international comparison of Certified Reference Materials (CCQM-K80) carried out under auspices of the International Committee of Weights and Measures Consultative Committee on Metrology in Chemistry. The study was coordinated by the National Institute of Standards and Technology (NIST), USA. Full information concerning this comparison and the conclusions that can be validly drawn from it will become publically available when fully analyzed. For further information, please visit <http://kcdb.bipm.org/> and search on CCQM-K80.
