

Continued from outside back cover

- 861 **Simulation of laser beam propagation with a paraxial model in a tilted frame**
M. Doumic, F. Duboc, F. Golse and R. Sentis
- 881 **A priori mesh quality estimation via direct relation between truncation error and mesh distortion**
Y. Kallinderis and C. Kontzialis
- 903 **Immersed boundary method for the MHD flows of liquid metals**
D.G.E. Grigoriadis, S.C. Kassinos and E.V. Votyakov
- 921 **Multilevel fast multipole algorithm for elastic wave scattering by large three-dimensional objects**
M.S. Tong and W.C. Chew
