## GENERAL INFORMATION

### Aims and Scope

The *Journal of Coordination Chemistry* publishes the results of original investigations involving the physical and chemical properties, syntheses and structures of coordination compounds of metals. Its scope may be defined as being concerned with the interactions of organic and inorganic ligands with metallic elements. Material on applications of coordination compounds may be included when relevant from time to time. Short reviews of current research in coordination chemistry will also be considered for publication.

In addition to full articles, preliminary communications of results (up to 1,000 words) may be submitted. The Journal intends to considerably shorten the time between receipt, acceptance and publication of such articles in order to provide a mechanism for speedy publication of preliminary accounts of original and significantly interesting findings in coordination chemistry. Short articles which lack urgency are also acceptable to the journal and will be published in due course, as long as the desire to avoid multiple publication is met.

Books for review should be sent direct to the Editor, at the address above, and not to the publishers.

Notes for contributors can be found at the back of the journal.

### Subscription rates

Four issues per volume: \$204.00 U.S.

This price applies in North America only. All other countries will be invoiced at our current conversion rate. The subscription rates include a distribution charge of \$17.00 for postage and handling. Individual rates are available for personal subscribers whose institutions already subscribe. Please write to the publisher for details. Send your order to your usual supplier or direct to Harwood Academic Publishers GmbH, c/o STBS Ltd., 1 Bedford Street, London WC2E 9PP, England. Journal subscriptions are sold on a volume basis only; single issues are not available separately. Claims for non-receipt of issues should be made within three months of publication of the issue. If not, they will not be honored without charge. Subscriptions are available for microform editions for current and back volumes. Please write for details.
