

Announcement

FRAGBLAST'5: 5th International Symposium on Rock Fragmentation by Blasting Montreal, Quebec, Canada, August 25–29, 1996

This series of symposia has grown in scope and immediacy since the first FRAG-BLAST held in Lulea, Sweden, in 1983. It deals with all major aspects of blasting and fragmentation research in order to bridge the gap between theory and practice whilst providing guidelines for future research.
