

Journal of Forensic Sciences

Subject Index to Volume 39

1994

A

Abuse drugs

Routine analysis of breast milk for drugs of abuse in a clinical toxicology laboratory (Dickson, PH, Lind, A, Studts, P, Nipper, HC, Makoid, M, and Therkildsen, D), Jan., 207

Accelerants

Evaluation of canines for accelerant detection at fire scenes (Kurz, ME, Billard, M, Rettig, M, Augustiniak, J, Lange, J, Larsen, M, Warrick, R, Mohns, T, Bora, R, Broadus, K, Hartke, G, Glover, B, Tankersley, D, and Marcouiller, J), Nov., 1528

Soot as an indicator in fire investigations: physical and chemical analyses (Pinorini, MT, Lennard, CJ, Margot, P, Dustin, I, and Furrer, P), July, 933

Accidental death—see Death

Accidents

Descriptive epidemiology of unnatural deaths in Oregon's state institutions: a 25-year (1963–1987) study. IV. The reduction of unnatural death rates during 1988–1992 in three facilities as a result of planned changes (Kamara, SG, Concannon, KW, Butler, JF, and Batten, PJ), Nov., 1432

Acetone

Extraction and analysis of low molecular weight alcohols and acetone from fire debris using passive headspace concentration (Phelps, JL, Chasteen, CE, and Render, MM), Jan., 194

Isopropanol interference with breath alcohol analysis: a case report (Logan, BK, Gullberg, RG, and Elensbaas, JK), July, 1107

Acetonitrile

Acetonitrile-related death (Swanson, JR and Krasselt, WG), Jan., 271

Achalasia

Achalasia, the Valsalva maneuver, and sudden death: a case report (Sperry, K), March, 547

Acquired immunodeficiency syndrome (AIDS)

Stability of human immunodeficiency virus (HIV) antibodies in postmortem samples (Karhunen, PJ, Brummer-Korvenkontio, H, Leinikki, P, and Nyberg, M), Jan., 129

Age determination—see Human identification

Aircraft

Ejection seat aircraft fatalities in the United States Military, 1966 to 1990 (Lowry, MA, Mellen, PFM, and Weedn, VW), Sept., 1153

Investigation of the 1987 Indianapolis Airport Ramada Inn incident (Clark, MA, Hawley, DA, McClain, JL, Pless, JE, Marlin, DC, and Standish, SM), May, 644

Alcohol

Can microorganisms produce alcohol in body cavities of a living person?: a case report (Moriya, F and Ishizu, H), May, 883

Differentiation of diethyl ether/acetone and ethanol/acetonitrile solvent pairs, and other common volatiles by dual column headspace gas chromatography (Logan, BK, Case, GA, and Kiesel, EL), Nov., 1544

Ethyl chloride: possible misidentification as ethanol (Laferty, PI), Jan., 261

Alcohol (Contd.)

Extraction and analysis of low molecular weight alcohols and acetone from fire debris using passive headspace concentration (Phelps, JL, Chasteen, CE, and Render, MM), Jan., 194

Food-induced lowering of blood-ethanol profiles and increased rate of elimination immediately after a meal (Jones, AW and Jönsson, KÅ), July, 1084

Snowmobile fatalities (Avis, SP), Sept., 1161

Alternative light source

Use of alternative light source illumination in bite mark photography (Golden, GS), May, 815

Amitriptyline

Isolation of amitriptyline and nortriptyline from fly puparia (Phoridae) and beetle exuviae (Dermestidae) associated with mummified human remains (Miller, ML, Lord, WD, Goff, ML, Donnelly, B, McDonough, ET, and Alexis, JC), Sept., 1305

Ammunition—see Ballistics**Amphetamine**

¹²⁵I radioimmunoassay for the dual detection of amphetamine and methamphetamine (Ward, C, McNally, AJ, Rusyniak, D, and Salamone, SJ), Nov., 1486

Anesthetics

Fatal ketamine poisoning (Licata, M, Pierini, G, and Popoli, G), Sept., 1314

Aneurysm—see Cardiovascular system**Archery**

Handling and interpretation of crossbow injuries (Downs, JCU, Nichols, CA, Scala-Barnett, D, and Lifschultz, BD), March, 428

Arrhythmogenic right ventricular dysplasia

Extensive fibrofatty infiltration of the left ventricle in two cases of sudden cardiac death (Collett, BA, Davis, GJ, and Rohr, WB), Sept., 1182

Arson

Detection of trace levels of gasoline in arson cases by gas chromatography/mass spectroscopy with an automatic on-line ther-

mal desorber (Kärkkäinen, M, Seppälä, I, and Himberg, K), Jan., 186

Fluorescence of petroleum products V: Three-dimensional fluorescence spectroscopy and capillary gas chromatography of neat and evaporated gasoline samples (Sheff, LM and Siegel, JA), Sept., 1201

Soot as an indicator in fire investigations: physical and chemical analyses (Pinorini, MT, Lennard, CJ, Margot, P, Dustin, I, and Furrer, P), July, 933

Asbestos

Asbestos exposure and cancerphobia (Perr, IN), May, 808

Asphyxia

Asphyxial suicide by propane inhalation and plastic bag suffocation (Avis, SP and Archibald, JT), Jan., 253

Automobile direction indicator lenses

Applications of Fourier transform Raman spectroscopy in forensic science (Kuptsov, AH), March, 305

B**Ballistics**

Deaths due to firearms injuries in children (Choi, E, Donoghue, ER, and Lifschultz, BD), May, 685

Experience with zincon, a useful reagent for the determination of firing range with respect to leadfree ammunition (Beijer, R), July, 981

Fatal injuries caused by guns using shot-shell: case reports and ballistic studies (Rougé, D, Telmon, N, Alengrin, D, Marril, G, Bras, P-M, and Arbus, L), May, 650

Identification of gunshot residue particles from lead-free Sintox ammunition (Gunaratnam, L and Himberg, K), March, 532

Inappropriate use of .38 special ammunition in .30-30 rifles (Ward, ME, Conradi, S, Lawrence, CH, and Nolte, KB), Sept., 1175

Terminal ballistics of the 9mm with action safety bullet or Blitz-Action-Trauma (BAT) ammunition (Lantz, PE, Stone, RS, Broudy, D, and Morgan, TM), May, 612

Barbiturates

Improved gas chromatography/mass spectrometry analysis of barbiturates in urine

using centrifuge-based solid-phase extraction, methylation, with d₅-pentobarbital as internal standard (Liu, RH, McKeehan, AM, Edwards, C, Foster, G, Bensley, WD, Langner, JG, and Walia, AS), Nov., 1504

Benzoylecgonine

Gas chromatography/mass spectrometry for the determination of cocaine and benzoylecgonine over a wide concentration range (<0.005-5 mg/dL) in postmortem blood (Corburt, MR and Koves, EM), Jan., 136

Big game animals

Forensic application of repetitive DNA markers to the species identification of animal tissues (Guglich, EA, Wilson, PJ, and White, BN), March, 353

Bite marks

Recapturing a five-month-old bite mark by means of reflective ultraviolet photography (David, TJ and Sobel, MN), Nov., 1560

Use of alternative light source illumination in bite mark photography (Golden, GS), May, 815

Black males

Homicide among black males in Jefferson County, Alabama 1978-1989 (Fine, PR, Roseman, JM, Constandinou, CM, Brissie, RM, Glass, JM, and Wrigley, JM), May, 674

Blood

Microanalysis of carbon monoxide in blood by head-space capillary gas chromatography (Van Dam, J and Daenens, P), March, 473

Postmortem clomipramine: therapeutic or toxic concentrations? (McIntyre, IM, King, CV, Cordner, SM, and Drummer, OH), March, 486

Sensitive identification of hemoglobin in bloodstains from different species by high performance liquid chromatography with combined UV and fluorescence detection (Andrasko, J and Rosén, B), July, 1018

Bochdalek hernia

Bochdalek hernia in adulthood: a review and an autopsy case report (Salaçin, S, Alper, B, Çekin, N, and Gülmen, MK), July, 1112

Body fluids

Stability of human immunodeficiency virus (HIV) antibodies in postmortem samples (Karhunen, PJ, Brummer-Korvenkontio, H, Leinikki, P, and Nyberg, M), Jan., 129

Bones—see Musculoskeletal system or Historical human remains

Book reviews

Forensic Geology by Murray and Tedrow (Siegel, JA), Jan., 289

A Guide to Pathological Evidence for Lawyers and Police Officers. Third Edition by Jaffee (Ernst, MF), May, 890

Medicolegal Aspects of Alcohol Determination in Biological Specimens by Garriott (Cravey, RH), May, 889

The Pencil, A History of Design and Circumstance by Petroski (Tolliver, DK), March, 588

Seminal Zinc as a Screening Instrument for the Preliminary Identification of Semen Traces by Hooft (Rowe, WF), Jan., 291

Breast milk

Routine analysis of breast milk for drugs of abuse in a clinical toxicology laboratory (Dickson, PH, Lind, A, Studts, P, Nipper, HC, Makoid, M, and Therkildsen, D), Jan., 207

Breath-alcohol testing devices

Isopropanol interference with breath alcohol analysis: a case report (Logan, BK, Gullberg, RG, and Elensbaas, JK), July, 1107

Buprenorphine

Hair analysis for buprenorphine and its dealkylated metabolite by RIA and confirmation by LC/ECD (Kintz, P, Cirimele, V, Edel, Y, Jamey, C, and Mangin, P), Nov., 1497

C

Cancer

Asbestos exposure and cancerphobia (Perr, IN), May, 808

Canines

Evaluation of canines for accelerant detection at fire scenes (Kurz, ME, Billard, M, Rettig, M, Augustiniak, J, Lange, J, Larsen, M, Warrick, R, Mohns, T, Bora, R, Broadus,

Canines (*Cont.*)

K, Hartke, G, Glover, B, Tankersley, D, and Marcouiller, J), Nov., 1528

Cannabis—*see* **Marijuana**

Capillary gas chromatography—*see* **Chromatographic analysis**

Carbon dioxide embolisms—*see* **Embolisms**

Carbon monoxide

Microanalysis of carbon monoxide in blood by head-space capillary gas chromatography (Van Dam, J and Daenens, P), March, 473

Cardiovascular system

Acute aortic dissections and ruptured berry aneurysms associated with methamphetamine abuse (Davis, GG and Swalwell, CI), Nov., 1481

Carotid dissection

Delayed fatal hemothorax due to traumatic carotid dissection: a case report of a previously unreported cause of death (Kaplan, JA), March, 552

Cellophane tape

Collection of fiber evidence using water-soluble cellophane tape (Chable, J, Roux, C, and Lennard, C), Nov., 1520

Ceramics

Discrimination of ceramics—study on the microstructures of ceramics (Hashimoto, T, Deki, S, and Kanaji, Y), May, 824

Cerebrospinal fluid

Significance of morphine concentrations in the cerebrospinal fluid in morphine caused deaths (Logan, BK and Lüthi, R), May, 699

Chemical analysis

Detection of hydroquinone in a poisoning case (Saito, T, Kojimahara, M, Aoki, K, and Takeichi, S), Jan., 266

Detection of trace levels of gasoline in arson cases by gas chromatography/mass spectroscopy with an automatic on-line thermal desorber (Kärkkäinen, M, Seppälä, I, and Himberg, K), Jan., 186

Gas chromatography/mass spectrometry for the determination of cocaine and benzoylecgonine over a wide concentration

range (<0.005-5 mg/dL) in postmortem blood (Corburt, MR and Koves, EM), Jan., 136

Improved gas chromatography/mass spectrometry analysis of barbiturates in urine using centrifuge-based solid-phase extraction, methylation, with d₅-pentobarbital as internal standard (Liu, RH, McKeehan, AM, Edwards, C, Foster, G, Bensley, WD, Langner, JG, and Walia, AS), Nov., 1504

Nuclear magnetic resonance identification of the phenylalkylamine alkaloids of khat using a Chiral solvating agent (Dawson, BA, Black, DB, Lavoie, A, and LeBelle, MJ), July, 1026

Cherokee

Cherokee syllabary (Ramsey, SL), July, 1039

Child sexual abuse—*see* **Criminal sex offenses**

Children

Deaths due to firearms injuries in children (Choi, E, Donoghue, ER, and Lifschultz, BD), May, 685

Method for estimating weight in children from femoral midshaft diameter and age (Sciulli, PW and Pfau, RO), Sept., 1280

Chiral solvating agent

Nuclear magnetic resonance identification of the phenylalkylamine alkaloids of khat using a Chiral solvating agent (Dawson, BA, Black, DB, Lavoie, A, and LeBelle, MJ), July, 1026

Chromatographic analysis

Detection and determination of pseudococaine in coca leaves and illicit cocaine samples (Casale, JF and Moore, JM), Nov., 1537

Determination of anabolic steroids by MECC, gradient HPLC, and capillary GC (Lurie, IS, Sperling, AR, and Meyers, RP), Jan., 74

Ethyl chloride: possible misidentification as ethanol (Laferty, PI), Jan., 261

Extraction and analysis of low molecular weight alcohols and acetone from fire debris using passive headspace concentration (Phelps, JL, Chasteen, CE, and Render, MM), Jan., 194

Fatality involving clothiapine and clomipramine (Romano, G and Di Bono, G), May, 877

GC quantitative determination of illicit LSD (Ripani, L, Schiavone, S, and Garofano, L), March, 512

Impurity profiling analysis of illicit methamphetamine by capillary gas chromatography (Tanaka, K, Ohmori, T, Inouse, T, and Setar, S), March, 500

Microanalysis of carbon monoxide in blood by head-space capillary gas chromatography (Van Dam, J and Daenens, P), March, 473

New application for the quantitation of cocaine base by gas chromatography (Krueger, ST), Jan., 177

Reanalysis of forensic urine specimens containing benzoylecgonine and THC-COOH (Romberg, RW and Past, MR), March, 479

Sensitive identification of hemoglobin in bloodstains from different species by high performance liquid chromatography with combined UV and fluorescence detection (Andrasko, J and Rosén, B), July, 1018

3',4',5'-Trimethoxy-substituted analogs of cocaine, *Cis-trans*-cinnamoylcocaine and tropacocaine: characterization and quantitation of new alkaloids in coca leaf, coca paste and refined illicit cocaine (Casale, JF and Moore, JM), March, 462

Classifications

Databased classification system for shoe sole patterns—identification of partial footwear impression found at a scene of crime (Mikkonen, S and Astikainen, T), Sept., 1227

Clomipramine

Fatality involving clothiapine and clomipramine (Romano, G and Di Bono, G), May, 877

Postmortem clomipramine: therapeutic or toxic concentrations? (McIntyre, IM, King, CV, Corder, SM, and Drummer, OH), March, 486

Coca alkaloids

3',4',5'-Trimethoxy-substituted analogs of cocaine, *Cis-trans*-cinnamoylcocaine and tropacocaine: characterization and quantitation of new alkaloids in coca leaf, coca paste

and refined illicit cocaine (Casale, JF and Moore, JM), March, 462

Coca leaves

Detection and determination of pseudococaine in coca leaves and illicit cocaine samples (Casale, JF and Moore, JM), Nov., 1537

Cocaethylene

Detection of cocaine, norcocaine, and cocaethylene in the meconium of premature neonates (Browne, S, Moore, C, Negrusz, A, Tebbett, I, Covert, R, and Dusick, A), Nov., 1515

Cocaine

Detection and determination of pseudococaine in coca leaves and illicit cocaine samples (Casale, JF and Moore, JM), Nov., 1537

Detection of cocaine, norcocaine, and cocaethylene in the meconium of premature neonates (Browne, S, Moore, C, Negrusz, A, Tebbett, I, Covert, R, and Dusick, A), Nov., 1515

Gas chromatography/mass spectrometry for the determination of cocaine and benzoylecgonine over a wide concentration range (<0.005-5 mg/dL) in postmortem blood (Corburt, MR and Koves, EM), Jan., 136

New application for the quantitation of cocaine base by gas chromatography (Krueger, ST), Jan., 177

3',4',5'-Trimethoxy-substituted analogs of cocaine, *Cis-trans*-cinnamoylcocaine and tropacocaine: characterization and quantitation of new alkaloids in coca leaf, coca paste and refined illicit cocaine (Casale, JF and Moore, JM), March, 462

Colchicine

Death following colchicine poisoning (McIntyre, IM, Ruszkiewicz, AR, Crump, K, and Drummer, OH), Jan., 280

Collision research

Evaluating low-speed rear-end impact severity and resultant occupant stress parameters (Rosenbluth, W and Hicks, L), Nov., 1393

Competency

Incompetent defendant: support systems help avoid future legal problems (Brown,

Competency (Cont.)

DL, Felthous, AR, Barratt, ES, Stanford, M, and Brown, LA), July, 1057

Computers

Computer enhancement of evidence through background noise suppression (Dalrymple, BE and Menzies, T), March, 537

CompuTOD, a computer program to estimate time of death of deer (Cox, RJ, Mitchell, SL, and Espinoza, EO), Sept., 1287

Restoring texts of typewriter ribbons: a reliability study of the RAW-I ribbon analysis workstation (Hunton, RK and Puckett, JT), Jan., 21

Condoms

Deduction of the order of sexual assaults by DNA analysis of two condoms (Wegel, JG, Jr. and Herrin, G. Jr.), May, 844

Congenital defects

Sudden death due to coronary artery anomalies: a case report and clinical review (Rao, C, Rao, V, Heggtveit, HA, and King, DL), Jan., 246

Cremains

Analysis of ceramic substrate found in cremains (Huxley, AK), Jan., 287

Crime scene investigation

Artefact in forensic medicine: postmortem rodent activity (Patel, F), Jan., 257

Criminal investigation

Time and distance as solvability factors in murder cases (Keppel, RD and Weis, JG), March, 386

Criminal sex offenses

Identification of sperm and non-sperm male cells in cervicovaginal smears using fluorescence in situ hybridization: applications in alleged sexual assault cases (Collins, KA, Rao, PN, Hayworth, R, Schnell, S, Tap, MP, Lantz, PE, Geisinger, KR, and Pettenati, MJ), Nov., 1347

Pedophiles' ratings of adult and child photographs using a semantic differential (Hambridge, JA), March, 456

Sex offender case study: the truth? (Dwyer, SM, Bockting, WO, Robinson, B, and Miner, MH), Jan., 241

Criminal suspects

Differentiation of truthful and deceptive criminal suspects in behavior analysis interviews (Horvath, F, Jayne, B, and Buckley, J), May, 793

Criminalistics

Anatomy and viability of *Cannabis sativa* stem cuttings with and without adventitious roots (Taylor, R, Lydon, J, and Anderson, JD), May, 769

Applications of non-destructive testing (NDT) in vehicle forgery examinations (Springer, E and Bergman, P), May, 751

Collection of fiber evidence using water-soluble cellophane tape (Chable, J, Roux, C, and Lennard, C), Nov., 1520

Databased classification system for shoe sole patterns—identification of partial footwear impression found at a scene of crime (Mikkonen, S and Astikainen, T), Sept., 1227

Death investigation after the destruction of evidence (Danto, BL and Streed, T), May, 863

Detection and determination of pseudococaine in coca leaves and illicit cocaine samples (Casale, JF and Moore, JM), Nov., 1537

Detection of trace levels of gasoline in arson cases by gas chromatography/mass spectroscopy with an automatic on-line thermal desorber (Kärkkäinen, M, Seppälä, I, and Himberg, K), Jan., 186

Differentiation of truthful and deceptive criminal suspects in behavior analysis interviews (Horvath, F, Jayne, B, and Buckley, J), May, 793

Evaluation of canines for accelerant detection at fire scenes (Kurz, ME, Billard, M, Rettig, M, Augustiniak, J, Lange, J, Larsen, M, Warrick, R, Mohns, T, Bora, R, Broadus, K, Hartke, G, Glover, B, Tankersley, D, and Marcouiller, J), Nov., 1528

Extraction and analysis of low molecular weight alcohols and acetone from fire debris using passive headspace concentration (Phelps, JL, Chasteen, CE, and Render, MM), Jan., 194

Forensic characteristics of colored polyethylene bags (Nir-EI, Y), May, 758

Forensic limnology: the use of freshwater algal community ecology to link suspects

to an aquatic crime scene in Southern New England (Siver, PA, Lord, WD, and McCarthy, DJ), May, 847

Graduate education in 'conventional' criminalistics: a proposal and reactions (Lindquist, CA, Liu, RH, Jenkins, K, and Yates, L), March, 412

High resolution electronic imaging system for crime scene use (Jackson, GR), July, 912

Homicide among black males in Jefferson County, Alabama 1978-1989 (Fine, PR, Roseman, JM, Constandinou, CM, Brissie, RM, Glass, JM, and Wrigley, JM), May, 674

Identification of a homicide victim by a Casio data bank watch (Costello, J and Zugibe, FT), July, 1117

Identification of gunshot residue particles from lead-free Sintox ammunition (Gunaratnam, L and Himberg, K), March, 532

Improved technique to enable 2-dimensional shoe sole impression evidence to be photographically recorded "to scale" (Hall, BR and Nolan, AM), July, 1094

Inappropriate use of .38 special ammunition in .30-30 rifles (Ward, ME, Conradi, S, Lawrence, CH, and Nolte, KB), Sept., 1175

Likelihood ratios for deoxyribonucleic acid (DNA) typing in criminal cases (Jarjoura, D, Jamison, J, and Androulakis, S), Jan., 64

Metal particles as evidence in criminal cases (McDermott, SD), Nov., 1552

Nuclear magnetic resonance identification of the phenylalkylamine alkaloids of khat using a Chiral solvating agent (Dawson, BA, Black, DB, Lavoie, A, and LeBelle, MJ), July, 1026

Possible approach to soil discrimination using X-ray fluorescence analysis (Hiraoka, Y), Nov., 1381

Significant fiber evidence recovered from the clothing of a homicide victim after exposure to the elements for twenty-nine days (Spencer, R), May, 854

Soot as an indicator in fire investigations: physical and chemical analyses (Pinorini, MT, Lennard, CJ, Margot, P, Dustin, I, and Furrer, P), July, 933

Time and distance as solvability factors in murder cases (Keppel, RD and Weis, JG), March, 386

Unusual explosive find (McDermott, SD), July, 1103

Crossbow—see Archery

Cyanide

Suicidal cyanide ingestion as detailed in *Final Exit* (Cina, SJ, Raso, DS, and Conradi, SE), Nov., 1568

D

Dangerousness

Cognitive model of dangerous delusional misidentification syndromes (Silva, JA, Leong, GB, Garza-Treviño, ES, Le Grand, J, Oliva, D, Jr., Weinstock, R, and Bowden, CL), Nov., 1455

Dangerousness of persons with the Othello syndrome (Leong, GB, Silva, JA, Garza-Treviño, ES, Oliva, D, Jr., Ferrari, MM, Komanduri, RV, and Caldwell, JCB), Nov., 1445

de Clérambault's syndrome

De Clérambault syndrome (erotomania) in the criminal justice system: another look at this recurring problem (Leong, GB), March, 378

Death

Acetonitrile-related death (Swanson, JR and Krasselt, WG), Jan., 271

Achalasia, the Valsalva maneuver, and sudden death: a case report (Sperry, K), March, 547

Bochdalek hernia in adulthood: a review and an autopsy case report (Salaçin, S, Alper, B, Çekin, N, and Gülmen, MK), July, 1112

Deaths due to firearms injuries in children (Choi, E, Donoghue, ER, and Lifschultz, BD), May, 685

Decade of train-pedestrian fatalities: the Charleston experience (Cina, CJ, Koelpin, JL, Nichols, CA, and Conradi, SE), May, 668

Delayed fatal hemothorax due to traumatic carotid dissection: a case report of a previously unreported cause of death (Kaplan, JA), March, 552

Death (Cont.)

Detection of the 4977 base pair mitochondrial DNA deletion in paraffin-embedded heart tissue using the polymerase chain reaction—a new method to probe sudden cardiac death molecular mechanisms? (Fouret, PJ, Nicolas, G, and Lecomte, D), May, 693

Ejection seat aircraft fatalities in the United States Military, 1966 to 1990 (Lowry, MA, Mellen, PFM, and Weedn, VW), Sept., 1153

Extensive fibrofatty infiltration of the left ventricle in two cases of sudden cardiac death (Collett, BA, Davis, GJ, and Rohr, WB), Sept., 1182

Fentanyl epidemic in Maryland 1992 (Smialek, JE, Levine, B, Chin, L, Wu, SC, and Jenkins, AJ), Jan., 159

Study of deaths involving oxycodone (Drummer, OH, Syrjanen, ML, Phelan, M, and Cordner, SM), July, 1069

Sudden death due to coronary artery anomalies: a case report and clinical review (Rao, C, Rao, V, Heggveit, HA, and King, DL), Jan., 246

Death investigation

Death investigation after the destruction of evidence (Danto, BL and Streed, T), May, 863

Medico-legal investigations of the Airbus A320 crash upon Mount Ste-Odile, France (Ludes, B, Tracqui, A, Pfitzinger, H, Kintz, P, Levy, F, Disteldorf, M, Hutt, JM, Kaess, B, Haag, R, Memheld, B, Kaempf, C, Friederich, F, Evenot, E, and Mangin, P), Sept., 1147

Death investigation laws

Standard language in death investigation laws (Hanzlick, R, Parrish, RG, and Combs, D), May, 637

Death investigation report forms

Death investigation report forms (DIRFs): generic forms for investigators (IDIRFs) and certifiers (CDIRFs) (Hanzlick, R and Parrish, RG), May, 629

Decomposition

Flow cytometry: a screening tool for high molecular weight DNA (Cina, SJ, Gelven, PL, Gittinger, CK, Re, GG, and Self, SE), Sept., 1168

Deer

CompuTOD, a computer program to estimate time of death of deer (Cox, RJ, Mitchell, SL, and Espinoza, EO), Sept., 1287

Demography

Analysis of HLA DQ α allele and genotype frequencies in populations from Florida (Crouse, CA, Feuer, WJ, Nippes, DC, Hutto, SC, Barnes, KS, Coffman, D, Livingston, SH, Ginsberg, L, and Glidewell, DE), May, 731

Assessment of frequency estimates of Hae III-generated VNTR profiles in various reference databases (Budowle, B, Monson, KL, Giusti, AM, and Brown, BL), March, 319

Dentition

Estimation of dental age using HPLC-technique to determine the degree of aspartic acid racemization (Mörnstad, H, Pfeiffer, H, and Teivens, A), Nov., 1425

SEM analysis of incinerated teeth as an aid to positive identification (Fairgrieve, SI), March, 557

Diatoms

Forensic limnology: the use of freshwater algal community ecology to link suspects to an aquatic crime scene in Southern New England (Siver, PA, Lord, WD, and McCarthy, DJ), May, 847

Diethyl ether

Differentiation of diethyl ether/acetone and ethanol/acetonitrile solvent pairs, and other common volatiles by dual column headspace gas chromatography (Logan, BK, Case, GA, and Kiesel, EL), Nov., 1544

Digital image processing

Operational experience of fingermark enhancement by frequency domain filtering (Bramble, SK and Jackson, GR), July, 920

Digitization

Computer enhancement of evidence through background noise suppression (Dalrymple, BE and Menzies, T), March, 537

DNA

Analysis and interpretation of the HLA DQ α "1.1 weak-signal" observed during the PCR-based typing method (Crouse, CA, Vincek, V, and Caraballo, BK), Jan., 41

Assessing ethnicity from human mitochondrial DNA types determined by hybridization with sequence-specific oligonucleotides (Connor, A and Stoneking, M), Nov., 1360

Assessment of frequency estimates of Hae III-generated VNTR profiles in various reference databases (Budowle, B, Monson, KL, Giusti, AM, and Brown, BL), March, 319

Assessment of PCR of the D17S30 locus for forensic identification (Ivey, JN, Atchison, BA, and Georgalis, AM), Jan., 52

Comments on the statistical aspects of the NRC's report on DNA typing (Devlin, B, Risch, N, and Roeder, K), Jan., 28

Deduction of the order of sexual assaults by DNA analysis of two condoms (Wegel, JG, Jr. and Herrin, G. Jr.), May, 844

Detection of the 4977 base pair mitochondrial DNA deletion in paraffin-embedded heart tissue using the polymerase chain reaction—a new method to probe sudden cardiac death molecular mechanisms? (Fouret, PJ, Nicolas, G, and Lecomte, D), May, 693

DNA-based approach to the identification of insect species used for postmortem interval estimation (Sperling, FA, Anderson, GS, and Hickey, DA), March, 418

DNA extraction strategies for amplified fragment length polymorphism analysis (Comey, CT, Koons, BW, Presley, KW, Smerick, JB, Sobieralski, CA, Stanley, DM, and Baechtel, FS), Sept., 1254

Evaluation of Hinf I-generated VNTR profile frequencies determined using various ethnic databases (Budowle, B, Monson, KL, Giusti, AM, and Brown, BL), July, 988

Evaluation of the AmpliType® PM DNA test system on forensic case samples (Herrin, G, Jr., Fildes, N, and Reynolds, R), Sept., 1247

Forensic application of repetitive DNA markers to the species identification of animal tissues (Guglich, EA, Wilson, PJ, and White, BN), March, 353

Identification of the heme compound copurified with deoxyribonucleic acid (DNA) from bloodstains, a major inhibitor of polymerase chain reaction (PCR) ampli-

fication (Akane, A, Matsubara, K, Nakamura, H, Takahashi, S, and Kimura, K), March, 362

Likelihood ratios for deoxyribonucleic acid (DNA) typing in criminal cases (Jarroura, D, Jamison, J, and Androulakakis, S), Jan., 64

Restriction fragment length polymorphism and polymerase chain reaction-HLA DQ α analysis of casework urine specimens (Medintz, I, Chiriboga, L, McCurdy, L, and Kobilinsky, L), Nov., 1372

Sex typing of forensic DNA samples using male- and female-specific probes (Naito, E, Dewa, K, Yamanouchi, H, and Kominami, R), July, 1009

Use of minisatellite variant repeat-polymerase chain reaction (MVR-PCR) to determine the source of saliva on a used postage stamp (Hopkins, B, Williams, NJ, Webb, MBT, Debenham, PG, and Jeffreys, AJ), March, 526

Validation studies on the forensic analysis of restriction fragment length polymorphism (RFLP) on LE agarose gels without ethidium bromide: effects of contaminants, sunlight, and the electrophoresis of varying quantities of DNA (Laber, TL, Giese, SA, Iverson, JT, and Liberty, JA), May, 707

Document examiners

Proficiency of professional document examiners in writer identification (Kam, M, Wetstein, J, and Conn, R), Jan., 5

Drift trajectories

Drift trajectories of a floating body simulated in a hydraulic model of Puget Sound (Ebbesmeyer, CC and Haglund, WD), Jan., 231

Drug identification

¹²⁵I radioimmunoassay for the dual detection of amphetamine and methamphetamine (Ward, C, McNally, AJ, Rusyniak, D, and Salamone, SJ), Nov., 1486

Drug use testing

Comparison of meconium, maternal urine and neonatal urine for detection of maternal drug use during pregnancy (Wingert, WE, Feldman, MS, Kim, MH, Noble, L, Hand, I, and Yoon, JJ), Jan., 150

Drug use testing (Cont.)

Reanalysis of forensic urine specimens containing benzoylcegonine and THC-COOH (Romberg, RW and Past, MR), March, 479

Routine analysis of breast milk for drugs of abuse in a clinical toxicology laboratory (Dickson, PH, Lind, A, Studts, P, Nipper, HC, Makoid, M, and Therkildsen, D), Jan., 207

Duty to protect

"Tarasoff" defendants: social justice or ethical decay? (Leong, GB, Eth, S, and Silva, JA), Jan., 86

E**Education**

College and university forensic science programs—graduate and undergraduate (Siegel, J and Midkiff, C), March, 577

Graduate education in 'conventional' criminalistics: a proposal and reactions (Lindquist, CA, Liu, RH, Jenkins, K, and Yates, L), March, 412

Ejection seat

Ejection seat aircraft fatalities in the United States Military, 1966 to 1990 (Lowry, MA, Mellen, PFM, and Weedn, VW), Sept., 1153

Electronic imaging equipment

High resolution electronic imaging system for crime scene use (Jackson, GR), July, 912

Electrophoresis

Flow cytometry: a screening tool for high molecular weight DNA (Cina, SJ, Gelven, PL, Gittinger, CK, Re, GG, and Self, SE), Sept., 1168

Electrostatic detection apparatus

Some parameters affecting the quality of ESDA results (Reibeling, IJ and Kobus, HJ), Jan., 15

Embolisms

Fatal carbon dioxide embolism complicating attempted laparoscopic cholecystectomy—case report and literature review (Lantz, PE and Smith, JD), Nov., 1468

Retrospective and prospective study of cerebral tissue pulmonary embolism in

severe head trauma (Collins, KA and Davis, GJ), May, 624

Energy dispersive X-ray analysis—see X-ray analysis**Engineering**

Evaluating low-speed rear-end impact severity and resultant occupant stress parameters (Rosenbluth, W and Hicks, L), Nov., 1393

Entomology

Black soldier fly *Hermetia illucens* (Diptera: Statiomyidae) as a potential measure of human postmortem interval: observations and case histories (Lord, WD, Goff, ML, Adkins, TR, and Haskell, NH), Jan., 215

Isolation of amitriptyline and nortriptyline from fly puparia (Phoridae) and beetle exuviae (Dermestidae) associated with mummified human remains (Miller, ML, Lord, WD, Goff, ML, Donnelly, B, McDonough, ET, and Alexis, JC), Sept., 1305

Preliminary observations of the effects of phenacyclidine in decomposing tissues on the development of *Parasarcophaga ruficornis* (Diptera: Sarcophagidae) (Goff, ML, Brown, WA, Omori, AI, and LaPointe, DA), Jan., 123

Enzymes

Genetic typing of the DQA1*4 alleles by restriction enzyme digestion of the PCR product obtained with the DQ Alpha Ampli-type™ Kit (Salazar, M, Williamson, J, and Bing, DH), March, 518

Erotomania

De Clérambault syndrome (erotomania) in the criminal justice system: another look at this recurring problem (Leong, GB), March, 378

Ethanol—see Alcohol**Ethics**

"Tarasoff" defendants: social justice or ethical decay? (Leong, GB, Eth, S, and Silva, JA), Jan., 86

Ethnicity

Assessing ethnicity from human mitochondrial DNA types determined by hybridization with sequence-specific oligonucleotides (Connor, A and Stoneking, M), Nov., 1360

Ethyl chloride

Differentiation of diethyl ether/acetone and ethanol/acetonitrile solvent pairs, and other common volatiles by dual column headspace gas chromatography (Logan, BK, Case, GA, and Kiesel, EL), Nov., 1544

Ethyl chloride: possible misidentification as ethanol (Laferty, PI), Jan., 261

Exhumation

Disinterment from paving materials: use of heavy equipment for exhumation and examination of bodies (Hawley, KA, Harruff, RC, Pless, JE, and Clark, MA), Jan., 100

Explosives

Unusual explosive find (McDermott, SD), July, 1103

External arcuate nucleus

Morphologic variations of the external arcuate nucleus in infants dying of SIDS: a preliminary report (Gilson, TP, Balko, G, Blisard, KS, and Taylor, KL), July, 1076

Extraction

Deduction of the order of sexual assaults by DNA analysis of two condoms (Wegel, JG, Jr. and Herrin, G, Jr.), May, 844

DNA extraction strategies for amplified fragment length polymorphism analysis (Comey, CT, Koons, BW, Presley, KW, Smerick, JB, Sobieralski, CA, Stanley, DM, and Baechtel, FS), Sept., 1254

Isolation and identification of lysergic acid diethylamide (LSD) from sugar cubes and a liquid substrate (Kilmer, SD), May, 860

F**Fentanyl**

Fentanyl epidemic in Maryland 1992 (Smialek, JE, Levine, B, Chin, L, Wu, SC, and Jenkins, AJ), Jan., 159

Fibers

Collection of fiber evidence using water-soluble cellophane tape (Chable, J, Roux, C, and Lennard, C), Nov., 1520

Significant fiber evidence recovered from the clothing of a homicide victim after exposure to the elements for twenty-nine days (Spencer, R), May, 854

Final Exit

Suicidal cyanide ingestion as detailed in *Final Exit* (Cina, SJ, Raso, DS, and Conradi, SE), Nov., 1568

Fingerprints

High resolution electronic imaging system for crime scene use (Jackson, GR), July, 912

Operational experience of fingermark enhancement by frequency domain filtering (Bramble, SK and Jackson, GR), July, 920

Fires

Evaluation of canines for accelerant detection at fire scenes (Kurz, ME, Billard, M, Rettig, M, Augustiniak, J, Lange, J, Larsen, M, Warrick, R, Mohns, T, Bora, R, Broadus, K, Hartke, G, Glover, B, Tankersley, D, and Marcouiller, J), Nov., 1528

Extraction and analysis of low molecular weight alcohols and acetone from fire debris using passive headspace concentration (Phelps, JL, Chasteen, CE, and Render, MM), Jan., 194

Soot as an indicator in fire investigations: physical and chemical analyses (Pinorini, MT, Lennard, CJ, Margot, P, Dustin, I, and Furrer, P), July, 933

Firing range

Experience with zincon, a useful reagent for the determination of firing range with respect to leadfree ammunition (Beijer, R), July, 981

Flammability

Hazard ratings of vapors from coatings and adhesives (Hauser, RL, McKeever, RB, Krause-Singh, J, and Elverum, JA), Sept., 1237

Flow cytometry

Flow cytometry: a screening tool for high molecular weight DNA (Cina, SJ, Gelven, PL, Gittinger, CK, Re, GG, and Self, SE), Sept., 1168

Fluorescence—see Luminescence**Flurazepam**

Fatality due to flurazepam (McIntyre, IM, Syrjanen, ML, Lawrence, KL, Dow, CA, and Drummer, OH), Nov., 1571

Food

Food-induced lowering of blood-ethanol profiles and increased rate of elimination immediately after a meal (Jones, AW and Jönsson, KÅ), July, 1084

Footwear

Databased classification system for shoe sole patterns—identification of partial footwear impression found at a scene of crime (Mikkonen, S and Astikainen, T), Sept., 1227

Forensic science

Applications of Fourier transform Raman spectroscopy in forensic science (Kuptsov, AH), March, 305

College and university forensic science programs—graduate and undergraduate (Siegel, J and Midkiff, C), March, 577

Computer enhancement of evidence through background noise suppression (Dalrymple, BE and Menzies, T), March, 537

CompuTOD, a computer program to estimate time of death of deer (Cox, RJ, Mitchell, SL, and Espinoza, EO), Sept., 1287

Death investigation report forms (DIRFs): generic forms for investigators (IDIRFs) and certifiers (CDIRFs) (Hanzlick, R and Parrish, RG), May, 629

Determination of anabolic steroids by MECC, gradient HPLC, and capillary GC (Lurie, IS, Sperling, AR, and Meyers, RP), Jan., 74

Differentiation of automotive and locomotive lubricant oil (Espinoza, EO, Mann, MJ, Leonardo, L, and Copeland, A), May, 839

Discrimination of ceramics—study on the microstructures of ceramics (Hashimoto, T, Deki, S, and Kanaji, Y), May, 824

Disinterment from paving materials: use of heavy equipment for exhumation and examination of bodies (Hawley, KA, Har-ruff, RC, Pless, JE, and Clark, MA), Jan., 100

Drift trajectories of a floating body simulated in a hydraulic model of Puget Sound (Ebbesmeyer, CC and Haglund, WD), Jan., 231

Experience with zincon, a useful reagent for the determination of firing range with respect to leadfree ammunition (Beijer, R), July, 981

Fluorescence detection of ethyl centralite in gunshot residues (Meng, H-H and Caddy, B), Sept., 1215

Fluorescence of petroleum products V: Three-dimensional fluorescence spectroscopy and capillary gas chromatography of neat and evaporated gasoline samples (Sheff, LM and Siegel, JA), Sept., 1201

Hazard ratings of vapors from coatings and adhesives (Hauser, RL, McKeever, RB, Krause-Singh, J, and Elverum, JA), Sept., 1237

Interpretation of fatal, multiple, and exiting gunshot wounds by trauma specialists (Collins, KA and Lantz, PE), Jan., 94

Laser interrogation of latent vehicle registration number (Russo, RE, Pelkey, GE, Grant, P, Whipple, RE, and Andresen, BD), Sept., 1331

Microanalysis of carbon monoxide in blood by head-space capillary gas chromatography (Van Dam, J and Daenens, P), March, 473

New approach to automatic comparison of striation marks (Geradts, Z, Keijzer, J, and Keereweer, I), July, 974

Operational experience of fingerprint enhancement by frequency domain filtering (Bramble, SK and Jackson, GR), July, 920

Reliability of skull photograph superimposition in individual identification (Austin-Smith, D and Maples, WR), March, 446

Standard language in death investigation laws (Hanzlick, R, Parrish, RG, and Combs, D), May, 637

Fourier transform Raman spectroscopy—see Spectroscopic analysis**Fulton, Charles C.**

Charles C. Fulton (1900-1992), microcrystal test pioneer (Evans, HK), March, 573

Fumigation

Charles C. Fulton (1900-1992), microcrystal test pioneer (Evans, HK), March, 573

G**Gas chromatography—see Chromatographic analysis****Gas chromatography/mass spectrometry—see Chemical analysis**

Gasoline

Detection of trace levels of gasoline in arson cases by gas chromatography/mass spectroscopy with an automatic on-line thermal desorber (Kärkkäinen, M, Seppälä, I, and Himberg, K), Jan., 186

Fluorescence of petroleum products V: Three-dimensional fluorescence spectroscopy and capillary gas chromatography of neat and evaporated gasoline samples (Sheff, LM and Siegel, JA), Sept., 1201

Genetic typing

Analysis of HLA DQ α allele and genotype frequencies in populations from Florida (Crouse, CA, Feuer, WJ, Nippes, DC, Hutto, SC, Barnes, KS, Coffman, D, Livingston, SH, Ginsberg, L, and Glidewell, DE), May, 731

Analysis of the HUMTH01 allele frequencies in the Spanish population (Lorente, JA, Lorente, M, Budowle, B, Wilson, MR, and Villanueva, E), Sept., 1270

Anomalous migration of PCR products using nondenaturing polyacrylamide gel electrophoresis: the amelogenin sex-typing system (Eng, B, Ainsworth, P, and Wayne, JS), Nov., 1356

Assessment of frequency estimates of Hae III-generated VNTR profiles in various reference databases (Budowle, B, Monson, KL, Giusti, AM, and Brown, BL), March, 319

Assessment of PCR of the D17S30 locus for forensic identification (Ivey, JN, Atchison, BA, and Georgalis, AM), Jan., 52

Comments on the statistical aspects of the NRC's report on DNA typing (Devlin, B, Risch, N, and Roeder, K), Jan., 28

Evaluation of Hinf I-generated VNTR profile frequencies determined using various ethnic databases (Budowle, B, Monson, KL, Giusti, AM, and Brown, BL), July, 988

Evaluation of the AmpliType[®] PM DNA test system on forensic case samples (Herrin, G, Jr., Fildes, N, and Reynolds, R), Sept., 1247

Genetic typing of the DQA1*4 alleles by restriction enzyme digestion of the PCR product obtained with the DQ Alpha AmpliType[™] Kit (Salazar, M, Williamson, J, and Bing, DH), March, 518

Prenatal exclusion of paternity by PCR-FLP analysis of VNTR (Arroyo, E, García-Sánchez, F, Gómez-Reino, F, Ruiz de la Cuesta, JM, and Vicario, JL), March, 566

Gunshot residues

Experience with zincon, a useful reagent for the determination of firing range with respect to leadfree ammunition (Beijer, R), July, 981

Fluorescence detection of ethyl centralite in gunshot residues (Meng, H-H and Caddy, B), Sept., 1215

Identification of gunshot residue particles from lead-free Sintox ammunition (Gunaratnam, L and Himberg, K), March, 532

Gunshot wounds—see Wound ballistics

H**Hair**

Hair analysis for buprenorphine and its dealkylated metabolite by RIA and confirmation by LC/ECD (Kintz, P, Cirimele, V, Edel, Y, Jamey, C, and Mangin, P), Nov., 1497

Wall hangings, hairs and The Holocaust (Brauner, P, Zamir, A, Gorski, A, Granger-Taylor, H, Sheffer, A, and Salmon, I), July, 1120

Handwriting

Proficiency of professional document examiners in writer identification (Kam, M, Wetstein, J, and Conn, R), Jan., 5

Hazards

Hazard ratings of vapors from coatings and adhesives (Hauser, RL, McKeever, RB, Krause-Singh, J, and Elverum, JA), Sept., 1237

Hemothorax

Delayed fatal hemothorax due to traumatic carotid dissection: a case report of a previously unreported cause of death (Kaplan, JA), March, 552

Hemp

Anatomy and viability of *Cannabis sativa* stem cuttings with and without adventitious roots (Taylor, R, Lydon, J, and Anderson, JD), May, 769

High performance liquid chromatography—*see* **Chromatographic analysis****Histomorphometry**

Estimation of age at death using cortical histomorphometry of the sternal end of the fourth rib (Stout, SD, Dietze, WH, İşcan, MY, and Loth, SR), May, 778

Historical skeletal remains

Accuracy of sex determination using morphological traits of the human pelvis (Rogers, T and Saunders, S), July, 1047

Method for establishing the age of subadults (Pfau, RO and Sciulli, PW), Jan., 165

The Holocaust

Wall hangings, hairs and The Holocaust (Brauner, P, Zamir, A, Gorski, A, Granger-Taylor, H, Sheffer, A, and Salmon, I), July, 1120

Homicide

Descriptive epidemiology of unnatural death in Oregon's state institutions: a 25-year (1963–1987) study. IV. The reduction of unnatural death rates during 1988–1992 in three facilities as a result of planned changes (Kamara, SG, Concannon, KW, Butler, JF, and Batten, PJ), Nov., 1432

Handling and interpretation of crossbow injuries (Downs, JCU, Nichols, CA, Scalabarnett, D, and Lifschultz, BD), March, 428

Homicide among black males in Jefferson County, Alabama 1978–1989 (Fine, PR, Roseman, JM, Constandinou, CM, Brissie, RM, Glass, JM, and Wrigley, JM), May, 674

Identification of a homicide victim by a Casio data bank watch (Costello, J and Zugibe, FT), July, 1117

Significant fiber evidence recovered from the clothing of a homicide victim after exposure to the elements for twenty-nine days (Spencer, R), May, 854

Time and distance as solvability factors in murder cases (Keppel, RD and Weis, JG), March, 386

Human behavior

Differentiation of truthful and deceptive criminal suspects in behavior analysis interviews (Horvath, F, Jayne, B, and Buckley, J), May, 793

Human identification

Accuracy of sex determination using morphological traits of the human pelvis (Rogers, T and Saunders, S), July, 1047

Analysis of ceramic substrate found in cremains (Huxley, AK), Jan., 287

Estimation of age at death using cortical histomorphometry of the sternal end of the fourth rib (Stout, SD, Dietze, WH, İşcan, MY, and Loth, SR), May, 778

Estimation of dental age using HPLC-technique to determine the degree of aspartic acid racemization (Mörnstad, H, Pfeiffer, H, and Teivens, A), Nov., 1425

Identification of a homicide victim by a Casio data bank watch (Costello, J and Zugibe, FT), July, 1117

Identification of sex from metacarpals: effect of side asymmetry (Lazenby, RA), Sept., 1188

Investigation of the 1987 Indianapolis Airport Ramada Inn incident (Clark, MA, Hawley, DA, McClain, JL, Pless, JE, Marlin, DC, and Standish, SM), May, 644

Medico-legal investigations of the Airbus A320 crash upon Mount Ste-Odile, France (Ludes, B, Tracqui, A, Pfitzinger, H, Kintz, P, Levy, F, Disteldorf, M, Hutt, JM, Kaess, B, Haag, R, Memheld, B, Kaempf, C, Friederich, F, Evenot, E, and Mangin, P), Sept., 1147

Method for establishing the age of subadults (Pfau, RO and Sciulli, PW), Jan., 165

Method for estimating weight in children from femoral midshaft diameter and age (Sciulli, PW and Pfau, RO), Sept., 1280

Positive identification by means of trabecular bone pattern comparison (Kahana, T and Hiss, J), Sept., 1325

Potential forensic applications of mini-satellite variant repeat (MVR) mapping using the polymerase chain reaction (PCR) at D1S8 (Yamamoto, T, Tamaki, K, Kojima, T, Uchihi, R, and Katsumata, Y), May, 743

Radiographic identification of unknown human remains and interpreter experience level (Hogge, JP, Messmer, JM, and Doan, QN), March, 373

Reliability of skull photograph superimposition in individual identification (Austin-Smith, D and Maples, WR), March, 446

SEM analysis of incinerated teeth as an aid to positive identification (Fairgrieve, SI), March, 557

Sex determination from the tibia: standards for contemporary Japan (İşcan, MY, Yoshino, M, and Kato, S), May, 785

Sex typing of forensic DNA samples using male- and female-specific probes (Naito, E, Dewa, K, Yamanouchi, H, and Kominami, R), July, 1009

Validation of dental radiographs for human identification (MacLean, DF, Kogon, SL, and Stitt, LW), Sept., 1195

Human immunodeficiency virus (HIV)

Stability of human immunodeficiency virus (HIV) antibodies in postmortem samples (Karhunen, PJ, Brummer-Korvenkontio, H, Leinikki, P, and Nyberg, M), Jan., 129

Human leukocyte antigen

Analysis and interpretation of the HLA DQ α "I.1 weak-signal" observed during the PCR-based typing method (Crouse, CA, Vincek, V, and Caraballo, BK), Jan., 41

Humidity

Some parameters affecting the quality of ESDA results (Reibeling, IJ and Kobus, HJ), Jan., 15

Hybridization

Identification of sperm and non-sperm male cells in cervicovaginal smears using fluorescence in situ hybridization: applications in alleged sexual assault cases (Collins, KA, Rao, PN, Hayworth, R, Schnell, S, Tap, MP, Lantz, PE, Geisinger, KR, and Pettenati, MJ), Nov., 1347

Hydraulic models

Drift trajectories of a floating body simulated in a hydraulic model of Puget Sound (Ebbesmeyer, CC and Haglund, WD), Jan., 231

Hydroquinone

Detection of hydroquinone in a poisoning case (Saito, T, Kojimahara, M, Aoki, K, and Takeichi, S), Jan., 266

I-K

Ice safety

Snowmobile fatalities (Avis, SP), Sept., 1161

Immunoassay

Significance of morphine concentrations in the cerebrospinal fluid in morphine caused deaths (Logan, BK and Lüthi, R), May, 699

Impressions

Databased classification system for shoe sole patterns—identification of partial footwear impression found at a scene of crime (Mikkonen, S and Astikainen, T), Sept., 1227

Improved technique to enable 2-dimensional shoe sole impression evidence to be photographically recorded "to scale" (Hall, BR and Nolan, AM), July, 1094

Impurities

Impurity profiling analysis of illicit methamphetamine by capillary gas chromatography (Tanaka, K, Ohmori, T, Inouse, T, and Setar, S), March, 500

Injuries

Interpretation of fatal, multiple, and exiting gunshot wounds by trauma specialists (Collins, KA and Lantz, PE), Jan., 94

Retrospective and prospective study of cerebral tissue pulmonary embolism in severe head trauma (Collins, KA and Davis, GJ), May, 624

Insects

DNA-based approach to the identification of insect species used for postmortem interval estimation (Sperling, FA, Anderson, GS, and Hickey, DA), March, 418

Isolation of amitriptyline and nortriptyline from fly puparia (Phoridae) and beetle exuviae (Dermestidae) associated with mummified human remains (Miller, ML, Lord, WD, Goff, ML, Donnelly, B, McDonough, ET, and Alexis, JC), Sept., 1305

Isopropanol

Isopropanol interference with breath alcohol analysis: a case report (Logan, BK, Gullberg, RG, and Elensbaas, JK), July, 1107

Jurisprudence

Incompetent defendant: support systems help avoid future legal problems (Brown, DL, Felthous, AR, Barratt, ES, Stanford, M, and Brown, LA), July, 1057

Jurisprudence (*Cont.*)

"Tarasoff" defendants: social justice or ethical decay? (Leong, GB, Eth, S, and Silva, JA), Jan., 86

Ketamine

Fatal ketamine poisoning (Licata, M, Pierini, G, and Popoli, G), Sept., 1314

L

Laparoscopic cholecystectomy

Fatal carbon dioxide embolism complicating attempted laparoscopic cholecystectomy—case report and literature review (Lantz, PE and Smith, JD), Nov., 1468

Laser illumination

Laser interrogation of latent vehicle registration number (Russo, RE, Pelkey, GE, Grant, P, Whipple, RE, and Andresen, BD), Sept., 1331

Last Word Society

Wall hangings, hairs and The Holocaust (Brauner, P, Zamir, A, Gorski, A, Granger-Taylor, H, Sheffer, A, and Salmon, I), July, 1120

Latent text

Platen information revealed: a technique for locating latent text on typewriter (or printer) platens (Sperry, GR), Jan., 223

Letters to the editor

Accident reconstruction (Crawford, R, III), May, 597

Addendum to "automated data analysis of fire debris samples using gas chromatography-mass spectrometry and macro programming" (Nowicki, J), May, 606

Antistatic device for use when sampling with a diamond anvil (Pettit, WE and Suzuki, EM), July, 904

Author's reply (Armbruster, DA), July, 910

Author's response (Canfield, DV), May, 601

Author's response (Kam, M), Nov., 1346

Authors' response (Kintz, P and Mangin, P), March, 302

Author's response (Lynnerup, N), May, 602

Author's response (O'Halloran, RL), Sept., 1144

Author's response (Sathyavagiswaran, L), May, 599

Author's response (Wilber, GC), May, 604

Black talon (Wilber, CG), Nov., 1343

Commentary on "autoerotic fatalities with power hydraulics" (Contostavlos, DL), Sept., 1143

Commentary on electronic communication in forensic sciences (Moore, RL), Sept., 1144

Commentary on "identifying 'does' with help of dentures" (Gurst, G), May, 597

Commentary on "proficiency of professional examiners in writer identification" (Kaye, DH), Nov., 1344

Commentary on "reduction of specular reflectance on projectiles and toolmarks by ammonium chloride fuming" (Davis, RJ), May, 598

Discussion of "a comparative study of erotomanic and obsessional subjects in a forensic sample" (Meyers, J and Meloy, JR), July, 905

Discussion of "a computer program for the estimation of time of death" (Lauridson, JR), May, 601

Discussion of "a suicide by self-decapitation" (Taff, ML, Spitz, WU, and Boglioli, LR), March, 304

Discussion of "concerning the solubility of sugar in gasoline" (Lentini, JJ), March, 303

Discussion of "method comparison of EMIT II and OnLine with RIA for drug screening" (Smith, FP), July, 909

Discussion of "opiate concentrations in human head, axillary, and pubic hair" (Smith, FP and Kidwell, DA), March, 301

Discussion of "postmortem alcohol production in fatal aircraft accidents" (Cohle, SD), May, 600

Effect of killing and preservative solutions on estimates of maggot age in forensic cases (Patel, F), July, 908

Further commentary on "police and their sidearms" (Fackler, ML), May, 602

LA Morgue goes Hollywood (Taff, ML and Boglioli, LR), May, 598

The Technical Working Group on DNA Analysis Methods (TWGDAM) consensus

approach for applying the "ceiling principle" to derive conservative estimates of DNA profile frequencies (TWGDAM Members), July, 899

Limnology

Forensic limnology: the use of freshwater algal community ecology to link suspects to an aquatic crime scene in Southern New England (Siver, PA, Lord, WD, and McCarthy, DJ), May, 847

Liver

Postmortem clomipramine: therapeutic or toxic concentrations? (McIntyre, IM, King, CV, Cordner, SM, and Drummer, OH), March, 486

Luminescence

Fluorescence detection of ethyl centralite in gunshot residues (Meng, H-H and Caddy, B), Sept., 1215

Fluorescence of petroleum products V: Three-dimensional fluorescence spectroscopy and capillary gas chromatography of neat and evaporated gasoline samples (Sheff, LM and Siegel, JA), Sept., 1201

Use of alternative light source illumination in bite mark photography (Golden, GS), May, 815

Lysergic acid diethylamide (LSD)

GC quantitative determination of illicit LSD (Ripani, L, Schiavone, S, and Garofano, L), March, 512

Isolation and identification of lysergic acid diethylamide (LSD) from sugar cubes and a liquid substrate (Kilmer, SD), May, 860

M

Malingering

Sex offender case study: the truth? (Dwyer, SM, Bockting, WO, Robinson, B, and Miner, MH), Jan., 241

Marijuana

Anatomy and viability of *Cannabis sativa* stem cuttings with and without adventitious roots (Taylor, R, Lydon, J, and Anderson, JD), May, 769

Mass disasters—see **Human identification**

Meconium

Comparison of meconium, maternal urine and neonatal urine for detection of maternal drug use during pregnancy (Wingert, WE, Feldman, MS, Kim, MH, Noble, L, Hand, I, and Yoon, JJ), Jan., 150

Detection of cocaine, norcocaine, and cocaethylene in the meconium of premature neonates (Browne, S, Moore, C, Negrusz, A, Tebbett, I, Covert, R, and Dusick, A), Nov., 1515

Mental health services

Incompetent defendant: support systems help avoid future legal problems (Brown, DL, Felthous, AR, Barratt, ES, Stanford, M, and Brown, LA), July, 1057

Mental illness

Cognitive model of dangerous delusional misidentification syndromes (Silva, JA, Leong, GB, Garza-Treviño, ES, Le Grand, J, Oliva, D, Jr., Weinstock, R, and Bowden, CL), Nov., 1455

Dangerousness of persons with the Othello syndrome (Leong, GB, Silva, JA, Garza-Treviño, ES, Oliva, D, Jr., Ferrari, MM, Komanduri, RV, and Caldwell, JCB), Nov., 1445

De Clérambault syndrome (erotomania) in the criminal justice system: another look at this recurring problem (Leong, GB), March, 378

Metabolism

Food-induced lowering of blood-ethanol profiles and increased rate of elimination immediately after a meal (Jones, AW and Jönsson, KÅ), July, 1084

Metals

Metal particles as evidence in criminal cases (McDermott, SD), Nov., 1552

Methamphetamine

Acute aortic dissections and ruptured berry aneurysms associated with methamphetamine abuse (Davis, GG and Swalwell, CI), Nov., 1481

Impurity profiling analysis of illicit methamphetamine by capillary gas chromatography (Tanaka, K, Ohmori, T, Inouse, T, and Setar, S), March, 500

Micellar electrokinetic capillary chromatography—*see* **Chromatographic analysis****Microorganisms**

Can microorganisms produce alcohol in body cavities of a living person?: a case report (Moriya, F and Ishizu, H), May, 883

Microscopy

Discrimination of ceramics—study on the microstructures of ceramics (Hashimoto, T, Deki, S, and Kanaji, Y), May, 824

Identification of gunshot residue particles from lead-free Sintox ammunition (Gunaratnam, L and Himberg, K), March, 532

SEM analysis of incinerated teeth as an aid to positive identification (Fairgrieve, SI), March, 557

Microtrace collection

Collection of fiber evidence using water-soluble cellophane tape (Chable, J, Roux, C, and Lennard, C), Nov., 1520

Minisatellite variant repeat mapping

Potential forensic applications of minisatellite variant repeat (MVR) mapping using the polymerase chain reaction (PCR) at DIS8 (Yamamoto, T, Tamaki, K, Kojima, T, Uchihi, R, and Katsumata, Y), May, 743

Misidentification syndromes

Cognitive model of dangerous delusional misidentification syndromes (Silva, JA, Leong, GB, Garza-Treviño, ES, Le Grand, J, Oliva, D, Jr., Weinstock, R, and Bowden, CL), Nov., 1455

Morphine

Significance of morphine concentrations in the cerebrospinal fluid in morphine caused deaths (Logan, BK and Lüthi, R), May, 699

Mortality data

Death investigation report forms (DIRFs): generic forms for investigators (IDIRFs) and certifiers (CDIRFs) (Hanzlick, R and Parrish, RG), May, 629

Motor vehicle accidents

Evaluating low-speed rear-end impact severity and resultant occupant stress parameters (Rosenbluth, W and Hicks, L), Nov., 1393

Skull fractures in fatalities due to motor vehicle collisions (Shkrum MJ, Green, RN, McClafferty, KJ, and Nowak, ES), Jan., 107

Murder—*see* **Homicide****Musculoskeletal system**

Estimation of age at death using cortical histomorphometry of the sternal end of the fourth rib (Stout, SD, Dietze, WH, İşcan, MY, and Loth, SR), May, 778

Identification of sex from metacarpals: effect of side asymmetry (Lazenby, RA), Sept., 1188

Method for estimating weight in children from femoral midshaft diameter and age (Sciulli, PW and Pfau, RO), Sept., 1280

Sex determination from the tibia: standards for contemporary Japan (İşcan, MY, Yoshino, M, and Kato, S), May, 785

Skull fractures in fatalities due to motor vehicle collisions (Shkrum MJ, Green, RN, McClafferty, KJ, and Nowak, ES), Jan., 107

Music

Pop-rock music as precipitating cause in youth suicide (Litman, RE and Farberow, NL), March, 494

N**Narcotics**

Hair analysis for buprenorphine and its dealkylated metabolite by RIA and confirmation by LC/ECD (Kintz, P, Cirimele, V, Edel, Y, Jamey, C, and Mangin, P), Nov., 1497

Noise suppression

Computer enhancement of evidence through background noise suppression (Dalrymple, BE and Menzies, T), March, 537

Nondestructive testing

Applications of non-destructive testing (NDT) in vehicle forgery examinations (Springer, E and Bergman, P), May, 751

Norcocaine

Detection of cocaine, norcocaine, and cocaethylene in the meconium of premature neonates (Browne, S, Moore, C, Negrusz, A, Tebbett, I, Covert, R, and Dusick, A), Nov., 1515

Nuclear magnetic resonance—*see* **Chemical analysis**

O

Odontology

Estimation of dental age using HPLC-technique to determine the degree of aspartic acid racemization (Mörnstad, H, Pfeiffer, H, and Teivens, A), Nov., 1425

Recapturing a five-month-old bite mark by means of reflective ultraviolet photography (David, TJ and Sobel, MN), Nov., 1560

SEM analysis of incinerated teeth as an aid to positive identification (Fairgrieve, SI), March, 557

Use of alternative light source illumination in bite mark photography (Golden, GS), May, 815

Validation of dental radiographs for human identification (MacLean, DF, Kogon, SL, and Stitt, LW), Sept., 1195

Oil

Differentiation of automotive and locomotive lubricant oil (Espinoza, EO, Mann, MJ, Leonardo, L, and Copeland, A), May, 839

Opiates

Study of deaths involving oxycodone (Drummer, OH, Syrjanen, ML, Phelan, M, and Cordner, SM), July, 1069

Othello syndrome

Dangerousness of persons with the Othello syndrome (Leong, GB, Silva, JA, Garza-Treviño, ES, Oliva, D, Jr., Ferrari, MM, Komanduri, RV, and Caldwell, JCB), Nov., 1445

Oxycodone

Study of deaths involving oxycodone (Drummer, OH, Syrjanen, ML, Phelan, M, and Cordner, SM), July, 1069

P

Paper

Applications of Fourier transform Raman spectroscopy in forensic science (Kuptsov, AH), March, 305

Some parameters affecting the quality of ESDA results (Reibeling, IJ and Kobus, HJ), Jan., 15

Paternity

Paternity identification in twins with different fathers (Lu, H-L, Wang, C-X, Wu, F-Q, and Li, J-J), July, 1100

Prenatal exclusion of paternity by PCR-FLP analysis of VNTR (Arroyo, E, García-Sánchez, F, Gómez-Reino, F, Ruiz de la Cuesta, JM, and Vicario, JL), March, 566

Pathology and biology

Achalasia, the Valsalva maneuver, and sudden death: a case report (Sperry, K), March, 547

Acute aortic dissections and ruptured berry aneurysms associated with methamphetamine abuse (Davis, GG and Swalwell, CI), Nov., 1481

Amplification of cDNA via RT-PCR using RNA extracted from postmortem tissues (Phang, T-W, Shi, C-Y, Chia, J-N, and Ong, C-N), Sept., 1275

Analysis and interpretation of the HLA DQ α "1.1 weak-signal" observed during the PCR-based typing method (Crouse, CA, Vincek, V, and Caraballo, BK), Jan., 41

Analysis of ceramic substrate found in cremains (Huxley, AK), Jan., 287

Analysis of HLA DQ α allele and genotype frequencies in populations from Florida (Crouse, CA, Feuer, WJ, Nippes, DC, Hutto, SC, Barnes, KS, Coffman, D, Livingston, SH, Ginsberg, L, and Glidewell, DE), May, 731

Analysis of HLA DQ α allele and genotype frequencies in populations from Florida (Crouse, CA, Feuer, WJ, Nippes, DC, Hutto, SC, Barnes, KS, Coffman, D, Livingston, SH, Ginsberg, L, and Glidewell, DE), May, 731

Analysis of the HUMTH01 allele frequencies in the Spanish population (Lorente, JA, Lorente, M, Budowle, B, Wilson, MR, and Villanueva, E), Sept., 1270

Anomalous migration of PCR products using nondenaturing polyacrylamide gel electrophoresis: the amelogenin sex-typing system (Eng, B, Ainsworth, P, and Wayne, JS), Nov., 1356

Artefact in forensic medicine: postmortem rodent activity (Patel, F), Jan., 257

Pathology and biology (*Cont.*)

Asphyxial suicide by propane inhalation and plastic bag suffocation (Avis, SP and Archibald, JT), Jan., 253

Assessing ethnicity from human mitochondrial DNA types determined by hybridization with sequence-specific oligonucleotides (Connor, A and Stoneking, M), Nov., 1360

Assessment of frequency estimates of Hae III-generated VNTR profiles in various reference databases (Budowle, B, Monson, KL, Giusti, AM, and Brown, BL), March, 319

Assessment of PCR of the D17S30 locus for forensic identification (Ivey, JN, Atchison, BA, and Georgalis, AM), Jan., 52

Black soldier fly *Hermetia illucens* (Diptera: Statiomyidae) as a potential measure of human postmortem interval: observations and case histories (Lord, WD, Goff, ML, Adkins, TR, and Haskell, NH), Jan., 215

Bochdalek hernia in adulthood: a review and an autopsy case report (Salaçin, S, Alper, B, Çekin, N, and Gülmen, MK), July, 1112

Comments on the statistical aspects of the NRC's report on DNA typing (Devlin, B, Risch, N, and Roeder, K), Jan., 28

Death following colchicine poisoning (McIntyre, IM, Ruszkiewicz, AR, Crump, K, and Drummer, OH), Jan., 280

Deaths due to firearms injuries in children (Choi, E, Donoghue, ER, and Lifschultz, BD), May, 685

Decade of train-pedestrian fatalities: the Charleston experience (Cina, CJ, Koelpin, JL, Nichols, CA, and Conradi, SE), May, 668

Deduction of the order of sexual assaults by DNA analysis of two condoms (Wegel, JG, Jr. and Herrin, G, Jr.), May, 844

Delayed fatal hemothorax due to traumatic carotid dissection: a case report of a previously unreported cause of death (Kaplan, JA), March, 552

Descriptive epidemiology of unnatural death in Oregon's state institutions: a 25-year (1963–1987) study. IV. The reduction of unnatural death rates during 1988–1992 in three facilities as a result of planned changes (Kamara, SG, Concannon, KW, Butler, JF, and Batten, PJ), Nov., 1432

Detection of the 4977 base pair mitochondrial DNA deletion in paraffin-embedded

heart tissue using the polymerase chain reaction—a new method to probe sudden cardiac death molecular mechanisms? (Fouret, PJ, Nicolas, G, and Lecomte, D), May, 693

DNA-based approach to the identification of insect species used for postmortem interval estimation (Sperling, FA, Anderson, GS, and Hickey, DA), March, 418

DNA extraction strategies for amplified fragment length polymorphism analysis (Corney, CT, Koons, BW, Presley, KW, Smerick, JB, Sobieralski, CA, Stanley, DM, and Baechtel, FS), Sept., 1254

Ejection seat aircraft fatalities in the United States Military, 1966 to 1990 (Lowry, MA, Mellen, PFM, and Weedn, VW), Sept., 1153

Evaluation of Hinf I-generated VNTR profile frequencies determined using various ethnic databases (Budowle, B, Monson, KL, Giusti, AM, and Brown, BL), July, 988

Evaluation of the AmpliType® PM DNA test system on forensic case samples (Herrin, G, Jr., Fildes, N, and Reynolds, R), Sept., 1247

Extensive fibrofatty infiltration of the left ventricle in two cases of sudden cardiac death (Collett, BA, Davis, GJ, and Rohr, WB), Sept., 1182

Fatal carbon dioxide embolism complicating attempted laparoscopic cholecystectomy—case report and literature review (Lantz, PE and Smith, JD), Nov., 1468

Fatal injuries caused by guns using shot-shell: case reports and ballistic studies (Rougé, D, Telmon, N, Alengrin, D, Marril, G, Bras, P-M, and Arbus, L), May, 650

Fatality due to flurazepam (McIntyre, IM, Syrjanen, ML, Lawrence, KL, Dow, CA, and Drummer, OH), Nov., 1571

Firearm suicides during confrontations with police (Harruff, RC, Llewellyn, AL, Clark, MA, Hawley, DA, and Pless, JE), March, 402

Flow cytometry: a screening tool for high molecular weight DNA (Cina, SJ, Gelven, PL, Gittinger, CK, Re, GG, and Self, SE), Sept., 1168

Forensic application of repetitive DNA markers to the species identification of animal tissues (Guglich, EA, Wilson, PJ, and White, BN), March, 353

- Genetic typing of the DQA1*4 alleles by restriction enzyme digestion of the PCR product obtained with the DQ Alpha Ampli-type™ Kit (Salazar, M, Williamson, J, and Bing, DH), March, 518
- Handling and interpretation of crossbow injuries (Downs, JCU, Nichols, CA, Scala-Barnett, D, and Lifschultz, BD), March, 428
- Identification of sperm and non-sperm male cells in cervicovaginal smears using fluorescence in situ hybridization: applications in alleged sexual assault cases (Collins, KA, Rao, PN, Hayworth, R, Schnell, S, Tap, MP, Lantz, PE, Geisinger, KR, and Pettenati, MJ), Nov., 1347
- Identification of the heme compound copurified with deoxyribonucleic acid (DNA) from bloodstains, a major inhibitor of polymerase chain reaction (PCR) amplification (Akane, A, Matsubara, K, Nakamura, H, Takahashi, S, and Kimura, K), March, 362
- Investigation of the 1987 Indianapolis Airport Ramada Inn incident (Clark, MA, Hawley, DA, McClain, JL, Pless, JE, Marlin, DC, and Standish, SM), May, 644
- Likelihood ratios for deoxyribonucleic acid (DNA) typing in criminal cases (Jarroura, D, Jamison, J, and Androulakakis, S), Jan., 64
- Medico-legal investigations of the Airbus A320 crash upon Mount Ste-Odile, France (Ludes, B, Tracqui, A, Pfitzinger, H, Kintz, P, Levy, F, Disteldorf, M, Hutt, JM, Kaess, B, Haag, R, Memheld, B, Kaempf, C, Friederich, F, Evenot, E, and Mangin, P), Sept., 1147
- Morphologic variations of the external arcuate nucleus in infants dying of SIDS: a preliminary report (Gilson, TP, Balko, G, Blisard, KS, and Taylor, KL), July, 1076
- Paternity identification in twins with different fathers (Lu, H-L, Wang, C-X, Wu, F-Q, and Li, J-J), July, 1100
- Potential forensic applications of mini-satellite variant repeat (MVR) mapping using the polymerase chain reaction (PCR) at D1S8 (Yamamoto, T, Tamaki, K, Kojima, T, Uchihi, R, and Katsumata, Y), May, 743
- Prenatal exclusion of paternity by PCR-FLP analysis of VNTR (Arroyo, E, García-Sánchez, F, Gómez-Reino, F, Ruiz de la Cuesta, JM, and Vicario, JL), March, 566
- Proceedings of "workshop on guidelines for scene investigation of sudden unexplained infant death"—July 12–13, 1993 (Iyasu, S, Hanzlick, R, Rowley, D, and Willinger, M), July, 1126
- Retrospective and prospective study of cerebral tissue pulmonary embolism in severe head trauma (Collins, KA and Davis, GJ), May, 624
- Sensitive identification of hemoglobin in bloodstains from different species by high performance liquid chromatography with combined UV and fluorescence detection (Andrasko, J and Rosén, B), July, 1018
- Sex typing of forensic DNA samples using male- and female-specific probes (Naito, E, Dewa, K, Yamanouchi, H, and Kominami, R), July, 1009
- Skull fractures in fatalities due to motor vehicle collisions (Shkrum MJ, Green, RN, McClafferty, KJ, and Nowak, ES), Jan., 107
- Snowmobile fatalities (Avis, SP), Sept., 1161
- Stability of human immunodeficiency virus (HIV) antibodies in postmortem samples (Karhunen, PJ, Brummer-Korvenkontio, H, Leinikki, P, and Nyberg, M), Jan., 129
- Standard language in death investigation laws (Hanzlick, R, Parrish, RG, and Combs, D), May, 637
- Study of deaths involving oxycodone (Drummer, OH, Syrjanen, ML, Phelan, M, and Cordner, SM), July, 1069
- Sudden death due to coronary artery anomalies: a case report and clinical review (Rao, C, Rao, V, Heggveit, HA, and King, DL), Jan., 246
- Suicidal cyanide ingestion as detailed in *Final Exit* (Cina, SJ, Raso, DS, and Conradi, SE), Nov., 1568
- Suicidal wound inflicted by a "power head" (Frost, RE), Sept., 1321
- Terminal ballistics of the 9mm with action safety bullet or Blitz-Action-Trauma (BAT) ammunition (Lantz, PE, Stone, RS, Broudy, D, and Morgan, TM), May, 612
- Use of minisatellite variant repeat-polymerase chain reaction (MVR-PCR) to determine the source of saliva on a used postage stamp (Hopkins, B, Williams, NJ, Webb, MBT, Debenham, PG, and Jeffreys, AJ), March, 526

Validation studies on the forensic analysis of restriction fragment length polymorphism (RFLP) on LE agarose gels without ethidium bromide: effects of contaminants, sunlight, and the electrophoresis of varying quantities of DNA (Laber, TL, Giese, SA, Iverson, JT, and Liberty, JA), May, 707

Violent suicide in South Yorkshire, England (Cooper, PN and Milroy, CM), May, 657

Patterns

New approach to automatic comparison of striation marks (Geradts, Z, Keijzer, J, and Keereweer, I), July, 974

Paving materials

Disinterment from paving materials: use of heavy equipment for exhumation and examination of bodies (Hawley, KA, Harruff, RC, Pless, JE, and Clark, MA), Jan., 100

Pedophilia

Pedophiles' ratings of adult and child photographs using a semantic differential (Hambridge, JA), March, 456

Phencyclidine

Preliminary observations of the effects of phencyclidine in decomposing tissues on the development of *Parasarcophaga ruficornis* (Diptera: Sarcophagidae) (Goff, ML, Brown, WA, Omori, AI, and LaPointe, DA), Jan., 123

Phenotyping—see Genetic typing

Phobias

Asbestos exposure and cancerphobia (Perr, IN), May, 808

Photocopiers

Simple method for sampling photocopy toners for examination by microreflectance Fourier transform infrared spectrophotometry (Andrasko, J), Jan., 226

Photography

Improved technique to enable 2-dimensional shoe sole impression evidence to be photographically recorded "to scale" (Hall, BR and Nolan, AM), July, 1094

Recapturing a five-month-old bite mark by means of reflective ultraviolet photography (David, TJ and Sobel, MN), Nov., 1560

Use of alternative light source illumination in bite mark photography (Golden, GS), May, 815

Physical anthropology

Accuracy of sex determination using morphological traits of the human pelvis (Rogers, T and Saunders, S), July, 1047

Estimation of age at death using cortical histomorphometry of the sternal end of the fourth rib (Stout, SD, Dietze, WH, İşcan, MY, and Loth, SR), May, 778

Identification of sex from metacarpals: effect of side asymmetry (Lazenby, RA), Sept., 1188

Method for establishing the age of subadults (Pfau, RO and Sciulli, PW), Jan., 165

Method for estimating weight in children from femoral midshaft diameter and age (Sciulli, PW and Pfau, RO), Sept., 1280

Positive identification by means of trabecular bone pattern comparison (Kahana, T and Hiss, J), Sept., 1325

Radiographic identification of unknown human remains and interpreter experience level (Hogge, JP, Messmer, JM, and Doan, QN), March, 373

Sex determination from the tibia: standards for contemporary Japan (İşcan, MY, Yoshino, M, and Kato, S), May, 785

Physical evidence

Death investigation after the destruction of evidence (Danto, BL and Streed, T), May, 863

Poisoning

Death following colchicine poisoning (McIntyre, IM, Ruskiewicz, AR, Crump, K, and Drummer, OH), Jan., 280

Fatal case of trichlorofluoromethane (Freon 11) poisoning. Tissue distribution study by gas chromatography-mass spectrometry (Groppi, A, Poletini, A, Lunetta, P, Achille, G, and Montagna, M), May, 871

Fatal ketamine poisoning (Licata, M, Pierini, G, and Popoli, G), Sept., 1314

Police

Firearm suicides during confrontations with police (Harruff, RC, Llewellyn, AL, Clark, MA, Hawley, DA, and Pless, JE), March, 402

Polyethylene bags

Forensic characteristics of colored polyethylene bags (Nir-El, Y), May, 758

Polymerase chain reaction (PCR)

Analysis and interpretation of the HLA DQ α "1.1 weak-signal" observed during the PCR-based typing method (Crouse, CA, Vincek, V, and Caraballo, BK), Jan., 41

Analysis of the HUMTH01 allele frequencies in the Spanish population (Lorente, JA, Lorente, M, Budowle, B, Wilson, MR, and Villanueva, E), Sept., 1270

Anomalous migration of PCR products using nondenaturing polyacrylamide gel electrophoresis: the amelogenin sex-typing system (Eng, B, Ainsworth, P, and Wayne, JS), Nov., 1356

Assessment of PCR of the D17S30 locus for forensic identification (Ivey, JN, Atchison, BA, and Georgalis, AM), Jan., 52

Detection of the 4977 base pair mitochondrial DNA deletion in paraffin-embedded heart tissue using the polymerase chain reaction—a new method to probe sudden cardiac death molecular mechanisms? (Fouret, PJ, Nicolas, G, and Lecomte, D), May, 693

DNA extraction strategies for amplified fragment length polymorphism analysis (Comey, CT, Koons, BW, Presley, KW, Smerick, JB, Sobieralski, CA, Stanley, DM, and Baechtel, FS), Sept., 1254

Evaluation of the AmpliType[®] PM DNA test system on forensic case samples (Herrin, G, Jr., Fildes, N, and Reynolds, R), Sept., 1247

Genetic typing of the DQA1*4 alleles by restriction enzyme digestion of the PCR product obtained with the DQ Alpha AmpliType[™] Kit (Salazar, M, Williamson, J, and Bing, DH), March, 518

Identification of the heme compound copurified with deoxyribonucleic acid (DNA) from bloodstains, a major inhibitor of polymerase chain reaction (PCR) amplification (Akane, A, Matsubara, K, Nakamura, H, Takahashi, S, and Kimura, K), March, 362

Potential forensic applications of minisatellite variant repeat (MVR) mapping using the polymerase chain reaction (PCR) at D1S8 (Yamamoto, T, Tamaki, K, Kojima, T, Uchihi, R, and Katsumata, Y), May, 743

Restriction fragment length polymorphism and polymerase chain reaction-HLA DQ α analysis of casework urine specimens (Medintz, I, Chiriboga, L, McCurdy, L, and Kobilinsky, L), Nov., 1372

Use of minisatellite variant repeat-polymerase chain reaction (MVR-PCR) to determine the source of saliva on a used postage stamp (Hopkins, B, Williams, NJ, Webb, MBT, Debenham, PG, and Jeffreys, AJ), March, 526

Postmortem artifacts

Artefact in forensic medicine: postmortem rodent activity (Patel, F), Jan., 257

Postmortem drug redistributions

Experimental methodology for the study of postmortem changes in toxic concentrations of drugs, using secobarbital as an example (Quatrehomme, G, Bourret, F, Liao, Z, and Ollier, A), Sept., 1300

Postmortem examinations

Investigation of the 1987 Indianapolis Airport Ramada Inn incident (Clark, MA, Hawley, DA, McClain, JL, Pless, JE, Marlin, DC, and Standish, SM), May, 644

Postmortem interval

Black soldier fly *Hermetia illucens* (Diptera: Stomyiidae) as a potential measure of human postmortem interval: observations and case histories (Lord, WD, Goff, ML, Adkins, TR, and Haskell, NH), Jan., 215

CompuTOD, a computer program to estimate time of death of deer (Cox, RJ, Mitchell, SL, and Espinoza, EO), Sept., 1287

DNA-based approach to the identification of insect species used for postmortem interval estimation (Sperling, FA, Anderson, GS, and Hickey, DA), March, 418

Preliminary observations of the effects of phencyclidine in decomposing tissues on the development of *Parasarcophaga ruficornis* (Diptera: Sarcophagidae) (Goff, ML, Brown, WA, Omori, AI, and LaPointe, DA), Jan., 123

Printers

Platen information revealed: a technique for locating latent text on typewriter (or printer) platens (Sperry, GR), Jan., 223

Propane

Asphyxial suicide by propane inhalation and plastic bag suffocation (Avis, SP and Archibald, JT), Jan., 253

Protocols

Proceedings of "workshop on guidelines for scene investigation of sudden unexplained infant death"—July 12–13, 1993 (Iyasu, S, Hanzlick, R, Rowley, D, and Willinger, M), July, 1126

Pseudococaine—see Cocaine**Psychiatry**

Asbestos exposure and cancerphobia (Perr, IN), May, 808

Cognitive model of dangerous delusional misidentification syndromes (Silva, JA, Leong, GB, Garza-Treviño, ES, Le Grand, J, Oliva, D, Jr., Weinstock, R, and Bowden, CL), Nov., 1455

Dangerousness of persons with the Othello syndrome (Leong, GB, Silva, JA, Garza-Treviño, ES, Oliva, D, Jr., Ferrari, MM, Komanduri, RV, and Caldwell, JCB), Nov., 1445

De Clérambault syndrome (erotomania) in the criminal justice system: another look at this recurring problem (Leong, GB), March, 378

Incompetent defendant: support systems help avoid future legal problems (Brown, DL, Felthous, AR, Barratt, ES, Stanford, M, and Brown, LA), July, 1057

Pedophiles' ratings of adult and child photographs using a semantic differential (Hambridge, JA), March, 456

Pop-rock music as precipitating cause in youth suicide (Litman, RE and Farberow, NL), March, 494

Sex offender case study: the truth? (Dwyer, SM, Bockting, WO, Robinson, B, and Miner, MH), Jan., 241

"Tarasoff" defendants: social justice or ethical decay? (Leong, GB, Eth, S, and Silva, JA), Jan., 86

Q**Quantitation**

New application for the quantitation of cocaine base by gas chromatography (Krueger, ST), Jan., 177

Questioned documents

Cherokee syllabary (Ramsey, SL), July, 1039

Platen information revealed: a technique for locating latent text on typewriter (or printer) platens (Sperry, GR), Jan., 223

Proficiency of professional document examiners in writer identification (Kam, M, Wetstein, J, and Conn, R), Jan., 5

Restoring texts of typewriter ribbons: a reliability study of the RAW-1 ribbon analysis workstation (Hunton, RK and Puckett, JT), Jan., 21

Simple method for sampling photocopy toners for examination by microreflectance Fourier transform infrared spectrophotometry (Andrasko, J), Jan., 226

Some parameters affecting the quality of ESDA results (Reibeling, IJ and Kobus, HJ), Jan., 15

R**Radiography—see X-ray analysis****Radioimmunoassay**

¹²⁵I radioimmunoassay for the dual detection of amphetamine and methamphetamine (Ward, C, McNally, AJ, Rusyniak, D, and Salamone, SJ), Nov., 1486

Railroads

Decade of train-pedestrian fatalities: the Charleston experience (Cina, CJ, Koelpin, JL, Nichols, CA, and Conradi, SE), May, 668

Reflective ultraviolet photography—see Photography**Restriction fragment length polymorphisms**

Restriction fragment length polymorphism and polymerase chain reaction-HLA DQ α analysis of casework urine specimens (Medintz, I, Chiriboga, L, McCurdy, L, and Kobilinsky, L), Nov., 1372

Validation studies on the forensic analysis of restriction fragment length polymorphism (RFLP) on LE agarose gels without ethidium bromide: effects of contaminants, sunlight, and the electrophoresis of varying quantities of DNA (Laber, TL, Giese, SA, Iverson, JT, and Liberty, JA), May, 707

Ribonucleic acid

Amplification of cDNA via RT-PCR using RNA extracted from postmortem tissues (Phang, T-W, Shi, C-Y, Chia, J-N, and Ong, C-N), Sept., 1275

Rock music—*see* **Music**

S

Sampling

Simple method for sampling photocopy toners for examination by microreflectance Fourier transform infrared spectrophotometry (Andrasko, J), Jan., 226

Scale (ratio)

Improved technique to enable 2-dimensional shoe sole impression evidence to be photographically recorded "to scale" (Hall, BR and Nolan, AM), July, 1094

Scanning electron microscopy—*see* **Microscopy**

Secobarbital

Experimental methodology for the study of postmortem changes in toxic concentrations of drugs, using secobarbital as an example (Quatrehomme, G, Bourret, F, Liao, Z, and Ollier, A), Sept., 1300

Sex determination—*see* **Human identification**

Sex offenders—*see* **Criminal sex offenses**

Shoe soles

Improved technique to enable 2-dimensional shoe sole impression evidence to be photographically recorded "to scale" (Hall, BR and Nolan, AM), July, 1094

Skulls—*see* **Musculoskeletal system or Historical remains**

Snowmobiles

Snowmobile fatalities (Avis, SP), Sept., 1161

Soils

Possible approach to soil discrimination using X-ray fluorescence analysis (Hiraoka, Y), Nov., 1381

Species identification

Forensic application of repetitive DNA markers to the species identification of animal tissues (Guglich, EA, Wilson, PJ, and White, BN), March, 353

Sensitive identification of hemoglobin in bloodstains from different species by high performance liquid chromatography with combined UV and fluorescence detection (Andrasko, J and Rosén, B), July, 1018

Spectroscopic analysis

Applications of Fourier transform Raman spectroscopy in forensic science (Kuptsov, AH), March, 305

Differentiation of automotive and locomotive lubricant oil (Espinoza, EO, Mann, MJ, Leonardo, L, and Copeland, A), May, 839

Spermatozoa

Identification of sperm and non-sperm male cells in cervicovaginal smears using fluorescence in situ hybridization: applications in alleged sexual assault cases (Collins, KA, Rao, PN, Hayworth, R, Schnell, S, Tap, MP, Lantz, PE, Geisinger, KR, and Pettenati, MJ), Nov., 1347

Statistical analysis

Likelihood ratios for deoxyribonucleic acid (DNA) typing in criminal cases (Jarroura, D, Jamison, J, and Androulakakis, S), Jan., 64

Violent suicide in South Yorkshire, England (Cooper, PN and Milroy, CM), May, 657

Steroids

Determination of anabolic steroids by MECC, gradient HPLC, and capillary GC (Lurie, IS, Sperling, AR, and Meyers, RP), Jan., 74

Striations—*see also* **Toolmarks**

New approach to automatic comparison of striation marks (Geradts, Z, Keijzer, J, and Keereweer, I), July, 974

Subliminal messages

Pop-rock music as precipitating cause in youth suicide (Litman, RE and Farberow, NL), March, 494

Sudden death—*see* **Death**

Sudden infant death syndrome (SIDS)

Morphologic variations of the external arcuate nucleus in infants dying of SIDS: a preliminary report (Gilson, TP, Balko, G, Blisard, KS, and Taylor, KL), July, 1076

Proceedings of "workshop on guidelines for scene investigation of sudden unexplained infant death"—July 12–13, 1993 (Iyasu, S, Hanzlick, R, Rowley, D, and Willinger, M), July, 1126

Suicide

Asphyxial suicide by propane inhalation and plastic bag suffocation (Avis, SP and Archibald, JT), Jan., 253

Descriptive epidemiology of unnatural death in Oregon's state institutions: a 25-year (1963–1987) study. IV. The reduction of unnatural death rates during 1988–1992 in three facilities as a result of planned changes (Kamara, SG, Concannon, KW, Butler, JF, and Batten, PJ), Nov., 1432

Fatality due to flurazepam (McIntyre, IM, Syrjanen, ML, Lawrence, KL, Dow, CA, and Drummer, OH), Nov., 1571

Firearm suicides during confrontations with police (Haruff, RC, Llewellyn, AL, Clark, MA, Hawley, DA, and Pless, JE), March, 402

Handling and interpretation of crossbow injuries (Downs, JCU, Nichols, CA, Scala-Barnett, D, and Lifschultz, BD), March, 428

Pop-rock music as precipitating cause in youth suicide (Litman, RE and Farberow, NL), March, 494

Suicidal cyanide ingestion as detailed in *Final Exit* (Cina, SJ, Raso, DS, and Conradi, SE), Nov., 1568

Suicidal wound inflicted by a "power head" (Frost, RE), Sept., 1321

Violent suicide in South Yorkshire, England (Cooper, PN and Milroy, CM), May, 657

Superimposition

Reliability of skull photograph superimposition in individual identification (Austin-Smith, D and Maples, WR), March, 446

Surveys

Graduate education in 'conventional' criminalistics: a proposal and reactions

(Lindquist, CA, Liu, RH, Jenkins, K, and Yates, L), March, 412

Syllabary

Cherokee syllabary (Ramsey, SL), July, 1039

T**Testimony**

"Tarasoff" defendants: social justice or ethical decay? (Leong, GB, Eth, S, and Silva, JA), Jan., 86

Time-of-death estimation—see Postmortem interval**Tissues (biology)**

Amplification of cDNA via RT-PCR using RNA extracted from postmortem tissues (Phang, T-W, Shi, C-Y, Chia, J-N, and Ong, C-N), Sept., 1275

Toners

Simple method for sampling photocopy toners for examination by microreflectance Fourier transform infrared spectrophotometry (Andrasko, J), Jan., 226

Toolmarks

New approach to automatic comparison of striation marks (Geradts, Z, Keijzer, J, and Keereweer, D), July, 974

Toxicity

Fatality involving clothiapine and clomipramine (Romano, G and Di Bono, G), May, 877

Hazard ratings of vapors from coatings and adhesives (Hauser, RL, McKeever, RB, Krause-Singh, J, and Elverum, JA), Sept., 1237

Postmortem clomipramine: therapeutic or toxic concentrations? (McIntyre, IM, King, CV, Cordner, SM, and Drummer, OH), March, 486

Toxicology

Acetonitrile-related death (Swanson, JR and Krasselt, WG), Jan., 271

Can microorganisms produce alcohol in body cavities of a living person person?: a case report (Moriya, F and Ishizu, H), May, 883

Charles C. Fulton (1900-1992), microcrystal test pioneer (Evans, HK), March, 573

- Comparison of meconium, maternal urine and neonatal urine for detection of maternal drug use during pregnancy (Wingert, WE, Feldman, MS, Kim, MH, Noble, L, Hand, I, and Yoon, JJ), Jan., 150
- Detection of cocaine, norcocaine, and cocaethylene in the meconium of premature neonates (Browne, S, Moore, C, Negrusz, A, Tebbett, I, Covert, R, and Dusick, A), Nov., 1515
- Detection of hydroquinone in a poisoning case (Saito, T, Kojimahara, M, Aoki, K, and Takeichi, S), Jan., 266
- Differentiation of diethyl ether/acetone and ethanol/acetonitrile solvent pairs, and other common volatiles by dual column headspace gas chromatography (Logan, BK, Case, GA, and Kiesel, EL), Nov., 1544
- Ethyl chloride: possible misidentification as ethanol (Laferty, PI), Jan., 261
- Experimental methodology for the study of postmortem changes in toxic concentrations of drugs, using secobarbital as an example (Quatrehomme, G, Bourret, F, Liao, Z, and Ollier, A), Sept., 1300
- Fatal case of trichlorofluoromethane (Freon 11) poisoning. Tissue distribution study by gas chromatography-mass spectrometry (Groppi, A, Poletti, A, Lunetta, P, Achille, G, and Montagna, M), May, 871
- Fatal ketamine poisoning (Licata, M, Pierini, G, and Popoli, G), Sept., 1314
- Fatality due to flurazepam (McIntyre, IM, Syrjanen, ML, Lawrence, KL, Dow, CA, and Drummer, OH), Nov., 1571
- Fentanyl epidemic in Maryland 1992 (Smialek, JE, Levine, B, Chin, L, Wu, SC, and Jenkins, AJ), Jan., 159
- Food-induced lowering of blood-ethanol profiles and increased rate of elimination immediately after a meal (Jones, AW and Jönsson, KÅ), July, 1084
- Gas chromatography/mass spectrometry for the determination of cocaine and benzoylecgonine over a wide concentration range (<0.005-5 mg/dL) in postmortem blood (Corburt, MR and Koves, EM), Jan., 136
- GC quantitative determination of illicit LSD (Ripani, L, Schiavone, S, and Garofano, L), March, 512
- Hair analysis for buprenorphine and its dealkylated metabolite by RIA and confirmation by LC/ECD (Kintz, P, Cirimele, V, Edet, Y, Jamey, C, and Mangin, P), Nov., 1497
- ¹²⁵I radioimmunoassay for the dual detection of amphetamine and methamphetamine (Ward, C, McNally, AJ, Rusyniak, D, and Salamone, SJ), Nov., 1486
- Improved gas chromatography/mass spectrometry analysis of barbiturates in urine using centrifuge-based solid-phase extraction, methylation, with d₅-pentobarbital as internal standard (Liu, RH, McKeehan, AM, Edwards, C, Foster, G, Bensley, WD, Langner, JG, and Walia, AS), Nov., 1504
- Impurity profiling analysis of illicit methamphetamine by capillary gas chromatography (Tanaka, K, Ohmori, T, Inouse, T, and Setar, S), March, 500
- Isolation and identification of lysergic acid diethylamide (LSD) from sugar cubes and a liquid substrate (Kilmer, SD), May, 860
- Isolation of amitriptyline and nortriptyline from fly puparia (Phoridae) and beetle exuviae (Dermestidae) associated with mummified human remains (Miller, ML, Lord, WD, Goff, ML, Donnelly, B, McDonough, ET, and Alexis, JC), Sept., 1305
- Isopropanol interference with breath alcohol analysis: a case report (Logan, BK, Gullberg, RG, and Elensbaas, JK), July, 1107
- New application for the quantitation of cocaine base by gas chromatography (Krueger, ST), Jan., 177
- Postmortem clomipramine: therapeutic or toxic concentrations? (McIntyre, IM, King, CV, Corder, SM, and Drummer, OH), March, 486
- Preliminary observations of the effects of phencyclidine in decomposing tissues on the development of *Parasarcophaga ruficornis* (Diptera: Sarcophagidae) (Goff, ML, Brown, WA, Omori, AI, and LaPointe, DA), Jan., 123
- Reanalysis of forensic urine specimens containing benzoylecgonine and THC-COOH (Romberg, RW and Past, MR), March, 479
- Restriction fragment length polymorphism and polymerase chain reaction-HLA

DQ α analysis of casework urine specimens (Medintz, I, Chiriboga, L, McCurdy, L, and Kobilinsky, L), Nov., 1372

Routine analysis of breast milk for drugs of abuse in a clinical toxicology laboratory (Dickson, PH, Lind, A, Studts, P, Nipper, HC, Makoid, M, and Therkildsen, D), Jan., 207

Significance of morphine concentrations in the cerebrospinal fluid in morphine caused deaths (Logan, BK and Lüthi, R), May, 699

3',4',5'-Trimethoxy-substituted analogs of cocaine, *Cis-trans*-cinnamoylcocaine and tropacocaine: characterization and quantitation of new alkaloids in coca leaf, coca paste and refined illicit cocaine (Casale, JF and Moore, JM), March, 462

Trabecular bone pattern

Positive identification by means of trabecular bone pattern comparison (Kahana, T and Hiss, J), Sept., 1325

Trace metals

Metal particles as evidence in criminal cases (McDermott, SD), Nov., 1552

Trichlorotrifluoroethane

Fatal case of trichlorofluoromethane (Freon 11) poisoning. Tissue distribution study by gas chromatography-mass spectrometry (Gropi, A, Poletini, A, Lunetta, P, Achille, G, and Montagna, M), May, 871

Twins

Paternity identification in twins with different fathers (Lu, H-L, Wang, C-X, Wu, F-Q, and Li, J-J), July, 1100

Typewriter ribbons

Restoring texts of typewriter ribbons: a reliability study of the RAW-1 ribbon analysis workstation (Hunton, RK and Puckett, JT), Jan., 21

Typewriters

Platen information revealed: a technique for locating latent text on typewriter (or printer) platens (Sperry, GR), Jan., 223

U-V

Urine

Comparison of meconium, maternal urine and neonatal urine for detection of maternal

drug use during pregnancy (Wingert, WE, Feldman, MS, Kim, MH, Noble, L, Hand, I, and Yoon, JJ), Jan., 150

Improved gas chromatography/mass spectrometry analysis of barbiturates in urine using centrifuge-based solid-phase extraction, methylation, with d₅-pentobarbital as internal standard (Liu, RH, McKeehan, AM, Edwards, C, Foster, G, Bensley, WD, Langner, JG, and Walia, AS), Nov., 1504

Reanalysis of forensic urine specimens containing benzoyllecgonine and THC-COOH (Romberg, RW and Past, MR), March, 479

Valsalva maneuver

Achalasia, the Valsalva maneuver, and sudden death: a case report (Sperry, K), March, 547

Variable number of tandem repeat (VNTR) loci—see Genetic Typing

Vegetative propagation

Anatomy and viability of *Cannabis sativa* stem cuttings with and without adventitious roots (Taylor, R, Lydon, J, and Anderson, JD), May, 769

Vehicle forgery

Applications of non-destructive testing (NDT) in vehicle forgery examinations (Springer, E and Bergman, P), May, 751

Vehicle registration decals

Laser interrogation of latent vehicle registration number (Russo, RE, Pelkey, GE, Grant, P, Whipple, RE, and Andresen, BD), Sept., 1331

Video superimposition—see Superimposition

W

Wall hangings

Wall hangings, hairs and The Holocaust (Brauner, P, Zamir, A, Gorski, A, Granger-Taylor, H, Sheffer, A, and Salmon, D), July, 1120

Weight estimation—see Human identification

Wound ballistics

Fatal injuries caused by guns using shot-shell: case reports and ballistic studies (Rougé, D, Telmon, N, Alengrin, D, Marril, G, Bras, P-M, and Arbus, L), May, 650

Firearm suicides during confrontations with police (Harruff, RC, Llewellyn, AL, Clark, MA, Hawley, DA, and Pless, JE), March, 402

Inappropriate use of .38 special ammunition in .30-30 rifles (Ward, ME, Conradi, S, Lawrence, CH, and Nolte, KB), Sept., 1175

Interpretation of fatal, multiple, and exiting gunshot wounds by trauma specialists (Collins, KA and Lantz, PE), Jan., 94

Suicidal wound inflicted by a "power head" (Frost, RE), Sept., 1321

Terminal ballistics of the 9mm with action safety bullet or Blitz-Action-Trauma (BAT)

ammunition (Lantz, PE, Stone, RS, Broudy, D, and Morgan, TM), May, 612

X**X-ray analysis**

Identification of gunshot residue particles from lead-free Sintox ammunition (Gunaratnam, L and Himberg, K), March, 532

Possible approach to soil discrimination using X-ray fluorescence analysis (Hiraoka, Y), Nov., 1381

Radiographic identification of unknown human remains and interpreter experience level (Hogge, JP, Messmer, JM, and Doan, QN), March, 373

Validation of dental radiographs for human identification (MacLean, DF, Kogon, SL, and Stitt, LW), Sept., 1195

X-ray fluorescence spectrometry—see Spectroscopic analysis
