A

Accidents

Analysis of toxic deaths, 1982 to 1985, Pima County, Arizona (Froede, Byers, Wolfgang, Froede, Jones, and Henry), Nov., 1676

Embolization of cotton pledgets following insertion of porcine cardiac valve bioprostheses (Lifschultz, Donoghue, Leestma, and Boade), Nov., 1796

Scene investigation, identification, and victim examination following the accident of Galaxy 203: disaster preplanning does work (McCarty, Sohn, Ritzlin, and Gauthier), July, 983

Age determination—see Human identification

Aircraft

Correlations of injury, toxicology, and cause of death to Galaxy Flight 203 crash site (Solomone, Sohn, Ritzlin, Gauthier, and McCarty), Sept., 1403

Scene investigation, identification, and victim examination following the accident of Galaxy 203: disaster preplanning does work (McCarty, Sohn, Ritzlin, and Gauthier), July, 983

Alcohol

Drugs and alcohol in hypothermia and hyperthermia related deaths: a retrospective study (Kortelainen), Nov., 1704

Effect of hypothermia on breath-alcohol analysis (Fox and Hayward), March, 320

Evaluation of the Abbott TD_x-radiative energy attenuation (REA) ethanol assay in a study of 1105 forensic whole blood specimens (Caplan and Levine), Jan., 55

In vitro accuracy and precision studies comparing direct and delayed analysis of the ethanol content of vapor (Goldberger and Caplan), Jan., 48

Lack of observable intoxication in human with high plasma alcohol concentrations (Sullivan, Hauptman, and Bronstein), Nov., 1660

Nitrogen narcosis and alcohol consumption—a scuba diving fatality (Michalodimitrakis and Patsalis), July, 1095

Aliases—see Criminal aliases

Amino acids

Quality control for amino acid visualization reagents (Nielson), March, 370

Ammunition—see Ballistics

Amnesia

Triazolam, handwriting, and amnestic states: two cases (Boatwright), July, 1118

Angel, John Lawrence

John Lawrence Angel, Ph.D., 1915-1986, a tribute and remembrance (İşcan), Sept., 1484

Animal abuse

Psychosocial aspects of selecting animal species for physical abuse (Felthous and Kellert), Nov., 1713

Antigen systems

Determination of ABO blood groups by radioimmunoassay using ¹²⁵I-Protein A (Fukushima, Segawa, Ota, Yonemura, and Hasekura), March, 531

Lewis typing of human bloodstains by enzyme-linked immunosorbent assay (ELISA) using monoclonal anti-Le^z and anti-Le^b (Takatori, Tustsubuchi, and Terazawa), July, 900

Method for the determination of MN antigens in dried blood (Levkov), March, 357

Arson

Comparison of automotive gasolines using capillary gas chromatography I: Comparison methodology (Mann), May, 606

Comparison of automotive gasolines using capillary gas chromatography II: Limitations of automotive gasoline comparisons in casework (Mann), May, 616

Fluorescence of petroleum products II. Three-dimensional fluorescence plots of gasolines (Alexander, Mashak, Kapitan, and Siegel), Jan., 72

Asphyxia

Age and ossification of the hyoid bone: forensic implications (O'Halloran and Lundy), Nov., 1655

Automobiles

Motions of passenger cars in low-speed falls over embankments (Le Fevre), March, 467

Automobile seat belts

Seat belts and human rights: an appraisal (Greenberg), Jan., 158

Autopsy—see Postmortem examinations

B**Ballistics**—see also Wound ballistics

Analysis of gunshot primer residue collection swabs using flameless atomic absorption spectrophotometry: a reexamination of extraction and instrument procedures (Koons, Havekost, and Peters), July, 846

Automated gunshot residue particle search and characterization (Tillman), Jan., 62

Bullet hole identification kit: case report (Bergman and Springer), May, 802

Cranial fracture patterns and estimate of direction from low velocity gunshot wounds (Smith, Berryman, and Lahren), Sept., 1416

Determination of shooting distance from deformation of the recovered bullet (Fackler, Woychesin, Malinowski, Dougherty, and Loveday), July, 1131

Dithizone as a microcrystalline test for the confirmation of projectile lead wipes (McGinnis, Thornton, and Espinoza), Jan., 242

Effects of deformed shot on shotgun pellet dispersion (Thornton and Rios), March, 522

Estimation of a bullet's diameter using the bullet hole identification kit (BTK) (Bergman, Even, Agron, Klein, and Springer), July, 866

Fatal wound from an unusual military projectile: potential dangers of live military ordnance to the autopsy pathologist (Clark), May, 793

Gunshot wound with asphalt related pseudo-soot, pseudo-tattooing, and pseudo-scorching (Zaki and Hanzlick), July, 1136

Observations and statistics relating to suicide weapons (Stone), May, 711

Observations of high velocity blood spatter on adjacent objects (Pex and Vaughan), Nov., 1587

Study of inorganic residues around entrances and exit projectile orifices (Villanueva, Hernandez-Cueto, Lorente, Garcia-Quiles, and Rodrigo), July, 1079

Suicidal contact gunshot wounds to the head with .38 special Glaser safety slug ammunition (Jones, Reyna, Sperry, and Hock), Nov., 1604

Suicide by air rifle and shotgun (Cohle, Pickelman, Connolly, and Bauserman), July, 1113

Unique missile in a homicide victim: the Brenneke shotgun slug (Rao and Rao), Sept., 1435

Unusual pattern of gunshot injury linking two homicides to the same assailant (Frazer), Jan., 262

Use of scanning electron microscopy and energy dispersive X-ray analysis (SEM-EDXA) in identification of foreign material on bullets (DiMaio, Dana, Taylor, and Ondrusek), Jan., 38

Ballpoint pens—see Pens

Bears

Case with bear facts (Murad and Boddy), Nov., 1819

Benzodiazepines

Triazolam, handwriting, and amnestic states: two cases (Boatwright), July, 1118

Biofeedback

Effect of biofeedback on the detection of deception (Timm), May, 736

Bite marks

Computerized axial tomography as an aid in bite mark analysis: a case report (Farrell, Rawson, Steffens, and Stephens), Jan., 266

Measurement of arch widths in a human population: relation of anticipated bite marks (Barsley and Lancaster), July, 975

Not all bite marks are associated with abuse, sexual activities, or homicides: a case study of a self-inflicted bite mark (Warnick, Biedrzycki, and Russanow), May, 788

Transillumination in bite mark evidence (Dorion), May, 690

Ultraviolet photography: bite marks on human skin and suggested technique for the exposure and development of reflective ultraviolet photography (West, Billings, and Frair), Sept., 1204

Blood

Determination of ABO blood groups by radioimmunoassay using ¹²⁵I-Protein A (Fukushima, Segawa, Ota, Yonemura, and Hasekura), March, 531

Evaluation of the Abbott TD_x-radiative energy attenuation (REA) ethanol assay in a study of 1105 forensic whole blood specimens (Caplan and Levine), Jan., 55

Method for the determination of MN antigens in dried blood (Levkov), March, 357

New method for typing haptoglobin in bloodstains using immobilized allo A lectin (Harada, Umetsu, Ikeda, and Suzuki), July, 1062

Observations of high velocity bloodspatter on adjacent objects (Pex and Vaughan), Nov., 1587

Unconjugated morphine in blood by radioimmunoassay and gas chromatography/mass spectrometry (Spieher and Brown), July, 906

Blood groups—see Genetic typing, blood, and antigen systems

Body fluids

Comparison of laser and ultraviolet techniques used in the detection of body secretions (Auvdel), March, 326

Evidence that "vaginal peptidase" is a bacterial gene product (Blake, Cook, and Bashinski), July, 888

Book reviews

Abortion, Medicine, and the Law by Butler and Walbert (Moenssens), Sept., 1473

Closed Head Injury, Its Pathology and Legal Medicine by Crompton (Hirsch), May, 819

Criminal Interrogations and Confessions (Third Edition) by Inbau et al. (Pitluck), Sept., 1479

Electrophoresis, Theory, Techniques, and Biochemical and Clinical Applications by Andrews (Monforte), Sept., 1472

Forensic Osteology, Advances in the Identification of Human Remains by Reichs (Brooks), Sept., 1481

- Forensic Psychiatry and Psychology: Perspectives and Standards for Interdisciplinary Practice* by Curran et al. (Perr), Sept., 1475
- Forensic Science Progress. Vol. 1* by Maehly and Williams (Stone), July, 1141
- HLA Techniques for Blood Bankers* by Mallory et al. (Huestis), May, 818
- Investigating Arson* by Bennett and Hess (Ton-tarski), Nov., 1827
- Lindow Man: The Body in the Bog* by Stead et al. (Hinkes), Nov., 1829
- Medicolegal Postmortems—Guidelines for Crime Investigation* by Parihk (Tate), March, 569
- The Murderer and His Victim* by Macdonald (Drucker), Sept., 1483
- The Personal Identification of Living Individuals* by Roger (Principe), Sept., 1478
- Pharmacokinetics and Pharmacodynamics of Psychoactive Drugs* by Barnett and Chrang (Poklis), March, 567
- Plant Drug Analysis* by Wagner (Spiehler), Jan., 287
- Practical Homicide Investigation. Tactics, Procedures and Forensic Techniques* by Geberth (Reyna), Sept., 1477
- Reasonable Doubt* by Hurt (Wecht), Jan., 288
- Sexual Exploitation of Patients by Health Professionals* by Burgess and Hartman (Smith), Sept., 1471
- Taylor's Principles and Practice of Medical Jurisprudence* by Mant (Wiecking), Jan., 285

Brain

- Complications of cervical manipulation: a case report of fatal brainstem infarct with review of the mechanisms and predisposing factors (Jentzen, Amatuzio, and Peterson), July, 1089

Breath-alcohol testing devices

- Breathalyzer® accuracy in actual law enforcement practice: a comparison of blood and breath-alcohol results in Wisconsin drivers (Harding and Field), Sept., 1235
- Effect of hypothermia on breath-alcohol analysis (Fox and Hayward), March, 320
- In vitro accuracy and precision studies comparing direct and delayed analysis of the ethanol content of vapor (Goldberger and Caplan), Jan., 48

Bullets—see Ballistics

C

Cadmium

- Photoluminescent enhancement of ninhydrin developed fingerprints by metal complexation: structural studies of complexes formed between Ruhemann's purple and Group IIb metal salts (Lennard, Margot, Sterns, and Warrenner), May, 597

Caffeine

- Caffeine toxicity: a case of child abuse by drug ingestion (Morrow), Nov., 1801

Capillary gas chromatography—see Chromatographic analysis

Carbon monoxide

- Deaths caused by carbon monoxide poisoning in

- an open environment (outdoors) (DiMaio and Dana), Nov., 1794

Cardiovascular system

- Demonstration of esophageal varices postmortem by gastroesophageal phlebography (Segeberg-Konttinen), May, 703
- Myocardial infarction in pregnancy (Sperry), Sept., 1664
- Natural death while driving (Öström and Eriksson), July, 988

Carpipramine

- Carpipramine related fatality (Fraser and Isner), July, 1103

Castings

- Aluminum template for casting agarose gels (Budowle and Mudd), May, 1987
- Improved technique for the visualization of footprint impressions in the insoles of athletic shoes (Laskowski), July, 1075
- Postmortem identification of the edentulous deceased: denture tissue surface anatomy (Jacob and Shala), May, 698

Central nervous system

- Complications of cervical manipulation: a case report of fatal brainstem infarct with review of the mechanisms and predisposing factors (Jentzen, Amatuzio, and Peterson), July, 1089

Central pontine myelinolysis

- Central pontine myelinolysis: a complication of hyponatremia or of therapeutic intervention (Haibach, Ansbacher, and Dix), March, 444

Chemical analysis

- Analysis of dihydrocodeine in urine using Sep-Pak® C₁₈ cartridges for sample cleanup (Nakamura, Stall, and Meeks), March, 535
- Automation of gunshot scanning electron microscopy energy dispersive X-ray analysis (White and Owens), Nov., 1595
- Comparison of immunodiffusion and latex agglutination tests for the identification of white-tailed deer tissues (Bey and Loken), May, 673
- Enhanced quantitative analytical capability with a nuclear magnetic resonance (NMR) spectrometer by use of an external integrating recorder (Hatzis and Rothchild), March, 396
- Methamphetamine from ephedrine: I. Chloroephedrines and aziridines (Allen and Kiser), July, 953

- Unconjugated morphine in blood by radioimmunoassay and gas chromatography/mass spectrometry (Spiehler and Brown), July, 906

- Use of scanning electron microscopy and energy dispersive X-ray analysis (SEM-EDXA) in identification of foreign material on bullets (DiMaio, Dana, Taylor, and Ondrusek), Jan., 38

Child abuse

- Caffeine toxicity: a case of child abuse by drug ingestion (Morrow), Nov., 1801

Chloroform

- Double homicide as a result of chloroform poisoning (McGee, Jejurikar, and VanBerkom), Sept., 1453

Choke holds

- Deaths allegedly caused by the use of "choke holds" (shime-waza), March, 419

Choline

Evaluation of an enzymatic choline determination for the identification of semen in casework samples (Noppinger, Morrison, Jones, and Hopkins), July, 1069

Chromatographic analysis—see also Chemical analysis

Analysis of nail varnishes by high performance liquid chromatography (Tebbett, Tulloch, and Knutsen), May, 778

Analysis of 2-hydroxyimipramine in an imipramine-related fatality (Fraser, Susnik, and Isner), March, 543

Carpipramine related fatality (Fraser and Isner), July, 1103

Comparison of automotive gasolines using capillary gas chromatography I: Comparison methodology (Mann), May, 606

Comparison of automotive gasolines using capillary gas chromatography II: Limitations of automotive gasoline comparisons in casework (Mann), May, 616

Comparison of drug retention indices determined on packed, wide bore capillary and narrow bore capillary columns (Japp, Gill, and Osselton), Nov., 1574

Death caused by ingestion of endosulfan (Bernardelli and Gennari), July, 1109

Improved determination of nitrotoluenes using liquid chromatography with photolytically assisted thermal energy analysis (LC-PAT) (Selvaka, Tontarski, and Strobel), July, 941

Minimizing analytical interferences from digoxin-like immunoreactive substances (DLIS) in cases of digoxin toxicity (Seccombe, Pudek, and Humphries), May, 650

On the relative aging of ink—the solvent extraction technique (Cantu and Prough), Sept., 1151

Separation of lysergide (LSD) from related ergot alkaloids and its identification in forensic science casework samples (Japp, Gill, and Osselton), July, 933

Simple approach to the interlaboratory transfer of drug retention indices determined by temperature programmed capillary gas chromatography (Stowell and Wilson), Sept., 1214

Classifications

Classification of office copy machines from physical characteristics (James), Sept., 1293

System for handwriting classification (Taylor and Chandler), Nov., 1775

Cocaine

Cocaine and sudden natural death (Mittleman and Wetli), Jan., 11

Quantitative determination of cocaine and heroin by Fourier transform infrared spectrophotometry (Raverby), Jan., 20

Collision research

Motions of passenger cars in low-speed falls over embankments (Le Fevre), March, 467

Colors (materials)

Fiber data collection for forensic scientists—collection and examination methods (Laing, Hartshorne, Cook, and Robinson), March, 364

Comparative analysis

Breathalyzer® accuracy in actual law enforcement practice: a comparison of blood and breath-alcohol results in Wisconsin drivers (Harding and Field), Sept., 1235

Comparison of automotive gasolines using capillary gas chromatography I: Comparison methodology (Mann), May, 606

Comparison of automotive gasolines using capillary gas chromatography II: Limitations of automotive gasoline comparisons in casework (Mann), May, 616

Image processing and statistical analysis as an aid in the comparison of typewritten impressions (Noblett), July, 963

Patterns: their storage, retrieval, and comparison (Lewis), Sept., 1281

Confidentiality—see Doctor-patient privilege

Confined Space-Hypoxia Syndrome

Confined Space-Hypoxia Syndrome (Zugibe, Costello, Breithaupt, Zappi, and Allyn), March, 554

Correction fluid

Examination of correction fluid obliterations (Waggoner), March, 539

Crania—see Musculoskeletal system

Criminal aliases

Self- and official report of name variation among male offenders (Harry), Nov., 1724

Criminalistics

Analysis of gunshot primer residue collection swabs using flameless atomic absorption spectrophotometry: a reexamination of extraction and instrument procedures (Koons, Havekost, and Peters), July, 846

Analysis of nail varnishes by high performance liquid chromatography (Tebbett, Tulloch, and Knutsen), May, 778

Automated gunshot residue particle search and characterization (Tillman), Jan., 62

Breathalyzer® accuracy in actual law enforcement practice: a comparison of blood and breath-alcohol results in Wisconsin drivers (Harding and Field), Sept., 1235

Bullet hole identification kit: case report (Bergman and Springer), May, 802

Comparison of automotive gasolines using capillary gas chromatography I: Comparison methodology (Mann), May, 606

Comparison of automotive gasolines using capillary gas chromatography II: Limitations of automotive gasoline comparisons in casework (Mann), May, 616

Determination of shooting distance from deformation of the recovered bullet (Fackler, Woychesin, Malinowski, Dougherty, and Loveday), July, 1131

Double homicide as a result of chloroform poisoning (McGee, Jejuri, and VanBerkom), Sept., 1453

Effect of biofeedback on the detection of deception (Timm), May, 736

Effect of hypothermia on breath-alcohol analysis (Fox and Hayward), March, 320

- Enzyme-linked immunosorbent assay (ELISA) for human semen identification based on a biotinylated monoclonal antibody to a seminal vesicle-specific antigen (Herr and Woodward), March, 346
- Estimation of a bullet's diameter using the bullet hole identification kit (BTK) (Bergman, Even, Agron, Klein, and Springer), July, 866
- Evaluation of textile fiber evidence: a review (Breesee), March, 510
- Evidence that "vaginal peptidase" is a bacterial gene product (Blake, Cook, and Bashinski), July, 888
- Fluorescence of petroleum products II. Three-dimensional fluorescence plots of gasolines (Alexander, Mashak, Kapitan, and Siegel), Jan., 72
- Forensic science applications of diffuse reflectance infrared Fourier transform spectroscopy (DRIFTS): III. Direct analysis of polymeric foams (Suzuki and Gresham), March, 377
- Identification of serial homicide victims in the "Green River Murder" investigation (Haglund, Reay, and Snow), Nov., 1666
- Identification of the cadaver remains of Josef Mengele (Helmer), Nov., 1622
- Improved technique for the visualization of footprint impressions in the insoles of athletic shoes (Laskowski), July, 1075
- Investigation of gunshot residues by means of Auger electron spectroscopy (Hellmiss, Lichtenberg, and Weiss), May, 74
- Isoelectric focusing patterns of some mammalian keratins (Carracedo, Prieto, Concheiro, and Estefanía), Jan., 93
- Justifiable homicide: a study of the application of nonculpable deadly force in Cuyahoga County (Cleveland), Ohio, 1958-1982 (Challener, Adelson, and Rushforth), Sept., 1389
- Multiple deaths from argon contamination of hospital oxygen supply (Smith), July, 1098
- Nitro-benzofurazanyl ethers—a new series of fluorogenic fingerprint reagents (Almog, Zeichner, Shifrina, and Scharf), May, 585
- Observations and statistics relating to suicide weapons (Stone), May, 711

- Physician assistant as forensic investigator (Wright and Hirsch), July, 1059
- Police custody: deaths and medical attention (Segest), Nov., 1694
- Primary hyperparathyroidism, hypercalcemia, paranoid delusions, homicide, and attempted murder (Brown, Fischman, and Showalter), Sept., 1460
- Rapid screening technique for the detection of spermatozoa (Fraysier), March, 527
- Reagents for chemical development of latent fingerprints: vicinal triketones—their reaction with amino acids and with latent fingerprints on paper (Almog), Nov., 1565
- Secondary transfer of human scalp hair (Gaudette and Tassarolo), Sept., 1241
- Simple trace evidence trap for the collection of vacuum sweepings (Petraco), Sept., 1422
- Study of inorganic residues around entrances and exit projectile orifices (Villanueva, Hernandez-Cueto, Lorente, Garcia-Quiles, and Rodrigo), July, 1079
- Suicide disguised as murder: a dimension of Munchausen syndrome (McDowell), Jan., 254
- Suicide far from home: the concept of transjurisdictional suicide (Hanzlick and Ross), Jan., 189
- Unique missile in a homicide victim: the Brenneke shotgun slug (Rao and Rao), Sept., 1435
- Use of scanning electron microscopy and energy dispersive X-ray analysis (SEM-EDXA) in identification of foreign material on bullets (DiMaio, Dana, Taylor, and Ondrusek), Jan., 38
- Uses and effects of forensic science in the adjudication of felony cases (Peterson, Ryan, Houlden, and Mihajlovic), Nov., 1730
- Validation of police officer recruit candidates' self-reported drug use (Ostrov and Cavanaugh), March, 496
- Criminal justice system**—see Jurisprudence
- Criminal sex offenses**
- Evidence that "vaginal peptidase" is a bacterial gene product (Blake, Cook, and Bashinski), July, 888
- Persistence of vaginal spermatozoa as assessed by routine cervicovaginal (Pap) smears (Randall), May, 678
- Cross-sectioning**
- New method for cross-sectioning single fibers (Barna and Stoeffler), May, 761
- Crystallography**
- Dithizone as a microcrystalline test for the confirmation of projectile lead wipes (McGinnis, Thornton, and Espinoza), Jan., 242
- Cytochemistry**
- Histochemical demonstration of methamphetamine by immunocytochemistry (Ishiyama, Mukai, Yoshii, and Suyama), May, 658
- Histochemical demonstration of phenobarbital by immunocytochemistry (Ishiyama, Mukaida, Tanabe, Kaiho, and Ueyama), Sept., 1221

D

Death

- Carpipramine related fatality (Fraser and Isner), July, 1103
- Cocaine and sudden natural death (Mittleman and Wetli), Jan., 11
- Confined Space-Hypoxia Syndrome (Zugibe, Costello, Breithaupt, Zappi, and Allyn), March, 554

- Missouri's lakes and the disposal of homicide victims (Dix), May, 806
- Postmortem findings of the victims of the Jonestown tragedy (Thompson, Manders, and Cowan), March, 433

Deer

- Comparison of immunodiffusion and latex agglutination tests for the identification of white-tailed deer tissues (Bey and Loken), May, 673

Demography

- Analysis of toxic deaths, 1982 to 1985, Pima County, Arizona (Froede, Byers, Wolfgang, Froede, Jones, and Henry), Nov., 1676
- Distributions of genetic markers in United States populations: I. Blood group and secretor systems (Gaensslen, Bell, and Lee), July, 1016
- Distributions of genetic markers in United States populations: II. Isoenzyme systems (Gaensslen, Bell, and Lee), Sept., 1348
- Distributions of genetic markers in United States populations: III. Serum group systems and hemoglobin variants (Gaensslen, Bell, and Lee), Nov., 1754

Density (mass/volume)

- Estimation of the absolute density of glass following the sink/float technique (Kahane and Thornton), Jan., 87

Dentition

- Measurement of arch widths in a human population: relation of anticipated bite marks (Barsley and Lancaster), July, 975
- Police custody: deaths and medical attention (Segest), Nov., 1694

Deviant sexual behavior

- Man in the mask (Zugibe, Costello, and Breithaupt), May, 1987

Digoxin

- Minimizing analytical interferences from digoxin-like immunoreactive substances (DLIS) in cases of digoxin toxicity (Seccombe, Pudek, and Humphries), May, 650

Dihydrocodeine

- Analysis of dihydrocodeine in urine using Sep-Pak® C₁₈ cartridges for sample cleanup (Nakamura, Stall, and Meeks), March, 535

Discharging

- Discharging the violent psychiatric inpatient (Travin and Bluestone), July, 999

Disopyramide

- Fatal disopyramide intoxication from suicidal/accidental overdose (Sathyavagiswaran), Nov., 1813

Dithizone

- Dithizone as a microcrystalline test for the confirmation of projectile lead wipes (McGinnis, Thornton, and Espinoza), Jan., 242

Diving

- Nitrogen narcosis and alcohol consumption—a scuba diving fatality (Michalodimitrakis and Patsalis), July, 1095

Doctor-patient privilege

- Relationship of court clinics to correctional mental health services: Opportunities for cooperation and potential sources of conflict (Rosner), Jan., 217

Drops (liquid)

- Observations of high velocity bloodspatter on adjacent objects (Pex and Vaughan), Nov., 1587

Drug identification

- Analysis of dihydrocodeine in urine using Sep-Pak® C₁₈ cartridges for sample cleanup (Nakamura, Stall, and Meeks), March, 535
- Validation of police officer recruit candidates' self-reported drug use (Ostrov and Cavanaugh), March, 496

Drug retention indices

- Comparison of drug retention indices determined on packed, wide bore capillary and narrow bore capillary columns (Japp, Gill, and Osselton), Nov., 1574

- Simple approach to the interlaboratory transfer of drug retention indices determined by temperature programmed capillary gas chromatography (Stowell and Wilson), Sept., 1214

Drugs—see Toxicology and specific headings**Dust**

- Guide to the rapid screening, identification, and comparison of synthetic fibers in dust samples (Petraco), May, 1987
