

Forthcoming Events

International Conference on Charged Particles — Management of Electrostatic Hazards and Problems, Southampton, England, September 6–8, 1982

This conference is being held at the Post House Hotel in Southampton, England, and is being held in conjunction with the Applied Electrostatics Research Group at the University. The subjects covered will be of interest to those concerned with the problems of electrostatic hazards in industry and their management in a wide variety of fields, particularly electrical, chemical and petroleum engineering, materials handling, paint and powder coating, electrophotography, precipitation, semiconductor fabrication, crop spraying, animal feedstuffs and food.

For further details, please contact: Miss Lesley Claff, Scientific and Technical Studies, Norwich House, 11–13 Norwich Street, London EC4A 1AB, United Kingdom; Telephone 01 242 2481; Telex 888870.

First International Symposium on Operating European Centralized Hazardous Waste Management Facilities, Odense, Denmark, September 20–23, 1982

Further information about this symposium, which will be conducted in English, can be obtained from: K. Kathrina Sørensen, Chemcontrol A/S, Dagmarhus, DK-1553 Copenhagen V, Denmark, tel. 45 1 14 14 90, Telex 15508; or Ted Storm, 56 Harrison Street, New Rochelle, NY 10802, U.S.A., tel. 914 632 2951, Telex 137396.

European Conference on the Evaluation of Thermic Hazards and Prevention of Runaway Chemical Reactions, Zurich, Switzerland, November 11–12, 1982

The aim of the two-day conference, which is sponsored by the *Journal of Hazardous Materials*, is mainly to present the large amount of know-how in the field of thermic hazards to anybody who is in any way concerned with the safety or carrying-out of exothermic chemical processes.

For further information, please contact: Miss Lesley Claff, Scientific and Technical Studies, Oyez International Business Communications, Norwich House, 11–13 Norwich Street, London EC4, U.K. (Tel. 01 242 2482; Telex 888870).

European Symposium on the Control and Prevention of Dust Explosions, Basel, Switzerland, November 16—17, 1982

This two-day seminar, sponsored by the Journal of Hazardous Materials, is concerned with the determination of the explosion characteristics of combustible dusts and an examination of the various influencing factors.

For further information, please contact: Miss Lesley Claff, Scientific and Technical Studies, Oyez International Business Communications, Norwich House, 11—13 Norwich Street, London EC4, U.K. (Tel. 01 242 2481; Telex 888870).

3rd National Conference and Exhibition on the Management of Uncontrolled Hazardous Waste Sites, Washington, DC, November 29—December 1, 1982

The Hazardous Materials Control Research Institute will again sponsor an annual conference on the problems of past waste disposal practices. Over 1000 attendees will be there to hear in excess of 70 papers on “Superfund”, site assessment, legal aspects and liabilities, remedial action, safety and training, how clean is clean as well as the proper approach to resource recovery and ultimate disposal. There will also be more than 100 exhibitors.
