

Announcements

7th Hazardous Materials Management International Conference and Exhibition, Atlantic City, New Jersey, June 13-15, 1989

The seventh annual presentation of the Hazardous Materials Management International Conference and Exhibition (HazMat/International '89), organised by the Tower Conference Management Co., will feature several conference sessions devoted exclusively to the concerns of the international community.

Scheduled for June 13-15, 1989, at the Atlantic City Convention Center, Atlantic City, New Jersey, these presentations will cover topics such as: "Foreign and U.S. Waste Management Practices", "Corporate Environmental Liability" and "A Global Plan for Environmental Restoration and What the Financial Considerations May Be", "Regulatory Climate in Europe and the Way it will Proceed", "The U.S. Government Position on Transboundary Issues", and "Environmental Audits for Industrial Facilities in Latin America and Europe".

These sessions are positioned to offer problem solving expertise to topics of current international concern in regards to the treatment, handling and disposal of hazardous and toxic materials and wastes.

Overall there will be more than 40 technical sessions and workshops focusing on such topics as transportation regulations, emergency response, health risk assessments, waste site remediation, in-plant spill response, governmental regulations, groundwater cleanup, air toxics and others.

The exhibition will feature over 400 display booths of products and services offered by the industry's leading suppliers.

For additional information - exhibit space availability, full conference details, housing and transportation - please contact:

6th International Symposium on Loss Prevention and Safety Promotion in the Process Industry, Oslo, Norway, June 19–22, 1989

The 6th international symposium on Loss Prevention and Safety Promotion in the Process Industry, which is the 390 event of the European Federation of Chemical Engineering, will be organised by the Norwegian Society of Chartered Engineers in collaboration with the U.S. Center for Chemical Process Safety at the Oslo Concert Hall, Munkedamsveien 14 in Oslo.

The process industry is working hard to make the plants safe. Large and small accidents, however, are still hurting people and environment, in spite of excellent results which have been made in this field through the years. Various industries have common problems, such as the chemical industry, metallurgical, nuclear, pharmaceutical, oil refining, petrochemical, pulping etc. Their tasks in safety cannot be solved just by themselves. Research, standardisation and regulations are also helpful tools.

During a conference in 1971 in Newcastle the foundation of a series of symposia was made: Delft (1974), Heidelberg (1977), Basel (1980), Harrogate (1983), Cannes (1986) and now in Oslo (1989). These events are organized under the auspices of the European Federation of Chemical Engineers.

About 250 papers have been submitted to the Scientific Committee of the Symposium this year, 70 of which have been accepted for an oral presentation and about 40 as posters. We think that the quality and diversity of the papers is a guarantee for a useful symposium.

Preprints of papers will be sent prior to the Symposium to all delegates whose registration forms/payment have been received.

Organisation

Executive Committee

Mr. Håvard Berge, (The Foundation for Scientific and Industrial Research at the Norwegian Institute of Technology)

Mr. Endre Nagell Bjordal, (Norsk Hydro A/S) member of Working Party

Mr. Jørgen Firing, (Statoil) member of Working Party

Mr. Jann H. Langseth, (The Foundation For Scientific and Industrial Research at the Norwegian Institute of Technology)

Mr. Olav Nedenes, (Norwegian Society of Chartered Engineers) chairman

Mr. Erik Rosness, (Directorate of Labour Inspection)

Mr. Arne B. Siverts, (Storebrand Insurance A/S)

Administration

Mr. Ketill Børge-Ask, (Norwegian Society of Chartered Engineers)
Miss Ellen Merethe Homb, (Norwegian Society of Chartered Engineers)

Scientific Programme Committee

Prof. Dr. Ir. J. Mewis (Belgium)	Ir. M. Vis van Heemst (Netherlands)
Ir. J. Clerinx (Belgium)	Dr. Ir. H.J. Pasma (Netherlands)
Dr. Ing. J. Skarka (C.S.S.R.)	Mr. E.N. Bjordal (Norway)
Mr. N. Hjorth (Denmark)	Mr. J. Firing (Norway)
Mr. P. Hyppönen (Finland)	Prof. J. Cisteró (Spain)
Mr. T. Lainto (Finland)	Prof. J. Blasco (Spain)
Mr. R. Grollier-Baron (France)	Mr. A. Jacobsson (Sweden)
Mr. G. Vuillard (France)	Dr. H. Frostling (Sweden)
Prof. R. Papp (France)	Dr. R. Gygax (Switzerland)
Dr. V. Pilz (F.R.G.)	Dr. S.J. Skinner (U.K.)
Dr. F.W. Schierwater (F.R.G.)	Mr. H.A. Duxbury (U.K.)
Prof. Dr. H.G. Schecker (F.R.G.)	Mr. R.C. Mill (U.S.A.)
Dr. G.F. Cutolo (Italy)	Mr. P. Peterson (U.S.A.)
Prof. Ing. G. Ferraiolo (Italy)	

Dr. Ir. H.J. Pasma is Chairman EFCE WP Loss Prevention and he and Prof. Dr. Ir. J. Mewis are also boardmembers of the Journal of Hazardous Materials.
