

Announcement

Occupational Health and Safety in Progress Northern-Baltic-Karelian Regional Symposium Lappeenranta, Finland, 12–14 August 1996

The Symposium aims to bring together representatives of authorities and practical work life, researchers and experts in the field of occupational health and safety to discuss current issues and development projects in the field of occupational safety and health in the neighboring regions of Finland, especially in Russia, Karelia, the Kola Peninsula, as well as Estonia, Lithuania and Latvia.

The purpose of the Symposium is to find out the specific fields for future collaboration and to create and strengthen opportunities for a long-term mutual collaboration between the neighboring regions of Russia, the Baltic countries and Finland.

Themes are:

1. Occupational health services
2. Occupational and environmental hygiene and toxicology
3. Physiology, ergonomics
4. Safety and risk management
5. Occupational medicine
6. Occupational psychology.
