

CONTENTS

Special Issue: Generation and Control of Hazardous Dusts From Geologic Media

Editorial

Impacts of dust on environmental systems and human health H.I. Inyang and S. Bae (Charlotte, NC, USA)	v
Technologies for laboratory generation of dust from geological materials T.E. Gill (El Paso, TX, USA), T.M. Zobeck and J.E. Stout (Lubbock, TX, USA)	1
Lidar characterization of crystalline silica generation and transport from a sand and gravel plant K. Trzepla-Nabaglo (Davis, CA, USA), R. Shiraki (McClellan, CA, USA) and B.A. Holmén (Storrs, CT, USA)	14
Wind-induced dust generation and transport mechanics on a bare agricultural field T.M. Zobeck (Lubbock, TX, USA) and R.S. Van Pelt (Big Spring, TX, USA)	26
Generation of urban road dust from anti-skid and asphalt concrete aggregates H. Tervahattu (Boulder, CO, USA and Helsinki, Finland), K.J. Kupiainen, M. Räisänen, T. Mäkelä and R. Hillamo (Helsinki, Finland)	39
Estimating windblown PM-10 emissions from vacant urban land using GIS S.S. Pulugurtha (Charlotte, NC, USA) and D. James (Las Vegas, NV, USA)	47
Dispersion modeling of PM10 released during decontamination activities C. Ghenai and C.X. Lin (Miami, FL, USA)	58
Seasonal variations of lead concentration and loading rates in residential house dust in northern Idaho V. Petrosyan (Yerevan, Armenia), M.C. von Braun, S.M. Spalinger and I.H. von Lindern (Moscow, ID, USA)	68
Fractionation of metals in street sediment samples by using the BCR sequential extraction procedure and multivariate statistical elucidation of the data Ş. Kartal, Z. Aydın and Ş. Tokaloğlu (Kayseri, Turkey)	80
Dust dispersal and Pb enrichment at the rare-metal Orlovka–Spokoineo mining and ore processing site: Insights from REE patterns and elemental ratios A. Dolgoplova, D.J. Weiss, R. Seltmann (London, UK) and P. Dulski (Potsdam, Germany)	90
Assessment of environmental radon hazard using human respiratory tract models K.N. Yu, B.M.F. Lau (Hong Kong, PR China) and D. Nikezic (Kragujevac Serbia and Montenegro)	98
Soil desiccation rate integration into empirical dust emission models for polymer suppressant evaluation S. Bae, H.I. Inyang (Charlotte, NC, USA), T.C. De Brito Galvão (Belo Horizonte, Brazil) and G.E. Mbamalu (Columbia, SC, USA)	111
