

INDEX

- Abernathy, F. H.** *See* Hamilton & Abernathy
- Blondeaux, P. & Vittori, G.** Wall imperfections as a triggering mechanism for Stokes-layer transition, 107–135
- Dušek, J., Le Gal, P. & Fraunié, P.** A numerical and theoretical study of the first Hopf bifurcation in a cylinder wake, 59–80
- Fasel, H. F.** *See* Kral & Fasel
- Fedotov, A. B.** *See* Korotaev & Fedotov
- Feng, J.-J. & Wu, W.-Y.** Electrophoretic motion of an arbitrary prolate body of revolution toward an infinite conducting wall, 41–58
- Finlay, W. H.** *See* Guo & Finlay
- Fraunié, P.** *See* Dušek, Le Gal & Fraunié
- Goldstein, M. E.** *See* Wundrow, Hultgren & Goldstein
- Guo, Y. & Finlay, W. H.** Wavenumber selection and irregularity of spatially developing nonlinear Dean and Görtler vortices, 1–40
- Hamilton, J. M. & Abernathy, F. H.** Streamwise vortices and transition to turbulence, 185–212
- Higuera, F. J. & Jiménez, J.** Solitary waves on a vorticity layer, 303–319
- Hultgren, L. S.** *See* Wundrow, Hultgren & Goldstein
- Jiménez, J.** *See* Higuera & Jiménez
- Knobloch, E.** *See* Pierce & Knobloch
- Korotaev, G. K. & Fedotov, A. B.** Dynamics of an isolated barotropic eddy on a beta-plane, 277–301
- Kral, L. D. & Fasel, H. F.** Direct numerical simulation of passive control of three-dimensional phenomena in boundary-layer transition using wall heating, 213–254
- Kytömaa, H. K.** *See* Schmid & Kytömaa
- Le Gal, P.** *See* Dušek, Le Gal & Fraunié
- Liu Yongming** *See* Mu Mu, Zeng Qingcun, Shepherd & Liu Yongming
- Mu Mu, Zeng Qingcun, Shepherd, T. G. & Liu Yongming** Nonlinear stability of multilayer quasi-geostrophic flow, 165–184
- Peake, N.** The viscous interaction between sound waves and the trailing edge of a supersonic splitter plate, 321–342
- Pierce, R. D. & Knobloch, E.** Evolution equations for counterpropagating edge waves, 137–163
- Schmid, P. J. & Kytömaa, H. K.** Transient and asymptotic stability of granular shear flow, 255–275
- Shepherd, T. G.** *See* Mu Mu, Zeng Qingcun, Shepherd & Liu Yongming
- Valcke, S.** *See* Verron & Valcke
- Verron, J. & Valcke, S.** Scale-dependent merging of baroclinic vortices, 81–106
- Vittori, G.** *See* Blondeaux & Vittori

Wu, W.-Y. *See* Feng & Wu

Wundrow, D. W., Hultgren, L. S. & Goldstein, M. E. Interaction of oblique instability waves with a nonlinear plane wave, 343–372
