

Announcement

The Journal of Fluorescence Can Now Be Found on PubMed

After 3 years of planning with my counterpart at Springer, Aaron Johnson, Editor for *Biosciences*, I am pleased to be able to announce to readers that the *Journal of Fluorescence* has been selected by the NLM Indexing Committee to be covered by Index Medicus/Medline. Therefore, the *Journal* will appear on the National Library of Medicine's PubMed, starting January 2005.

This indexing landmarks an achievement for the *Journal of Fluorescence* and is likely to significantly affect

the number and quality of manuscripts submitted, as well as the Journals Impact Number in the years to come.

At this time I would like to thank the Journal's Editorial Board and the readers for their continued support.

Kind regards,
Dr Chris D. Geddes,
Editor-in-chief: *The Journal of Fluorescence*
