

Announcement

TRANSCHEM 78

Fifth Symposium on the Safe Transportation of Hazardous Substances, Teesside Polytechnic, 20/21 March 1978.

Organised jointly by the Cleveland Constabulary and the Polytechnic's Department of Chemical Engineering with the active support of local industry, the meeting will consist of technical papers, visual presentations, formal and informal discussion periods. Contributions on multiloads, transfer operations, risk assessment, medical considerations and training will be given by senior personnel from industry, transport organisations, the emergency services, local and national government.

Detailed programmes and registration forms will be available in December 1977 from Mr. E. Ward, Department of Chemical Engineering, Teesside Polytechnic, Middlesbrough TS1 3BA, (Gt. Britain), telephone (0642) 244176. Offers of contributions and other technical queries may be submitted to Mr. D. W. Butcher at the same address.
