

# ERRATUM

**REFERENCE:** Ragatz L, Fremouw W, Thomas T, Mccoy K. Vicious dogs: the antisocial behaviors and psychological characteristics of owners. *J Forensic Sci* 2009;54(3):699–703.

There was a misprint in the second sentence of the discussion section of the above-referenced article. Currently, the sentence reads “Each year, 4.7 million people are bitten by dogs, of which 386,000 are seriously injured and over 200 die.” This sentence is incorrect and should instead read “Each year, 4.7 million people are bitten by dogs, of which 386,000 are seriously injured and approximately 10 die.”

I apologize for any inconvenience this inadvertent error may have caused.

Laurie L. Ragatz, M.A.
