

Recognition and Appreciation of Guest and Invited Reviewers—1997

The quality of papers and reports that appear in this journal testifies to the obvious competence and efforts of authors, but also to the largely unheralded, though essential, efforts of reviewers. It is a pleasure to recognize and pay tribute to the dedication of our reviewers in upholding the high standards of their profession and of published work in this field. We acknowledge with our thanks, and that of the Academy and the readership, the individuals listed below who served as guest or invited reviewers for Volume 42 of this journal. Their work, along with that of Editorial Board members, contributed quietly but effectively to the continued success and quality of this publication.
