

CORRIGENDUM

'The heated laminar vertical jet', by R. S. BRAND and F. J. LAHEY, *J. Fluid Mech.* vol. **29**, 1967, p. 305.

Since the publication of our paper, it has been called to our attention that the exact solutions contained therein were obtained by C. S. Yih and published by him in a paper "Free Convection due to Boundary Sources", *Fluid Models in Geophysics*, Proc. First Symposium on Use of Models in Geophysical Fluid Dynamics, John Hopkins University, 1953. We apologize to Professor Yih for overlooking his work, which antedates ours by so many years.
