

# Erratum

Morgan A. Hanson (1991), 'A Simple Solution of the van der Waerden Permanent Problem', *Journal of Global Optimization* **1**, 287 – 294.

There is an error in the presented proof of the van der Waerden conjecture which seems to be not correctable: In the proof of Theorem 1 on line 8, page 289, the kernel  $\eta(x, u)$  has to be bounded in a neighbourhood of the point  $u$ , which is not guaranteed for the particular kernel (3.14) on page 291.
