In the equation after (A.4) on page 870, we incorrectly copied the values of parameters; they should be given as:

$$\gamma_1 = 1.9276, \quad C_{p_1} = 8076.6 \frac{\text{J}}{\text{kg K}}, \quad p_\infty = 1.1373 \times 10^9 \text{ Pa.}$$

These are the values used in all the results presented in the referenced paper.
