Forthcoming papers

The following papers have been accepted for publication in the Journal of Engineering Mathematics:

1. The collision of unsteady laminar boundary layers, by W. H. H. Banks and M. B. Zaturska.
2. A remark on the numerical solution of singular integral equations and the determination of stress intensity factors, by P. S. Theocaris and N. I. Ioakimides.
3. Steady flow of a micropolar fluid due to a rotating disk, by G. S. Guram and M. Anwar.
4. Axisymmetric external crack problems for an infinite medium with a cylindrical inclusion, by B. M. Singh, R. S. Dhaliwal and J. Rokne.
5. On the rectilinear motion of an inextensible string, by M. Kuipers.
