

CORRIGENDUM

The excitation of damped waves diffracted over a submerged circular sill

By H. D. PITE

Journal of Fluid Mechanics, vol. 82, 1977, pp. 621–641.

Figure 6. In the legend, $h = 0.84$ cm, not $h = 0.84$ mm. And, beside the ordinate scale, $\alpha(\text{mm}^{-1} \times 10^{-3})$, not $\alpha(\text{mm}^{-1} \times 10^{-4})$.

Figure 7. In the legend, $r/R = 0.78$, not $r/R = 21$.

Figure 9. In the legend, $h_2 = 0.84$ cm, not $h_2 = 0.84$ mm.
