

Journal of Forensic Sciences
Subject Index to Volume 33
1988

A

Accelerants

Alternative methods for processing arson samples in polyester bags (Stackhouse and Gray), March, 515

Accidents

Cervical airway injuries as a result of impact with steering wheel rim (Mittleman), Sept., 1198

Dragging deaths: a case in point (Dix and Bolesta), May, 826

Extinction-type photometering technique for low-light-level luminance measurements in accident investigations (Hyzer), March, 530

Medical investigation of airship accidents (Stahl, McMeekin, Ruehle, and Canik), July, 888

Acid phosphatases—see Phosphatases

Adhesive bed

Novel technique for the collection and recovery of foreign fibers in forensic science casework (Choudhry), Jan., 249

Adhesive tapes

Comparison of black polyvinylchloride (PVC) tapes by pyrolysis gas chromatography (Williams and Munson), Sept., 1163

Adolescents

Study of the handwriting of adolescents (Masson), Jan., 167

Aгамmaglobulinemia

Case of panhypogammaglobulinemia masquerading as child abuse (Copeland), Nov., 1493

Age estimation—see Human identification

Aging

Comments on the accelerated aging of ink (Cantu), May, 744

Aircraft

Medical investigation of airship accidents (Stahl, McMeekin, Ruehle, and Canik), July, 888

Ajamaline

Infant fatality involving ajmaline (Ikeda, Umetsu, Suzuki, Gonmori, and Takahashi), March, 558

Alcohol

Drug use by tractor-trailer drivers (Lund, Preusser, Blomberg, and Williams), May, 648

Amitriptyline

Amitriptyline overdose versus sudden infant death syndrome in a two-month-old white female (Perrot), Jan., 272

Ammunition—see Ballistics

Aneurysms—see Cardiovascular system

8-Anilino-naphthalene-1-sulfonate (ANS)

ANS (8-anilino-naphthalene-1-sulfonate)—a new reagent for detection of latent fingerprints (Cheng), March, 527

Antigen systems

Micromethod for MN antigen grouping of dried bloodstains (Berns and Lötterle), Jan., 230

Two-dimensional absorption-inhibition (Lee, Gaensslen, Pagliaro, and Novitch), Sept., 1127

Unusual variant of blood group A (Tumosa and Dowd), Nov., 1503

Aortoesophageal fistula

Traumatic false aneurysm of descending aorta with aortoesophageal fistula (Swanson and Gaffey), May, 816

Apolipoproteins

Stability of plasma total cholesterol, triglycerides, and apolipoproteins B and A-I during the early postmortem period (Särkioja, Ylä-Herttuala, Solakivi, Nikkari, and Hirvonen), Nov., 1432

Arson

Alternative methods for processing arson samples in polyester bags (Stackhouse and Gray), March, 515

Arteriovenous malformation (AVM)

Cranial arteriovenous malformation: suicide by exsanguination (Gauger and Herrmann), Jan., 283

Asphyxia

Asphyxial deaths as a result of aspiration of dental appliances: a report of three cases (Adelman), March, 389

Autoerotic asphyxial death following television broadcast (O'Halloran and Lovell), Nov., 1491

Medical evaluation of the victims of the 1986 Lake Lyos disaster (Wagner, Clark, Koenigsberg, and Decata), July, 899

Autoerotism

Autoerotic asphyxial death following television broadcast (O'Halloran and Lovell), Nov., 1491

Automated systems

Fast isoelectric focusing of some polymorphic proteins and enzymes in miniaturized gels using an automated system (Carracedo, Andrade-Vide, Rodriguez-Calvo, Montiel, and Lareu), Nov., 1379

Automobiles

Cervical airway injuries as a result of impact with steering wheel rim (Mittleman), Sept., 1198

Autopsies—see Postmortem examinations

B**Ballistics**—see also Wound ballistics

Bullet ricochet from gypsum wallboard (Jordan, Bratton, Donahue, and Rowe), Nov., 1477

Comparison of the terminal ballistics of full metal jacket 7.62-mm M80 (NATO) and 5.56-mm M193 military bullets: a study in ordnance gelatin (Ragsdale and Sohn), May, 676

Detection of gunshot residue (GSR) particles on the bottom of discharged bullets (Bergman, Enzel, and Springer), July, 960

Determination of barium in gunshot residue collection swabs using inductively coupled plasma-atomic emission spectrometry (Koons, Havekost, and Peters), Jan., 35

Effects of water-soaking on firing distance estimations (Even, Bergman, Springer, and Klein), March, 319

Evidentiary value of the contents of hollow-point bullets (Smith and Harruff), July, 1052

Shielding capacity of the standard military flak jacket against ballistic injury to the kidney (O'Connell, Frazier, Clark, Christenson, Keyes, and Josselson), March, 410

Shotcup petal abrasions in close range .410-caliber shotgun injuries (Dowling, Dickinson, and Cooke), Jan., 260

Terminal ballistic characteristics of Hydra-Shok® ammunition: a description of three cases (Sperry and Sweeney), Jan., 42

Barefoot impressions

Barefoot impressions—a preliminary study of identification characteristics and population frequency of their morphological features (Laskowski and Kyle), March, 378

Battered Child Syndrome—see Child abuse**Benzodiazepines**

Rapid isolation of benzodiazepines with Sep-Pak® C₁₈ cartridges (Suzuki, Seno, and Kumazawa), Sept., 1249

Bite marks

Bite mark impressions: a review of techniques and materials (Benson, Cottone, Bomberg, and Sperber), Sept., 1238

Bite mark standard reference scale—ABFO No. 2 (Hyzer and Krauss), March, 498

Present direction of research in forensic odontology (Katz and Cottone), Nov., 1319

Blood

Development of a radioimmunoassay technique for the detection of human hemoglobin in dried bloodstains (Quarino and Kobilinsky), Nov., 1369

Estimation of postmortem interval based on the third component of complement (C3) cleavage (Kominato, Harada, Yamazaki, and Misawa), March, 404

Identification of male bloodstains by dot hybridization of human Y chromosome-specific deoxyribonucleic acid (DNA) probe (Fukushima, Hasekura, and Nagai), May, 621

Sex identification in fresh blood and dried bloodstains by a nonisotopic deoxyribonucleic acid (DNA) analyzing technique (Kobayashi, Nakauchi, Nakahori, Nakagome, and Matsuzawa), May, 613

Stability of plasma total cholesterol, triglycerides, and apolipoproteins B and A-I during the early postmortem period (Särkioja, Ylä-Herttua, Solakivi, Nikkari, and Hirvonen), Nov., 1432

Unusual variant of blood group A (Tumosa and Dowd), Nov., 1503

Blood serum

Simple pattern method for alpha₂ HS-glycoprotein typing (Sebetan), July, 1031

Body fluids

Comparison of laser and high-intensity quartz arc tubes in the detection of body secretions (Auvdel), July, 929

Two-dimensional absorption-inhibition (Lee, Gaensslen, Pagliaro, and Novitch), Sept., 1127

Bolts

Probability analysis and the evidential value of bolt arrangements (Even, Bergman, Springer, and Feingold), Sept., 1278

Bones—see Musculoskeletal system**Yelena Bonner**

Alleged tampering with mail of Dr. Yelena Bonner (Grantham), May, 835

Book reviews

Advances in Forensic Haemogenetics by Brinkmann and Henningsen (Sensabaugh), May, 851

The Automobile Theft Investigator by Cook (Cadmán), May, 858

CAP Handbook for Postmortem Examination of Unidentified Remains by Fierro and Loring (Wetli), May, 852

Cocaine: A Clinician's Handbook by Washton and Gold (Jones), July, 1085

Comprehensive Index to the Journal of Forensic Science 1972-1986 by Dominguez (Cravey), March, 596

Electron Microscopy in Forensic, Occupational and Environmental Health Sciences by Basu and Millette (Rhodes), May, 864

Encyclopedia of Health Information Sources, First Edition by Wasserman (Jones), Jan., 291

The Essentials of Forensic Medicine: 4th Edition by Polson et al. (Tate), Jan., 289

Evil Angels (Slovenko), Nov., 1513

- A Field Guide for Human Skeletal Identification* by Bennett (Hinkes), May, 854
- Geriatric Psychiatry and the Law* by Rosner and Schwartz (Bloomington), Sept., 1291
- Human Blood Groups* by Prokop (Taylor), March, 597
- Human Osteology—A Laboratory and Field Manual* Third Edition by Bass (İscan), Sept., 1287
- Human Values in Pediatric Hematology/Oncology* (Moenssens), Nov., 1511
- Manual of Forensic Entomology* by Smith (Rodriguez), May, 862
- Pathology Annual 1987: Part 2* by Rosen and Fechner (Sperry), Sept., 1295
- Personal Identification from Human Remains* by Rogers (Hinkes), July, 1096
- Photographs and Maps Go to Court* by Gillen (Walton), May, 866
- Sciences Legales et Police Scientifique* (in French) by Clement (Finck), July, 1098
- Scientific Aspects of Graphology—a Handbook* by Nevo (Crown), Jan., 287
- Scientific Evidence in Criminal Cases, 3rd edition* by Moenssens et al. (Strong), May, 860
- The Study of Latent Fingerprints—a Science* by Clements (Black), May, 856
- Techniques of Crime Scene Investigation* by Fisher (McCarty), Sept., 1290
- Thin-Layer Chromatographic R_f Values of Toxicologically Relevant Substances on Standardized Systems* by Moffat (Peat), Sept., 1289
- Violence Prediction Guidelines for the Forensic Practitioner* (Perr) Nov., 1509
- Breath-alcohol testing devices**
- Statistical evaluation of truncated breath-alcohol test measurements (Gullberg), March, 507
- Bullet ricochets**
- Bullet ricochet from gypsum wallboard (Jordan, Bratton, Donahue, and Rowe), Nov., 1477
- Bullets—see** Ballistics

C

Cannabinoids—see Marijuana

Cannabis—see Marijuana

Capsular polysaccharides

Postmortem diagnosis of meningococemia by detection of capsular polysaccharides (Challener, Morrissey, and Jacobs), March, 336

Carbon dioxide

Medical evaluation of the victims of the 1986 Lake Nyos disaster (Wagner, Clark, Koenigsberg, and Decata), July, 899

Cardiovascular system

Regional study of free fatty acids and free carnitine behavior in cardiac tissue in relation to different causes of death (Lachica, Villanueva, and Luna), Nov.,

Traumatic false aneurysm of descending aorta with aortoesophageal fistula (Swanson and Gafey), May, 816

Castings

Individuality of human palatal rugae (English, Robison, Summitt, Oesterle, Brannon, and Morlang), May, 718

Chemical analysis

Analysis of explosives by liquid chromatography/thermospray/mass spectrometry (Berberich, Yost, and Fetterolf), July, 946

Chromatographic and spectroscopic profiles of *Cannabis* of different origins: Part I (Brenneisen and ElSohly), Nov., 1385

Detection of gunshot residue (GSR) particles on the bottom of discharged bullets (Bergman, Enzel, and Springer), July, 960

Extractive alkylation and gas chromatographic analysis of sulfide (Kage, Nagata, Kimura, and Kudo), Jan., 217

Fatality involving U4Euh, a cyclic derivative of phenylpropanolamine (Davis and Brewster), March, 549

Gas chromatographic/mass spectrometric analysis of morphine and codeine in human urine of poppy seed eaters (ElSohly, Stanford, Jones, ElSohly, Snyder, and Pedersen) March, 347

Identification of nitromethaqualone and its differentiation from some positional isomers (Clark), July, 1035

Identification of sugars in explosive residues by gas chromatography-mass spectrometry (Nowicki and Pauling), Sept., 1254

Chest plate

Age related changes in the human plastron: a roentgenographic and morphologic study (McCormick and Stewart), Jan., 100

Child abuse

Case of panhypogammaglobulinemia masquerading as child abuse (Copeland), Nov., 1493

Child abuse reporting trends: an unprecedented threat to confidentiality (Weinstock and Weinstock), March, 418

Unusual case of child abuse homicide/suicide (Fain and McCormick), March, 554

Children

Childhood identification and prophylaxis of antisocial personality disorder (Bloomington and Bloomington), Jan., 187

Chromatographic analysis—see also Chemical analysis

Comparison of black polyvinylchloride (PVC) tapes by pyrolysis gas chromatography (Williams and Munson), Sept., 1163

Examination of illicit cocaine (LeBelle, Lauriault, Callahan, Latham, Chiarelli, and Beckstead), May, 662

Heroin, morphine, and hydromorphone determination in postmortem material by high performance liquid chromatography (Sawyer, Waterhouse, Doedens, and Forney), Sept., 1146

Infant fatality involving ajmaline (Ikeda, Umetsu, Suzuki, Gonmori, and Takahashi), March, 558

Quantitation of phenyl-2-propanone using high performance liquid chromatography (Sottolano), Nov., 1415

Chromatographic analysis (*cont.*)

Rapid isolation of benzodiazepines with Sep-Pak® C₁₈ cartridges (Suzuki, Seno, and Kumazawa), Sept., 1249

Tissue distribution of ethosuximide and clobazam in a seizure related fatality (Fraser, Isner, and Heifetz), July, 1058

Class characteristics

Erasable felt tip writing instrument detection (Zimmerman, Doherty, and Mooney), May, 709

Study of the handwriting of adolescents (Masson), Jan., 167

Clobazam

Tissue distribution of ethosuximide and clobazam in a seizure related fatality (Fraser, Isner, and Heifetz), July, 1058

Cocaine

Cocaine and homicide in Memphis and Shelby County: an epidemic of violence (Harruff, Francisco, Elkins, Phillips, and Fernandez), Sept., 1231

Drug use by tractor-trailer drivers (Lund, Preusser, Blomberg, and Williams), May, 648

Examination of illicit cocaine (LeBelle, Lauriault, Callahan, Latham, Chiarelli, and Beckstead), May, 662

Processing protocol for drug residue and latent print evidence (Nielson and Katz), Nov., 1463

Recovery of latent prints and drug residues from a problem porous surface (Nielson and Katz), Nov., 1506

Codeine

Gas chromatographic/mass spectrometric analysis of morphine and codeine in human urine of poppy seed eaters (ElSohly, Stanford, Jones, ElSohly, Synder, and Pedersen), March, 347

Coitus

Vaginal fluid zinc concentration as a marker for intercourse (Rogers, Bernstein, Nakamura, Endahl, and Bhoopat), Jan., 77

Colors (materials)

Color matching within a fiber data collection (Hartshorne and Laing), Nov., 1345

Comparative analysis

Association between victim's clothing and fabric impressions in grease (Wilson), May, 829

Comparison of the terminal ballistics of full metal jacket 7.62-mm M80 (NATO) and 5.56-mm M193 military bullets: a study in ordnance gelatin (Ragsdale and Sohn), May, 676

Microfilm documents: what are the boundaries in document examination (Hanna), Jan., 154

Patterns in sharp force fatalities—a comprehensive forensic medical study: Part 2. Suicidal sharp force injury in the Stockholm area 1972–1984 (Karlsson, Ormstad, and Rajs), March 448

Complement (biology)

Estimation of postmortem interval based on the third component of complement (C3) cleavage (Kominato, Harada, Yamazaki, and Misawa), March, 404

Computers

Computer-aided seal discriminating system, (Tang), July, 969

Computer-assisted postmortem identification (CAPMI) system: a computer-based identification program (Lorton, Rethman, and Friedman), July, 977

Confidentiality—see Privacy and Doctor-patient privilege

Corrosion

Alterations in human bones and teeth as a result of restricted sun exposure and contact with corrosive agents (Ubelaker and Sperber), March, 540

Criminal aliases

Name variation and aspects of body image among male offenders (Harry), Jan., 200

Criminalistics

ANS (8-anilino-1-naphthalene-sulfonate)—a new reagent for detection of latent fingerprints (Cheng), March, 527

Association between victim's clothing and fabric impressions in grease (Wilson), May, 829

Barefoot impressions—a preliminary study of identification characteristics and population frequency of their morphological features (Laskowski and Kyle), March, 378

Bullet ricochet from gypsum wallboard (Jordan, Bratton, Donahue, and Rowe), Nov., 1477

Cocaine and homicide in Memphis and Shelby County: an epidemic of violence (Harruff, Francisco, Elkins, Phillips, and Fernandez), Sept. 1231

Comparison of black polyvinylchloride (PVC) tapes by pyrolysis gas chromatography (Williams and Munson), Sept., 1163

Dangerous information: product tampering and poisoning advice in revenge and murder manuals (Dietz), Sept., 1206

Delayed traumatic intracerebral hematoma (DTICH) and the determination of the manner of death. A case report and review of the literature (McFeeley and Blisard), May, 801

Detection of gunshot residue (GSR) particles on the bottom of discharged bullets (Bergman, Enzel, and Springer), July, 960

Effects of water-soaking on firing distance estimations (Even, Bergman, Springer, and Klein), March, 319

Epidemic of intravenous narcoticism deaths associated with the resurgence of black tar heroin (Sperry), Sept., 1156

Evaluation of the air bubbles present in polyurethane shoe outsoles as applicable in footwear impression comparisons (Music and Bodziak), Sept., 1185

Evidentiary value of the contents of hollow-point bullets (Smith and Harruff), July, 1052

Examination techniques for determining whether or not a key is an original or a duplicate (Springer, Bergman, and Feingold), Nov., 1355

Extinction-type photometering technique for low-light-level luminance measurements in accident investigations (Hyzer), March, 530

Fluorescence of petroleum products III. Three-dimensional fluorescence plots of petrolatum-based products (Gugel and Siegel), Nov., 1405

Glycogenated squamous epithelial cells as a

- marker of foreign body penetration in sexual assault (Randall), March, 511
- Identification of sugars in explosive residues by gas chromatography-mass spectrometry (Nowicki and Pauling), Sept., 1254
- Identification of wooden instrument by scanning electron microscopy from splinters left in victim (Adelman, Peterson, and Sorger), May, 787
- Medical model for criminalistics education (Stoney), July, 1086
- 5-Methoxyninhydrin: a reagent for the chemical development of latent fingerprints that is compatible with the copper-vapor laser (Almog and Hirshfeld), July, 1027
- On the application of metallurgical techniques to forensic sciences (Rittel and Faingold), Jan., 210
- Morphology and evidential significance of human hair roots (Petrao, Fraas, Callery, and De Forest), Jan., 68
- Probability analysis and the evidential value of bolt arrangements (Even, Bergman, Springer, and Feingold), Sept., 1278
- Research experience and future criminalists (Smith, Liu, and Lindquist), July, 1074
- Simple, rapid, and unique hand techniques for cross-sectioning fibers and hair (Fong and Inami), March, 305
- Statistical evaluation of truncated breath-alcohol test measurements (Gullberg), March, 507
- Technique to enhance fingerprinting of mummified fingers (Haglund), Sept., 1244
- Unusual case of child abuse homicide/suicide (Fain and McCormick), March, 554
- Use of frequency-doubled neodymium: yttrium aluminum garnet (Nd:YAG) laser for enhancement of weak bloody fingerprints (Cheng), July, 1022
- Criminal sex offenses**
- Fluorescence of petroleum products III. Three-dimensional fluorescence plots of petrolatum-based products (Gugel and Siegel), Nov., 1405
- Glycogenated squamous epithelial cells as a marker of foreign body penetration in sexual assault (Randall), March, 511
- Identification of wooden instrument by scanning electron microscopy from splinters left in victim (Adelman, Peterson, and Sorger), May, 787
- Predicting the effectiveness of treatment for pedophilia (Rowan), Jan., 204
- Tests of genetic markers on aborted fetal material (Reisner, Clark, and Shoffner), Sept., 1262
- Cross-sectioning**
- Simple, rapid, and unique hand techniques for cross-sectioning fibers and hair (Fong and Inami), March, 305
- D**
- Death**
- Amitriptyline overdose versus sudden infant death syndrome in a two-month-old white female (Perrot), Jan., 272
- Autoerotic asphyxial death following television broadcast (O'Halloran and Lovell), Nov., 1491
- Causes of death of patients in an institution for the developmentally disabled (Blisard, Martin, Brown, Smialek, Davis, and McFeeley), Nov., 1457
- Death from pool chlorine—an unusual case (Rao and Hearn), May, 812
- Delayed traumatic intracerebral hematoma (DTICH) and the determination of the manner of death. A case report and review of the literature (McFeeley and Blisard), May, 801
- Dragging deaths: a case in point (Dix and Boles), May, 826
- Epidemic of intravenous narcoticism deaths associated with the resurgence of black tar heroin (Sperry), Sept., 1156
- Evaluation of sudden death in psychiatric patients with special reference to phenothiazine therapy: forensic pathology (Laposata, Hale, and Poklis), March, 432
- Pathological spectrum of the lung in cases of violent death: Part I. Lesion classification (Ferrer, Castellano, Bona, and Plaza), March, 480
- Pathological spectrum of the lung in cases of violent death: Part II. Clinicopathologic correlation (Ferrer, Castellano, and Plaza), March, 490
- Pheochromocytoma and sudden death as a result of cerebral infarction in Turner's syndrome: report of a case (Knisely, Sweeney, and Ambler), Nov., 1497
- Sudden death following administration of radio contrast media (Edelstein), May, 734
- Sudden death in a neonate as a result of herpes simplex infection (Traisman, Young, Lifschultz, Traisman, Benuck, and Chasoff), Jan., 267
- Sudden death in mitral valve prolapse (Scalabarnett and Donoghue), Jan., 84
- Death certificates**
- Operational criteria for the determination of suicide (Rosenberg, Davidson, Smith, Berman, Buzbee, Gantner, Gay, Moore-Lewis, Mills, Murray, O'Carroll, and Jobes), Nov., 1445
- Decomposition**
- Autodegradation of deoxyribonucleic acid (DNA) in human rib bone and its relationship to the time interval since death (Perry, Bass, Riggsby, and Sirotkin), Jan., 144
- Dental appliances—see Prosthetic devices**
- Dentition**
- Failure of use of cemental annulations in teeth to determine the age of humans (Miller, Dove, and Cottone), Jan., 137
- Method of orientation of skull and camera for use in forensic photographic investigation (McKenna), May, 751
- Scanning electron microscopy and electron probe X-ray microanalysis (Ikeda, Watanabe, Harada, and Suzuki), Nov., 1328
- Simple overlay system for data comparison in dental identification (Jones), Jan., 254
- Deoxyribonucleic acid (DNA)**
- Autodegradation of deoxyribonucleic acid (DNA) in human rib bone and its relationship to the

Deoxyribonucleic acid (DNA) (cont.)

- time interval since death (Perry, Bass, Riggsby, and Sirotkin), Jan., 144
- Establishing paternity using minisatellite DNA probes when the putative father is unavailable for testing (Odelberg, Demers, Westin, and Hossaini), July, 921
- Identification of male bloodstains by dot hybridization of human Y chromosome-specific deoxyribonucleic acid (DNA) probe (Fukushima, Hasekura, and Nagai), May, 621
- Repetitive deoxyribonucleic acid (DNA) and human genome variation—a concise review relevant to forensic biology (Fowler, Burgoyne, Scott, and Harding), Sept., 1111
- Sex identification in fresh blood and dried bloodstains by a nonisotopic deoxyribonucleic acid (DNA) analyzing technique (Kobayashi, Nakachi, Nakahori, Nakagome, and Matsuzawa), May, 613

Designer drugs

- Designer drugs: past history and future prospects (Henderson), March, 569
- Introduction to Workshop: Designer Drugs (Cravey), March, 568
- 3,4-Methylenedioxymethamphetamine (MDMA) and other amphetamine derivatives (Bost), March, 576
- 1-Methyl-4-phenyl-1,2,3,6-tetrahydropyridine (MPTP): one designer drug and serendipity (Weingarten), March, 588

Deviant sexual behavior

- Autoerotic asphyxial death following television broadcast (O'Halloran and Lovell), Nov., 1491

Digital image processing

- Computer-aided seal discriminating system, (Tang), July, 969

Disabled patients

- Causes of death of patients in an institution for the developmentally disabled (Blisard, Martin, Brown, Smialek, Davis, and McFeeley), Nov., 1457

Doctor-patient privilege

- Child abuse reporting trends: an unprecedented threat to confidentiality (Weinstock and Weinstock), March, 418
- Controversial ethical issues in forensic psychiatry: a survey (Weinstock), Jan., 176
- Presence of counsel at forensic psychiatric examinations (Rachlin and Schwartz), July, 1008

Dragging

- Dragging deaths: a case in point (Dix and Bolesta), May, 826

Driving (motor vehicle operation)

- Drug use by tractor-trailer drivers (Lund, Preusser, Blomberg, and Williams), May, 648

Drug residues

- Processing protocol for drug residue and latent print evidence (Nielson and Katz), Nov., 1463
- Recovery of latent prints and drug residues from a problem porous surface (Nielson and Katz), Nov., 1506

Drugs—see Toxicology and specific headings

Dyes

- Assessment of the value of blue, red, and black cotton fibers as target fibers in forensic science investigations (Grieve, Dunlop, and Haddock), Nov., 1332
- Dye batch variation in textile fibers (Wiggins, Cook, and Turner), July, 998

E**Editorials**

- Research (Curry), May, 605
- Standard Reference Materials (Rasberry), Sept., 1103

Education

- Appropriate educational background for entry level forensic scientists: a survey of practitioners (Siegel), July, 1065
- Determination of cause and mode of death before and after medicolegal autopsy: a comparative study (Seegerberg-Konttinen), March, 441
- Do forensic science graduate programs fulfill the needs of the forensic science community? (Higgins and Selavka), July, 1015
- Forensic science laboratory/forensic science program cooperation and relationships: the view from the forensic science laboratory (Lee and Gaensslen), July, 1071
- Medical model for criminalistics education (Stoney), July, 1086
- Regional cooperation and regional centers among forensic science programs in the United States (Gaensslen and Lee), July, 1069
- Research experience and future criminalists (Smith, Liu, and Lindquist), July, 1074
- Teaching ethics in a forensic science curriculum (Peterson), July, 1061
- Electrostatic detection apparatus (ESDA)**
- Electrostatic detection apparatus (ESDA) and its effects on latent prints on paper (Moore), March, 357

EMIT[®]—see Immunoassay

Epilepsy

- Tissue distribution of ethosuximide and clobazam in a seizure related fatality (Fraser, Isner, and Heifetz), July, 1058

Erasures

- Erasable felt tip writing instrument detection (Zimmerman, Doherty, and Mooney), May, 709
- Methylene blue revisited: the search for a trouble-free erasure sensitive powder (Riker and Lewis), May, 773

Erythrocyte acid phosphatases—see Phosphatases

Esterase D

- Hybrid ampholyte focusing technique for esterase D subtyping of evidentiary materials (Budowle and Gambel), May, 738

Ethanol—see alcohol

Ethics

- Controversial ethical issues in forensic psychiatry: a survey (Weinstock), Jan., 176
- Teaching ethics in a forensic science curriculum (Peterson), July, 1061

Ethosuximide

Tissue distribution of ethosuximide and clobazam in a seizure related fatality (Fraser, Isner, and Heifetz), July, 1058

Ethyl acetate complex

Fourier transform-infrared (FT-IR) characterization of the ethyl acetate complex of O^b-acetylmorphine (Beckstead and Neville), Jan., 223

Explosives

Analysis is explosives by liquid chromatography/thermospray/mass spectrometry (Berberich, Yost, and Fetterolf), July, 946

Identification of sugars in explosive residues by gas chromatography-mass spectrometry (Nowicki and Pauling), Sept., 1254

Extraction—see also Drug Identification

Fourier transform-infrared (FT-IR) characterization of the ethyl acetate complex of O^b-acetylmorphine (Beckstead and Neville), Jan., 223

Extractive alkylation

Extractive alkylation and gas chromatographic analysis of sulfide (Kage, Nagata, Kimura, and Kudo), Jan., 217

F**Fabrics**

Association between victim's clothing and fabric impressions in grease (Wilson), May, 829

Fentanyl

Designer drugs: past history and future prospects (Henderson), March, 569

Fibers—see also Synthetic fibers

Assessment of the value of blue, red, and black cotton fibers as target fibers in forensic science investigations (Grieve, Dunlop, and Haddock), Nov., 1332

Color matching within a fiber data collection (Hartshorne and Laing), Nov., 1345

Dye batch variation in textile fibers (Wiggins, Cook, and Turner), July, 998

Novel technique for the collection and recovery of foreign fibers in forensic science casework (Choudhry), Jan., 249

Simple, rapid, and unique hand techniques for cross-sectioning fibers and hair (Fong and Inami), March, 305

Fingerprints

ANS (8-anilino-naphthalene-1-sulfonate)—a new reagent for detection of latent fingerprints (Cheng), March, 527

Electrostatic detection apparatus (ESDA) and its effects on latent prints on paper (Moore), March, 357

5-Methoxyninhydrin: a reagent for the chemical development of latent fingerprints that is compatible with the copper-vapor laser (Almog and Hirshfeld), July, 1027

Recovery of latent prints and drug residues from a problem porous surface (Nielsen and Katz), Nov., 1506

Technique to enhance fingerprinting of mummified fingers (Haglund), Sept., 1244

Use of frequency-doubled neodymium: yttrium

aluminum garnet (Nd:YAG) laser for enhancement of weak bloody fingerprints (Cheng), July, 1022

Flak jackets—see Protective clothing**Fluorescence—see Luminescence****Fluorescence spectroscopy—see Spectroscopic analysis****Fluorogenic substrates**

Alternative, effective substrate for erythrocyte acid phosphatase phenotype determinations (Budowle and Gambel), July, 915

Footprints

Barefoot impressions—a preliminary study of identification characteristics and population frequency of their morphological features (Laskowski and Kyle), March, 378

Footwear

Evaluation of the air bubbles present in polyurethane shoe outsoles as applicable in footwear impression comparisons (Music and Bodziak), Sept., 1185

Forensic science

Alternative, effective substrate for erythrocyte acid phosphatase phenotype determinations (Budowle and Gambel), July, 915

Alternative methods for processing arson samples in polyester bags (Stackhouse and Gray), March, 515

Analysis of explosives by liquid chromatography/thermospray/mass spectrometry (Berberich, Yost, and Fetterolf), July, 946

Appropriate educational background for entry level forensic scientists: a survey of practitioners (Siegel), July, 1065

Assessment of the value of blue, red, and black cotton fibers as target fibers in forensic science investigations (Grieve, Dunlop, and Haddock), Nov., 1332

Classification and discrimination of sheet and container glasses by inductively coupled plasma-atomic emission spectrometry and pattern recognition (Koons, Fiedler, and Rawalt), Jan., 49

Color matching within a fiber data collection (Hartshorne and Laing), Nov., 1345

Comparison of laser and high-intensity quartz arc tubes in the detection of body secretions (Auvdel), July, 929

Comparison of the terminal ballistics of full metal jacket 7.62-mm M80 (NATO) and 5.56-mm M193 military bullets: a study in ordnance gelatin (Ragsdale and Sohn), May, 676

Detection and use of salivary hemagglutinins for forensic blood grouping (Kobilinsky and Harrington), March, 396

Detection of hemagglutinins in dried saliva stains and their potential use in blood typing (Harrington, Martin, and Kobilinsky), May, 628

Determination of barium in gunshot residue collection swabs using inductively coupled plasma-atomic emission spectrometry (Koons, Havekost, and Peters), Jan., 35

Development of a radioimmunoassay technique for the detection of human hemoglobin in dried

Forensic science (cont.)

- bloodstains (Quarino and Kobilinsky), Nov., 1369
- Do forensic science graduate programs fulfill the needs of the forensic science community? (Higgins and Selavka), July, 1015
- Dye batch variation in textile fibers (Wiggins, Cook, and Turner), July, 998
- Examination of a contaminated seminal stain using absorption-elution and enzyme-linked immunosorbent assay (ELISA) (Bolton and Thorpe), May, 797
- Examination of vaginally inserted plastic tampon applicators for genetic markers and evidence of prior sexual intercourse (Springer, Laber, and Randall), Sept., 1139
- Fast isoelectric focusing of some polymorphic proteins and enzymes in miniaturized gels using an automated system (Carracedo, Andrade-Vide, Rodriguez-Calvo, Montiel, and Lareu), Nov., 1379
- Forensic science laboratory/forensic science program cooperation and relationships: the view from the forensic science laboratory (Lee and Gaensslen), July, 1071
- Hybrid ampholyte focusing technique for esterase D subtyping of evidentiary materials (Budowle and Gambel), May, 738
- Identification of male bloodstains by dot hybridization of human Y chromosome-specific deoxyribonucleic acid (DNA) probe (Fukushima, Hasekura, and Nagai), May, 621
- Improved method for histological preparation of single hairs and dust samples morphological and immunological examination (Tanabe, Iskiyama, and Itakura), May, 767
- Medical model for criminalistics education (Stoney), July, 1086
- Micromethod for MN antigen grouping of dried bloodstains (Berns and Lötterle), Jan., 230
- Novel technique for the collection and recovery of foreign fibers in forensic science casework (Choudhry), Jan., 249
- On the application of metallurgical techniques to forensic sciences (Rittel and Faingold), Jan., 210
- Processing photographic films by infrared inspection (Jones), May, 756
- Processing protocol for drug residue and latent print evidence (Nielsen and Katz), Nov., 1463
- Quantitation of phenyl-2-propanone using high-performance liquid chromatography (Sottolano), Nov., 1415
- Rapid clay mineralogical analysis for forensic science investigation—clay mineralogy over the short distances (Marumo, Nagatsuka, and Oba), Nov., 1360
- Recovery of latent prints and drug residues from a problem porous surface (Nielsen and Katz), Nov., 1506
- Regional cooperation and regional centers among forensic science programs in the United States (Gaensslen and Lee), July, 1069
- Research experience and future criminalistics (Smith, Liu, and Lindquist), July, 1074

- Sex identification in fresh blood and dried bloodstains by a nonisotopic deoxyribonucleic acid (DNA) analyzing technique (Kobayashi, Nakachi, Nakahori, Nakagome, and Matsuzawa), May, 613
- Simple pattern method for alpha₂ HS-glycoprotein typing (Sebetan), July, 1031
- Some special observations of infrared luminescence (Cantu and Prough), May, 638
- Teaching ethics in a forensic science curriculum (Peterson), July, 1061
- Unusual variant of blood group A (Tumosa and Dowd), Nov., 1503

Free carnitine

- Regional study of free fatty acids and free carnitine behavior in cardiac tissue in relation to different causes of death (Lachica, Villanueva, and Luna), Nov., 1483

Free fatty acids

- Regional study of free fatty acids and free carnitine behavior in cardiac tissue in relation to different causes of death (Lachica, Villanueva, and Luna), Nov., 1483

G

Gas chromatography—see Chromatographic analysis

Gas chromatography/mass spectrometry—see Chemical analysis

Genetic typing

- Detection and use of salivary hemagglutinins for forensic blood grouping (Kobilinsky and Harrington), March, 396
- Examination of a contaminated seminal stain using absorption-elution and enzyme-linked immunosorbent assay (ELISA) (Bolton and Thorpe), May, 797
- Examination of vaginally inserted plastic tampon applicators for genetic markers and evidence of prior sexual intercourse (Springer, Laber, and Randall), Sept., 1139
- Group specific component subtyping in bloodstains by separator isoelectric focusing in micro-ultrathin polyacrylamide gels followed by immunoblotting (Alonso), Sept., 1267
- Hybrid ampholyte focusing technique for esterase D subtyping of evidentiary materials (Budowle and Gambel), May, 738
- Improved method for histological preparation of single hairs and dust samples morphological and immunological examination (Tanabe, Iskiyama, and Itakura), May, 767
- Micromethod for MN antigen grouping of dried bloodstains (Berns and Lötterle), Jan., 230
- Simple pattern method for alpha₂ HS-glycoprotein typing (Sebetan), July, 1031
- Tests of genetic markers on aborted fetal material (Reisner, Clark, and Shoffner), Sept., 1262
- Two-dimensional absorption-inhibition (Lee, Gaensslen, Pagliaro, and Novitch), Sept., 1127

Genomes

Repetitive deoxyribonucleic acid (DNA) and human genome variation—a concise review relevant to forensic biology (Fowler, Burgoyne, Scott, and Harding), Sept., 1111

Glass classifications

Classification and discrimination of sheet and container glasses by inductively coupled plasma-atomic emission spectrometry and pattern recognition (Koons, Fiedler, and Rawalt), Jan., 49

Glycogenated epithelial cells

Glycogenated squamous epithelial cells as a marker of foreign body penetration in sexual assault (Randall), March, 511

Group specific component

Group specific component subtyping in blood-stains by separator isoelectric focusing in micro-ultrathin polyacrylamide gels followed by immunoblotting (Alonso), Sept., 1267

Gunshot residues

Detection of gunshot residue (GSR) particles of the bottom of discharged bullets (Bergman, Enzel, and Springer), July, 960

Determination of barium in gunshot residue collection swabs using inductively coupled plasma-atomic emission spectrometry (Koons, Havekost, and Peters), Jan., 35

H**Hair**

Improved method for histological preparation of single hairs and dust samples morphological and immunological examination (Tanabe, Iskiyama, and Itakura), May, 767

Morphology and evidential significance of human hair roots (Petraco, Fraas, Callery, and De Forest), Jan., 68

Simple, rapid, and unique hand techniques for cross-sectioning fibers and hair (Fong and Inami), March, 305

Haloperidol

High haloperidol concentrations in a traffic suicide (Johnson), May, 823

Handwriting

Disguised writing: chronic or acute (Franck), May, 727

Evolution of questioned document examination in the last 50 years (Hilton), Nov., 1310

Microfilm documents: what are the boundaries in document examination (Hanna), Jan., 154

Study of the handwriting of adolescents (Masson), Jan., 167

Heart—see Cardiovascular system

Height estimation—see Human identification

Hemagglutinins

Detection and use of salivary hemagglutinins for forensic blood grouping (Kobilinsky and Harrington), March, 396

Detection of hemagglutinins in dried saliva stains and their potential use in blood typing (Harrington, Martin, and Kobilinsky), May, 628

Hematoma

Delayed traumatic intracerebral hematoma

(DTICH) and the determination of the manner of death. A case report and review of the literature (McFeeley and Blisard), May, 801

Heroin

Epidemic of intravenous narcoticism deaths associated with the resurgence of black tar heroin (Sperry), Sept., 1156

Fourier transform-infrared (FT-IR) characterization of the ethyl acetate complex of O⁶-acetylmorphine (Beckstead and Neville), Jan., 223

Heroin, morphine, and hydromorphone determination in postmortem material by high performance liquid chromatography (Sawyer, Waterhouse, Doedens, and Forney), Sept., 1146

Herpes simplex virus

Sudden death in a neonate as a result of herpes simplex infection (Traisman, Young, Lifschultz, Traisman, Benuck, and Chasnoff), Jan., 267

High performance liquid chromatography—see Chromatographic analysis

Histomorphology

Use of histomorphology to estimate age (Stout), Jan., 121

Historical background

Evolution of questioned document examination in the last 50 years (Hilton), Nov.,

Ill-fated passenger steamer *Sultana*: an inland maritime mass disaster of unparalleled magnitude (Berryman, Potter, and Oliver), May, 842
Wilton Marion Krogman, Ph.D. (1903–1987): the end of an era (İşcan), Nov., 1473

Homicide

Cocaine and homicide in Memphis and Shelby County: an epidemic of violence (Harruff, Francisco, Elkins, Phillips, Fernandez), Sept., 1231

Identification of a phosphoglucomutase 1 (PGM 1) variant in a case of murder/suicide (Franco and Goetz), July, 1050

Human identification

Alterations in human bones and teeth as a result of restricted sun exposure and contact with corrosive agents (Ubelaker and Sperber), March, 540

Barefoot impressions—a preliminary study of identification characteristics and population frequency of their morphological features (Laskowski and Kyle), March, 378

Confidence intervals for estimates based on linear regression in forensic anthropology (Giles and Klepinger), Sept., 1218

Effects of aging on the comparability of antemortem and postmortem radiographs (Sauer, Brantley, and Barondess), Sept., 1223

Estimating actual height in the older individual (Galloway), Jan., 126

Failure of use of cemental annulations in teeth to determine the age of humans (Miller, Dove, and Cottone), Jan., 137

Identification of male bloodstains by dot hybridization of human Y chromosome-specific deoxyribonucleic acid (DNA) probe (Fukushima, Hasekura, and Nagai), May, 621

Human identification (cont.)

- Individuality of human palatal rugae (English, Robison, Summitt, Oesterle, Brannon, and Morlang), May, 718
- Medical evaluation of the victims of the 1986 Lake Nyos disaster (Wagner, Clark, Koenigsberg, and Decata), July, 899
- Osteological individuality indicative of migrant citrus laboring (Wienker and Wood), March, 562
- Photographic technique for the restoration of damaged radiographs (Dailey and Furue), Sept., 1273
- Present direction of research in forensic odontology (Katz and Cottone), Nov., 1319
- Racial identification from the midfacial skeleton with special reference to American Indians and whites (Gill, Hughes, Bennett, and Gilbert), Jan., 92
- Report on the use of Fully's anatomical method to estimate stature in military skeletal remains (Lundy), March, 534
- Sacralization of a sixth lumbar vertebra and its effect upon the estimation of living stature (Lundy), July, 1045
- Sex identification in fresh blood and dried bloodstains by a nonisotopic deoxyribonucleic acid (DNA) analyzing technique (Kobayashi, Nakachi, Nakahori, Nakagome, and Matsuzawa), May, 613
- Sexing North American Eskimo and Indian innominate bones with acetabulum/pubis index (Schulter-Ellis and Hayek), May, 697
- Simple overlay system for data comparison in dental identification (Jones), Jan., 254
- Technique to enhance fingerprinting of mummified fingers (Haglund), Sept., 1244
- Tooth mark artifacts and survival of bones in animal scavenged human skeletons (Haglund, Reay, and Swindler), July, 985
- Use of histomorphology to estimate age (Stout), Jan., 121

Hydrogen sulfide

- Extractive alkylation and gas chromatographic analysis of sulfide (Kage, Nagata, Kimura, and Kudo), Jan., 217

Hydromorphone

- Heroin, morphine, and hydromorphone determination in postmortem material by high performance liquid chromatography (Sawyer, Waterhouse, Doedens, and Forney), Sept., 1146

Hypertension

- Pheochromocytoma and sudden death as a result of cerebral infarction in Turner's syndrome: report of a case (Knisely, Sweeney, and Ambler), Nov., 1497

I-K**Identification systems**

- Probability analysis and the evidential value of bolt arrangements (Even, Bergman, Springer, and Feingold), Sept., 1278

Image enhancement system

- Accurate method of focusing for infrared photography (Rademacher), May, 764
- Examination of sequence of strokes with an image enhancement system (Schuetzner), Jan., 244

Immunoassay

- Examination of a contaminated seminal stain using absorption-elution and enzyme-linked immunosorbent assay (ELISA) (Bolton and Thorpe), May, 797
- Identification of human urinary stains by enzyme-linked immunosorbent assay for human uromucoid (Tsutsumi, Okajima, Sato, and Katsumato), Jan., 237
- Incidence of cannabinoids in medical examiner urine specimens (Isenschmid and Caplan), Nov., 1421

Immuno-electrophoresis—see Electrophoresis**Immunohistochemistry**

- Improved method for histological preparation of single hairs and dust samples morphological and immunological examination (Tanabe, Ishiyama, and Itakura), May, 767

Impressions

- Association between victim's clothing and fabric impressions in grease (Wilson), May, 829
- Bite mark impressions: a review of techniques and materials (Benson, Cottone, Bomberg, and Sperber), Sept., 1238
- Evaluation of the air bubbles present in polyurethane shoe outsoles as applicable in footwear impression comparisons (Music and Bodziak), Sept., 1185
- Letter quality impact printer hammer impressions (Anthony), May, 779

Inductively coupled plasma-atomic emission spectrometry—see Spectroscopic analysis**Information systems**

- Computer-assisted postmortem identification (CAPMI) system: a computer-based identification program (Lorton, Rethman, and Friedman), July, 977

Infrared inspection

- Processing photographic films by infrared inspection (Jones), May, 756

Infrared luminescence—see Luminescence**Injuries**

- Cervical airway injuries as a result of impact with steering wheel rim (Mittleman), Sept., 1198
- Delayed, traumatic intracerebral hematoma (DTICH) and the determination of the manner of death. A case report and review of the literature (McFeeley and Blisard), May, 801

Inks

- Comments on the accelerated aging of ink (Cantu), May, 744
- Erasable felt tip writing instrument detection (Zimmerman, Doherty, and Mooney), May, 709
- Laser examination as an additional nondestructive method of ink differentiation (Zimmerman and Mooney), March, 310
- Transmission and reflectance microspectrophotometry of inks (Zeichner, Levin, Klein, and Novoselsky), Sept., 1171

Isoelectric focusing

- Alternative, effective substrate for erythrocyte acid phosphatase phenotype determinations (Budowle and Gambel), July, 915
- Fast isoelectric focusing of some polymorphic proteins and enzymes in miniaturized gels using an automated system (Carracedo, Andrade-Vide, Rodriguez-Calvo, Montiel, and Lareu), Nov., 1301
- Group specific component subtyping in blood-stains by separator isoelectric focusing in micro-ultrathin polyacrylamide gels followed by immunoblotting (Alonso), Sept., 1267
- Hybrid ampholyte focusing technique for esterase D subtyping of evidentiary materials (Budowle and Gambel), May, 738
- Simple pattern method for alpha₂ HS-glycoprotein typing (Sebetan), July, 1031

Jurisprudence

- Child abuse reporting trends: a unprecedented threat to confidentiality (Weinstock and Weinstock), March, 418
- Claims of psychiatric injury after alleged false arrest (Perr), Jan., 21
- Presence of counsel at forensic psychiatric examinations (Rachlin and Schwartz), July, 1008

Keys

- Examination techniques for determining whether or not a key is an original or a duplicate (Springer, Bergman, and Feingold), Nov., 1355

Wilton Marion Krogman

- Wilton Marion Krogman, Ph.D. (1903-1987): the end of an era (İşcan), Nov., 1473

L**Laboratories**

- Do forensic science graduate programs fulfill the needs of the forensic science community? (Higgins and Selavka), July, 1015
- Forensic science laboratory/forensic science program cooperation and relationships: the view from the forensic science laboratory (Lee and Gaensslen), July, 1071
- Medical model for criminalistics education (Stoney), July, 1086
- Quantitation of phenyl-2-propanone using high-performance liquid chromatography (Sottolano), Nov., 1415

Lasers

- Comparison of laser and high-intensity quartz arc tubes in the detection of body secretions (Auvdel), July, 929
- Laser examination as an additional nondestructive method of ink differentiation (Zimmerman and Mooney), March, 310
- 5-Methoxyninhydrin: a reagent for the chemical development of latent fingerprints that is compatible with the copper-vapor laser (Almog and Hirshfeld), July, 1027
- Some special observations of infrared luminescence (Cantu and Prough), May, 638
- Use of frequency-doubled neodymium:yttrium

- aluminum garnet (Nd:YAG) laser for enhancement of weak bloody fingerprints (Cheng), July, 1022

Last Word Society

- Ill-fated passenger steamer *Sultana*: an inland maritime mass disaster of unparalleled magnitude (Berryman, Potter, and Oliver), May, 842

Lesions

- Pathological spectrum of the lung in cases of violent death: Part I. Lesion classification (Ferrer, Castellano, Bona, and Plaza), March, 480
- Pathological spectrum of the lung in cases of violent death: Part II. Clinicopathologic correlation (Ferrer, Castellano, and Plaza), March, 490

Letters to the editor

- Anaphylactic deaths (Weedn), Sept., 1108
- Author's reply (Greenberg), Jan., 6
- Authors' reply (Hayward and Fox), Jan., 19
- Authors' response (Davison and Cohle), Sept., 1106
- Author's response (Fong), May, 610
- Author's response (Greenberg), Jan., 7
- Author's response (Kaplan), Jan., 8
- Authors' response (Lifschultz, Donoghue, Leestma, and Boade), Nov., 1307
- Author's response (Lowry), Jan., 14
- Authors' response (Miller, Dove, and Cottone), Nov., 1305
- Authors' response (Stoney and Thornton), Jan., 11
- Discussion of "a critical analysis of quantitative fingerprint individuality models" (Kingston), Jan., 9
- Discussion of "a guide to the rapid screening, identification, and comparison of synthetic fibers in dust samples" (Petraço), March, 304
- Discussion of "an attempt at determining probabilities in human scalp hair comparison" (Lalonde), July, 884
- Discussion of "a unique missile in a homicide victim: the Brenneke shotgun slug" (Rao), March, 304
- Discussion of "embolization of cotton pledgets following insertion of porcine cardiac valve bioprotheses" (Crimboli), Nov., 1306
- Discussion of "failure of use of cemental annulations in teeth to determine the age of humans" (Lorton), Nov., 1305
- Discussion of "histologic detection of fat emboli" (Durigon, Barrès, Guillon, and Paraire), Sept., 1106
- Discussion of "results of a study to determine the probability of chance match occurrences between fibers known to be from different sources" (Gaudette and Binder), May, 607
- Discussion of "statistical evaluation of truncated breath alcohol test measurements" (Gullberg), Sept., 110
- Discussion of "the bite mark standards reference scale—ABFO No. 2" (Ebert), March, 301
- Discussion of "effect of hypothermia on breath-alcohol analysis" (Hodgson), Jan., 18
- Discussion of "free radical production from con-

Letters to the editor (*cont.*)

- Controlled low-energy fires: toxicity considerations" (Lachocki and Pryor), Jan., 13
- Discussion of "pseudoabuse—the misdiagnosis of child abuse" (Alexander and Sivan), Jan., 7
- Discussion of "reliability of the scoring system of the American Board of Forensic Odontology for human bite marks" (Vale, Rawson, Sperber, and Herschaft), Jan., 20
- Discussion of "seat belts and human rights: an appraisal" (King), Jan., 6
- Discussion of "seat belts and human rights: an appraisal" (Petrucci), Jan., 5
- Do electronic bone healing devices interfere with breath testing instruments? (McLaughlin, Reis, and Dal Cortivo), Nov., 1307
- Duplicating film with an embossed dot (Askin), Jan., 15
- Hazards in the forensic science laboratory: legal implications (Joling), July, 887
- Interpretation of blood and urine cannabinoid concentrations (McBay), July, 875
- Literary retrials of notable forensic science cases—convoluted history for sale (Doud), Jan., 15
- Recent application of DNA analysis to issues of paternity (Kobilinsky and Levine), Sept., 1107
- SOFT position statement on HHS guidelines for forensic toxicology laboratory analyses (McGee), July, 883

Lipids

- Stability of plasma total cholesterol, triglycerides, and apolipoproteins B and A-I during the early postmortem period (Särkioja, Ylä-Herttua, Solakivi, Nikkari, and Hirvonen), Nov., 1432

Litigation

- Claims of psychiatric injury after alleged false arrest (Perr), Jan., 21

Locks

- Examination techniques for determining whether or not a key is an original or a duplicate (Springer, Bergman, and Feingold), Nov., 1355

Luminescence

- Extinction-type photometering technique for low-light-level luminance measurements in accident investigations (Hyzer), March, 530
- Some special observations of infrared luminescence (Cantu and Prough), May, 638

Lungs

- Pathological spectrum of the lung in cases of violent death: Part I. Lesion classification (Ferrer, Castellano, Bona, and Plaza), March, 480
- Pathological spectrum of the lung in cases of violent death: Part II. Clinicopathologic correlation (Ferrer, Castellano, and Plaza), March, 490

M**Mail tampering**

- Alleged tampering with mail of Dr. Yelena Bonner (Grantham), May, 835

Marijuana

- Chromatographic and spectroscopic profiles of *Cannabis* of different origins: Part I (Brenneisen and ElSohly), Nov., 1385
- Drug use by tractor-trailer drivers (Lund, Preusser, Blomberg, and Williams), May, 648
- Incidence of cannabinoids in medical examiner urine specimens (Isenschmid and Caplan), Nov., 1421

Mass disasters—see Human identification

Matching

- Color matching within a fiber data collection (Hartshorne and Laing), Nov., 1345

Mecloqualone

- Identification of nitromethaqualone and its differentiation from some positional isomers (Clark), July, 1035

Medical care facilities

- Causes of death of patients in an institution for the developmentally disabled (Blisard, Martin, Brown, Smialek, Davis, and McFeeley), Nov., 1457

Meningococemia

- Postmortem diagnosis of meningococemia by detection of capsular polysaccharides (Challener, Morrissey, and Jacobs), March, 336

Mental illness

- Childhood identification and prophylaxis of antisocial personality disorder (Bloomingdale and Bloomingdale), Jan., 187
- Evaluation of sudden death in psychiatric patients with special reference to phenothiazine therapy: forensic pathology (Laposata, Hale, and Poklis), March, 432

Metallurgical analysis

- On the application of metallurgical techniques to forensic sciences (Rittel and Faingold), Jan., 210

Metals

- On the application of metallurgical techniques to forensic sciences (Rittel and Faingold), Jan., 210

Methaqualone

- Identification of nitromethaqualone and its differentiation from some positional isomers (Clark), July, 1035

5-Methoxyninhydrin

- 5-Methoxyninhydrin: a reagent for the chemical development of latent fingerprints that is compatible with the copper-vapor laser (Almog and Hirshfeld), July, 1027

4-Methyl aminorex (U4EuH)

- Fatality involving U4EuH, a cyclic derivative of phenylpropanolamine (Davis and Brewster), March, 549

Methylene blue

- Methylene blue revisited: the search for a trouble-free erasure sensitive powder (Riker and Lewis), May, 773

3,4-Methylenedioxyamphetamine

- 3,4-Methylenedioxyamphetamine (MDMA) and other amphetamine derivatives (Bost), March, 576

1-Methyl-4-phenyl-1,2,3,6-tetrahydropyridine

1-Methyl-4-phenyl-1,2,3,6-tetrahydropyridine (MPTP): one designer drug and serendipity (Weingarten), March, 588

Microfilm

Microfilm documents: what are the boundaries in document examination (Hanna), Jan., 154

Microscopy

Assessment of the value of blue, red, and black cotton fibers as target fibers in forensic science investigations (Grieve, Dunlop, and Haddock), Nov., 1332

Dye batch variation in textile fibers (Wiggins, Cook, and Turner), July, 998

Identification of wooden instrument by scanning electron microscopy from splinters left in victim (Adelman, Peterson, and Sorger), May, 787

Morphology and evidential significance of human hair roots (Petraco, Fraas, Callery, and De Forest), Jan., 68

Scanning electron microscopy and electron probe X-ray microanalysis (Ikeda, Watanabe, Harada, and Suzuki), Nov., 1328

Microspectrophotometry—*see* Spectroscopic analysis

Minerals

Rapid clay mineralogical analysis for forensic science investigation—clay mineralogy over the short distances (Marumo, Nagatsuka, and Oba), Nov., 1360

Miniaturized gels

Fast isoelectric focusing of some polymorphic proteins and enzymes in miniaturized gels using an automated system (Carracedo, Andrade-Vide, Rodriguez-Calvo, Montiel, and Lareu), Nov., 1379

Mitral valve prolapse

Sudden death in mitral valve prolapse (Scala-Barnett and Donoghue), Jan., 84

Morphine

Gas chromatographic/mass spectrometric analysis of morphine and codeine in human urine of poppy seed eaters (ElSohly, Stanford, Jones, ElSohly, Snyder, and Pedersen) March, 347

Heroin, morphine, and hydromorphone determination in postmortem material by high performance liquid chromatography (Sawyer, Waterhouse, Doedens, and Forney), Sept., 1146

Motor vehicle accidents

Traumatic false aneurysm of descending aorta with aortooesophageal fistula (Swanson and Gaffey), May, 816

Mummification

Technique to enhance fingerprinting of mummified fingers (Haglund), Sept., 1244

Musculoskeletal system

Age related changes in the human plastron: a roentgenographic and morphologic study (McCormick and Stewart), Jan., 100

Alterations in human bones and teeth as a result of restricted sun exposure and contact with corrosive agents (Ubelaker and Sperber), March, 540

Effects of aging on the comparability of antemor-

tem and postmortem radiographs (Sauer, Brantley, and Barondess), Sept., 1223

Estimating actual height in the older individual (Galloway), Jan., 126

Method of orientation of skull and camera for use in forensic photographic investigation (McKenna), May, 751

Osteological individuality indicative of migrant citrus laboring (Wienker and Wood), March, 562

Racial identification from the midfacial skeleton with special reference to American Indians and whites (Gill, Hughes, Bennett, and Gilbert), Jan., 92

Report on the use of Fully's anatomical method to estimate stature in military skeletal remains (Lundy), March, 534

Sacralization of a sixth lumbar vertebra and its effect upon the estimation of living stature (Lundy), July, 1045

Sexing North American Eskimo and Indian innominate bones with acetabulum/pubis index (Schulter-Ellis and Hayek), May, 697

Tooth mark artifacts and survival of bones in animal scavenged human skeletons (Haglund, Reay, and Swindler), July, 985

Use of histomorphology to estimate age (Stout), Jan., 121

N-O**Neuropathology**

Spectrum of neuropathologic findings in deaths associated with seizure disorders (Blisard and McFeeley), July, 910

Ninhydrin

Use of frequency-doubled neodymium:yttrium aluminum garnet (Nd:YAG) laser for enhancement of weak bloody fingerprints (Cheng), July, 1022

Nitromethaqualone

Identification of nitromethaqualone and its differentiation from some positional isomers (Clark), July, 1035

Odontology

Alterations in human bones and teeth as a result of restricted sun exposure and contact with corrosive agents (Ubelaker and Sperber), March, 540

Bite mark impressions: a review of techniques and materials (Benson, Cottone, Bomberg, and Sperber), Sept., 1238

Bite mark standard reference scale—ABFO No. 2 (Hyzer and Krauss), March, 498

Computer-assisted postmortem identification (CAPMI) system: a computer-based identification program (Lorton, Rethman, and Friedman), July, 977

Failure of use of cemental annulations in teeth to determine the age of humans (Miller, Dove, and Cottone), Jan., 137

Individuality of human palatal rugae (English, Robison, Summitt, Oesterle, Brannon, and Morlang), May, 718

Odontology (*cont.*)

- Method of orientation of skull and camera for use in forensic photographic investigation (McKenna), May, 751
- Photographic technique for the restoration of damaged radiographs (Dailey and Furue), Sept., 1273
- Present direction of research in forensic odontology (Katz and Cottone), Nov., 1319
- Scanning electron microscopy and electron probe X-ray microanalysis (Ikeda, Watanabe, Harada, and Suzuki), Nov., 1328
- Simple overlay system for data comparison in dental identification (Jones), Jan., 254

Overlays

- Simple overlay system for data comparison in dental identification (Jones), Jan., 254

P**Palatal rugae**

- Individuality of human palatal rugae (English, Robison, Summitt, Oesterle, Brannon, and Morlang), May, 718

Papers

- Comments on the accelerated aging of ink (Cantu), May, 744
- Electrostatic detection apparatus (ESDA) and its effects on latent prints on paper (Moore), March, 357

Paternity

- Establishing paternity using minisatellite DNA probes when the putative father is unavailable for testing (Odelberg, Demers, Westin, and Hossaini), July, 921

Pathology and biology

- Amitriptyline overdose versus sudden infant death syndrome in a two-month-old white female (Perrot), Jan., 272
- Asphyxial deaths as a result of aspiration of dental appliances: a report of three cases (Adelman), March, 389
- Autodegradation of deoxyribonucleic acid (DNA) in human rib bone and its relationship to the time interval since death (Perry, Bass, Riggsby, and Sirotkin), Jan., 144
- Autoerotic asphyxial death following television broadcast (O'Halloran and Lovell), Nov., 1491
- Cardiac blood pH as a possible indicator of post-mortem interval (Sawyer, Steup, Martin, and Forney), Nov., 1439
- Cardiac injury during valve replacement surgery (Hawley, Kennedy, Pless, Gauger, and Waller), Jan., 276
- Case of panhypogammaglobulinemia masquerading as child abuse (Copeland), Nov., 1493
- Causes of death of patients in an institution for the developmentally disabled (Blisard, Martin, Brown, Smialek, Davis, and McFeeley), Nov., 1457
- Cervical airway injuries as a result of impact with steering wheel rim (Mittleman), Sept., 1198

- Cranial arteriovenous malformation: suicide by exsanguination (Gauger and Herrmann), Jan., 283

Death from pool chlorine—an unusual case (Rao and Hearn), May, 812

Delayed traumatic intracerebral hematoma (DTICH) and the determination of the manner of death. A case report and review of the literature (McFeeley and Blisard), May, 801

Determination of cause and mode of death before and after medicolegal autopsy: a comparative study (Segeberg-Konttinen), March, 441

Dragging death: a case in point (Dix and Bolesta), May, 826

Establishing paternity using minisatellite DNA probes when the putative father is unavailable for testing (Odelberg, Demers, Westin, and Hossaini), July, 921

Estimation of postmortem interval based on the third component of complement (C3) cleavage (Kominato, Harada, Yamazaki, and Misawa), March, 404

Evaluation of sudden death in psychiatric patients with special reference to phenothiazine therapy: forensic pathology (Laposata, Hale, and Poklis), March, 432

Group specific component subtyping in bloodstains by separator isoelectric focusing in micro-ultrathin polyacrylamide gels followed by immunoblotting (Alonso), Sept., 1267

Identification of a phosphoglucosylase 1 (PGM 1) variant in a case of murder/suicide (Franco and Goetz), July, 1050

Identification of human urinary stains by enzyme-linked immunosorbent assay for human uromucoid (Tsutsumi, Okajima, Sato, and Katsumato), Jan., 237

Identification of wooden instrument by scanning electron microscopy from splinters left in victim (Adelman, Peterson, and Sorger), May, 787

Incidence of cannabinoids in medical examiner urine specimens (Isenschmid and Caplan), Nov., 1421

Influence of storage temperature and chemical preservation on the stability of succinylcholine in canine tissue (Baldwin and Forney), March, 462

Medical investigation of airship accidents (Stahl, McMeekin, Ruehle, and Canik), July, 888

Operational criteria for the determination of suicide (Rosenberg, Davidson, Smith, Berman, Buzbee, Gantner, Gay, Moore-Lewis, Mills, Murray, O'Carroll, and Jobes), Nov., 1445

Pathological spectrum of the lung in cases of violent death: Part I. Lesion classification (Ferrer, Castellano, Bona, and Plaza), March, 480

Pathological spectrum of the lung in cases of violent death: Part II. Clinicopathologic correlation (Ferrer, Castellano, and Plaza), March, 490

Patterns in sharp force fatalities—a comprehensive forensic medical study: Part 2. Suicidal sharp force injury in the Stockholm area 1972-1984 (Karlsson, Ormstad, and Rajs), March 448

- Pheochromocytoma and sudden death as a result of cerebral infarction in Turner's syndrome: report of a case** (Knisely, Sweeney, and Ambler), Nov., 1497
- Postmortem diagnosis of meningococemia by detection of capsular polysaccharides** (Challener, Morrissey, and Jacobs), March, 336
- Regional study of free fatty acids and free carnitine behavior in cardiac tissue in relation to different causes of death** (Lachica, Villanueva, and Luna), Nov., 1483
- Repetitive deoxyribonucleic acid (DNA) and human genome variation—a concise review relevant to forensic biology** (Fowler, Burgoyne, Scott, and Harding), Sept., 1111
- Shielding capacity of the standard military flak jacket against ballistic injury to the kidney** (O'Connell, Frazier, Clark, Christenson, Keyes, and Josselson), March, 410
- Shotcup petal abrasions in close range .410-caliber shotgun injuries** (Dowling, Dickinson, and Cooke), Jan., 260
- Spectrum of neuropathologic findings in deaths associated with seizure disorders** (Blisard and McFeeley), July 910
- Stability of plasma total cholesterol, triglycerides, and apolipoproteins B and A-I during the early postmortem period** (Särkioja, Ylä-Herttua, Solakivi, Nikkari, and Hirvonen), Nov., 1432
- Sudden death following administration of radio contrast media** (Edelstein), May, 734
- Sudden death in a neonate as a result of herpes simplex infection** (Traisman, Young, Lifschultz, Traisman, Benuck, and Chasnoff), Jan., 267
- Sudden death in mitral valve prolapse** (Scala-Barnett and Donoghue), Jan., 84
- Terminal ballistic characteristics of Hydra-Shok® ammunition: a description of three cases** (Sperry and Sweeney), Jan., 42
- Tests of genetic markers on aborted fetal material** (Reisner, Clark, and Shoffner), Sept., 1262
- Tissue distribution of ethosuximide and clobazam in a seizure related fatality** (Fraser, Isner, and Heifetz), July, 1058
- Tooth mark artifacts and survival of bones in animal scavenged human skeletons** (Haglund, Reay, and Swindler), July, 985
- Traumatic false aneurysm of descending aorta with aortoesophageal fistula** (Swanson and Gaffey), May, 816
- Two-dimensional absorption-inhibition** (Lee, Gaensslen, Pagliaro, and Novitch), Sept., 1127
- Unusual case of child abuse homicide/suicide** (Fain and McCormick), March, 554
- Unusual, deep lingual hemorrhage as a consequence of ligature strangulation** (Sperry), May, 806
- Vaginal fluid zinc concentration as a marker for intercourse** (Rogers, Bernstein, Nakamura, Endahl, and Bhoopat), Jan., 77
- Pedophilia**
- Predicting the effectiveness of treatment for pedophilia** (Rowan), Jan., 204
- Petroleum products**
- Fluorescence of petroleum products III. Three-dimensional fluorescence plots of petrolatum-based products** (Gugel and Siegel), Nov., 1405
- Pharmacokinetics**
- Correlation of plasma concentration and effects of succinylcholine in dogs** (Baldwin and Forney), March, 470
- Phenothiazine**
- Evaluation of sudden death in psychiatric patients with special reference to phenothiazine therapy: forensic pathology** (Laposata, Hale, and Poklis), March, 432
- Phenotyping—see Genetic typing**
- Phenyl-2-propanone**
- Quantitation of phenyl-2-propanone using high-performance liquid chromatography** (Sottolano), Nov., 1415
- Pheochromocytoma**
- Pheochromocytoma and sudden death as a result of cerebral infarction in Turner's syndrome: report of a case** (Knisely, Sweeney, and Ambler), Nov., 1497
- Phosphatases**
- Alternative, effective substrate for erythrocyte acid phosphatase phenotype determinations** (Budowle and Gambel), July, 915
- Vaginal fluid zinc concentration as a marker for intercourse** (Rogers, Bernstein, Nakamura, Endahl, and Bhoopat), Jan., 77
- Phosphoglucomutase**
- Examination of vaginally inserted plastic tampon applicators for genetic markers and evidence of prior sexual intercourse** (Springer, Laber, and Randall), Sept., 1139
- Identification of a phosphoglucomutase 1 (PGM 1) variant in a case of murder/suicide** (Franco and Goetz), July, 1050
- Photocopiers**
- Evolution of questioned-document examination in the last 50 years** (Hilton), Nov., 1310
- Photography**
- Accurate method of focusing for infrared photography** (Rademacher), May, 764
- Bite mark standard reference scale—ABFO No. 2** (Hyzer and Krauss), March, 498
- Processing photographic films by infrared inspection** (Jones), May, 756
- Physical anthropology**
- Age related changes in the human plastron: a roentgenographic and morphologic study** (McCormick and Stewart), Jan., 100
- Alterations in human bones and teeth as a result of restricted sun exposure and contact with corrosive agents** (Ubelaker and Sperber), March, 540
- Confidence intervals for estimates based on linear regression in forensic anthropology** (Giles and Klepinger), Sept., 1218
- Effects of aging on the comparability of antemortem and postmortem radiographs** (Sauer, Brantley, and Barondess), Sept., 1223
- Estimating actual height in the older individual** (Galloway), Jan., 126
- Osteological individuality indicative of migrant**

Physical anthropology (*cont.*)

- citrus laboring (Wienker and Wood), March, 562
- Racial identification from the midfacial skeleton with special reference to American Indians and whites (Gill, Hughes, Bennett, and Gilbert), Jan., 92
- Report on the use of Fully's anatomical method to estimate stature in military skeletal remains (Lundy), March, 534
- Sacralization of a sixth lumbar vertebra and its effect upon the estimation of living stature (Lundy), July, 1045
- Sexing North American Eskimo and Indian innominate bones with acetabulum/pubis index (Schulter-Ellis and Hayek), May, 697
- Use of histomorphology to estimate age (Stout), Jan., 121
- Wilton Marion Krogman, Ph.D. (1903-1987): the end of an era (Işcan), Nov., 1473

Plaster

- Bullet ricochet from gypsum wallboard (Jordan, Bratton, Donahue, and Rowe), Nov., 1477

Poisoning

- Dangerous information: product tampering and poisoning advice in revenge and murder manuals (Dietz), Sept., 1206

Polyethylene

- Alternative methods for processing arson samples in polyester bags (Stackhouse and Gray), March, 515

Polyurethane

- Evaluation of the air bubbles present in polyurethane shoe outsoles as applicable in footwear impression comparisons (Music and Bodziak), Sept., 1185

Polyvinylchloride

- Comparison of black polyvinylchloride (PVC) tapes by pyrolysis gas chromatography (Williams and Munson), Sept., 1163

Poppy seeds

- Gas chromatographic/mass spectrometric analysis of morphine and codeine in human urine of poppy seed eaters (ElSohly, Stanford, Jones, ElSohly, Snyder, and Pedersen) March, 347

Postmortem examinations

- Cardiac blood pH as a possible indicator of postmortem interval (Sawyer, Steup, Martin, and Forney), Nov., 1439
- Causes of death of patients in an institution for the developmentally disabled (Blisard, Martin, Brown, Smialek, Davis, and McFeeley), Nov., 1457
- Determination of cause and mode of death before and after medicolegal autopsy: a comparative study (Seegerberg-Kontinen), March, 441
- Medical evaluation of the victims of the 1986 Lake Nyos disaster (Wagner, Clark, Koenigsberg, and Decata), July, 899
- Postmortem diagnosis of meningococemia by detection of capsular polysaccharides (Challener, Morrissey, and Jacobs), March, 336
- Spectrum of neuropathologic findings in deaths associated with seizure disorders (Blisard and McFeeley), July 910

Postmortem interval

- Autodegradation of deoxyribonucleic acid (DNA) in human rib bone and its relationship to the time interval since death (Perry, Bass, Riggsby, and Sirotkin), Jan., 144
- Cardiac blood pH as a possible indicator of postmortem interval (Sawyer, Steup, Martin, and Forney), Nov., 1439
- Estimation of postmortem interval based on the third component of complement (C3) cleavage (Kominato, Harada, Yamazaki, and Misawa), March, 404
- Tooth mark artifacts and survival of bones in animal scavenged human skeletons (Haglund, Reay, and Swindler), July, 985

Preservation

- Influence of storage temperature and chemical preservation on the stability of succinylcholine in canine tissue (Baldwin and Forney), March, 462

Printing equipment

- Class defects in printwheel typescript (Behrendt), March, 328

Prisons

- Name variation and aspects of body image among male offenders (Harry), Jan., 200

Privacy

- Controversial ethical issues in forensic psychiatry: a survey (Weinstock), Jan., 176
- Presence of counsel at forensic psychiatric examinations (Rachlin and Schwartz), July, 1008

Probability

- Probability analysis and the evidential value of bolt arrangements (Even, Bergman, Springer, and Feingold), Sept., 1278

Product tampering

- Dangerous information: product tampering and poisoning advice in revenge and murder manuals (Dietz), Sept., 1206

Prosthetic devices

- Asphyxial deaths as a result of aspiration of dental appliances: a report of three cases (Adelman), March, 389
- Cardiac injury during valve replacement surgery (Hawley, Kennedy, Pless, Gauger, and Waller), Jan., 276

Protective clothing

- Shielding capacity of the standard military flak jacket against ballistic injury to the kidney (O'Connell, Frazier, Clark, Christenson, Keyes, and Josselson), March, 410

Proteins

- Identification of human urinary stains by enzyme-linked immunosorbent assay for human uromucoid (Tsutsumi, Okajima, Sato, and Katsumato), Jan., 237

Protocols

- Processing protocol for drug residue and latent print evidence (Nielson and Katz), Nov., 1463

Psychiatric injuries

- Claims of psychiatric injury after alleged false arrest (Perr), Jan., 21

Psychiatry

- Child abuse reporting trends: an unprecedented

- threat to confidentiality (Weinstock and Weinstock), March, 418
- Childhood identification and prophylaxis of antisocial personality disorder (Bloomingdale and Bloomingdale), Jan., 187
- Claims of psychiatric injury after alleged false arrest (Perr), Jan., 21
- Controversial ethical issues in forensic psychiatry: a survey (Weinstock), Jan., 176
- High haloperidol concentrations in a traffic suicide (Johnson), May, 823
- Name variation and aspects of body image among male offenders (Harry), Jan., 200
- Predicting the effectiveness of treatment for pedophilia (Rowan), Jan., 204
- Presence of counsel at forensic psychiatric examinations (Rachlin and Schwartz), July, 1008
- Pyrolysis gas chromatography**—*see* Chromatographic analysis

Q-R

Quality assurance

- Determination of cause and mode of death before and after medicolegal autopsy: a comparative study (Segerberg-Konttinen), March, 441

Quartz arc

- Comparison of laser and high-intensity quartz arc tubes in the detection of body secretions (Auvdel), July, 929

Questioned documents

- Accurate method of focusing for infrared photography (Rademacher), May, 764
- Alleged tampering with mail of Dr. Yelena Bonner (Grantham), May, 835
- Class defects in printwheel typescript (Behrendt), March, 328
- Comments on the accelerated aging of ink (Cantu), May, 744
- Computer-aided seal discriminating system, (Tang), July, 969
- Disguised writing: chronic or acute (Franck), May, 727
- Electrostatic detection apparatus (ESDA) and its effects on latent prints on paper (Moore), March, 357
- Erasable felt tip writing instrument detection (Zimmerman, Doherty, and Mooney), May, 709
- Evolution of questioned document examination in the last 50 years (Hilton), Nov., 1310
- Examination of sequence of strokes with an image enhancement system (Schuetzner), Jan., 244
- Laser examination as an additional nondestructive method of ink differentiation (Zimmerman and Mooney), March, 310
- Letter quality impact printer hammer impressions (Anthony), May, 779
- Methylene blue revisited: the search for a trouble-free erasure sensitive powder (Riker and Lewis), May, 773
- Microfilm documents: what are the boundaries in

- document examination (Hanna), Jan., 154
- Study of the handwriting of adolescents (Masson), Jan., 167

- Transmission and reflectance microspectrophotometry of inks (Zeichner, Levin, Klein, and Novoselsky), Sept., 1171

Race determination—*see* Human identification

Radio contrast media

- Sudden death following administration of radio contrast media (Edelstein), May, 734

Radiographs

- Photographic technique for the restoration of damaged radiographs (Dailey and Furue), Sept., 1273

Radioimmunoassay

- Development of a radioimmunoassay technique for the detection of human hemoglobin in dried bloodstains (Quarino and Kobilinsky), Nov., 1369

Rape—*see* Criminal sex offenses

Regional cooperation

- Regional cooperation and regional centers among forensic science programs in the United States (Gaensslen and Lee), July, 1069

Research

- Do forensic science graduate programs fulfill the needs of the forensic science community? (Higgins and Selavka), July, 1015

- Present direction of research in forensic odontology (Katz and Cottone), Nov., 1319

Andrei Sakharov

- Alleged tampering with mail of Dr. Yelena Bonner (Grantham), May, 835

Saliva

- Detection and use of salivary hemagglutinins for forensic blood grouping (Kobilinsky and Harrington), March, 396

- Detection of hemagglutinins in dried saliva stains and their potential use in blood typing (Harrington, Martin, and Kobilinsky), May, 628

Scale (ratio)

- Bite mark standard reference scale—ABFO No. 2 (Hyzer and Krauss), March, 498

Scanning electron microscopy—*see* Microscopy

Seals (personal identification)

- Computer-aided seal discriminating system, (Tang), July, 969

Seizure disorders

- Spectrum of neuropathologic findings in deaths associated with seizure disorders (Blisard and McFeeley), July 910

Semen

- Examination of a contaminated seminal stain using absorption-elution and enzyme-linked immunosorbent assay (ELISA) (Bolton and Thorpe), May, 797

- Examination of vaginally inserted plastic tampon applicators for genetic markers and evidence of prior sexual intercourse (Springer, Laber, and Randall), Sept., 1139

Sep-Pak® C₁₈ cartridges

- Rapid isolation of benzodiazepines with Sep-Pak® C₁₈ cartridges (Suzuki, Seno, and Kumazawa), Sept., 1249

Sequence

Examination of sequence of strokes with an image enhancement system (Schuetzner), Jan., 244

Serology

Detection of hemagglutinins in dried saliva stains and their potential use in blood typing (Harrington, Martin, and Kobilinsky), May, 628

Development of a radioimmunoassay technique for the detection of human hemoglobin in dried bloodstains (Quarino and Kobilinsky), Nov., 1369

Micromethod for MN antigen grouping of dried bloodstains (Berns and Lötterle), Jan., 230

Sex determination—see Human identification

Shotguns

Shotcup petal abrasions in close range .410-caliber shotgun injuries (Dowling, Dickinson, and Cooke), Jan., 260

Skull—see Musculoskeletal system

Sodium hypochlorite

Death from pool chlorine—an unusual case (Rao and Hearn), May, 812

Sodomy—see Criminal sex offenses

Soils

Rapid clay mineralogical analysis for forensic science investigation—clay mineralogy over the short distances (Marumo, Nagatsuka, and Oba), Nov., 1360

Spectrofluorimetry—see Spectroscopic analysis

Spectroscopic analysis—see also Chemical analysis

Assessment of the value of blue, red, and black cotton fibers as target fibers in forensic science investigations (Grieve, Dunlop, and Haddock), Nov., 1332

Classification and discrimination of sheet and container glasses by inductively coupled plasma-atomic emission spectrometry and pattern recognition (Koons, Fiedler, and Rawalt), Jan., 49

Fluorescence of petroleum products III. Three-dimensional fluorescence plots of petrolatum-based products (Gugel and Siegel), Nov., 1405

Fourier transform-infrared (FT-IR) characterization of the ethyl acetate complex of O⁶-acetylmorphine (Beckstead and Neville), Jan., 223

Recovery of latent prints and drug residues from a problem porous surface (Nielson and Katz), Nov., 1506

Transmission and reflectance microspectrophotometry of inks (Zeichner, Levin, Klein, and Novoselsky), Sept., 1171

Stab wounds

Patterns in sharp force fatalities—a comprehensive forensic medical study: Part 2. Suicidal sharp force injury in the Stockholm area 1972–1984 (Karlsson, Ormstad, and Rajs), March 448

Statistical analysis

Confidence intervals for estimates based on linear regression in forensic anthropology (Giles and Klepinger), Sept., 1218

Statistical evaluation of truncated breath-alcohol test measurements (Gullberg), March, 507

Stature determination—see Human identification

Strangulation

Unusual, deep lingual hemorrhage as a consequence of ligature strangulation (Sperry), May, 806

Succinylcholine

Correlation of plasma concentration and effects of succinylcholine in dogs (Baldwin and Forney), March, 470

Influence of storage temperature and chemical preservation on the stability of succinylcholine in canine tissue (Baldwin and Forney), March, 462

Sudden infant death syndrome

Amitriptyline overdose versus sudden infant death syndrome in a two-month-old white female (Perrot), Jan., 272

Sugars

Identification of sugars in explosive residues by gas chromatography-mass spectrometry (Nowicki and Pauling), Sept., 1254

Suicide

Cranial arteriovenous malformation: suicide by exsanguination (Gauger and Herrmann), Jan., 283

High haloperidol concentrations in a traffic suicide (Johnson), May, 823

Identification of a phosphoglucomutase 1 (PGM 1) variant in a case of murder/suicide (Franco and Goetz), July, 1050

Operational criteria for the determination of suicide (Rosenberg, Davidson, Smith, Berman, Buzbee, Gantner, Gay, Moore-Lewis, Mills, Murray, O'Carroll, and Jobes), Nov., 1445

Patterns in sharp force fatalities—a comprehensive forensic medical study: Part 2. Suicidal sharp force injury in the Stockholm area 1972–1984 (Karlsson, Ormstad, and Rajs), March 448

Unusual case of child abuse homicide/suicide (Fain and McCormick), March, 554

Sultana

Ill-fated passenger steamer *Sultana*: an inland maritime mass disaster of unparalleled magnitude (Berryman, Potter, and Oliver), May, 842

Superimposition

Method of orientation of skull and camera for use in forensic photographic investigation (McKenna), May, 751

Surveys

Appropriate educational background for entry level forensic scientists: a survey of practitioners (Siegel), July, 1065

Forensic science laboratory/forensic science program cooperation and relationships: the view from the forensic science laboratory (Lee and Gaensslen), July, 1071

Study of the handwriting of adolescents (Masson), Jan., 167

Symposium

Appropriate educational background for entry level forensic scientists: a survey of practitioners (Siegel), July, 1065

- Forensic science laboratory/forensic science program cooperation and relationships: the view from the forensic science laboratory (Lee and Gaensslen), July, 1071
- Medical model for criminalistics education (Stoney), July, 1086
- Regional cooperation and regional centers among forensic science programs in the United States (Gaensslen and Lee), July, 1069
- Research experience and future criminalists (Smith, Liu, and Lindquist), July, 1074
- Teaching ethics in a forensic science curriculum (Peterson), July, 1061
- Synthetic fibers**
- Dye batch variation in textile fibers (Wiggins, Cook, and Turner), July, 998

T

Teeth—see Dentition

Testimony

Disguised writing: chronic or acute (Franck), May, 727

Therapeutic midadventure

Cardiac injury during valve replacement surgery (Hawley, Kennedy, Pless, Gauger, and Waller), Jan., 276

Thin-layer chromatography—see Chromatographic analysis

Tissues (biology)

Influence of storage temperature and chemical preservation on the stability of succinylcholine in canine tissue (Baldwin and Forney), March, 462

Tongue

Unusual, deep lingual hemorrhage as a consequence of ligature strangulation (Sperry), May, 806

Toolmarks

Examination techniques for determining whether or not a key is an original or a duplicate (Springer, Berman, and Feingold), Nov., 1355

Tooth marks

Tooth mark artifacts and survival of bones in animal scavenged human skeletons (Haglund, Reay, and Swindler), July, 985

Toxicology

Chromatographic and spectroscopic profiles of *Cannabis* of different origins: Part I (Brenneisen and ElSohly), Nov., 1385

Correlation of plasma concentration and effects of succinylcholine in dogs (Baldwin and Forney), March, 470

Dangerous information: product tampering and poisoning advice in revenge and murder manuals (Dietz), Sept., 1206

Designer drugs: past history and future prospects (Henderson), March, 569

Drug use by tractor-trailer drivers (Lund, Preusser, Bomberg, and Williams), May, 648

Epidemic of intravenous narcoticism deaths asso-

ciated with the resurgence of black tar heroin (Sperry), Sept., 1156

Examination of illicit cocaine (LeBelle, Lauriault, Callahan, Latham, Chiarelli, and Beckstead), May, 662

Extractive alkylation and gas chromatographic analysis of sulfide (Kage, Nagata, Kimura, and Kudo), Jan., 217

Fatality involving U4Euh, a cyclic derivative of phenylpropanolamine (Davis and Brewster), March, 549

Fourier transform-infrared (FT-IR) characterization of the ethyl acetate complex of O⁶-acetylmorphine (Beckstead and Neville), Jan., 223

Gas chromatographic/mass spectrometric analysis of morphine and codeine in human urine of poppy seed eaters (ElSohly, Stanford, Jones, ElSohly, Snyder, and Pedersen) March, 347

Heroin, morphine, and hydromorphone determination in postmortem material by high performance liquid chromatography (Sawyer, Waterhouse, Doedens, and Forney), Sept., 1146

High haloperidol concentrations in a traffic suicide (Johnson), May, 823

Identification of nitromethqualone and its differentiation from some positional isomers (Clark), July, 1035

Infant fatality involving ajmaline (Ikeda, Umetsu, Suzuki, Gonmori, and Takahashi), March, 558

Influence of storage temperature and chemical preservation on the stability of succinylcholine in canine tissue (Baldwin and Forney), March, 462

Introduction to Workshop: Designer Drugs (Cravey), March, 568

Medical evaluation of the victims of the 1986 Lake Nyos disaster (Wagner, Clark, Koeningberg, and Decata), July, 899

3,4-Methylenedioxyamphetamines (MDMA) and other amphetamine derivatives (Bost), March, 576

1-Methyl-4-phenyl-1,2,3,6-tetrahydropyridine (MPTP): one designer drug and serendipity (Weingarten), March, 588

Rapid isolation of benzodiazepines with Sep-Pak[®] C₁₈ cartridges (Suzuki, Seno, and Kumazawa), Sept., 1249

Trace evidence

Evidentiary value of the contents of hollow-point bullets (Smith and Harruff), July, 1052

Trauma—see Injuries

Turner's syndrome

Pheochromocytoma and sudden death as a result of cerebral infarction in Turner's syndrome: report of a case (Knisely, Sweeney, and Ambler), Nov., 1497

Typewriters

Class defects in printwheel typescript (Behrendt), March, 328

Evolution of questioned document examination in the last 50 years (Hilton), Nov., 1310

Letter quality impact printer hammer impressions (Anthony), May, 779

U-Z

Urine

Gas chromatographic/mass spectrometric analysis of morphine and codeine in human urine of poppy seed eaters (ElSohly, Stanford, Jones, ElSohly, Snyder, and Pedersen), March, 347

Identification of human urinary stains by enzyme-linked immunosorbent assay for human uromucoid (Tsutsumi, Okajima, Sato, and Katsumato), Jan., 237

Incidence of cannabinoids in medical examiner urine specimens (Isenschmid and Caplan), Nov., 1421

Water-soaked material

Effects of water-soaking on firing distance estimations (Even, Bergman, Springer, and Klein), March, 319

Workshop

Designer drugs: past history and future prospects (Henderson), March, 569

Introduction to Workshop: Designer Drugs (Cravey), March, 568

3,4-Methylenedioxyamphetamine (MDMA) and other amphetamine derivatives (Bost), March, 576

1-Methyl-4-phenyl-1,2,3,6-tetrahydropyridine (MPTP): one designer drug and serendipity (Weingarten), March, 588

Wound ballistics

Comparison of the terminal ballistics of full metal jacket 7.62-mm M80 (NATO) and 5.56-mm

M193 military bullets: a study in ordnance gelatin (Ragsdale and Sohn), May, 676

Evidentiary value of the contents of hollow-point bullets (Smith and Harruff), July, 1052

Shielding capacity of the standard military flak jacket against ballistic injury to the kidney (O'Connell, Frazier, Clark, Christenson, Keyes, and Josselson), March, 410

Shotcup petal abrasions in close range .410-caliber shotgun injuries (Dowling, Dickinson, and Cooke), Jan., 260

Terminal ballistic characteristics of Hydra-Shok® ammunition: a description of three cases (Sperry and Sweeney), Jan., 42

X-ray analysis

Age related changes in the human plastron: a roentgenographic and morphologic study (McCormick and Stewart), Jan., 100

Effects of aging on the comparability of antemortem and postmortem radiographs (Sauer, Brantley, and Barondess), Sept., 1223

Photographic technique for the restoration of damaged radiographs (Dailey and Furue), Sept., 1273

Scanning electron microscopy and electron probe X-ray microanalysis (Ikeda, Watanabe, Harada, and Suzuki), Nov., 1328

Zinc

Vaginal fluid zinc concentration as a marker for intercourse (Rogers, Bernstein, Nakamura, Endahl, and Bhoopat), Jan., 77
