First International Conference on Industrial and Applied Mathematics

Paris, France, June 29-July 3, 1987

This international conference is organized by Gesellschaft für Angewandte Mathematik und Mechanik (GAMM), Federal Republic of Germany; Institute of Mathematics and Its Applications (IMA), United Kingdom; Society for Industrial and Applied Mathematics (SIAM), United States; and Société de Mathématiques Appliquées et Industrielles (SMAI) and Institut National de Recherche en Informatique et en Automatique (INRIA), France.

The themes of the Conference are applied mathematical analysis, scientific computing, control theory and signal processing, discrete mathematics, applied probability and statistics, mathematics of natural sciences, and software and hardware aspects. In parallel with the Conference, an Exhibition will be organized.

Several minisymposia will take place during the Conference. Prospective organizers are asked to provide the title of the suggested minisymposium, a description not exceeding 100 words, and a recommended list of speakers with the titles of their talks. Proposals must be submitted on a proposal form which can be obtained from INRIA. The deadline for minisymposium proposals is *October 31, 1986*.

Contributed papers and poster presentations are solicited in all areas consistent with the meeting themes. Contributions must be submitted on an abstract form which can be obtained from INRIA. The deadline for contributed papers and posters is *November 28, 1986*.

Fifth International Conference on Numerical Methods in Laminar and Turbulent Flow

Montreal, Quebec, Canada
July 6–10, 1987

The organising committee is comprised of C. Taylor, University of Swansea, Swansea, United Kingdom; W. G. Habashi, Concordia University, and Pratt & Whitney Canada, Montreal, Canada; M. M. Hafez, University of California, Davis, California; and B. A. Launder, UMIST, Manchester, United Kingdom.

The continuing objective of this Conference series is the provision of a forum for the presentation and discussion of recent advances in the development and application of numerical methods to the solution of fluid flow problems.

Abstracts of approximately 300 words offering papers in the above or related fields are invited *immediately* or at the latest by *November 1, 1986*. Notification of acceptance will be forwarded within one month of receipt of the abstract and at the latest by *December 1, 1986*, at which stage the recommended format for the preparation of manuscripts and associated material will be sent to the prospective authors. Since the conference proceedings will be presented to the delegates at the conference, the deadline for completed manuscripts is *April 1, 1987*.

Abstracts should be sent to:

Dr. C. Taylor
Department of Civil Engineering
University College of Swansea
Singleton Park
Swansea SA2 8PP, United Kingdom
