

I41

SPECTROSCOPIC STUDIES ON TRANSITION METAL FLUORIDES

J. H. Holloway, E. G. Hope

Chemistry Department, The University, Leicester LE1 7RH (U.K.)

A. K. Brisdon, P. J. Jones, W. Levason and J. S. Ogden

Chemistry Department, University of Southampton,
Southampton SO9 5NH (U.K.)

The use of matrix isolation techniques for the complete structural characterisation of volatile transition metal fluorides and oxide fluorides will be illustrated with particular reference to RuF_6 , RuOF_4 , OsF_7 and RhF_6 .
