

Journal of Forensic Sciences

Subject Index to Volume 38

1993

A

Abruptio placentae

Blows to the maternal abdomen causing fetal demise: report of three cases and a review of the literature (Ribe, JK, Tegatz, JR, and Harvey, CM), Sept., 1092

Abuse drugs

Evaluation of enzyme immunoassay performance characteristics—phencyclidine example (Fyfe, MJ, Chand, P, McCutchen, C, Long, JS, Walia, AS, Edwards, C, and Liu, RH), Jan., 156

Military drug positive rates in the European Theater drug rates in Europe (Little, JS, Lukey, BJ, Shimomura, ET, and Fuhrmann, LS), March, 259

Two deaths involving isoflurane abuse (Kuhlman, JJ, Jr., Maglulio, J, Jr., Levine, B, and Smith, ML), July, 968

Accidents

Postmortem alcohol production in fatal aircraft accidents (Canfield, DV, Kupiec, T, and Huf-fine, E), July, 914

Adhesive tapes

Collection efficiency of gunshot residue (GSR) particles from hair and hands using double-side adhesive tape (Zeichner, A and Levin, N), May, 571

Adipocere

Experimental observations on adipocere formation (Mellen, PFM, Lowry, MA, and Micozzi, MS), Jan., 91

Age determination—see **Human identification**

Aging

Some new ideas for dating ballpoint inks—a feasibility study (Aginsky, VN), Sept., 1134

Aircraft

Postmortem alcohol production in fatal aircraft accidents (Canfield, DV, Kupiec, T, and Huf-fine, E), July, 914

Alcohol

Accidental death related to cocaine, cocaethylene, and caffeine (Caughlin, LJ and O'Halloran, RL), Nov., 1513

Alcohol in decomposed bodies: postmortem synthesis and distribution (Gilliland, MGF and Bost, RO), Nov., 1266

Disappearance rate of ethanol from the blood of human subjects: implications in forensic toxicology (Jones, AW), Jan., 104

Effect of food on alcohol absorption and elim-

ination patterns (Watkins, RL and Adler, EV), March, 285

Interpretation of low postmortem concentrations of ethanol (Levine, B, Smith, ML, Smialek, JE, and Caplan, YH), May, 663

Postmortem alcohol production in fatal aircraft accidents (Canfield, DV, Kupiec, T, and Huf-fine, E), July, 914

Prevalence of drug and alcohol in fatally injured truck drivers (Crouch, DJ, Birky, MM, Gust, SW, Rollins, DE, Walsh, JM, Moulden, JV, Quinlan, KE, and Beckel, RW), Nov., 1342

Production of urinary ethanol after sample collection (Saady, JJ, Poklis, A, and Dalton, HP), Nov., 1467

Allelic ladder

Multigenerational amplification of a reference ladder for alleles of locus D1S80 (Baechtel, FS, Smerick, JB, Presley, KW, and Budowle, B), Sept., 1176

Aluminum foil

Forensic comparison of household aluminum foils using elemental composition by inductively coupled plasma—atomic emission spectrometry (Koons, RD, Peters, CA, and Merrill, RA), March, 302

Amino acids

Critical evaluation of postmortem changes in human autopsy cisternal fluid, enzymes, electrolytes, acid-base balance, glucose and glycolysis, free amino acids and ammonia. Correlation to total brain ischemia (Kärkelä, JT), May, 603

Amitriptyline

Preliminary observations of the effects of amitriptyline in decomposing tissues on the development of *Parasarcophaga ruficornis* (Diptera: Sarcophagidae) and implications of this effect to estimation of postmortem interval (Goff, ML, Brown, WA, Omori, AI, LaPointe, DA), March, 316

Anthropometric study

Anthropometric study of pedophiles and rapists (Taylor, D, Myers, WC, Robbins, L, and Barnard, GW), July, 765

Aqueous environments

Disappearance of soft tissue and the disarticulation of human remains from aqueous environments (Haglund, WD), July, 806

Aspartic acid racemization

Aspartic acid racemization in intervertebral discs as an aid to postmortem estimation of

Aspartic acid racemization—(cont.)

age at death (Ritz, S and Schultz, H-W), May, 633

Asphyxia

Asphyxial deaths due to hanging in children (Clark, MA, Feczko, JD, Hawley, DA, Pless, JE, Tate, LR, and Fardal, PM), March, 344

Autoerotic fatalities with power hydraulics (O'Halloran, RL and Dietz, PE), March, 359

Assay evaluation

Determination of human immunodeficiency virus antibody status in forensic autopsy cases using a rapid and simple FDA-licensed assay (Li, L, Constantine, NT, Zhang, X, and Smialek, JE), July, 798

Autoeroticism

Autoerotic fatalities with power hydraulics (O'Halloran, RL and Dietz, PE), March, 359

Autopsy—see **Postmortem examinations**

B**B-glucuronidase**

Simultaneous analysis of codeine, morphine, and heroin after B glucuronidase hydrolysis (Zezulak, M, Snyder, JJ, and Needleman, SB), Nov., 1275

Ballistics

Atypical gunshot exit defects to the cranial vault (Smith, OC, Berryman, HE, Symes, SA, Francisco, JT, and Hnilica, V), March, 339

Characteristic features of entrance wounds from hollow-point bullets (Smith, OC, Symes, SA, Berryman, HE, and LeVaughn, MM), March, 323

Effects of human decomposition on bullet striations (Smith, OC, Jantz, L, Berryman, HE, and Symes, SA), May, 593

Gunshot fatalities in Stockholm, Sweden with special reference to the use of illegal weapons (Karlsson, T, Isaksson, B, and Ormstad, K), Nov., 1409

Identification of ammunitions used in a lethal robbery. Comparison between scanning electron microscopy/energy dispersive X-ray analysis (SEM-EDX) and instrumental neutron activation analysis (INAA) measurements (Moauo, A and Falso, G), Sept., 1237

Identification of gunpowder in healed wounds (Smith, OC, Berryman, HE, Symes, SA, and LeVaughn, MM), May, 739

Incredible bouncing bullet: projectile exit through the entrance wound (Grey, TC), Sept., 1222

Lead isotope ratios in lead smears and bullet fragments and application in firearm investigations (Andrasko, J, Kopp, I, Abrink, A, and Skiöld, T), Sept., 1161

Meaning of an accessory projectile (Smith, OC, Berryman, HE, and Symes, SA), March, 484

Range of fire estimates from shotgun pellet patterns: the effect of shell and barrel tempera-

ture (Horvath, F, Gardner, K, and Siegel, J), May, 585

Reduction of specular reflectance on projectiles and toolmarks by ammonium chloride fuming (Rios, FG and Thornton, JJ), July, 840

Basic fuchsin

Basic fuchsin—a guide to a one-step processing technique for black electrical tape (Howard, S), Nov., 1391

Bears

International trade in bear gall bladders: forensic source inference (Espinoza, EO, Shafer, JA, and Hagey, LR), Nov., 1363

Benzene

Acute benzene poisoning: a report of three fatalities (Avis, SP and Hutton, CJ), May, 599

Benzoylcgonine

GC/MS quantitation of benzoylcgonine following liquid-liquid extraction of urine (Gertlits, J), Sept., 1210

Birth

Variation in birth timing and location of the neonatal line in human enamel (Skinner, M and Dupras, T), Nov., 1383

Bite marks

Evaluation of fatal dog bites: the view of the medical examiner and animal behaviorist (Lauridson, JR and Myers, L), May, 726

Blood

Cholinesterase activity in postmortem blood as a screening test for organophosphate/chemical weapon exposure (Klette, KL, Levine, B, Dreka, C, Smith, ML, and Goldberger, BA), July, 950

Effects of argon laser light, alternate source light, and cyanoacrylate fuming on DNA typing of human bloodstains (Shipp, E, Roelofs, R, Togneri, E, Wright, R, Atkinson, D, and Berch, H), Jan., 184

Improved long-term stability of blood cocaine in evacuated collection tubes (Baselt, RC, Yoshikawa, D, Chang, J, and Li, J), July, 935

Modified reagent for the confirmation of blood (Hatch, AL), Nov., 1502

Paternity investigation among known false trios: ABO, Rh, MNSs, Kell, Duffy, Kidd, and HLA systems (Salaru, NNR), Nov., 1482

Rapid dot-blot method for species identification of bloodstains (Matsuzawa, S, Kimura, H, Itoh, Y, Wang, H, and Nakagawa, T), March, 448

Solid phase extraction of morphine from whole blood by means of Bond Elut Certify columns (Chen, X-H, Hommerson, ALC, Zweipfenning, PGM, Franke, J-P, Harmen-Boverhof, CW, and de Zeeuw, RA), May, 668

Blood-alcohol concentrations

Disappearance rate of ethanol from the blood of human subjects: implications in forensic toxicology (Jones, AW), Jan., 104

Interpretation of low postmortem concentrations of ethanol (Levine, B, Smith, ML, Smialek, JE, and Caplan, YH), May, 663

Blood-drug concentrations

Animal model of postmortem amitriptyline redistribution (Hilberg, T, Bugge, A, Beylich, K-M, Ingum, J, Bjørneboe, A, and Mørland, J), Jan., 81

Body fluids

Acute benzene poisoning: a report of three fatalities (Avis, SP and Hutton, CJ), May, 599

Bones—see **Musculoskeletal system** or **Historical human remains**

Book reviews

Advances in Fingerprint Technology by Lee and Gaensslen (Cantu, AA), March, 493

Clinical Psychiatry and the Law by Simon (Berger, SH), May, 745

Criminal Investigation, A Method for Reconstructing the Past by Osterburg and Ward (Fong, W), Jan., 214

Entomology and Death: A Procedural Guide by Catts and Haskell (Olson, CA), May, 747

How to Set Your Fees and Get Them by Kelly (Rowe, WF), May, 742

Instrumental Data for Drug Analysis by Mills et al. (Baselt, RC), May, 744

Journal of Forensic Psychiatry (Perr, IN), Jan., 224

Postmortem Changes in Human and Animal Remains by Micozzi (Bass, WM), Jan., 225

Proceedings of the Taipei International Symposium on Forensic Sciences by Liu and Chen (Lindquist, CA), Jan., 221

Succeeding as an Expert Witness by Feder (Isaac, G), May, 748

Techniques of Crime Scene Investigation, 5th Edition by Fisher (Fitzpatrick, FA), Jan., 219

Bow hunting

Incidence of transient particulate gunshot primer residue in Oregon and Washington bow hunters (Mann, M-J and Espinoza, EO), Jan., 23

Breath alcohol concentration

Effect of food on alcohol absorption and elimination patterns (Watkins, RL and Adler, EV), March, 285

C

Caffeine

Accidental death related to cocaine, cocaethylene, and caffeine (Caughlin, LJ and O'Halloran, RL), Nov., 1513

Cannabinoids—see **Marijuana**

Cations

Analysis of mono- and divalent cations present in explosive residues using ion chromatography with conductivity detection (Hall, KE and McCord, BR), July, 928

Cerebral vasculitis

Cerebral vasculitis associated with cocaine abuse (Morrow, PL and McQuillen, JB), May, 732

Chemical analysis

Application of capillary gas chromatography-

electron capture detection in the comparative analyses of illicit cocaine samples (Moore, JM and Cooper, DA), Nov., 1286

Automated data analysis of fire debris samples using gas chromatography-mass spectrometry and macro programming (Nowicki, J), Nov., 1354

Method comparison of EMIT II and On Line with RIA for drug screening (Armbruster, DA, Schwarzhoff, RH, Pierce, BL, and Hubster, ED), Nov., 1326

Military drug positive rates in the European Theater drug rates in Europe (Little, JS, Luky, BJ, Shimomura, ET, and Fuhrmann, LS), March, 259

Chemical warfare

Cholinesterase activity in postmortem blood as a screening test for organophosphate/chemical weapon exposure (Klette, KL, Levine, B, Dreka, C, Smith, ML, and Goldberger, BA), July, 950

Children

Asphyxial deaths due to hanging in children (Clark, MA, Feczko, JD, Hawley, DA, Pless, JE, Tate, LR, and Fardal, PM), March, 344

Infant death in San Francisco 1989-1990 (Castiglione, AG, Greenwald, M, and Stephens, BG), July, 821

Invasive *Haemophilus influenzae* type b disease (Tepper, SL, Overman, J, and Parker, JR), Jan., 94

Chlorodifluoromethane

Fatality due to recreational use of chlorodifluoromethane and chloropentafluoroethane (Fitzgerald, RL, Fishel, CE, and Bush, LLE), March, 477

Chloropentafluoroethane

Fatality due to recreational use of chlorodifluoromethane and chloropentafluoroethane (Fitzgerald, RL, Fishel, CE, and Bush, LLE), March, 477

Cholinesterase

Cholinesterase activity in postmortem blood as a screening test for organophosphate/chemical weapon exposure (Klette, KL, Levine, B, Dreka, C, Smith, ML, and Goldberger, BA), July, 950

Chromatographic analysis

Analysis of mono- and divalent cations present in explosive residues using ion chromatography with conductivity detection (Hall, KE and McCord, BR), July, 928

Comparative examination of inks by using instrumental thin-layer chromatography and microspectrophotometry (Aginsky, VN), Sept., 1111

HPLC analysis of printing inks (Löfgren, A and Andrasko, J), Sept., 1151

Improvement of pyrolysis gas chromatography for the differentiation of photocopy toners (Chang, W-T, Huang, C-W, and Giang, Y-S), July, 843

Incidence of psychoactive cannabinoids in driv-

Chromatographic analysis—(cont.)

- ers killed in motor vehicle accidents (Geros-tamoulos, J and Drummer, OH), May, 549
- Investigations of thin layer chromatographic techniques used for forensic explosives analysis in the early 1970s (Hiley, RW), July, 864

Clinical forensic evaluations

- Development and implementation of the first clinical forensic medicine training program (Smock, WS, Nichols, GR, II, and Fuller, PM), July, 835

Cocacethylene

- Accidental death related to cocaine, cocaethylene, and caffeine (Caughlin, LJ and O'Halloran, RL), Nov., 1513

Cocaine

- Accidental death related to cocaine, cocaethylene, and caffeine (Caughlin, LJ and O'Halloran, RL), Nov., 1513
- Analysis of phencyclidine and cocaine in human hair by tandem mass spectrometry (Kidwell, DA), March, 272
- Anatomy of a cocaine comparison case: a prosecutorial and chemistry perspective (Moore, JM, Meyers, RP, and Jimenez, MD), Nov., 1305
- Application of capillary gas chromatography-electron capture detection in the comparative analyses of illicit cocaine samples (Moore, JM and Cooper, DA), Nov., 1286
- Cerebral vasculitis associated with cocaine abuse (Morrow, PL and McQuillen, JB), May, 732
- Computerized neural network method for pattern recognition of cocaine signatures (Casale, JF and Watterson, JW), March, 292
- GC/MS quantitation of benzoylecgonine following liquid-liquid extraction of urine (Gerlits, J), Sept., 1210
- Improved long-term stability of blood cocaine in evacuated collection tubes (Baselt, RC, Yoshikawa, D, Chang, J, and Li, J), July, 935
- Prevalence of drug and alcohol in fatally injured truck drivers (Crouch, DJ, Birky, MM, Gust, SW, Rollins, DE, Walsh, JM, Moulden, JV, Quinlan, KE, and Beckel, RW), Nov., 1342

Collection tubes

- Improved long-term stability of blood cocaine in evacuated collection tubes (Baselt, RC, Yoshikawa, D, Chang, J, and Li, J), July, 935

Colloid cysts

- Sudden and unexpected death in childhood due to a colloid cyst of the third ventricle (Byard, RW and Moore, L), Jan., 210

Colors (materials)

- Technique for comparing soil colors in the forensic laboratory (Antoci, PR and Petraco, N), March, 437

Comparative analysis

- Comparative examination of inks by using instrumental thin-layer chromatography and microspectrophotometry (Aginsky, VN), Sept., 1111
- Computer aided retrieval of common-batch

members in Leuckart amphetamine profiling (Jonson, CSL and Strömberg, L), Nov., 1472

Competency

- Competency, civil commitment, and the dangerousness of the mentally ill (Bittman, BJ and Convit, A), Nov., 1460
- Disposition of criminal charges after involuntary medication to restore competency to stand trial (Ladds, B, Convit, A, Zito, J, and Vitrai, J), Nov., 1442

Computerized tomography—see Tomography**Computers**

- Computer aided retrieval of common-batch members in Leuckart amphetamine profiling (Jonson, CSL and Strömberg, L), Nov., 1472
- Computer program for the estimation of time of death (Lynnerup, N), July, 816
- Computerized neural network method for pattern recognition of cocaine signatures (Casale, JF and Watterson, JW), March, 292
- Image enhancement for document examination using the personal computer (Houde, J), Jan., 143
- Testing of the National Crime Information Center missing/unidentified persons computer comparison routine (Bell, GL), Jan., 13

Condoms

- Condom—the critical link in a rape (Brauner, P and Gallili, N), Sept., 1233

Controlled substances

- Representative sampling of "street" drug exhibits (Cólón, M, Rodríguez, G, and Díaz, RO), May, 641

Coronary artery system

- Sudden out-of-hospital coronary death in patients with no previous cardiac history. An analysis of 221 patients studied at autopsy (Fornes, P, Lecomte, D, and Nicolas, G), Sept., 1084

Cranimetry

- Victim selection in the Jeffrey Dahmer slayings: an example of repetition in the paraphilias? (Bennett, KA), Sept., 1227

Cremins

- Analysis of cremins: a case study involving the inappropriate disposal of mortuary remains (Murray, KA and Rose, JC), Jan., 98

Cremation

- Analysis of cremins: a case study involving the inappropriate disposal of mortuary remains (Murray, KA and Rose, JC), Jan., 98
- Identification of the fragmentary, burned remains of two U.S. journalists seven years after their disappearance in Guatemala (Owsley, DW), Nov., 1372

Criminal sex offenses

- Anthropometric study of pedophiles and rapists (Taylor, D, Myers, WC, Robbins, L, and Barnard, GW), July, 765
- Comparison of sexual victimization in the childhoods of pedophiles and hebephiles (Greenberg, DM, Bradford, JMW, and Curry, S), March, 432

- Condom—the critical link in a rape (Brauner, P and Gallili, N), Sept., 1233
- Correlates of sex offender and offense traits by victim age (Harry, B, Pierson, TR, and Kuznetsov, A), Sept., 1068
- Criminalistics**
- Abrasive cutting of a safe: a case study (Zeichner, A, Feingold, G, and Landau, E), Nov., 1516
- Anatomy of a cocaine comparison case: a procedural and chemistry perspective (Moore, JM, Meyers, RP, and Jimenez, MD), Nov., 1305
- Atypical gunshot exit defects to the cranial vault (Smith, OC, Berryman, HE, Symes, SA, Francisco, JT, and Hnilica, V), March, 339
- Characteristic features of entrance wounds from hollow-point bullets (Smith, OC, Symes, SA, Berryman, HE, and LeVaughn, MM), March, 323
- Computer interfaced time-resolved luminescence imaging system (Murdock, RH and Menzel, ER), May, 521
- Computerized neural network method for pattern recognition of cocaine signatures (Casale, JF and Watterson, JW), March, 292
- Deoxyribonuclease I (DNase I) typing from semen stains: low enzyme activity in vaginal fluids does not interfere with seminal DNase I typing from mixture stains (Sawazaki, K, Yasuda, T, Nadano, D, Iida, R, Takeshita, H, Uchide, K, and Kishi, K), Sept., 1051
- Detection of trace explosive evidence by ion mobility spectrometry (Fetterolf, DD and Clark TD), Jan., 28
- Forensic comparison of household aluminum foils using elemental composition by inductively coupled plasma—atomic emission spectrometry (Koons, RD, Peters, CA, and Merrill, RA), March, 302
- Gang-related homicides in Los Angeles County (Rogers, C), July, 831
- Gunshot fatalities in Stockholm, Sweden with special reference to the use of illegal weapons (Karlsson, T, Isaksson, B, and Ormstad, K), Nov., 1409
- Homogenization of illicit heroin samples: an empirical and statistical approach (Chow, ST, Lee, TK, Saw, CG, Soon, TW, and Ng, TL), July, 885
- Iceman murder: one of a series of contract murders (Zugibe, FT and Costello, JT), Nov., 1404
- Identification of gunpowder in healed wounds (Smith, OC, Berryman, HE, Symes, SA, and LeVaughn, MM), May, 739
- Incredible bouncing bullet: projectile exit through the entrance wound (Grey, TC), Sept., 1222
- International trade in bear gall bladders: forensic source inference (Espinoza, EO, Shafer, JA, and Hagey, LR), Nov., 1363
- Investigations of thin layer chromatographic techniques used for forensic explosives analysis in the early 1970s (Hiley, RW), July, 864
- Lead isotope ratios in lead smears and bullet fragments and application in firearm investigations (Andrasko, J, Kopp, I, Abrink, A, and Skiöld, T), Sept., 1161
- Magnetic flake powders for fingerprint development (James, JD, Pounds, CA, and Wilshire, B), March, 391
- Modified reagent for the confirmation of blood (Hatch, AL), Nov., 1502
- Reduction of specular reflectance on projectiles and toolmarks by ammonium chloride fuming (Rios, FG and Thornton, JJ), July, 840
- Representative sampling of "street" drug exhibits (Colón, M, Rodríguez, G, and Díaz, RO), May, 641
- Spectroscopy of rare earth-Ruhemann's purple complexes (Mekkaoui, AI and Menzel, ER), May, 506
- Technique for developing and photographing ridge impressions on decomposed water-soaked fingers (Keating, DM and Miller, JJ), Jan., 197
- Cutting**
- Abrasive cutting of a safe: a case study (Zeichner, A, Feingold, G, and Landau, E), Nov., 1516
- Cyanide**
- Poisonings associated with cyanide in over the counter cold medication in Washington State, 1991 (Logan, B, Howard, J, and Kiesel, EL), March, 472
- Product tampering crime: a review (Logan, B), July, 918
- Cyanoacrylate ester**
- Cyanoacrylate adhesive technique in wound edge approximation (Prahlow, JA and Lantz, PE), Nov., 1507
- D**
- Dahmer, Jeffrey**
- Victim selection in the Jeffrey Dahmer slayings: an example of repetition in the paraphilias? (Bennett, KA), Sept., 1227
- Dangerousness**
- Delusional misidentification and dangerousness: a neurobiologic hypothesis (Silva, JA, Leong, GB, Weinstock, R, and Wine, DB), July, 904
- Psychotic patient as security guard (Silva, JA, Leong, GB, and Weinstock, R), Nov., 1436
- Darkrooms**
- Video darkroom for the document examiner (Angstrom, N, Bergstedt, H, and Warensjoe, L), March, 466
- Dating**
- Problems with the dating of a Polaroid SX-70 photograph (Davis, NA), Sept., 1243
- Death**
- Autoerotic fatalities with power hydraulics (O'Halloran, RL and Dietz, PE), March, 359

Death—(cont.)

Deaths caused by lightning (Lifschultz, BD and Donoghue, ER), March, 353

Detection of fatal therapeutic misadventures by an urban medico-legal system (Perper, JA, Kuller, LH, and Shim, YK), March, 327

Evaluation of fatal dog bites: the view of the medical examiner and animal behaviorist (Lauridson, JR and Myers, L), May, 726

Fatal intoxication involving etryptamine (Morano, RA, Spies, C, Walker, FB, and Plank, SM), May, 721

Fatality due to recreational use of chlorodifluoromethane and chloropentafluoroethane (Fitzgerald, RL, Fishel, CE, and Bush, LLE), March, 477

Histiocytoid cardiomyopathy: case report and literature review (Prahlow, JA and Teot, LA), Nov., 1427

Infant death in San Francisco 1989–1990 (Castiglione, AG, Greenwald, M, and Stephens, BG), July, 821

Isolated myocardial fibrosis as a cause of sudden cardiac death and its possible relation to myocarditis (Lecomte, D, Fornes, P, Fouret, P, and Nicolas, G), May, 617

Sudden and unexpected death in childhood due to a colloid cyst of the third ventricle (Byard, RW and Moore, L), Jan., 210

Sudden death due to ruptured hydatid cyst of the liver (Kök, AN, Yurtman, T, and Aydin, NE), July, 978

Sudden out-of-hospital coronary death in patients with no previous cardiac history. An analysis of 221 patients studied at autopsy (Fornes, P, Lecomte, D, and Nicolas, G), Sept., 1084

Two deaths involving isoflurane abuse (Kuhlman, JJ, Jr., Maglulio, J, Jr., Levine, B, and Smith, ML), July, 968

Death investigation laws

Death investigation in the United States, 1990: a survey of statutes, systems, and educational requirements (Hanzlick, R, Combs, D, Parrish, RG, and Ing, RT), May, 628

Decomposition

Alcohol in decomposed bodies: postmortem synthesis and distribution (Gilliland, MGF and Bost, RO), Nov., 1266

Disappearance of soft tissue and the disarticulation of human remains from aqueous environments (Haglund, WD), July, 806

Effects of human decomposition on bullet striations (Smith, OC, Jantz, L, Berryman, HE, and Symes, SA), May, 593

Observations of differential decomposition on sun exposed v. shaded pig carrion in coastal Washington State (Shean, BS, Messinger, L, and Papworth, M), July, 938

Use of hydrogen peroxide to visualize tattoos obscured by decomposition and mummification (Haglund, WD and Sperry, K), Jan., 147

Demography

Comparative study of erotomanic and obses-

sional subjects in a forensic sample (Zona, MA, Sharma, KK, and Lane, J), July, 894

Dental age

A.B.F.O. study of third molar development and its use as an estimator of chronological age (Mincer, HH, Harris, EF, and Berryman, HE), March, 379

Dental pulp

Transferrin subtyping in dental pulps (Kido, A, Kimura, Y, and Oya, M), Sept., 1063

Dentition

A.B.F.O. study of third molar development and its use as an estimator of chronological age (Mincer, HH, Harris, EF, and Berryman, HE), March, 379

ABO blood grouping on dental tissue (Xu, X, Liao, J, Fang, H, Li, M, and Liu, Z), July, 956

Systematic approach to the sampling of dental DNA (Smith, BC, Fisher, DL, Weedn, VW, Warnock, GR, and Holland, MM), Sept., 1194

Variation in birth timing and location of the neonatal line in human enamel (Skinner, M and Dupras, T), Nov., 1383

Deoxyribonuclease I (DNase I)

Deoxyribonuclease I (DNase I) typing from semen stains: low enzyme activity in vaginal fluids does not interfere with seminal DNase I typing from mixture stains (Sawazaki, K, Yasuda, T, Nadano, D, Iida, R, Takeshita, H, Uchida, K, and Kishi, K), Sept., 1051

Dipropionylmorphine

Simultaneous analysis of codeine, morphine, and heroin after B glucuronidase hydrolysis (Zezulak, M, Snyder, JJ, and Needleman, SB), Nov., 1275

Disarticulation

Disappearance of soft tissue and the disarticulation of human remains from aqueous environments (Haglund, WD), July, 806

DNA

Development of DNA profiling database in an HAE III based RFLP system for Chinese, Malays, and Indians in Singapore (Chow, ST, Tan, WF, Yap, KH, and Ng, TL), July, 874

Direct sequencing of the human protamine P1 gene and application in forensic medicine (Queralt, R, de Fàbregues-Boixar, O, Adroer, R, Gené, M, Gómez-Catalán, J, Huguet, E, and Oliva, R), Nov., 1491

Effect of nonoxinol-9 on the ability to obtain DNA profiles from postcoital vaginal swabs (Hochmeister, MN, Budowle, B, Borer, UV, and Dirnhofer, R), March, 442

Extraction, evaluation, and amplification of DNA from decalcified and undecalcified United States Civil War bone (Fisher, DL, Holland, MM, Mitchell, L, Sledzik, PS, Wilcox, AW, Wadhams, M, and Weedn, VW), Jan., 60

Genetic typing of HLA Class II genes in Swedish populations: application to forensic anal-

- ysis (Allen, M, Saldeen, T, Pettersson, U, and Gyllensten, U), May, 554
- Identification of human DNA in complex biological samples using the Alu polymerase chain reaction (Tsongalis, GJ, Coleman, WB, Esch, GL, Smith, GJ, and Kaufman, DG), July, 961
- Microbial DNA challenge studies of variable number tandem repeat (VNTR) probes used for DNA profiling analysis (Webb, MBT, Williams, NJ, and Sutton, MD), Sept., 1172
- Mitochondrial DNA sequence analysis of human skeletal remains: identification of remains from the Vietnam War (Holland, MM, Fisher, DL, Mitchell, LG, Rodriguez, WC, Canik, JJ, Merrill, CR, and Weedn, VW), May, 542
- Purification of forensic specimens for the polymerase chain reaction (PCR) analysis (Akane, A, Shiono, H, Matsubara, K, Nakamura, H, Hasegawa, M, and Kagawa, M), May, 691
- Systematic approach to the sampling of dental DNA (Smith, BC, Fisher, DL, Weedn, VW, Warnock, GR, and Holland, MM), Sept., 1194
- DNA fingerprinting**
- Application of DNA fingerprinting to enforcement of hunting regulations in Ontario (Gulich, EA, Wilson, PJ, and White BN), Jan., 48
- DNA fingerprinting from tissues after variable postmortem periods (Ludes, B, Pfitzinger, H, and Mangin, P), May, 686
- Dog bites**
- Evaluation of fatal dog bites: the view of the medical examiner and animal behaviorist (Lauridson, JR and Myers, L), May, 726
- Domestic abuse**
- Blows to the maternal abdomen causing fetal demise: report of three cases and a review of the literature (Ribe, JK, Teggatz, JR, and Harvey, CM), Sept., 1092
- Doxylamine**
- Documentation of a doxylamine overdose death: quantitation by standard addition and use of three instrumental techniques (Siek, TJ and Dunn, WA), May, 713
- Dried agarose film overlay (DAFO) method**
- Deoxyribonuclease I (DNase I) typing from semen stains: low enzyme activity in vaginal fluids does not interfere with seminal DNase I typing from mixture stains (Sawazaki, K, Yasuda, T, Nadano, D, Iida, R, Takeshita, H, Uchide, K, and Kishi, K), Sept., 1051
- Drowning**
- Suicidal drowning (Avis, SP), Nov., 1422
- Drug screening**
- Computer aided retrieval of common-batch members in Leuckart amphetamine profiling (Jonson, CSL and Strömberg, L), Nov., 1472
- Method comparison of EMIT II and On Line with RIA for drug screening (Armbruster, DA, Schwarzhoff, RH, Pierce, BL, and Hubster, ED), Nov., 1326

E

Editorial

Farewell, Dr. Dominguez (Gaensslen, RE), Jan., 5

Education

Development and implementation of the first clinical forensic medicine training program (Smock, WS, Nichols, GR, II, and Fuller, PM), July, 835

Electrical tape

Basic fuchsia—a guide to a one-step processing technique for black electrical tape (Howard, S), Nov., 1391

Electricity

Deaths caused by lightning (Lifschultz, BD and Donoghue, ER), March, 353

Electrocution

Deaths caused by lightning (Lifschultz, BD and Donoghue, ER), March, 353

Electrolytes

Critical evaluation of postmortem changes in human autopsy cisternal fluid, enzymes, electrolytes, acid-base balance, glucose and glycolysis, free amino acids and ammonia. Correlation to total brain ischemia (Kärkelä, JT), May, 603

Electrophoresis

Multigenerational amplification of a reference ladder for alleles of locus D1S80 (Baechtel, FS, Smerick, JB, Presley, KW, and Budowle, B), Sept., 1176

Elemental analysis

Forensic comparison of household aluminum foils using elemental composition by inductively coupled plasma—atomic emission spectrometry (Koons, RD, Peters, CA, and Merrill, RA), March, 302

ELISA—see Immunoassay**Enamel**

Variation in birth timing and location of the neonatal line in human enamel (Skinner, M and Dupras, T), Nov., 1383

Endomyocardial fibrosis

Endomyocardial fibrosis in a scuba diving death (Obafunwa, JO, Purdue, B, and Busuttill, A), Sept., 1215

Entomology

Effect of killing and preservative solutions on estimates of maggot age in forensic cases (Tantawi, TI and Greenberg, B), May, 702

Observations of differential decomposition on sun exposed v. shaded pig carrion in coastal Washington State (Shean, BS, Messinger, L, and Papworth, M), July, 938

Preliminary observations of the effects of amitriptyline in decomposing tissues on the development of *Parasarcophaga ruficornis* (Diptera: Sarcophagidae) and implications of this effect to estimation of postmortem inter-

Entomology—(cont.)

val (Goff, ML, Brown, WA, Omori, AI, and LaPointe, DA), March, 316

Enzyme immunoassay—see **Immunoassay****Enzymes**

Critical evaluation of postmortem changes in human autopsy cisternal fluid, enzymes, electrolytes, acid-base balance, glucose and glycolysis, free amino acids and ammonia. Correlation to total brain ischemia (Kärkelä, JT), May, 603

Epidemiology

Sudden out-of-hospital coronary death in patients with no previous cardiac history. An analysis of 221 patients studied at autopsy (Fomes, P, Lecomte, D, and Nicolas, G), Sept., 1084

Erotomania

Comparative study of erotomaniac and obsessional subjects in a forensic sample (Zona, MA, Sharma, KK, and Lane, J), July, 894

Esterase D

Simultaneous subtyping of group specific component and esterase D by isoelectric focusing on agarose gels (Miller, SA, Stern, CM, and Schanfield, MS), Nov., 1488

Ethanol—see **Alcohol****Etryptamine**

Fatal intoxication involving etryptamine (Morano, RA, Spies, C, Walker, FB, and Plank, SM), May, 721

Explosives

Analysis of mono- and divalent cations present in explosive residues using ion chromatography with conductivity detection (Hall, KE and McCord, BR), July, 928

Detection of trace explosive evidence by ion mobility spectrometry (Fetterolf, DD and Clark TD), Jan., 28

Investigations of thin layer chromatographic techniques used for forensic explosives analysis in the early 1970s (Hiley, RW), July, 864

Extraction

Solid phase extraction of morphine from whole blood by means of Bond Elut Certify columns (Chen, X-H, Hommerson, ALC, Zweipfenning, PGM, Franke, J-P, Harmen-Boverhof, CW, and de Zeeuw, RA), May, 668

Study of the extraction of LSD from illicit blotters for HPLC determination (Veress, T), Sept., 1105

F**Fermentation**

Production of urinary ethanol after sample collection (Saady, JJ, Poklis, A, and Dalton, HP), Nov., 1467

Fetal death

Blows to the maternal abdomen causing fetal demise: report of three cases and a review of the literature (Ribe, JK, Teggatz, JR, and Harvey, CM), Sept., 1092

Fingerprints

Basic fuchsin—a guide to a one-step processing technique for black electrical tape (Howard, S), Nov., 1391

Computer interfaced time-resolved luminescence imaging system (Murdock, RH and Menzel, ER), May, 521

Effects of specific latent fingerprint and questioned document examinations on the amplification and typing of the HLA DQ alpha gene region in forensic casework (Presley, LA, Baumstark, AL, and Dixon, A), Sept., 1028

Magnetic flake powders for fingerprint development (James, JD, Pounds, CA, and Wilshire, B), March, 391

Novel approach to Fourier spectral enhancement of laser-luminescent fingerprint images (Kaymaz, E and Mitra, S), May, 530

Spectroscopy of rare earth-Ruhemann's purple complexes (Mekkaoui, AI and Menzel, ER), May, 506

Technique for developing and photographing ridge impressions on decomposed water-soaked fingers (Keating, DM and Miller, JJ), Jan., 197

Fire debris analysis

Multiple analysis of fire debris samples using passive headspace concentration (Waters, LV and Palmer, LA), Jan., 165

Fires

Automated data analysis of fire debris samples using gas chromatography-mass spectrometry and macro programming (Nowicki, J), Nov., 1354

Forensic science

Analysis of mono- and divalent cations present in explosive residues using ion chromatography with conductivity detection (Hall, KE and McCord, BR), July, 928

Application of capillary gas chromatography-electron capture detection in the comparative analyses of illicit cocaine samples (Moore, JM and Cooper, DA), Nov., 1286

Automated data analysis of fire debris samples using gas chromatography-mass spectrometry and macro programming (Nowicki, J), Nov., 1354

Basic fuchsin—a guide to a one-step processing technique for black electrical tape (Howard, S), Nov., 1391

Collection efficiency of gunshot residue (GSR) particles from hair and hands using double-side adhesive tape (Zeichner, A and Levin, N), May, 571

Computer program for the estimation of time of death (Lynnerup, N), July, 816

Cyanoacrylate adhesive technique in wound edge approximation (Prahlow, JA and Lantz, PE), Nov., 1507

Development and implementation of the first clinical forensic medicine training program (Smock, WS, Nichols, GR, II, and Fuller, PM), July, 835

- Effect of killing and preservative solutions on estimates of maggot age in forensic cases (Tantawi, TI and Greenberg, B), May, 702
- Effects of argon laser light, alternate source light, and cyanoacrylate fuming on DNA typing of human bloodstains (Shipp, E, Roelofs, R, Togneri, E, Wright, R, Atkinson, D, and Berch, H), Jan., 184
- Effects of human decomposition on bullet striations (Smith, OC, Jantz, L, Berryman, HE, and Symes, SA), May, 593
- Evaluation of fatal dog bites: the view of the medical examiner and animal behaviorist (Lauridson, JR and Myers, L), May, 726
- Examination of random weld bead flow patterns on welding slag and comparison of these patterns to the flow patterns present on welded surfaces (Krone, CS), July, 1008
- Forensic autopsies in Italy (Castiglione, AG and Lomi, A), May, 622
- Identification of ammunitions used in a lethal robbery. Comparison between scanning electron microscopy/energy dispersive X-ray analysis (SEM-EDX) and instrumental neutron activation analysis (INAA) measurements (Moauo, A and Falso, G), Sept., 1237
- Multiple analysis of fire debris samples using passive headspace concentration (Waters, LV and Palmer, LA), Jan., 165
- National Crime Information Center (NCIC) missing and unidentified persons system revisited (Haglund, WD), March, 365
- Novel approach to Fourier spectral enhancement of laser-luminescent fingerprint images (Kaymaz, E and Mitra, S), May, 530
- Observations of differential decomposition on sun exposed v. shaded pig carrion in coastal Washington State (Shean, BS, Messinger, L, and Papworth, M), July, 938
- Range of fire estimates from shotgun pellet patterns: the effect of shell and barrel temperature (Horvath, F, Gardner, K, and Siegel, J), May, 585
- Study of the extracton of LSD from illicit blot- ters for HPLC determination (Veress, T), Sept., 1105
- Technique for comparing soil colors in the forensic laboratory (Antoci, PR and Petraco, N), March, 437
- Use of hydrogen peroxide to visualize tattos obscured by decomposition and mummification (Haglund, WD and Sperry, K), Jan., 147
- Forgery**
- Forgery I—simulation (Leung, SC, Cheng, YS, Fung, HT, and Poon, NL), March, 402
- Forgery II—tracing (Leung, SC, Fung, HT, Cheng, YS, and Poon, NL), March, 413
- HPLC analysis of printing inks (Löfgren, A and Andrasko, J), Sept., 1151
- Fracture**
- Atypical gunshot exit defects to the cranial vault (Smith, OC, Berryman, HE, Symes, SA, Francisco, JT, and Hnilica, V), March, 339

Fragmentation

- Positive identification in a case of intentional extreme fragmentation (Owsley, DW, Mann, RW, Chapman, RE, Moore, E, and Cox, WA), July, 985

Freon

- Fatality due to recreational use of chlorodifluoromethane and chloropentafluorethane (Fitzgerald, RL, Fishel, CE, and Bush, LLE), March, 477

FTIR—see Spectroscopic analysis**G****Ganser syndrome**

- Child stealing by cesarean section: a psychiatric case report and review of the child stealing literature (Yutzy, SH, Wolfson, JK, and Resnick, PJ), Jan., 192

Gas chromatography—see Chromatographic analysis**Gas chromatography/ mass spectrometry—see Chemical analysis****Genetic typing**

- Comparison of the fixed bin method with the floating bin and direct count methods: effect of VNTR profile frequency estimation and reference population (Monson, KL and Budowle, B), Sept., 1037
- Development of DNA profiling database in an HAE III based RFLP system for Chinese, Malays, and Indians in Singapore (Chow, ST, Tan, WF, Yap, KH, and Ng, TL), July, 874
- Direct sequencing of the human protamine P1 gene and application in forensic medicine (Queralt, R, de Fàbregues-Boixar, O, Adroer, R, Gené, M, Gómez-Catalán, J, Hugué, E, and Oliva, R), Nov., 1491
- Effects of argon laser light, alternate source light, and cyanoacrylate fuming on DNA typing of human bloodstains (Shipp, E, Roelofs, R, Togneri, E, Wright, R, Atkinson, D, and Berch, H), Jan., 184
- Evaluation of HLA in detection of non-parentage among known false trios (Salaru, NNR), Nov., 1478
- Genetic typing of HLA Class II genes in Swedish populations: application to forensic analysis (Allen, M, Saldeen, T, Pettersson, U, and Gyllensten, U), May, 554
- Microbial DNA challenge studies of variable number tandem repeat (VNTR) probes used for DNA profiling analysis (Webb, MBT, Williams, NJ, and Sutton, MD), Sept., 1172
- Paternity investigation among known false trios: ABO, Rh, MNSs, Kell, Duffy, Kidd, and HLA systems (Salaru, NNR), Nov., 1482
- PCR amplification and typing of the HLA DQ α gene in forensic samples (Comey, CT, Budowle, B, Adams, DE, Baumstark, AL, Lindsey, JA, and Presley, LA), March, 239

Genetic typing—(cont.)

Simplified method for phenotyping alpha-2-HS-glycoprotein (López-Abadía, I and Ruiz de la Cuesta, JM), Sept., 1183

Glycolysis

Critical evaluation of postmortem changes in human autopsy cisternal fluid, enzymes, electrolytes, acid-base balance, glucose and glycolysis, free amino acids and ammonia. Correlation to total brain ischemia (Kärkelä, JT), May, 603

Group specific component

Simultaneous subtyping of group specific component and esterase D by isoelectric focusing on agarose gels (Miller, SA, Stern, CM, and Schanfield, MS), Nov., 1488

Gunshot residues

Collection efficiency of gunshot residue (GSR) particles from hair and hands using double-side adhesive tape (Zeichner, A and Levin, N), May, 571

Identification of ammunitions used in a lethal robbery. Comparison between scanning electron microscopy/energy dispersive X-ray analysis (SEM-EDX) and instrumental neutron activation analysis (INAA) measurements (Moauro, A and Falso, G), Sept., 1237

Incidence of transient particulate gunshot primer residue in Oregon and Washington bow hunters (Mann, M-J and Espinoza, EO), Jan., 23

Gunshot wounds—see **Wound ballistics****H****Haemophilus influenzae** type b

Invasive *Haemophilus influenzae* type b disease (Tepper, SL, Overman, J, and Parker JR), Jan., 94

Hair

Analysis of phencyclidine and cocaine in human hair by tandem mass spectrometry (Kidwell, DA), March, 272

Collection efficiency of gunshot residue (GSR) particles from hair and hands using double-side adhesive tape (Zeichner, A and Levin, N), May, 571

Nicotine analysis in neonates' hair for measuring gestational exposure to tobacco (Kintz, P, Kieffer, I, Messer, J, and Mangin, P), Jan., 119

Opiate concentrations in human head, axillary, and pubic hair (Kintz, P and Mangin, P), May, 657

Handwriting

Forgery I—simulation (Leung, SC, Cheng, YS, Fung, HT, and Poon, NL), March, 402

Forgery II—tracing (Leung, SC, Fung, HT, Cheng, YS, and Poon, NL), March, 413

Hanging

Asphyxial deaths due to hanging in children (Clark, MA, Feczko, JD, Hawley, DA, Pless, JE, Tate, LR, and Fardal, PM), March, 344

Hebephilia

Comparison of sexual victimization in the childhoods of pedophiles and hebephiles (Greenberg, DM, Bradford, JMW, and Curry, S), March, 432

Hemorrhage

Scleral and conjunctival hemorrhages arising from a gunshot wound to the chest: a case report (Sperry, K), Jan., 203

Heroin

Homogenization of illicit heroin samples: an empirical and statistical approach (Chow, ST, Lee, TK, Saw, CG, Soon, TW, and Ng, TL), July, 885

Simultaneous analysis of codeine, morphine, and heroin after B glucuronidase hydrolysis (Zezulak, M, Snyder, JJ, and Needleman, SB), Nov., 1275

High performance liquid chromatography—see **Chromatographic analysis****Histiocytoid cardiomyopathy**

Histiocytoid cardiomyopathy: case report and literature review (Prahlow, JA and Teot, LA), Nov., 1427

Historical skeletal remains

Extraction, evaluation, and amplification of DNA from decalcified and undecalcified United States Civil War bone (Fisher, DL, Holland, MM, Mitchell, L, Sledzik, PS, Wilcox, AW, Wadhams, M, and Weedn, VW), Jan., 60

Identification of rib number and assessment of intercostal variation at the sternal rib end (Dudar, JC), July, 788

Mitochondrial DNA sequence analysis of human skeletal remains: identification of remains from the Vietnam War (Holland, MM, Fisher, DL, Mitchell, LG, Rodriguez, WC, Canik, JJ, Merrill, CR, and Weedn, VW), May, 542

Osteometry of the human iliac crest: patterns of normality and its utility in sexing human remains (Fernández Camacho, FJ, Gómez Pellico, L, and Fernández-Valencia Rodríguez, R), July, 779

Homicide

Gang-related homicides in Los Angeles County (Rogers, C), July, 831

Gunshot fatalities in Stockholm, Sweden with special reference to the use of illegal weapons (Karlsson, T, Isaksson, B, and Ormstad, K), Nov., 1409

Iceman murder: one of a series of contract murders (Zugibe, FT and Costello, JT), Nov., 1404

Product tampering crime: a review (Logan, B), July, 918

Homogenization

Homogenization of illicit heroin samples: an empirical and statistical approach (Chow, ST, Lee, TK, Saw, CG, Soon, TW, and Ng, TL), July, 885

Human identification

A.B.F.O. study of third molar development and its use as an estimator of chronological age

- (Mincer, HH, Harris, EF, and Berryman, HE), March, 379
- ABO blood grouping on dental tissue (Xu, X, Liao, J, Fang, H, Li, M, and Liu, Z), July, 956
- Aspartic acid racemization in intervertebral discs as an aid to postmortem estimation of age at death (Ritz, S and Schultz, H-W), May, 633
- Confirmation of human identification using computerized tomography (CT) (Haglund, WD and Fligner, CL), May, 708
- DNA fingerprinting from tissues after variable postmortem periods (Ludes, B, Pfitzinger, H, and Mangin, P), May, 686
- Evaluation of morphological and histological adult skeletal age-at-death estimation techniques using ribs (Dudar, JC, Pfeiffer, S, and Saunders, SR), May, 677
- Identification of human DNA in complex biological samples using the Alu polymerase chain reaction (Tsongalis, GJ, Coleman, WB, Esch, GL, Smith, GJ, and Kaufman, DG), July, 961
- Identification of rib number and assessment of intercostal variation at the sternal rib end (Dudar, JC), July, 788
- Identification of the fragmentary, burned remains of two U.S. journalists seven years after their disappearance in Guatemala (Owsley, DW), Nov., 1372
- Mitochondrial DNA sequence analysis of human skeletal remains: identification of remains from the Vietnam War (Holland, MM, Fisher, DL, Mitchell, LG, Rodriguez, WC, Canik, JJ, Merril, CR, and Weedn, VW), May, 542
- National Crime Information Center (NCIC) missing and unidentified persons system revisited (Haglund, WD), March, 365
- Osteometry of the human iliac crest: patterns of normality and its utility in sexing human remains (Fernández Camacho, FJ, Gómez Pellico, L, and Fernández-Valencia Rodríguez, R), July, 779
- Positive identification in a case of intentional extreme fragmentation (Owsley, DW, Mann, RW, Chapman, RE, Moore, E, and Cox, WA), July, 985
- Radiographic identification of human remains through deformities and anomalies of postcranial bones: a report of two cases (Rougé, D, Telmon, N, Arrue, P, Larrouy, G, and Arbus, L), July, 997
- Sex determination from metacarpals and the first proximal phalanx (Scheuer, JL and Elkington, NM), July, 769
- Systematic approach to the sampling of dental DNA (Smith, BC, Fisher, DL, Weedn, VW, Warnock, GR, and Holland, MM), Sept., 1194
- Technique for developing and photographing ridge impressions on decomposed water-soaked fingers (Keating, DM, and Miller, JJ), Jan., 197
- Testing of the National Crime Information Center missing/unidentified persons computer comparison routine (Bell, GL), Jan., 13
- Use of hydrogen peroxide to visualize tattoos obscured by decomposition and mummification (Haglund, WD and Sperry, K), Jan., 147
- Variation in birth timing and location of the neonatal line in human enamel (Skinner, M and Dupras, T), Nov., 1383
- Human immunodeficiency virus (HIV)**
- Determination of human immunodeficiency virus antibody status in forensic autopsy cases using a rapid and simple FDA-licensed assay (Li, L, Constantine, NT, Zhang, X, and Smialek, JE), July, 798
- Seroprevalence of parenterally transmitted viruses (HIV-1, HBV, and HTLV-I/II) in forensic autopsy cases (Li, L, Zhang, X, Constantine, NT, and Smialek, JE), Sept., 1075
- Human leukocyte antigen**
- Evaluation of HLA in detection of non-parentage among known false trios (Salaru, NNR), Nov., 1478
- Human ribs**
- Method for siding and sequencing human ribs (Mann, RW), Jan., 151
- Hunting**
- Application of DNA fingerprinting to enforcement of hunting regulations in Ontario (Gulich, EA, Wilson, PJ, and White BN), Jan., 48
- Hydatid cyst**
- Sudden death due to ruptured hydatid cyst of the liver (Kök, AN, Yurtman, T, and Aydin, NE), July, 978

I

Iatrogenic death—see Death**Illegal trade**

International trade in bear gall bladders: forensic source inference (Espinoza, EO, Shafer, JA, and Hagey, LR), Nov., 1363

Image enhancement system

Image enhancement for document examination using the personal computer (Houde, J), Jan., 143

Novel approach to Fourier spectral enhancement of laser-luminescent fingerprint images (Kaymaz, E and Mitra, S), May, 530

Positive identification in a case of intentional extreme fragmentation (Owsley, DW, Mann, RW, Chapman, RE, Moore, E, and Cox, WA), July, 985

Immunoassay

Detection of prostate specific antigen by ELISA (Johnson, ED and Kotowski, TM), March, 250

Evaluation of enzyme immunoassay performance characteristics—phencyclidine example (Fyfe, MJ, Chand, P, McCutchen, C, Long, JS, Walia, AS, Edwards, C, and Liu, RH), Jan., 156

Method comparison of EMIT II and On Line

Immunoassay—(cont.)

with RIA for drug screening (Armbruster, DA, Schwarzhoff, RH, Pierce, BL, and Hubster, ED), Nov., 1326

Impressions

Technique for developing and photographing ridge impressions on decomposed water-soaked fingers (Keating, DM and Miller, JJ), Jan., 197

Inappropriate disposal of mortuary remains

Analysis of cremains: a case study involving the inappropriate disposal of mortuary remains (Murray, KA and Rose, JC), Jan., 98

Inductively coupled plasma-atomic emission spectrometry—see **Spectroscopic analysis****Injuries**

Neck injuries: III. Ligamentous injuries of the craniocervical articulation without occipito-atlantal or atlanto-axial facet dislocation. A pathologic study of 21 traffic fatalities (Adams, VI), Sept., 1097

Inks

Application of the microdroplet method of X-ray analysis to the characterization of inks (Cassidy, MF and Allen, DE), Jan., 40

Comparative examination of inks by using instrumental thin-layer chromatography and microspectrophotometry (Aginsky, VN), Sept., 1111

Forensic examination of "slightly soluble" ink pigments using thin-layer chromatography (Aginsky, VN), Sept., 1131

HPLC analysis of printing inks (Löfgren, A and Andrasko, J), Sept., 1151

Some new ideas for dating ballpoint inks—a feasibility study (Aginsky, VN), Sept., 1134

Intervertebral discs

Aspartic acid racemization in intervertebral discs as an aid to postmortem estimation of age at death (Ritz, S and Schultz, H-W), May, 633

Ion mobility spectrometry—see **Spectroscopic analysis****Isoelectric focusing**

Deoxyribonuclease I (DNase I) typing from semen stains: low enzyme activity in vaginal fluids does not interfere with seminal DNase I typing from mixture stains (Sawazaki, K, Yasuda, T, Nadano, D, Iida, R, Takeshita, H, Uchide, K, and Kishi, K), Sept., 1051

Simultaneous subtyping of group specific component and esterase D by isoelectric focusing on agarose gels (Miller, SA, Stern, CM, and Schanfield, MS), Nov., 1488

Transferrin subtyping in dental pulps (Kido, A, Kimura, Y, and Oya, M), Sept., 1063

Isoflurane

Two deaths involving isoflurane abuse (Kuhlman, JJ, Jr., Magluilo, J, Jr., Levine, B, and Smith, ML), July, 968

Italian criminal procedure

Forensic autopsies in Italy (Castiglione, AG and Lomi, A), May, 622

J-K**Jurisprudence**

Death investigation in the United States, 1990: a survey of statutes, systems, and educational requirements (Hanzlick, R, Combs, D, Parrish, RG, and Ing, RT), May, 628

Forensic autopsies in Italy (Castiglione, AG and Lomi, A), May, 622

Meaning of an accessory projectile (Smith, OC, Berryman, HE, and Symes, SA), March, 484

Kidnapping

Child stealing by cesarean section: a psychiatric case report and review of the child stealing literature (Yutzy, SH, Wolfson, JK, and Resnick, PJ), Jan., 192

L**Larvae**

Effect of killing and preservative solutions on estimates of maggot age in forensic cases (Tantawi, TI and Greenberg, B), May, 702

Lasers

Computer interfaced time-resolved luminescence imaging system (Murdock, RH and Menzel, ER), May, 521

Spectroscopy of rare earth-Ruhemann's purple complexes (Mekkaoui, AI and Menzel, ER), May, 506

Lead isotope ratios

Lead isotope ratios in lead smears and bullet fragments and application in firearm investigations (Andrasko, J, Kopp, I, Abrink, A, and Skiöld, T), Sept., 1161

Letters to the editor

Authors' reply (Briglia, EJ, Dal Cortivo, LA, and Bidanset, J), Sept., 1020

Author's reply (Wilber, CG), Sept., 1023

Author's response (Baccino, PE), July, 764

Author's response (Ferslew, KE), Jan., 8

Author's response (Jantz, RL), July, 760

Authors' response (Lifschulz, BD and Donoghue, ER), Nov., 1261

Authors' response (Mittleman, RE and Davis, JH), March, 236

Author's response (Needleman, SB), May, 501

Author's response (Needleman, SB), May, 504

Authors' response (West, MH and Barsley, RE), Nov., 1254

Authors' response (West, MH and Barsley, RE), Nov., 1257

Authors' response (West, MH and Barsley, RE), Nov., 1260

Certification of criminalists (Napolitano, G and De Forest, PR), Sept., 1017

Commentary on the "ceiling principle" (Kobilinsky, K and Levine, L), Nov., 1261

Concern associated with single breath alcohol analysis for forensic purposes (Gullberg, RG), Nov., 1263

Concerning the solubility of sugar in gasoline (Inman, K, Hardin, G, Sensabaugh, GF, and Thornton, JI), July, 757

Determination of the concentration of tetramethylenedisulfotetramine in human blood by GC/FPD (Liu, J, Fan, C, Wu, G, and Huang, M), March, 237

Discussion of creatinine analysis in single collection urine specimens (Homer, GM and Born, B), May, 501

Discussion of creatinine analysis in single collection urine specimens (Ottinger, WE), May, 502

Discussion of "deaths caused by lightning" (Goodson, ME), Nov., 1260

Discussion of H substance in urine (Xu, X and Liu, Z), Jan., 8

Discussion of practical approach to investigative ethics and religious objections to autopsy (Di Maio, VJM), March, 233

Discussion of practical approach to investigative ethics and religious objections to autopsy (Taf, ML and Boglioli, LR), March, 234

Discussion of "the detection and documentation of trace wound patterns by use of an alternative light source" (Golden, GS), Nov., 1258

Discussion of "the detection and documentation of trace wound pattern by use of an alternative light source" (Krauss, TC), Nov., 1255

Discussion of "ultraviolet radiation and its role in wound pattern documentation" (Krauss, TC), Nov., 1253

Distribution of ethanol in postmortem blood samples (Wigmore, JG), Sept., 1019

Identifying "does" with help of dentures (Sathiyavagiswaran, L, Florentine, B, Taylor, J, and Romero, N), Sept., 1018

Invasive hemophilus influenzae type B disease (Gilson, TP), Sept., 1018

Modifying stature estimation from the femur and tibia (Giles, E), July, 758

Poisoning from carbonfuran (Patel, F), Jan., 7

Police and their sidearms (Flores, RA), Sept., 1022

Police and their sidearms (Karl, FS), Sept., 1022

Police and their sidearms (Wilber, CG), Jan., 11

Police and their sidearms (Wolberg, EJ), Sept., 1021

Simple technique for age estimation in adult corpses: the two criteria dental method (Sperber, N), July, 763

Use of statistical methods in the *Journal of Forensic Sciences* (Gullberg, RG), Jan., 9

Lightning

Deaths caused by lightning (Lifschultz, BD and Donoghue, ER), March, 353

Luminescence

Computer interfaced time-resolved luminescence imaging system (Murdock, RH and Menzel, ER), May, 521

Lysergic acid diethylamide (LSD)

Study of the extract of LSD from illicit blotters for HPLC determination (Veress, T), Sept., 1105

M

Magnetic flake powders

Magnetic flake powders for fingerprint development (James, JD, Pounds, CA, and Wilshire, B), March, 391

Manufacturing information code

Problems with the dating of a Polaroid SX-70 photograph (Davis, NA), Sept., 1243

Marijuana

Incidence of psychoactive cannabinoids in drivers killed in motor vehicle accidents (Gerostamoulos, J and Drummer, OH), May, 549

Mass spectrometry—see Spectroscopic analysis**Medical examiners—see Medical personnel****Medical personnel**

Death investigation in the United States, 1990: a survey of statutes, systems, and educational requirements (Hanzlick, R, Combs, D, Parrish, RG, and Ing, RT), May, 628

Mental illness

Comparative study of erotomanic and obsessional subjects in a forensic sample (Zona, MA, Sharma, KK, and Lane, J), July, 894

Competency, civil commitment, and the dangerousness of the mentally ill (Bittman, BJ and Convit, A), Nov., 1460

Delusional misidentification and dangerousness: a neurobiologic hypothesis (Silva, JA, Leong, GB, Weinstock, R, and Wine, DB), July, 904

Disposition of criminal charges after involuntary medication to restore competency to stand trial (Ladds, B, Convit, A, Zito, J, and Vitrai, J), Nov., 1442

Psychotic patient as security guard (Silva, JA, Leong, GB, and Weinstock, R), Nov., 1436

Theoretical difficulties in the treatment of mentally ill prisoners (Schultz-Ross, RA), March, 426

Methaqualone

Structural identification of a methyl analog of methaqualone via 2-dimensional NMR techniques (Angelos, SA, Lankin, DC, Meyers, JA, and Raney, JK), March, 455

Microspectrophotometry—see Spectroscopic analysis**Military populations**

Military drug positive rates in the European Theater drug rates in Europe (Little, JS, Luky, BJ, Shimomura, ET, and Fuhrmann, LS), March, 259

Misidentification syndromes

Delusional misidentification and dangerousness: a neurobiologic hypothesis (Silva, JA, Leong, GB, Weinstock, R, and Wine, DB), July, 904

Missing and unidentified persons

National Crime Information Center (NCIC) missing and unidentified persons system revisited (Haglund, WD), March, 365

Morphine

Solid phase extraction of morphine from whole blood by means of Bond Elut Certify columns (Chen, X-H, Hommerson, ALC,

Morphine—(cont.)

weipfenning, PGM, Franke, J-P, Harmen-Boverhof, CW, and de Zeeuw, RA), May, 668

Motor vehicle accidents

Neck injuries: III. Ligamentous injuries of the craniocervical articulation without occipito-atlantal or atlanto-axial facet dislocation. A pathologic study of 21 traffic fatalities (Adams, VI), Sept., 1097

Prevalence of drug and alcohol in fatally injured truck drivers (Crouch, DJ, Birky, MM, Gust, SW, Rollins, DE, Walsh, JM, Moulden, JV, Quinlan, KE, and Beckel, RW), Nov., 1342

Mummification

Use of hydrogen peroxide to visualize tattoos obscured by decomposition and mummification (Haglund, WD and Sperry, K), Jan., 147

Murder—see **Homicide****Muscle**

Comparison of postmortem autolysis in cardiac and skeletal muscle (Tokunaga, I, Takeichi, S, Yamamoto, A, Gotoda, M, and Maeiwa, M), Sept., 1187

Musculoskeletal system

Evaluation of morphological and histological adult skeletal age-at-death estimation techniques using ribs (Dudar, JC, Pfeiffer, S, and Saunders, SR), May, 677

Method for siding and sequencing human ribs (Mann, RW), Jan., 151

Neck injuries: III. Ligamentous injuries of the craniocervical articulation without occipito-atlantal or atlanto-axial facet dislocation. A pathologic study of 21 traffic fatalities (Adams, VI), Sept., 1097

Radiographic identification of human remains through deformities and anomalies of post-cranial bones: a report of two cases (Rougé, D, Telmon, N, Arrue, P, Larrouy, G, and Arbus, L), July, 997

Sex determination from metacarpals and the first proximal phalanx (Scheuer, JL and Elkington, NM), July, 769

Myocardial fibrosis

Isolated myocardial fibrosis as a cause of sudden cardiac death and its possible relation to myocarditis (Lecomte, D, Fornes, P, Fouret, P, and Nicolas, G), May, 617

Myocarditis

Isolated myocardial fibrosis as a cause of sudden cardiac death and its possible relation to myocarditis (Lecomte, D, Fornes, P, Fouret, P, and Nicolas, G), May, 617

N

National Crime Information Center (NCIC)
National Crime Information Center (NCIC) missing and unidentified persons system revisited (Haglund, WD), March, 365

Testing of the National Crime Information Center missing/unidentified persons computer comparison routine (Bell, GL), Jan., 13

Neck injuries—see **Injuries**

Neonates

Nicotine analysis in neonates' hair for measuring gestational exposure to tobacco (Kintz, P, Kieffer, I, Messer, J, and Mangin, P), Jan., 119

Neutron activation analysis

Identification of ammunitions used in a lethal robbery. Comparison between scanning electron microscopy/energy dispersive X-ray analysis (SEM-EDX) and instrumental neutron activation analysis (INAA) measurements (Moauro, A and Falso, G), Sept., 1237

Nicotine

Nicotine analysis in neonates' hair for measuring gestational exposure to tobacco (Kintz, P, Kieffer, I, Messer, J, and Mangin, P), Jan., 119

Nighttime photography—see **Photography**

Nitroglycerine

Investigations of thin layer chromatographic techniques used for forensic explosives analysis in the early 1970s (Hiley, RW), July, 864

Nonoxinol-9

Effect of nonoxinol-9 on the ability to obtain DNA profiles from postcoital vaginal swabs (Hochmeister, MN, Budowle, B, Borer, UV, and Dirnhofer, R), March, 442

Nuclear magnetic resonance spectrometry—see **Spectroscopic analysis**

O**Obliterations**

Image enhancement for document examination using the personal computer (Houde, J), Jan., 143

Odontology

A.B.F.O. study of third molar development and its use as an estimator of chronological age (Mincer, HH, Harris, EF, and Berryman, HE), March, 379

ABO blood grouping on dental tissue (Xu, X, Liao, J, Fang, H, Li, M, and Liu, Z), July, 956

Systematic approach to the sampling of dental DNA (Smith, BC, Fisher, DL, Weedn, VW, Warnock, GR, and Holland, MM), Sept., 1194

Testing of the National Crime Information Center missing/unidentified persons computer comparison routine (Bell, GL), Jan., 13

Variation in birth timing and location of the neonatal line in human enamel (Skinner, M and Dupras, T), Nov., 1383

Opiate glucuronides

Simultaneous analysis of codeine, morphine, and heroin after B glucuronidase hydrolysis (Zezulak, M, Snyder, JJ, and Needleman, SB), Nov., 1275

Opiates

Opiate concentrations in human head, axillary, and pubic hair (Kintz, P and Mangin, P), May, 657

P

Paints

Forensic examination of "slightly soluble" ink pigments using thin-layer chromatography (Aginsky, VN), Sept., 1131

Paper

pH pen—a means of comparing paper products (Blackledge, RD and Germandt, MN), Jan., 134

Paraphilia

Victim selection in the Jeffrey Dahmer slayings: an example of repetition in the paraphilias? (Bennett, KA), Sept., 1227

Partial human remains

Problems of recovering partial human remains at different times and locations: concerns for death investigators (Haglund, WD and Reay, DT), Jan., 69

Particle analysis

Incidence of transient particulate gunshot primer residue in Oregon and Washington bow hunters (Mann, M-J and Espinoza, EO), Jan., 23

Passive headspace concentration

Multiple analysis of fire debris samples using passive headspace concentration (Waters, LV and Palmer, LA), Jan., 165

Paternity

Evaluation of HLA in detection of non-parentage among known false trios (Salaru, NNR), Nov., 1478

Paternity investigation among known false trios: ABO, Rh, MNSs, Kell, Duffy, Kidd, and HLA systems (Salaru, NNR), Nov., 1482

Simplified method for phenotyping alpha-2-HS-glycoprotein (López-Abadía, I and Ruiz de la Cuesta, JM), Sept., 1183

Pathology and biology

ABO blood grouping on dental tissue (Xu, X, Liao, J, Fang, H, Li, M, and Liu, Z), July, 956

Accidental death related to cocaine, cocaethylene, and caffeine (Caughlin, LJ and O'Halloran, RL), Nov., 1513

Acute benzene poisoning: a report of three fatalities (Avis, SP and Hutton, CJ), May, 599

Application of DNA fingerprinting to enforcement of hunting regulations in Ontario (Guglich, EA, Wilson, PJ, and White BN), Jan., 48

Aspartic acid racemization in intervertebral discs as an aid to postmortem estimation of age at death (Ritz, S and Schultz, H-W), May, 633

Asphyxial deaths due to hanging in children (Clark, MA, Feczko, JD, Hawley, DA, Pless, JE, Tate, LR, and Fardal, PM), March, 344

Autoerotic fatalities with power hydraulics (O'Halloran, RL and Dietz, PE), March, 359

Blows to the maternal abdomen causing fetal demise: report of three cases and a review of the literature (Ribe, JK, Teggatz, JR, and Harvey, CM), Sept., 1092

Cerebral vasculitis associated with cocaine abuse (Morrow, PL and McQuillen, JB), May, 732

Comparison of postmortem autolysis in cardiac and skeletal muscle (Tokunaga, I, Takeichi, S, Yamamoto, A, Gotoda, M, and Maeiwa, M), Sept., 1187

Comparison of the fixed bin method with the floating bin and direct count methods: effect of VNTR profile frequency estimation and reference population (Monson, KL and Budowle, B), Sept., 1037

Condom—the critical link in a rape (Brauner, P and Gallili, N), Sept., 1233

Critical evaluation of postmortem changes in human autopsy cisternal fluid, enzymes, electrolytes, acid-base balance, glucose and glycolysis, free amino acids and ammonia. Correlation to total brain ischemia (Kärkelä, JT), May, 603

Death investigation in the United States, 1990: a survey of statutes, systems, and educational requirements (Hanzlick, R, Combs, D, Parrish, RG, and Ing, RT), May, 628

Deaths caused by lightning (Lifschultz, BD and Donoghue, ER), March, 353

Detection of fatal therapeutic misadventures by an urban medico-legal system (Perper, JA, Kuller, LH, and Shim, YK), March, 327

Detection of prostate specific antigen by ELISA (Johnson, ED and Kotowski, TM), March, 250

Determination of human immunodeficiency virus antibody status in forensic autopsy cases using a rapid and simple FDA-licensed assay (Li, L, Constantine, NT, Zhang, X, and Smialek, JE), July, 798

Development of DNA profiling database in an HAE III based RFLP system for Chinese, Malays, and Indians in Singapore (Chow, ST, Tan, WF, Yap, KH, and Ng, TL), July, 874

Direct sequencing of the human protamine P1 gene and application in forensic medicine (Queralt, R, de Fàbregues-Boixar, O, Adroer, R, Gené, M, Gómez-Catalán, J, Huguet, E, and Oliva, R), Nov., 1491

DNA fingerprinting from tissues after variable postmortem periods (Ludes, B, Pfitzinger, H, and Mangin, P), May, 686

Efficacy of 1% sodium fluoride as a preservative in urine samples containing glucose and *Candida albicans* (Lough, PS and Fehn, R), March, 266

Effects of specific latent fingerprint and questioned document examinations on the amplification and typing of the HLA DQ alpha gene region in forensic casework (Presley, LA, Baumstark, AL, and Dixon, A), Sept., 1028

Endomyocardial fibrosis in a scuba diving death (Obafunwa, JO, Purdue, B, and Busutil, A), Sept., 1215

Evaluation of HLA in detection of non-parent-

Pathology and biology—(cont.)

- age among known false trios (Salaru, NNR), Nov., 1478
- Experimental observations on adipocere formation (Mellen, PFM, Lowry, MA, and Micozzi, MS), Jan., 91
- Genetic typing of HLA Class II genes in Swedish populations: application to forensic analysis (Allen, M, Saldeen, T, Pettersson, U, and Gyllensten, U), May, 554
- Histiocytoid cardiomyopathy: case report and literature review (Prahlow, JA and Teot, LA), Nov., 1427
- Identification of human DNA in complex biological samples using the Alu polymerase chain reaction (Tsongalis, GJ, Coleman, WB, Esch, GL, Smith, GJ, and Kaufman, DG), July, 961
- Infant death in San Francisco 1989–1990 (Castiglione, AG, Greenwald, M, and Stephens, BG), July, 821
- Invasive *Haemophilus influenzae* type b disease (Tepper, SL, Overman, J, and Parker JR), Jan., 94
- Isolated myocardial fibrosis as a cause of sudden cardiac death and its possible relation to myocarditis (Lecomte, D, Fornes, P, Fouret, P, and Nicolas, G), May, 617
- Microbial DNA challenge studies of variable number tandem repeat (VNTR) probes used for DNA profiling analysis (Webb, MBT, Williams, NJ, and Sutton, MD), Sept., 1172
- Multigenerational amplification of a reference ladder for alleles of locus D1S80 (Baechtel, FS, Smerick, JB, Presley, KW, and Budowle, B), Sept., 1176
- Neck injuries: III. Ligamentous injuries of the craniocervical articulation without occipitoatlantal or atlanto-axial facet dislocation. A pathologic study of 21 traffic fatalities (Adams, VI), Sept., 1097
- Paternity investigation among known false trios: ABO, Rh, MNSs, Kell, Duffy, Kidd, and HLA systems (Salaru, NNR), Nov., 1482
- PCR amplification and typing of the HLA DQ α gene in forensic samples (Comey, CT, Budowle, B, Adams, DE, Baumstark, AL, Lindsey, JA, and Presley, LA), March, 239
- Purification of forensic specimens for the polymerase chain reaction (PCR) analysis (Akane, A, Shiono, H, Matsubara, K, Nakamura, H, Hasegawa, M, and Kagawa, M), May, 691
- Rapid dot-blot method for species identification of bloodstains (Matsuzawa, S, Kimura, H, Itoh, Y, Wang, H, and Nakagawa, T), March, 448
- Scleral and conjunctival hemorrhages arising from a gunshot wound to the chest: a case report (Sperry, K), Jan., 203
- Seroprevalence of parenterally transmitted viruses (HIV-1, HBV, and HTLV-I/II) in forensic autopsy cases (Li, L, Zhang, X, Constantine, NT, and Smialek, JE), Sept., 1075
- Simplified method for phenotyping alpha-2-HS-glycoprotein (López-Abadía, I and Ruiz de la Cuesta, JM), Sept., 1183
- Simultaneous subtyping of group specific component and esterase D by isoelectric focusing on agarose gels (Miller, SA, Stern, CM, and Schanfield, MS), Nov., 1488
- Sudden and unexpected death in childhood due to a colloid cyst of the third ventricle (Byard, RW and Moore, L), Jan., 210
- Sudden death due to ruptured hydatid cyst of the liver (Kök, AN, Yurtman, T, and Aydin, NE), July, 978
- Sudden out-of-hospital coronary death in patients with no previous cardiac history. An analysis of 221 patients studied at autopsy (Fornes, P, Lecomte, D, and Nicolas, G), Sept., 1084
- Suicidal drowning (Avis, SP), Nov., 1422
- Suicide by self-decapitation (Prichard, PD), July, 981
- Transection of trachea due to improper application of automatic seat belt (submarine effect) (Roh, LS and Fazzalaro, W), July, 972
- Transferrin subtyping in dental pulps (Kido, A, Kimura, Y, and Oya, M), Sept., 1063
- Pattern recognition**
- Computerized neural network method for pattern recognition of cocaine signatures (Casale, JF and Watterson, JW), March, 292
- Patterns**
- Examination of random weld bead flow patterns on welding slag and comparison of these patterns to the flow patterns present on welded surfaces (Krone, CS), July, 1008
- Range of fire estimates from shotgun pellet patterns: the effect of shell and barrel temperature (Horvath, F, Gardner, K, and Siegel, J), May, 585
- Pedophilia**
- Anthropometric study of pedophiles and rapists (Taylor, D, Myers, WC, Robbins, L, and Barnard, GW), July, 765
- Comparison of sexual victimization in the childhoods of pedophiles and hebephiles (Greenberg, DM, Bradford, JMW, and Curry, S), March, 432
- PH pen**
- pH pen—a means of comparing paper products (Blackledge, RD and Germandt, MN), Jan., 134
- Phenotyping**—see **Genetic typing**
- Phencyclidine**
- Analysis of phencyclidine and cocaine in human hair by tandem mass spectrometry (Kidwell, DA), March, 272
- Evaluation of enzyme immunoassay performance characteristics—phencyclidine example (Fyfe, MJ, Chand, P, McCutchen, C, Long, JS, Walia, AS, Edwards, C, and Liu, RH), Jan., 156
- Photocopiers**
- Improvement of pyrolysis gas chromatography for the differentiation of photocopy toners

- (Chang, W-T, Huang, C-W, and Giang, Y-S), July, 843
- Photography**
Problems with the dating of a Polaroid SX-70 photograph (Davis, NA), Sept., 1243
- Physical anthropology**
Analysis of remains: a case study involving the inappropriate disposal of mortuary remains (Murray, KA and Rose, JC), Jan., 98
Confirmation of human identification using computerized tomography (CT) (Haglund, WD and Fligner, CL), May, 708
Disappearance of soft tissue and the disarticulation of human remains from aqueous environments (Haglund, WD), July, 806
Evaluation of morphological and histological adult skeletal age-at-death estimation techniques using ribs (Dudar, JC, Pfeiffer, S, and Saunders, SR), May, 677
Extraction, evaluation, and amplification of DNA from decalcified and undecalcified United States Civil War bone (Fisher, DL, Holland, MM, Mitchell, L, Sledzik, PS, Wilcox, AW, Wadhams, M, and Weedn, VW), Jan., 60
Identification of rib number and assessment of intercostal variation at the sternal rib end (Dudar, JC), July, 788
Identification of the fragmentary, burned remains of two U.S. journalists seven years after their disappearance in Guatemala (Owsley, DW), Nov., 1372
Method for siding and sequencing human ribs (Mann, RW), Jan., 151
Mitochondrial DNA sequence analysis of human skeletal remains: identification of remains from the Vietnam War (Holland, MM, Fisher, DL, Mitchell, LG, Rodriguez, WC, Canik, JJ, Merrill, CR, and Weedn, VW), May, 542
Osteometry of the human iliac crest: patterns of normality and its utility in sexing human remains (Fernández Camacho, FJ, Gómez Pellico, L, and Fernández-Valencia Rodríguez, R), July, 779
Positive identification in a case of intentional extreme fragmentation (Owsley, DW, Mann, RW, Chapman, RE, Moore, E, and Cox, WA), July, 985
Problems of recovering partial human remains at different times and locations: concerns for death investigators (Haglund, WD and Reay, DT), Jan., 69
Radiographic identification of human remains through deformities and anomalies of postcranial bones: a report of two cases (Rougé, D, Telmon, N, Arrue, P, Larrouy, G, and Arbus, L), July, 997
Sex determination from metacarpals and the first proximal phalanx (Scheuer, JL and Elkington, NM), July, 769
Victim selection in the Jeffrey Dahmer slayings: an example of repetition in the paraphilias? (Bennett, KA), Sept., 1227
- Poisoning**
Acute benzene poisoning: a report of three fatalities (Avis, SP and Hutton, CJ), May, 599
Poisonings associated with cyanide in over the counter cold medication in Washington State, 1991 (Logan, B, Howard, J, and Kiesel, EL), March, 472
Product tampering crime: a review (Logan, B), July, 918
- Polymerase chain reaction (PCR)**
Effects of specific latent fingerprint and questioned document examinations on the amplification and typing of the HLA DQ alpha gene region in forensic casework (Presley, LA, Baumstark, AL, and Dixon, A), Sept., 1028
Extraction, evaluation, and amplification of DNA from decalcified and undecalcified United States Civil War bone (Fisher, DL, Holland, MM, Mitchell, L, Sledzik, PS, Wilcox, AW, Wadhams, M, and Weedn, VW), Jan., 60
Identification of human DNA in complex biological samples using the Alu polymerase chain reaction (Tsongalis, GJ, Coleman, WB, Esch, GL, Smith, GJ, and Kaufman, DG), July, 961
PCR amplification and typing of the HLA DQ α gene in forensic samples (Comey, CT, Budowle, B, Adams, DE, Baumstark, AL, Lindsey, JA, and Presley, LA), March, 239
Purification of forensic specimens for the polymerase chain reaction (PCR) analysis (Akane, A, Shiono, H, Matsubara, K, Nakamura, H, Hasegawa, M, and Kagawa, M), May, 691
- Population databases**
Comparison of the fixed bin method with the floating bin and direct count methods: effect of VNTR profile frequency estimation and reference population (Monson, KL and Budowle, B), Sept., 1037
- Postmortem autolysis**
Comparison of postmortem autolysis in cardiac and skeletal muscle (Tokunaga, I, Takeichi, S, Yamamoto, A, Gotoda, M, and Maeiwa, M), Sept., 1187
- Postmortem drug redistributions**
Animal model of postmortem amitriptyline redistribution (Hilberg, T, Bugge, A, Beylich, K-M, Ingum, J, Bjørneboe, A, and Mørland, J), Jan., 81
- Postmortem examinations**
Forensic autopsies in Italy (Castiglione, AG and Lomi, A), May, 622
Seroprevalence of parenterally transmitted viruses (HIV-1, HBV, and HTLV-III) in forensic autopsy cases (Li, L, Zhang, X, Constantine, NT, and Smialek, JE), Sept., 1075
- Postmortem interval**
Computer program for the estimation of time of death (Lynnerup, N), July, 816
Effect of killing and preservative solutions on estimates of maggot age in forensic cases (Tantawi, TI and Greenberg, B), May, 702

Postmortem interval—(cont.)

Observations of differential decomposition on sun exposed v. shaded pig carrion in coastal Washington State (Shean, BS, Messinger, L, and Papworth, M), July, 938

Preliminary observations of the effects of amitriptyline in decomposing tissues on the development of *Parasarcophaga ruficornis* (Diptera: Sarcophagidae) and implications of this effect to estimation of postmortem interval (Goff, ML, Brown, WA, Omori, AI, and LaPointe, DA), March, 316

Printing

pH pen—a means of comparing paper products (Blackledge, RD and Gernandt, MN), Jan., 134

Prisons

Theoretical difficulties in the treatment of mentally ill prisoners (Schultz-Ross, RA), March, 426

Product tampering

Poisonings associated with cyanide in over the counter cold medication in Washington State, 1991 (Logan, B, Howard, J, and Kiesel, EL), March, 472

Product tampering crime: a review (Logan, B), July, 918

Projectiles

Reduction of specular reflectance on projectiles and toolmarks by ammonium chloride fuming (Rios, FG and Thornton, JI), July, 840

Prostate specific antigen

Detection of prostate specific antigen by ELISA (Johnson, ED and Kotowski, TM), March, 250

Protamines

Direct sequencing of the human protamine P1 gene and application in forensic medicine (Queralt, R, de Fàbregues-Boixar, O, Adroer, R, Gené, M, Gómez-Catalán, J, Huguet, E, and Oliva, R), Nov., 1491

Protease

Comparison of postmortem autolysis in cardiac and skeletal muscle (Tokunaga, I, Takeichi, S, Yamamoto, A, Gotoda, M, and Maeiwa, M), Sept., 1187

Pseudocyesis

Child stealing by cesarean section: a psychiatric case report and review of the child stealing literature (Yutzy, SH, Wolfson, JK, and Resnick, PJ), Jan., 192

Psychiatry

Anthropometric study of pedophiles and rapists (Taylor, D, Myers, WC, Robbins, L, and Barnard, GW), July, 765

Child stealing by cesarean section: a psychiatric case report and review of the child stealing literature (Yutzy, SH, Wolfson, JK, and Resnick, PJ), Jan., 192

Comparative study of erotomanic and obsessional subjects in a forensic sample (Zona, MA, Sharma, KK, and Lane, J), July, 894

Comparison of sexual victimization in the child-

hoods of pedophiles and hebephiles (Greenberg, DM, Bradford, JMW, and Curry, S), March, 432

Competency, civil commitment, and the dangerousness of the mentally ill (Bittman, BJ and Convit, A), Nov., 1460

Correlates of sex offender and offense traits by victim age (Harry, B, Pierson, TR, and Kuznetsov, A), Sept., 1068

Delusional misidentification and dangerousness: a neurobiologic hypothesis (Silva, JA, Leong, GB, Weinstock, R, and Wine, DB), July, 904

Disposition of criminal charges after involuntary medication to restore competency to stand trial (Ladds, B, Convit, A, Zito, J, and Vitrai, J), Nov., 1442

Introduction to award winning research papers in psychiatry and behavioral science (Rosner, R), Nov., 1441

Introduction to Psychiatry and Behavioral Science Section Awards: research by Fellows in forensic psychiatry and psychology (Rosner, R), March, 425

Psychotic patient as security guard (Silva, JA, Leong, GB, and Weinstock, R), Nov., 1436

Theoretical difficulties in the treatment of mentally ill prisoners (Schultz-Ross, RA), March, 426

Public safety—see Security

Putrefaction

Alcohol in decomposed bodies: postmortem synthesis and distribution (Gilliland, MGF and Bost, RO), Nov., 1266

Pyrolysis gas chromatography—see Chromatographic analysis

Q**Questioned documents**

Application of the microdroplet method of X-ray analysis to the characterization of inks (Cassidy, MF and Allen, DE), Jan., 40

Comparative examination of inks by using instrumental thin-layer chromatography and microspectrophotometry (Aginsky, VN), Sept., 1111

Effects of specific latent fingerprint and questioned document examinations on the amplification and typing of the HLA DQ alpha gene region in forensic casework (Presley, LA, Baumstark, AL, and Dixon, A), Sept., 1028

Forensic examination of "slightly soluble" ink pigments using thin-layer chromatography (Aginsky, VN), Sept., 1131

Forgery I—simulation (Leung, SC, Cheng, YS, Fung, HT, and Poon, NL), March, 402

Forgery II—tracing (Leung, SC, Fung, HT, Cheng, YS, and Poon, NL), March, 413

HPLC analysis of printing inks (Löfgren, A and Andrasko, J), Sept., 1151

Image enhancement for document examination using the personal computer (Houde, J), Jan., 143

- Improvement of pyrolysis gas chromatography for the differentiation of photocopy toners (Chang, W-T, Huang, C-W, and Giang, Y-S), July, 843
- pH pen—a means of comparing paper products (Blackledge, RD and Gernandt, MN), Jan., 134
- Problems with the dating of a Polaroid SX-70 photograph (Davis, NA), Sept., 1243
- Some new ideas for dating ballpoint inks—a feasibility study (Aginsky, VN), Sept., 1134
- Video darkroom for the document examiner (Angstrom, N, Bergstedt, H, and Warensjoe, L), March, 466

R

- Radiography**—see **X-ray analysis**
- Range of fire**
- Range of fire estimates from shotgun pellet patterns: the effect of shell and barrel temperature (Horvath, F, Gardner, K, and Siegel, J), May, 585
- Rape**—see **Criminal sex offenses**
- Reagents**
- Modified reagent for the confirmation of blood (Hatch, AL), Nov., 1502
- Some new ideas for dating ballpoint inks—a feasibility study (Aginsky, VN), Sept., 1134
- Reflectance**
- Reduction of specular reflectance on projectiles and toolmarks by ammonium chloride fuming (Rios, FG and Thornton, JJ), July, 840
- Research**
- Introduction to award winning research papers in psychiatry and behavioral science (Rosner, R), Nov., 1441
- Introduction to Psychiatry and Behavioral Science Section Awards: research by Fellows in forensic psychiatry and psychology (Rosner, R), March, 425
- Restriction fragment length polymorphisms**
- Development of DNA profiling database in an HAE III based RFLP system for Chinese, Malays, and Indians in Singapore (Chow, ST, Tan, WF, Yap, KH, and Ng, TL), July, 874
- Effects of argon laser light, alternate source light, and cyanoacrylate fuming on DNA typing of human bloodstains (Shipp, E, Roelofs, R, Togneri, E, Wright, R, Atkinson, D, and Berch, H), Jan., 184
- Ruhemann's purple**
- Spectroscopy of rare earth-Ruhemann's purple complexes (Mekkaoui, AI and Menzel, ER), May, 506

S

- Safe breaking**
- Abrasive cutting of a safe: a case study (Zeichner, A, Feingold, G, and Landau, E), Nov., 1516

Sampling

- Representative sampling of "street" drug exhibits (C6lon, M, Rodríguez, G, and Díaz, RO), May, 641

Scuba diving

- Endomyocardial fibrosis in a scuba diving death (Obafunwa, JO, Purdue, B, and Busuttill, A), Sept., 1215

Seat belts

- Transection of trachea due to improper application of automatic seat belt (submarine effect) (Roh, LS and Fazzalaro, W), July, 972

Security

- Psychotic patient as security guard (Silva, JA, Leong, GB, and Weinstock, R), Nov., 1436

Self-decapitation

- Suicide by self-decapitation (Prichard, PD), July, 981

Semen

- Condom—the critical link in a rape (Brauner, P and Gallili, N), Sept., 1233

- Deoxyribonuclease I (DNase I) typing from semen stains: low enzyme activity in vaginal fluids does not interfere with seminal DNase I typing from mixture stains (Sawazaki, K, Yasuda, T, Nadano, D, Iida, R, Takeshita, H, Uchide, K, and Kishi, K), Sept., 1051

Seroprevalence

- Seroprevalence of parenterally transmitted viruses (HIV-1, HBV, and HTLV-I/II) in forensic autopsy cases (Li, L, Zhang, X, Constantine, NT, and Smialek, JE), Sept., 1075

Sex determination—see **Human identification****Sexual asphyxia**—see **Asphyxia****Shotguns**—see **Ballistics****Simulation**

- Forgery I—simulation (Leung, SC, Cheng, YS, Fung, HT, and Poon, NL), March, 402

Skeletons—see **Musculoskeletal system** or **Historical skeletal remains** or **Human identification** or **Partial human remains****Sodium fluoride**

- Efficacy of 1% sodium fluoride as a preservative in urine samples containing glucose and *Candida albicans* (Lough, PS and Fehn, R), March, 266

Soils

- Technique for comparing soil colors in the forensic laboratory (Antoci, PR and Petraco, N), March, 437

Species identification

- Rapid dot-blot method for species identification of bloodstains (Matsuzawa, S, Kimura, H, Itoh, Y, Wang, H, and Nakagawa, T), March, 448

Spectroscopic analysis

- Comparative examination of inks by using instrumental thin-layer chromatography and microspectrophotometry (Aginsky, VN), Sept., 1111

- Detection of trace explosive evidence by ion mobility spectrometry (Fetterolf, DD and Clark TD), Jan., 28

Spectroscopic analysis—(cont.)

Forensic comparison of household aluminum foils using elemental composition by inductively coupled plasma—atomic emission spectrometry (Koons, RD, Peters, CA, and Merrill, RA), March, 302

Structural identification of a methyl analog of methaqualone via 2-dimensional NMR techniques (Angelos, SA, Lankin, DC, Meyers, JA, and Raney, JK), March, 455

Substance abuse testing of urine by GC/MS in scanning mode evaluated by proficiency studies, TLC/GC, and EMIT (Gibb, RP, Cockerham, H, Goldfogel, GA, Lawson, GM, and Raisys, VA), Jan., 124

Standard addition technique

Documentation of a doxylamine overdose death: quantitation by standard addition and use of three instrumental techniques (Siek, TJ and Dunn, WA), May, 713

Statistics

Homogenization of illicit heroin samples: an empirical and statistical approach (Chow, ST, Lee, TK, Saw, CG, Soon, TW, and Ng, TL), July, 885

Street gangs

Gang-related homicides in Los Angeles County (Rogers, C), July, 831

Submarine effect

Transection of trachea due to improper application of automatic seat belt (submarine effect) (Roh, LS and Fazzaloro, W), July, 972

Substance abuse testing

Substance abuse testing of urine by GC/MS in scanning mode evaluated by proficiency studies, TLC/GC, and EMIT (Gibb, RP, Cockerham, H, Goldfogel, GA, Lawson, GM, and Raisys, VA), Jan., 124

Sudden death—see **Death****Sudden infant death syndrome**

Infant death in San Francisco 1989–1990 (Castiglione, AG, Greenwald, M, and Stephens, BG), July, 821

Suicide

Gunshot fatalities in Stockholm, Sweden with special reference to the use of illegal weapons (Karlsson, T, Isaksson, B, and Ormstad, K), Nov., 1409

Incredible bouncing bullet: projectile exit through the entrance wound (Grey, TC), Sept., 1222

Suicidal drowning (Avis, SP), Nov., 1422

Suicide by self-decapitation (Prichard, PD), July, 981

Sweden

Gunshot fatalities in Stockholm, Sweden with special reference to the use of illegal weapons (Karlsson, T, Isaksson, B, and Ormstad, K), Nov., 1409

T**Taphonomy**

Disappearance of soft tissue and the disarticu-

lation of human remains from aqueous environments (Haglund, WD), July, 806

Experimental observations on adipocere formation (Mellen, PFM, Lowry, MA, and Micozzi, MS), Jan., 91

Positive identification in a case of intentional extreme fragmentation (Owsley, DW, Mann, RW, Chapman, RE, Moore, E, and Cox, WA), July, 985

Problems of recovering partial human remains at different times and locations: concerns for death investigators (Haglund, WD and Reay, DT), Jan., 69

Tattoos

Use of hydrogen peroxide to visualize tattoos obscured by decomposition and mummification (Haglund, WD and Sperry, K), Jan., 147

Teeth—see **Dentition****Tetrahydrocannabinol**

Incidence of psychoactive cannabinoids in drivers killed in motor vehicle accidents (Geros-tamoulos, J and Drummer, OH), May, 549

Therapeutic misadventure

Detection of fatal therapeutic misadventures by an urban medico-legal system (Perper, JA, Kuller, LH, and Shim, YK), March, 327

Thin-layer chromatography—see **Chromatographic analysis**

Time-of-death estimation—see **Postmortem interval**

Tissue-drug concentrations

Animal model of postmortem amitriptyline redistribution (Hilberg, T, Bugge, A, Beylich, K-M, Ingum, J, Bjørneboe, A, and Mørland, J), Jan., 81

Tobacco

Nicotine analysis in neonates' hair for measuring gestational exposure to tobacco (Kintz, P, Kieffer, I, Messer, J, and Mangin, P), Jan., 119

Tomography

Confirmation of human identification using computerized tomography (CT) (Haglund, WD and Fligner, CL), May, 708

Toners

Forensic examination of "slightly soluble" ink pigments using thin-layer chromatography (Aginsky, VN), Sept., 1131

Improvement of pyrolysis gas chromatography for the differentiation of photocopy toners (Chang, W-T, Huang, C-W, and Giang, Y-S), July, 843

Toolmarks

Reduction of specular reflectance on projectiles and toolmarks by ammonium chloride fuming (Rios, FG and Thornton, JI), July, 840

Toxicology

Alcohol in decomposed bodies: postmortem synthesis and distribution (Gilliland, MGF and Bost, RO), Nov., 1266

Analysis of phencyclidine and cocaine in human hair by tandem mass spectrometry (Kidwell, DA), March, 272

- Anatomy of a cocaine comparison case: a prosecutorial and chemistry perspective (Moore, JM, Meyers, RP, and Jimenez, MD), Nov., 1305
- Animal model of postmortem amitriptyline redistribution, (Hilberg, T, Bugge, A, Beylich, K-M, Ingum, J, Bjørneboe, A, and Mørland, J), Jan., 81
- Cholinesterase activity in postmortem blood as a screening test for organophosphate/chemical weapon exposure (Klette, KL, Levine, B, Dreka, C, Smith, ML, and Goldberger, BA), July, 950
- Computer aided retrieval of common-batch members in Leuckart amphetamine profiling (Jonson, CSL and Strömberg, L), Nov., 1472
- Disappearance rate of ethanol from the blood of human subjects: implications in forensic toxicology (Jones, AW), Jan., 104
- Documentation of a doxylamine overdose death: quantitation by standard addition and use of three instrumental techniques (Siek, TJ and Dunn, WA), May, 713
- Effect of food on alcohol absorption and elimination patterns (Watkins, RL and Adler, EV), March, 285
- Effect of nonoxinol-9 on the ability to obtain DNA profiles from postcoital vaginal swabs (Hochmeister, MN, Budowle, B, Borer, UV, and Dirnhofer, R), March, 442
- Evaluation of enzyme immunoassay performance characteristics—phencyclidine example (Fyfe, MJ, Chand, P, McCutchen, C, Long, JS, Walia, AS, Edwards, C, and Liu, RH), Jan., 156
- Fatal intoxication involving etryptamine (Morano, RA, Spies, C, Walker, FB, and Plank, SM), May, 721
- Fatality due to recreational use of chlorodifluoromethane and chloropentafluoroethane (Fitzgerald, RL, Fishel, CE, and Bush, LLE), March, 477
- GC/MS quantitation of benzoylecgonine following liquid-liquid extraction of urine (Gerrits, J), Sept., 1210
- Improved long-term stability of blood cocaine in evacuated collection tubes (Baselt, RC, Yoshikawa, D, Chang, J, and Li, J), July, 935
- Incidence of psychoactive cannabinoids in drivers killed in motor vehicle accidents (Gerostamoulos, J and Drummer, OH), May, 549
- Interpretation of low postmortem concentrations of ethanol (Levine, B, Smith, ML, Smialek, JE, and Caplan, YH), May, 663
- Method comparison of EMIT II and On Line with RIA for drug screening (Armbruster, DA, Schwarzhoff, RH, Pierce, BL, and Hubster, ED), Nov., 1326
- Military drug positive rates in the European Theater drug rates in Europe (Little, JS, Lukey, BJ, Shimomura, ET, and Fuhrmann, LS), March, 259
- Nicotine analysis in neonates' hair for measuring gestational exposure to tobacco (Kintz, P, Kieffer, I, Messer, J, and Mangin, P), Jan., 119
- Opiate concentrations in human head, axillary, and pubic hair (Kintz, P and Mangin, P), May, 657
- Poisonings associated with cyanide in over the counter cold medication in Washington State, 1991 (Logan, B, Howard, J, and Kiesel, EL), March, 472
- Postmortem alcohol production in fatal aircraft accidents (Canfield, DV, Kupiec, T, and Hufine, E), July, 914
- Preliminary observations of the effects of amitriptyline in decomposing tissues on the development of *Parasarcophaga ruficornis* (Diptera: Sarcophagidae) and implications of this effect to estimation of postmortem interval (Goff, ML, Brown, WA, Omori, A, and LaPointe, DA), March, 316
- Prevalence of drug and alcohol in fatally injured truck drivers (Crouch, DJ, Birky, MM, Gust, SW, Rollins, DE, Walsh, JM, Moulden, JV, Quinlan, KE, and Beckel, RW), Nov., 1342
- Product tampering crime: a review (Logan, B), July, 918
- Production of urinary ethanol after sample collection (Saady, JJ, Poklis, A, and Dalton, HP), Nov., 1467
- Simultaneous analysis of codeine, morphine, and heroin after B glucuronidase hydrolysis (Zezulak, M, Snyder, JJ, and Needleman, SB), Nov., 1275
- Solid phase extraction of morphine from whole blood by means of Bond Elut Certify columns (Chen, X-H, Hommerson, ALC, Zweipfenning, PGM, Franke, J-P, Harmen-Boverhof, CW, and de Zeeuw, RA), May, 668
- Structural identification of a methyl analog of methaqualone via 2-dimensional NMR techniques (Angelos, SA, Lankin, DC, Meyers, JA, and Raney, JK), March, 455
- Substance abuse testing of urine by GC/MS in scanning mode evaluated by proficiency studies, TLC/GC, and EMIT (Gibb, RP, Cockerham, H, Goldfogel, GA, Lawson, GM, and Raisys, VA), Jan., 124
- Two deaths involving isoflurane abuse (Kuhlman, JJ, Jr., Maglulio, J, Jr., Levine, B, and Smith, ML), July, 968
- Trace evidence**
- Detection of trace explosive evidence by ion mobility spectrometry (Fetterolf, DD and Clark TD), Jan., 28
- Trachea transection**
- Transection of trachea due to improper application of automatic seat belt (submarine effect) (Roh, LS and Fazzalaro, W), July, 972
- Tracings**
- Forgery II—tracing (Leung, SC, Fung, HT, Cheng, YS, and Poon, NL), March, 413
- Training—see Education**

Transferrin

Transferrin subtyping in dental pulps (Kido, A, Kimura, Y, and Oya, M), Sept., 1063

Tricyclic antidepressants

Animal model of postmortem amitriptyline redistribution (Hilberg, T, Bugge, A, Beylich, K-M, Ingum, J, Bjørneboe, A, and Mørland, J), Jan., 81

U

Urine

Efficacy of 1% sodium fluoride as a preservative in urine samples containing glucose and *Candida albicans* (Lough, PS and Fehn, R), March, 266

GC/MS quantitation of benzoylecgonine following liquid-liquid extraction of urine (Gertlits, J), Sept., 1210

Production of urinary ethanol after sample collection (Saady, JJ, Poklis, A, and Dalton, HP), Nov., 1467

Substance abuse testing of urine by GC/MS in scanning mode evaluated by proficiency studies, TLC/GC, and EMIT (Gibb, RP, Cockerham, H, Goldfogel, GA, Lawson, GM, and Raisys, VA), Jan., 124

V

Vaginal swabs

Effect of nonoxinol-9 on the ability to obtain DNA profiles from postcoital vaginal swabs (Hochmeister, MN, Budowle, B, Borer, UV, and Dirnhofer, R), March, 442

Variable number tandem repeat (VNTR) loci—see Genetic typing**Victimization**

Comparison of sexual victimization in the childhoods of pedophiles and hebephiles (Greenberg, DM, Bradford, JMW, and Curry, S), March, 432

Victims

Correlates of sex offender and offense traits by victim age (Harry, B, Pierson, TR, and Kuznetsov, A), Sept., 1068

Video equipment

Video darkroom for the document examiner (Angstrom, N, Bergstedt, H, and Warensjoe, L), March, 466

Vietnam War

Mitochondrial DNA sequence analysis of human skeletal remains: identification of remains from the Vietnam War (Holland, MM,

Fisher, DL, Mitchell, LG, Rodriguez, WC, Canik, JJ, Merrill, CR, and Weedn, VW), May, 542

W

Welded surfaces

Examination of random weld bead flow patterns on welding slag and comparison of these patterns to the flow patterns present on welded surfaces (Krone, CS), July, 1008

Wound ballistics

Atypical gunshot exit defects to the cranial vault (Smith, OC, Berryman, HE, Symes, SA, Francisco, JT, and Hnilica, V), March, 339

Characteristic features of entrance wounds from hollow-point bullets (Smith, OC, Symes, SA, Berryman, HE, and LeVaughn, MM), March, 323

Gang-related homicides in Los Angeles County (Rogers, C), July, 831

Iceman murder: one of a series of contract murders (Zugibe, FT and Costello, JT), Nov., 1404

Identification of gunpowder in healed wounds (Smith, OC, Berryman, HE, Symes, SA, and LeVaughn, MM), May, 739

Incredible bouncing bullet: projectile exit through the entrance wound (Grey, TC), Sept., 1222

Meaning of an accessory projectile (Smith, OC, Berryman, HE, and Symes, SA), March, 484

Scleral and conjunctival hemorrhages arising from a gunshot wound to the chest: a case report (Sperry, K), Jan., 203

Wound edge approximation

Cyanoacrylate adhesive technique in wound edge approximation (Prahlow, JA and Lantz, PE), Nov., 1507

X-Y

X-ray analyses

Application of the microdroplet method of X-ray analysis to the characterization of inks (Cassidy, MF and Allen, DE), Jan., 40

Radiographic identification of human remains through deformities and anomalies of postcranial bones: a report of two cases (Rougé, D, Telmon, N, Arrue, P, Larrouy, G, and Arbus, L), July, 997

Yeast

Production of urinary ethanol after sample collection (Saady, JJ, Poklis, A, and Dalton, HP), Nov., 1467
