

Euromech meetings in 1994

On 3 April 1993, the European Mechanics Council adopted Statutes and Procedures to effect its transformation into

Euromech – European Mechanics Society

The members of the Council for 1993 declared themselves to be the founding members. Between 3 April 1993 and 1 January 1995, the existing Council will function as the Interim Council of the Society, with D. G. Crighton (University of Cambridge, presently Chairman) as President, B. Lundberg (Uppsala University, presently Secretary) as Secretary-General and E.-A. Müller (Georg August University, Göttingen) as Treasurer. Members of the Council under the new Statutes will enter into office on 1 January 1995 following elections to be held in 1994.

The Council has overall responsibility for Euromech Colloquia and Euromech Conferences. The latter presently comprise the European Solid Mechanics Conference, the European Fluid Mechanics Conference, the European Turbulence Conference and the European Nonlinear Oscillations Conference.

Euromech colloquia

are informal meetings on specialized research topics. Participation is restricted to a small number of European research workers actively engaged in the field of each Colloquium. The organization of each Colloquium, including the selection of participants for invitation, is entrusted to a Chairman. Proceedings are not normally published. Those who are interested in taking part in a Colloquium should write to the appropriate Chairman. Euromech Number, Titel, Chairmen, Dates and Location for the **Euromech Colloquia in 1994** are given below.

Euromech conferences

are broad in scientific scope. They are open to all those interested and are expected to have a number of participants between 150 and 600. The general purpose is to provide opportunities for scientists and engineers from all parts of Europe to meet and discuss current research. The responsibility for each series of Conferences is delegated to a Standing Committee. The detailed organizational work is carried out by Local Organizing Committees (LOC). Those who are interested in taking part in one of the Conferences should write to the Chairman or Secretary of the appropriate LOC. Information about the **Euromech Conferences in 1994** is given below.
